Selectmen's Report

To the Inhabitants of Maynard:

From a financial standpoint at least, the year covered by this report has been a successful one when we take into consideration the unexpended balances in all but one department.

The recent change in the By-Laws, having the financial year end on January 31st instead of March 1st as formerly, making a year of eleven months duration only, is, of course, to a great extent responsible for these balances. This fact, together with the uncertainty of credits, renders it unwise for us to recommend any reduction in the appropriation for the coming year.

HIGHWAYS.

Main street from Nason to Summer streets and Summer to its junction with Parker street, a total distance of 1,593 feet, was graded and macadamized under a contract with the Mass. Highway Commission, the town appropriating the sum of \$1,500 and the state contributing \$1,384. This improvement was much needed and having been accomplished in this manner cost the town very little when the benefit to the traveling public and the appearance is taken into consideration.

The Board have petitioned under the same act for an allotment to extend this style of road from the Main street crossing of the B. & M. R. R. in a westerly direction, the amount of work to be done and distance to be covered being governed by the amount of money which the town will see fit to appropriate.

Parker street, at least that portion of it from Summer to Walnut streets, has been for years a source of great expense, in fact the yearly amount expended on this section represented the interest on \$2,000 and with little or no results. This year we expended in the neighborhood of \$700 on the street, grading, graveling, paving gutters, putting in catch basins and drain pipes with the idea of permanent improvements, which will save the town no inconsiderable amount in repair charges. In 1903 before this work was done the sum of \$283 was expended, during 1904 for repair work we spent \$1.50 showing that true economy consists in so grading and draining our streets that an excessive amount will not be needed each year for repairs.

Acton and Nason streets were graveled and a coating of crushed stone was rolled in. They are now in a much more satisfactory condition. Sudbury street was relocated in accordance with the survey of the County Commissioners, gravelled and a finished surface of broken stone making an economical and practical road.

Sidewalks were also built on this street for the first time in the history of the town. Fences for which the town is responsible have been in a very poor condition and required attention which has been expensive.

Parker street adjoining the property of Arthur P. Walker was fenced, as was that part of the same street known as the Powder Mill Road. This latter part was made possible by the generous assistance of Mr. M. H. Garfield to whom in behalf of the town the selectmen extended a vote of thanks.

The Board endeavored during the year to have some change made in the railroad bridge which is known as Paper Mill Bridge, believing in common with the majority of our citizens that the present condition is one fraught with danger. At a conference with the officials of the C. M. & H. St. Ry. it was agreed to leave the matter to the Mass. Railroad Commission, in accordance to which a hearing was given at their office in Boston. Their decision was adverse to the town, ruling that these bridges should be maintained as separate structures or that a new bridge be built under

plans approved by them. As at present there is no sidewalk for the convenience of those living in this section it would seem wise if some move were made toward this end.

In the explanation of the matter of relocating streets we submit the report of the County Commissioners explaining petitions and rulings under them.

These petitions ask for the relocations of Summer, Walnut, Main and Concord streets. The necessary hearings were held, and decrees made on Walnut and Main streets on August 27. These two decrees mainly established definite lines, and no orders respecting construction or damages were deemed necessary.

On Summer street and Concord street partial decrees were made September 3, and damages were awarded as follows:

SUMMER STREET.

James Bent,	\$20 00
Thomas Hillis,	50 00
Richard Parmenter,	25 00
Frank Hibbard,	2 00
Joel Butterworth,	4 00
John May,	5 00
W. E. Tilton,	2 00
L. H. Maynard, administrator,	10 00
C. F. Cabill,	5 00
W. W. Oliver,	10 00
James Higgins,	5 00
Betsey C. Greene,	25 00
Lorenzo Maynard estate,	50 00
Methodist Episcopal Church,	5 00
Mary J. Reed,	50 00

	\$268 00

The County's share of the expense is \$200.

All walls and fences are to be removed from within the location,

and from Summer lane to opposite the premises of Dr. Rich the road bed is to be improved, and opposite the property of Thomas Hillis and Mary J. Reed retaining walls are to be built on the street line. The time fixed for completion is September 1, 1905. The width is variable, being from forty to fifty feet. Not all of the street is laid out.

CONCORD STREET.

Concord street was laid out, from Summer street to the railroad, at a width of forty feet. Damages were awarded as follows:

W. E. Tilton,	\$20 00
J. Webster, et al,	30 00
Orrin S. Fowler,	20 00
Frank J. McCarron, et al,	20 00
Ann Garlick,	30 00
Israel Jannell,	10 00
Albert F. Carney, et al,	10 00
Ellen M. Sheehan,	10 00
William Closeman,	50 00
Robert Crossley, et al,	50 00
Albert Batley, et al,	25 00
John Sheehan,	12 00
Frank Salisbury,	30 00
Carrie A. Brown estate,	15 00
Mary S. Brooks,	10 00
L. N. Fowler,	5 00
Richard Parmenter, et al,	35 00
George Salisbury,	10 00
Eliza Sauderson,	15 00
Minnie Rich,	20 00

	\$427 00

Before November 1, 1905, twenty-six feet is to be constructed in the center of the location, and walls and fences removed from within the location. The County's share of the expense is \$400.

(469.) This petition asks for the relocation of the "Great Road," from Main street to the Stow line. At the time of the view and hearing, no person objecting, the same was adjudged of common convenience and necessity, and decree made in November establishing the lines at a width of fifty feet. No orders respecting construction were deemed necessary, and no damages awarded.

(471.) This petition asked for a change of the lines of Nason street, at the corner of Main street. The proceedings were the same as in the case of the "Great Road," as above.

We would call your attention at this time to the presence of the brown tail and gypsy moth in our town, and have bought two trimmers for the use of the public so that they will be able to cut off the nests from the trees when discovered. We have also directed the superintendent of streets in the absence of tree warden to examine all trees in the public highways and exterminate if possible this pest before the spring.

We trust that the public will co-operate with the authorities and endeavor if possible to exterminate this plague.

This is the season of the year for such work and there is great truth in the old adage that an ounce of prevention is better than a pound of cure.

Financial Report.

APPROPRIATIONS FOR 1904.

Support of schools,	\$17,500 00
Highways,	4,000 00

Town Clerk's Report

FOR THE YEAR 1904.

From Town Clerk's Records March 1, 1904, to March 1, 1905.

Town Warrant No. 149---Town Meeting March 14, 1904.

Commonwealth of Massachusetts, Middlesex, SS.
To either Constables of the Town of Maynard in said County,
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall in said Town, on Monday the 14th day of March next, at ten a. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose by the Australian system of balloting, the following Town Officers: one Town Clerk, one Town Treasurer, one Collector of Taxes, one Selectman for three years, one Overseer of Poor for three years, one member Board of Health for three years, one Water Commissioner for three years, one School Committee for three years, one Assessor for three years, one Trustee of Public Library for three years, one Tree Warden for one year, two Auditors for one year, three Constables for one year, one Cemetery Committee for three years, and all Town Officers to be chosen at said meeting. Also to answer by the said Australian system of balloting, the following question: Shall license for the sale of intoxicating liquors be granted in this Town.

For the purposes specified in this Article the polls will be opened after the election of a Moderator, and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determines.

Art. 3. To hear and act upon the reports of Town Officers and Committees.

Art. 4. To see if the Town will appoint a Committee to consider appropriations for the ensuing year, and report at the April meeting, to do or act thereon.

Art. 5. To see if the Town will authorize the Town Treasurer, with the approval of Selectmen, to borrow twenty thousand dollars (\$20,000) in anticipation of Taxes of the present and current year and payable therefrom, to do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk or the Selectmen, at or before the time of holding said meeting.

Given under our hands, this third day of March, in the year of our Lord, one thousand nine hundred and four.

George H. Hart,
Patrick J. Sullivan,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex, S. S.

March 7, 1904.

I have served the within named warrant by posting an attested

copy at the post office and one at each of ten other public places in said town seven days at least before the time of holding said meeting.

Sam'l G. King,
Constable of Maynard.

A true copy: Attest:

Charles H. Persons, Town Clerk.

Proceedings of Town Meeting Held March 14, '04.

Pursuant to Town Meeting Warrant No. 149, the voters of Maynard assembled in Co-operative hall on the above date and elected all necessary Town Officers and acted upon the articles contained in the warrant as follows:

Article 1. Samuel Lawton was elected Moderator by ballot, the check list being used.

Art. 2. The ballots and duplicate check lists were placed in the care of ballot clerks Walter B. Currier, James A. Cleary and William F. Cullen, who had been appointed by the Selectmen and sworn by the Town Clerk. A receipt was taken for the sealed package said to contain 1,075 general ballots and 150 special ballots.

The ballot box was examined by the Election Officers and the register set at 000, the box locked and the keys placed in the keeping of Constable William Jones, who being sworn was placed in charge of the ballot box.

The specimen ballots and cards of instruction were posted as required by law and the ballot box declared open by the Moderator.

John H. Lawton, Harvey A. Harwood, Howard A. Wilson and George H. Creighton, tellers appointed by the Selectmen, were sworn by the Town Clerk.

It being the unanimous opinion of the Moderator and the Town Clerk that it was necessary and advisable to do so, ballots were taken from the ballot box at various times during the afternoon and counted.

Voting was continued while acting upon the remaining articles in the warrant.

The polls were closed at four o'clock p. m. The register on the ballot box indicated 743, which was also the number of general ballots cast.

Both general check lists were counted in open meeting and it was found that 743 names had been checked on each.

The count was obtained by the use of the counting machine and resulted as follows:

Town Clerk, one year.

Voted to instruct the Town Clerk to cast one ballot for Orrin S. Fowler for Cemetery Commissoner for three years.

Article 3. Voted to take up the reports of the several Town Officers and act upon them separately.

Voted to accept the report of the Selectmen.

Voted to accept the report of the Town Clerk.

Voted to accept the report of the Committee on Playground.

Voted to accept the report of the Committee on Main St. School Building.

Voted to accept the report of the Tax Collector.

Voted to accept the report of the Engineers of Fire Department.

Voted to accept the report of the Trustees of Public Library.

Voted to accept the report of the Overseers of Poor.

Voted to accept the report of the Board of Health.

Voted to accept the report of the Treasurer.

Voted to accept the report of the Assessors.

Voted to accept the report of the Cemetery Commissioners.

Voted to accept the report of the Water Commissioners.

Voted to accept the report of the Auditors, and to appoint from the floor a Committee of three to look up the recommendations therein contained and report at the April meeting.

Edward M. Cross, Howard A. Wilson and George N. Salisbury were the Committee appointed.

Voted to accept the report of the School Committee, and to appoint from the floor a Committee of five to look into the recommendations of said Committee in regard to more school accommodation, and report at the April meeting.

The Committee appointed were Arthur J. Coughlan, S. Raymond Kitchin, John A. Crowe, William H. Gutteridge, and James R. Bent.

Howard A. Wilson of the By-Laws Committee stated that the report would be ready for the April meeting.

Art. 4. Voted to appoint a committee of five from the floor to consider appropriations for the ensuing year and report at the April meeting.

Arthur J. Coughlan, Howard A. Wilson, John A. Crowe, William H. Gutteridge and Abel G. Haynes were the committee appointed.

Art. 5. Voted unanimously that for the purpose of procuring a temporary loan to and for the use of the Town of Maynard, in anticipation of the taxes of the present municipal year the Treasurer is hereby authorized and directed to borrow from time to time, with the approval of a majority of the Board of Selectmen, a sum or sums not to exceed in the aggregate twenty thousand dollars (\$20,000.00), and to execute and deliver the note or notes of the town therefor, payable within one year from the time the loan is made. Any debt or debts secured by a loan or loans to the town under this vote shall be paid from the said taxes of the present municipal year.

Voted to adjourn at 6.40 o'clock p. m.

Attest:

Charles H. Persons,
Town Clerk.

Commonwealth of Massachusetts,

Middlesex, SS.

Maynard, March 15, 1904.

In accordance with the provisions of Section 4 of Chapter 423, of the Acts of the Legislature of Massachusetts for the year 1893, I hereby appoint Frank E. Sanderson of said Maynard to be Assistant Town Clerk of said Maynard for the current municipal year or until the appointment is revoked.

Charles H. Persons,
Town Clerk of the Town of Maynard.

I, Frank E. Sanderson, above named, solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of Maynard, Mass.

Frank E. Sanderson.

Middlesex, SS.

Maynard, March 15, 1904.

Then personally appeared the above named Frank E. Sanderson and took and subscribed the foregoing oath, before me.

Charles H. Persons,

Justice of the Peace, and Town Clerk of Maynard, Mass.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

*Town Meeting Warrant No. 150---Town Meeting Held April 4,
1904.*

Commonwealth of Massachusetts, Middlesex, SS.
To either of the Constables of the Town of Maynard, in said
County, Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said Town, on Monday, the fourth day of April next, at 7.30 o'clock p. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To hear and act on reports of Town Officers and Committees.

Art. 3. To fill all vacancies in Town Offices.

Art. 4. To see if the Town will vote to accept a list of jurors as prepared by the Selectmen.

Art. 5. To see if the Town will vote to appropriate a sum of money for Decoration Day.

Art. 6. To see if the Town will vote to appropriate the sum of \$150.00 for band concerts, to do or act thereon.

Art. 7. To see if the Town will vote to appropriate a sum of money to purchase additional land for schoolhouse purposes, to do or act thereon.

Art. 8. To see if the Town will vote to accept continuation of Glendale street, to do or act thereon.

Art. 9. To see if the Town will vote to grant and appropriate money for all necessary Town purposes.

Art. 10. To see if the Town will vote to appropriate a sum of money to install water meters in each and every house or public building in the Town, to do or act thereon.

Art. 11. To see if the Town will vote to appropriate a sum of money to install a new line of pipe from White Pond to the pumping station, to do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office, and one at each of ten other public places in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-third day of March, in the year of our Lord, one thousand nine hundred and four.

Patrick J. Sullivan,
Lucius H. Maynard,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex SS.

March 26, 1904.

I have served the within named warrant by posting one in the

post office and one each in ten places in said Town seven days at least before time of holding said meeting, as within directed.

John Connors,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held April 4, 1904.

Pursuant to town warrant No. 150, the voters of Maynard assembled in Co-operative hall on the above date and acted upon the articles contained in the warrant as follows:

Article 1. Arthur J. Coughlan was elected Moderator by ballot, the check list being used.

Art. 2. Edward M. Cross read the report of the committee elected at the March meeting to look into the recommendations of the Auditors. Said report is on file at the Town Clerk's office and is as follows:

*Report of Committee Appointed March 14, 1904, to Look into
Recommendations of Auditors.*

Maynard, April 4th, 1904.

The committee appointed to look into the recommendations of the Board of Auditors, has carefully investigated the recommendations, and submit report as follows:—

Taking the recommendations of the Auditors as outlined in their reports, would recommend on Treasurer's account as follows:

The present system of accounts does not place the Treasurer in a position to know at all times the financial condition of each department of the Town; we would recommend the adoption of a system whereby he keep a department cash and ledger account of expend-

itures and receipts, and that he furnish a statement monthly to the secretary of each department, giving them the amount on which orders can be drawn. We believe this would in a measure help the officials in planning their expenditures ahead. Further we would recommend that the School Department and the Overseers of the Poor draw their orders on the Treasurer direct. This would relieve the Board of Selectmen and would also simplify the work very much.

In regard to Selectmen's book, on which record of all orders drawn are made, would recommend a new system of books for them also.

Referring to the report for Collection of Accounts due the Town, we recommend that a stub book of three blanks be furnished each department, stub attached to book to be used as a department voucher from which to make record for their credit; 2d, is a certified stub for Treasurer for Auditor's settlement; 3d stub is made out to party owing the Town, passed to Treasurer and mailed by him, and only payable at his office, rather than to the department as is the present system. This system of bills would place the Treasurer in a position to know outstanding bills at all times.

Further, we wish to bring to the notice of the citizens that in case of fire, the Treasurer's records of the Town's business would be destroyed, as no safe is furnished; we would recommend a small safe be purchased for this department, and believe an appropriation of \$150.00 would buy one suitable for this purpose.

We recommend a change in the system of collection of taxes; the present books now used by the Assessors in compiling tax, showing the amount due from each party, should be done away with; we recommend one large book indexed on the margin so that accounts can readily be found. The left hand page of book is for the use of the Assessors showing the amount of the tax, the kind, whether poll, personal or real estate, and the total tax. The right hand page is for the use of the collector and shows the amount paid, interest, discount, unpaids, etc. Provision is also made on this

page for taxes that remain unpaid that may be collected during the following two years. In addition to this, we recommend a book that will show the collections as made from day to day in any of the years on which any account may be outstanding. By this method the Tax Collector or Auditors can at once ascertain just how much is outstanding or uncollected any given year. We believe the system of sending out tax bills when due should be abolished; in place of them we recommend that postal cards be used to notify tax payers when their taxes are due: said cards to be printed in regular form showing office hours of Collector, where he can be found, and the amount due, also the extract from the Town By-Laws governing the collection of the same. The tax payer presents this card to the Collector when he desires to pay his tax, and on payment of same, receives the regular receipted tax bill.

The tax bills never leave the hands of the Collector until paid in full. This arrangement would be invaluable to the Auditors and would greatly facilitate matters in checking up the Collector's account.

We find in looking over the situation that no proper place has been provided for the collecting and handling the finances of the Town, and we recommend that the outer room of the three now occupied by the Town Officers be at once fitted up for the purpose, and furnished with desk and partition and furniture, so that the business of the office may be more readily and safely carried on.

There is one other matter in the collection of taxes which we believe should be attended to at once; that is the proper numbering of the streets.

It is simply impossible, as they are today, for the Assessors to hand in the full and proper address of every tax payer, because the streets are unnumbered and it is almost an impossibility to find those who are delinquent because the full address is not given. Especially is this true when one or more parties have the same name.

We would recommend that \$100.00 be appropriated this year for

the proper numbering of the streets, said numbers to be placed on the door casing to the right, and not on the door itself. By this means the number will always be in sight, and not hid by storm doors, or screen doors, as would be the case if placed on the door itself. We would further recommend the suggestion mentioned in the Tax Collector's report of having a Deputy Collector go with the Assessors at the time they start out to make their annual assessment to all places of a doubtful nature, the list to be in the hands of the Collector at once, and by obtaining a special warrant, he can at once start to make the collections. The same would apply where the post office authorities are unable to effect the delivery of tax notices, same being returned to the Collector, he could turn them over to his Deputy to try to hunt them up for delivery.

Regarding system of Water Registrar, we would recommend a new system for this department, to start this system and for a new basis would suggest a census of services be made, of the entire town. A new book for this record would be required, also additional book for record of new services put in from time to time; also a new system of cash book. Further, we would recommend a new form of meter, fixed and service bill, same to have large stub with record of service number and amount of bill entered thereon; said stub must be detached in all cases when bill is rendered and held by Registrar. This stub makes a check for the Auditors.

Regarding report on Sinking Fund commissioners, would say that they have already instituted a system for keeping their accounts.

To install this system as outlined above, we would ask that an appropriation of \$200.00 be made, this amount to equip a suitable place for the collection of taxes, also a safe for board of Selectmen in exchange of present one, same to be suitable to hold the records and books of Water Dept., for which at present time there is no safe in which these books can be kept.

Respectfully submitted,

Edward M. Cross,
Geo. N. Salisbury,
Howard A. Wilson.

Voted to receive the report and lay it upon the table until later in the meeting.

S. Raymond Kitchin read the report of the committee elected at the March meeting to look into the recommendations of the School Committee. Said report is as follows and is on file in the Town Clerk's office:

Report.

The committee appointed at the March meeting to consider the recommendations of the School Committee submit the following:

While giving the recommendations of the School Committee and the Superintendent of Schools due weight, we feel that the need of school room is not imperative enough at the present time to allow us to recommend the erection of another building. But we do recognize that within a few years, possibly one or two, such action will become necessary. Considering this, and realizing that suitable land may not at that time be available, we recommend that the offer of Mr. C. F. Monk of four lots situated on Parker street, be accepted and that additional land as suggested by committee appointed Nov. 14, 1903, be purchased.

This committee reported three options differing as to size of lot. We recommend offer No. 3 comprising 19 lots at price of \$2,000.00 and that this land be held until the town deems necessary to build.

Arthur J. Coughlan,
S. Raymond Kitchin,
John A. Crowe,
Committee.

Voted to receive the report and lay it upon the table until we reach Article 7 of the warrant calling the meeting.

Arthur J. Coughlan read the report of the committee elected at the March meeting to consider appropriations for the ensuing year. Said report is as follows and is on file in the Town Clerk's office.

March 22, 1904.

To the Citizens of the Town of Maynard:

Your committee on appropriations beg leave to report as follows:

We recommend for

Support of schools,	\$17,500 00
Police,	1,600 00
Street lighting,	2,600 00
Salaries,	1,838 00
State aid,	50 00
Public library, dog tax and	300 00
Incidentals,	2,500 00
Poor department,	3,000 00
Highways,	4,000 00
For macadamizing Main St.,	1,500 00
Sidewalks,	500 00
Fire department,	1,900 00
Hydrants,	2,000 00
Water sinking fund,	3,000 00
Soldiers' relief,	450 00
Interest on loans,	1,400 00
Public park,	250 00
Tree warden,	100 00
Decoration day,	50 00
Treasurer's and collector's bonds,	175 00
Survey of streets,	100 00
To suppress sale of liquor,	500 00

We do not think it best for departments to carry balances from one year to another. We recommend that now and hereafter, all balances from the previous year be cancelled and that the sum of \$1,525.00 be appropriated to reimburse the treasury for the over-drafts of last year.

Signed,

A. J. Coughlan,
 John A. Crowe,
 Howard A. Wilson,
 William H. Gutteridge,
 Committee.

Voted to receive the report and lay it upon the table until we reach Article 9 of the warrant calling the meeting.

Howard A. Wilson, Secretary, stated that the report of the committee on revision of the By-Laws was ready, but on account of the large amount of matter contained therein, it would be advisable to have it printed. He also recommended that the report be laid upon the table and considered at a future meeting from the fact that a bill now before the General Court might be passed, which would do away with the necessity of having By-Laws approved by the Court.

On motion of S. Raymond Kitchin, voted to receive the report and lay the same upon the table till some future meeting, and to instruct the committee to have copies of the report printed and distributed.

Voted to take the report of the committee upon recommendations of the Auditors from the table.

Voted to again lay the report of the committee upon recommendations of the Auditors upon the table till later in the meeting.

William H. Gutteridge called for a report of the committee on Water Supply appointed at the meeting held April 6, 1903.

After considerable discussion which brought out the fact that the chairman had never called a meeting of the committee it was voted, on motion of S. Raymond Kitchin, that the committee be discharged and a new committee be appointed.

Committee appointed: Edward Henderson, Thomas Naylor, John A. Crowe, John W. Ogden, Arthur J. Coughlan.

Art. 3. No vacancies to fill.

Art. 4. On motion of Charles H. Persons, voted to accept the list of jurors as prepared and posted by the Selectmen after striking out the names of John H. Lawton, Thomas Naylor, Daniel Parmenter, John F. Gannon, Orrin S. Fowler, Harvey J. Dwinell, John W. White, James B. Hiltferty, Frank Whitney, Frederick W. Sims, Hiram Parkin.

Jury List as Amended.

Augustus Newton,	Julius Loewe,
Charles H. Cheney,	Michael Sexton,
David Loewe,	George Brown,
Edward Fearn,	Frank Lawton,
Edward Henderson,	John Wall,
Frank S. Johnson,	Abraham Allen,
Neil Currie.	Harris A. Clement,
Albert G. Fairbanks,	A. Frank Garney,
Paul Wilson,	Charles D. Holmes,
William W. Oliver,	George H. Hart,
Sidney B. Shattuck,	Bart. J. Coughlin,
James Cleary,	William Casey,
Eugene Colbert.	

Art. 5. On motion of John Wall, voted to appropriate \$50.00 for Decoration Day.

Art. 6. On motion of James Carney, voted to appropriate \$150.00 for band concerts.

On motion of Theodore Wollerschied, voted that the matter of arranging for band concerts be left with the Board of Selectmen.

Art. 7. William Scully and John W. Ogden were appointed tellers and sworn by the Moderator.

On motion of Edward Henderson, voted that the report of the committee upon recommendations of School Committee be accepted, and that the Committee be instructed to procure the eight lots named in offer No. 2 (see page 448, Record B.)

On motion of John W. Ogden, voted to appropriate the sum of \$800 to purchase the land.

Art. 8. On motion of George H. Gutteridge, voted that when the street is put in condition acceptable to the Board of Selectmen, they bring the matter before the town again for acceptance.

Art. 9. On motion of William B. Case, voted that the recommendations of the Appropriation Committee be taken up and acted upon separately.

Voted to raise and appropriate:

For support of schools,	\$17,500 00
Police,	1,600 00
Street lighting,	2,600 00
Salaries of town officers,	1,838 00
State aid,	50 00
Public library, dog tax and	300 00
Incidentals,	2,500 00
Support of poor,	3,000 00
Highways,	4,000 00
Sidewalks,	500 00
Fire department,	1,900 00
Hydrants,	2,000 00
Water sinking fund,	3,000 00
Soldiers' relief,	450 00
Interest on loans,	1,400 00
Public park,	250 00
Tree warden,	100 00
Treasurer's and collector's bonds,	175 00
Surveying and relocating streets and numbering houses,	100 00
Suppressing illegal sale of liquor,	500 00

Voted to raise and appropriate the sum of \$1,500.00 for the improvement of Main St. in accordance with Chapter 47 of the Revised Laws.

Voted that the recommendation of the committee "That now and hereafter all balances from the previous year be cancelled," be accepted and adopted, and that the sum of \$1,525.00 be appropriated to reimburse the treasury for the overdrafts of last year.

On motion of Hiram Parkin, voted to again take the report of the committee upon recommendations of the Auditors from the table.

Voted that the report of the committee be accepted, the recommendations adopted, and the money to carry them out appropriated. (viz., \$450. See report of committee.)

Voted that the same committee be authorized to install the system recommended.

Art. 10. On motion of William H. Gutteridge, voted to appropriate \$1,500.00 for water meters.

On motion of William W. Oliver, voted that the matter of placing meters and governing the use of the same be left with the Water Commissioners.

Art. 11. Bart J. Coughlan, Chairman of the Board of Water Commissioners stated as follows:

This article was inserted in the warrant by the Board of Water Commissioners with the express purpose of calling the attention of the citizens to the condition of the water supply. To go into details of the defects in the system is unnecessary. The service pipes, the reservoir, and the pumps are all doing satisfactory work but the conduit line is far from satisfactory from the pumping station to White Pond. The figures given in the report a year ago show that the pipe is not intact. That the water leaks out and flows in at different joints all the way down from the pond. For instance a measurement of water flowing through the pipes near the gate house will show only 206,000 gallons per day. Further down the line the measurement will show 527,000 gallons through the pipes. These facts plainly show that the water emptying into the receiving wells in as much taken from the water sheds between the pond and the pumping station, as there is from the pond itself. In plain words the conduit line is not to be depended upon for our supply, as the pipe certainly is broken apart in different places, as it is shown by the different measurements of the water at the different standpipes, and we firmly believe that it would be best and wisest course for the town to pursue, to lay an entirely new pipe, along a different route if necessary. But to help matters

temporarily we recommend that a new pipe be laid at once from the pumping station to chimney No. 3, a distance of about 3,853 feet from the well.

The report referred to shows that at this point, chimney No. 3, there are 470,000 gallons of water per day passing this chimney, and we are only receiving at the well 345,000 gallons per day, a shortage of 125,000 gallons.

On motion of William H. Gutteridge, voted to pass over the article.

At 10.55 o'clock p. m. voted to adjourn the meeting to the first Monday in May at 7.30 o'clock p. m.

Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held May 2, 1904.

Pursuant to adjournment of the town meeting held April 4, 1904, the voters of Maynard assembled in Co-operative hall on the above date.

The meeting was called to order by the Moderator, Arthur J. Coughlan, at 7.30 o'clock p. m.

On motion of Charles H. Persons, voted to again take up Article 2 of the warrant calling the meeting.

Art. 2. Howard A. Wilson, Secretary of the By-Law Committee appointed at the meeting held March 9, 1903, submitted a printed report, copies of which have been distributed throughout the town.

Neil Currie and Harvey A. Harwood were appointed tellers and sworn by the Moderator.

On motion of Edward Henderson, voted that after correcting the errors in printing, etc., the report of the Committee be accepted and adopted as the By-Laws of the town.

Corrections were made in Section 10, Chapter 1; Section 1, Chapter 4; and in Section 1 and 2, Chapter 8.

The corrected report is on file in the Town Clerk's office.

Edward Henderson, chairman of the committee on Water Supply appointed at the meeting held April 4, 1904, stated that members of the committee had visited the Pratt estate, so called, and looked over the conditions. Mr. McIntyre, the owner, stated in a letter that the price of the property would be \$10,000.00.

The committee were convinced that it was not advisable for the town to consider the purchase of the same.

On motion of Harvey A. Harwood, voted to accept the report of the committee.

On motion of P. J. Sullivan, voted to again take up Article 9 of the warrant calling the meeting.

Art. 9. Mr. Sullivan read a letter from the Massachusetts Highway Commission saying in part that they would allot the sum of \$1,384.00 to be used with the town's appropriation for the improvement of Main Street, provided the Town will agree by vote to maintain the road, after it is built, subject to the approval of the Commission.

On motion of P. J. Sullivan, voted that the town authorize the Selectmen to agree in behalf of the town to maintain that portion of Main Street between Nason and Summer Streets, to the satisfaction of the Massachusetts Highway Commission, or any Board to which the present duties of said Commission may hereafter be delegated.

Voted to adjourn at 8.10 o'clock p. m.

Attest:

Charles H. Persons,
Town Clerk.

Town Warrant No. 151. Town Meeting June 27, 1904.

Commonwealth of Massachusetts,

Middlesex, SS.

To either Constables of the Town of Maynard in said County,

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall in said town, on Monday, the twenty-seventh day of June next, at eight p. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To see if the Town will vote to accept the gift of twenty dollars (\$20.00) from the Massachusetts society for Prevention Cruelty to Animals to aid in establishing watering troughs or fountains. To do or act thereon.

Art. 3. To see if the Town will vote to establish a watering trough, the gift of the late W. A. Haynes, at the corner of Acton and Concord streets. To do or act thereon.

Art. 4. To see if the Town will vote to accept fund of \$150.00 the income of which to be used to care for burial lot No. 171. Fund to be known as the Mrs. Jerusha B. Stanley (Balcom) fund.

Art. 5. To see if the Town will rescind its vote taken April 4, 1904, to purchase eight lots of land having a frontage of 100 feet on Parker street. To do or act thereon.

Art. 6. To see if the Town will vote to purchase a parcel of land comprising about 19 lots, from C. F. Monk, for school house purposes. To do or act thereon.

Art. 7. To see if the Town will vote to appropriate the sum of one thousand dollars (\$1,000) in addition to the eight hundred dollars (\$800) already appropriated for the purchase of land mentioned in article 6.

Art. 8. To see if the Town will authorize the Town Treasurer with the approval of the Selectmen to borrow the sum of one thousand dollars (\$1,000), in anticipation of the taxes of 1905 for purchase of land for school house purposes. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 15th day of June, in the year of our Lord, one thousand nine hundred and four.

Patrick J. Sullivan,
Lucius H. Maynard,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex, SS.

Maynard, June 25, 1904.

I have served the within named warrant by posting an attested copy of the same at the post office and one at ten other public places in said town seven days before the time of holding said meeting as within directed.

James J. Morgan,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held June 27, 1904.

Pursuant to town meeting warrant No. 151, the voters of Maynard assembled in Co-operative hall on the above date and acted on the articles contained in the warrant as follows:

Article 1. Arthur J. Coughlan was elected Moderator by ballot, the check list being used.

Art. 2. P. J. Sullivan, chairman of the Board of Selectmen, read a letter from the Massachusetts Society for the Prevention of Cruelty to Animals. Said letter is on file in the Town Clerk's office and contains the following copy of a vote passed by said society.

“Voted: That in memory of the generous gift, under the will of the late Arioach Wentworth, the society offers to the Selectmen of each of the over three hundred Massachusetts country towns, twenty dollars to aid in establishing watering troughs or fountains for animals; attached to which should be an iron cup for the use of human beings, and on or near which shall be inscribed or painted the words, “Blessed are the merciful.””

On motion of P. J. Sullivan, voted to accept the twenty dollars.

Art. 3. On motion of P. J. Sullivan, voted to accept the watering trough, the gift of the late Warren A. Haynes, and authorize the Selectmen to use the \$20.00 accepted under Article 2 to aid in establishing the same at the corner of Acton and Concord streets.

Art. 4. On motion of William H. Gutteridge, voted to accept \$150, the income to be used to care for burial lot No. 171. Said fund to be known as the Mrs. Jerusha B. Stanley (Balcom) fund.

Art. 5. On motion of William H. Gutteridge, voted to rescind the vote taken under Article 7 of the meeting held April 4, 1904, whereby the town voted to purchase land on Parker street for school house purposes.

Art. 6. On motion of Harvey A. Harwood, voted to postpone action indefinitely.

Art. 7. Voted to pass over the article.

Art. 8. Voted to pass over the article.

Voted to adjourn at 8.25 o'clock.

Attest:

Charles H. Persons,
Town Clerk.

Town Warrant No. 152. Town Meeting Sept. 14, 1904.

Commonwealth of Massachusetts, Middlesex SS.
To either Constables of the Town of Maynard in said County,
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said town, on Wednesday, the fourteenth day of September next at 7.45 p. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To see if the Town will vote to transfer to highways, the \$800 appropriated for purchase of school house land on Parker street. To do or act thereon.

Art. 3. To see if the Town will give any instructions to the Water Works Sinking Fund Trustees in disposing of the estate in Somerville which has recently become the property of the Town. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places

in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 6th day of September, in the year of our Lord, one thousand nine hundred and four.

Patrick J. Sullivan,
Lucius H. Maynard,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex, SS.

Maynard, Sept. 9, 1904.

I have served the within named warrant by posting an attested copy at the Post Office and one each in ten other public places in said town seven days at least before the time of holding said meeting.

John Connors,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held Sept. 14, 1904.

Pursuant to town meeting warrant No. 152, the voters of Maynard assembled in Co-operative hall on the above date and acted upon the articles contained in the warrant as follows:

Article 1. Arthur J. Coughlan was elected Moderator by ballot, the check list being used.

Art. 2. On motion of Geo. H. Gutteridge, voted to pass over the article.

Art. 3. Robert W. Carter, chairman of the Board of Water Commissioners, made a statement as to how the property stood.

On motion of Thomas Hillis, voted that a committee of three, to be appointed from the floor, look the property over and estimate the cost of repairs necessary, and report at some future meeting.

Committee appointed were: Thomas Hillis, B. J. Coughlin, and O. S. Fowler.

Voted to adjourn until Thursday evening September 29th at eight o'clock.

Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held Sept. 29, 1904.

Pursuant to adjournment of town meeting held September 14, 1904, the voters of Maynard assembled in Co-operative hall on the above date.

The meeting was called to order by the Moderator, Arthur J. Coughlan, at 8.05 o'clock p. m.

Article 3. Thomas Hillis, chairman of the committee appointed under this article at the meeting held September 14, 1904, made a statement giving description of property, the condition of same and also of the surroundings, and recommending that necessary repairs be made inside, and the store and tenement buildings painted.

After considerable discussion it was voted on motion of W. H. Gutteridge that the Water Commissioners be authorized to place the property, meaning the store and tenement buildings, in such condition as will make the same rentable, until such time as the property may be sold to good advantage, and that the cost not exceed \$600.00.

Voted to adjourn at nine o'clock, p. m.

Attest:

Frank E. Sanderson,
Asst. Town Clerk.

Town Warrant 153. Town Meeting Nov. 8, 1905.

Commonwealth of Massachusetts, Middlesex, SS.
To either of the Constables of the Town of Maynard, in said County,

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said Town, on Tuesday, the eighth day of November, next, being the first Tuesday after the first Monday in November, at ten a. m.

Then and there to bring in their votes to the Selectmen for Presidential Electors, Governor, Lieutenant-Governor, Secretary, Treasurer, Auditor, Attorney General, Councillor, Senator, Representative in the General Court, Representative in Congress, District Attorney, Sheriff, and all other State, County and District Officers.

The polls will be opened at ten o'clock a. m., and may be closed at four o'clock p. m.

And you are directed to serve this warrant by posting an attested copy at the post office, and one at each of ten other public places in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk or Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-sixth day of October, in the year of our Lord, one thousand nine hundred and four.

Patrick J. Sullivan,
Lucius H. Maynard,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex SS.

Maynard, Oct. 31, 1904.

I have served the within named warrant by posting an attested copy of the same at Post Office and one at ten other public places in said town seven days before the time of holding said meeting as within directed.

James J. Morgan,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held Nov. 8, 1904.

Pursuant to town meeting warrant No. 153 the voters of Maynard assembled in Co-operative hall on the above date and cast their ballots for the several National, State, County and District Officers to be elected at this meeting.

The polls were opened at ten o'clock a. m. and were closed by vote of the meeting at 4.15 o'clock p. m.

Lucius H. Maynard of the Board of Selectmen was the presiding officer.

George W. Jamieson, George H. Creighton and Edward T. McManus, ballot clerks, appointed by the Selectmen, were sworn by the Town Clerk.

Harvey A. Harwood, Bart. J. Coughlin, James Mullin, James A. Cleary and David E. Williams acted as tellers after being sworn by the Town Clerk.

The specimen ballots and cards of instruction were posted, duplicate check list and one set of ballots delivered to the ballot clerks and receipt taken therefor. Said receipt is on file at the Town Clerk's office.

The ballot box was publicly examined by the election officers and found to be empty. The register was set at 000, the box locked and the keys placed in the keeping of Constable William Jones, who also acted as Teller, having been duly sworn by the Town Clerk.

It being the unanimous opinion of the presiding officer and the Town Clerk that it was advisable to do so, ballots were taken from the ballot box at various times during the afternoon and counted.

At the close of the polls the register indicated 743 which was the actual number of ballots cast.

The ballots and both check lists were counted in open meeting. The check lists showed that 743 names had been checked on each.

The count was obtained by the use of the counting machine as far as the same could be conveniently used and resulted as follows:

Electors of President and Vice President at Large.

Frederick A. Nagler of Springfield, four votes,	4
Charles N. Wentworth of Lynn, four votes,	4
John Ellis of Haverhill, ten votes,	10

John R. Fairbairn, of Cambridge, three hundred and thirty-votes,	330
John L. Mulholland of Somerville, twenty-one votes,	21
Blanks, one hundred and fifty-six,	156

Voted to adjourn at 7.25 o'clock p. m.

Attest:

Charles H. Persons,
Town Clerk.

Hudson, Mass., Nov. 18, 1904.

We, the subscribers, Clerks of Hudson, Maynard, Stow and Boxborough, met this day according to law and examined the votes cast Tuesday, Nov. 8th, 1904, for a Representative to the General Court from the twenty-second Middlesex District, and hereby certify that the result was as follows:

Thos. F. Mahoney, Patrick J. Sullivan, Fred Welsh, Blanks				
Hudson	569	466	1	112
Maynard	126	530		87
Stow	46	90		20
Boxborough	16	27		12
	757	1,113	1	231

Fred Welsh of Hudson had one vote,	1
Thomas F. Mahoney of Hudson had seven hundred and fifty-seven votes,	757
Patrick John Sullivan of Maynard had eleven hundred and thirteen votes,	1,113
Blanks, two hundred and thirty-one,	231

Fred O. Welsh,
Ass't. Town Clerk of Hudson.
Charles H. Persons,
Town Clerk of Maynard.
Henry Gates,
Town Clerk of Stow.
Ephraim B. Cobleigh,
Town Clerk of Boxborough.

Commonwealth of Massachusetts, Middlesex, SS.

Middlesex, SS.

November 21, 1904.

To the Town Clerks of Hudson, Maynard, Stow and Boxborough,
in said County:

I hereby certify that on the twenty-first day of November, 1904, I delivered to Patrick John Sullivan, your certificate of his election as Representative to the General Court, to be holden on the first Monday of January next, for the twenty-second Middlesex District.

Attest:

John Connors,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Town Warrant No. 154. Town Meeting Dec. 12, 1904.

Commonwealth of Massachusetts, Middlesex, SS.
To either Constables of the Town of Maynard in said County,
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said Town, on Monday, the twelfth day of December next, at 7.45 p. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To see if the Town will accept a sum of money as a fund, the income from which to be used for the care and maintenance of the Amory Maynard tomb, and surroundings.

Art. 3. To see if the Town will authorize the Town Treasurer, with the approval of the Selectmen, to borrow twenty thousand dollars (\$20,000) in anticipation of taxes of the present and current year and payable therefrom. To do or act th reon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this third day of December, in the year of our Lord one thousand nine hundred and four.

Patrick J. Sullivan,
Lucius H. Maynard,
Arthur J. Coughlan,
Selectmen of Maynard.

Middlesex, SS.

Maynard, Dec. 3, 1904.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said town, seven days before the time of holding said meeting as within directed.

William Jones,
Constable of Maynard.

A true copy, Attest:

Charles H. Persons,
Town Clerk.

Proceedings of Town Meeting Held Dec. 12, 1904.

Pursuant to town meeting warrant No. 154 the voters of Maynard assembled in Co-operative Hall on the above date and acted on the articles contained in the warrant as follows:

Article 1. Arthur J. Coughlan was elected Moderator by ballot, the check list being used.

Art. 2. Voted that the matter be referred to the Cemetery Commissioners, to report at the next town meeting.

Art. 3. Voted unanimously that for the purpose of procuring a temporary loan to and for the use of the Town of Maynard, in anticipation of the taxes of the present municipal year, the Town Treasurer is hereby authorized and directed to borrow, from time to time with the approval of a majority of the Board of Selectmen, a sum or sums not exceeding in the aggregate twenty thousand dollars (\$20,000) and to execute and deliver the note or notes of the Town therefor, payable within one year from the time the loan is made, any debt or debts secured by a loan or loans to the Town under this note, shall be paid from the said taxes of the present municipal year.

Voted to adjourn at 8.10 o'clock p. m.

Attest:

Charles H. Persons,
Town Clerk.

Public Park

The land devoted by the town for the purposes of park and recreation has been during the past year the resort of a large number of young and old, who evidently find there the enjoyment and benefit that nature and out-door exercise are capable of giving.

The underbrush has been cut away, making it possible to walk among the trees, and seats have been erected at convenient places about the grounds.

The section of the park devoted to a play ground is in fairly good condition, yet there are portions of it that are rough and need some treatment.

To prevent considerable wild growth among the trees, to do some necessary grading, and to keep the grounds in good condition we ask the Town for an appropriation of one hundred and twenty-five dollars.

Appended please find statement of account for 1904.

Appropriation,	\$250 00
Expended :

Report of the Board of Health

It is very gratifying to be able to report that no epidemic has prevailed during the past year, and very few cases of contagious diseases of any kind. The following are the cases reported to the Board:

Scarlet fever,	3 cases
Typhoid fever,	3 cases
Diphtheria,	1 case
Measles,	1 case

The general health of the inhabitants of the Town seems to have been good.

On June 18th complaint was received against one Nazaire Contois for exposing for sale decayed and tainted meats. The Board caused his arrest, and he was brought before Judge Keyes on June the 20th and fined one hundred dollars.

Respectfully submitted,

HOWARD HAMBLEN, M. D.,
ALBERT BATLEY,
JOHN MacPHERSON.

Report of Trustees Public Library.

YEAR ENDING MARCH 1, '05.

In submitting this report we again desire the attention of the citizens to the appropriation of the dog tax. As a matter of fact as the By-Laws now stand we cannot overdraw our account, neither can we avail ourselves of the full amount of the moneys from dog tax.

For instance the amount (\$299.25) the past year was not paid over to the Town Treasurer until Jany. 31st, '05. You can readily see that we are handicapped thereby to a great extent and in our opinion this matter should be adjusted in some way to enable the Trustees to avail themselves of such appropriation. The balance which may be standing is not brought forward to the credit of the library, but is passed over to the credit of overlays.

The circulation indicates an appreciation of our library. The books and library are in good condition.

Books in stock last year, 4,359

Report of the Board of Fire Engineers

Board of Selectmen.

Gentlemen: Herewith we submit our annual report of the expenditures of the Fire Department. Although our town has enjoyed a remarkable immunity from disastrous fires, we have had experience enough to prove the wisdom of the voters in granting the necessary funds for such improvements as have been installed.

The quick hitch and the early arrival of the hose wagon at a number of incipient fires has without doubt saved us from what might have developed into dangerous and expensive occasions.

On account of the age and general poor condition of a number of lengths of our hose we recommend the purchase of an additional supply. Our high water pressure renders it absolutely essential that our hose should be in good condition, and as a great deal of our present supply was purchased twelve or thirteen years ago and deteriorates even when not in frequent use, it is apparent that something should be done in this matter. We suggest that a limited amount, say 500 feet be provided for every three or four years.

During the year we have added to our equipment a pung for the hose company's use, which has demonstrated its value during the past winter.

The financial year ending Jan. 31st being one of eleven months only, we have managed by economy to close the year and keep within the appropriation. As the coming year will be of the regular length we recommend an appropriation of \$2,000 for maintenance.

Committee on Numbering Houses

To the Board of Selectmen:

The committee on numbering houses, appointed at the April 1904 town meeting, hereby submits to you the following report:

The number of streets numbered and renumbered are as follows:

Main St.,	99 houses
Pine St.,	13
Harriman Court,	9
Nason St.,	38
Summer St.,	40
Sudbury St.,	34
Parker St.,	28
Pleasant St.,	12
Linden St.,	6
Front St.,	1
Maple St.,	13
Brooks St.,	12
Concord St.,	23
Acton St.,	41
Prospect Court,	6

Making a total of 375 houses

We are aware that some of the work, through a slight misunderstanding, is not as it should be—we refer to the great difference in numbers on opposite sides of the streets—and we would recommend that these defects, wherever they occur, be rectified.

We would further recommend that an appropriation of fifty dollars be made for the continuation of this work. We think the

above amount will finish numbering the remaining streets, and also rectify the defects mentioned above.

Appropriation,	\$100 00
Expenditures:	
J. F. Mullin, 58 10-12 doz. numbers at \$1.25,	\$73 54
J. F. Mullin, labor, 875 doors at 10c,	37 50

	\$111 04
American Woolen Co., credit 10½ doz. at \$1.25,	12 61

	\$98 43

Committee on Revising System of Town Accounts

Maynard, Feb. 1st, 1905.

To the Board of Selectmen:

The Committee appointed at the April 1904 town meeting for the purpose of revising the system of Town accounts and putting the same into effect, hereby makes the following report:

Revision and changes have been made in the following departments: Treasurer, Tax Collector, Water Department, Selectmen, and Overseer of the Poor, and we feel justified in stating that after almost one year from its adoption, each department is fully satisfied with the results attained thereby.

The Auditors are now responsible for the maintenance of the system, and if any deviation from the course as laid down is discovered by them, it is their duty to see that the same is rectified at once.

Appropriation, \$200 00

Expenditures:

Tax Collector's Report

Maynard, Feb. 14th, 1905.

To the Board of Selectmen:

With this, I hand you my report for the year ending February 1st, 1905.

We have the past year succeeded in clearing up the back taxes of the years 1901 and 1902.

The amounts abated by the Assessors comprise unlocated poll taxes and a small amount of personal property which was not available, the stock having been sold out or changed hands, and the original owners having left town.

It was my purpose to have abated what taxes cannot be obtained for the year 1903. This was the year that the poll tax list ran greatly in excess of what was really in existence, brought about by a great deal of moving, some parties being, in quite a number of instances, assessed twice; also the duplicating of a majority of the Polish element, by making a second call with an interpreter by the Assessors.

The Assessors deem it advisable, before abating these taxes to wait another year; but the conditions, nevertheless, will remain the same so far as collecting is concerned. The total amount outstanding on the above year is \$1,833.48; about \$410.00 of this amount is available, and the balance will have to be abated, due to the causes named above.

The tax for the year 1904 was the largest assessment in the history of the town, and the amount uncollected is much smaller

than in any previous year. Certain conditions have been the means of bringing this about. A great number of our streets have been numbered, which has been of inestimable value in locating a large number of poll tax payers who probably had no intention of voluntarily paying their tax. I hope the town will see fit to make a further appropriation this year for the continuance of this work, so that each and every house will bear a number according to the street on which it is located.

Over 80 per cent of the flat poll taxes has been collected. Almost all of the others have been hunted up and the reason for non-payment recorded on the stub of the bill. There are yet some that may be collected, so that I think it may be safe to state that 85 per cent of the flat poll taxes for 1904 will be collected.

While the change in the by-laws may have had some effect, it did not bring about the desired results I had anticipated. We must understand, however, that in working under a new law, it will take a year or two to become accustomed to the same. I am firmly of the opinion that all taxes should be paid by December 31st of the current year, and according to the by-law issue should then be made between the delinquent and the Collector for payment of same, providing there are no differences between the payee and the Assessors.

The amount of labor involved which a Collector is called upon to do, providing he does his duty, is greatly in excess of what it has been in previous years, and I find on looking over the situation that the town of Maynard pays less to its Collector for the amount charged to him for collection, than any town I have been able to learn of. I mention this fact not for myself, but that the town may see fit to raise the standard of the office so that in subsequent years it may be an inducement for men of proper capabilities to stand for election to the same.

Citing the matter from a Collector's standpoint, I believe the proper method would be to pay on a basis of percentage. Almost every live energetic town adopts this system, and I think it is the

only true one. It is an incentive for the Collector to bestir himself, for by that means only, in so far as he collects, will he receive remuneration for his labors.

1901.

REMARKS.

The new system of bookkeeping installed by the Auditors, has proved very satisfactory, as you can see by the cash balances, in all except two cases, where it was impossible to control. The overdraw of the interest account is explained in this way, one party paying their taxes so very late caused the town to borrow \$40,000.00 instead of \$20,000.00 as heretofore, but the tax collector received interest to more than offset the overdraw, which only shows in his account. Also the fact of the shortage of money last year threw the last six months interest on the school notes into this year, making 18 months interest to pay this year.

While this report shows some of the work done by the Treasurer it must be remembered that this is only one of the 12 reports he issues each year. While the system is very satisfactory to all concerned, it must be taken into consideration the amount of extra work it causes the Treasurer, for he must at all times be on the watch for departments running short and prevent an overdraw.

I recommend that the matter of raising the salary be taken into consideration by the Committee on Appropriations or a similar committee appointed for the purpose.

Signed,

GEO. H. GUTTTERIDGE,

Treasurer.

Report of Cemetery Committee

The plan of keeping a man employed continuously throughout the summer months in and about the cemetery grounds has been continued another year with satisfactory results to your committee. Much of his time is used in mowing lots in the growing season, of which fifty were cared for the past summer.

Since the building known as the hearse house was appropriated for pest house purposes we have felt an urgent need for a place where implements and materials used about the grounds could be safely stored. We, therefore, decided to purchase a building owned by Geo. H. Hart for the sum of fifty dollars, (\$50). The same was moved to the grounds at a cost of \$31.80.

This building, 16x24 ft., is nearly new, and fully meets the requirements of the cemetery for this purpose.

Improvements in the line of grading a portion of the avenues in the new section of the yard is desired in order that the lots there may be made accessible to would-be purchasers, as that part of the cemetery will soon be needed for burial purposes. Our financial report shows a balance of \$42.90 on hand as against \$186.32 on hand one year ago. Your committee therefore ask, in order that these improvements may be made this year, that the sum of one hundred and fifty dollars be appropriated for the purpose.

SIXTEENTH ANNUAL REPORT

OF THE

WATER COMMISSIONERS

OF THE

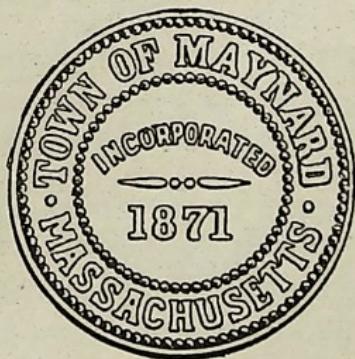

TOWN OF MAYNARD

Massachusetts

TOGETHER WITH THE REPORTS OF THE SUPERINTENDENT
OF WATER WORKS AND TRUSTEES OF
WATER SINKING FUNDS.

FOR THE YEAR ENDING FEBRUARY 1

1905

NEWS PUBLISHING COMPANY, PRINTERS

HUDSON, MASS.

1905

Report of Water Commissioners

The annual report of the Water Commissioners is herewith submitted.

The report of the superintendent practically covers the details of the condition and working of the system.

The condition of the conduct line from the pumping station to White pond, of which so much has been said in previous reports, has caused no trouble this year, but the fact remains and should be borne in mind, that this line is far from being what it should be, and some provision made to prepare for making it more secure.

The meters which have been installed, of which the superintendent makes note of in his report, are giving entire satisfaction, and plainly prove that a thoroughly metered system is of greater advantage than the previous flat rate.

A new scale of rates to meet the requirements of the increased use of meters is in preparation and as soon as it can be arranged, printed copies will be distributed throughout the town.

On September 1st, Mr. George Hart resigned as superintendent and Mr. Paul Wilson, an experienced mechanic and competent engineer was appointed in his place. Mr. Wilson, who at the time was a member of the water board immediately resigned from the board, and accepted the superintendent's position.

Acting on the recommendation of the town auditors an entire new system of book-keeping has been established.

The clerk of the water board has entire charge of all books and also performs the duties of water registrar.

ROBERT W. CARTER,
B. J. COUGHLIN,
Water Commissioners.

Superintendent's Report

To the Board of Water Commissioners.

Gentlemen: The following report for the year ending January 31st, 1905, is respectfully submitted.

The extensions of mains are as follows:

Street	No. feet	Size of pipe	Cost
Chandler	200	6 in.	
	414	4 in.	\$501 30
Fairfield	360	4 in.	315 00
Great Road	996	6 in.	
	504	4 in.	1,081 57
Florida Road	285	1 $\frac{1}{4}$ in.	65 88
Summer, Bent's lane	213	1 $\frac{1}{2}$ in.	54 39

There has been a few leaks in the mains and services, repaired at small cost.

Two hydrants were added during the year, one on Chandler St. and one on Great Road opposite Mr. Phillips', making the number 80 town hydrants.

There has been 23 service pipes added, making the total number 714.

The service pipes on Sudbury and Front Streets, also Pine Apple Point have been relaid at the expense of the American Woolen Co.

There is at times great difficulty in locating the service gate boxes. These will be relocated and recorded as soon as the weather permits.

There has been 276 new meters installed during the year, the number now in use being 417.

The reservoir has been pointed inside with cement, also the base of the shield on top.

The plant at the pumping station is in good condition, with the exception of the receiving well, the bottom of which should be re-concreted.

It will be noticed during the last year there has been a decrease in the pumpage of 27,835,657 gallons. This decrease is due in some measure to the installation of meters and some to the stoppage of leaks.

The pumping station has been painted, also the roof of gate house at White pond.

The season just passed has been an exceptionally dry one, but the supply of water has been ample for the town's needs.

PAUL WILSON,
Superintendent.

PUMPING RECORD.

Month	Coal	Gallons	Daily Average
February	53,387	11,358,441	391,670
March	55,114	11,640,483	375,499

B. J. COUGHLIN.

Water Registrar.

Inspection Report

To Town of Maynard,

Maynard, Mass.

This certifies that your steam boilers located at pumping station were externally examined on the 10th day of January, 1905. The safety-valves worked freely and were loaded to 90 lbs. per sq. in. The steam-gauges were correct, pressure observed 80 lbs. The gauge-cocks were clear, other attachments in good working order. General condition, care and management, good.

C. E. Roberts,
Manager.

Boston, Mass., Jan. 14th, 1905.

The Hartford Steam Boiler Inspection and Insurance Company make the following report of the condition of your Steam Boiler inspected on the 7th day of Sept., 1904, by Inspector L. H. Holbrook.

H. T. Boiler No. 2, Pumping Station.

Internally:—The inner parts show no corrosion or deterioration of note. These parts were free from scale or deposit. The openings to connections were free. The braces were sound and taut, and fusible-plug was in good condition. The feed pipe was properly suspended and clear.

Externally:—The fire surfaces show no bulges or fractures. The

tube ends and seams show no evidence of leaks. Appliances and fittings were in good working order and repair. The brickwork was in good condition. The bridgewall we note is of the circular pattern; we would advise having this wall laid up straight, as at present the heat is localized on extreme bottom of boiler.

Yours respectfully,

C. E. Roberts,
Manager.

Boston, Mass., Sept. 8th, 1904.

Town of Maynard, Mass.

COMMONWEALTH OF MASSACHUSETTS. ---- State Board of Health.

Report of Overseers of Poor

To the Citizens of Maynard:

The annual report of the Overseers of the Poor for the year ending Jan. 31, 1905, is herewith submitted. The year that has closed has proved with us to be one of unusual prosperity; few disturbances have occurred in business circles and more regular and steady has been the employment furnished. It is a noteworthy fact that calls for aid have not increased, although the advance in price of supplies and fuel has made the cost of living much greater than heretofore; this shows an improvement in the condition of families who depend upon this department for assistance, and a willingness on their part to provide for themselves. Few persons understand what is required of those who received aid, they thinking that it can be provided for them by some friend making application, not knowing that a complete history of every case must be taken, in order to determine the settlement, and to place the expense upon the city or town where the persons belong. No one has a right to pauperize persons unless at their request and no aid can be given without an application by the persons needing the aid.

We find that aid sparingly given to applicants has a tendency to make them self-supporting, while on the other hand if too freely bestowed, fosters within them a spirit of idleness and dependence. A careful investigation has been made of the needs of the families applying for assistance by visiting them at their homes, and we have endeavored in all cases to relieve their wants in a prompt and careful manner.

THE ALMSHOUSE.

This institution has maintained the high degree of excellence

that has always characterized it, and under the efficient management of Mr. and Mrs. A. O. Dunham it has proved a place of refuge to the poor and destitute. On the part of matron constant watchfulness and attention is required, as some of the inmates are aged, feeble and infirm. We again urge the necessity of two bath rooms and the almshouse should be painted.

OUT DOOR POOR.

Paid G. Frank Cutting for rent for Mrs.

Belcher,	\$25 00

Auditor's Report

Maynard, Mass., Mar. 1st, 1905.

To the Board of Selectmen:

We herewith submit our report as Auditors of the town of Maynard for the year ending Feb. 1st, 1905.

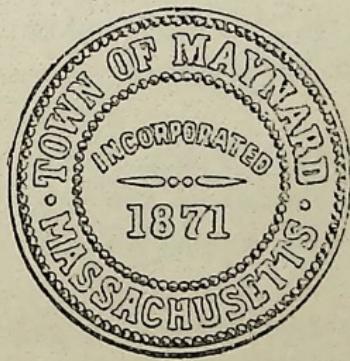

The following accounts have been audited and found correct: Cemetery Committee, Trustees of Public Library, Park Committee, Fire Engineers, Overseers of Poor, School Committee, Water Commissioners, Board of Selectmen, Water Sinking Fund, Registrar of Water Works, Tax Collector and Treasurer.

The new system of book-keeping which has been installed the past year has proved very satisfactory and will be more so as the officers become more fully acquainted with this method. Under this system the treasurer sends out monthly statements to each department and the secretary of each department should compare same with his books and if any errors are discovered they should be corrected at once.

We have suggested slight changes in the method of keeping some accounts which if adhered to will make the present system still more efficient.

WM. NAYLOR,
SIDNEY E. McCLEARY,
Auditors.

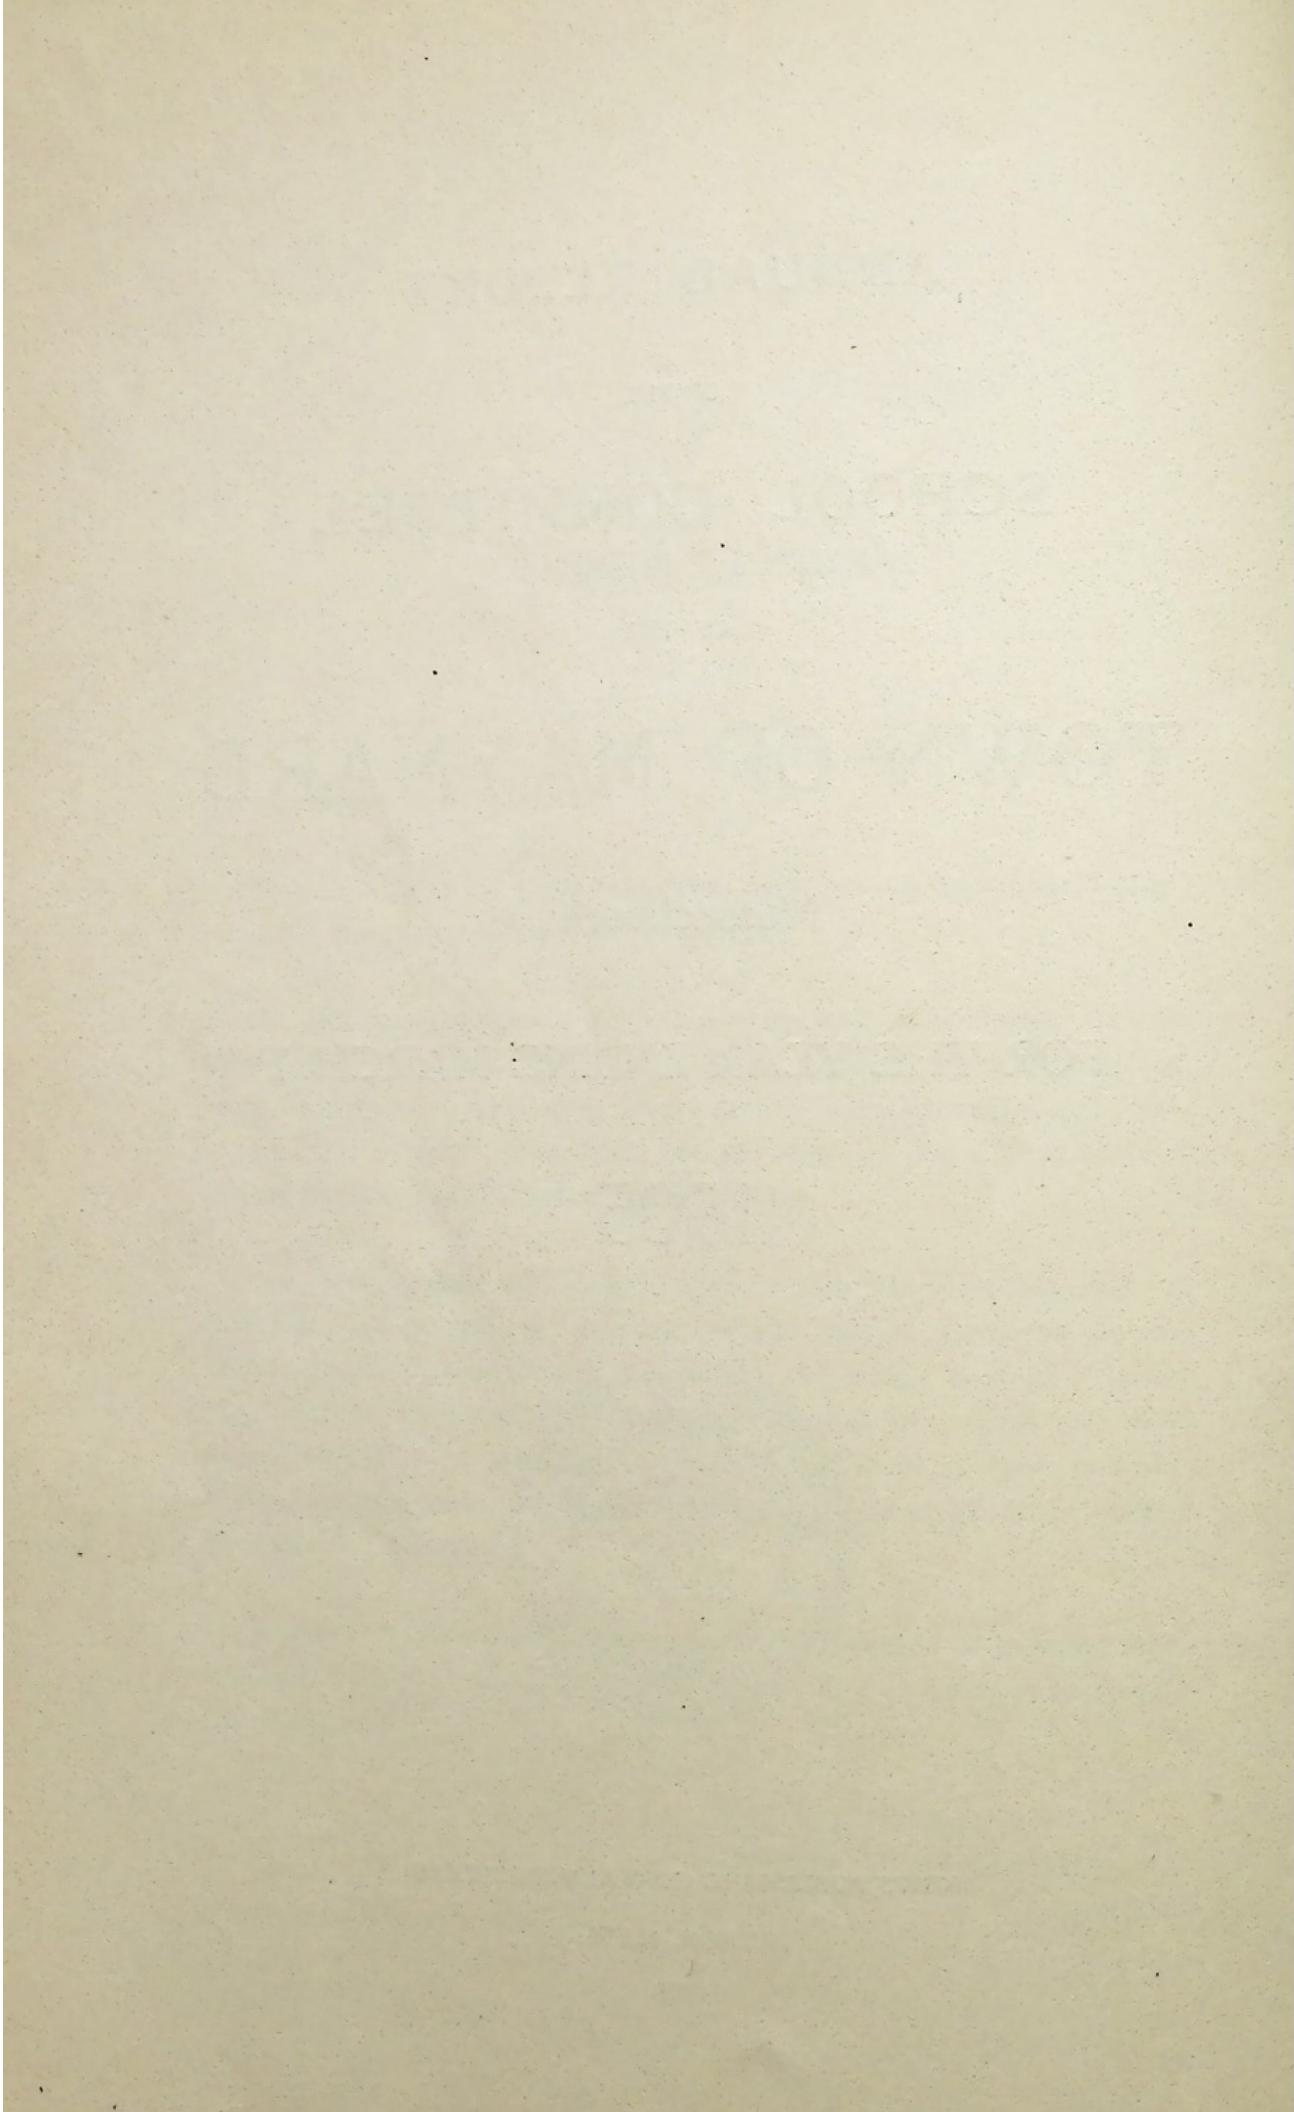

ANNUAL REPORT
OF THE
SCHOOL COMMITTEE
OF THE
TOWN OF MAYNARD
Massachusetts
FOR THE YEAR ENDING MARCH 1
1905

NEWS PUBLISHING COMPANY, PRINTERS

HUDSON, MASS.

1905

Report of School Committee.

To the Citizens of Maynard:

In the reports of the Superintendent of Schools, of the Principal of the High School, of the Supervisor of Music and of the Supervisor of Drawing, all of which are printed herewith for your information, most of the important facts in connection with the conduct of this department during the past year, are given in detail. The financial report of the department is also printed herewith and shows a small balance unexpended which is due to the fact that the financial year closed this year one month earlier than in previous years. This change was brought about by the adoption last April, by the town, of a new code of By-Laws.

REPAIRS AND ALTERATIONS.

The work of the Committee along this line during the past year is spoken of in detail by the Superintendent, but there are several suggestions which the Committee believe should be called to the attention of the town at this time.

1. During the coming year the roof of the Nason Street building should be shingled and while this is doing the roof should be strengthened in order that the School Hall may be safe for all school purposes.

2. The room on the third floor of this building, now used as a chemical laboratory should be enlarged and some arrangement made whereby it can be lighted in a manner more satisfactory than at present.

3. The exterior of this building needs painting and the Committee believe this should be done during the coming summer vacation.

4. At the Main Street building the walks and driveways should be concreted and the ideas of the building committee in regard to beautifying the grounds surrounding the building should be, at least in part, carried out.

TEACHERS' SALARIES.

There has been for some time a feeling on the part of the entire Committee and many of the citizens of the town that the salaries paid to teachers employed were inadequate for the preparation required and the services performed. In view of that fact it was decided to adopt the following plan. Beginning with September 1, 1905, the salaries of Grade teachers, other than principals of buildings, shall be subject to the following three provisions:

FIRST. The maximum yearly salary of such teachers shall be five hundred dollars.

SECOND. When the salary of such teacher as fixed at election, is less than the maximum, it shall be increased by a twenty-five dollar addition for each year's service after said September 1, 1905, until the maximum is reached.

THIRD. The salary of all such teachers who are now employed in our schools, and who continue to teach in them after September 1, 1905, shall be four hundred and fifty dollars for the school year 1905-1906.

FOURTH. Beginning September 1, 1905, the maximum salary of High School Assistants, other than submasters shall be five hundred and fifty dollars.

FIFTH. When the salary of a High School Assistant as fixed at election is less than the maximum it shall be increased by a twenty-five dollar addition for each year's service until the maximum is reached.

SIXTH. The salary of High School Assistants who are now teaching in the High School and who continue to teach after September 1, 1905, shall be five hundred and twenty-five dollars for the school year 1905-1906.

SCHOOL ACCOMODATIONS.

Again at this time, as in our last report, we call the attention of the town to the crowded condition of our schools. The Committee feel impressed with the fact that something should be done at once with this matter. Among others, perhaps the two best ways of removing the difficulty are:

1. Build a new four room High School building.
2. Build a new eight room grade building, and use the upper floor of the Nason Street building for a High School.

Inasmuch as our past experience has taught us that it takes from two to four years to prepare for, build and equip a new school building, the Committee earnestly recommend that a carefully chosen Committee be appointed at the March town meeting to consider the solution of this problem.

NO SCHOOL SIGNAL.

The Committee have made arrangements with the Fire Engineers and with the American Woolen Company for the blowing of the fire whistle for a "No School Signal;" the code as determined upon is affixed to the report of the Superintendent of Schools.

APPROPRIATION.

In view of the repairs contemplated and the advance in teachers' salaries, we recommend that an appropriation of eighteen thousand five hundred dollars be made for the support of Schools for the coming year.

Committee.

Report of Superintendent of Schools.

To the School Committee of Maynard, Gentlemen:

I submit herewith my third annual report as Superintendent of Schools.

TEACHERS.

The changes taking place in the teaching force during the past year have been less frequent than the preceding year. During the spring term, Miss Nellie Moriarty resigned as teacher of the seventh grade and Miss Margueretta Conway was elected to that position. During the summer vacation various changes were made to fill vacancies caused by resignation. Miss Genie Fletcher was given the first grade taught by Miss Sullivan, and Miss Mabelle Sawyer, the first grade taught by Miss Findeisen; the latter having been transferred to the third grade at the Main Street School in place of Miss Higgins. Miss Lucelia Crockett was given grade two in place of Miss Hoadley, Miss Mary White grade four in place of Miss Pettigrew, and Miss Edith Rockwell grade five in place of Miss Knowlton.

At the beginning of the fall term the science work of the High school was put under special instruction, and Miss Angie Allbee was elected to take charge of that department. At the close of the fall term Miss Allbee resigned. The time had now arrived when it seemed advisable to the School Committee and the Superintendent to add another man to the teaching corps; accordingly Mr. Edwin P. Laskey, a graduate of Dartmouth College, was elected to teach science and art as submaster of the High School. With an improved course of study and a teaching force of five, each one especially

trained for his, or her, department, I believe our High School is capable of furnishing instruction equal to that given in the majority of the High Schools of the State, and that the sending of children out of town for their schooling becomes a matter of sentiment rather than a necessity, looked at from an educational standpoint.

Quality instead of quantity is the standard by which teachers and schools are measured today, and the value of a teacher's services is thus summed up by Mr. Stetson, State Superintendent of Maine:

"The value of what a teacher does depends on what she is, her personality teaches more than her words. Unless she helps to develop in the children worthy motives and ennobling ideals she fails. The desire to be useful is worth more than glib recitations; the thirst for knowledge is more to be coveted than high ranks; a love for the best in literature and art is more fruitful than class honors—and the wish to do right because it is right is more blessed than fantastic diplomas. The work of the school is to give such instruction, furnish such stimulus, and form such habits as will help the child to be prompt to do justice and be alert in responding to the best within him. The motive that moves and the principles that govern him must come spontaneously from an honest heart."

The above high standard can only be accomplished by the co-operation of the home, the school, and the community in general. Such a co-operation seems to be already taking definite shape; hence the formation of a Woman's Club, a Civic Club, and a High School reception to parents. All of these organizations have sprung into existence during the past year, and by them each one will come to know more about the work of the other, and will be better prepared for his own work. It is only by conference and concert of action that the best work can be done by the individual and the best things accomplished for all.

EQUIPMENT.

The addition of a special science teacher to the High School force necessitated the furnishing of an extra recitation room. A part of the vacant space in the attic of the Nason Street School building was used for this purpose, and a room was made capable

of accommodating from twenty to twenty-five pupils. A separate system of heating had to be installed, but by using the heater in the basement, formerly discarded on account of its size, the expense of so doing was greatly reduced. Instead of furnishing this room with desks it was thought better to substitute two long tables, and have the classes conducted in a round table fashion. The above plan was less expensive, and it also makes the room a fairly good drawing studio for high school pupils. During the summer the Superintendent's office was renovated by tinting the walls, painting the woodwork, placing moulding around the ceiling, and by adding electric lights, office chairs, a table, and a revolving coat-rack. The office now has a new and fresh appearance, and is much appreciated by the present incumbent.

The dark corridors of the Nason Street building were made lighter by kalsomining the walls a pure white, while the uncleanly soap-stone sinks were removed, and a white enamelled bowl, fitted with nickel faucets, placed on each floor. Twenty-five adjustable desks and chairs were added to the ninth grade room, and desks and tables supplied to rooms not already so furnished. Moulding has been placed around each room, thereby doing away with the necessity of boring holes in the walls for the purpose of hanging pictures.

An American flag of standard bunting, suitably mounted, has been placed in each room, and the pupils of each class are to be taught the salute to the flag as an act tending to produce respect and reverence for our national emblem "and the republic for which it stands."

During the spring term the pupils of the Nason Street School, under the direction of Miss Stratton, gave an operetta for two nights in the assembly hall, which netted a sum of between ninety and one hundred dollars. A small amount of this sum was appropriated for placing a couch in the teachers' room to be used in case of sickness. The remainder was spent in purchasing books. One hundred ten books were bought and distributed among the various grades. To this number have been added others from the regular school fund, so that now each teacher has the foundation of a school library suited to her grade.

Four Webster's International Dictionaries have been purchased and placed in rooms where they would give the most efficient service. A line of supplementary reading in history and literature is being gradually introduced so that each pupil may have access to a suitable amount of first-class reading material adapted to his age.

The Main Street School, though practically a new building, has come in for its share of decoration. The walls, which were left white, became soiled very easily, accordingly during the holidays the halls and rooms on each floor were tinted, and while the colors were not exactly as selected, the appearance has been greatly improved. The addition of a few pictures, or casts, would make this building up-to-date in every sense of the word. Already a cast of "Aurora" has been placed in the first grade room by Miss Alice Nagle, and thus one bare wall has been adorned by a noted work of art. At present every school room in town is occupied with a class sufficiently large for one teacher to instruct. At the beginning of another year there promises to be an over-crowding in some places.

There are now 90 pupils attending the high school and the ninth grade and the seating capacity of these two rooms is 103. There is a class of seven to graduate, and 41 to enter, making a total of 124 for 103 seats. Grade eight has a seating capacity of 48, and a promise of about 60 pupils to enter. Grade seven has a seating capacity of 48 and a promise of 68 pupils to enter; grade three, a seating capacity of 100 and a promise of about 118 to enter. This large number is due to the fact that we now have three second grades to be promoted into two third grades. Present conditions indicate a need of more school room another year, or the necessity of running some classes on half time. The latter method is used in some places as a temporary relief, but does not give entire satisfaction.

SUBJECTS TAUGHT.

Considerable attention during the past year has been given to penmanship, especially in the matter of movement exercises. Children have been given from ten to fifteen minutes daily drill on these exercises, the aim being to have pupils acquire a free use of

the forearm rather than imitate a set copy. Only a sufficient amount of copying has been done to get the forms of the letters and relieve the monotony of a continuous drill. The above plan, where it has been thoroughly understood and conscientiously followed, has produced considerable improvement.

The reading in general is poor, a large foreign population attributes somewhat to this, but the chief difficulty seems to me to be that children have been allowed to carelessly read words without giving sufficient attention to the thought, or the expression. Another reason is that two or three different systems of reading are taught in the lower grades. Beginning with the next entering class, one system will be used in the first three grades.

The Werner Arithmetics have now been placed in all grades from the third to the eighth, and the instruction given in that subject follows the spiral plan as laid down in these books.

Suggestive outlines in geography and physiology have been given to each teacher. A copy of "Hodges Nature Study and Life" also a copy of "Geography in the Horace Mann Schools" has been placed in each room. The aim is to have in time not only a reference library for the pupils, but also one for the teacher that will aid her in preparing lessons on the various subjects she is required to teach.

At the beginning of the fall term the drawing for the first time was placed under special supervision, and Miss Mary J. Stickney was elected for that position. The advantage of the above change is already apparent. The work performed in drawing is a credit to both teachers and pupils, and the spirit existing between teachers and supervisor is indicative of the best results. Now that drawing and music have been placed under special supervision there is no reason why the schools of Maynard should not compare favorably with other towns having similar instruction.

MEDICAL INSPECTION.

The old education had to do chiefly with the mental development of the child. The new education has to do with the mental, the moral, and the physical development of the child, and consequently

must to a certain extent engage in philanthropic work. There are children in school that need medical advice and treatment, and the statement that this subject should be left entirely to the parents does not help matters. In a neighboring city, a short time ago, it was found that twenty-eight percent of the school children had defective eyesight, and thirteen percent defective hearing. If the same percent proved to be true here, it would mean that about two hundred of our children are thus afflicted in regard to eyesight and one hundred in regard to hearing. In some of the larger cities and towns a thorough examination is made of each child on entering school, then the physician visits the schools each month and to him are referred all cases requiring special attention. I believe some similar arrangement would be of great benefit to the children of Maynard.

ATTENDANCE.

Two years ago the following plan was adopted for looking after children remaining away from school: A card is filled out every morning for each pupil absent from school about whom no reliable information can be obtained. These cards are signed by the principal and sent to the office and delivered to the truant officer. This plan rigidly enforced by an excellent officer has nearly eliminated the question of truancy from the schools of Maynard.

The number of tardy marks and the number of days absent has been considerably larger the past year than the previous year. A report card is sent to the parents each month giving the child's standing in regard to conduct, effort, number days absent, number of times tardy, and number of times dismissed. I urge that the parents give this part of the report their careful consideration. Prompt attendance, prompt obedience, and honest effort, are essentials in character making, and are the foundations for obtaining good marks in the various studies pursued. Parents would also confer a favor on the teachers by sending a written excuse each time the child is absent or tardy, and thereby do away with the necessity of having an officer call at the house.

SPECIAL REPORTS.

The reports of the Principal of the High School, the Supervisor of Music, and the Supervisor of Drawing are appended, followed by the various school statistics. I urge that these reports be given a careful consideration as they represent the ideas and suggestions of those who have been especially trained for their different departments.

In closing this report I am aware that only an outline has been given of what the schools have done, or attempted to do, during the past year.

The details must be left unsaid, but whatever good has been accomplished is due to the faithful, conscientious efforts of the teachers, the unanimous support of the School Committee, and the confidence of the community.

Respectfully submitted,

JOHN C. MACKIN,
Superintendent of Schools.

Jan. 31, 1905.

Report of the Principal of the High School.

To the Superintendent of Schools:

I herewith present for your consideration the annual report of the High School of Maynard for the year ending January 31, 1905.

The past year has not been marked by any radical changes in the High School. Rather have the teachers applied themselves to the realization of plans made in previous years. Practically for the first time in three years there are four classes in the High School, which is crowded to its capacity. In order that teachers might do justice to the increased number of subjects, an extra teacher was secured, who has especial supervision over the science work. However, the ninth grade and High School are especially hampered by not having sufficient accommodations. In September our enrollment was 98. Almost 50 pupils were obliged to assemble and occupy seats in each room. Every 35 minutes it is necessary for 30 of these pupils to leave and enter the room, in order to go to the rooms in which their next recitations are held, or to return to their seats, their recitations having been concluded. Theoretically it would be best if each teacher could be placed in charge of a large room in which some pupils are reciting and others are studying. With the present number of pupils such a plan would hardly be feasible. But even now the pupils should be seated in three different rooms instead of in two; and in case of an increase of 25 percent in attendance, four rooms would be needed. These rooms should be close together. With wider aisles and fewer seats as a result, pupils would find their surroundings more conducive to a concentration of their minds upon their studies. Each teacher would thus be responsible for her class, for her room and for those who study therein. At present, because

teachers may not be in each room more than once a day, there can be but little fixing of responsibility, aside from that of the recitation.

Through the generosity of Mr. Charles H. Persons, a silver cup was presented to the two literary societies of the High School, with the condition that the cups should be the trophy for a year of the society which should win in a public contest, such contests to be held each year for a number of years. The first contest was held last spring, and thanks to the zeal of the contestants, the interest created by the gift of the cup and the appreciation shown by the people of the town, it was a success. In these contests pupils may acquire the confidence that will aid them to speak in public at a future time when an ability to respond if called upon, may be of value to them.

An admission fee was charged to this contest and with the proceeds two pictures have just been purchased for the school room. This marks what we hope will be the beginning of a continuous policy of school-room decoration. For the past 20 years men and women prominent in educational circles have been placing in the school rooms copies in plaster of the great statues and reliefs, and reproductions of the great pictures, so that today the High Schools of the first and second rank without these copies are the exceptions. In the High School of one of the large cities of Massachusetts, for example, \$1500 has been set aside to pay for a single mural painting. The majority of schools, however, that have no large amounts of money at their disposal, must content themselves with reproductions of the great paintings, either in bromide, in photogravure, or at best in carbon. Many schools have made mistakes in buying pictures too small for school-room use, and have been obliged to change with considerable expense. Usually the funds necessary for the purchase of these pictures, are acquired by popular subscription, by gifts from graduating classes or from alumni and by entertainments given from time to time by the schools.

This year for the first time the science department has been organized under a special teacher. Miss Angie Albee having resigned the position at Christmas, this department was placed under the supervision of a sub-master, Mr. Philip Laskey; and by the end

of the year we believe that the work will have made a very creditable showing. The present physics and chemistry laboratory is small and dark. A large light room with more apparatus is needed. If a new school building could be erected of which four rooms could at once be set aside for the High School and ninth grade, and the other rooms occupied by the higher grades, most of the unfavorable conditions of the present building could be abolished.

In the ninth grade a new system of teaching book-keeping has been introduced. According to the new system, pupils actually handle cash, merchandise, make out bills, compute discount and interest, handle the various forms of business paper, etc. This course in book-keeping may be made introductory to a regular commercial course, in case one is introduced.

The teachers of the High School and ninth grade feel the necessity of a more intimate acquaintance with parents in order to secure the best interests of the pupils. The majority of pupils who drop out of school are those from homes where there is little personal contact between parents and teachers. Occasionally teachers find an opportunity to call upon the parents, but it must be remembered that the schools themselves make such heavy demands upon the teacher's time that the opportunities for house to house visitation are very few. Some teachers are at the building every school day afternoon except Friday and at such times would be very glad to see parents and friends of the school. In this connection should be mentioned the reception which the High School teaching corps, assisted by some of the pupils, gave to the parents and pupils last fall. By means of this reception, teachers met, often for the first time, parents from the homes of more than two-thirds the children in their charge, and it is hoped that the acquaintance thus formed will lead to a closer relationship between the school and the home.

In conclusion I would thank you and the committee for your support, and the teachers for their loyalty and co-operation, without which there can be little progress.

Respectfully submitted,

C. EUGENE KLISE.

Report of the Supervisor of Music.

To the Superintendent of Schools:

I present my second annual report as supervisor of music in the Maynard public schools.

In my report last year, I stated what the objects of school music education should be. With these objects in view, and the desire to attain them, the work has been planned and carried on and the results in many respects are all that could be desired.

In the children's voices, and in the concert singing of songs, a delightful change has been brought about. Instead of singing with the objectionable harsh and forced chest quality of tone, they are being trained to use the easier and much sweeter head register, particularly among the boys many of whom are surprised to learn that they possess such a voice.

We have abolished all books and charts from the first three grades, finding in the use of the individual exercise slips, the black-board and written work by the children, all the material necessary for instruction in reading. The songs in these grades are taught by rote, and a more select variety can be learned and much better, without having the books in the children's hands, also giving the teacher better opportunity to pay attention to voice production.

Through all the grades, the necessity of individual instruction is being urged as of the utmost importance. If music is to be employed as an educational factor and not merely for recreation, and if pupils are not to forget how to read music as soon as they leave school, it must be treated as other subjects are treated, and taught individually, as well as class-wise. This perhaps requires a little more exer-

tion on the part of the regular teachers, but I am pleased to say, that the disposition to make the extra effort has not been found wanting and the individual training is receiving increased attention.

At the same time, and in conjunction with the necessary mechanical drill, proper attention is given to the class-singing of songs. The many beautiful selections found in the music readers are supplemented by others, selected with the idea "that the best is only just good enough." I was greatly pleased to notice, on going into the school rooms the other day, that each room had been provided with a beautiful American flag, and to sing our patriotic songs with the emblem before us is of itself an inspiration.

There is much yet to be done to perfect the system in use, but taking everything into consideration, the instruction of music in the schools is in a very satisfactory condition, and the progress made during the year is very apparent.

The system of marking the monthly report cards in music is not as yet satisfactorily arranged, but will be soon. I feel also that with the knowledge of the principles of music which the pupils in the future will have as they advance to the High School, that a mere forty-minute period once a week for music will not suffice, and to finish their school musical education, a period will have to be provided, allowing time for such branches as elementary harmony and musical analysis.

The teachers, by their co-operation and zeal have made possible the success that has been attained, and I express my thanks to them and to the superintendent for the support and sympathy which I have received.

Respectfully submitted,

ROBERT W. CARTER,
Supervisor of Music.

Report of the Supervisor of Drawing.

To the Superintendent of Schools:

The word "drawing" itself implies the representation of things by different mediums. But this word applied to the school work has a much broader meaning.

It does not mean that the aim is to create artists of the boys and girls, for there are few that become such. It is simply a means to an end through which we are striving for the cultivation of taste.

In representing form and color a child is training his eye and hand and at the same time learning to appreciate the beauty around him in nature, in art and in every day life.

Mademoiselle LeCamp says: "It is by the worship of the beautiful in all its forms that a child gets a great and generous soul, a free mind open to all large thought."

Not having had drawing in the Maynard schools previous to this year, it has been necessary to keep the work very simple, the direct aim being to establish a foundation from which the work can steadily grow and branch out in its different directions.

The work is divided into three distinct phases, the pictorial, the structural and the decorative. The work thus far has been principally pictorial representative, that is drawing and painting plant and vegetable growth. An important part of this phase of the work is the study of color. It was briefly touched upon in the fall and will be studied more thoroughly in the spring. Object drawing and mechanical drawing comprise the work for the winter term, for the spring term plant and bird life. It is from this nature work that

ideas are obtained for work in design which is the decorative phase of drawing.

In the High School the work in the Freshman and Sophomore classes has been very similar to the plan of work in the ninth grade, owing to lack of previous training. In the mechanical class, of Juniors and Seniors, the course has been simple geometrical problems, working drawings of type forms, later the work will be in projection and simple machine drawing.

By the assistance of the teachers and the enthusiastic efforts of the children the work in drawing has progressed very favorably.

I wish to extend my hearty thanks to the Superintendent and the teachers for their interest shown in the work, also the school committee.

Respectfully submitted,

MARY J. STICKNEY,

January 20, 1905.

Town Warrant.

Commonwealth of Massachusetts, Middlesex, SS.

To either constables of the Town of Maynard, in said County,
Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said town, on Monday, the thirteenth day of March next, at 8 a. m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose by the Australian system of balloting the following town officers: one Town Clerk, one Town Treasurer, one Collector of Taxes, one Selectman for three years, one Overseer of Poor for three years, one member of the Board of Health for three years, one Water Commissioner for three years, one member of the School Committee for three years, one Assessor for three years, one Trustee of the Public Library for three years, one Tree Warden for one year, two auditors for one year, three constables for one year, one cemetery committee for three years, and all town officers to be chosen at said meeting.

Also to answer by the said Australian system of balloting the following question: Shall license for the sale of intoxicating liquors be granted in this town.

For the purposes specified in this article the polls will be opened after the election of a Moderator and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determine.

Art. 3. To hear and act upon the reports of Town Officers and Committees.

Art. 4. To see if the Town will appoint a Committee to consider appropriations for the ensuing year and report at the April meeting. To do or act thereon.

Art. 5. To see if the Town will authorize the Treasurer, under the direction of the Selectmen, to borrow from time to time during the municipal year, beginning Feb. 1, 1905, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the town, but not exceeding the total tax levy for said year (which exceeds \$50,000.00) giving the notes of the town in payment thereof payable in one year from the dates thereof. All debts incurred under authority of this vote shall be paid from the taxes of the present municipal year. To do or act thereon.

Art. 6. To see if the Town will vote to change the name of Thompson Court to Thompson avenue. To do or act thereon.

Art. 7. To open the culvert on Thompson Street about 150 feet north of Thompson Court as it originally was when Thompson Street was accepted. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen at or before the time appointed for holding said meeting.

Given under our hands this second day of March, in the year of our Lord, one thousand nine hundred and five.

PATRICK J. SULLIVAN,
LUCIUS H. MAYNARD,
ARTHUR J. COUGHLAN,
Selectmen of Maynard.
