Report of the Board of Selectmen

The Board of Selectmen of the Town of Maynard respectfully submit for your approval their annual report and those of the various departments of the town government.

An examination of the report of the Town Accountant showing the various business transactions of the town will reveal the manner in which the taxpayers' money was expended during the year 1947.

Two major projects accomplished during the year just completed are:

- (1) The construction of the highway department garage on Great Road.
- (2) The installation of a much needed drainage system in the North East section of the Town.

Because of the increase in cost of materials, no definite plan has been made for major repairs on present buildings, or for the construction of new buildings.

For the future betterment of the community it is the feeling of the Board of Selectmen that the town should seriously consider the following proposals:

- (1) A consolidation of the necessary departments into one unit known as the Public Works Department, which should prove a financial saving to the town.
- (2) A Planning Board elected by the people to serve as an advisory group by bringing to the attention of the Board of Selectmen the needs of the community.
- (3) Zoning laws should be drafted in order to assure the present property owners that desirable buildings would always be constructed within the limits of the town.

We wish to express our appreciation to all departments of the town, committees, and citizens for their cooperation during the past year.

Respectfully submitted,

OLIVER WARILA, Chairman
WILLIAM J. BAIN, Secretary
JOSEPH P. DINEEN

Report of Superintendent of Streets

To the Honorable Board of Selectmen:

I herewith submit my report for the year 1947 as Superintendent of the Street Department.

MAINTENANCE

The annual spring cleaning of sand from the streets and sidewalks was done. The streets were swept in the business section each week and the rubbish was collected from the stores. The street signs, posts, fences and Town Line signs were painted.

DRAINAGE

The catch basins were cleaned, some were adjusted to grade, three covers were replaced with new frames and grates.

A start was made this year in constructing the drainage of Assabet Park and New Village. A contract was awarded to the George Greenough Construction Co. to lay a 42" RC Storm drain trunk line from the Assabet River under Powdermill Road, Douglas Avenue, and Waltham Street to the brook inlet at Russo's property. This will take care of the flood conditions. The rest of the drainage as planned for the New Village should be constructed on a small scale, a part each year, taking about 5 years to complete it.

STREETS TREATED WITH BITUMINOUS IN 1947

SNOW

We had a total accumulation of 67" of snow caused by 16 snow storms and 9 freezing rain and sleet storms.

DATES OF SNOW STORMS

January 1	5"
January 5	2"
January 16	2"
February 7	2"
February 8	2"
February 20	3"
February 21	10"
March 2	3"
April 20	2"
April 21	2"
November 12	2"
December 5	4"
December 7	2"
December 10	2"
December 22	12"
December 26	12"
Total	<u>67"</u>

The snow was removed from the business areas, Churches, and schools, and all the streets were plowed and sanded as were the sidewalks.

The State Department of Public Works renewed their contract for paying one half the cost of plowing Route 117.

Five years ago we started an experiment with the placing of sand barrels at various places about the town hoping that the public would cooperate by using them. This has proven to be so successful that to date we now have 44 barrels at various points. The public keeps asking for them. The Department is more than grateful for their cooperation.

CHAPTER 90 MAINTENANCE

Shoulders and drainage were cleaned and the brush cut on Parker Street, Great Road, Powdermill Road, Main Street, Acton Street, Haynes Street, Brown Street, and Waltham Street. All the fences and guard rails were painted. 10,667 square yards of Parker Street was surfaced sealed with oiled pea stone.

NEW EQUIPMENT PURCHASED

½ ton G. M. C. Pickup Truck

CHAIN LINK FENCE

445 feet of Chain Link Fence was erected on Walnut Street Bridge approach, Florida Road approach, and Main Street at Rafferty's property.

INVENTORY

Equipment	\$43,094.00
Repair and Replacement Parts	804.10
Construction Materials	604.18
Tools and Machinery	2,015.80
	<hr/>
Total	\$46,518.08

GARAGE

At the annual Town meeting there was an appropriation of \$18,500.00 made to construct a garage. We have built a Quonset 40 x 100 equipped with heat, plumbing, electrical works, and insulation. This is something that should have been done years ago. We now can maintain and house our equipment properly. We wish to extend at this time an invitation to the public to inspect this building at their pleasure.

CONCLUSION

The Town Accountant report will show the expenditures of this department.

I am grateful for the assistance given me by the Board of Selectmen and the other town officials, and also to the department employees who have been so co-operative.

Respectfully submitted,

RAYMOND J. SHERIDAN,
Superintendent of Streets.

Report of Shade Tree and Moth Division

To the Honorable Board of Selectmen:

Gentlemen:

This year sixty shade trees were planted in various sections of the town. Five of these replaced trees which were destroyed by gas in the previous year. This is in accordance with my program of planting new trees at a rate which far exceeds the amount destroyed each year. It is inevitable that each year a certain amount of trees are destroyed either by disease, gas, automobiles, or storms. In the year 1947 eight trees, destroyed by various above mentioned reasons, had to be taken down.

An estimated 4000 scars on the shade trees were painted with Cabot's Tree Healing Paint. All of the town's young trees were given their annual trimming. Only a small percentage of the larger trees needed trimming.

Roadside brush was cut along the following thoroughfares of the town: Espie Avenue, Great Road, Thompson Street, Hillside Street, Powder Mill Road, Innegus Road, Brown Street, Acton Street, Florida Court, Summer Hill Road, Mill Street, and Sudbury Street.

The Dutch Elm Disease has been found in many communities surrounding Maynard, but as yet none has been observed in this town.

During the first of its bi-annual appearances the Elm beetle was sprayed with arsenic of lead, and with a mixture of arsenic of lead and D.D.T. during its second appearance. The same treatment (arsenic of lead) was given both the Browntail moth and the Tent caterpillar nests. The Browntail moth now appears to have been eradicated while only a few tent caterpillar nests remain.

A very successful attempt toward eliminating the fall web moth from the town's shade trees was made by spraying with D.D.T. in 1947. Presumably, the town may eventually rid of this pest with the use of this new insecticide. However, the fall web moth attacks many types of trees on private lands and the same plea is extended this year, as in the past, for cooperation from the owners of these lands to eradicate this insect.

Scattered appearances of gypsy moths were dealt with as they were observed. Silver Hill, where they had gained with considerable headway in previous years was sprayed with a mixture of arsenic of lead and creosote, so that they have been checked and are on the decline there.

I wish to acknowledge gratefully the cooperation extended to me by town officials in my work.

Respectfully submitted,

WILLIAM V. HANSEN,
Tree Warden and
Supt. of the Moth Department.

John A. Crowe Park Superintendent

To the Honorable Board of Selectmen:

I herewith submit my report of the John A. Crowe Park for year ending December 31, 1947.

During the year the baseball diamond was graded and new concrete benches were installed. The grandstand, bandstand and other facilities as the Park have been repaired and painted.

Due to the high cost of material the resurfacing of the tennis courts was not completed as anticipated and the funds for this project were returned to the treasury.

In my budget for the year 1948 I have requested sufficient funds to resurface the tennis courts, grade the baseball diamond, and replace broken benches.

In conclusion I wish to express my appreciation to the people of Maynard and the various Town departments for the cooperation received during the past year.

Respectfully submitted,

WILLIAM J. KITOWICZ,
Superintendent.

Report of Sealer of Weights and Measures

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my annual report as Sealer of Weights and Measures for the year 1947. In submitting this report, I wish to state that at the close of the year all weighing devices and measures in the town were in good condition in accordance with the law.

I wish to take this opportunity to express my gratitude to the merchants and all those who come under the requirements of this department for their splendid cooperation.

Report of Dog Officer

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report as Dog Officer.

During the year 15 dogs were quarantined on suspicion of rabies, and I released the same after 14 days. Twenty-six dogs were buried and two stray dogs were returned to their respective owners.

At this time I want to thank the Chief of Police and his officers for their assistance.

Respectfully submitted,

JOSIAH M. HERRICK,
Dog Officer.

Report of Inspector of Animals and Slaughtering

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report as Inspector of Animals and Slaughtering for the year 1947.

During the year I inspected 175 pigs, 6 cows, 4 calves, and 2 lambs.

Fourteen barns were inspected and found to be clean. The cattle were free of antinmonycosis, barn mange, and other contagious diseases.

Respectfully submitted,

JOSIAH M. HERRICK,
Inspector.

Report of the Fire Department

The Honorable Board of Selectmen and Citizens of Maynard:

Submitted herewith is the report of the Fire Department for the Town of Maynard. Numerous statistics may be found below as to "runs" made, hose laid and other services performed, but since this is a report to the Town, we feel it our duty to give you and the citizens our considered opinion about the year's operations and their implications.

FLOODED OIL BURNERS—11

Herein lies one of the most serious hazards facing us today. We of the Fire Department, principally through the Chief, have only the authority to inspect new installations of oil burners. We have no further authority. People do not properly check their oil burners, either range or power burners. The result has been fires of the dirtiest kind, smudging the house and threatening more serious damage. We caution all citizens to watch their oil burners and attend to them frequently and help us prevent more serious fires.

PERMITS FOR POWER BURNERS—89

This year a new statute has imposed greater duties upon the Fire Chief in inspecting oil burner installations. It has led to delays and misunderstandings because the persons installing the burners were ignorant of the rules and regulations. This has been pretty much corrected so that dealers and installers are now complying with the rules of the Fire Marshal and permits are issued quickly.

CHIMNEY FIRES—7

Here again is a serious hazard in our town which can be greatly relieved by care on the part of the householder. They are generally of little consequence during the waking hours of the household, but if the household is asleep and they are not discovered promptly, tragic results can follow. Get your chimney cleaned being particular to check upon cracks in the flues.

PHONE CALLS—102

This, it will be noted, represents the greater portion of our alarms. It is unbelievable what excited people do in making these "phone calls." People rarely tell you who they are, where they are, what kind of a fire they have or what their address is. If it was not for the telephone operators, many a fire thus reported would be out of control before the housemen could ascertain from whence the call came. If you have a fire

Storm Signals for the Schools

- Three blasts for first eight grades, five blasts for entire system. Blown at 7.15 and 12.30.
- Three blasts at 6.30 P. M. for Evening School.
- One blast at 9.30 A. M. and one blast at 12.30 P. M. for Supervised Recreation for Children during Summer months.

(OVER)

and you telephone the alarm—think what you are saying—tell the Fire Station where you live—give them the street and number and if at all possible, tell them what kind of a fire they may expect. Don't say "Fire—Fire—Fire!" and hang up. It sounds like a foolish warning, doesn't it? But, it has happened many times.

DUMP FIRE

If you go to the Town Dump in dry weather, don't light the dump on fire. The woods are too near to the dump. It is well within the realm of possibility that a dump fire thus started could rage through the woods to the Powder Mills and beyond.

USED INHALATOR—1

We want to recall to the attention of the townspeople that we do have an inhalator. If you need one, call us, no matter how serious the condition of the patient may be, do not hesitate to give us a call. We may be able to revive him.

CATS UP TREE—5

DOG IN POND—1

Like all Fire Departments, we still do get cats out of trees and dogs out of ponds.

FALSE ALARMS—2

This is probably the first year that we knew who pulled in the listed false alarms. Thanks to the Police Department, the person was promptly caught and we trust his ways are mended.

It is a dangerous and thoughtless thing to do. It jeopardizes the lives of housemen, callmen, spectators and even people who may not be in any way concerned in going to the fire. Fire apparatus, of necessity, travels at high speed, as the first minutes of a fire are most important in extinguishment. Fire apparatus travels as fast to a false alarm. Don't ring false alarms—you are only risking lives, as well as equipment which is your property.

This brings up another important point. We, of the Fire Department, have been appointed to aid you. Why not aid us? For years the laws of the road regarding fire apparatus have been published in the Town Report. There are still people who deliberately ignore the siren. There are people who deliberately refuse to clear the way for approaching apparatus. There are still people who continue to follow apparatus much nearer than 300 feet.

Why do we have these laws? Because fire apparatus is emergency equipment. Men stand on the rear platform to jump off and lay hose from a hydrant, not to look like heroes.

What happens if the driver goes beyond his hydrant? With cars directly behind him he cannot back up. You may make him waste valuable time.

Do not crowd too close to a fire zone. The call men have to get there and they have to do plenty of the work. So many cars crowd them out that they often have to run long distances. They can't go into heavy smoke when they are winded.

These and more are the reasons for the rules of the game.

All things considered, we have had an excellent year. Fires have been discovered and controlled before too extensive damage has been done. Our men have been prompt in responding to calls, thereby saving many homes and dwellings. We hope our good fortune will continue.

We have had excellent cooperation from the Police and Highway Departments. We have had fine assistance from the telephone operators.

The townspeople and business men, through their generosity, have enabled the Department by way of its Firemen's Relief Association, to insure all firemen and any person ordered to assist in extinguishing a fire against injury and death.

The Fire Station was painted after nearly ten years. This year the south wall will have to be lifted as the sill has rotted away.

The equipment is in good repair; but thought will have to be given in the very near future to the replacement of Engine No. 1. This piece of apparatus has been in service for fourteen years and is rapidly approaching the danger point. It has long been overloaded; but we must transport the equipment which is on it. It has been out of order several times this year but thanks to good mechanics we have been able to keep it running.

Engine No. 2 is in good running condition but cannot perform the duties we have to do with Engine No. 1. It is a good truck for emergency use, but cannot carry the tools and equipment necessary for all calls.

Ladder No. 1 is in good running order and performing with high efficiency all the duties for which it was designed.

We welcome all citizens to come to the Fire Station and inspect the equipment. We are proud of it and hope that they are also proud of this Department.

DUTIES PERFORMED

Number of alarms	126
Box alarms	16
False alarms	2
Phone calls	102
Out of town calls	6
Inhalator calls	1
Boat calls	1
Dump fires	16
Automobile fires	13
Chimney fires	7
Flooded oil burners	11
Garage fires	2
Cats up tree	5
Number of feet of 2½ inch hose laid	4700
Number of feet of booster hose laid	9200
Assessed value of building involved in fires about	\$4,000.00
Insurance on buildings involved in fires about	\$6,000.00
Insurance paid on buildings involved in fires	\$1,225.82
Permits for range burners	33
Permits for power oil burners	89
Permits for fuel oil	91
Permits for range oil	42
Permits for fireworks	2

Respectfully submitted,

RICHARD ALLAN,
HENRY MARIANI,
PHILIP A. WILSON,
Board of Engineers.

Report of the Forest Warden

To the Honorable Board of Selectmen
Gentlemen:

The following is the report of the Forest Warden for the year ending December 31, 1947.

Duties Performed

Permits issued for open fires	182
Number of telephone calls for brush fires	49
Number of feet of booster and forest fire hose laid.....	3550

The following fire equipment for fighting brush fires is housed at the Fire Station on Nason Street:

- 1 four-wheeled trailer pump
- 2500 feet of 1 1/8" forest fire hose
- Spray cans, shovels and other small equipment.

Respectfully submitted,

RICHARD ALLEN,
Forest Warden.

(Chap. 581)

AN ACT FURTHER REGULATING THE SETTING
OF FIRES IN OPEN AIR

Be it enacted, etc., as follows:

Chapter forty-eight of the General Laws is hereby amended by striking out section thirteen as amended by chapter two hundred and four of the acts of nineteen hundred and thirty-eight, and inserting in place thereof the following section—Section 13. No person shall set, maintain or increase a fire in the open air at any time unless the ground is substantially covered with snow, except by written permission, covering a period of not exceeding five days from the date thereof, granted by the forest warden or chief of the fire department in cities and towns, or, in cities having such an official, the fire commissioner; provided, that no such permit shall be granted to be exercised during any portion of the months of April and May except upon rainy days and provided, further, that persons over the age of twenty-one may, without a permit, set, maintain or increase a reasonable fire for the purpose of cooking, upon sandy or gravelly land free from living or dead vegetation or upon sandy or rocky beaches bordering on tide water, if the fire is enclosed within rocks, metal, or other non-inflammable material. The forest warden, chief or fire commissioner, as the case may be, may make it a condition for granting a permit that any burning shall be done only after four o'clock (eastern standard time) in the afternoon and he may revoke a permit at any time. The forester may make rules and regulations relating to the granting and revocation of such permits binding throughout the commonwealth. Such rules and regulation shall take effect subject to section thirty-seven of chapter thirty, when approved by the governor and council. The forest wardens in towns and officials performing the duties of forest wardens in cities shall cause public notice to be given of the provision of this section and shall enforce the same. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both.

Approved August 1, 1941.

Report of Police Chief

To the Honorable Board of Selectmen:

I herewith submit my annual report as Chief of Police for the year ending December 31, 1947.

During the past year all complaints received were properly investigated and disposed of by this Department.

TRAFFIC AND PARKING

During the past year it has become necessary to amend the traffic rules and regulations in order to eliminate the traffic hazard opposite the entrance to the mill on Thompson Street.

All traffic lines were painted and new speed limit signs were installed in various sections of the Town.

Maynard, like many other cities and towns is faced with a serious traffic condition. The present parking facilities are insufficient to accommodate the present demands. The Department recommends that serious consideration should be given to using part of Memorial Park, and then purchasing, leasing or renting the land adjacent to the park as a parking area. Maynard is the shopping center of this area, therefore, in order to keep attracting people to trade in Maynard more parking areas should be made available.

During the winter months, especially after a snow storm, it would facilitate the removal of snow from the business area if the people would eliminate the parking of their cars in the business section until after the snow removal project is completed. The Maynard Highway Department deserves much credit for the efficient manner in which they remove the snow, as many reports have been received that Maynard's business area is always cleared before many other cities and towns in this vicinity.

SAFETY

In accordance with the Town By-Laws, the Selectmen have designated the following streets to be closed for sliding: Newton Drive, Elmwood Street, Beacon Street, Lewis Street, Roosevelt Street, and Butler Avenue.

With the cooperation received from the Superintendent of Schools, School Teachers, Peoples Theater, American Legion, Veterans of Foreign Wars, Veterans Auxiliaries, and the businessmen a very successful Hallowe'en Party was held for the children of school age. The sponsoring of this party

yearly has aided considerably in reducing the amount of property damage caused by children during the Hallowe'en season.

EQUIPMENT

In my budget for 1948 I have requested sufficient funds for the purchase of a cruiser to replace our present cruiser which has been in use for the past two years. Due to the rationing of automobiles the practice of trading in the police car annually has been temporarily suspended, however, it has been proven that it is more economical to trade it in yearly for a new car annually.

REPORT OF ARRESTS FOR 1947

Crimes vs. Public Order

Drunkenness	110
Driving while intoxicated	12
Violating Traffic Rules	8
Violating Town By-Laws	102
Disturbing the Peace	1
Delinquency	7
Non-Support	2
Illegitimate Child Act	1
Violation of Probation	2
Accosting	1
False Alarm	1
Assault	5
Larceny	3
Weapon Carrying	1

In conclusion, I wish to express the appreciation and the thanks of the Police Department to the Board of Selectmen and all other Departments who have been of assistance to the Police Department.

Respectfully submitted,

HENRY F. PIECEWICZ,
Chief of Police.

Report of Middlesex County Extension Service 1947

The year 1947 still called for an all-out food production by farmers, as well as food conservation by homemakers. For this reason, efforts of the Extension Service during the year were largely on these factors, the production and conservation of food.

The work in agriculture was almost entirely with vegetable growers and poultrymen. Farm visits were made upon request and local poultrymen were interested in the Middlesex County Poultry Association. Disease control, feeding and management were the principal interests of poultrymen.

A talk was given to a men's group on Home Gardening and another to the Maynard Garden Club on the Pruning of Shrubbery, Trees and Vines.

There were two 4-H girls' clubs, one in clothing and one in canning; and almost 100% of the clothing club attended the 4-H Camp in Ashby.

MILTON DUCLOS,
Town Director.

Town Clerk's Report

For the year ending December 31, 1947

Information desired, not printed herein, will be courteously supplied upon request to the Town Clerk.

FRANK E. SANDERSON,

Town Clerk.

Proceedings of Town Meeting

Held January 20, 1947

Pursuant to Town Warrant No. 412 a meeting was held on the above date in the George Washington Auditorium.

Moderator Ralph B. Smith called the meeting to order at 7:30 o'clock P. M.

On motion of R. Frank Punch — Voted to waive the reading of the warrant.

The action taken on the articles of the warrant follows:

Article 1. Edward M. Sarri for the committee appointed at the Town Meeting held October 14, 1946 read a report for said committee recommending that the town do not purchase the property at the southeasterly intersection of Summer and Nason Streets.

The report was filed with the Town Clerk.

On motion of R. Frank Punch — Voted to accept the report.

Article 2. No action taken.

Article 3. On motion of R. Frank Punch — Voted to instruct the School Committee to re-open the Main Street School at the fall term.

Article 4. Anthony T. Grigas read a report for the Committee appointed by vote taken at the meeting of October 14, 1946, and referred to in the warrant as the Veterans Housing Committee. Said report was filed with the Town Clerk.

The report:

REPORT AND RECOMMENDATIONS OF THE MAYNARD VETERANS HOUSING COMMITTEE

The Veterans Housing Committee was formed on November 14, 1946, in compliance with the following article taken from the Town Warrant from the Town Meeting of October 14, 1946:

"To appoint a committee consisting of one member from the Veterans of Foreign Wars; one member from the American Legion; each to be selected by the membership thereof; two veterans of World War II not members of the aforementioned groups, to be chosen by the Town Moderator; one selectman; one water commissioner; one sewer commissioner; one member of the finance committee, each to be selected by their board membership, and the town treasurer. Said com-

mittee to investigate ways and means to aid Maynard veterans to secure homes and in particular to make a survey of land owned by the town which could be used for this purpose. Said committee to report at a town meeting to be held within three months from the date of this vote."

The Veterans Housing Committee consists of the following members: Chairman, Joseph Byrne, representative of the Finance Committee; Secretary, Anthony T. Grigas, Veterans of Foreign Wars; William J. Bain, Selectman; James Bakun, Water Commissioner; Emile A. Dumas, American Legion; George Gutteridge, Treasurer; Robert Hatch, Sewer Commissioner; Peter T. Peterson and Ernest Tannuzzo, veterans not affiliated with either veterans organization.

The Veterans Housing Committee which held 11 meetings and devoted its time in trying to devise ways and means to aid veterans to secure homes, submits this report with its recommendations.

Communications were sent out to the following communities to gain some knowledge regarding veterans housing projects: Milton, Marlboro, Concord and Stoneham. As a result of these letters the committee received replies from Milton and Marlboro. Milton's project was in its infancy and Marlboro has a temporary housing project. On November 25, 1946, Mr. Thomas J. Hayes, chairman of the Concord Veterans Housing Committee appeared before this committee and outlined the Concord program in detail.

The next step was the printing, addressing and mailing of some 900 questionnaire cards to the Veterans of Maynard in order to gain the information as to how many veterans were actually interested in a building program. Of the 900 cards sent out, 119 were returned — 16 of those definitely not interested in building — 27 interested in the housing program but not building — 76 interested in building homes under a proposed building program.

Letters were then sent to the 76 veterans who had signified an interest in building, inviting them to sit with this committee to discuss the program and obtain their points of view. On Sunday, December 29, 1946, the committee met with 28 veterans, this group representing the total of 76 who were invited.

The committee submits the following recommendations for action:

1. The committee recommends that the town develop at a cost of approximately \$75,000.00 the portion of the Eveleth Estate which has been drawn up by Mr. Peter T. Peterson,

Superintendent of the Water and Sewer Department. It is also recommended that this development include water and sewer facilities, the laying out and construction of streets and installation of a storm drainage system be accomplished without cost to the veteran.

II. The committee further recommends that upon completion of said developments the Town of Maynard sell to the veteran of Maynard, lots of land from that section of the Eveleth Estate referred to in Article I for the price of one (\$1.00) dollar. It is requested that the veteran be required to post a bond whose denomination is to be affixed by the succeeding committee, in good faith, that the veteran will fulfill his obligation in building on said lots. For the protection of the town's interest and the veteran concerned the committee further recommends that stipulations governing building on, transfer, sale or disposal of these lots should be drawn up by the succeeding committee. The disposal or assignment of these lots is to be drawn by a lottery or by whatever means may be devised by the succeeding committee.

III. The committee further recommends that the succeeding committee should consist of at least five (5) members, with the following representation:

(1) architect (2) lawyer (3) a third member, these three to be appointed by the Board of Selectmen; one member of the Veterans of Foreign Wars and one member of the American Legion, each to be elected by his respective body.

IV. The committee further recommends that the succeeding committee draw up a set of building and zoning laws governing the building on said lots.

V. The committee further recommends that the succeeding committee have a survey made, by lots, of that portion of the Eveleth Estate referred to in Article I, adhering to the dimensions as practicable. Further, that the veteran who purchases one of the said lots, be furnished a deed with stipulations governing building on, transfer, sale or disposal of said lots within any such time designated by said committee.

VI. The committee further recommends that prior to building on said lots that the veteran submit to the committee plans and blueprints of his structure, for their approval or disapproval in conformity with the building laws, governing building on said lots. This committee should have the power to qualify the veteran concerned with building or disqualify him if his plans do not comply with existing requirements.

VII. The committee further recommends that this succeeding committee be appointed by the Board of Selectmen at

such time as the Housing Authority declares a housing shortage exists in Maynard.

NOTE: The State House Authority will present themselves in Maynard on Wednesday, January 29th, 1947, at 7:30 P. M., in the High School Auditorium for a public hearing. This hearing is necessary before the outlined building program can be carried out. All veterans who have signified their interest in this program are urged to be present at this hearing to inform this authority that an emergency or shortage exists.

Respectfully,

JOSEPH BYRNE,
Chairman, Veterans Housing Committee.

The report was discussed at some length and on a motion by Joseph P. Dineen — Voted to receive the report as one of progress.

Voted to adjourn at 8:20 o'clock P. M.

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Election

Held March 3, 1947

The voters of Maynard cast their ballots on the above date for Town Officers to be elected in accordance with the Town Warrant numbered 413, from 8 o'clock A. M. to 8 o'clock P. M. at the George Washington Auditorium.

The polling place was prepared by the Town Clerk according to the requirements of the General Laws.

Moderator Ralph B. Smith presided. The ballots and check lists containing the names of 3695 voters were delivered to the ballot clerks and a receipt taken therefor.

The following Ballot Clerks were sworn by the Town Clerk.

Area A to L

Timothy T. Hickey	Bertha L. Davis
Mary E. Schnair	Beverley G. Allan
Phyllis Savikoski	

Constable Edward S. Johnston at the Ballot Box.

Sylvester S. Sullivan acted as a substitute at the gate and box at various times during the balloting.

Area M to Z

Martha L. Champagne	William P. Rourke
Helen M. McDonald	Helena M. Murphy
Grace M. Stokes	

Constable Henry F. Piecewicz at the Ballot Box.

The ballot boxes were examined by the Moderator and Town Clerk. The registers were set at 0000 and the keys placed in the keeping of the Constables who held them during the day.

At 8 o'clock A. M. the Moderator called the meeting to order. On motion of Lester T. Cowle it was voted to waive the reading of the warrant.

The polls were declared open at 8:03 o'clock A. M.

Tellers appointed by the Board of Selectmen were sworn by the Town Clerk as follows:

Arthur T. Croft	Elizabeth M. Farrell
Elsie P. Brayden	M. Eleanor Sheridan
Mabel A. Bemis	Alice L. Joyce
John M. French	Isabella L. Milewski
Dorothy E. Hamlin	Helen M. Hinds
Freddie E. Fairbanks	Eva H. Evers
Sylvester S. Sullivan	Mary Mayberry
Myrtle A. Whitney	

Counting began at 2 o'clock P. M. it being deemed advisable so to do, by the Moderator and Town Clerk.

The polls were closed at 8 o'clock P. M.

The total number of ballots cast was nineteen hundred and eleven (1911).

The register on the ballot box in Area 1 (A to L) registered ten hundred and eight (1008).

The register on the ballot box in Area 2 (M. to Z) indicated nine hundred and three (903).

The result of the balloting was completed at 8:35 P. M. and was announced by the Town Clerk.

Expense Fund	300.00

Article 27. On motion of Harold J. Morgan — Voted to appropriate the sum of \$4,101.20 to pay the County of Middlesex, as required by law the Town's share of the net cost of the care, maintenance, and repair of the Middlesex County Tuberculosis Hospital, as assessed in accordance with the provision of Chapter 111 of the General Laws and Acts in amendment thereof and in addition thereto including Chapter 400, Section 25 G (6) (a) of the Acts of 1936.

Article 28. On motion of George H. Gutteridge — Voted unanimously to authorize the Town Treasurer with the approval of a majority of Selectmen, to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1947, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 29. On motion of Harold J. Morgan — Voted that the salaries of the various elected Town Officials in accordance with Chapter 41, Section 108 of the General Laws, said salary or compensation to be effective from January 1, 1947 and remain in force until the next Annual Town election unless sooner changed by vote of the Town, shall be as follows:

Moderator	\$50.00 per year
Selectmen	300.00 each per year
Assessors (3 members)	6.00 per day

Tax Collector	1,700.00 per year
Town Treasurer	1,200.00 per year
Town Clerk	500.00 per year
Tree Warden85 an hour
Board of Health (3 members)	50.00 each per year
Sewer Commissioners (3 members)	50.00 each per year
Board of Public Welfare (3 mem- bers)	50.00 each per year
School Committee (3 members)	no salary
Library Trustees (3 members)	25.00 each per year
Water Commissioners (3 members)	50.00 each per year
Cemetery Commissioners (3 mem- bers)	25.00 each per year

Article 30. On motion of Emile Dumas — Voted to appropriate the sum of \$200.00 to be expended for public fireworks at John A. Crowe Park on the fourth of July, 1947, under the direction of the Frank J. DeMars Post 235, American Legion. The Frank J. DeMars Post 235, American Legion to give an equal amount, said display of fireworks to take place not later than 11 o'clock P. M.

Article 31. On motion of Olavi Warila — Voted to appropriate \$100.00 for the maintenance of the Honor Roll.

Article 32. On motion of Charles B. Keene — Voted to authorize the Board of Assessors to apply the sum of \$15,000.00 to be taken from the Water Department Surplus to meet two Sewer Notes of \$5,000.00 each and one Water Note \$5,000.00 due in 1947.

Article 33. On motion of J. Francis Cleary — Voted to appropriate the sum of \$550.00 for the purchase and erection of a fence at the Coolidge School.

Article 34. On motion of Raymond Sheridan — Voted to appropriate the sum of \$800.00 for the purchase of a one-half ton pick up truck for the Highway Department and to allow the Board of Selectmen to trade the 1939, one-half ton Chevrolet pick up truck in conjunction with the transaction.

Article 35. On motion of Roy E. Marsden — Voted to transfer from the grave and lot fund the sum of \$1,975.00 for the purchase of a one and one half ton heavy dump truck for the Cemetery Department, and to allow the Cemetery Commissioners to trade the 1931, one and one half ton Ford dump truck in conjunction with the transaction.

Article 36. On motion of Roy E. Marsden — Voted to transfer from the Grave and Lot fund the sum of \$425.00 for the purchase of a power lawn mower and to allow the Cemetery Commissioners to trade in or sell the two present mowers in conjunction with the transaction.

Article 37. On motion of J. Francis Cleary — Voted to appropriate the sum of \$110.00 for tuition of habitual truants and school offenders according to Chapter 77, Section 1 of the General Laws.

Article 43. On motion of Peter T. Peterson — Voted to transfer from the Water Department Surplus the sum of \$7,700.00 for the purpose of laying and replacing water mains.

Article 44. On motion of R. Frank Punch — Voted to lay this article on the table.

Article 45. On motion of Peter T. Peterson — Voted to authorize the Sewer Commissioners to extend the Common Sewer on Newton Drive a distance of 620 feet and on O'Moore Avenue a distance of 250 feet and to transfer from the Water Department Surplus the sum of \$3,700.00 for this purpose.

Article 46. On motion of Lester F. Cowle — Voted to accept Section 120A, Chapter 94 of the General Laws. This section, if accepted, authorizes the Town to charge addition to the annual license fee, a payment by the licensee of a further fee of not exceeding one dollar for each animal slaughtered.

Article 47. On motion of Anthony T. Grigas — Voted to authorize the Board of Selectmen to appoint before March 31st a committee of five to be called the Maynard Veterans' Housing Committee. This committee to be appointed in accordance with Chapter 372, Section 8, of the Acts of 1946 and shall be authorized to carry out the provision of Chapter 372, Acts of 1946.

It was here voted to Act on Article 23.

Article 23. The Moderator appointed Arthur F. Croft, Henry A. Murphy and Anthony T. Grigas to act as Tellers. They were sworn by the Town Clerk.

On motion of Harold J. Morgan — amended by R. Frank Punch — Voted that the sum of \$18,500.00 be transferred from the excess and deficiency account to construct and equip a municipal highway garage under the supervision of the Selectmen and highway department. Said garage to be built on land owned by the Town of Maynard at the intersection of Parker Street and Great Road.

Article 22. On motion of Harold J. Morgan — Voted to transfer a lot of land and building thereon, owned by Town of Maynard and under the care and jurisdiction of the Welfare Department to the Highway Department for the purpose of erecting a Municipal Garage. Said lot to be transferred in accordance with plan on file with the Town Clerk.

(The foregoing vote was taken after a motion to lay on the table had been lost by a vote of 57 no and 30 yes).

Article 48. On motion of R. Frank Punch as amended by Harold J. Morgan — Voted to authorize the Board of Public Welfare to sell the land and the buildings known as the Town Farm House, in accordance with plan on file at the Town Clerk's Office and that the tenant or tenants be given the first opportunity to purchase.

At 10:10 P. M. the meeting adjourned.

Attest:

FRANK E. SANDERSON,
Town Clerk.

(appointed Oct. 29, 1947)

Proceedings of Town Meeting

Held July 21, 1947

A special Town Meeting was held in the George Washington Auditorium on the above date, called by Warrant No. 415.

The meeting was called to order by the Town Clerk at 7:30 o'clock P. M.

On motion of R. Frank Punch — Voted to waive the reading of the warrant.

Article 1. Philip A. Wilson was elected Moderator by a unanimous voice vote and was sworn by the Town Clerk.

Article 2. No reports.

Article 3. On motion of Lester F. Cowle — Voted that the Board of Health be authorized to establish the price of services of the Public Health Nurse, said fees to be published in a local paper.

Article 4. On motion of Lester F. Cowle — Voted to appropriate and transfer from the excess and deficiency fund the sum of \$678.75 for the salary of the Public Health Nurse.

Article 5. On motion of Lester F. Cowle — Voted to appropriate the sum of \$125.00 and transfer this amount from excess and deficiency for the maintenance of the Public Health Nurse.

Article 6. On motion of Harold J. Morgan — Voted to authorize the Cemetery Commissioners to transfer all funds received from the rental of the lowering device and artificial grass to the lot and grave fund.

Article 7. On motion of Olavi Warila — Voted to appropriate and transfer from the excess and deficiency fund the sum of \$400.00 for Police Department salaries.

Article 8. On motion of Harry McKenna — Voted to change the name of Pumping Station Road to Winter Street.

Article 9. On motion of Michael Tomyl — Voted to go into a committee of the whole. The matter of drainage of the Hayes Street to Assabet River area was discussed for some forty-five minutes after which the committee of the whole dissolved and the Town Meeting again took up Article 9 for action.

On motion of Walter R. Croft — Voted to appropriate and transfer from the excess and deficiency fund the sum of \$30,000.00 for the construction of a storm drainage trunk line

on Powder Mill Road. Douglas Avenue and across private land, where easements shall be obtained, across Waltham Street to the brook at Russo's.

Article 10. On motion of Emile A. Dumas — Voted to accept the provisions of Chapter 372 of the Acts of 1946, as amended by Chapter 568 of the Acts of 1946, and as further amended by Chapter 479 of the Acts of 1947.

Article 11. On motion of R. Frank Punch — Voted to go into a committee of the whole for the discussion of a motion by Emile A. Dumas for acceptance of the article.

Anthony A. Grigas, Secretary of the Veterans' Housing Committee read a report which was later filed with the Town Clerk.

After considerable discussion in which a large number took part the committee of the whole dissolved and the Moderator called for action under Article 11.

Joseph Byrne, Harold J. Morgan and George Stuart were appointed Tellers by the Moderator and were sworn by him.

On motion of Emile A. Dumas — Voted 87 in favor, 6 opposed, to borrow the sum of one hundred thousand (\$100,000.00) dollars in order to carry out the provisions of Chapter 372 of the Acts of 1946, as amended by Chapter 568 of the Acts of 1946, and as further amended by Chapter 479 of the Acts of 1947, and as contained in General Laws (Ter. Ed.) Chapter 121, Sections 26 I to 26 NN, in order to provide housing for veterans and others in the Town and to be expended by the Veterans' Housing Committee.

Article 12. On motion of P. Theodore Peterson — Voted that the town vote to authorize the Sewer Commissioners to extend the common sewer on Thompson Street from Great Road a distance of four hundred feet and to transfer from the sewer surplus the sum of \$2,000 for this purpose.

Article 13. On motion of P. Theodore Peterson — Voted that the Town vote to authorize the Sewer Commissioners to extend the common sewer on Warren Avenue from Tremont Street a distance of 200 feet and to transfer from the sewer surplus the sum of \$900 for this purpose.

Article 14. On motion of P. Theodore Peterson — Voted that the Town vote to authorize the Sewer Commissioners to extend the common sewer on Crane Avenue from Station 9-77 a distance of 175 feet and to transfer from the sewer surplus the sum of \$1,000 for this purpose.

Article 9. On motion of Olavi Warila — Voted to reconsider Article 9.

On motion of Olavi Warila — Voted to transfer \$30,000.00 from the excess and deficiency fund for the construction of storm drainage from the Assabet River to the southerly side of Waltham Street adjacent to Russo's and to authorize the Board of Selectmen to receive bids for the construction of this project, to acquire necessary property, rights-of-way, or easements, and to do anything lawfully pertaining thereto.

Article 15. On motion of Lester F. Cowle — Voted to accept Chapter 207, Acts of 1946, an act relative to the licensed operation on the Lord's Day of Bowling Alleys.

The meeting adjourned at 9:55 o'clock P. M.

Attest:

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Meeting

Held November 10, 1947

A special Town Meeting was held on the above date at 7:30 o'clock P. M. in the George Washington Auditorium.

The Town Clerk called the meeting to order at 7:30 o'clock.

R. Frank Punch moved to waive the reading of the warrant and it was so voted.

Article 1. Philip A. Wilson was elected Moderator and was sworn by the Town Clerk.

Article 2. No reports heard.

Article 3. On motion of Alton W. Sims of the Welfare Board — Voted to appropriate and transfer from the Excess and deficiency fund, the sum of \$2,800.00 for Welfare Department maintenance.

Article 4. On motion of Alton W. Sims — Voted to appropriate and transfer from excess and deficiency funds the sum of \$5,900.00 for Old Age Assistance.

Article 5. On motion of Alton W. Sims — Voted to appropriate and transfer from excess and deficiency funds the sum of \$1,500.00 for aid to Dependent Children.

The meeting adjourned at 7:36 o'clock P. M.

Attest:

FRANK E. SANDERSON,
Town Clerk.

IMPORTANT REQUEST

Please notify the Town Clerk immediately of any error or omission in the following List of Births.

Errors not reported at once can be corrected only by sworn affidavit, as prescribed by the General Laws, and may cause you inconvenience which can be avoided by prompt attention.

NOTICE

All dog licenses here listed expire
March 31, 1948.

Dogs must be licensed on or before
April 1st or the owners or keepers
thereof are liable to a fine.

The law applies to all dogs three
months old or over, regardless of
time of year ownership is acquired.

No tax bills are sent to owners of
dogs.

NOTICE

Chapter 51, Section 4 of the General Laws, require the Board of Registrars to list all persons twenty years of age or over, thereby making necessary a canvass in January of each year.

Persons who fail to give full and correct information, may cause difficulty and inconvenience to members of their household, especially if names not given are of registered voters, as names not listed in the annual canvass must be removed from the voting list by Registrars.

Co-operation on the part of householders is therefore respectfully solicited in order that lists may be as correct as possible, thus preventing inconvenience or injustice to any voter.

FRANK E. SANDERSON,
Town Clerk.

The Board of Registrars of Voters

To the Board of Selectmen:

Gentlemen:

The Board of Registrars submits the following report.

The Annual Listing of all persons twenty years of age and over, as required by the General Laws, was made by the following persons who were appointed Assistant Registrars and sworn by the Town Clerk, Martha D. Champagne, Helen M. McDonald, John French, Peter Pronko, Raymond V. Kane and Morgan Molloy.

The printed books (103 pages) containing the names of all persons, 20 years old or over, listed as residents of Maynard, 5079 in number, was completed and ready for distribution May 12th.

The listing of poll tax payers by the Assessors at the same time the Assistant Registrars are making the canvass of both men and women is a handicap to this work. It is in fact a duplication of work and expense, one of the conditions which has increased the cost of government. The Board would urge all citizens to give better co-operation to the Assistant Registrars and to return promptly, the forms left at their home if they are out when the call is made.

The following changes have been made in the Voting List during 1947:

	Men	Women	Total
Voters January 1, 1947	1984	1845	3829
Registered in 1947	17	26	43
	<hr/>	<hr/>	<hr/>
	2001	1871	3872
Removed			.
Not listed	123		
Deceased	10		
Married	38	88	171
	<hr/>	<hr/>	<hr/>
	1918	1783	3701

Referendum petitions filed for certifications contained 188 signatures of which 139 were certified by the Registrars.

The Budget of this department is considerably increased this year due to the fact that the work of 1948 is to include the Presidential Primary, the State Primary and the Presidential Election, none of which were included in the budget of 1947.

Respectfully submitted,

JOHN C. BRAYDEN, Chairman
ALEXANDER J. BOURKE,
REGINALD JONES,
FRANK E. SANDERSON,
Board of Registrars of Voters.

Report of Finance Committee

January 9, 1948

Board of Selectmen,
Maynard, Mass.

Gentlemen:

The report of the Finance Committee for the year 1947 is herewith submitted.

Seventeen meetings were held during the year. Most of these were held prior to the annual appropriation meeting. Other meetings were held as the need for one presented itself.

At a meeting held April 8th for organization purposes Mr. Joseph Byrne was elected Chairman and Harold J. Morgan, Secretary. Mr. Warila, Chairman of the Board of Selectmen, presided at this meeting in the absence of Mr. Smith, Town Moderator.

During the year several projects involving a considerable expenditure of money were presented. One called for \$100,000.00 for Veteran's Housing. The Finance Committee gave considerable thought to this matter and several meetings were held with members of the Housing Committee. The amount asked for was made available at a subsequent Town Meeting. Due to seemly insurmountable difficulties no houses have been constructed. It is the hope of the Finance Committee that the housing shortage can be alleviated without the Town entering the real estate business.

Another major project was that of a storm drainage system for the southeastern section of the Town. \$60,000.00 was asked for this purpose. After a meeting at which the several departments having this matter directly under their control, and at which Mr. Brooks, an Engineer and an authority on such matters was present, it appeared that drainage relief could be had for about \$30,000.00. It was voted by the Finance Committee to recommend this amount and it was voted at a subsequent Town Meeting.

Because material costs and salaries are high and will possibly be higher, expenses of all departments are greater than in recent years. In addition all forms of relief are costing more than would be expected in a period of comparative prosperity.

Much of the additional cost is regulated by the fact that the local Welfare Department must follow budgets as determined by State and Federal Agencies. Failure to follow

these regulations would cause the loss of State and Federal aid. More and more services are being asked for and expected by the people of the Town. In addition the cost of schools is at an all time high. In order to keep the tax rate at a reasonable figure all budget items should be closely scrutinized and a diligent search should be made for sources of new income.

Thought should be given to consolidation of jobs and departments. Many part-time jobs have grown to be bigger than part-time but not large enough for full time. A study of this should be made in the interest of efficiency and economy. The same is true of a number of departments now having their own set-up some of which could be consolidated with others with benefit to the Town. In most cases each department has a clerk and a telephone and other such expenses. In addition many departments have trucks and other equipment of a like nature that is used only by that particular department. It seems that from a practical and profitable basis for the Town that a Machinery Pool should be established that would make any and all equipment available as needed for any town department. With such a set-up duplication of trucks and machinery would be avoided at a consequent saving to the Town. Along the same line it might be well to consider the employment of a free-lance clerk who could do work in any department as needed. This would result in increased efficiency and savings to the Town. Thought should also be given to the possibility of setting up a central purchasing agency. This would give a better check on buying of supplies and certainly should result in economies. The Finance Committee strongly recommends that a committee be appointed that would look into all of the above matters.

During the year the following transfers from Finance Committee Reserve were voted:

Highway Department Truck	\$119.00
Memorial Day	21.33
Plumbing Inspector	125.00
Water Department Maintenance	1,300.00
Sewer Department Maintenance	1,000.00
Welfare Department	167.19
Aid to Dependent Children	766.41
Workingmen's Compensation Insurance	653.27
Cemetery Department Bonus	78.00
School Department Salaries	200.00
Health Department Salaries	20
Highway Department Maintenance	176.80

Snow Removal	108.97
Truants Tuition	3.43
Police Department Maintenance	97.96
	<hr/>
	\$4,817.56

Respectfully submitted,

JOSEPH BYRNE, Chairman
 HAROLD J. MORGAN, Secretary
 GEORGE STUART

 Town of Maynard Finance Committee.

Town Accountant's Report

Maynard, Mass., January 12, 1948.

To the Board of Selectmen,
Gentlemen:

Herewith is the Annual Report of the Town Accountant for the year ending December 31, 1947.

The financial condition of the Town is as illustrated below:

	December 31, 1946	December 31, 1947
Cash on Hand	\$195,332.59	\$155,924.06
Uncollected Taxes	14,257.94	17,327.66
Unexpended Appropriation turned back to Revenue and Surplus Ac- counts at the end of the year	15,782.27	10,797.82
Excess and Deficiency Account— Excess over Uncollected Taxes ..	113,491.32	75,019.96

The net debt of the Loan Accounts amounts to \$73,000.00, which is about 1.36% of the Town valuation.

The courtesy and co-operation received from the various town boards, officials and employees has been gratefully appreciated.

Respectfully submitted,

ALBERT E. LUCOT,
Town Accountant.

Report of the Board of Health

To the Board of Selectmen:

The Board of Health in 1947 conducted the following protective and important clinics: diphtheria, small pox vaccination, school dental clinic, dog, and other services included the x-raying of tuberculosis suspects and made milk inspections for the welfare of the townspeople. The Board also took over the functions of the Maynard Public Health Association which disbanded during the year.

DIPHThERIA CLINICS

A total of 129 children received this protective measure at clinics conducted by Dr. R. E. Hooper, assisted by the Misses Mary A. Ward and Edith Foster. Every parent should realize the importance of having their child protected when it reaches the age of six months. Communities where these immunization clinics have dropped have shown a large increase in diphtheria cases.

VACCINATION CLINIC

Dr. Earl F. Ryan, assisted by nurses Mary A. Ward, Edith Foster, and Doris Allan, conducted this clinic at which 91 children were given the protective measure. Parents should have their children vaccinated at the age of six months.

SCHOOL DENTAL CLINICS

Teeth is one of the most vital factors in the health development of a child and these clinics are of much value to the youngsters and also the parents. When school was in session, these clinics were held two mornings a week, in charge of Dr. F. A. May and Dr. S. R. Garland, assisted by the school nurse, Miss Edith Foster. The townspeople should feel fortunate that they have dentists who give their time and services for a small amount of money, for the protection of the teeth of the youngsters.

DOG CLINICS

A total of 218 dogs were inoculated against rabies at clinics held in the spring. These were in charge of Dr. Abbott of Clinton, assisted by J. H. Herrick, Inspector of Animals. All dog owners should have their pets inoculated once a year against rabies, which is a protection to the dog and the entire community. There has not been a case of rabies in

Massachusetts for over two years. A total of 300 cases was not unusual a few years ago.

TUBERCULOSIS

At the request of physicians we have had a large number of persons x-rayed and examined at the Middlesex County Sanatorium in Waltham. It is estimated that the average cost of a tuberculosis case is about \$10,000. It is a benefit to both the individual and the community to catch a case of tuberculosis in its early stages.

PUBLIC HEALTH NURSE

In October the Public Health Association, which was founded by the late Mrs. O. S. Fowler and carried on for a long period of years faithfully, disbanded. The town can be proud of the work established by this association and we of the local Board of Health will endeavor to live up to its standards. This has made another large expenditure in our budget. As with the Association, the town nurse charges a nominal fee which is turned over to the Town Treasurer. This amount, however, does not cover all expenses.

The following is a list of contagious and communicable diseases for the year 1947:

Chicken Pox	2
Dog Bite (not rabied)	8
Measles	2
Mumps	4
Scarlet Fever	1
Tuberculosis	2
Whooping Cough	26

MILK INSPECTIONS

Samples of milk were tested monthly. The farms which produced and sold milk here were visited and it can well be stated that milk distributed to this community is of high quality.

BUDGET

As it has been stated previously, the amount of hospitalization cases really detects our budget. The fees that are received by the town nurse will aid to some extent, along with the tuberculosis subsidy and various licenses issued; which is all turned over to the Town Treasurer.

We wish to thank all departments, the physicians, nurses, dentists, Mr. James V. King, and all those who are employed

under our supervision, for their co-operation during the past year.

Respectfully submitted,

HOWARD L. CLARK,
LESTER F. COWLE,
JOHN J. JOHNSTON,
Board of Health.

Annual Report of Nurse for Year Ending December 31, 1947

Number of patients visited	608
Association calls	3,944
Metropolitan Insurance calls	180
John Hancock Insurance calls	124
Town Nursing visits	378
Total	<u>4,623</u>

Respectfully submitted,

MARY A. WARD, R. N.

Assessors' Report

To the Board of Selectmen:

The Annual Report of the Board of Assessors for the year 1947, is herewith submitted.

In accordance with the provisions of General Laws, Chapter 59, Section 29, all owners of taxable property shall each year, on or before the 31st day of January, submit to the local Assessors, a list with the valuation of their taxable property. Notices were posted, and forms may be obtained at the Assessor's office in the Municipal Building.

All Male Inhabitants who are 70 years of age and over, and who wish to be exempted from the payment of a Poll Tax, must make a request in writing on a form furnished at the office of the Assessors.

EDWARD E. PUFFER, Jr.
EDWIN CARLTON,
CHARLES B. KEENE,
Board of Assessors.

Report of Cemetery Commissioners

Maynard, Mass., January 8, 1948.

To the Board of Selectmen:

The annual report of the Board of Cemetery Commissioners is herewith submitted.

During the year a new 30 inch power lawn mower was purchased to replace the one which had been in use for the past ten years. A set of evergreen grass and lowering device was also added to the cemetery equipment.

A number of sunken graves were repaired and several monuments in the older section were straightened.

All shrubs were trimmed and fertilized and weeds removed from the shrub beds when it was necessary to do so.

It is with deep sorrow that we record the demise on December 14, 1947 of our fellow-employee,

AUGUST FAVA

Mr. Fava has served the town for a period of twenty-seven years and has always been conscientious in the performance of his duties. He has worked always for the improvement and beautification of the cemetery, and his services have been of great value to the Committee.

Respectfully submitted,

ERNEST E. JOHNSON,
G. W. FOWLER,
JACOB LAURILA,
Cemetery Commissioners.

Report of Superintendent of Glenwood Cemetery

Maynard, Mass., January 8, 1948.

To the Cemetery Commissioners:

The underbrush along the embankments was cleared and burned. A large number of sunken graves were filled and repaired during the fall season and several avenues graded.

The usual work of trimming shrubs was accomplished and all shrub beds were weeded and cultivated at various times during the season.

During the year, two new fireproof filing cabinets were added to the office equipment. This will enable the department to keep a complete record of its business and insure it from loss by fire.

In conclusion, I take this opportunity of thanking the Commissioners and the various departments for their kind help during the past year.

Respectfully submitted,

ROY E. MARSDEN, Supt.
Glenwood Cemetery
Maynard, Mass.

Report of Water Commissioners

To the Board of Selectmen:

Gentlemen:

The report of the Water Commissioners for the year ending December 31, 1947 is herewith submitted. The report of the Superintendent and Water Registrar is included. This is the fifty-ninth annual report of the Water Department.

The Hudson Light and Power Department increased their rates in July. The rate classification for the White Pond pumping station was abolished and we were placed in the next higher rate classification. This rate was increased making a total increase to us of about 70%. We immediately entered a protest and since then have again appealed to them to lower our rate. To date we have had no favorable reply. This higher rate, increase in pumping, and loss of efficiency of the pumps will mean an increase of 100% in the item for pumping in the budget for 1948.

The recording instruments have been installed and are being checked.

The instruments for cutting out the motors are still unavailable.

Mrs. Helen Siswick who has been the clerk for the Water Department for many years notified us early in the year of her wish to resign. Before her resignation she instructed the new clerk thoroughly with the entire system which she had set up in the department. Miss Irene Bakun was appointed to fill the vacancy.

An extension of the main pipe on Crane Avenue has been made.

A section of the main on Great Road from Mill Street has been relaid.

The main from the traffic circle to the cemetery has been relaid with a larger main.

It is very difficult to estimate job costs and maintenance costs due to the constant increase in costs of material. An extra appropriation of \$1,300.00 was voted for maintenance by the Finance Committee for this reason.

The chimney at the Old Pumping station was no longer needed and before it became dangerous it was thought best to have it taken down. It was turned over to the Sewer De-

partment and the bricks were used for the construction of manholes.

An efficiency test on the pumps and motors at the pumping station at White Pond was made by the engineering firm of Haley and Ward. The 250 gallon pump loss of efficiency was so great that this pump was not used except for a few days this past summer when both pumps were run in order to supply the demand for water. It would seem to the Town's advantage to replace this pump with one of greater capacity.

For the past few years it has been impossible to purchase meters. As a result the new services that have been installed have not been metered. We should have eight dozen new meters so that all services may be metered.

The reservoir should be repointed this year as the mortar has been all washed out due to the action of the water and ice.

We have been unable to dispose of the Diesel motor and pumping unit. Advertising space has been purchased in two different trade magazines with the hope of locating a purchaser. This unit is so old and large that no one seems to want it. We believe it will have to be sold for junk. It is of no use to the department and the space in the building could be used as a garage to house our trucks.

Respectfully submitted,

GAVIN TAYLOR,
EDWARD J. BOULDEN,
JAMES J. BAKUN,
Water Commissioners.

Report of the Superintendent

To the Board of Water Commissioners:
Gentlemen:

The report of the Superintendent and Registrar of the Water Department, for the year ending December 31, 1947, is herewith submitted.

January 1, 1947 the water in the pond was 38 inches below full pond, April 1, the pond was 6 inches from being full and has continued to drop and on December 31, the water was 44 inches below full pond.

The instruments for cutting out the motors at White Pond are still unavailable. We hope they will be obtainable this coming year as they are very necessary.

The recording instruments have been installed and are being checked for radio interference, also to see if they are in accord with the Venturi meter at the White Pond station. These instruments will enable us to tell when the pumps shut down or drop in the gallons per minute the pumps should discharge.

No work has been done at the reservoir this year. It should be pointed up as it has been several years since this has been done and due to ice forming on the water most of the mortar between the stones has been dislocated.

The water main on Crane Avenue has been extended 188 feet with 6 inch Transite pipe and one hydrant set.

The water main on Great Road leading from the main on Mill Street developed a leak and 90 feet of this was replaced with 6 inch Transite pipe.

The water main on Great Road from the traffic circle to St. Bridget's Cemetery was replaced. Some 1,158 of 8 inch Transite pipe and 1,100 feet of 6 inch Transite pipe was used. One additional hydrant was set. This should strengthen the surrounding area.

Some 842 feet of 8 inch Transite pipe and 1,040 feet of 6 inch Transite pipe together with some cast iron fittings and one hydrant has been purchased and placed in the yard.

Three hydrants have been broken during this year. These have been welded and reset. Three hydrants have been re-located.

Twenty-one new services have been added this year, making 1,589 now in use. Twenty-eight services have been relaid from the main to the cellar, twelve have been relaid from the main to the sidewalk stop, sixteen have been cleaned and three new cellars stops have been replaced.

Twelve new services have been metered making 1,556 now in use, 65 meters have been repaired.

All the piping and pumps at the White Pond pumping station were scraped and sanded and a coat of red lead and two coats of paint were applied. The outside of the station was painted and also all the covers on the wells.

The brush round the station was cut in order to give the small spruce trees a better chance to grow.

The Observation Tower at the reservoir has been turned over to the local Boy Scouts for their use with certain restrictions by the Water Commissioners and Board of Selectmen.

The chimney at the old pumping station has been taken down and most of the bricks were salvaged. A smaller chimney was constructed with some of these bricks to take care of the boiler.

Twelve leaks in services and one in the main lines have been repaired. These leaks are very difficult to detect and are partially responsible for the high pumping rate for 1947.

PUMPING RECORD

	Gallons	K. W. Hrs.
January	11,485,000	12,500

Report of the Maynard Public Library Trustees for 1947

To the Citizens of the Town of Maynard:

We herewith submit the report of the Librarian and Trustees for the year 1947.

We are indebted to the following Libraries for the loan of books:

Division of Public Libraries, Boston; Concord, Lynn, Brookline, Newton, Fall River, Boston College, University of Southern California and Boston University.

The following have donated books or magazines to the Library, for which we express our thanks: the Knights of Columbus, The Rotary Club of Maynard, Herbert Lawton and Edward W. Archer.

The Statistical Report is as follows:

Books in the Library January 1, 1948	12,615
Discarded	65
Lost books	15
Borrowed	190
Bound	85
Purchased	385
Gifts	50
Fines collected	\$119.37
Sale of Old Magazines	2.00
Circulation	28,192

Yours respectfully,

OLIVE R. MORGAN,
Librarian.

The Trustees want to add a few remarks to those of the Librarian.

First, we want to extend a cordial invitation to all residents of the town to use the Library more than they do. We would like to see our Library filled with grown-ups all the time. We feel that many persons are losing a great deal in a great many ways, by not using the Library.

We have as good books as can be found in any Library of its size in the state. We have a good reference library and are always striving to make it better. And then, if you don't find the book you want, just ask one of the Librarians and she will get it for you. We have the privilege of borrowing books from any Library in the United States. Just read the places above where we borrowed from last year.

And our list of magazines is the best for any Library its size in the state. We have over thirty magazines, one daily paper and one weekly paper. See the wealth of reading material we have. And the magazines may be taken home too.

So, the Trustees urge the people to use the Library as much and as often as they please.

We would also like to point out, that we received an over-appropriation of some \$584.00 at the March Town meeting.

As we did not feel that we should take advantage of this error by the Townspeople, we did not use any of the over-appropriation; consequently our Financial Report, (printed with the Town Accountant's Report, elsewhere), will show that we turned back to the Town a sizeable sum of money.

We are planning to install flourescent lights in the Library and after we get the furniture refinished, it will be a much more attractive place than it is now, and we would like to see all of you folks come up into the Library every day, enjoy the "New Look" and use the facilities that we have to offer.

Respectfully submitted,

JOHN E. HANNON, Chairman
ROBERT LESTER, Secretary
MISS NELLIE C. MAY
Maynard Public Library Trustees.

Report of the Sewer Commissioners

To the Board of Selectmen:

Gentlemen:

The eighteenth annual report of the Sewer Department for the year ending December 31, 1947, is herewith submitted. The superintendent's report is also included.

Requests for extending the Common Sewer have been received for the following streets: Great Road, O'Moore Avenue, Elmwood Street, and Mayfield Street.

The Common Sewer was extended on the following streets: O'Moore Avenue a distance of 250 feet; Thompson Street a distance of 573.4 feet; Newton Drive a distance of 610 feet; Great Road a distance of 627.2 feet; Acton Street a distance of 492 feet; Pumping Station to Powder Mill Road a distance of 88 feet; Fairfield Street a distance of 325 feet; Crane Avenue a distance of 180 feet; Euclid Avenue a distance of 400 feet; Warren Avenue a distance of 200 feet.

Total length of Common Sewer to date, 14,109 miles.

Thirty-one house connections have been made this year making the number in use 997.

At a special meeting of the Finance Committee \$1,000.00 was granted for maintenance.

This spring the Imhoff Tank at the disposal plant caused a great deal of trouble due to red dye-stuff being discharged into the system. The Imhoff Tank could not operate properly and as a result the trickling filter was almost completely blocked. The engineering firm of Haley and Ward were consulted together with the engineers from the Department of Public Health. Samples were collected and analyzed by the Department of Public Health. Tests proved that the ph range was greater than the range for proper operation of the plant. It was impossible to trace the source of the dye entering the system and all our efforts proved unsuccessful. Chlorine was found to be very effective in clearing the trickling filter. A great deal of time was required on the Imhoff Tank to keep it in operation. We recommend that a chemical treatment plant be built to operate in conjunction with the present disposal plant.

The Pumping Station on Powder Mill Road was painted and also the covers on the receiving well. All the covers at the disposal plant were scraped and painted with one coat of red

lead and one coat of black asphaltic paint. Some of these covers should be replaced as the hinges are rusted away and the frames have lifted away from the concrete. The pumping station at the disposal plant was also painted.

The brush around the disposal plant has been cut and burned.

The small pump at the Powder Mill Road station should be replaced with one of greater capacity. The larger pump should be rebuilt as it has lost its efficiency from constant use for many years.

Respectfully submitted,

ROBERT R. HATCH,
THOMAS H. TIERNEY,
WALTER R. DENNISTON,
Sewer Commissioners.

Report of the Superintendent of Sewers

To the Board of Sewer Commissioners:
Gentlemen:

The report of the Superintendent of Sewers for the year ending December 31, 1947 is herewith submitted.

The Common Sewer was extended on the following streets: O'Moore Avenue a distance of 250 feet; Thompson Street a distance of 573.4 feet; Newton Drive a distance of 610 feet; Great Road a distance of 627.2 feet; Acton Street from Brown Street a distance of 492 feet; Pumping Station to Powder Mill Road a distance of 88 feet; Fairfield Street a distance of 325 feet; Crane Avenue a distance of 200 feet. With the Common Sewer laid this year there are now 14.109 miles of Common Sewers.

Five Stoppages in the Common Sewers and fourteen in the house connections have been cleared.

The Pumping Station on Powder Mill Road was painted and also the covers on the receiving well. All the covers at the disposal plant were scraped and painted with one coat of red lead and one coat of black asphaltic paint. Some of these covers should be replaced as the hinges are rusted away and the frames have lifted away from the concrete. The pumping station at the disposal plant was also painted.

The brush around the disposal plant was cut and burned.

The Imhoff Tank at the disposal plant required a great deal of attention this past year. Tests were taken daily to determine the ph range of the raw sewage entering the tank. The tests showed that during a five hour period a change from 6.4 which is on the acidity side to 7.6 which is on the alkalinity side. Seven being neutral. For the proper operation of an Imhoff Tank the ph of the raw sewage entering the tank should be 8.0 and should remain fairly constant and not fluctuate. Lime was added from time to time to bring the ph up so, the tank could operate. By constant supervision over the tank all tests of samples sent to the State Department of Public Health past the requirements. The Trickling Filter was almost completely blocked because of the poor operation of the Imhoff Tank. A 70% solution of chlorine was used to clear the filter. The engineering firm of Haley and Ward together with the engineers from the State Department of Public Health were called in for consultation and one of their recommendation was a chemical treatment plant to be used in conjunction with the Imhoff Tank.

Thirty-one house connections have been made this year, making the number in use 997. Total length of connections this year, 1,644 feet.

Locating of house connections made this year:

Acton Street	1	Noble Park	1
Brooks Street	1	Newton Drive	2

Record of Pumping at the Powder Mill Road Pumping Station:

Total Flow for Year	89,576,900
Average Daily Flow	245,416

I am grateful for the assistance given me by the Water Commissioners and the other Town Departments and to the department employees who have been so co-operative.

Respectfully submitted,

PETER T. PETERSON,
Superintendent.

Report of the Board of Public Welfare

To the Citizens of Maynard:

GENERAL RELIEF

The closing of the year 1947 shows a slight decrease in the number of General Relief cases over a year ago. We are caring for twenty-one cases as against twenty-four cases in the last report and three in other towns with Maynard Settlement.

Two separate budgetary increases to meet increasing costs of living have been ordered by the State Department during the year. All cases are investigated and budgeted according to State policies and resources deducted.

OLD AGE ASSISTANCE

We are granting Old Age Assistance to ninety-three cases in Maynard and to six cases in other cities and towns with Maynard Settlement. This is an increase of nine cases over the year ending December 31, 1946. As in the other categories, increases ordered by the State Department, after appropriations were made, we found it necessary to ask for extra funds to meet our payrolls for the last two months of the year. Twenty-eight new cases were added and nineteen cases closed during 1947. Many persons are of the opinion that all persons who have reached the age of sixty-five are entitled to Old Age Assistance. To be eligible for Old Age Assistance a person must be sixty-five years old; must be an American Citizen, and must be in need. Documentary proofs of all statements must be submitted.

AID TO DEPENDENT CHILDREN

At present we are granting Aid to Dependent Children to five mothers and fourteen dependent children, one case less than a year ago. During the year three cases have been added and four cases closed.

At the Annual Town Meeting held March 10, 1947 the Board of Public Welfare was authorized to sell the property known as the Town Farm House at 206-208 Great Road. The property was advertised for sale under written sealed bids in local papers and the Boston Sunday Globe. The bids were

opened on April 25, 1947 in the Welfare office, and the property sold to Mr. William Hanson for \$8,000.00, he being the highest bidder.

The financial account of receipts and expenditures will be found in the report of the Town Accountant.

Respectfully submitted,

ALTON W. SIMS, Chairman
JAMES M. MacKENZIE, Secretary
WILLIAM J. SMITH,
Board of Public Welfare.

Report of Trustees of Soldiers' Memorial Park

To the Citizens of Maynard:

The annual report of the Trustees of the Soldiers' Memorial is submitted. The bronze tablets on the monuments were cleaned and repaired.

Plants were set out before Memorial Day and bloomed throughout the summer.

Mr. Rynkiewicz and Mr. Hansen have continued their work faithfully.

Respectfully submitted,

OLIVER WARILA,
OSWALD DRECHSLER,
HOWARD KING,
ANGUS HANSON,
ALICE M. HOWE,
ALICE W. NAGLE,
Trustees.

January 13, 1948

Report of the Veteran's Housing Committee

To the Board of Selectmen:

This committee organized soon after the annual Town Meeting. In accord with the provisions of the article, it was composed of an architect, a contractor, the Commanders of both veterans' organizations and a lawyer. It met almost weekly and inspected projects in other towns.

Representatives of prefabricated housing concerns came before us presenting their plans. Individual builders gave us their time. We concluded that a small house designed by our architect and submitted to bids should give us the best house for the least money.

At the special Town Meeting in July, our plan was submitted and a bond issue of \$100,000.00 voted. We then submitted our plans and specifications, all bids to be in October 9, 1947. No bids were received until October 16, 1947, at which time bids ranging from \$7500 to \$9300 were submitted. On that day a meeting was held at which a motion was made by Mr. Dumas and seconded by Mr. Tannuzzo, to reject all bids. The motion was carried unanimously. It was felt that the committee could not build a home for a veteran that would cost \$7500 or more because—(1) The veteran could not buy it at a reasonable figure. (2) It would place too much of a burden upon the town for housing about ten veterans' families.

The housing program for the Commonwealth strictly limited the amount to be spent and our top limit was about \$100,000.

The committee has gone forward with a survey of town property on Taylor Road and has had a plan and subdivision made with the intention of considering making lots available to the veteran for his own building. This plan will be submitted to the town in the near future.

The Secretary of this committee, Mr. Grigas, resigned because he was moving to California. He labored diligently for the committee and its aims. He was replaced by Harold Johnson, present Commander of the Veterans of Foreign Wars.

At this writing the question of Veterans' Housing is prominent on the calendar of the Legislature and it is hoped

that a program will be forthcoming which will enable the town to do something on this question that will take into consideration the veteran and the town. We hope the program will assist many veterans rather than a few.

Our survey of the veterans showed clearly that the great majority are not interested in this program. About one-fourth of the veterans responded to our questions. From 200 responding, about one tenth were interested in renting only. The rest were interested in building their own home.

Respectfully submitted,

PHILIP A. WILSON, Chairman
ANTHONY GRIGAS, Clerk
ERNEST IANNUZZO
ERNEST JOHNSON
EMIL DUMAS
HAROLD JOHNSTON

Report of the Board of Retirement

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Two new members have been added during the year 1947 and two members have terminated their services.

A statement has been sent to each member giving his or her credit to December 31, 1947.

Respectfully submitted,

HAROLD J. MORGAN, Chairman
JAMES V. KING,
ALBERT E. LUCOT, Clerk
Board of Retirement.

which they offer, but we are trying to consider the tax burden as well as the ultimate value of the so-called enrichment programs.

Statistical reports of other school departments show enrollments equal to ours but pupil cost is almost double. In spite of the absence of the frills, our pupils who have the potentiality of success when they enter our schools, do very well in competition in the business world or in schools of higher learning.

It may be that in time to come the cost of equipment and supplies will be less than at present, it may even be that salaries will be less but we tell you again you will never see our School Department operated for as little as \$95,200.

In the matter of the opening of the Wilson School we know, as the result of a survey, that there are now, in the area normally served by the Wilson School, a sufficient number of children to warrant opening it. As you all know, there has been considerable agitation to open this school ever since it was closed. However, opening this school was not just a matter of unlocking the door, hiring some teachers and a janitor, but it was a matter of complete renovation to comply with rulings of the Department of Public Safety and the Department of Public Health. We estimate, to the best of our ability, a minimum cost of \$27,271 to renovate, equip and operate this building for the first year. We have included this amount in our budget for 1948.

It is regrettable that there is not better mutual understanding by all concerned, the School Committee, the School Personnel and the Citizens of the town, as to the objective of the schools, which is—to operate for the benefit of our children, all our children.

We foster the adjustment and well being of every child in the community. The adjustment of a child is the task of the school, not a requisite of the child's membership in it. The validity of all policies can be determined only by the extent to which they function in life today.

The schools in Maynard are operated for the children and all we ask is that there be an effort made to understand and appreciate the policies we have in practice.

In closing we express our thanks to the Superintendent and the entire personnel for their cooperation during the year 1947.

J. FRANCIS CLEARY, Chairman
BENJAMIN M. PIECEWICZ
PATRICK A. McGRATH

Report of the Maynard School Committee

To the Citizens of Maynard:

We are pleased to submit our report for the year 1947.

The detailed operations of the School Department are contained in the report of the Superintendent. This report with its various tables and statistics, has our approval.

We will confine our report to some pertinent matters which we feel should be brought to the attention of the people of Maynard.

The matter of the cost of operating the School Department is a most important subject. Without a doubt, you will never again see our School Department run as cheaply as it has been in the past. In 1941 the School Department appropriation was \$95,200. For 1948 we are submitting a budget request in the amount of \$194,371, of which \$27,271 will be used to recondition and operate the Wilson School. Incidentally the Wilson School was open in 1941 and its operation naturally was included in the above figure of \$95,200. Our beginning salary for elementary teachers in 1941 was \$1000 and our maximum salary was \$1300. The minimum salary for high school teachers in 1941 was \$1100 and the maximum salary was \$1850 for men and \$1600 for women. In September 1948 the minimum salary for all teachers, men and women in both elementary and high school will be \$1800 and the maximum salary \$3000.

As true as the preceding statements may be, the increase in the budget cannot be laid entirely to Salaries. Everyone knows property maintenance has almost doubled in cost. School supplies and equipment are no exception in increased costs. One common type of paper has increased forty percent since 1943 with other types ranging from twenty-five to thirty-six percent increase. The average increase of other supplies is twenty-seven percent.

You, therefore, can readily understand why the total cost of operating the school department has risen so greatly. This cost is for what we choose to call, basic education. We have no frilly courses, which in our opinion tend to detract from the main purpose of preparing our children for work or for further education. We have no extra coaches, supervisors, physical education directors, elaborate workshops and laboratories. It is not because we are unaware of these trends in education that we have made no recommendations for these extras. We are fully aware of some of the values

Report of the Superintendent of Schools

To the School Committee and Citizens of Maynard:

I welcome this opportunity of submitting my annual report as Superintendent of Schools for the year 1947. Through this report I aim to give you a written summary of my own work and that of the personnel for the children of Maynard.

PERSONNEL

There were only three resignations of the personnel in 1947. Miss Alice Jezak resigned to teach elsewhere, Miss Ann Kenneally resigned to be married and Mrs. Mary Gearin resigned because of ill health. It was possible to replace Miss Jezak and Miss Kenneally. In the case of Mrs. Gearin, Mrs. Louise Callahan has substituted the full year.

Due to the size of the classes in the Junior High School, it was necessary to appoint an additional teacher there.

Teachers' salaries and salary schedules are still a major administrative problem. Much has been said for and against higher teachers' salaries. It may all be summarized in the statement that teachers should receive a wage commensurate with their education for the work and their standard of living. There is a definite trend of paying teachers with no experience a minimum of \$2000. There is a bill pending in the legislature to make \$2400 the minimum by law.

The placing of the Maynard elementary non-degree teachers with ten or more years of experience on a \$2300 maximum for that group was justifiable. A letter of appreciation from this group is in the School Department files.

The following teachers have pursued an In-Service Training Program since January 1947:

Senior High School—

Albert Lerer, Bernard T. White, Charles Manty, Ruth Clair, Dorothy Tierney, Frediano Mattioli, Ruth Wilson, Walter Gavin.

Junior High School—

Florence Wilder, Marion Terrasi, Grace Tucker, Francis Quinn, Germaine St. Hilaire.

Roosevelt School—

Mary Wood, Patricia Higgins, Katherine Sheridan, Katharine Kinsley, Mary Howe, Bella Gruber, Alice Cullen, Rose Standish, Teresa O'Meara, Helen Westwood.

INSTRUCTION

Regardless of the grade level at which any teacher may find herself, she may have a philosophy of education. She must realize that it is her obligation to equip the child before her with attitudes, understandings, appreciations, habits, skills and knowledges which will enable him to take his place in his present and future complex civilization. Education is growth and schools have a tremendous responsibility of insuring that growth and of nurturing it in every way possible.

The State Department of Education has put out a Curriculum Guide for the Primary Grades. This Guide gives definite help to the teachers of the first three grades in carrying out the philosophy stated above. A series of meetings have been held with the teachers in Maynard for the purpose of analyzing and studying the possible use of this guide in their own classrooms.

Failure has been the dread and dismay of generations of American school children. "To pass" to the next highest numerically numbered class or group seems to be the principal goal of pupil and parent.

Beginning in grade one, promotion is not always the best thing for the welfare of the child either for the present or the future.

It has been a policy for some time to admit on the basis of a pre-school test those children who were six months or less under the school age. For the most part, the children have made only average progress in the first grade. It is a rare exception for an underage child to be a member of the first group. It must be borne in mind that the child is competing with children who are chronologically a year older and in many cases more mature mentally. Over a period of years in school work I have noticed that as the child gets into the upper grades he encounters keener competition from his group. The child who began school as a member of the underage group is not mentally mature enough to do the work expected of him at the seventh and eighth grade level.

Instead of admitting to school in the underage group a few who happen to pass a test with a certain mark, I recommend the opening of a kindergarten for all children between the ages of five and six.

One of the earmarks of a good school system is its provision for individual differences. For many years the Maynard teachers have tried to care for the slow learning pupil and with a certain degree of success, in the regular classroom. Instruction of the slow learner calls for a teacher

with patience, tact, skill in teaching, sympathy and the understanding of children. I believe that we have such a teacher in Miss O'Meara who is spending her time this year helping those children who show possibilities of success if individual attention is given to them. At first the purpose of the class was misunderstood by parents as well as pupils but as time has gone on there is greater understanding and appreciation of the purpose of the classification on the part of the parents. It is worthy of note that the average attendance for the class in one month was 99.12. Attendance records are indicative of the attitude of the pupil toward school.

DEPARTMENTAL

ART

The Art Program of the system is under the supervision of Miss Pasakarnis.

One period of her time is given to each elementary grade and two days a week to the high school.

From grade one through twelve the essentials of color, design and construction are studied at each grade level. Very few students make art their life work, but everyone finds a need for an understanding of art as it affects his daily living experiences.

In spite of difficulties of program scheduling in the high school, there is a good number of pupils electing Art. The classes are informally conducted. Each pupil progresses at his own rate of ability and interest.

At the time of the Emerson Hospital Poster Contest, three of the four prizes awarded were received by High School Pupils of Maynard. These and other contest results are indicative of the talent of the children in Maynard, particularly at the high school level.

MUSIC

The music program in the schools is under the supervision of Miss Colburn. One period a week of her time is given to each class and one day to the high school.

Chorus work below the high school grades is exceptionally good. It is difficult to develop a good chorus group at the high school level because of pupil program scheduling. Choral work is not successful with parts unbalanced.

Instrumental classes are being conducted in school time, by a private instructor. There are twenty-nine pupils taking lessons on drums, saxophone, clarinet, trombone and

trumpet. This will serve as a nucleus for a band. It is hoped that the thirty pupils who have been practising on the bugles will be ready to form a Drum and Bugle Corps by the spring of 1948. The lessons are paid for by the parents.

Miss Colburn has sponsored two Puppet Shows and a Christmas Festival in an effort to raise funds for her outside work. As worthy as the project may be, the number of pupils benefited does not justify expenditure of school funds. It is the hope of those connected with the work that some of the civic groups will sponsor more instruments or contribute toward the uniforms.

PHYSICAL EDUCATION—Senior High School

Two periods per week are compulsory for every boy who passes a physical examination given by the School Physician. The periods are devoted to calisthenics and apparatus work of a nature to develop body control, coordination and rhythm.

It is regrettable that there is no opportunity for a program for girls. Each year I have made an attempt to bring about a program but have been faced with the inadequacy of the physical facilities of the school system. At the present time I see no remedy for it.

Supervised games of seasonal sports are very well carried out by Mr. Lawson in after school hours.

PHYSICAL EDUCATION—Junior High School

One period per week is assigned for physical education at the seventh and eighth grade level. Again we are handicapped by the physical set-up as well as the personnel. Classes of boys and girls together are not satisfactory. There should be separate classes with the girls having a woman instructor.

Extra-curricula activities in sports are carried on in season by Mr. Lawson assisted by a teacher from the Junior High School.

PHYSICAL EDUCATION—Elementary Grades

In the elementary grades we are faced with the lack of personnel as well as the physical inadequacy of the buildings. As regrettable as it is, it is none the less true that the physical education program of the elementary grades depends on the weather. Weather permitting, the classes must be held out of doors. Whenever the weather interferes with the program some of the time is utilized for talks in the classroom by Mr. Lawson. These talks are informal and on pertinent topics

such as hygiene, seasonal safety and good citizenship in school and community.

INDUSTRIAL ARTS

During the past year we purchased a milling machine from government surplus for the Industrial Arts Department. The value of the machine when new is \$1,926.00. It had had very little use. The cost to the Town of Maynard was \$19.70.

There are many phases of Industrial Arts which we would like to teach but the space available does not permit the purchase of the equipment needed for this work.

The reduction of credit from two points to one for Industrial Arts has reduced the number of pupils electing it in the high school. This reduction of numbers solved the overcrowding problem.

The purchase of a Band Saw would be a decided asset to the shop. It could be used for scroll cutting which is now being done by hand.

One of the lathes is worn out and should not be used. There is a need for two lathes with identical centers in order that work may be transferred from one machine to another. It would be a great time-saver for the student because it would eliminate a great deal of waiting for a turn at the machine.

HEALTH

In spite of the fact that we have only part time services of Dr. Hooper as School Physician, we have gone through the school year with no epidemics of any kind. Over a period of years, I have always been ready to commend the parents in Maynard for the general supervision they give to the health of their children. The following tabulation shows the defects found at the time of the physical examination by the school physician:

	<i>Coolidge</i>	<i>Roosevelt</i>	<i>Jr. High</i>	<i>Sr. High</i>	<i>Total</i>
Number Pupils	213	338	153	293	997
First degree flat feet	25	10	14	19	68
Cervical glands	11	5	5	1	22
Enlarged tonsils	10	4	4	3	21
Defective teeth	127	184	91	56	458
Defective hearing	0	3	0	5	8
Defective vision	3	9	8		20
Defective skin	0	0	2	9	11

DEFECTS CORRECTED

Tonsils	15
Teeth	408
Hearing	6
Vision	20
Feet — Under treatment	35
Skin — Under treatment	11

NOTICES SENT HOME

Tonsils	21
Teeth	458
Hearing	8
Vision	20
Feet	68
Skin	11

One can see that lack of dental care is the greatest defect. The teeth of every child in the schools are examined by Dr. May once a year and the parents notified. The dental clinic sponsored by the local board of health is held on two mornings a week for approximately two hours and fifteen minutes. One cannot and should not depend upon it for the total care of a child's teeth. It is the aim of the school nurse to give each child who requests time at the clinic his turn, but the clinic time involved is so short that any child with a number of defective teeth should see his own dentist.

As far as lies within the limitations of the school, the eyes and ears of every child have been tested. In case of major defects the parents have been notified. The parents have been very cooperative in securing glasses or having medical attention in the cases of defective hearing.

We are indebted to the local Salvation Army Fund for the purchase of eye glasses in addition to the funds appropriated each year by the town.

PUBLIC RELATIONS

The children in the Maynard schools have always responded to calls from the outside. Many of the classes have 100% membership in the Junior Red Cross. An eighth grade pupil was chosen as a delegate to the National Junior Red Cross Convention held in Cleveland, Ohio. The children have contributed to two clothing drives and a food collection. They responded very well to the March of Dimes and the sale of pins in the Prevention of Tuberculosis Drive.

The Memorial Day Program is held as a municipal program instead of a school exercise in order to impress upon the children their civic obligations.

The local Rotary Club contributed \$100.00 towards the financing of the Junior High School Baseball Team.

The local Lodge of Elks has offered to pay annually for the pins awarded to the students in the high school who are eligible through scholarship for membership in the National Honor Society.

The local Librarian, Miss Olive Morgan, has been most cooperative with the teachers in their efforts to motivate better reading.

It is regrettable that the parents do not have a better understanding and knowledge of what the schools are trying to do for their children. We know that basically, the aim of parent and school is the same, but it would help both if there was a mutual understanding of the child. If parents would judgment and therefore gives a biased interpretation of the only visit schools more frequently on their own initiative, a better understanding of the child would be brought about. All too frequently the knowledge of what the school is doing is brought to the parent by the pupil who lacks maturity of program.

I appreciate the cooperation given in Maynard by the parents of the children entering school in September. This registration has been very necessary.

I wish to acknowledge the cooperation of Mr. Raymond Sheridan and Mr. Peter T. Peterson for their cooperation in maintenance problems requiring the use of a truck.

MAINTENANCE

As every property owner knows, there never seems to be an end to general maintenance. Maynard should well be proud of its school buildings. Renovations have been gradual and as systematic as the health and safety of the children demanded and the budget allowed.

Every classroom has been painted at least once within the last four years. The toilet rooms at the Roosevelt and Junior High Schools and the girls' toilet room in the Senior High School have been renovated.

The installation of new valves in the radiators at the Junior and Senior High Schools has brought the heating efficiency to the maximum in these two buildings.

We have complied with the recently enacted state laws requiring auxiliary lighting in the Auditorium, Gymnasium, and Junior High School.

Very little replacement or purchasing has been done on general equipment during the past five years. We are now faced with replacement problems.

Because of the shortage of materials and equipment we have been unable up to now to accomplish the badly needed renovation of the boys' toilet room at the Senior High School. However, we have at last received assurance that such fixtures and materials are now available and we hope to begin the work in the spring.

During the war years not only was it impossible to purchase typewriters, but the government took three of the best ones from the Commercial Department in 1943 for use by the armed forces. Some of the typewriters now being used are over twenty years old. Since the end of the war we have purchased four new typewriters and propose to purchase six more in the near future.

It is planned to renovate the blackboards as a sight-saving measure. We hope to do six rooms in each building in 1948.

All rooms in the Junior High School are inadequately lighted. It is not a question of increasing wattage, but rather new fixtures and re-wiring to carry the load necessary to bring about anywhere near sufficient candle power.

Changes in the enrollment of the Senior High School make it no longer necessary to have more than one room with a seating capacity of eighty. If a partition could be erected in Room 23, the room could be made into two classrooms. Transferring of the Art Room to the room made available by the partition would give better light as well as more space for the work of the Art Department.

We must, of necessity, turn to the outside of the buildings, this year. They all should be painted on the outside. The roof laid on the Roosevelt School in 1937 is leaking. An inspection of the roofs on the Auditorium and Wilson School shows that further patching is not advisable.

The walls around the Auditorium and Junior High School should be re-painted.

RECREATION

In the days not too far back in the past, wholesome recreation was solely the function of the home. Building Committees of Maynard foresaw no community need for providing for any physical exercise or recreation for its children. Times have changed and regardless of the personal opinion of individuals, recreation is now a Community problem.

Supervision of recreation for the teen age group has been assigned to the School Committee upon the recommendation

of the Selectmen. This assignment has advantages as well as disadvantages. Perhaps the advantages outweigh the disadvantages as far as utilization of school buildings is concerned.

The greatest part of the money is spent on salaries for the supervision of the activities. An effort has been made to give each age group a share of the money. The younger group has the benefit of summer recreation. This has its limitations because of the distance between play areas and the difference in numbers of children in different sections of the town.

The boys of the Junior High School benefited from the fund through the boxing bouts and the basket ball games held after school hours and in the early evening.

The girls had their share of the appropriation through the Drum Majorette Lessons. Over sixty girls participated in this program. There is no question about the permanent physical benefits derived from these exercises.

The girls of the High School benefited from the field hockey and basket ball. This sport was open to every girl in the high school.

At the end of the year it was my intention to provide skating areas in each section of the town, but the heavy fall of snow interfered with the plans.

A general itemization of the expenses is as follows:

Supervision	\$780.00
Supplies	169.10
Lumber	13.00
Hardware	2.18

No money was spent on playground equipment because that purchased in the past has been destroyed by vandals after school hours.

ALUMNI FIELD

The only major improvement made at Alumni Field was the erection of Grandstands.

The resurfacing of the tennis courts will be done in the spring of 1948.

Almost constant attention has been given to the upkeep of the play areas. The construction of the ticket booths by the students of the Manual Training Department has satisfied a long felt need.

GUIDANCE AND CUMULATIVE RECORDS

It is no longer a question of whether or not schools shall provide guidance to assure a practical education to all stu-

dents, be their interests preparation for college, vocation or good citizenship. It is a question of how can the job be best done under local conditions and with personnel available.

Any change of policy in school administration directly concerning children must be gradual and built on existing conditions and immediate needs. It was felt that the guidance program was pertinent at the high school level. When we began to work with the high school pupil we found that there were no anecdotal records of his elementary school life.

Only a small portion of our students can be considered as "problem-students" but a great many of them are students who have problems. There is no way of pigeonholing what is covered by guidance. Guidance for the most part to be effective must be done through the personal interview technique. An interview scheduled either at request of the teacher or pupil has at least one of the following motives and probably before the interview is ended, all motives are involved:

1. The fact-finding interview. This is a friendly, non-technical chat with a student in which the teacher closely observes his reactions in ordinary conversation and attempts indirectly to accumulate data concerning interests, abilities and personality.

2. The adjustment interview. The occasion for this type of interview may arise from scholastic or study-habit difficulties, unsatisfactory social situations, or personality needs.

3. The educational guidance interview. In this kind of conference the teacher attempts to discover whether or not the student is taking full advantage of his educational opportunities and is following a program which is adapted to his individual needs.

4. The vocational guidance interview. Preparation of the individual for an intelligent choice of future vocational opportunities and assisting the student in making his plans for a career are the chief purposes of this type of interview.

Even the lay person can immediately see that there is not only need for cumulative records for the use of the teacher at the high school level, but also at the elementary level. Many school systems have such records but it is more desirable for each school to formulate a record form which will meet the needs of the pupils and the community rather than to adopt a card system in use in other schools. After much study and many conferences, the following educational and vocational record to meet the needs of the pupils in Maynard was printed.

Inasmuch as placement is considered an important part of a pupil's transition from school to the community which is, in turn, a part of any effective guidance program, the personnel record system supplies the prospective employer with useful information. Such information will be of great value in helping him obtain the right person for the job and will help the pupil obtain the job for which he is best fitted.

Once the record forms were established at the high school level, plans were made for records of the same type at the elementary grade level. Again the simplicity of form of the record was a factor in the deciding of the type to be used. Sample elementary records were examined. As a result of the study, it was felt that more time should be given to the plan before money was expended on printing. Nevertheless it was felt that some form should be begun this year. The following form was begun for every child from grades one through eight. It was filled out by his teacher in June and then passed on to his teacher in September. This gave the teacher definite knowledge of the individual child on the first day of school. She knows the source of the rating. Unlike the report card, which was for the most part, the teacher's opinion, the new form gave the pupil's rating against a grade norm. The teacher at once knew how to classify the pupil to begin the work of the year. These were mimeographed in the School Department. The use of them one more year will result in an improvement of the form and the cooperative development of a printed permanent form.

CONCLUSION

In conclusion I wish to say that I am fully cognizant of the loyalty and cooperation of the School Committee and Personnel and am deeply grateful for it.

Respectfully submitted,

MARY A. DOYLE,
Superintendent of Schools.

January 10, 1948

Report of the High School Principal

December 19, 1947

Miss Mary A. Doyle
Superintendent of Schools
Maynard, Mass.

Dear Miss Doyle:

I herewith submit my report of the Maynard High School for the year 1947.

The flexible nature of our program of studies has allowed us to keep pace with the changing needs of Maynard children. It is with pleasure that I report the percentage of students of the Class of 1947 attending colleges and other institutions of advanced education is among the highest of any class graduating from Maynard High. A follow-up study of these students indicates that they have been well-prepared in high school and are successfully mastering their studies at these higher levels.

We have been fortunate that our teacher turnover has been small. Miss Kenneally, our Bookkeeping teacher was the only one to resign in June. She has been ably replaced by Miss Marie Badger who comes highly recommended with considerable business and teaching experience. The great majority of our teachers are continuing to improve themselves professionally by studying for additional degrees at nearby Colleges and Universities. Some of them already have Master's Degrees and others will soon receive this honor. This is indicative that they are interested in keeping up with the newest scientific and professional developments in the educational field. The new procedures and techniques learned reflect in improved learning for the children of Maynard.

Educational Additions

The program of studies has been enriched this year by the addition of two new courses. Practical Mathematics has been added as a course for Juniors who need a functional background of mathematics in place of college preparatory math. Modern European History has been introduced into the Junior-Senior years to give our pupils a better background for understanding the interdependence of nations throughout the world today. Both courses have been well received and both have capacity enrollments.

National Honor Society

A Chapter of the National Honor Society of Secondary Schools has been organized in Maynard High School. Chapters of this Society are functioning in many high schools throughout the country with charters granted by the National Society. A constitution for the Maynard Chapter has been accepted by the National Organization and Charter Number 3441 granted our school. The purpose of the Honor Society is to recognize and honor those students who do consistently good work and who show high qualities of service, leadership and character. Students from the two upper classes who maintain an average of 85% are eligible for membership. However, only those students who have given evidence of possessing the highest qualities of service, leadership and character in addition to the required scholastic average are elected to membership.

Recommendations

The present Program of Studies adequately prepares those who are interested in continuing their education beyond high school. Many of our children, however, find it impossible to spend the time and money necessary for this additional schooling. We are attempting to give these pupils an education according to their needs. If they are to take their places successfully in society immediately after high school, then we must be sure that the courses offered to them have a terminal objective. We must see to it that the values are real and not abstract. We should continue to expand our program to meet their needs. The Manual Training Department could be enlarged to include more technical fields. Courses in Consumer Education and Economics would be worthwhile to this group. In the field of Science they would profit well from a course that would give them the practical rather than the theoretical application of Physics and Chemistry.

Plant Modification

The utilization of our school plant has always been close to its physical capacity. The addition of new subject fields and educational developments throughout the years has made it necessary for us to work at times under disadvantageous conditions. In recommendations previously submitted, I have indicated the long standing need for a Principal's conference room for talks with pupils, parents and teachers. The desirability of relocating the Art room for better natural lighting has also been recommended. I hope that you will find it possible to make these valuable improvements.

I would like to take this opportunity to thank my fellow teachers for their loyalty and cooperation. Their extra curricular work as advisors to classes and sponsors of the various organizations of the student body has taken many additional hours of work in and out of school time. They have given willingly of their time and effort and have shown a genuine interest in the welfare of our children.

In closing, I wish to express my appreciation for your cooperation throughout the year.

Respectfully submitted,

ALBERT LERER,
Principal.

Report of Director of Guidance

Miss Mary A. Doyle
Superintendent of Schools
Maynard, Massachusetts

My dear Miss Doyle:

It is with pleasure that I submit my second annual report as Director of Guidance in Maynard High School.

My efforts during the past year were spent in constructing a solid framework on which to build a sound and effective guidance program.

RECORDS

One of the most essential devices of an efficient guidance program is a progressive cumulative record form adapted to fit the needs of each individual school. The term "cumulative record" implies a form on which all pertinent information that the school has about an individual is brought together and recorded or filed in an organized manner.

The record recently constructed in Maynard is designed to cover one division of the school system, namely, the senior high school. It is the fundamental tool being used in the pupil inventory that is now in progress. The data secured in this survey will be used for two major purposes: (1) to acquaint pupils with their own characteristics; and (2) to provide counselors and teachers with a basis for assisting the pupils to make wise choices, plans, and decisions, and to help them get the maximum from the instructional program. While the same data will be neither available nor significant concerning all pupils, those data which tend to indicate the individual's strengths, weaknesses, interests, and background are essential to the understanding of every pupil.

There is a growing tendency either to build one cumulative record covering all the grades of the school system or to develop a series of coordinated forms so that information accumulated in the lower grades moves along with the pupil as he progresses through the school. It is my hope that the work so well undertaken last year by the elementary and junior high school teachers under your supervision will eventually lead to the construction of a record similar to the above mentioned.

TESTING

With the attention of educators being focused more and more on the student rather than on the curriculum, the need for appraising the strong and the weak points of the individual student is pressing. While observation, and the opinions and judgments of the teachers and others closely associated with the student are valuable, these should be verified by comparison with more objective data.

Authorities in the field of guidance recommend that a basic testing program designed for the guidance of secondary school pupils should consist of tests of occupational interest, intelligence or mental maturity, personal and social adjustment, achievement, and special aptitudes or abilities.

While at present adequate data is available on the mental maturity of the pupils, it is strongly recommended that the policy of testing pupils in grades 1-3-6-9 be continued, so that when a pupil reaches the secondary level of his training, a thorough knowledge of his ability to do school work will be available.

Data on interests and special aptitudes are also on file for certain grades. It is my aim to expand this phase of the testing program and in particular to administer standardized tests to measure the competency of our pupils in basic skills.

PROVIDING INFORMATION AND EXPERIENCE

Pupils cannot plan intelligently unless their plans are based on a background of information and experience. Much of the needed information and many of the necessary experiences have been, and should be, provided by teachers through their regular classes. In addition, the guidance service must be concerned with the provision of additional information and experience to pupils. This activity is carried on through the process of individual counseling, through special group conferences, career days, and other similar activities.

In attempting to acquaint pupils with various types of vocations, their advantages and disadvantages, and the training required for each, the following career day program was presented on April 15, 1947:
(Copy attached program)

PLACEMENT AND FOLLOW-UP

Another important guidance function is that of placement. This activity provides the connecting link between the school and the next situation that the pupil is planning to enter. Placement includes college selection, part time education or

training, and placement on a job, in addition to many other situations that a pupil meets upon leaving school.

As a result of an informal follow-up survey it was learned that thirty-two per cent of the class of 1947 had entered institutions of higher learning to further their education. The brief summary below shows the schools selected by our graduates.

SCHOOLS	NUMBER ATTENDING
Boston University	5
Wilfred Academy of Beauty Culture	1
Fisher School	2
Winslow Secretarial School	1
Chandler School	2
Michigan State College	1
Simmons College	2
Curry College	1
St. Elizabeth's Hospital School of Nursing	1
Massachusetts General Hospital School of Nursing	1
Roxbury Latin Preparatory School	1
Worcester Trade School	1
University of Massachusetts	1
Boston College	1
The Fay School	1

I should like to continue a follow-up study which would include "drop-outs" during the high school course and pupils placed in jobs, as well as those graduating and going on to advanced institutions. A follow-up study can reveal a wealth of material for curricular changes and for the effectiveness of courses, as well as for the effectiveness of the guidance program.

IN CONCLUSION

Every day it becomes more evident that there is still much to be accomplished in guidance in Maynard. Some schools find it difficult to put the total program into effect the first year guidance becomes a part of the service offered their pupils. In such cases the school should decide what guidance activities are feasible immediately, introduce these, and plan to expand the program as rapidly as possible until the complete program is included. This has been my plan of action.

I should like to take this opportunity to offer our guidance services to veterans who may either wish to complete their high school training, or who plan to further their education in schools of higher learning. Thus far service has been of-

ferred to many, although no previous official public announcement has been made of its availability.

Parents and guardians of our pupils are also invited to participate in the guidance work. I should appreciate having the opportunity of assisting both parent and pupil in formulating the educational and vocational plans of the latter.

My appreciation is extended to all members of the school personnel who have so willingly cooperated with me in the performance of my duties; to the School Committee and to you for the interest you have manifested in constructing a guidance program for Maynard.

Respectfully submitted,

BERNARD T. WHITE,
Director of Guidance.

Graduation Exercises

Sunday Afternoon, June Fifteenth
at Three O'clock

PROGRAM

- Processional—Festival March *Mendelssohn-Bartholdy*
Orchestra
- Invocation—Reverend Francis Miaskiewicz
- Salute to the Flag
George Luker, President, Class of 1947
- Star Spangled Banner *Francis Scott Key*
Chorus and Assembly
- Honor Essay
The Artist's Contribution to Contemporary Life *Original*
Barbara Parker
- Selection—Thanks Be To God *Dickson*
Girls' Chorus —Soloist, Julia D'Amico
- Essay—Recent Achievements in Science *Original*
Lena Messier
- Reading—Good Morning, America *Carl Sandburg*
Mary Hogan
- Accordion Solo—William Tell Overture, Part IV *Rossini*
Vincent Russo
- Essay—Literature
The Mirror of the Twentieth Century *Original*
Elinor Case
- Reading—The Mending Wall *R. Frost*
Constance Whitney
- Vocal Solo—Gypsy Love Song *Herbert*
Charles P. Spurrell
- Essay—Of Men and Music *Original*
Albert Goodrich
- Reading—What is "American" *Henry S. Commager*
Ann Marie Morton
- Selection—Beautiful Dreamer *Foster*
Girls' Chorus—Soloist, Charles Spurrell

- Honor Essay—All Toward a Better Life *Original*
Barbara Grigas
- Presentation of Class Gift to the School
William Bain—Treasurer, Class of 1947
- Acceptance of Class Gift
Carlo Mariani—President, Class of 1948
- Presentation of Awards
Albert Lerer, Principal
- D.A.R. Good Citizenship Award
Bausch & Lomb Science Award
Reader's Digest Award
Essay Awards—V.F.W. Auxiliary
Essay Awards—American Legion Auxiliary
American Legion Medals
Maynard Teachers' Club Scholarships
- Presentation of Diplomas
J. Francis Cleary, Chairman of School Committee
- Recessional—Pomp and Chivalry *Roberts*
Orchestra
-
