Sylvia,

Congratulations on finishing a great high school journey. We all were continuously impressed by the way you chose to challenge yourself in the classroom or in the athletic arena to achieve higher and greater goals that you set for yourself. You showed great maturity and leadership as a team captain, in student government, and by volunteering on many school committees. And you were always on the sidelines to cheer on and celebrate the achievements of your friends and fellow classmates! You never settled for anything but your absolute best effort and with this approach we know you'll achieve all that you want out of life. We will always be here to support and love you, so go for your dreams!

THE FUTURE IS NOW

When ChatGPT hit the scene in November 2022, it didn't look like the stuff of sci-fi films. But by fall of 2023, one artificial intelligence (AI) bot could not only answer questions and assist with writing, proof, music, and code, it could also generate descriptions for images, images with advanced prompts, art, and even a novel.

AI is revolutionizing how we work, study, and play. People who once spent hours for the best search results and recommendations of math problems have to assemble furniture or choose the right apartment and location for a new apartment, restaurant, and more. The 100,000+ voters of October 2023, and it seems could give us a and answer responses like "Yes" and "No."

The possibilities of AI analysis are a game-changer. This could replace human intelligence, jobs, and automation, and transform jobs, education, and business, science, and government, created by a single phenomenon of a new, fully-fledged AI.

California became the first state to ban four ingredients commonly found in highly-processed foods and linked to cancer, reproductive problems, and hyperactivity. Red Dye No. 3; brominated vegetable oil used in some sodas; potassium bromate, used in tortillas, pastries, and breads; and the preservative propylparaben will be banned starting in 2027.

STRIKE THAT

Striking unions impacted productivity from Hollywood to Detroit, as movie, television, and automobile workers ceased working. On September 25, 2023, after 146 days on strike, the Writers Guild of America struck a deal that included wage increases and restrictions on outsourcing writing to artificial intelligence. After six weeks on strike, more than 40,000 United Auto Workers members returned to the line in late October 2023 in a deal that included wage increases.

FOR THE BIRDS

In November 2023, the American Ornithological Society announced its decision to rename 150 North American birds previously named for people. The Society resolved to name birds for their appearance or natural environment in an effort to disassociate the birds from the colonial explorers who documented their existence.

WAR IN UKRAINE

PRESIDENTIAL CANDIDATES

One year before the 2024 presidential election, the Democratic Party locked in its candidate with incumbent President Joe Biden. Republicans whittled the field down to two candidates after Mike Pence, Tim Scott, Chris Christie, Vivek Ramaswamy and Ron DeSantis bowed out. Remaining candidates heading into South Carolina's primary elections were former UN Ambassador Nikki Haley and former President Donald Trump. Polls following the December 2023 Republican debate showed 64% of Republicans favored Trump despite him not participating in debates.

SOLAR SPECTACLE

On April 8, 2024, North Americans donned special eye protection to witness a total midday solar eclipse. As the moon passed in front of the sun, its shadow created a twilight moment in some areas. In the path of totality, complete nighttime darkness prevailed for up to four minutes, birds grew quiet, and city lights illuminated.

Professional and amateur photographers alike researched how to capture the moment – and especially the diamond ring effect in the halo.

The next solar eclipse in the contiguous United States that will allow the sun's corona to be visible will be August 23, 2044.

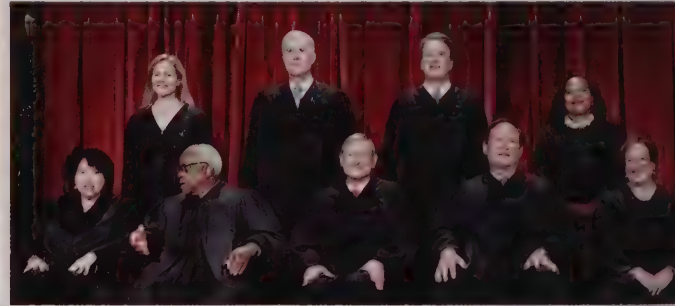

SUPREME PIONEER

The first female Supreme Court justice, Sandra Day O'Connor, died on December 1, 2023, at the age of 93. She championed moderate social conservatism and smaller government.

On June 29, 2023, the U.S. Supreme Court reversed its ruling on affirmative action in college and university admissions, mandating that admissions criteria must be colorblind. COMMON THREADS

When Meta's new social media platform, Threads, made its debut in July 2023 by posting a link on Instagram, 100 million people joined within the first five days. Its success was attributed to its promise to be friendlier than X (formerly Twitter) and easier to share across multiple platforms. But within six weeks, users dwindled to 10 million, and celebrity posts quickly faded.

DOORDASH CASH

DoorDash, the delivery app that hired independent contractors, called "dashers," announced in November 2023 not tipping for deliveries could cause longer wait times for orders. Although the company paid its drivers between \$2 and \$10 per delivery, dashers could choose which deliveries to take and were quicker to choose those with tips.

With more than 116,000 migrants arriving in New York City since April 2022, and more than 19,000 migrants arriving in Chicago since August 2022, the two sanctuary cities struggled to provide shelter and care for people being bussed from the southern border.

LEARNING CURVE

Nearly two years after most American schools returned to in-person learning and traditional school-day schedules, home-schooling was still on the rise in the U.S. With 4.8 million children learning at home, public schools saw a 4% drop in enrollment, while home-schooled students increased by 51% over the past six years, and private schools saw a 7% increase in enrollment.

After 0.8 inches of rain in just 24 hours pelted the Burning Man Festival in the Nevada Black Rock Desert on September 2, 2023, a sloppy mess trapped nearly 80,000 activists, artists, and musicians as more than a foot of mud closed roads. SEEING RED

The mascots for the 2024 Olympics and Paralympics made their debut in November 2023, and people asked, "What are they?" The mascots were red hats – Phrygian hats – that symbolized revolution, freedom, and striving. In previous Olympics, the two mascots were distinctly different characters. But the Phryges symbolized that we are all alike, with the Paralympic Phryge sporting a racing blade but otherwise a carbon copy of the Olympic Phryge.

LAUGH IT UP

"Laughing out loud" (lol) was cool in the 1980s. Then came "rolling on the floor laughing" (ROFL), and then emojis took the world by storm starting in 2011. But 2023 saw the popularization of a new acronym: IJBOL (pronounced "eej-bowl"), which stands for, "I just burst out laughing." The expression elicits laughter at untimely moments.

GRAB-AND-GO BAG

Thought to be a nerdy accessory in the 1980s, the fanny pack made a comeback with men and women. Stylish colors, fabrics, and a jaunty cross-body look made these pouches a hip go-to bag in 2023.

NOW IN STYLE

After falling out of style in the 1990s, permed hair, especially for men, made a comeback. A combination of popular TikTok influencers using the hashtag "perm" and K-pop stars like BTS brought back the hairstyle, now being called "new wave."

PLAY FAIR

Epic Games, the makers of the popular online video game Fortnite, were directed in September 2023, to pay Fortnite players \$520 million in refunds for deceptive practices that lured people to buy items like costumes and dance moves for gameplay. SHOE IN

Birkenstocks, long associated with hippies and casual comfort, collaborated with haute couture fashion houses and produced sleeker styles. And Crocs stepped it up with Shrek Crocs and Crocs cowboy boots.
