**Ava Sirvio:** Late night drives with Faith, my friends TC, NH, AG, CH, VC, HJ, LC, Disney 2017, Six Flags, track meets, Friday night football, Patriots parade 2019, 8th grade History with Ms. Sullivan, decorating our wall for spirit week, apples to apples, tech nights for theater, Drew Seely, embarrassing Faith

A person is holding a large, plain brown cardboard box in front of a building. The person's hand and part of their black sleeve are visible on the left side of the box. In the background, a red car is parked, and a grey traffic light is visible in the lower-left foreground. The scene is outdoors, likely on a street or parking area.

## SCHOOL REIMAGINED

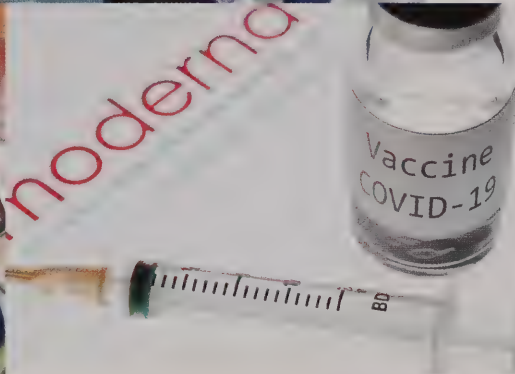

The story of this school year really starts in March 2020. As news of COVID-19's arrival in the U.S. spreads, schools close and "virtual learning" begins. At first, the closings are temporary, but as COVID-19 cases increase, most schools shut down for the rest of the year. Teachers must find ways to educate students and schools find ways to support community needs without meeting in person.

President Trump encourages states to send children back to school full time in the fall, but as COVID-19 outbreaks continue, school districts choose between "distance learning" (students at home all the time), "hybrid learning" (students in school some days and at home other days), or full time in-person learning. Changing virus statistics and state policies lead to a patchwork of on-off school sessions and activities around the U.S.

## COVID-19 VOCABULARY

**CURBSIDE PICKUP:** avoiding entering stores or restaurants. **DRIVE-THROUGH TESTING:** COVID-19 testing sites with as little personal contact as possible. **FLATTEN THE CURVE:** slowing the spread over time. **MASKING:** wearing a cloth or surgical face mask covering mouth and nose. **PPE:** Personal Protective Equipment like masks and latex gloves. **SHELTERING AT HOME:** staying at home except for necessary errands or exercise. **SOCIAL DISTANCING:** staying at least 6 feet away from others. **SUPERSPREADER:** gatherings that result in numerous cases.

### NO HUGGING GRANDMA

Grandparents and other older relatives are at higher risk of serious COVID-19 effects, so families work hard to keep them safe by staying away. This proves a hardship for everyone, especially on holidays and special occasions. FaceTime, Zoom and Skype allow relatives to at least talk face-to-face when they cannot be together and help lessen feelings of isolation and loneliness.

### VACCINES DEVELOPED

Over 140 possible COVID-19 vaccines are in development by December 2020, the shortest vaccine development timeline in history. The first two to get U.S. approval use the COVID-19 genome to create messenger RNA (mRNA), leading host cells to create COVID-19 spike proteins and the resulting antibodies. Vaccinations start in December.

### CITIZENS DELIVER PPE

As the number of COVID-19 cases rises dramatically in Washington state, New York City and New Jersey, hospital staffers and nursing home workers face shortages of Personal Protective Equipment (PPE). State governments struggle to meet the needs of healthcare professionals, and ordinary Americans rush to help.

# COVID-

## A NEW KIND OF DANCE

With school dances cancelled due to school closures and COVID-19 concerns, teens find other ways to celebrate, such as formal-wear photo shoots and mini homecoming dances at their homes.

## DRIVE-BY PARTIES

Across North America, people take to their vehicles to connect and celebrate without violating social distancing rules. Drive-by baby showers, birthday celebrations and even graduations become the norm.

## QUARANTINE COMPANIONS

Dog and cat adoptions increase dramatically, probably a result of families and individuals spending more time at home. In many states, animal shelters actually run out of adoptable pets.

## THANK YOU ESSENTIAL WORKERS

Stay-at-home orders did not apply to "essential" or "front-line" workers who include teachers, medical personnel, firefighters, utilities workers, law enforcement officers, military personnel, meat packers, farm workers, grocery employees, and countless others.

In New York City, residents show their appreciation for health care workers by applauding every evening. "Thank you" signs appear throughout the country.

# 2019

## SPACE X LIFTOFF

In the first NASA partnership with a private corporation, Elon Musk's Space X company, the first astronauts head to the International Space Station. Lifting off in Space X's "Crew Dragon," U.S. astronauts go into orbit on a U.S.-built rocket for the first time in nine years. They will spend six months in space, joining another NASA astronaut and two Russian cosmonauts.

## TITLE VII LAWSUIT

The U.S. Women's National Soccer Team's claim that their working conditions are not equal to those of the U.S. Men's Team leads to a settlement in their favor. U.S. Soccer agrees to provide both teams with comparable charter flights and hotel accommodations, along with staffing numbers.

## MAIL-IN VOTING

Despite COVID-19 restrictions, a record number of people vote in November, as states allow more early voting or voting by absentee ballot. Counting absentee ballots delays election results for days, leading some to challenge the results and demand state recounts. Eventually, all 50 states certify election results and Joe Biden is declared the official winner of the presidential election.

# HEADLINE

## VIRAL VIDEO PROMPTS PROTESTS

Citizens protest after the posting of a video of Minneapolis, MN resident George Floyd's death while in police custody. The video goes viral, prompting protests in cities across the United States, Canada and the globe, including England, Germany, Denmark, New Zealand and Japan, among others.

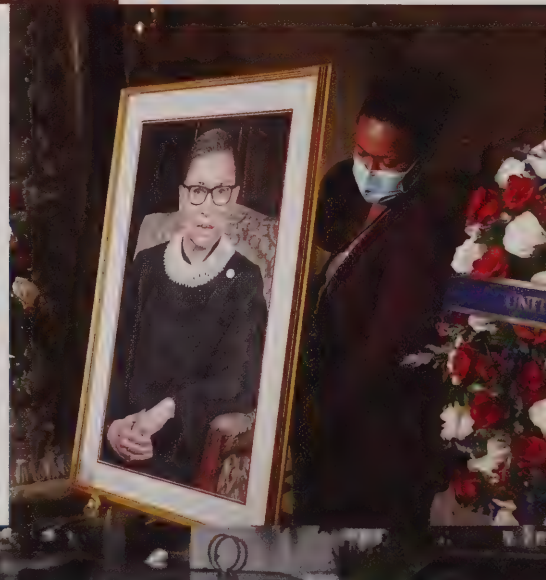

## SUPREME WOMEN

Supreme Court Justice Ruth Bader Ginsburg, path-breaking Associate Justice of the U.S. Supreme Court, dies of cancer in September. Ginsburg, one of nine women entering Harvard Law School in 1966, argued six landmark gender discrimination cases. President Trump nominates Amy Coney Barrett to replace Ginsburg, making her the 5th female associate justice.

## OLYMPICS POSTPONED

The Tokyo Summer Olympics are postponed until 2021, but that is good news for young athletes such as gymnast Konnor McClain, who was too young to compete in the 2020 games but will turn 16 in time to compete in 2021. This is the first time that the Olympics have been postponed since WWII.

## ALPHABET OF STORMS

The November formation of Tropical Storm Theta, the 29th tropical storm of the 2020 season, makes the Atlantic storm season the most active on record. The predetermined list of 21 names based on the Roman alphabet ends with "Wilfred" on September 18th. Although hurricane names have gone into the Greek alphabet before, "Theta" marks the first time storm naming delves that far into the secondary alphabet list.

## FIRES RAGE

The United States experiences a record-setting wildfire season. According to the National Interagency Fire Center, over 10 million acres burn in 2020, fueled by record heat combined with tropical storm-related thunderstorms pushing into the West.
