Report of the Board of Selectmen

To the Citizens of Maynard:

The Board of Selectmen respectfully submit for your consideration the Annual Report containing the reports of Town Officers and Committees for the year 1941.

The report of the Town Accountant is a record of the various financial transactions of the Town and taxpayers who find the time to thoroughly examine the report will know where their tax dollar goes.

As goes the local mill so goes the town and because the financial condition of the mill workers has been favorable so is the financial condition of the Town. The balance on Treasurer's books has increased from \$67,000.00 in January 1, 1941 to \$113,000.00 on January 1, 1942, thus placing the Town in a very favorable financial condition.

Living costs have increased greatly during the year mainly due to generally higher prices of all commodities. Mill wages have been advanced to meet this emergency and so too should the wages of the town employees be increased.

On August 18th a meeting was held with the Town Treasurer for consideration of water bonds.

Voted: That sale of \$40,000.00, 1% Water Bonds numbered 1-40 of the Town of Maynard dated July 1, 1940, payable \$5,000.00 July 1st in each of years 1942-1949 inclusive under vote of the Town passed December 9, 1940, to the Maynard Trust Company at \$100.125 and accrued interest is hereby approved.

On September 8th it was necessary to issue restraining order against dogs.

During the year a conference was held with the Board of Health regarding removal of the public dump. Conditions had become so bad at the temporary dump at the old cricket field that the Selectmen decided to notify the Board of Health that they must find another place and as a result the dump is now at the old Boeske sand pit on Waltham Street.

At the request of the Federal Government Planning Agency a meeting was held on October 12th, with Mr. Paul Hedden of the National Resources Planning Board at which time a Federal System of long range planning was explained. This method of systematic planning of capital outlay for improvements over a period of years impressed the Board as desirable. A planning Board for Maynard was appointed consisting of Walter Cheslak,

Harold Morgan, George Stuart, Carl Stockbridge, Charles Manty and John O'Leary. This Board is to work under the direction of and with the assistance of the Federal Planning Agency for the benefit of the Town.

During the year traffic regulations were altered to take care of needs as they became apparent; a rotary circle was constructed at Parker Street and Great Road intersection and this has been very effective in regulating traffic.

On December 10th by a unanimous vote, a state of emergency was declared existing, due to the state of war which existed, and in keeping with this vote the following votes were passed:

1. To provide a suitable lookout for air raid detectors.
2. That the Fire Engineers be authorized to properly man their department.
3. To add a temporary policeman to the police force.

On December 23rd, the Board voted to accept certain sections of the General Laws thereby authorizing the Police and Fire Departments to go to the aid of other cities and towns.

The Board wishes to commend the American Legion for its prompt action in taking the responsibility of operating the observation post on twenty-four hour duty; the volunteers who have manned the air raid report center on twenty-four hour duty and the other groups and individuals who have given their time and energy in preparing our town for any emergency as may develop from the situation we now face.

No one knows what the future may hold but the unselfish response from our citizenry so far, assures us that whatever develops we will have tried to be prepared.

Respectfully submitted,

DONALD A. LENT,
ALTON W. SIMS,
WALTER A. CHESLAK,
Board of Selectmen.

Report of W. P. A. Committee

To the Citizens of Maynard:

The report of the Maynard W.P.A. Committee for the year ending December 31, 1941, is herewith submitted.

The W.P.A. Committee is composed of the Chairman of the following Town Boards: Selectmen, Water, Sewer, Health, Cemetery, Finance Committee, Welfare Board and Mr. James A. Coughlan of the Citizens Committee.

During the past year the W.P.A. case load in Maynard was greatly reduced. Our local industry which has been working at full capacity on defense contracts is responsible for this decrease as they have employed middle aged men from the W.P.A., who were formerly unable to secure employment there, to replace younger men that have answered the call to our armed forces.

With the few that were employed on W.P.A. the Town profited greatly in civic improvements resulting from completed projects.

With the aid of a W.P.A. project our school buildings on the exterior have been completely renovated by having the windows weather stripped, puttied and painted. The interior of the school buildings are now being repaired with W.P.A. labor by installing new celotex ceilings where needed, replacing plaster ceilings that were beyond repairs, having the hallways, classrooms washed and painted. These repairs have added considerable to the appearance of our school buildings.

The Sewer Department with the aid of W.P.A. labor has extended our sewer system over 3,200 linear feet. These extensions were laid to serve property owners on Crane Ave., Bates Ave., and Elmwood Street.

The W.P.A. sewing project that was sponsored by the Welfare Department at the Roosevelt School was discontinued by the Government during the year. Majority of the women employed on this unit have secured employment on other defense programs.

Under the supervision of our tree warden the W.P.A. planted over 300 shade trees throughout the Town. During years to come as these trees and the trees that were planted in previous years with W.P.A. labor grow, they will add considerable to the beauty of our Town.

With the aid of a W.P.A. project the Water Department extended their water mains on Marlboro and North Streets.

These extensions were made to serve the new real estate development that is in progress in this section of Maynard.

During September the Water Department with the aid of W.P.A. started to install a new water line from the Pumping Station in Maynard to White Pond in the Town of Stow. When this project is completed during the early part of next year our water system will be greatly improved.

The Town Accountant's report will show the expenditures of the Town's money on various projects.

In conclusion, we wish to express our appreciation for the willing co-operation we have received from the various Town Departments during the past years.

Respectfully submitted,

JAMES A. COUGHLAN

Report of Superintendent of Streets

To the Honorable Board of Selectmen:

I herewith submit my second annual report as Superintendent of Streets for the year ending December 31, 1941. In the performance of my duties I have received the co-operation of the Department employees and your Board of Selectmen.

MAINTENANCE OF STREETS

During the spring season of the year the streets in the business section were flushed with water to keep dust and sand from blowing.

Continuing the policy of repairing streets by the "Mixed in Place Method," this department has repaired over 4,000 square yards of streets. The streets repaired by this method were; King, Concord and Chandler Streets.

Over 23,000 square yards of streets were scarified, shaped and tarred. These streets were Deane, Glendale, Pine, Spring Lane, Summer, Elmwood, Tremont, Marlboro, North, Summer Hill Road, Puffer Road, Taylor Road, Parmenter Avenue, Douglas Avenue and Harriman Court.

A sealing coat of asphalt was applied to approximately 18,000 square yards of streets, namely; Walcott, Parmenter, Hillside, Summit, Oak, Dartmouth, Bancroft, Fowler, Pomciticut Avenue, and Marlboro Road.

Approximately 8,000 square yards of streets were shaped, tarred and treated with a pea stone surface. These streets were Sudbury, Lincoln and Charles Streets.

SIDEWALKS

An asphalt tar sidewalk was laid on Waltham Street 350 square yards, Summer Street 285 square yards and Acton Street 500 square yards.

With the abutters purchasing the cement, granoethic sidewalks were laid on the corner of Nason and Main Street 175 square yards, Nason Street 100 square yards and Main Street 175 square yards.

SNOW

All streets and sidewalks were plowed during each storm. The plowing starts with the storm and continues until the storm ends. Streets and sidewalks were sanded when required for the safety of pedestrians and traffic. After every storm snow

was removed from the business section and from in front of every church in the Town.

The State Department of Public Works renewed their contract for paying one half the cost of removing snow from Great Road.

Residents are requested to make use of the emergency sand barrels that have been placed in various sections of the town.

The sidewalk plow which was purchased during the year has proven very successful. This plow replaced the horse drawn sidewalk plow.

The new sand loader enables this department to sand streets and sidewalks faster and at a great saving to the Town.

CHAPTER 90 MAINTENANCE

Under Chapter 90 Maintenance Acton Street for a distance of 4,000 square yards was mixed in place and sealed with a pea stone cover.

On Waltham Street, 2,500 square yards and on Great Road 1,500 square yards of surface was asphalt treated and sealed with stone.

The entire length of Great Road and Parker Street gravel shoulders were shaped and tarred.

A storm drain of 480 linear feet and a catch basin was installed on Great Road near the Eleventh Estate.

CHAPTER 90 CONSTRUCTION

The narrow bridge over the canal on Great Road has been widened by placing two additional concrete arches and a granite sidewalk on the easterly side of the bridge. This section of the road has been rebuilt and surfaced with Class I Bituminous concrete. The widening of this bridge eliminates a very dangerous traffic hazard that existed on this route.

Owing to new drainage, sewer and water being installed on Brown Street by the W.P.A. it was necessary to rebuild 1,500 linear feet of this street with Class I Bituminous concrete.

During the coming year plans have been made to complete route 27 to Main Street by rebuilding Haynes and Acton Street with the balance of money transferred from Great Road Bridge account plus the additional appropriation requested in 1942's budget.

FENCE

A cyclone chain link fence of 400 linear feet has been erected on the easterly side of Sudbury Street along the pond. The erection of this fence eliminates the wooden rail fence that was formerly along the pond.

A fence of 120 linear feet also erected along Florida Road in front of the St. George's Church property.

STREET SIGNS

Modern street signs have been placed on one third of the streets in the town replacing the wooden street signs. This practice is to continue until all streets have a modern street sign and post.

During 1942 construction work may be curtailed due to the national emergency, however, this Department has requested Chapter 90 funds for the reconstruction of Main Street. Various defense precautions have been taken in order that this Department may be prepared in case an emergency should arise.

The Town Accountant's report will show a detailed account of the expenditures of this Department.

In conclusion, I wish to thank the various Town Officials, appointed and elected, for the assistance they gave me during the past year and to express my appreciation to the citizens of the town for their kind words of appreciation of my efforts.

Respectfully submitted,

EDWARD V. KELLEY, Superintendent.

Report of Police Chief

To the Honorable Board of Selectmen:-

I hereby submit my annual report as Chief of Police for the year ending December 31, 1941. In the performance of the duties of the office I have had the cooperation of the officers of the Department, also the helpful assistance of the Board of Selectmen. All complaints received during the year were investigated and disposed of promptly.

EQUIPMENT

In accord with the vote at the annual town meeting in March the police cruiser was traded in for a new cruiser. This practice of trading in the police car annually has proven very economical.

The Fire Department and this Department during the year purchased a row boat to be used for drowning accidents. This boat has been placed on a trailer by the Fire Department and is now located with the grappling irons and inhalator at the Fire Station.

PARKING

With our local mill working at full capacity on defense contracts it has increased the number of automobiles traveling into Maynard each day. This increase of daily traffic has added considerable congestion to our present over crowded parking areas. While the two parking areas in the town serve their purpose they are not large enough to meet our present demands on busy nights. Serious consideration should be given during 1942 to establish another parking area.

TRAFFIC

At the intersection of Parker Street and Great Road a rotary traffic circle, designed and approved by the State Department of Public Works, has been constructed. This rotary traffic circle has helped to reduce the number of accidents and speed at this intersection.

Speed limit signs have been placed on all thoroughfares that lead into Maynard from surrounding towns. Other traffic signs have been placed in various sections of the Town to eliminate different traffic hazards.

DEFENSE

During the year all regular policemen have attended the F. B. I. training school for defense. At this school each officer

was instructed in the handling of traffic, first aid and gasses during an emergency. In 1942 an auxiliary police force will be formed for emergency purposes only. Additional police equipment has been purchased to modernize the Department.

In my 1942 budget I have requested the purchase of a two way radio. The advantages of a two way radio are numerous, especially, during this emergency. It increases the efficiency of any Police Department. The speed with which a Police Department may act is immeasurably increased through the use of a police two way radio. In case of an air raid a police officer in a patrol car can report immediately to the police station actual conditions at the site of any emergency. Police officers can call for an ambulance, doctor or fire apparatus if needed.

This Department believes that the purchase of a two way radio is an actual necessity for the proper safety of our town, especially, during this era when one is unable to foresee what emergency the future may bring.

SAFETY

Each week during the winter months the life preservers at the Mill Pond and along the Assabet River have been checked.

As in previous years various streets as designated by the Board of Selectmen have been closed for coasting. These streets were Roosevelt, Park, Percival, Prospect, Lewis and Walcott Streets. Parents should instruct their children to coast on these streets, and these streets only, in order to prevent accidents.

BICYCLE REGULATIONS

On the election warrant there will be the following referendum: "Shall Section 11A, Chapter 85 of the General Laws, as recently amended by Chapter 710 of the Acts of 1941, be Accepted?"

"Said Section 11A prohibits any inhabitant of a town which has accepted the same, from operating a bicycle within the limits thereof unless each bicycle is registered under this section in such town and unless the registration plate issued therefor is attached to such bicycle."

Each year bicycles are stolen, not only in Maynard, but also in other cities and towns. If this act is accepted each bicycle in Maynard must be registered at the Police Station. The registration fee will be twenty-five cents and each registrant will be given a number plate. The acceptance of this act will help to eliminate the stealing of bicycles.

REPORT OF ARRESTS FOR 1941

The Town Treasurer has received from the American Woolen Company \$826.09. This reimburses the Town for the money paid by the Town to local police officers guarding their pay rolls.

The amount of money received by the Town Treasurer from the Concord District Court for the year 1941 was \$459.72.

In conclusion, I wish to express the appreciation and the thanks of the Police Department to the Board of Selectmen; to all other Town Departments who have been of assistance to the Police Department.

Respectfully submitted,

HENRY F. PIECEWICZ,
Chief of Police.

Report of Dog Officer

To the Board of Selectmen:-

I, as dog officer of the Town of Maynard, respectfully submit the following report.

During the past year I have notified seventy-five delinquent dog tax owners. Of this number the Town Clerk has collected seventy-three and the remaining two have been disposed of.

HENRY F. PIECEWICZ,
Dog Officer.

- Three blasts at 6.30 P. M. for Evening School. (Over)

Instructions for Giving Fire Alarms

Alarms should be given from the box nearest the fire. Open the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open a box except in case of fire.

Do not sound an alarm for a chimney fire or brush fire, or fire seen in the distance. Telephone the Fire Station or the Fire Engineers.

AN ACT TO PROHIBIT THE DRIVING OF VEHICLES OVER MUNICIPAL FIRE HOSE—1926, Chapter 278

Section 7A. Upon the approach of any fire apparatus which is going to a fire responding to an alarm, every person driving a vehicle on a way shall immediately drive said vehicle as far as possible toward the right-hand curb or side of said way and shall keep the same at a standstill until such fire apparatus has passed. No person shall drive a vehicle over a hose of a fire department without the consent of a member of such department. No person shall drive a vehicle within three hundred feet of any fire apparatus going to a fire or responding to an alarm, nor drive said vehicle, or park or leave the same unattended within six hundred feet of a fire or within the fire-lines established thereat by the fire department. Violation of any provision of this section shall be punished by a fine of not more than twenty-five dollars. (Approved April 28, 1926.)

Remain at box until apparatus arrives.

Investigate your chimneys and keep them clean.

Do not throw lighted cigarettes.

Traffic siren means pull out and stop.

Oil stoves need to be inspected and cleaned frequently.

Drive 300 feet from fire apparatus.

Remain 600 feet from fire.

A permit is required for all open fires.

False alarms are punishable by fine or imprisonment.

How to send an alarm from box: Go to the nearest box, open door, pull lever way down once and let go, then shut door, remain at box and direct firemen to fire.

When calling headquarters by telephone for fire speak calmly and distinctly, giving street, location on street, and name of person calling; this will insure more prompt response by the firemen.

Do not allow rubbish, paper, or any inflammable material to accumulate in or about your property.

Always call the Department before attempting to extinguish a fire yourself.

The Fire Department will be enabled to render better service if these instructions are followed.

Maynard Air Raid Precautions Services

Instructions To Householders

1. Clear attic of inflammable material and be sure stairs are unobstructed.
2. Keep two pails of dry sand in the house, a long handled iron shovel, flashlight and axe. Have a pail full of water handy, also a heavy blanket which can be wet and folded into four thicknesses to be used as a shield when approaching an incendiary bomb.
3. If a garden hose is available be sure nozzle will give a fine spray as well as a stream of water. A standard threaded faucet is necessary for attaching hose.
4. Know your Post Warden. Contact him for additional information.
5. When the air raid alarm sounds—ten blasts—automobiles on streets must be driven to the side at once. If on main streets they should be driven to a side street.
6. In case of an air raid:
 - a) Do not use telephone except in an extreme emergency; then call your Post Warden.
 - b) Do not shut off the water supply.
 - c) Do not shut off the main electric switch.
 - d) Do not shut off gas at the meter, but close any operating jets.
7. In case of an air raid signal at night extinguish all lights except those in rooms equipped for blackout. The blackout will be legally enforced. See that your room is light-proof.
8. If the alarm is sounded keep cool and remain in your home.
9. Your warden will ask you for information about your home. Do not think him curious. The information is necessary for your protection.

G. W. FOWLER,

Chief Air Raid Warden

Report of Fire Department

January 19, 1942.

The Honorable Board of Selectmen:
Gentlemen:

The report of the Fire Department for the year ending December 31, 1941, is herewith submitted:

BUILDING

Headquarters Nason Street, housing Engine I, Ladder I, Combination I, also the Fire Alarm System.

APPARATUS

In service: One Pumping Engine equipped with a 150 gallon Booster Tank, 250 feet of Booster Hose, 1,000 feet of two and one-half inch Hose, 200 feet of one and one-half inch Hose, one 34 foot extension ladder, one 16 foot roof ladder, two Mystery nozzles for use on oil or gasoline fires, searchlights, one C.O.2 Fire Extinguisher, two ten foot lengths of suction Hose, one stretcher, one Salvage Cover, Gas Masks and minor tools for extinguishing fires.

One Combination Wagon with 1,250 feet of two and one-half inch Hose, one 28 foot ladder, one 14 foot roof ladder, blankets and Salvage Covers.

One 60 foot Aerial Ladder truck equipped with 240 feet of ground ladders, one Eastman Ladder Gun, a Portor Life Net, one 50 foot length of three inch Hose, 100 feet of one and one-half inch Hose, two pitch forks, two shovels, four pike poles, 900 feet of two and one-half inch Hose, one 20 ton Hydraulic jack, six Salvage Covers, 250 feet of Booster Hose, one 100 gallon Booster tank, one Foamite Extinguisher, Gas Masks, one Inhalator, Door Opener, Hose Clamp, one Mystery nozzle and one C.O.2 Fire Extinguisher.

FIRE ALARM SYSTEM

There are 24 Boxes, 8 Phantom Boxes, 17 miles of wire, one Whistling Machine with Steam Whistle, one House Tapper, one Tape Register, 27 Battery Cells and two Rectifiers.

DUTY PERFORMED

Number of Alarms responded to	165
False Alarms	1
Box Alarms	35
Out of Town calls	6
Inhalator calls	1

Telephone calls including brush, chimneys and automobiles	122
Permits issued for the storage of Range Oil	80
Permits issued for Power Burners	21
Permits issued for Blasting	9
Permits issued for Fireworks	7
Permits issued for storage of Gasoline	3
Number of feet of two and one half inch hose laid	13,550
Number of feet of one and one half inch hose laid	1,100
Number of feet of Booster hose laid	15,935
Number of feet of ladders raised	901
Number of gallons of chemical used	38
Number of chemicals recharged for private use	75

Buildings	\$ 4,627.61
Contents	1,464.23

Our Financial Statement may be found in the Town Accountant's report.

During the year several inspections were made of public buildings, business places, churches and public schools. Many hazards were found and have been corrected. May we at this time urge all home owners, landlords and tenants to make Fire Prevention a part of their daily routine.

The public schools have been inspected and Fire Drills were held which were very satisfactory. We wish to thank the Superintendent, Principals and Teachers for the co-operation extended us during this work.

The department has answered a total of 165 calls for the year and this is the largest number of calls received in any one year on record. Our fire loss is given as of December 11, 1941 and we are pleased to report that it is much smaller than the previous year.

The outside Fire Alarm system is in good condition and the inside equipment has been improved, and lightning arresters have been placed on it. A new box has been installed on Main Street corner of River Street. (Number 28). This work was done by the permanent men of the department.

Practice sessions were held and instructions given the men of the department.

The weekly collection of rubbish and paper in the business section by the Highway Department has helped to reduce the many hazards that existed. At this time we wish to thank the Superintendent for the co-operation extended us in this work.

During the year we have organized an Auxiliary Fire Force to assist in the emergency. These men were given a ten weeks course of instruction in handling of hose lines, raising and dogging ladders, salvage work and other duties of which they may be called upon to do. We wish to thank these men for the time they have given and for the co-operation we have received from them.

Every man in the department has been insured against injury or loss of life and this was made possible through the generosity of the public in attending our annual whist party, for which we wish at this time, to thank sincerely.

We wish to thank the Police and all other Town Departments for the co-operation extended us during the year.

In Memoriam

THOMAS J. LAWLER

1938 - 1941

RECOMMENDATIONS FOR 1942

We are recommending this year that the 28 year old Combination truck which we have in service be replaced with a modern 750 gallon Pumping Engine and Hose Wagon. With the present emergency existing we feel that we should have a Pumping Engine capable of delivering sufficient water for Fire Protection from other sources of supply in case of the main distribution system being disrupted. We have made a survey and have found that from the Mill Pond and from various points along the river with the proposed equipment we would be able to give protection to a large portion of our town.

We are also recommending smaller pumps to be used as auxiliary equipment in separate sections of the town.

Respectfully submitted,

GEORGE T. PRIEST,
RICHARD ALLAN,
WALTER PRIEST,
Board of Engineers.

Forest Warden

January 19, 1942.

The Honorable Board of Selectmen:
Gentlemen:

The report of the Forest Warden for the year ending December 31, 1941, is herewith submitted:

One hundred eighty five permits for fires in the open were issued. The past year was extremely dry and many forest fires were started. The department laid 15,150 feet of hose in wooded and grassland sections to combat these fires.

As there has been a change in regulations regarding permits for setting fires in the open, I am inserting a copy of this act in my annual report, which is as follows,

[Chap. 581]

AN ACT FURTHER REGULATING THE SETTING OF FIRES IN THE OPEN AIR

Be it enacted, etc., as follows:

Chapter forty-eight of the General Laws is hereby amended by striking out section thirteen, as amended by chapter two hundred and four of the acts of nineteen hundred and thirty-eight, and inserting in place thereof the following section—Section 13. No person shall set, maintain or increase a fire in the open air at any time unless the ground is substantially covered with snow, except by written permission, covering a period not exceeding five days from the date thereof, granted by the forest warden or chief of the fire department in cities and towns, or, in cities having such an official, the fire commissioner; provided, that no such permit shall be granted to be exercised during any portion of the months of April and May except upon rainy days; and provided, further, that persons over the age of twenty-one may, without a permit, set, maintain or increase a reasonable fire for the purpose of cooking, upon sandy or

gravelly land free from living or dead vegetation or upon sandy or rocky beaches bordering on tide water, if the fire is enclosed within rocks, metal, or other non-inflammable material. The forest warden, chief or fire commissioner, as the case may be, may make it a condition for granting a permit that any burning shall be done only after four o'clock (eastern standard time) in the afternoon and he may revoke a permit at any time. The forester may make rules and regulations relating to the granting and revocation of such permits binding throughout the commonwealth. Such rules and regulations shall take effect subject to section thirty-seven of chapter thirty, when approved by the governor and council. The forest wardens in towns and officials performing the duties of forest wardens in cities shall cause public notice to be given of the provisions of this section and shall enforce the same. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both.

Approved August 1, 1941.

Respectfully submitted,

GEORGE T. PRIEST,
Forest Warden.

Report of John A. Crowe Park Superintendent

To the Honorable Board of Selectmen,
Gentlemen:

I herewith submit my annual report as Superintendent of John A. Crowe Park for the year ending December 31, 1941.

The tennis courts have been completed with the exception of the gate. The trailer lawn mower which the Town purchased has kept the grass cut at a very low cost.

This year I would like to install a drinking fountain and drain at the tennis court, also install a drain at the drinking fountain in the field.

Respectfully submitted,

JOHN C. BRAYDEN, Superintendent.

Report of the Moth Superintendent

To the Honorable Board of Selectmen:

The gypsy moth situation remains about the same. We are not gaining on them very fast; but are keeping them under control. As we creosote the gypsy moth egg clusters we also gather and destroy the tent caterpillar belts. To-date we have found no brown tail moths which are often found on the various fruit trees. On public shade trees the webs formed by the Leopard Moth caterpillars were cut off and destroyed.

For the information of the townspeople I would like to inform them what the work of this department consists of. There are approximately 1,500 acres of woodland, 20,000 public trees, and all fruit trees to be looked over for gypsy moth egg clusters, which are painted with creosote to destroy the eggs. On these same trees the brown tail moth nests and the egg clusters of the tent caterpillars which are found, must be picked and burned. The same is done to the Leopard Moth.

Elm trees should be sprayed 3 times a year as there are 3 broods of the elm leaf beetle, which is a hibernating beetle, but if 80% of the beetles are destroyed on the first spraying there is little need for the 3rd spraying. This year required considerable more spraying due to the conditions of the Elm beetle and gypsy moth.

There are 30 miles of brush to be cut along public highways, 7 miles of which has already been cut.

We have used approximately 60 gallons of tree creosote this year. Every gallon destroys about 1,000,000 eggs. Each egg cluster contains from 400 to 700 eggs.

The Town Accountant's Report will show the expenditure of this department.

Respectfully submitted,

WILLIAM V. HANSEN,
Moth Superintendent.

Report of Sealer of Weights and Measures

January 19, 1942.

To the Honorable Board of Selectmen,
Gentlemen:

I herewith submit my report as Sealer of Weights and Measures of the year 1941.

In submitting this report, wish to state that at the close of the year all weighing devices and measures in the town are in good condition, in accordance with the law, also that I have received excellent co-operation from merchants and all those who come under the requirements of this department.

	Sealed
Platform scales over 5,000 lbs.	3
Platform scales 100 to 5,000 lbs.	42
Counter under 100 lbs.	44
Beam 100 lbs. or over	3
Spring under 100 lbs.	34
Spring 100 lbs. or over	6
Computing under 100 lbs.	35
Personal weighing slots	6

Received from peddlers licenses	26.00
Appropriation	240.00
Total Expenditures	229.29
	10.71
Balance\$	10.71

Respectfully submitted,

WILLIAM H. O'BRIEN,
Sealer of Weights and Measures.

Report of Finance Committee

Maynard, Mass., Jan. 21, 1942.

Board of Selectmen,
Maynard, Mass.

Gentlemen:

We herewith submit the report of the Finance Committee for the year 1941.

Ten meetings were held during the year. Five of these were for budget study previous to the annual appropriation meeting. The balance of the meetings were held to discuss articles for consideration at special Town meetings or at the request of departments having business to come before our Committee.

During the past year our Committee was a member of the Association of Town Finance Committees and several meetings of the Association were attended by some of our members.

Because of present industrial conditions it is reasonable to expect that the need for various forms of welfare will continue the decline experienced during 1941.

With the great need for defense expenditures of all types W.P.A. spending will be restricted on all non-essential projects. It also seems at this time that no money will be available for Chapter 90 road work. A word of caution on all types of non-essential spending seems necessary so that our tax rate may be as low as is consistent with the proper operation of all Town departments, because of the certainty of heavy taxes of all kinds for the purpose of National Defense.

The following transfers from Finance Committee Reserve were voted during the year:

Sewer Department for Connections	\$	300.00
School Department		78.12
Adult Alien Education		12.42
Fire Department		260.00
Board of Selectmen		2,370.00

For Defense Purposes as follows:

Medical Department	\$	1,500.00
Police Department		75.00
Road to Reservoir		300.00
Lumber for Look-out		200.00
Telephone for Look-out		20.00
Report Center		200.00

Fire Department	75.00
	<u> </u>
	\$ 2,370.00

Respectfully submitted,

JOSHUA NAYLOR, Chairman
 HAROLD J. MORGAN, Secretary
 WILLIAM J. BAIN,
 JOSEPH BYRNES,
 JAMES COUGHLAN,
 IRVIN HOWE,
 FRANK PUNCH,
 GEORGE STUART,
 PHILIP WILSON,
 Finance Committee.

Report of Trustees of Soldiers' Memorial Park

To the Board of Selectmen:

The annual report of the Trustees of Memorial Park is herewith submitted.

On the retirement of Mr. John Cleary, who had faithfully cared for the Park for several years, Mr. William V. Hansen, Tree Warden, was appointed caretaker. His knowledge of trees and their protection will be of great value in promoting the life and beauty of the Park.

The floral display and the Christmas lighting were bright spots which brought to all, especially the children a great deal of pleasure in our Park.

Near the end of the year we were able to dispose of the old wooden building which had become a problem because of its condition. The building was torn down and the lumber used in the observation post.

Mr. Hansen and Mr. Rynkiewicz have performed their work faithfully.

Respectfully submitted,

DONALD A. LENT,
 ALICE NAGLE
 ALICE BROWN HOWE
 WILLIAM BRINDLEY
 LEO WHITE
 OSWALD DRECHSLER

Report of Board of Public Welfare

Maynard, Mass., Jan. 17, 1942.

To the Citizens of Maynard:

The year 1941 showed a further decline in the welfare needs of our townspeople. We opened the year with a reduction of \$10,000.00 in our appropriation over the previous year and we are pleased to show a substantial balance at the end of the year with all bills paid and practically all bills collected from the state and other cities and towns.

The large governmental orders received by the American Woolen Company for defence and war material have given employment to practically every able bodied person who is willing to work. The result has been a marked reduction in our welfare cases of from 46 cases as of Jan. 1, 1941 to 30 cases receiving general relief on Jan. 1, 1942. This is the lowest number of general relief cases we have had since 1929. We still have many unemployables and aged aliens who cannot qualify for any other category of relief and must be taken care of under general relief.

What effect the war will have on our relief picture remains to be seen but it is only fair to suppose that our department will be affected as will all other departments and persons in the country.

We are asking for an appropriation of \$2,000.00 less than that of last year for General Relief, Administration and Distribution of Surplus Commodities.

Old Age Assistance

On Dec. 31, 1941 there were 107 persons receiving Old Age Assistance, an increase of 1 case over the previous year, 21 new cases having been added and 20 cases closed by death and removals.

The legislation enacted by the 1941 Legislature increasing grants to Old Age Assistance recipients will, of necessity, increase the cost of Old Age Assistance from May 1 to the end of the year. This increase can only be met by increased appropriation. We are asking for an appropriation of \$5,000.00 more than was appropriated last year, which, with our unexpended balance of this year and by taking advantage of the Old Age and Survivors Insurance, we hope to meet our obligations for the coming year.

AID TO DEPENDENT CHILDREN

We are caring for six cases of Aid to Dependent Children, consisting of 8 adults and 15 children. Two cases have been added during the year.

W. P. A. AND SURPLUS COMMODITIES

The W.P.A. Sewing Unit was closed during the year but distribution of surplus commodities continues. The report of distribution in our community is as follows:

Direct distribution of food	\$ 17,019.44
Direct distribution of clothing	3,529.35
Combined value of both food and clothing for the year 1941	20,548.79
Cost of Distribution	508.94

Respectfully submitted,

ALTON W. SIMS,
JAMES M. MacKENZIE,
WILLIAM J. SMITH,
Board of Public Welfare.

Report of Inspector of Animals

To the Honorable Board of Selectmen:

I herewith submit my report for the year 1941.

I have inspected 26 barns, 152 cattle and 554 swine.

Quarantined 7 dogs on suspicion of rabies and released same after fourteen days.

Respectfully submitted,

JOSIAH M. HERRICK, Inspector.

Report of Library Trustees

To the Citizens of the Town of Maynard:

The Maynard Public Library Trustees and Librarian herewith submit their report for the year 1941.

We are indebted to the following Libraries for the loan of books during the year: Division of Public Libraries, Concord, Mass., The Medical Library and the Cambridge Public Library. We appreciate these loans because they are for books that we would be unable to buy because of the cost and the fact that they are books that would not be generally circulated.

The following people have donated books to the Library: Shirley Jensen, Mrs. Chester Bolton, Bernard Baruch, Alfred P. Sloan, Jr., Mrs. Van Housen, Anon., Charles W. Cell, Russell G Carter, A. I. Gates, Rev. Maud Hembree, E. J. Leahy and David Wegg. We wish to express our thanks to these people and assure them or any others that we are glad to receive gifts of books at any time.

The statistical report is as follows:

Books in the Library, January 1, 1941	8,655
Worn out	55
Lost	8
Purchased	391
Gifts	166
Books in the Library, January 1, 1942	9,212
Books Bound	221
Books Borrowed	196
Circulation	30,284
Fines collected during year	\$57.37

Yours respectfully,

MARY E. MOYNIHAN, Librarian.

The Maynard Public Library Trustees again appeal to the citizens and residents as well, to use the Library more than they do.

We have warm comfortable quarters and hundreds of books on all subjects. In these trying times there is nothing better than to borrow a good book from the Library, relax and lose oneself in a love, adventure, western, detective or other story, to the reader's own fancy, and forget the cares of the world for four or five hours. Try it sometime, for those "jittery nerves."

Many times the Library is filled with students and young people studying, reading or using the reference books, but that does not show in our circulation figures of books that are taken out, "for home use."

When a W.P.A. project was started in the Library in June, we had hopes of having one of the finest appointed Libraries in this section. But the, "powers that be," ruled otherwise and the project was stopped, just as the girls were making splendid progress. Consequently the books and catalogue system are not in the shape we had hoped they would be. But the work that was done, was done well and was appreciated by the Trustees and Library staff. If another project could be started there things would soon straighten themselves out.

During the year we received numerous gifts of books, especially a fine collection from Mr. David Wegg, embracing many subjects including a fine set of engineering books, which we greatly appreciate.

The Trustees and Library staff are willing at all times to co-operate with the public in regard to ideas toward making your Library all that you want it to be. We will be glad to purchase books and magazines that will best fit the needs of the reading public. Any suggestions may be left at the Library.

Respectfully submitted,

JOHN E. HANNON, Chairman
ROBERT LESTER, Secretary
MISS NELLIE C. MAY

Report of the Tree Warden

The Honorable Board of Selectmen:

As the citizens of Maynard have come to realize the value of the public trees much more is expected from this department. Putting an old tree in first class condition has to be done with skill and care and is a slow process. Due to the hurricane many trees were damaged and blown down. Since this hurricane in 1938, about 70% of all the trees on public streets have been pruned and repaired. It is our intention to continue this work until all are finished.

"When are you going to replace the tree in front of my house which was blown down in the hurricane?" is a question often asked. Many of these trees have already been replaced, but due to changing conditions it is often ill-advised to replace a tree in the same location.

The W.P.A. gave us assistance in the trimming and stump removing. From this project 50 loads of wood were distributed by the Selectmen, Board of Welfare and civic committee. An equal amount went to the abutters.

During the tree planting project of 1941, 72 nursery trees were planted on public highways and approximately 50 trees taken from the town woodlands and planted.

The tree spraying consisted of spraying the ash trees for oyster scales, the maple for cotton aphid and red mite, and the elm trees were sprayed 3 times for the elm beetle. The elm leaf beetle was very prevalent this year and some of our best privately owned trees were defoliated. This condition can be remedied if the trees are sprayed at the right time and in the next two years every elm tree in the town should be sprayed at least once. The elm trees were examined for signs of the Dutch Elm Disease and specimens were sent to the Massachusetts State College for analysis. There is no sign of this disease as yet.

During the coming year the trees should be sprayed. Approximately 2,400 young trees should be trimmed, shaped and braced. There are limbs to be removed, trees to be cut down, and thousands of mechanical scars to be treated this year, because of the hurricane in 1938, and trees to be artificially stimulated. As there are to be no W.P.A. Projects this year, I am requesting a special appropriation for tree planting as there is an unusually large number of requests for trees.

The Town Accountant's Report will show the expenditures of this department.

Respectfully submitted,

WILLIAM V. HANSEN, Tree Warden.

Report of the Sewer Commissioners

To the Board of Selectmen,
Gentlemen:

The annual report of the Sewer Commissioners for the year ending December 31, 1941, including the report of the superintendent, is herewith submitted. This is the twelfth annual report of this department

The Common Sewers have been extended on Bates Ave., Crane Ave., and Elmwood St. 1,352 feet. This makes a total of 12.8 miles of Common Sewers. The Common Sewers for which appropriations have been made and have not been constructed are, Brown to Acton St., Douglas Ave., and the sewer from Florida Rd. to Martin St.

We have an application for an extension on Sherman St.

All this work has been done under a W.P.A. Project.

Forty-seven house connections have been made this year and two have been discontinued making 857 connections in use.

It became necessary to request an appropriation from the funds of the Finance Committee to complete the connections.

An application for a connection to take care of the domestic sewage for the Assabet Mills was received and after being advised by Frank A. Barbour, Engineer, this connection has been made, but it has not been put into service. We expect this connection will increase our pumping cost and bring the load at the Disposal Plant near full capacity.

A set of flexible sewer rods and tools have been purchased. These are for use on the main sewer lines.

A wire fence has been erected around the Imhoff Tank, this eliminates any danger from children falling into the tank.

At a meeting of the town Officers it was recommended that all salaries and wages be increased ten per cent for the year 1942, and this increase has been figured in the estimates for next year.

The following expenditures have been approved this year:

Maintenance	\$ 3,391.69
House Connections	2,158.20
Cleaning Rods	473.98
Fence, Imhoff Tank	367.10
Bates Ave., Sewer	215.05
Crane Ave. Sewer	458.82

Elmwood St. Sewer from Bancroft St.	436.33
Elmwood St. Sewer from Thompson St.	911.02
Florida Rd. Sewer to Martin St.	148.82
Acton to Brown St. Sewer	15.00

For the year 1942 we recommend these appropriations:

Maintenance	\$ 4,400.00
House Connections	2,000.00

Respectfully submitted,

WALTER R. DENNISTON,
THOMAS H. TIERNEY,
FRED C. ELSON,
Sewer Commissioners.

Report of the Superintendent of Sewers

To the Board of Sewer Commissioners,
Gentlemen:

The report of the Superintendent of Sewer for the year ending December 31, 1941 is herewith submitted.

The wire fence erected at the Disposal Plant encloses a space 75 feet by 60 feet, in this area are the Imhoff Tank, the Inlet Chamber and the Dosing Tank. The fence is of No. 9 wire, 5 feet high and has two 4 feet gates.

The Imhoff Tank is operating in a satisfactory manner at the present time.

This fall we discovered that 20 of the sprinklers on the Sprinkler Bed had been broken.

A set of Flexible Sewer-Rods, for use on main sewer lines, has been bought. This set consists of 366 feet of 3 foot steel rods and fittings for several sizes of pipe.

Two connections have been made with the Assabet Mills. One of these serves the office building and the shoddy mill, this is in operation, the other will serve the remainder of the mills and is connected to the Walnut St. sewer. This connection has not been put into use.

The Common Sewers which have been laid this year are: Bates Ave. 285 feet 6 inch pipe, Crane Ave. 531 feet 8 inch pipe, Elmwood St. from Bancroft St. 177.5 feet 8 inch pipe and Elmwood St. from Thompson St. 358.5 feet 8 inch pipe.

Forty-seven House connections have been made and two have been discontinued making the number now in use 857.

One house connection has been partly relaid to eliminate roots from entering the joints. Several have been cleared from the cellar. Several stoppages in the Common Sewers have been cleared.

Lineal feet of House Connections laid this year — 2,005 feet.
Average length — 42.6 feet.

LOCATION OF CONNECTIONS INSTALLED THIS YEAR

Street	Connections	Street	Connections
Acton Court	1	High St.	2
Douglas Ave.	1	Hillside St.	1
Bates Ave.	1	Main St.	5
Brown St.	2	Maple St.	1
Butler Ave.	2	Mill St. 2	2
Concord St.	2	Nason St.	1
Crane Ave.	6	Randell Rd.	1
Dartmouth St.	1	Sherman St.	1
Douglas Ave.	1	Sudbury Court	3
Elm St.	1	Summer St.	1
Elmwood St.	4	Walnut St.	1
Glendale St.	2	Waltham St.	1
Harriman Court	1	Warren St.	1
Harrison St.	1		

Record of Pumping at the Powder Mill Road Pumping Station

Total flow for year	66,070,800 gallons
Average per day	181,016 gallons

The kind co-operation of the Commissioners has been appreciated.

Respectfully submitted,

WILLIAM NAYLOR, Supt.

Report of Water Commissioners

To the Board of Selectmen:
Gentlemen:

The report of the Water Commissioners for the year ending December 31, 1941 is herewith submitted. The report of the Superintendent and Registrar is included. This is the fifty-third annual report of this department.

Under the W.P.A. Project for laying water mains, a 6 inch Transite pipe was laid in North St. from Parker St. to Marlboro St. and the hydrant was moved from Marlboro St. to North St. The 6 inch main on Waltham St. was extended to the Sudbury line and a hydrant was installed.

A portable electric lighting plant has been purchased.

It was decided that we employ an engineer to make plans and specifications for the new Pumping Station and Pumping Equipment at White Pond and Frank A. Barbour was engaged for this purpose. The contract for the pumping equipment was let to The Turbine Equipment Co. and the contract for the building was let to Joseph A. Singarella.

The building is completed but the pumping equipment will not be ready for some time due to the war emergency.

The pipe from the Pumping Station to White Pond is being laid under a W.P.A. Project. Beside the labor for this Project the Government has furnished 2,796 feet of pipe. There is about 3,000 feet of this line to be laid.

We feel that during this emergency both Pumping plants should be kept in running condition.

For several years the water in the pond has been at a low level and this year the water has dropped so low that it has been necessary to install a Pump to deliver the water from the pond to the screen chamber. This pump was put into operation in September and has been in use ever since. The water in the pond at the present time is about 6 feet below high water which is one foot lower than ever before.

Before applying for a W.P.A. Project for the new Force Main to White Pond it was necessary to send a copy of the original "Act to supply the town with water," to the W.P.A. office. As we were unable to find the full text of the act, we requested Mr. Avery W. Steele, Representative, to secure copies for us. These copies were secured and Mr. Steele presented the town with an attested copy of the original act. Mr. Steele had this copy framed and it is displayed in the office of the Water Department.

The bills approved this year for Maintenance are \$10,484.74; for Main Extensions and Replacements \$799.75; for Lighting Equipment \$150.00 and for New Pumping Station and Force Main \$28,840.53.

The estimates for the year 1942 are, Maintenance \$10,800.00 and Paving Breaking Equipment \$400.00.

Respectfully submitted,

GAVIN TAYLOR,
JAMES C. MAHONEY,
CRISTOPHER WILSON,
Water Commissioners.

Report of the Superintendent

To the Board of Water Commissioners,
Gentlemen:

The report of the Superintendent and Registrar of the Water Department which includes the report of the Engineer at the Pumping Station, for the year ending December 31, 1941, is herewith submitted.

The water in the Pond has been very low all this year and it was evident, in the spring, that we could not deliver enough water through the line, from White Pond, to supply the town. A small pump operated with an electric motor was purchased to be ready in case the line could not deliver enough water. Enough came down the line until September, when the supply fell off and the pump was installed. When the pump was started, the water was 4 inches below the top of the intake pipe. At the present time the water is below the bottom of the intake pipe. This pump has been running 24 hours a day since September 22, 1941. The electric current used to operate the motor is taken from the Hudson Light Department.

It has not been necessary to do any work on the line from the pond.

Due to the shortage of water it has not been possible to clean the receiving well as often as in other years.

The pumping plant has been operating with the usual repairs.

Two extensions have been made to the water mains this year. The main on Waltham St. was extended 220 feet to the town line and a main was laid on North St. from Parker St. to Marlboro St. 560 feet.

The main on Waltham St. was laid with regular labor and the main on North St. with W.P.A. labor.

A hydrant was placed on each of these extensions and 6 inch Transite pipe was used.

Twenty new services have been added this year which makes 1,533 now in use. Thirty have been relaid, 24 leaks have been repaired, 12 cellar stops have been changed, 21 services have been cleaned.

With five meters set this year there are 1,518 meters in use. 176 meters have been changed for repairs.

The lighting equipment purchased for night work consist of a 1250 Watt Homelite generator, three 250 Watt reflectors and extension wires.

The new Pumping Station at White Pond has been completed but no pumping equipment has been put in. This station is a brick building 26 feet by 22 feet with a slate roof. The intake pipe which is connected to the pump well is 5 feet below the surface of the water at the present time, at which depth there never should be a shortage of water.

It is expected that the Equipment Contractors will be able to get the Pumping Equipment in February.

About 10,000 feet of the new force main has been laid. When a W.P.A. Project was made for this work there were 60 men working and when the work was started we had about 30 men, at the present time there are about 16 men working.

There is need for a light Paving Breaker for small jobs where it does not pay to move the air compressor to the work. Such a machine has been requested and an appropriation recommended.

I wish to thank the Commissioners for their co-operation.

Respectfully submitted,

WILLIAM NAYLOR, Supt.

Report of the Engineer

There are no unusual conditions to report concerning the pumping plant this year. The necessary repairs have been made to the Diesel engine.

About 2,000 gallons of fuel oil is on hand and some lubricating oil.

PUMPING RECORD

Month	Gallons Fuel Oil	Gallons Water
January	921	9,928,000
February	798	8,163,000
March	877	8,721,000

Report of Cemetery Commissioners

Maynard, Mass., January 21, 1942.

To the Honorable Board of Selectmen:

The annual report of the Board of Cemetery Commissioners is herewith submitted.

The drain system which was installed in the New Section a year ago has relieved the unfavorable flood condition and there is not a burial lot now on which water can remain.

A full section has been taken over for the use of single graves in the new cemetery. The section is large enough to take care of the single grave problem for the next several years.

The many trees placed throughout the cemetery are in good condition and we are pleased to report that the shrubs withstood the severe winter and we were most fortunate in not losing any of them.

A great number of lot owners continue to place their lots in Perpetual Care which adds greatly to the looks of the cemetery.

May we at this time take the opportunity of thanking the citizens for their co-operation during the past year.

Respectfully submitted,

G. W. FOWLER,
ERNEST E. JOHNSON,
JACOB LAURILA,
Cemetery Commissioners.

Report of Superintendent of Glenwood Cemetery

Maynard, Mass., January 21, 1942.

To the Cemetery Commissioners:

I herewith submit the report of the Superintendent of Glenwood Cemetery for the year 1941.

The past season being so dry was a hardship both on the grass and shrubs. However, by using plenty of water and fertilizer the shrubs managed to keep in a good healthy condition. With the exception of a few bad spots, the grass too did fairly well.

Weed killer was placed on the avenues throughout the cemetery this fall and it is pleasing to note that the growth of weeds especially in the New Section has practically been eliminated.

All shrubs were sprayed, trimmed and fertilized and weeds removed from the shrub beds when it was necessary to do so.

The ditches where the drain was laid were very badly sunken last spring and it required several loads of gravel to bring them up to grade.

Many markers were reset and a great number of sunken graves filled. The brush bordering the cemetery was cut and burned and several of the larger trees trimmed.

In conclusion, I take this opportunity of thanking the Commissioners for their kind help during the past year.

Respectfully submitted,

ROY E. MARSDEN, Superintendent.

Assessors' Report

To the Citizens of Maynard:

The annual report of the Board of Assessors for the year ending December 31, 1941 is hereby submitted.

The Laws require the owners of taxable property, shall each year on or before the 31st day of January, submit to the local Assessors a list of all their taxable property and the valuation of the same.

BLANK LISTS MAY BE OBTAINED FROM THE ASSESSORS

In the past year there has been more or less discussion arisen as to the exemption of Poll Taxes. Those wishing to be exempt must make application with the Board of Assessors for same. This law applies to those 70 years of age or over.

Town Clerk's Report

For the year ending December 31, 1941

Information desired, not printed herein, will be courteously supplied upon request to the Town Clerk.

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Election

March 3, 1941

In accordance with Town Warrant No. 386 the Annual Town election was held on the above date at the High School Auditorium.

The Town Clerk prepared the polling place according to the requirements of General Laws.

Moderator Benjamin M. Piecewicz presided.

Two ballot boxes were used and two voting areas according to the custom of the past few years.

Ballots prepared by the Town Clerk were delivered to the ballot clerks together with check lists containing the names of 3,562 voters and a receipt taken therefor.

The ballot clerks were sworn by the Town Clerk.

BALLOT CLERKS

Area 1 — A to L

Hiram Parkin	Robert Lester
Agnes V. Driscoll	Florence Maley
Elizabeth A. Binks	

Constable Edward S. Johnston was in charge of the ballot box.

Area 2 — M to Z

Richard J. Murphy, Jr.	Helen M. Connors
William P. Rourke	Helen Punch
Grace E. Tucker	Lilian I. Holmes

Constable Henry F. Piecewicz was in charge of the ballot box.

The boxes were examined by the Moderator and Town Clerk, the registers set at 0000 and declared empty. The keys were given to the constables who held the same during the day.

At eight o'clock the Moderator called the meeting to order and on motion of Selectman Walter A. Cheslak it was voted to waive the reading of the Warrant.

Moderator Benjamin M. Piecewicz then declared the polls open.

The Moderator and Town Clerk deeming it advisable ballots were taken from the boxes at one o'clock P. M. and counting continued from that time until completed.

The following persons appointed tellers by the Selectmen were sworn by the Town Clerk.

A. Frank Croft	Helen V. McDonald
Elsie P. Brayden	Alice L. Joyce
William Coulter	Myrtle Whitney
Mildred Smith	Maxine Delory
Dorothy Alving	Bertha L. Davis
Edward J. Ledgard	Margaret Johnston
Josephine Stuka	Eva Moynihan
Roberta A. Marsden	Mary McNamara
Joseph Sczerzen	Pearl D. McAuslin

At 1:30 o'clock the Moderator called for the election of minor officers and the following were nominated and elected.

FENCE VIEWERS

William Naylor	
Donald A. Lent	
Benjamin C. Brown	Sworn March 15, 1941

FIELD DRIVERS

James C. Mahoney	Sworn March 3, 1941
Herbert W. Martin	Sworn March 4, 1941
John J. Driscoll	Sworn March 3, 1941

SURVEYORS OF LUMBER

Walter R. Whitman	Sworn April 4, 1941
Joseph Foster	Sworn March 28, 1941
Orville P. Tucker	

MEASURERS OF WOOD AND BARK

Axel T. Lawson	Sworn March 3, 1941
August Lehto	
Foster F. Whitney	

The polls were closed at eight o'clock P. M.

The register of box 1 — A to L, indicated twelve hundred and sixty one (1261). Number of names checked on list 1261.

The register on box 2 — M to Z, indicated eleven hundred and fifteen (1115). Number of names checked on list 1115.

Total number of ballots cast, 2376.

The result was announced at 8:45 o'clock P. M. by the Town Clerk, as follows:

SELECTMEN — ONE YEAR

Walter A. Cheslak	1412
William J. Kane	575

Attest:

FRANK E. SANDERSON,
Town Clerk.

March 4, 1941.

In accordance with the provisions of Section 19 of Chapter 41 of the General Laws of Massachusetts, I hereby appoint Eleanor Jones of said Maynard, to be Assistant Town Clerk during the current municipal year, or until this appointment is revoked.

FRANK E. SANDERSON,
Town Clerk of Maynard.

I, Eleanor Jones, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

ELEANOR JONES

Subscribed and sworn to this fourth day of March, 1941,
before me,

FRANK E. SANDERSON,
Town Clerk of Maynard.

A true copy,
Attest:

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Meeting

March 10, 1941

Pursuant to Town Warrant No. 387 a town meeting was held on the above date in Parker St. hall.

The meeting was called to order at 7:30 o'clock P. M. by Moderator Benjamin M. Piecewicz.

On motion of R. Frank Punch — Voted to waive the reading of the warrant.

Article 1. Harold J. Morgan, Sec'y of the Finance Committee stated that the committee would discuss each Article and the recommendation on same separately as acted upon.

Article 2. Moderator Piecewicz announced the following appointments to the Finance Committee.

R. Frank Punch, Sworn March 21, 1941

George Stuart, Sworn March 15, 1941

William J. Bain, Sworn March 18, 1941

Article 31. New roof on Senior High School 1,300.00

Article 32. On motion of Charles A. Stockbridge — Voted that the town appropriate the sum of \$25.00 to provide for the care of Veteran's lots in St. Bridget's Cemetery during the year 1941, in accordance with Chapter 115, Section 22, of the General Laws. Payments from this fund to be authorized by the Cemetery Commissioners.

Article 33. On motion of Harold J. Morgan — Voted to authorize the Board of Assessors to apply the sum of \$5,000.00 to be taken from the excess and deficiency fund to meet one of the Sewer notes of \$5,000.00 due in 1941.

Article 34. On motion of Harold J. Morgan — Voted to authorize the Board of Assessors to apply the sum of \$5,000.00 to be taken from the Water Department Surplus to meet one of the Sewer notes of \$5,000.00 due in 1941.

Article 35. On motion of Harold J. Morgan — Voted that the salaries of elected town officials to be effective from January 15, 1941 and remain in force until the next town election, unless sooner changed by vote of the town be as follows:

Moderator	\$ 50.00	per year
Selectmen	300.00	each per year
Tax Collector	1,500.00	per year

Assessors (3 members)	4.50 per day
Town Treasurer	1,000.00 per year
Town Clerk	300.00 per year
Tree Warden	4.00 per day
Board of Health (3 members)	50.00 per year
Sewer Commissioners (3 members)	50.00 per year
Board of Public Welfare (3 members)	50.00 per year
School Committee (3 members)	No Salary
Library Trustees (3 members)	25.00 per year
Water Commissioners (3 members)	50.00 per year
Cemetery Commissioners (3 members)	25.00 per year

Article 36. On motion of Harold J. Morgan — Voted to appropriate the sum of \$200.00 to be expended for public fireworks at John A. Crowe Park on the eve of the Fourth of July, 1941, under the direction of the Frank J. DeMars Post 235, American Legion. The Frank J. DeMars Post 235 American Legion to give an equal amount. Said display of fireworks to be not later than eleven o'clock P. M.

Article 37. On motion of George H. Gutteridge — Voted that the Treasurer be authorized, with the approval of the Selectmen, to borrow money from time to time, in anticipation of revenue of the financial year beginning January 1, 1941, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 38. On motion of Lester F. Cowle — Voted that a committee of five be appointed by the Moderator to investigate ash removal and report at some future town meeting.

Committee appointed was:

Edward V. Kelley	Albert E. Lucot
Pasquale Veleno	Lester F. Cowles
William J. Saarela	

Article 39. On motion of Charles A. Stockbridge — Voted that the town appropriate the sum of \$4,560.55 for the Contributory Retirement System as follows:

For Pension Accumulation Fund	\$ 4,253.00
For Interest Deficiency on Funds	7.55
For Expense Fund	300.00

Article 40. On motion of George H. Gutteridge — Voted that the Town accept the following Cemetery Funds, the interest of which to perpetually care for their lots and surroundings in Glenwood Cemetery:

Victor Oskirko, \$100. Henry Launola, \$50. John Billington, \$100. William Spence, \$100. Anna Carlson, \$100. Lilla A.

Hatch, \$100. Camilla Bergner (Boeske) \$100. Vienna Kaupinen, \$100. Charles C. Abbott, \$450. Robert J. Johnston, \$50. Elizabeth Hantala, \$100. Agnes A. Silloway, \$100.

Article 41. On motion of Fred C. Elson — Voted to postpone action on this article until Articles 42-43-44-45 were disposed of.

Articles 42-43-44-45 On motion of Donald A. Lent — Voted to accept as public ways, according to plans on file in the office of the Town Clerk, the following named streets:

Beacon Street
 Thomas Street
 Riverbank Road
 Martin Street

Article 41. On motion of Fred C. Elson, as amended — Voted that the Sewer Commissioners be authorized to construct a Common Sewer from Florida Road; on Beacon St., Thomas St., through private property to Riverbank Road, on Riverbank Road, through Main St. School yard and on Martin St.

The Sewer Commissioners are also authorized to acquire property and right-of-ways necessary for this construction. That \$4,000.00 be appropriated from Sewer Surplus for the cost to the town for this purpose. This to be a W.P.A. Project.

Article 46. On motion of Lester F Cowles — Voted to accept North Street, so called, as shown on a plan on file in the office of the Town Clerk, as a public way.

The meeting adjourned at 9:45 o'clock P. M.

Attest:

FRANK E. SANDERSON,
 Town Clerk.

Proceedings of Town Meeting

May 12, 1941

A special town meeting was held on the above date in Parker Street Hall pursuant to town warrant No. 388.

Moderator Benjamin Pieciewicz called the meeting to order at 7:33 o'clock P. M.

On motion of R. Frank Punch — Voted that the reading of the warrant be waived.

Article 1. William Saarela, for the committee appointed by the Moderator in accordance with a vote passed at the Town Meeting, March 10, 1941 for the investigation of ash and rubbish

removal read a report recommending an appropriation of \$2,500.00 for the removal of ashes and rubbish once a week in the business district and once a month in other sections of the town.

It was voted to receive the report and take action on the same when Article 17 was reached.

Article 2. No vacancies to be filled.

Article 3. On motion of Harold J. Morgan — Voted that articles 3-4-5-6-7-8-9-10 be acted upon collectively and accepted, that in such articles as an appropriation is required the amounts stated therein be appropriated and taken from the excess and deficiency fund, as follows.

Article 3.	For land damage at River St. corner..\$	100.00
Article 4.	For Town Offices and Hall, to repair building	446.90
Article 5.	For Chapter 90 Construction on Acton, Brown and Haynes Streets, provided the state and county make an appropriation	1,500.00
Article 6.	For John A. Crowe Park	100.00
	and receipts received from rentals.	
Article 7.	For mowers for Town Parks	480.00
Article 8.	See Article 3. (No appropriation necessary)	
Article 9.	For Rotary traffic at Great Road and Parker Street	200.00
Article 10.	For lighting parking spaces	500.00

Article 11. On motion of Donald A. Lent — Voted that \$250.00 for maintenance be appropriated and taken from the excess and deficiency fund for the Moth Department.

Article 12. The Moderator appointed as tellers, George Weaving, Harold J. Morgan, William Saarela and Charles A. Stockbridge. They were sworn by the Town Clerk.

On motion of Edward Johnston — Voted that \$1,200.00 be appropriated and taken from the excess and deficiency fund for the maintenance of the Police Department. (A motion to amend to \$500.00 was defeated, 17 in favor and 56 opposed.)

Article 13. On motion of Harold J. Morgan — Voted that \$500.00 be appropriated and taken from the excess and deficiency fund for the Maynard Committee on Public Safety.

Article 14. A motion by Eva V. Moynihan to transfer \$500.00 from excess and deficiency fund to the Board of Assessors for maintenance was defeated.

Article 15. On motion of R. Frank Punch — Voted to lay this article on the table.

Article 16. On motion of Walter R. Denniston, as amended by R. Frank Punch — Voted to appropriate and take from the sewer surplus the sum of \$450.00 for a fence around the Imhoff Tank at Sewer Disposal plant.

Article 17. On motion of Donald A. Lent — Voted that the report (received under Article 1.) and the article, be laid on the table.

The meeting adjourned at 8:40 o'clock P. M.

Attest: FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Meeting

October 27, 1941

A special Town Meeting was held in Parker Street Hall on the above date pursuant to Town Warrant No. 389.

Moderator Benjamin M. Piecewicz presided.

The meeting was called to order at 7:35 and the reading of the warrant was waived on motion by Harold J. Morgan duly voted upon.

Article 1. No reports to be heard.

Article 2. On motion of Harold J. Morgan, Secretary of the Finance Committee — Voted to appropriate and take from the excess and deficiency fund the sum of \$500.00 for street lighting.

Article 3. On motion of Harold J. Morgan — Voted to appropriate \$25.00 said amount to be taken from excess and deficiency fund for State Aid.

Article 4. On motion of Harold J. Morgan — Voted to appropriate and take from the excess and deficiency fund the sum of \$900.00 for snow removal.

Article 5. On motion of Harold J. Morgan — Voted to appropriate and take from the Road Machinery fund the sum of \$330.00 to purchase a snow plow.

Article 6. On motion of Harold J. Morgan — Voted to appropriate and take from the Road Machinery Fund the sum of \$450.00 to purchase a Sand Spreader.

Article 7. On motion of Harold J. Morgan — Voted that when the present construction of Great Road under Chapter 90 is completed and all payments in connection therewith have been made, the unexpended balance of the appropriation previously voted for construction on Great Road under Chapter 90 be transferred and used on Chapter 90 construction on Acton, Haynes and Brown Streets.

Article 8. On motion of Harold J. Morgan — Voted to appropriate and take from the excess and deficiency fund the sum of \$125.00 to purchase police traffic signs.

Article 9. On motion of William Naylor — Voted to appropriate and take from the Water Department surplus the sum of \$1,000.00 for water department maintenance.

Article 10. On motion of William Naylor — Voted to appropriate and take from Water Department surplus the sum of \$2,500.00 for water main extensions.

Article 11. On motion of Harold J. Morgan — Voted to appropriate and take from the excess and deficiency fund the sum of \$500.00 for the use of the Board of Health in financing the Town's share of N.Y.A. projects.

Article 12. On motion of Harold J. Morgan — Voted to appropriate and take from the excess and deficiency fund for defense purposes the following amounts:

For the Fire Department—

For Fire Hose	\$ 1,800.00
For Air Fire Whistle	1,700.00
For Auxiliary Equipment	500.00

For Police Department—

For equipment and supplies	280.00
----------------------------------	--------

For Water Department—

For equipment and supplies	1,500.00
----------------------------------	----------

The meeting adjourned at 7:50 o'clock P. M.

Attest:

FRANK E. SANDERSON,
Town Clerk.

IMPORTANT REQUEST

Please notify the Town Clerk immediately of any error or omission in the following List of Births.

Errors not reported at once can be corrected only by sworn affidavit, as prescribed by the General Laws, and may cause you inconvenience which can be avoided by prompt attention.

FRANK E. SANDERSON,
Town Clerk.

NOTICE

All dog licenses here listed expire
March 31, 1942.

Dogs must be licensed on or before
April 1st or the owners or keepers
thereof are liable to a fine.

The law applies to all dogs three
months old or over, regardless of
time of year ownership is acquired.

No tax bills are sent to owners of
dogs.

FRANK E. SANDERSON,
Town Clerk.

NOTICE

Chapter 440 of the Legislative Acts of 1938, require the Board of Registrars to list all persons twenty years of age or over, thereby making necessary a canvass in January of each year.

Persons who fail to give full and correct information, may cause difficulty and inconvenience to members of their household, especially if names not given are of registered voters, as names not listed in the annual canvass must be removed from the voting list by Registrars.

Co-operation on the part of householders is therefore respectfully solicited in order that lists may be as correct as possible, thus preventing inconvenience or injustice to any voter.

FRANK E. SANDERSON,
Town Clerk.

Report of The Board of Registrars of Voters

To the Board of Selectmen:
Gentlemen:

The Registrars of Voters submit the following report.

The annual listing of all residents twenty years of age or over was conducted January 2nd to January 15th. William Coulter of the Board of Registrars, Hiram Parkin, Helen Connors and Reginald B. Jones were the canvassers. The usual printed list containing 5,215 names was later prepared for distribution, a list retained by the Town Clerk and a copy of the same filed with the Board of Assessors all as required by Chapter 440 of the Acts of 1938.

Sessions of the Board for registration of Voters resulted as follows: Men registered — 28, Women registered — 47.

The voting list January 1, 1941 numbered

		Men	Women
	3641	1984	1657
Registered	75	28	47
	3716	2012	1704
Removed			
Left town	105		
Married	36		
Deceased	13		
	154	67	87
December, 1941	3562	1945	1617

Nomination papers filed by candidates for Town Office numbered 46, and contained 2,208 signatures, 1,680 of which were certified by the Registrars.

As no Primaries or Elections were held the financial requirement of the Board was reduced in 1941, but 1942 will require an increased appropriation for election expenses. This condition applies every second year.

Enrollment changes were also of little importance as is usual in a non-election year.

Respectfully submitted,

JOHN C. BRAYDEN,
WILLIAM COULTER,
MICHAEL J. NEE,
FRANK E. SANDERSON,
Board of Registrars of Voters.

Report of the Board of Health

To the Board of Selectmen:

The Board of Health submits the following report for the year ending, December 31, 1941.

During the past year the Board continued to conduct its many beneficial and appreciative clinics and with the present crisis may be forced to enlarge its scope of health work in 1942. Health is an important factor in these trying times.

A detailed account of the appropriation and its expenditures will be found in the report of the Town Accountant.

WELL BABY CLINIC

During the present era we realize more than ever the value of health in childhood and these clinics act as a guidance to parents. The largely attended clinics display the appreciation of the parents for this service. Much of the credit is due to Dr. Samuel M. Cremer and Mary A. Ward, Town Nurse, who have devoted a great deal of their time for the past 3 years.

VACCINATION CLINICS

Forty-nine children were given the protective inoculation against small pox at a clinic conducted by the Board. Dr. Raymond E. Hooper was in charge, assisted by the public health and school nurses. While children must be vaccinated before entering school, health authorities recommend that children be vaccinated in their infancy between 1-6 years of age.

SCHOOL DENTAL CLINICS

The school dental service closed its twelfth year of rendering educational and treatment facilities to the school population. Good teeth are essential to the health of a growing child and these clinics render valuable service.

DIPHThERIA CLINICS

Now that the United States is at war, it is more important than ever, to protect the civilian population. The Board has continued to hold its annual clinic for the protection of children against Diphtheria, and 1940, was the eleventh consecutive year that this clinic was held in the local Health Centre. Although there has not been a case of Diphtheria reported in this community during the past eleven years, there is every reason to believe that this dread disease may re-enter, especially now that there is a great deal of shifting of the population due to the increased war time industrial activity, etc.

The following table clearly shows the fine advantages of these protective clinics against Diphtheria:

Year	Children Immunized		Cases Reported
	under 5 years	Over 5 Years	
1939	45	33	0
1940	66	16	0
1941	37	5	0
	148	54	0

The clinic the past year was conducted by Dr. Arthur T. DeAngelo, assisted by Miss Mary A. Ward, Public Health Nurse and Miss Edith Foster, School Nurse.

Parents are urged to have their children who are under five years of age, especially between 9-12 months, to be immunized either at the clinic or by the family physician.

TUBERCULOSIS

The Board has continued its policy of striving toward the prevention of Tuberculosis by having every suspicious case brought to its attention X-rayed and examined at the Middlesex County Sanatorium, Waltham. Following the discharge of patients from hospitalization, it is necessary for a continuation of treatments at the sanatorium. It has cost approximately \$4,000 for hospitalization, auto hire for re-examinations, clothing, milk, etc., but the town will receive a subsidiary of \$1,150 from the state.

The increased fatigue and strain due to the greater work load and to the war conditions may reduce our physical reserves and as the Tuberculosis germ exists in almost everyone, we should safe guard our health by proper diet and rest to resist infections of any kind.

Table showing the number of contagious and communicable diseases for the past three years:

	1939	1940	1941
Chicken pox	0	17	3
Diphtheria	0	0	0
Dog Bite	5	4	2
Lobar pneumonia	0	0	3
Measles	2	0	77
Mumps	5	5	11
Scarlet Fever	7	0	3
Tuberculosis	3	2	1
Whooping Cough	0	0	26
Gonorrhoea	10	11	10
Syphilis	7	11	9

DOG CLINICS

For the eighth consecutive year, the Board conducted clinics for the protective immunization of dogs against Rabies with two in the spring, and an extra clinic in September, due to an alarming increase in Rabies, in this vicinity. The Board of Selectmen, on request of the State Board of Health, issued a restraint order that all dogs not inoculated could not run at large. Dr. Gerald O'Malley, Veterinarian, was in charge of all clinics, assisted by Mr. Joshiah Herrick, local inspector of animals.

The following table clearly shows the value of these dog clinics at which there is no charge to the dog owner:

Year	Number of Dogs	Cost of Clinic	Cases of Rabies
1939	192	\$83.80	0
1940	217	149.63	0
1941	318	145.40	0

No cases of persons suffering from Rabies were reported during this period, and at the cost of about 45½c per dog, its a cheap insurance to both animal and town.

MILK INSPECTIONS

The Board continued its policy of collecting monthly milk samples from dealers and producers for analysis at laboratories. A total of 108 samples were collected and analyzed and with but few exceptions, the milk is of good quality. Locally, there are 5 pasteurization plants, 19 stores, and 14 dealers licensed.

The Board regrets the passing of Mr. Fred Barrett of Framingham, who served in the capacity of advisor in the collection of milk samples, during the year. Mr. Arthur Taylor of Westboro, who conducts a laboratory in Concord, was appointed to this position.

The Board also, collected water samples from private wells, where the town water system does not reach, during the year. Six wells were examined and two of these were condemned by the State Officials. The coming year may see a greater demand for this type of precaution due to the present condition.

TOWN PUBLIC DUMP

The town dump in the rear of Crowe Park, which was closed in October, due to both financial and public nuisances, was moved to the upper end of Waltham Street. The present location appears to be very satisfactory, and the Board is hopeful that they will be able to continue it at this place for the remain-

der of the year. It was deemed necessary to appoint a man to be in charge and serve as caretaker by the week to have it properly looked after.

GARBAGE COLLECTION

Mr. Henry Anderson has continued his efficient work as collector of garbage.

Mr. George Stansfield, Sr., who is the Inspector of Plumbing, has been of great assistance to the Board in certain nuisances.

NATIONAL YOUTH ADMINISTRATION

The Board continued to sponsor the sewing project in the Calvin Coolidge School, and made a large number of articles including pajamas, various clothing for infants, including slips, nightgowns, dresses, and has also done some work for the Red Cross, which supplied the necessary materials. At present, they are doing work for the Civilian Defense Committee of the town. There was 151 secured private employment during 1941 following training in the N.Y.A. But, even with industrial conditions improved, there are many who on leaving school cannot secure private employment and we trust that the townspeople will support this project which also includes appropriation for youths who are working their way through High School.

The Board thanks the physicians, nurses, and town departments and all others who have rendered assistance in the important work of health.

Respectfully submitted,

JOHN JOHNSTON,
LESTER F. COWLES,
HOWARD L. CLARK,
Board of Health.

Annual Report of The Maynard Public Health Association

The Maynard Public Health Nurse, Miss Mary Ward, R. N., has added another year of satisfactory nursing to her long term of service.

Beside the ordinary bedside nursing, baby care and clinics, our nurse has co-operated in every branch of health work which arises in a busy, industrial town.

In addition to the regular routine, work in equipping and helping in an emergency hospital has been placed under the supervision of the Public Health Nurse.

The work of the nurse was carried on by Miss Vieno Sneek during her summer vacation.

The Association wishes to thank the Board of Health, and any one who has helped, for its co-operative and financial aid.

Respectfully submitted,

RUTH BREED KING,
Secretary.

Annual Report of Nurse for Year Ending January 1, 1942

Number of Patients visited	555
Association Calls	1,234
Metropolitan Insurance Calls	373
John Hancock Calls	132
Free Nursery Visits	278
Total	2,007

There were 12 home deliveries during the year. 28 cases reported by hospitals. 200 calls from patients. 30 calls by Insurance agents. 210 calls by physicians.

Respectfully submitted,

MARY A. WARD, R.N.

Report of Inspector of Slaughtering

To the Honorable Board of Health:

I herewith submit my report for the year 1941.

I inspected and reported on 353 pigs, 58 calves, 6 cattle, 1 sheep for market use.

Yours respectfully,

JOSIAH M. HERRICK, Inspector.

Town Accountant's Report

Maynard, Mass., February 7, 1942

To the Board of Selectmen:

Gentlemen:—I submit herewith the annual report of the Town Accountant for the year ending Dec. 31, 1941.

The year 1941 has shown a continued decrease in the amount expended for Welfare.

The Estimated Receipts account shows a gain of \$7,510.48 over the amount used by the Assessors in setting the tax rate for 1941.

Unexpended appropriation balances amounting to \$19,099.05 were turned back to the Revenue and Surplus accounts at the end of the year.

On Dec. 31, 1940 the Excess and Deficiency account showed an excess over uncollected taxes amounting to \$9,172.27.

This account as of Dec. 31, 1941 shows an excess over uncollected taxes amounting to \$25,033.74.

The total of the appropriations, requested for the year 1942, to date amounts to \$384,879.18 which is an increase of \$30,799.92 over the amount requested last year at this time.

In December 1940 the town voted to authorize a loan of \$55,000.00 for the purpose of constructing a pumping station and force main to bring the water from White Pond. Of this amount, \$40,000.00 was borrowed in the year 1941.

During the year, the Treasurer has borrowed \$10,000.00 in anticipation of Revenue and \$12,000.00 in anticipation of Highway reimbursement, making a total of \$22,000.00 in Temporary Loans.

Cash on hand Dec. 31, 1940 amounted to \$67,859.70 and on Dec. 31, 1941 this item was \$113,568.10.

Auditors from the State Division of Accounts made a complete audit of the books and accounts of the town as of Sept. 23, 1941.

Copies of the audit report are filed in the offices of the Selectmen, Town Clerk and Town Accountant where they may be examined by any persons interested.

The reduction in the amount of exemption allowed by the Federal Government on Income Taxes makes it necessary for many persons, who have not had to file statements in the past, to file reports this year.

Owing to the fact that the Income Tax Division sent us only a few blanks on which to report employee earnings for the year, we will not be able to send each employee a statement of his or her earnings. It will, therefore, be necessary for you to call at, or telephone to, the office of the Town Accountant in order to get your figures. A copy of the income tax return requirements follows.

Income Tax Return Requirements

An income tax return must be filed with the United States Collector of Internal Revenue for the district in which you live, on or before March 15, 1942, if you are a **single person** or a **married person not living with husband or wife**, and if the total payments from the town when added to your income from all other sources amount to \$750. or more.

If you are a **married person living with husband or wife**, a return must be filed if the total payments from the town when added to your income from all other sources amount to \$1500. or more, or if the combined total income of husband and wife amounts to \$1500. or more.

The courtesy and co-operation received from the various town boards and officials have been greatly appreciated.

Respectfully submitted,

C. A. STOCKBRIDGE,
Town Accountant.

Report of the Board of Retirement

To the Members of the Maynard Retirement System:

The Board of Retirement submits herewith the second annual report of the Maynard Retirement System.

At a meeting of the members held May 14, 1941, Mr. George H. Gutteridge was elected a member of the Board.

On Jan. 1, 1941 the membership of the system was 56 active members and 5 retired members.

During the year 4 members have been added. 2 have withdrawn from membership, 1 member has died and 1 member has retired. The membership on Dec. 31, 1941 is 56 active members and 6 retired members.

A list of members and financial report follow.

Respectfully submitted,

HAROLD J. MORGAN,
CHARLES A. STOCKBRIDGE
GEORGE H. GUTTERIDGE
Board of Retirement.

Residence, 20 Tremont Street.....Tel. No. 352

School Calendar for 1941 - 1942

SENIOR HIGH—39 WEEKS

- Fall term began September 3, 1941
 Closed December 19, 1941—16 weeks
- Winter term began January 5, 1942
 Closes February 20, 1942—7 weeks
- Early spring term begins March 2, 1942
 Closes April 24, 1942—8 weeks
- Late spring term begins May 4, 1942
 Closes June 24, 1942—8 weeks
- Fall term begins September 9, 1942

ELEMENTARY SCHOOLS—38 WEEKS

The same as for the High School, except that late spring term closes June 19, 1942.

HOLIDAYS

The schools will be closed on the following dates for the observance of holidays:

October 13	—	Columbus Day
October 31	—	Teachers' Convention
November 11	—	Armistice Day
November 20, 21	—	Thanksgiving
April 3	—	Good Friday
April 20	—	Patriot's Day

DAILY SESSIONS

- Grades 9 - 12—8:15 A. M. to 1:15 P. M.
- Grades 7 - 8—8:30 to 11:30 A. M. 1:00 to 3:00 P. M.
- Grades 1 - 6—8:45 to 11:45 A. M. 1:15 to 3:30 P. M.
- First Grades are dismissed fifteen minutes earlier.

STORM SIGNALS

Three blasts for first eight grades, five blasts for entire system. Blown at 7:30 A. M. and 12:30 P. M.

Three blasts at 5:30 P. M. for Evening Schools.

Report of the Maynard School Committee

To the Citizens of the Town of Maynard:

We hereby submit our report for the year 1941.

The School Committee, at regular monthly meetings, transacted all business pertinent to school administration. The reports of the Superintendent of Schools, Principals and Supervisors serve to largely explain the functions of the various school units.

INSTRUCTION

No appointments were made and no resignations were received.

May we here express our sincere regrets at the loss of Mrs. Elizabeth Collins who so faithfully and conscientiously served in our elementary school from March, 1929 until she passed away in September of 1941.

Miss F. V. Nay was transferred to grade four at the Wilson School and Miss Mary A. Doyle assumed the teaching and principal duties at the Junior High School.

A change effective at the beginning of 1942 restored the Junior High School, the seventh and eighth grades, to the elementary grade system.

The salary question was closely reviewed.

BUILDINGS

We need mention only the major repairs which include a new roof, entrance and steps at the Senior High School. At the Roosevelt and Junior High Schools all metal work was replaced and repaired. A survey of the heating and ventilation system at the Wilson and Coolidge Schools recommended repairs to boilers and air shafts. This work was completed immediately, prior to the anticipated increased cost due to scarcity of materials and labor. The George Washington Auditorium was completely painted and repaired as part of the WPA painting project which is still being used for further renovation in all our buildings. Normal repairs resulting from usage and deterioration were made at all the buildings.

All regular school health agencies were maintained. The new equipment and method of eye examination have been endorsed by the school physician and nurse. In addition, a system of Physical Fitness Index Examinations has enabled the start of corrective methods and applications to individual cases and

groups by our Physical Director. Proper physical developments and health methods have been renewed and stressed recently as essential to our country.

The school department is following closely instructions from the State Department of Education relative to defense and is co-operating with the local defense agencies.

In closing, the Committee wishes to acknowledge the co-operation of the school personnel during the past year.

Respectfully submitted,

CHARLES A. HEKKALA, Chairman
JOHN T. HIGGINS, Secretary
JAMES J. LEDGARD.

Report of Superintendent of Schools

School Committee
Maynard, Massachusetts
Gentlemen:

The objectives of public school education in a democracy do not change, the purposes are well established. Perhaps it would be well to quote from the National Education Association as to the purposes of education—"so to organize society that each member may develop a personality primarily through activities designed for the well being of his fellow members and of society as a whole and to develop in each individual the knowledge, interests, ideals, habits and powers whereby he will find his place and use his place to shape both himself and society toward ever noble ends."

The methods and systems used to attain the goals of education must keep step to meet the constantly changing conditions which face the schools. The changes of environment outside the school make necessary constant compensating changes in the procedure in the school: the increasing number of young children attending motion pictures, the constant listening to radio programs, the lessening of home discipline, the increasing amount of leisure time, and perhaps most important, the soft living influences of modern life; all tend to make it difficult for the present day youth to face hard work, in which case, to successfully inculcate the lesson, the teacher must first prepare a receptive mind.

The active participation of our country in the present war has intensified the demand upon public school educators to enable increasingly large numbers of citizens to reconcile their differences in the pursuit of common purposes. The vast majority of our people desire to work in cooperation rather than in conflict. Under freedom many people may continue to live and work at cross purposes, to their mutual disadvantage, because they have not been enabled to get at the facts they need to discover and understand the compromises necessary for the good of all, themselves included. Unity considered and voluntarily accepted is a democratic unity. It is strong and lasting because people innately and persistently demand the right to determine their own destiny.

There is a large burden of responsibility resting upon organized education for the transmission of knowledge and the development of abilities for the purpose of improving the ways in which commonly accepted purposes may be achieved. The teachers in the Maynard school system are playing a creditable part in this intensified program of education for a democracy of free people.

HEALTH AND PHYSICAL EDUCATION

As indicated in the report of last year, apparatus has been secured, necessary for the proper physical testing to determine the P. F. I. (Physical Fitness Index) of our students. From this testing, we can prescribe the proper exercises, conducive to increasing health and physical well being.

Good health is not inalienable. It must be earned and maintained. Nor is this easier to do in the twentieth than in the nineteenth century. It is, in fact, increasingly more difficult.

Contrary to common opinion, civilization is, in many respects, more dangerous than primitive life. Today infants are better preserved, but older persons tend to succumb at younger ages. Physical fitness tends to decline about two to three per cent each year after adolescence, due to the increasing hazards of life: accidents, soft foods, noises, dissipations, lack of heavy and prolonged exercise, curtailment of rest, the increasing feeling of insecurity, etc. As one disease is mastered, others raise their heads. Tuberculosis, diphtheria, and typhoid fever are succeeded in effect by cancer, heart and mental diseases. The sober truth is that civilization tends to destroy health, and only the combined efforts of an alert public health service and education can preserve the vitality of individuals or the nation.

Health conservation is necessary for other reasons. Education itself is dependent on physical vitality. A reasonably strong body is the best guarantee of mental health. Good physical condition is necessary, too, to long-continued mental effort, since "mental fatigue" is not due to mental processes but to muscular tensions and their fatigue products which clog the blood stream. A strong body makes for mental endurance. Then too, learning itself depends on good health, since the child must be alert, rested, willing and responsive. A sick, tired, or malnourished pupil is inevitably a slower learner because of his handicaps. The future may reveal that, for very many pupils, a given amount of time and effort spent in improving health yields more learning than the same time and effort spent in direct and immediate study.

The newer educational objectives also need health for their realization. Such social virtues as courtesy, courage, cooperation, loyalty and charity are greatly dependent on health for development or use, and physical vitality is the first requirement for earning a living. Health is necessary for almost any kind of happiness. More health yields more of the goods of life, whether physical, social, or intellectual. Ponce de Leon's romantic quest for eternal youth was really a search for immunity from disease and decline in strength.

The success of this program is greatly dependent on the close cooperation of health workers. First, where formerly physical

educators were relatively ignorant of the findings of medical officers, now they must be cognizant of all defects, in order to aid physicians, nurses and parents in coping with them. Again, where formerly physical educators had as their prime aim the development of sport skills, now they seek to develop fundamental physical powers through which pupils may be more active and more efficient in learning. Where formerly the nurses rarely communicated with activity leaders, now this inter-correlation of interests, information and services is intimate. Where formerly medical examinations and physical tests were seldom compared, now there is a general pooling of results, so that each type checks the other. Where formerly academic teachers and administrators guided pupils' scholastic programs and study in almost complete ignorance of the latter's physical efficiency, now P. F. I.'s and medical records are the first pupil reports to be studied when academic failure threatens.

Mr. Thomas Hines, Director of Physical Education of the Brookline School System, a recognized leader in this field is cooperating with us in organizing our procedure. Close co-operation of the School Physician, School Nurse, Supervisor of Physical Education and the parents will enable us, through this program, to realize one of the main purposes of education.

BUILDINGS AND GROUNDS

We have not been able as yet to properly develop the Coolidge School Playgrounds. We do have a WPA project for that purpose and hope to accomplish this desirable improvement in the near future.

The Wilson School Playgrounds too, need development to provide for the play needs of the young children at that school.

Externally, the buildings as a whole are in good condition; the new roof on the High School and the repairs to the entrances of that school were greatly needed.

Internally, all buildings are in need of repairs and painting. Some of the rooms already have been done and others are being done with the aid of the WPA School Painting Project.

The renovation of the corridors and of some of the class rooms has had such a marked effect upon the general attitude of pupils toward their work that I hope that the remaining class rooms will receive attention as soon as possible. The replacement and painting of ceilings and the new system of electric lighting has added greatly to the comfort of teachers and pupils in preventing eye strain, which is now considered a major cause of restlessness and perversity in children. To provide clean, cheerful physical surroundings is an essential step in preparing the mind of the elementary pupil for the proper adjustment to right mental attitudes toward learning.

The repair of the heating systems at the Coolidge and Wilson Schools, also the addition to the chimney at the High School are giving very satisfactory results. It is now possible to have better regulation of heat and ventilation in these buildings and to secure more efficient use of fuel.

VOCATIONAL EDUCATION

The increasing demand for vocationally trained young men and women and the increasing number of boys and girls becoming interested in vocational subjects, indicates the desirability of providing more opportunity for the pupils in our high school who are interested in vocational subjects.

Our Commercial Department should be modernized. Most boys and girls preparing for office work need to become familiar with office machines which we do not have in our Commercial Department. Much of the equipment we have needs to be replaced. Most of our typewriters are twelve and thirteen years old and it has become difficult to have them properly repaired.

ADULT ALIEN EDUCATION CLASSES Fall Term 1941

	Beginners and	Inter- mediate Advanced	Citizen- ship	Totals
Number Sessions				20
Number Enrolled	16	36	24	76
Membership (Close of Term)	16	31	19	66
Average Attendance	15	26	16	57

Compared with the fall term of 1940, the Adult Alien Education Classes show a marked increase in the Intermediate and Citizenship groups. The total enrollment increased from forty-six in 1940 to seventy-six in 1941.

A large number of Aliens who wished to enroll in the Citizenship classes were unable to attend in the evening, due to night work in the mill. To take care of this situation, the class was held Saturday and Sunday at the Town Building, with the resultant increase in enrollment from eight in 1940 to twenty-four in 1941.

VOCATIONAL EDUCATION

School	Name	Course
Boston Trade	Janet Poulson	Foods
	Dominic Castelline	Airplane Mech.
Stow Agricultural	Leroy L. Ashley	Agriculture
Waltham Trade	Joseph Brescia	Automobile
	Louis Collura	Welding

	Antonio Costanzo	Machine
	Carlo Mistretta	Welding
Worcester Trade	Arne Koskinen	Machinery

Transportation is an obstacle to our young people who are interested in vocational work. I believe that we should have additional vocational classes in our high school in order to increase the opportunity of our young people in fields of employment beyond the local industry.

CONCLUSION

I wish to thank the School Committee for their understanding and support during the past year and to express my appreciation to the School Personnel for their loyal cooperation and devotion to their work. Teachers and pupils are doing their part in the present emergency in whatever capacity they are called upon. It would seem, however, that the greatest contribution which can be made for the defense of our country will be the best possible preparation through education of our future citizens.

Respectfully submitted,

DONALD A. LENT, Supt.

January 21, 1942

Report of School Physician

Mr. Donald Lent
Superintendent of Schools
Maynard, Mass.

Dear Sir:

The annual school examinations of the children were carried out by the School Physician assisted by the School Nurse.

The new method of examining the eyes of all school children has proven to be a real success.

During the fall term of school, we have had a slight epidemic of whooping cough and mumps. Many of these cases were due to contamination before the school session opened. Parents should not send their children to school when there is a case of one or the other, or in fact, any contagious disease in the family. Many of these cases have not been reported to the Board of Health. Unless we have a record of previous reports from the physician attending these cases, we have no way of checking these diseases.

The Dental Clinic has proven to be one of the big assets to the children of the town. More parents should see that their children should take advantage of this opportunity to have their dental conditions remedied.

The children have responded well to have their abnormalities corrected. Thanks to the parents and the Board of Health for their cooperation.

A detailed report of the examinations will be found under the School Nurse's Report.

Thanking all for their cooperation

Respectfully,

E. J. FLAHERTY, M. D.

Dec. 16, 1941

Report of School Nurse

Mr. Donald Lent,
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

I wish to submit my report as School Nurse for the year ending December 31, 1941.

Number of visits to schools.....	863
Number of visits to homes.....	383
Number of cases treated.....	96
Number of eye examinations.....	1097
Number of ear examinations.....	1097

CLINICS

The following is a report of the clinics held during the year:

Diphtheria Clinics—Conducted by Dr. DeAngelo—May 14, 21, 28, sponsored by the Maynard Board of Health.

Number immunized..... 40

Pre-School Clinics—Conducted by Dr. E. J. Flaherty, School Physician, May 8, 15.

Number examined..... 73

Vaccination Clinic—Conducted by Dr. R. E. Hooper, sponsored by the Maynard Board of Health.

Number Vaccinated..... 49

At all these clinics the Physicians were assisted by the School Nurse and, in some cases, by the local Public Health Nurse, Miss Mary A. Ward.

The Board of Selectmen supplied glasses for nine school children who were not financially able to purchase them.

Two children were sent to Camp Virginia for the months of July and August. The expenses were met by the return to Maynard from the sale of the Christmas Health Seals.

The Maynard Lodge of Elks provided milk for under-nourished children.

Telebinocular test of visual efficiency was given to children in all grades.

REPORT OF SCHOOL DENTAL CLINICS

This is the twelfth yearly report of the School Dental Clinics, financed by the Maynard Board of Health.

These clinics were held two mornings a week by Dr. May, Dr. Bellows and Dr. Garland.

Number treated	463
Number fillings	212
Number extractions	168
Number cleanings	109
Number treatments	19

The Dental Examination Clinics were conducted by Dr. F. May during October.

I wish to thank the Superintendent, School Personnel, Parents and Board of Health and Board of Public Welfare, for the cooperation they have extended to me in my work during the past year.

Respectfully submitted,

EDITH B. FOSTER, R. N.
School Nurse

January 16, 1942

*PHYSICAL EDUCATION

This fall all boys from the sixth grades through the High School were given Physical Fitness Tests and classified. Out of 274 boys it was found that 39% scored low or below normal in physical efficiency. These boys will be given special work to do at the gymnasium, and from time to time they will be retested to determine their progress. "General physical fitness rests squarely on muscular efficiency." Apparatus necessary for this work has already been purchased, and is being installed.

The High School boys who are found by examination to be low in their P. F. I. tests will be given periods in the gymnasium according to their demands. It is our desire to have every boy normal in his physical efficiency.

*Note:—Extract from full report of R. P. Sawyer, Supervisor of Physical Education.

Report of High School Principal

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lent:

I herewith submit my report of the Maynard High School for the year 1941.

Recently a member of the staff of the National Survey of Secondary Education made the statement that, in determining whether a secondary school should be considered as functioning to meet the needs of present day life, the following questions should be asked:

1. Has the school made an organized attempt to study the individual differences of its pupils?
2. Has it made a systematic attempt to adjust the programs of pupils to meet individual differences and needs?
3. Has it attempted to carry on curriculum research and to reorganize its own curriculum and program?
4. Has it organized itself to provide adequate guidance for all pupils?

It is interesting to note that all of these questions hinge upon the place of Guidance in the high school program. I am happy to be able to say that Maynard High School has recognized this factor of present day adjustment in secondary education and has incorporated it in its program as a service to Maynard children. The group guidance course which we have established as a required subject for all freshmen enables them to gather a vast amount of information relative to orientation in their educational, social, and economic environment. The following units of work are covered in the course and are self-evident of their value to a heterogeneous group;

1. Information and problems concerning the curriculum and activities of the school.
2. Information and problems concerning the choice of elective subjects.
3. The study of occupations.
4. The study of educational and vocational opportunities available to them.
5. Problems of personal and social relations.

The second step in our guidance program has been the creation of class counselors whose primary duties are to administer psychological tests and advise members of the freshman class assigned to them as they enter high school. Standardized tests

of intelligence and aptitude are given by the counselors and the data recorded. This information in addition to information from the home is collected by the counselor during the early months while the student is learning of his interests and abilities in the group guidance course. The latter part of the freshman year is then spent by the counselor on individual interviews and educational and vocational guidance based on the individual differences, interests, abilities, and aptitudes of those in his charge as shown by the information gathered.

While this guidance function in itself is sufficient for analysis and educational directing of pupils in Maynard, it is not an end in itself but depends for completion on the education offered the student after the guidance work has been done. Research in the Courses of Study of the high school indicated the need for revision of some of them as their contents have not always been definite or purposeful. At the present time all of the high school teachers are working on this problem and each is endeavoring to create an up-to-date course of study with functional units based on the needs and interests of the pupils. At the present writing many of these projects have been passed in to me, and eventually, after revisions in conference with the departments involved, and with your approval, will be used to educate our pupils more assuredly for the future which intelligent guidance has opened to them.

RECOMMENDATIONS

Fully understanding the need for economy in these times of increasing prices and war taxes, I have recommended only the things which I feel are essential to keep Maynard High School on a par with other schools in accepted practices of secondary education.

1. If priority rights do not interfere, it is time that we offered more experiences in the mechanical trades to our students. More than one half of our students are now graduating without planning to enter college or the commercial field. When they leave school they find miscellaneous work or attempt to locate themselves haphazardly in the trades. By offering them the fundamentals of mechanical work in our Manual Arts department we could acquaint them with this field and save them valuable time in locating their future vocations. A reorganization of this department would necessitate a new course of study and in addition to machinery and equipment would call for a full-time Manual Arts teacher for the High School.

2. We have made a very fine beginning in collecting books for the library. Our teachers have found them quite valuable, though limited in number, for supplementary work. I know that you recognize the need for more books and hope that as funds allow each year additions will be made so that we can gradually obtain all of the books necessary to make our library adequately fulfill its important educational function.

3. The equipment of our Visual Education department is almost obsolete. For the past five years practically all of the 16mm. films produced for educational purposes have been made with a sound track. We are unable to make use of this valuable source of vicarious experiences as our projector is of the old silent type. Information from most schools indicates that they have one or more of the newer projectors and consider this investment a necessary part of school equipment. I also feel that we have need for such a machine and recommend that our old one be replaced by a newer model as soon as possible.

EDUCATIONAL ADDITIONS

1. The new high school library was put into operation in September. From an educational point of view it is a decided success. It not only allows teachers to work without interruption in their classes but also enables students to add considerably to their knowledge through connected research materials which are now available during the study periods spent in the library. Although we have only a limited number of books and most of them pertain to particular subject fields, the students, in considerable numbers, find them interesting and valuable and often borrow them for home study.

2. In keeping with the educational needs of Maynard children, some changes were made in the Program of Studies this year. Spanish, Guidance, Shop Mathematics, Junior Business Training, Economics, Public Speaking, and Practical Chemistry and Physics have been added. All of these courses are functional and contribute to a much needed reorganization of the specialized curricula studied by our students. This enriched program is being followed as a conservative development by most secondary schools and should be very valuable in the preparation of students for meeting the complex problems of today's world.

3. A part-time work registration of all students interested has been completed in the high school. Many already have been placed in stores, homes and other remunerative afternoon work. Experience gained in this way will be a valuable connecting link between school responsibilities and practical life after graduation. Many high schools carry this idea much farther and have a regular employment office for those who have graduated as well as for those still in school. This service would require a teacher familiar with outside employment conditions who could make work contacts and act as advisor to students making the transition from school to the business world. It would be a fine thing for Maynard if we were able to bridge this gap by offering this additional service to Maynard children.

The State Department of Education has recognized the value of this Vocational Guidance and has recently made a separate Director of Vocational Guidance on its own staff to supervise and

assist high school directors in carrying out this important work.

I would like to take this opportunity to thank my fellow teachers for their loyalty and cooperation. In my efforts to improve the offerings of Maynard High School, I have called upon them often for extra work in behalf of the pupils. Their willing response was gratifying and indicative of true "teacher" spirit.

In closing, I wish to express my appreciation for your guiding influence, excellent suggestions and professional cooperation throughout the year.

Respectfully submitted,

ALBERT LERER,
Maynard High School Principal

Graduates Continuing Education

The following graduates of the Class of 1941 have been accepted for admission to schools for higher training.

Leona Arciszewski	The Faye School
Elizabeth Buckley	Banford Academy
June Carbarly	Katherine Gibbs School
Helen Cuttall	Burdett College
Frances D'Agata	Bridgewater State Teachers' College
Jean Davis	Boston University
Marie Flaherty	Regis College
Thomas Foley	Northeastern University
Clara Gogolin	Leland Powers School of Expression
Taimi Grekula	Worcester Memorial Hospital
Antonio Hill	Massachusetts Radio School
Walter Kitowicz	Tufts Engineering School
Robert Meister	Lowell Textile Institute
Janet Poulson	Girls' Trade School
Marian Terrasi	Regis College
James Tobin	Wentworth Institute
Jean Tucker	Mary Brooks School
Wilbur Walls	Northeastern University
Margaret Whalen	St. Vincent's Hospital

The figures in bold faced type show the number of pupils of normal age for the grade; those at right of bold face type show the number above normal age or "over age," those at left show the number below normal age or "under age." With a well adapted course of study and not too arbitrary system of marking, a school system in general should show about the same percentage of "over age" and "under age" pupils.
