MAYNARD

DIGITAL THIS WEEK

September 1, 1980

Acton group Greenville bound

The Greenville startup group (not all of whom are relocating) includes (l. to r.): Gerry Lordi, Barbara Eggers, Frank Kuba, Janet Miller, Jill Olszewski, Linda Nelson, Sue McCarty (sitting), Kim Kapstad, Joe Cannizzaro (Project Manager), Jim Guyton, Charlie Rice and Chuck Diver. Not shown: John Caulfield (Plant Manager), Tony Graves (Purchasing Manager), Jack Donahue (Long Range Planning Manager), Bill Bennett (MIS Manager), Shelley Moorehead (Personnel Manager), Shirley Parsons, Phil Scribner, Warren Stone, Bill Jennigan and Shirley Josephson.

The startup group for Digital's new plant in Greenville, S.C., just relocated from Acton, Mass. For the next year they will be working in leased office space directly across from the Greenville construction site.

Eventually, the new plant will employ about 600 people and have the capacity to produce more printed wiring board than all of Digital's previous board shops (Maynard, San German and Phoenix) combined. It is Digital's first plant in the South and also our first standalone printed wiring board plant. Production should start about January or February 1982, building to full capacity by fiscal 1985. This plant, a part of the General Manufacturing Group, will primarily make high technology multilayer boards.

Since groundbreaking on June 6, the site has been levelled. Concrete

footings are being poured and, by January the building will be enclosed. Then work will begin on the interior of the 200,000 sq. ft. facility.

Some of the people now relocating were hired specifically for Greenville, up to a year ago when the project started. Others transferred from other positions within Digital. Together they have been planning for staffing and training at the new facility. Fifteen have already relocated. Another six will be going this fall.

Digital buys Tempe board shop

Digital has purchased a 150,000 sq. ft. printed circuit board production facility in Tempe, Arizona from ITT Courier Terminal Systems, Inc. for an undisclosed sum. In addition, we have hired about 140 production and

Credit union offers car loans

With over 9000 members and over \$8.5 million in assets--after just four months--the Digital Credit Union (DCU) is offering new and used car loans, motorcycle loans and loans secured by money on deposit ("secured share loans"). The car loans are at 12.5%, compared to an average of about 15% at other financial institutions in the Boston area.

To apply you must be a DCU member for at least 30 days and a Digital employee for at least 90 days. Downpayment--20% for new cars, 30% for used. Each member may borrow up to \$10,000 per vehicle for a total limit of \$20,000. Members who recently financed cars at 13-18% may apply for a DCU loan at a lower rate.

Five offices are now open--PK3, the Mill, Westminster, Merrimack and Marlboro. Additional offices will open this fall in Westfield, Phoenix, Salem and Colorado Springs. Credit union records are centralized on a PDP-11/70 so employees can make transactions from any location.

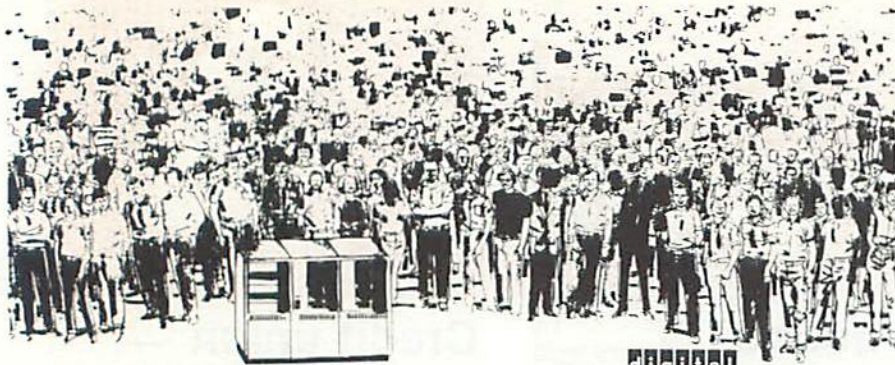

Once you become a DCU member, you can stay a member, regardless of whether you stay with the company, as long as you keep \$5 on deposit.

Yes, Marlboro, you do have a credit union

The recently opened Marlboro office is in the corridor to the left as you enter the cafeteria from the main hall of MR1, on the right if you enter from MR2. You have to enter the cafeteria to get to it.

supervisory personnel who had been employed by Courier at that site. We will occupy the building immediately and begin to produce boards for our own use.

Wednesday is photo day

Remember -- volunteers are needed to stand behind Digital products, Wednesday, Sept. 3 at 4 p.m. on the lawn in front of PK3 by Rte. 27. At that time Benton and Bowles, Digital's new ad agency, will take photos for an ad that says we have 14,000 people in Customer Services supporting our products.

Jack Shields, vice president, Customer Services, has invited all employees to participate, with their manager's consent. Services people from Parker Street are particularly

urged to participate. Employees from other facilities should remember that parking is limited at Parker Street. They should come by shuttle, if possible, to avoid creating a traffic jam.

To make this ad a success, we need hundreds, even thousands of volunteers. All participants will receive a souvenir copy of the ad, and photos taken at the event will probably be used to decorate walls around Digital. The ad itself will appear in *Business Week* and *Dun's Review*.

Making jobs easier to find

Looking for the opportunities for advancement within the company? Every other week the JOBS bulletin now lists about 1500 openings, representing about 75-80% of the jobs available in the U.S., plus some from Europe and GIA. (No Canadian jobs, and, in the case of Manufacturing, only New England jobs are listed).

A new format makes it easier to find what you want. Jobs from the same operating group (e.g., Central Engineering, Customer Services, Finance & Administration, Manufacturing, Personnel) are listed together in the same section. Jobs are also cross-referenced by the type of work to be performed (e.g., accounting, drafting,

order administration, software engineering). For convenience, all European jobs are listed together, as are the jobs in GIA.

Particularly critical positions that must be filled immediately are listed up front as "jobs of the week". More changes now in the works should further improve the usefulness and timeliness of the JOBS bulletin.

A diagram at the beginning of the bulletin explains the format used for individual job descriptions. Please note that all phone numbers listed in JOBS are DTN numbers.

All personnel offices have at least one copy available for serious job hunters to consult. For further information, call DTN 223-5938

Marlboro holds blood drive

Marlboro will hold its September blood drive in the MR-1 cafeteria conference room, Sept. 18, 9 a.m. -2:45 p.m. Employees at Burroughs Plaza are also invited to participate. Please call DTN 231-6444 for an appointment.

Bible group resumes study

The Parker Street Bible study group will resume its Tuesday noon meetings beginning Sept. 9. The group encourages those who would like to learn more about the Bible to join for discussion and fellowship from noon to 12:45 in Conference Room A, PK3-1/pole 23C.

For further information about the Parker Street group or about similar groups that meet in other Digital facilities, contact Paul DeVivo, DTN 223-6371.

Commuter Corner

Find out how to cut down on commuter costs by contacting the Commuter Transportation Department, DTN 251-1525.

Tewksbury shelves "project elf"

To publicize its library (hidden safely on the second floor of a building that seems to have no second floor), Tewksbury held a "color the elf" contest. (That's "elf" as in "book sh-elf"). Forty children of employees submitted entries, and first prize went to 12-year-old Jennifer Potter, daughter of Geoffrey Potter, engineering manager for distributed and midrange systems.

Who's on first?

That question will soon be answered, when captains turn in their line-ups for the Second Annual United Way Softball Game. Bill Eash, team captain for Technical OEM has challenged Al Bertocchi and other Operations Committee members to go to bat for the United Way. All employees are invited to attend the game -- Sept. 23, 5:30 p.m., at Featherland Park in Sudbury. Further details will appear in the next issue of DTW.

Births

A son, **Eric Jason**, born May 5 to **Carol** and **Alain Hanover**. Alain works in VLSI Advanced Development in Hudson.

A daughter, **Ann Marie Lynn**, born June 10 to **Marianne** and **Fred Parker**. Fred works in the semiconductor facility in Hudson.

A daughter, **Diana**, born June 16 to **Marilyn** and **Hank Reinhardt**. Marilyn works in the Contracts Department in Marlboro.

A son, **Drew Jackson**, born June 16 to **Lynn** and **Jack Downing**. Jack works in DEC Standards at the Mill.

A son, **David Edward**, born June 27 to **Carol** and **Ed Krikorian**. Ed works in In-House Field Service in Northboro.

A son, **Scott David**, born June 30 to **Chris** and **Bruce Meacham**. Bruce works in PDP-8 Engineering in the Mill.

A daughter, **Chandra Mariea**, born July 13 to **Ramona** and **Pat Roach**. Pat works in Educational Services Development and Publishing in Maynard.

A son, **Thomas Karl**, born July 6 to **Bessy** and **Tom Mace**. Tom works in the Educational Services Development and Publishing Group in Marlboro.

A daughter, **Dawn Trisha**, born July 14 to **Anita** and **Dale Straupe**. Anita previously worked for CSS in Nashua. Dale works in Educational Services Development & Publishing in Marlboro.

A son, **Timothy Edward**, born July 15 to **Carl** and **Patricia Sweeney**. Carl works in the Security Department at Parker St.

A daughter, **Elizabeth**, born July 28 to **Maria** and **Kenneth Kehoe**. Maria works in Personnel in Waltham.

A son, **Nicholas James Burton**, born July 29 to **Leslie** and **Dave Florcik**. Dave works in Simulation and Test Applications in Maynard.

Ed Services offers new courses and seminars

How to manage distributed data processing

Managers often have to make decisions as to what computing resources to use to solve business problems. A three-day non-technical seminar "Management Control of the Distributed Computing Environment" will provide such managers with tools for evaluating whether distributed data processing (DDP) meets their needs. It also will suggest steps to insure that distributed data processing matches their business structures.

Areas to be covered include: organizational impact of DDP, features/benefits/opportunities matrix, office automation in the distributed environment, the DDP decision matrix, risk management of DDP, pitfall, cost occurrence vs. frequency of occurrence, and the changing roles of the data processing manager and staff.

Seminar leaders are Donald T. Winski, general manager, Management Information Services, Scallop Corp., a Royal Dutch/Shell Group Co.; and Michael O'Connell, manager of long range planning for Educational Services at Digital.

This seminar is open to managers in any discipline. To register or for further information, call the Seminar Registrar, DTN 223-2958.

How to get the most from your RSTS/E system

"RSTS/E System Performance Evaluation and Optimization" will show how to analyze your RSTS/E system throughput and what to do to optimize the system for your needs. Scheduled for Oct. 6-8 at Bedford, it will cover hardware configuration, application design and optimum coding of BASIC programs. Participants should have previously taken the System Management or System Programmer courses and have several months in-depth experience with RSTS/E.

To register or for further information, call the Seminar Registrar, DTN 223-2858.

Intro to networks

"Network Architectures and Applications" will review distributed data processing concepts and introduce data communications and networking fundamentals. This five-day course for application analysts, programmers and development managers with little or no data communications experience will overview network architectures (DNA, SNA, X.25) and DECnet products and go over the principles of network application design and implementation. The instructors will use case studies and application-related DECnet demos. They recommend that students have a minimum of one year's experience in development of batch or on-line applications.

To enroll or for further information, call the Customer Registrar DTN 249-2380

Intro to digital logic

A new self-paced audio visual course "Introduction to Digital Logic" teaches the student to recognize the logic symbols used by the computer industry, to interpret and use logic diagrams, truth tables and timing diagrams; and to analyze the behavior of simple and complex logic circuits. To get full benefit from this course, the student should be able to add and subtract binary numbers and to convert from one number base to another and should have a general understanding of how a digital computer operates -- information conveyed by the Introduction to Minicomputers course.

For further information, contact Employee Education Registrar, DTN 249-2674.

Intro to real time

An introduction to real-time computer systems, "Real-Time Applications" is intended for systems analysts and programmers or anyone wanting further insight into real-time systems in general and RSX-11 and RT-11 in

particular. Slated for Sept. 22-24 at Bedford, this seminar will deal with all the steps involved in implementing a real-time system, including system specification, design, development and installation.

To register or for further information, call the Seminar Registrar, DTN 223-2858.

IQL for non-programmers

The Interactive Query Language (IQL) can manipulate data in DECsystem-10 or DECSYSTEM-20 computers. It can select and sort records by a variety of conditions, calculating new data items and producing titled and formatted reports.

A one day course for the non-programmer who needs to access and manipulate data, "IQL User" shows how to define and update IQL data dictionaries, create, store, retrieve and edit queries, browse through and update data, and produce reports suitable for inclusion in internal documents. As a prerequisite, students should be able to use a terminal to log onto a DECsystem-10 or DECSYSTEM-20 and execute commands necessary to run programs, type and print files and determine the files in their dictionary.

To register or for further information, call DTN 249-2670.

Computer ABCs

Intended for non-technical professionals, "The A (Applications), B (Basics), C (Concepts of Computers)" introduces the student to common terms used in the computer industry. This new five-day course will discuss such topics as computer applications, computer families, the hardware elements of a computer system, system architecture and configuration, the software connection and data communications.

Classes will be held at Bedford, Sept 22-26, Oct. 6-10, Nov. 10-14, Nov. 17-21 and Dec. 15-19. To enroll, call the Employee Education Registrar, DTN 249-2676.

Westminster wins softball marathon

5

Westminster's Junior Duncan hit a game-winning grand slam homer in the game against the Maynard Board Shop. Here he collects another hit, as Salem catcher Jerry Dion watches.

Timmy Leary pitched all five games for Westminster, winning four of them for the Digital softball championship

How would you like to play eight games of softball in just three days? How about a quadruple-header -- four games, one right after the other? Who do you know who could pitch five games in three days or three games in a single day?

Digital's fourth annual invitational softball tournament was like softball's equivalent of a marathon -- a grueling endurance contest.

The Giants from Salem Systems Manufacturing had the roughest schedule. It was a double elimination tournament; so teams played until they had lost two games. Salem lost its very first game to the Maynard Board Shop. That put them on a schedule where they had to play eight games over the weekend and win seven in a row to come out champions. As it turned out, they won six in a row, losing the very last -- the fourth game of their quadruple header -- to the Warehouse I team from Westminster.

Westminster won its first three games, lost to the Salem Giant's 4-1 in the first game of the finals, then came back to win the last and deciding game 7-1. Timmy Leary pitched all five games for Westminster. In addition, he knocked in the tying run and scored the winning run in the last half of the last inning of their first game.

According to team captain, Al "D" Desgroseillier, the Westminster team had a different hero each game. In particular, John Keaveny hit a decisive two run home run in the final game; Mike Lapointe hit two home runs in a

Salem's Artie Mansor slides but is forced out at the plate by Westminster catcher Bill Curtis.

single game; Junior Duncan hit a grand slam in the first inning of their game against the Maynard Board Shop; and Rick Lapointe (Mike's brother) hit .666 for all five games, going 10 for 15 -- all bunt singles.

For Salem, Ted Levesque pitched five of the eight games, including three games on a single day. According to team co-captain Ron Paradise, their offense was largely a team effort -- hitting singles and doubles and

moving the runners along. By the last game, they simply ran out of steam.

The Maynard Board Shop came in third, Maynard's Programming I team came in fourth, and the Marlboro Desperados tied for fifth with Woburn. The other seven teams that participated came from Kanata, Westfield, Springfield, Salem and Westminster. The local Digital leagues represented include some 66 softball teams or about 1320 players.

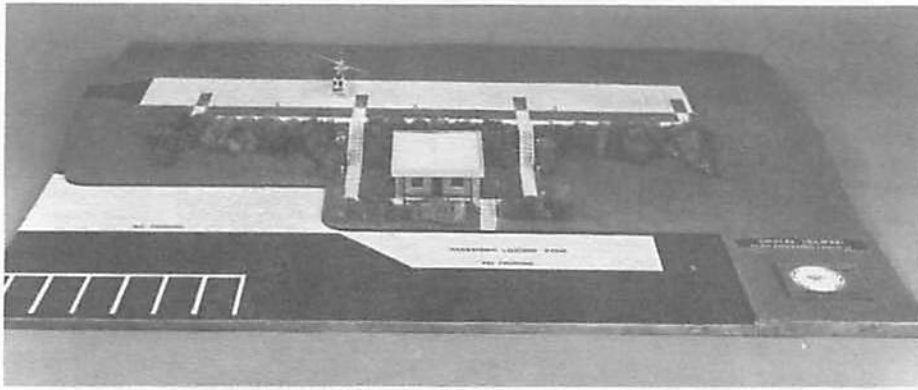

Last reminder -- HMO enrollment time

Act now if you want to make changes in your medical insurance coverage. Submit any changes to your Personnel department no later than Friday, Sept. 19.

Your Personnel department has in-

formation on John Hancock insurance and on local Health Maintenance Organizations (HMOs). Scheduled for open houses at HMOs are posted in your building.

Helipad under construction

Work has begun on the new Parker Street helipad, with spaces for four copters, to the rear and left of the present one, on the rise at the edge of the woods. A heated/air conditioned waiting shelter at the parking lot level will have someone available to assist passengers. A model in the PK3 lobby shows the setup as it will be at completion in about 12 weeks.

Candlepin leagues start

It's time to sign up for candlepin bowling. Last year about 130 people participated, with 16 teams in the Tuesday night league and 14 in the Wednesday night league.

The Tuesday league consists solely of Digital employees; the Wednesday league also welcomes non-Digital bowlers (if you would like to team up with your spouse or friend).

The season runs Sept. - April, and each evening costs -- \$2.50 for three strings (including dues). The leagues play at Kelly's Lanes, 24 Main St. Maynard.

To establish averages, newcomers must bowl three strings -- Sept. 3. for the Wednesday league, Sept. 9 for the Tuesday league, at 5:35 p.m. Regular league play begins Sept. 10 for the Wednesday league, Sept. 16 for Tuesday, also at 5:35 p.m.

To join, fill out the coupon below and send it to George Gerelds, ML5-3/E22, for the Tuesday league or to Joan Holmes, ML5-1/P55, for the Wednesday league.

Calling all bridge players

Again this year, Digital employees plan to field one or more teams in the Route 128 Industrial Bridge League. The league plays team-of-four duplicate bridge with teams representing many companies in the Route 128 area.

Sanctioned by the American Contract Bridge League, the games count toward master points.

The league plays on the first and third Wednesdays of the month between September and May at a site in the 128 area. If you are interested in competing as a regular or as a substitute, please contact team captain Alan Kotok at DTN 223-7381

Think basketball

The Digital basketball league is getting set for the coming season. Every team interested in playing in the league should send a representative to an organizational meeting in Jim Carron's office in the Acton (AC) facility, noon, Wednesday, Sept. 10.

Teams consist of a minimum of nine players. They play weekly in Hudson, Mass. Dues will be about \$16.

If you are interested in joining a team or forming a new team, call Jim Carron, DTN 232-2432.

Tennis outing

Quiet Sports (a sports store in Concord) and Rossignol (a manufacturer of tennis equipment) will sponsor a tennis outing for Digital employees and their families on Sunday, Sept. 7 (rain date Sept. 14). Held at the Nashoba Valley Tennis Center, Rte. 27, Acton, at 1 p.m., the outing will consist of an exhibition by state ranked pros (Rocky Jarvis and Al Rogers), teaching clinics for everyone and a fast serve contest (with handheld radar gauging ball speed). Although you should bring your own racket, demo rackets will also be available for your use. Tennis equipment will be awarded as prizes.

If you plan to attend, please return the following form to: Digital's Tennis Committee, PK3-2/H17.

CLIP & SEND

I'm interested in joining the Digital candlepin bowling league.

How well do you sell?

Does your job require you to convince others, present your ideas or motivate others to buy your ideas? In other words does your job require you to sell?

If so Sales Skills Training courses -- in selling techniques, presentation techniques, understanding people and financial aspects of selling -- may help you improve your effectiveness.

The following courses are taught on a regular basis at the Boylston Training Center: Managing Interpersonal Relations (2 days), Effective Presentations (2 days), Selling Techniques (3 days), Management of the Selling Process (3 days), and Financial Logic in Selling (2 days).

To learn more about these courses or to enroll, contact Susan Holmes, DTN 245-5212.

Vanpool reps meet

Digital now has 77 commuter vans on the road, carrying over 1000 people to work each day. Representatives from these vanpools (elected by a vote of all the drivers from the various sites in Mass. and N.H.) meet once a month with vanpool administration to talk about matters of common concern. The committee includes (l. to r.): Steve Leonard (admin.), Bill Landers (Bedford), Lou Cohen (Mill), Tony Membrino (Mill), Diane Sarkin (admin.), John Coppinger (Parker St.), and Andrea DerMarderosian (admin.). Members not shown: Harold Woods (PMR), Virginia Barker (Parker St.), Jerry DeGrace (Marlboro) and Rick Enman (Salem).

Mill now has two Petty Cash offices

A new Petty Cash/Employee Expense site just opened at ML1-5, pole A21. Its hours are: 9 a.m. - 11:30 a.m. and p.m. - 3:30 p.m. Other Petty Cash offices are located at PK3-2, ML5-2 and Powder Mill Rd.

Hotline for word processing

The Office Systems Department at PK1 has a telephone assistance service for employees with word processing equipment. If you want advice on operating your word processor, suggestions on maintenance and supplies of a list of word processing training programs, call Olivia Scansaroli, DTN 223-3566.

Employee discount

A trip to San Francisco, Hawaii and Las Vegas for 12 days and 11 nights is available to employees for \$699 -- a \$300 discount -- for the Dec. 1 departure date. Price (based on double occupancy) includes air fare and hotel (two nights in San Francisco, seven nights in Honolulu, two nights in Las Vegas), but does not include a 15% tax and service charge. Contact your local Employee Activities coordinator for further details.

Ticket sales - Energy Fair

Designed as a family event for all ages, the "You've Got the Power" Energy Fair will focus on the benefits of conservation and alternative energy options. There will be exhibits, demonstrations, speakers, workshops, music, and games. Workshops will range from how to build solar window boxes to how to organize conservation initiatives in your own town.

Hosted by Lieutenant Governor Tom O'Neill in cooperation with the Consumer Affairs Foundation, the fair will take place on Sept. 13 and 14 at the Harbor Campus of the University of Massachusetts, Boston. Tickets \$1 (good for one day only). Regular price \$2.50. Orders must be received by Sept. 10.

CLIP AND SEND

Use a separate form for each event. (Make photocopies, if necessary).
