REPORT OF THE BOARD OF SELECTMEN

To the Citizens of Maynard:-

Board of Selectmen respectfully submit for your consideration its report together with the reports of the other Town Officers and Committees.

The Town Accountant's report will give in detail the financial transactions of the Town. A study of that report will be of value to all taxpayers.

The report of the W. P. A. Committee will explain the work of the W. P. A. during the year. Much of this work was sponsored by the Board of Selectmen.

During the past year the Town retirement system was put into effect and several Town employees of long service were retired. Mr. Edward V. Kelley, was appointed Superintendent of Streets to fill the vacancy due to the retirement of Mr. John J. Driscoll. Mr. Kelley was an employee of the local department for many years and makes a capable Superintendent.

Working conditions have improved greatly during the past six months resulting in a very considerable reduction in relief costs. We are still faced with a problem of lack of employment for older men. The Soldiers' Relief appropriation was not reduced as greatly as was the Public Welfare, in fact, we have unpaid bills carried over to 1941 due to our mistaken expectation that demands on this department would lessen. Increased demands by our local industry had led us to believe that we would be able to place certain veterans receiving aid at work. Lack of cooperation from the employment office of the local mill, however, made it necessary to continue their support by the town.

During the year the Selectmen appointed a Committee composed of the fire engineers, members from the finance committee and others to consider a proposed plan of relocation of the Fire Station and Town House. This matter is still under consideration.

The traffic regulations have been put into effect and result in greatly lessened traffic hazards. We believe that the businessmen of the town who benefit most from parking places should cooperate in securing more of them.

A live progressive town will become a better town in many ways. It will develop greater community spirit which will lead to definite improvements. The incentive toward progress must come from the citizens themselves. We need a group of towns people organized for the purpose of progress. The following problems that we see could be more easily solved by the assistance of an interested group.

Christmas lighting should not be confined to just the Town Building and Memorial Park. It would help much to our community spirit and attract many visitors if we would extend the lighting at least through the business section.

An attempt should be made to advertise our town to attract more home builders. We still have some sections of the town that would provide attractive home sites and the building would improve the valuation of the town. Maynard is well located, on several numbered routes, providing ease of travel in every direction.

Success in our campaign for new industries could be more easily realized with the help of an interested committee. We would be interested in helping to form such a community organization.

The Town Treasurer's report show \$67,000.00 on hand January 1, 1941, the largest favorable balance for many years. This is very encouraging as it should make it unnecessary to borrow money during the year in anticipation of taxes.

During the early part of the year an employment survey was made and a listing of people and the trades at which they could work. This survey was made in connection with an attempt by the Selectmen to secure new industries for Maynard. The Board has been in communication with officials of the American Woolen Company and have been assured of their cooperation and informed that there were several buildings at the local factory which would be available to non-competitive industries. Several trips were made by the Board to investigate in other Towns which had succeeded in securing new industries, notably the Town of Ware. We have learned considerable from these trips in regards to work in this direction in these places. Toward the middle of the year employment improved to such an extent that the need for new industries became less pressing. We are continuing to work and plan in this direction, as it would be of great benefit for the Town to have additional places of employment available.

The tennis courts completed at Alumni Field have become so popular that some arrangement should be made for regulation and supervision of these courts and also the courts at Crowe Park which are completed except for the back stops. In view of the investment in these courts it is only logical that we should try and secure as much value as possible from them. Supervision is necessary in order that proper time is allotted that would enable all to play who wish to do so.

In keeping with our plan to increase service to the town at as little cost as possible, we have been able with the cooperation of the Welfare Department to remodel the storage building at

Great Road into a temporary garage for the Highway Department. The Highway Department now does its own repairing and that for other departments and provides other services at considerable savings. The installation of a gas tank at this location has enabled all departments to purchase gas at a saving. We are having plans made for a garage building to be built by W. P. A. which when built will make possible increase service and more savings.

In conclusion, we wish to thank the Town Officers and Committees for their very fine cooperation this year. To the townspeople may we ask you to pause a moment and give thanks that this is America and continue to cooperate with your elected officials as you have during the past year in making Maynard a better place in which to live.

Respectfully submitted,

DONALD A. LENT
WALTER A. CHESLAK
ALTON W. SIMS

WALTER A. CHESLAK,
Selectmen.

REPORT OF W. P. A. COMMITTEE

To the Citizens of Maynard:-

The report of the W. P. A. Committee for the year ending December 31, 1940, is herewith submitted.

The W. P. A. Committee as in previous years is composed of the Chairman of the following Town Boards: Selectmen, Water, Sewer, Health, Cemetery, Finance Committee, Welfare Board and Mr. James A. Coughlan of the Citizens Committee.

During the year, the peak load of W. P. A. cases was reached in July. Since that time, there has been a decline in W. P. A. cases and at the present time there are approximately 75 workers on W. P. A. Increased employment because of the defense program is the main factor responsible for this decrease over 1939.

Through the W. P. A. the Town of Maynard, profited greatly in 1940, both in civic improvements resulting from completed projects and W. P. A. wages reducing the cost of Soldiers' Relief and Welfare cases.

As in previous years the W. P. A. with the cooperation received from abutters of property owners we were able to continue with the construction of cement sidewalks in various sections of the Town. With the aid of relief projects, 240,000 square feet of sidewalks were constructed in Maynard.

The Sewer Department with the aid of W. P. A. labor has extended our sewer system over 750 feet. These extensions were laid to serve property owners that were outside of our present sewerage system.

Storm drains have been installed on the following streets: Concord, Tremont, Brown, Lincoln, Charles, Brooks, Florida Road, and Warren Avenue. These drains were laid to take care of surface water that previously ran under private properties causing considerable damage during the spring thaw.

The Welfare Department with the aid of W. P. A. has operated a sewing unit at the Roosevelt School. Fifteen women have been steadily employed on this project. The large quantity of excellent garments produced by these women were distributed to the needy through the Federal Division of Surplus Commodities.

Continuing with the policy of replacing the trees lost during the hurricane the Tree Warden with a W. P. A. project has planted approximately 520 additional trees. Shade trees in the residential section were trimmed, shaped and cabled. Wood received from this project was distributed to the needy by the Welfare Department.

A W. P. A. moth project reduced the number of gypsy moth egg clusters and tent caterpillars.

The Water Department with the aid of a W. P. A. project has replaced small water mains with larger pipes on Acton Street.

The earnings received by Maynard workers from W. P. A. during 1940 was \$61,274.79.

The Town Accountant's report will show the expenditures of the Town's money on various projects.

In conclusion, we wish to express our appreciation for the willing cooperation we have received from the various Town Departments during the past year.

Respectfully submitted,

JAMES A. COUGHLAN,
GAVIN TAYLOR,
DONALD A. LENT,
LESTER COWLES,
ERNEST JOHNSON,
JOSHUA NAYLOR,
ALTON SIMS,
WALTER DENNISTON.

REPORT OF JOHN A. CROWE PARK SUPERINTENDENT

To the Board of Selectmen:-

I herewith submit my annual report as Superintendent of John A. Crowe Park for the year ending December 31, 1940.

The past year the grandstand has been repaired and painted by the N. Y. A. The band stand has been completed with lavatories and showers installed underneath.

Two tennis courts are complete except the back stops that will be erected in the spring.

Respectfully submitted,

JOHN C. BRAYDEN,
Superintendent.

REPORT OF SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:-

I herewith submit my first annual report as Superintendent of Streets, for the year ending December 31, 1940. In the performance of my duties I have had the assistance of your Honorable Board and the cooperation of the department employees.

GARAGE

One of my first duties after being appointed Superintendent of Streets was to locate a garage for the storage of the Highway equipment. The garage of Mr. John Zaniewski was rented while we were renovating at very little cost the so-called, "storage pit", at the corner of Great Road and Parker Street. This building has been repaired and at the present time we are able to store all the highway equipment under one roof. This garage is a temporary arrangement and it is my desire that a municipal garage will be erected in the future. A gas and oil pump was installed and all the various Town Departments purchase gas and oil from these pumps at a great saving.

MECHANIC

During the year a mechanic was employed by the Street Department. This mechanic is stationed at the Town garage and his duties consist of gasing, oiling, repairing town equipment and sharpening tools. Every Town department which has motorized equipment has used the services of our mechanic during the year at a saving to their department.

MAINTENANCE OF STREETS

In the business section during the spring the streets were flushed with the fire hose in order to keep down sand dust from blowing into the stores.

As recommended by the State Department of Public Works this year the department has repaired over 8,056 square yards of streets by the mixed in place method. This method consists of mixing thoroughly the road for a depth of five inches. Then two gallons of tar is applied for every square yard of material and mixed. Instead of having one-half inch of hard road surface when the road is shaped and tarred we have five inches of hard road surfaced by this method. The streets repaired by this method were Park, Sherman, River, Pleasant and a section of Puffer Road. This method is proving very satisfactory and we plan to continue with it next year.

Approximately 40,000 square yards of streets were scarified, shaped and tarred. These streets were Elmwood, West, Pomciticut, Marlboro, High, Front, Mill, Railroad, Concord, Puffer and

Florida Roads, Butler, O'Moore, Espie, Sheridan Avenues and Maple Court.

SNOW

It has been my policy during the past year to start plowing when the storm first starts and keep plowing until the storm ends. This policy in my opinion has proven to be a saving to the Town. Storm reports relative to street safety are received at various intervals at the Highway Office by calling Forecast 2424. These reports have been found to be very helpful. Every street and sidewalk are sanded when required for the safety of travel.

Beginning with December 20, 1940, an agreement was secured from the State Department of Public Works whereby the State pay half the cost of removing the snow from Great Road, route number 117. I have applied to the state for a similar agreement to pay half the cost of removing the snow from the other numbered routes that go through Maynard.

Emergency sand barrels with shovel have been placed in various sections of the Town. Residents are requested to make use of sand when conditions are dangerous, thus preventing accidents.

In the budget for 1941 a sand loader and an additional tractor sidewalk plow is requested. When called out in the early morning for sanding the men are required to load our trucks by hand. With a sand loader this work would be accomplished faster and greater economy for the Town. During the past year numerous complaints were received regarding the sidewalks that were plowed by the horse plow. With practically every street in Maynard having a four foot cement sidewalk an additional tractor sidewalk plow would be sufficient to keep every sidewalk plowed during the winter months.

CHAPTER 90

The following work was accomplished with Chapter 90 Maintenance money this year.

On Powdermill Road we laid 130 linear feet of pipe and installed two catch basins.

On Haynes Street we laid 110 linear feet of pipe and one catch basin.

Waltham and Acton Street was a mixed in place project, on this project we mixed 7,174 square yards of material. These two streets are now in excellent condition.

The shoulders on Great Road from the Stow line to Ben Smith Bridge and the shoulders on Parker Street from Walnut Street to Great Road were shaped and tarred.

All cable guard rails along numbered routes received two coats of paint.

No Chapter 90 Construction funds were received this year. In our budget for 1941 Chapter 90 Construction from Maynard

Country Club on Brown Street to Taylor Garage on Acton Street is planned. For 1942 it is planned to rebuild Main Street from Summer Street to Great Road.

FENCE

A cyclone fence of 450 linear feet was erected on the west side of Sudbury and Percival Streets along the pond, replacing a wooden fence. This was a much needed improvement. In 1941 we are planning to erect a similar fence on the east side of Sudbury Street along the pond.

ELMWOOD STREET

The construction of Elmwood Street previously estimated to cost \$46,828.00 was completed this year. After blasting 150 cubic yards of ledge, hauling in 900 cubic yards of gravel, applying 2,000 gallons of tar this street has been transformed from an impassable street to a modern macadam street at a cost less than \$2,000.00. The W. P. A. also built 1,700 linear feet of cement sidewalk on this street. After the construction of this street many residents improved their property accordingly.

At a special town meeting it was voted to remove the traffic hazard on Summer Hill Road by cutting from one to nine feet off the hill in front of the Sullivan property. This work has been completed. In the spring we plan to widen Summer Hill Road from Summer Street as relocated by the County Commissioners and erect a retaining wall along the property of Mr. Merrick.

COLLECTION OF WASTE PAPER

The practice of collecting waste paper from the stores in the business section on Saturdays was inaugurated this year. This practice has been received favorably by the businessmen of Maynard. This work was done in cooperation with the Fire Department to reduce fire hazards, as well as to prevent blowing of papers into streets, this gives our main streets a neater appearance on Sundays.

DRAINAGE

Storm drains were laid on Bent Avenue, 75 linear feet, Glendale Street, 20 linear feet and one catch basin installed on Arthur Street. All catch basins were cleaned and all pipe lines were flushed in the spring and fall. W. P. A. storm drains installed during the year were installed under supervision of the Street Department.

SIDEWALKS

Tar sidewalks were laid on Powdermill Road, 4,200 square feet; Florida Road, 3,900 square feet; Main Street, 1,400 square feet; Glendale Street, 1,800 square feet and Acton Street 600

square feet. On Powdermill Road in addition to laying a new sidewalk we resurfaced 10,000 square feet of old sidewalk.

Curbing was raised on Percival and Sudbury Streets in order to construct a W. P. A. cement sidewalk.

The W. P. A. continued laying cement sidewalks in various sections of the Town. This project has proven a worth while project.

PRIVATE STREETS

Walcott and Garfield Avenues, private ways, which were badly in need of repairs were repaired by this Department. The abutters on these Avenues reimbursed the Town for the cost of work done. Said reimbursement may be found in the Town Accountant's report.

WORK FOR 1941

Beginning in 1941 modern street signs will be placed on thirty streets each year until all streets are properly designated. This work will take about three years.

In my budget I have listed the streets that will be repaired during 1941.

The Town Accountant's report will show a detailed account of the expenditures of this Department.

In conclusion I wish to thank the various Town Officials, appointed and elected, for the assistance they gave me during the past year and to express my appreciation to the citizens of the town for their kind works of appreciation of my efforts.

Respectfully submitted,

EDWARD V. KELLEY,
Superintendent.

REPORT OF INSPECTOR OF ANIMALS

To the Honorable Board of Selectmen:

I herewith submit my report for the year 1940.

I inspected 28 barns, 379 cattle and 318 swine.

Quarantined 7 dogs on suspicion of rabies and released same after 14 days.

Respectfully submitted,

JOSIAH M. HERRICK,
Inspector.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:
Gentlemen:

I herewith submit my report as Sealer of Weights and Measures of the year 1940.

In submitting this report, wish to state that at the close of the year all weighing devices and measures in the town are in good condition, in accordance with the law, also that I have received excellent cooperation from merchants and all those who come under the requirements of this department.

| | | |
|---|---|--|
| | Sealed | |
| Platform scales over 5,000 lbs. | 3 | |
| Platform scales 100 to 5,000 lbs. | 40 | |

Respectfully submitted,

WILLIAM H. O'BRIEN,
Sealer of Weights and Measures.

REPORT OF FIRE DEPARTMENT

The Honorable Board of Selectmen:
Gentlemen:

The report of the Fire Department for the year ending December 31, 1940, is herewith submitted:

BUILDING

Headquarters Nason Street, housing Engine I, Ladder I, Combination I, also the Fire Alarm System.

APPARATUS

In service: One Pumping Engine equipped with a 150 gallon Booster Tank, 250 feet of Booster Hose, 1000 feet of two and one-half inch Hose, 200 feet of one and one-half inch Hose, one 34 foot extension ladder, one 16 foot roof ladder, one Mystery nozzle for oil or gasoline fires, searchlights, one C. O. 2 Fire Extinguisher, one Foamite Extinguisher, one Soda and Acid Extinguisher, 2 ten foot lengths of suction hose, one stretcher, one salvage cover, and minor tools for extinguishing fires.

One Combination Wagon, with one 28 foot ladder, one 14 foot roof ladder, 1300 feet of two and one-half inch hose, blankets and salvage covers.

One 60 foot Aerial Ladder Truck equipped with 240 feet of ground ladders, one Eastman Ladder Gun, a Porter Life Net, one 50 foot length of three inch hose, 100 feet of one and one-half inch hose, 900 feet of two and one-half inch hose, two pitch forks, two shovels, four pike poles, one 20 ton hydraulic jack, six salvage covers, 150 feet of Booster Hose, 100 gallon Booster Tank, one Soda and Acid Extinguisher, one Foamite Extinguisher, Door Opener, Hose Clamp, one Inhalator, and one C. O. 2 Extinguisher.

FIRE ALARM SYSTEM

There are 23 Boxes, 8 Phantom Boxes, 17 miles of wire, one Whistling Machine with Steam Whistle, one house tapper, one tape register, 27 Battery Cells and two Rectifiers.

Signals

- 1-1 Test blows at 12.10 P.M. except Sundays and Holidays.
- 2-2-1 Brush Fire Call.
- 1-1 After a fire indicates that the fire is all out.
- 1-1-1-1-1 Legion Call.

Storm Signals for the Schools

- Three blasts for first eight grades, five blasts for entire system. Blown at 7.30 and 12.30.
- Three blasts at 6.30 P. M. for Evening School.

Instructions for Giving Fire Alarms

Alarms should be given from the box nearest the fire. Open the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open a box except in case of fire.

Do not sound an alarm for a chimney fire or brush fire, or fire seen in the distance. Telephone the Fire Station or the Fire Engineers.

(Over)

AN ACT TO PROHIBIT THE DRIVING OF VEHICLES OVER MUNICIPAL FIRE HOSE—1926, Chapter 278

Section 7A. Upon the approach of any fire apparatus which is going to a fire responding to an alarm, every person driving a vehicle on a way shall immediately drive said vehicle as far as possible toward the right-hand curb or side of said way and shall keep the same at a standstill until such fire apparatus has passed. No person shall drive a vehicle over a hose of a fire department without the consent of a member of such department. No person shall drive a vehicle within three hundred feet of any fire apparatus going to a fire or responding to an alarm, nor drive said vehicle, or park or leave the same unattended within six hundred feet of a fire or within the fire-lines established thereat by the fire department. Violation of any provision of this section shall be punished by a fine of not more than twenty-five dollars. (Approved April 28, 1926.)

Remain at box until apparatus arrives.

Investigate your chimneys and keep them clean.

Do not throw lighted cigarettes.

Traffic siren means pull out and stop.

Oil stoves need to be inspected and cleaned frequently.

Drive 300 feet from fire apparatus.

Remain 600 feet from fire.

A permit is required for all open fires.

False alarms are punishable by fine or imprisonment.

How to send an alarm from box: Go to the nearest box, open door, pull lever way down once and let go, then shut door, remain at box and direct firemen to fire.

When calling headquarters by telephone for fire speak calmly and distinctly, giving street, location on street, and name of person calling; this will insure more prompt response by the firemen.

Do not allow rubbish, paper, or any inflammable material to accumulate in or about your property.

Always call the Department before attempting to extinguish a fire yourself.

The Fire Department will be enabled to render better service if these instructions are followed.

Our Financial Statement may be found in the Town Accountant's report.

During the year we have inaugurated a systematic inspection system. The inspections include all places of business, churches, public buildings and schools.

A great many hazards have been corrected, and a large amount of valuable information and knowledge of these buildings has been obtained. This important work was made possible by the addition of a full time chief of department. The permanent men of the department are now given one full day off every five days.

Our Fire loss is larger this year than last as it is given from November 30, 1939, to December 31, 1940, and includes one of the larger fires during this period.

We have replaced our old Indicator with a new and more modern tape register for indicating the number of the box alarms when sounded. The outside Fire Alarm system has been cleared of all tree grounds by the permanent men, and has resulted in a saving to the town. We have also inaugurated a monthly inspection and test of all Fire Alarm boxes.

At this time we suggest that something be done in the future in regard to replacing the 27 year old Combination truck which we now have in service.

Practice sessions were held for the men of the department during the summer months.

Every man in the department has been insured against injury or loss of life, and this was made possible through the

generosity of the public in attending our annual whist party, for which we wish, at this time, to thank sincerely.

All school buildings were visited and inspected, chemicals inspected and recharged. During Fire Prevention week a program was conducted at the schools, and we believe that it will help in the education of the children in Fire Prevention. We wish to thank the Superintendent, Principals and Teachers for the co-operation extended during this work.

We wish to thank the Police and all other Town Departments for the co-operation given us during the year.

We have had a survey of the Town made by the New England Insurance Exchange in regard to obtaining lower insurance rates. We are including the results of this survey in our report so that the citizens may have the opportunity to study the recommendations which follow:

FIRE DEPARTMENT:

That the chief of the department be appointed for an indefinite term, with removal only for cause, and solely responsible for the direction, efficiency and control of the department, subject to the approval of the Board of Selectmen.

That the full paid force be now increased so as to provide for at least one man on duty at all times with each apparatus in active service.

That qualified substitutes be employed to cover vacancies caused by absences of regular men.

That until the department can be operated wholly on full paid basis a supplementary force of callmen be maintained. The force to be arranged to provide a separate organization for each company in service and of such strength as will ensure a dependable response of an officer and 9 men from each company, exclusive of the full paid men.

That early consideration be given to providing more adequate pumping engine capacity. As an initial step an approved combined pumping engine and hose wagon with a pumping capacity rated at 750 gallons per minute be installed.

That the equipment carried on the apparatus be made complete; be of modern type and uniformly distributed. It should include the following where not already provided.

To each pumping engine: axes, modern burst hose jacket, crowbar, door opener, hose shut-off clamp, hose or ladder straps, hydrant hose gate, hydrant wrenches, lanterns or hand electric lamps, two shut-off nozzles with smooth bore tips ranging from $\frac{3}{4}$ -inches to $1\frac{1}{4}$ -inches in diameter, modern playpipe holder, plaster hook, rope, siamese and double hose connections, small tools, smoke and gas protectors, spanners, short ladders including a 24 foot extension and 12 foot roof, two $2\frac{1}{2}$ -gallons extinguishers of soda-acid and foam types and two waterproof covers.

To each ladder truck: axes, auger, bale hooks, brooms, buckets, modern cellar pipe, claw or crowbar, door opener, distributing nozzle, hose hoist, deluge set, forks, lanterns or hand electric lamps, modern life net, life belts, forcible entry such as lock and window breakers and rams, ladder dogs, ladder straps, picks, plaster hooks, rope, roof cutter, saw, maul or sledge, shovels, squeegees, small tools, special nozzles, smoke and gas protectors, surgical kit, marine torches or portable searchlights, wire cutters and rubber gloves, wall hook and chain, two pompier ladders, 2½-gallon extinguishers of soda-acid and foam types and four waterproof covers.

That a program providing for systematic drills and training of the department be adopted; suitable facilities to be provided and arrangements made for their frequent and regular use. These drills to be participated in by all members of the department; to include quick handling of hose and ladders, all appliances, ventilation and salvage work and in life saving. They shall be under the direction of a qualified officer designated as drillmaster, preferably a graduate of a modern drill school.

That fire prevention work be made a part of fire department activities. All members of the department, including full paid officers and men, to make systematic and regular inspections of buildings and premises to acquaint themselves with structural and occupancy conditions, as well as to reduce or eliminate fire hazards. The chief shall have adequate power to enforce all laws and regulations relative to explosives and inflammables. Detailed reports of all fire prevention work to be properly filed.

An approved manually operable transmitting device, located at the point where telephone alarms are received and so connected as to transmit alarms to all circuits having alarm receiving instruments. This device to be under the constant attendance of a competent and responsible person qualified to handle alarms.

That at least one additional box be now installed in the principal mercantile district.

That a separate telephone trunk line be provided at the point where alarms are received and the facilities for adequately handling these alarms are provided; this trunk line to be reserved for fire calls.

BUILDING LAWS:

That a Building Department be established and operated under the supervision of a Building Inspector, appointed under proper qualifications for an indefinite term and having adequate power for a rigid enforcement of the building laws.

That a comprehensive code of building regulations be adopted. This Code shall provide suitable requirements for modern types of construction as applied to fire protection and fire prevention equivalent to or as given in the National Board Building Code.

That definite fire limits be established, to include the principal mercantile and industrial district and also adjoining areas which

form an exposure to the district. Within these fire limits, frame construction or unprotected metal construction, with certain specified exceptions, shall be hereafter prohibited. Construction in general be so regulated as to prevent the development of dangerous conditions.

That the use of other than approved roof coverings, for all new or repaired roofs, be prohibited throughout the municipality.

That complete records be kept of applications received, permits issued, inspections and other pertinent matter.

The carrying out of the Recommendations will permit of a change for Maynard to Fifth Class under the Analytic System of Schedule Rating.

Respectfully submitted,

GEORGE T. PRIEST,
RAYMOND G. CONNORS,
RICHARD ALLAN,
WALTER PRIEST,
Board of Engineers.

FOREST WARDEN

The Honorable Board of Selectmen:
Gentlemen:

The report of the Forest Warden for the year ending December 31, 1940, is herewith submitted.

On hundred thirty-five permits were issued for fires in the open. During the year 16000 feet of hose was laid to combat the forest fires in the wooded sections. The forest fire pump which was assembled by the men of the department has been very satisfactory in forest fire work and has been responsible for a large saving to the town in the expense of extinguishing these fires.

Permits for all fires in the open are required of the Forest Warden and may be obtained at the Fire Station.

Respectfully submitted,

GEORGE T. PRIEST,
Forest Warden.

REPORT OF THE MOTH SUPERINTENDENT

To the Honorable Board of Selectmen:-

I herewith submit my report of the Moth Department for the year 1940.

Weather conditions during the feeding season were very favorable for the Gypsy Moth and as stated in my report for the year 1939 indications were for increases in the woodlands. This was true this past year and heavy defoliation was noted in several sections of woodland area and in some cases spreading to the shade trees.

Generally speaking, the Town shade trees were in good condition as they were carefully creosoted and sprayed. Some spraying was done in the woodland sections but funds were not sufficient to do all the infested areas.

Debris from the hurricane still remain in many wooded areas and afford sheltered places for egg clusters and general breeding areas.

The Town was scouted for brown-tail webs but none were found, however, close watch must be kept as this insect has been found in a number of surrounding Towns.

The tent caterpillar is still prevalent but the removal of wild cherry brush has greatly reduced this pest.

Roadside brush was cut and burned on the following roads: Marlboro, Rockland and Great Road.

In the past it has been possible to secure funds from the W. P. A. through the State Department of Conservation for additional creosoting in the woodlands which has been very beneficial, however, this year due to priority of National Defense programs the W. P. A. would not release any funds for this type of work and because of this I would recommend that additional funds be appropriated, if necessary, to do additional spraying to control the gypsy moth in the woodland areas infested.

In conclusion, may I express my thanks for the cooperation of the following: Board of Selectmen, Mr. James King of the W. P. A. Office, and Mr. F. W. Marshall of the State Department of Conservation during the year 1940.

Respectfully submitted,

JOHN F. CLEARY,
Superintendent.

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen:-

I hereby submit my annual report as Chief of Police for the year ending December 31, 1940.

All complaints received by this Department during the year were investigated and properly disposed of.

PENSION SYSTEM

As suggested in my report for the year 1939 the Town voted to adopt the pension system for Town employees. All employees in this department are now members of this system. Sergeant Nicholas Driscoll a member of the Maynard Police Department for many years was retired with a pension under this system.

PARKING

In Maynard during 1940 there were registered 1917 automobiles and with this number being increased during the coming year the need of additional parking areas are essential to accommodate the people who shop in Maynard. The land in rear of the Halliday Building on Nason Street was gravelled, rolled and lights erected transforming this area into a parking area. This parking area can only accommodate ninety cars. Serious consideration should be given during 1941 to establish additional parking areas.

SAFETY

As provided for in the traffic regulations the Board of Selectmen have designated the following streets to be closed for sliding, namely; Roosevelt, Park, Fairfield, Prospect and Lewis Streets. It is the duty of the parents to instruct their children to slide only on the streets designated by the Board of Selectmen.

With the cooperation received from the Street Department the ten life preservers at the Mill pond and along the Assabet River have been checked each week during the winter months.

TRAFFIC

Safety islands have been erected at the following intersections, Walnut and Main Street, Nason and Main Street and Main and Acton Street. These islands help to regulate the traffic at these intersections. Traffic signs have been erected in various sections of the Town to conform with the traffic regulations as adopted by the Town. Copies of these traffic regulations may be obtained at the Town Clerk's Office or at the Police Station. In the spring white lines will be painted in the Town and safety island will be erected at the intersection of Sudbury Street and Great Road. A rotary traffic island will be erected at the intersection of Great Road and Parker Street.

EQUIPMENT

Grappling irons have been purchased and placed at the Fire Station with the inhalator. These grappling irons replace the irons that have out lived their usefulness. Various other police equipment has been purchased to modernize this Department.

In my budget for 1941 I have requested the purchase of a cruiser to replace our present cruiser. Police officials of various towns have advised that it is economical to trade in for a new car annually.

REPORT OF ARRESTS FOR 1940

Crime vs. Persons

The Town Treasurer has received from the American Woolen Company \$767.01. This reimburses the Town for the money paid by the Town to local police officers guarding their pay rolls.

In conclusion, I wish to express the appreciation and the thanks of the Police Department to the Board of Selectmen, to all other Town Departments who have been of assistance to the Police Department.

Respectfully submitted,

HENRY F. PIECEWICZ,
Chief of Police.

REPORT OF DOG OFFICER

To the Board of Selectmen:-

I, as dog officer of the Town of Maynard, respectfully submit the following report.

During the past year I have notified seventy-two delinquent dog tax owners. Of this number twenty were not dog owners and the rest have been disposed of.

HENRY F. PIECEWICZ,
Dog Officer.

REPORT OF TRUSTEES OF SOLDIERS' MEMORIAL PARK

To the Citizens of Maynard:-

We herewith submit for your approval our annual report as Trustees of the Soldiers' Memorial.

The Trustees desiring to have a beautiful array of blossoms for Memorial Day and some that would with-stand any late frost, selected masses of gorgeous pansies. These were later replaced by a wider variety of plants which would bloom throughout the summer.

The old wooden building in the Summer Street corner of the Park should be removed as it detracts from the appearance of the Park. We have considered various ways to dispose of it. Perhaps a W. P. A. project could be secured to remove the building and beautify the site.

Mr. Cleary and Mr. Rynkiewicz have performed their work faithfully.

Respectfully submitted,

DONALD A. LENT,
ALICE NAGLE,
ALICE BROWN HOWE,
WILLIAM BRINDLEY,
LEO WHITE,
OSWALD DRECHSLER.

REPORT OF THE BOARD OF HEALTH

To the Board of Selectmen:

The Board of Health submits the following report for the year ending December 31, 1940.

The Board has stressed a continuation of its essential, active program in an effort to keep this community in a healthful condition. During the past year, samples of milk were analyzed monthly, and various clinics sponsored by the board have all been vital factors in safeguarding the public health.

The National Youth Administration projects were continued under the Board's sponsorship.

TUBERCULOSIS

Due to the Board's efforts of the past years to conduct clinics and also the x-raying and examination of persons and contacts, the high number of twelve persons hospitalized at sanatoriums has been reduced to five patients. This method has been adopted to allow the person diagnosed early to be given the proper treatment and respond to a normal recovery quickly. National estimates shows that every case hospitalized in the minimal state an average of \$1,000 may be expended before the case is discharged; while for every case hospitalized in the far advanced stage an average expenditure of \$4,000 may be expected.

DIPHTHERIA CLINICS

For the tenth year the Board conducted its annual clinics for the immunization of children against diphtheria, and for as many years has not had a single case reported. However, parents should heed the warning that during the coming months there is to be certain active movements of population in this sector. During this period there is a danger that the diphtheria bacillus may re-enter many of our communities which may have been free temporarily of this dreaded disease. Therefore, every parent should make it their duty to see that every child reaching the age of six months be immunized, at which time a child is most susceptible to diphtheria. Ninety-one children received this protective treatment in 1940.

WELL BABY CLINICS

The appreciation of these semi-monthly baby clinics is attested that more than 600 babies were examined during the past year. This service is conducted every other Thursday afternoon, at which time the various local physicians, alternating at four month intervals, with the help of the public health nurse, are in attendance.

VACCINATION CLINICS

Once again the Board conducted two clinics for vaccination against small pox, at which time 73 children received the protective injection.

SCHOOL DENTAL CLINICS

For the eleventh consecutive year the school dental clinic, so essential to the future of the health of youths, was conducted under the supervision of the School Nurse, Miss Edith Foster.

DOG CLINICS

The Board of Health for its sixth straight year conducted two clinics for the protection of dogs against rabies, under the supervision of Dr. Gerald O'Malley, veterinarian. 217 dogs receiving the protective inoculation against the dreaded rabies at these clinics. The success of these were proven by the fact that not one case of rabies was reported. All dog owners should remember to have their pet immunized once a year.

MILK INSPECTION

The Board continued its collection and analyzation of samples of all milk sold in town. This has been of value and also a protective measure that has met with the approval of all milk dealers and townspeople. Mr. Fred Barrett, State Representative, has rendered service and advice that has enabled milk dealers to produce a high quality of milk. Analysis of all milk samples is made at the Framingham Laboratory.

COMMUNICABLE DISEASES

The number of communicable diseases reported was extremely low for an industrial town.

The following table shows the number and kind of communicable diseases reported during the year 1940.

| | |
|----------------------------|----|
| Chicken Pox..... | 17 |
| Gonorhea | 11 |
| Syphilis..... | 8 |
| Mumps..... | 5 |
| Dog Bite (not rabied)..... | 4 |
| Tuberculosis..... | 2 |

EXPENDITURES

Due to wise economy, which is careful spending with full value for every cent expended, and at the same time giving adequate health protection, the Board of Health returned a balance at the end of the fiscal year of 1940.

The Board is requesting approximatley Three Hundred Dollars (\$300) less in its Health Budget for 1941 than 1940.

However, we cannot always forecast an accurate budget of health for the approaching year. We cannot foresee as to whether there will be an outbreak of communicable diseases classified as dangerous to the public health.

NATIONAL YOUTH ADMINISTRATION

Because of the increase in private business, and the number of boys able to secure employment, the boys project was discontinued last November. However, the boys were able to complete the furnishing of showers and rest rooms in the interior of the bandstand at Crowe Park. These were considered a necessity because of the various events and games that the field is used for. They will be appreciated when the warm months come.

However, while private business was able to take in a number of boys, the girls have found it difficult to secure work. At present there are approximately 50 young ladies between the ages of 17 and 24 years employed on the sewing project at the Calvin Coolidge School. They have been able to produce excellent work. It offers them an opportunity to learn a vocational trade and to improve their own morale. Many of these youths eagerly look forward to their high school graduation, with a feeling that they will be able to help their parents, only to find there is not work. The N. Y. A. while the wages are small, enables them to help their parents in earning their way and to become occupied in a vocational trade of their own. They have been of value in producing garments for our own welfare departments. For the sake of those who need such small financial help and because of its value to the town itself we request the townspeople to keep this worthy project going. The amount of \$6,670.38 from federal funds for payrolls came into this town on the girls projects alone, the past year. This being a ratio of better than 12-1. The Federal Administration has also loaned an electric power sewing machine to the local project. The accomplishments may be told in the following chart of the girls production:

- 25 infants layettes
- 50 childrens outing flannel bloomers
- 50 childrens outing flannel pajamas
- 126 childrens outing flannel sleepers
- 53 ladies smocks
- 75 boys suits
- 62 crib sheets for kindergarten
- 30 burlap cot covers for kindergarten
- 12 coverlets for cots for kindergarten
- 88 ladies nightgowns
- 78 girls dresses
- 16 girls playsuits
- 37 childrens rompers
- 50 childrens sunsuits
- 72 boys overalls

9 girls beach suits
 14 girls aprons
 12 costumes for Memorial Day exercises
 47 mens pajamas
 23 childrens bathrobes
 72 mens suits

In conclusion we wish to state that only the splendid co-operation that has been rendered by the townspeople, town officers, both elective and appointee, has been able to make our work one of freindly nature and also beneficial to the entire community. To all who helped in such cooperation we extend our appreciation.

Respectfully submitted,

LESTER F. COWLES,
 JOHN JOHNSTON,
 JOHN W. SAARELA,
 Board of Health.

ANNUAL REPORT OF THE MAYNARD PUBLIC HEALTH ASSOCIATION

The Association reports with satisfaction the completion of another successful year of Public Health nursing conducted by Miss Mary A. Ward, R.N., whose seventeen years of service with us deserves special mention.

During the year a public meeting in the interest of cancer control was conducted by representatives of the State public health service, and conferences were held relating to tuberculosis, child guidance, and general health conditions of the town.

The popular well baby clinics held twice monthly at the Health Center are too well known and appreciated for further comment.

During the annual vacation the work of Miss Ward was carried on very capably by Mrs. Dorothy Allan.

The Association is glad to call attention to its pleasant relations with the local physicians and the Board of Health, and would welcome suggestions which might improve its service to the townspeople.

Respectfully submitted,

GUYER W. FOWLER,
 President.

ANNUAL REPORT OF NURSE FOR YEAR ENDING
January 1, 1941.

| | |
|-----------------------------------|-------------|
| Number of patients visited..... | 443 |
| Association calls..... | 1234 |
| Metropolitan Insurance calls..... | 463 |
| John Hancock calls..... | 165 |
| Free nursing visits..... | 273 |
| Total..... | <u>2135</u> |

There were 96 cases reported by hospitals.

114 calls from local doctors.

16 home deliveries attended by nurse.

Well Baby Conferences were held twice a month. There were 600 babies seen and mothers advised at these clinics which were attended by a physician and sponsored by the local Board of Health.

Signed,
MARY A. WARD, R.N.

REPORT OF INSPECTOR OF SLAUGHTERING

To the Honorable Board of Health:

I herewith submit my report for the year of 1940.

I inspected and reported on 556 pigs, 99 calves, 17 cattle, 4 sheep for market use.

Yours respectfully,

JOSIAH M. HERRICK,
Inspector.

REPORT OF FINANCE COMMITTEE

January 17, 1941

Board of Selectmen,
Maynard, Mass.

Gentlemen:

We herewith submit to the citizens of the Town the report of the Finance Committee for the year 1940.

Six meetings were held for budget study previous to the annual appropriation meeting. In addition eleven other meetings were held during the year. The practise of holding monthly meetings was started during the year, it being felt that much good would come from regular monthly meetings. These meetings were held on the second Monday of each month, a general discussion being held on Town Finances, in addition to the consideration of any other business that might properly come before the meeting.

Several meetings of the State Association of Town Finance Committees were attended by members of our Committee and it was felt that much good came from attendance at these meetings.

With a continuance of good local business conditions it is reasonable to expect that welfare costs, which have been such a burden in recent years, will be considerably lowered this coming year. This applies also to the cost of W. P. A. as with private industry employing many of those formerly on W. P. A. lists the need for W. P. A. projects will be greatly reduced.

During the year, Mr. Walter Cheslak resigned from our Committee upon being elected Selectman and Mr. Frank Punch was elected to fill the vacancy caused by his resignation.

The following transfers from Finance Committee Reserve were voted during the year:

| | | |
|-------------------------------------|----|----------|
| By-Laws Committee Expense | \$ | 45.86 |
| Fire Department | | 180.00 |
| School Department | | 900.00 |
| Assessors | | 250.00 |
| Tree Warden | | 302.00 |
| Snow Removal | | 1,150.00 |
| Traffic Regulations | | 384.30 |
| Soldiers' Relief | | 900.00 |
| Sewer Maintenance | | 500.00 |

| | |
|-----------------------|-------|
| Soldiers' Relief..... | 19.37 |
| Cemetery..... | 8.60 |

Respectfully submitted,

HOWARD F. KING

Finance Committee,

BOARD OF PUBLIC WELFARE REPORT

To the Citizens of Maynard:

The Board of Public Welfare is pleased to show a further decline in the welfare needs of our citizens for the year 1940. We started the year 1940 with 64 cases on General Relief. For the first six months the number of cases gradually increased to 120. With the upturn in business in our local plants, during the summer months, the number of relief cases gradually dropped and the close of the year found us with 46 cases on General Relief, with an expenditure of \$6,514.81 less than in 1939. With our large number of unemployables and aliens this is as low a case load as we dare hope for in the coming year. Our unexpended balance for 1940 was \$3,534.51. Re-imbursments from other cities and towns and from individuals totaled \$6,876.54.

We are asking for an appropriation of \$5,000.00 less for the year 1941, for General Relief, Administration and Distribution of Surplus Commodities.

OLD AGE ASSISTANCE

On December 31, 1940 there were 106 persons receiving Old Age Assistance, an increase of seven for the year. Seventeen new cases were added and ten cases were closed by death and removals during the year 1940.

| | |
|--|-------------|
| Our unexpended balance for the year was..... | \$ 2,895.69 |
| Our Unexpended Federal Grant for the year was..... | 1,254.19 |

1940 RE-IMBURSEMENTS RECEIVED BY TREASURER

| | |

| U. S. Federal Grants..... | \$ 1,595.38 |
| State Re-imbursments..... | 1,345.87 |

W. P. A. SEWING UNIT

The W. P. A. Sewing Unit sponsored by the Board of Public Welfare is still carrying on in the Roosevelt School. All finished articles of clothing are turned over to the Division of Surplus Commodities and are distributed to the needy by the Division.

DISTRIBUTION OF SURPLUS COMMODITIES

The following amounts of food and clothing surpluses have been received and distributed:

CLOTHING

| | | | |
|------------------------|-----|--------------------------|-----|
| Girls Bloomers..... | 208 | Sheets..... | 187 |
| Womens Bloomers..... | 180 | Mens and Boys Shirts.... | 824 |
| Combinations..... | 169 | Mens and Boys Shorts.... | 627 |
| Girls Dresses..... | 472 | Slips..... | 728 |
| Womens Dresses..... | 279 | Smocks..... | 11 |
| Layettes..... | 28 | Boys Suits..... | 119 |
| Girls Nightgowns..... | 52 | Union Suits..... | 120 |
| Womens Nightgowns.... | 213 | Mens Overalls..... | 116 |
| Mens Night Shirts..... | 13 | Boys Overalls..... | 406 |
| Womens Pajamas..... | 149 | Ch. Pajamas..... | 775 |
| Mens Pajamas..... | 254 | Boys Pants..... | 401 |
| Mens Pants..... | 239 | Baby Blankets..... | 30 |
| | | Cotton Blankets..... | 216 |

FOOD

| | | | |
|-------------------|------------|--------------------|------------|
| Apples..... | 50550 lbs. | Milk—Evap..... | 3120 cans |
| Pea Beans..... | 13400 lbs. | Oranges..... | 20720 lbs. |
| Butter..... | 6600 lbs. | Pears..... | 1680 lbs. |
| Cabbage..... | 22335 lbs. | Potatoes..... | 48400 lbs. |
| Carrots..... | 5310 lbs. | Prunes..... | 12250 lbs. |
| Cereal Wheat..... | 7840 lbs. | Raisins..... | 14375 lbs. |
| Cheese..... | 1120 lbs. | Rice..... | 8400 lbs. |
| Corn Meal..... | 26100 lbs. | Tomatoes—Fresh.... | 12390 lbs. |
| Eggs..... | 12090 Dz. | Lard..... | 19020 lbs. |
| Fish..... | 1505 lbs. | Pork..... | 1428 lbs. |
| Flour, Graham.... | 17860 lbs. | Hams..... | 5997 lbs. |
| Flour, Wheat.... | 48657 lbs. | Bacon..... | 5803 lbs. |
| Grape Fruit..... | 10556 lbs. | Peaches—Fresh..... | 1250 lbs. |

The financial value of food and clothing as compiled by the Surplus Commodities Division is as follows:

| | |
|---------------|--------------|
| Food..... | \$ 24,371.66 |
| Clothing..... | 4,907.60 |
| | <hr/> |
| | \$ 29,279.26 |

The total cost of distribution for 1940 was \$803.11.

The detailed financial statement for the year will be found in the Town Accountant's Report.

Respectfully submitted,

ALTON W. SIMS, Chairman
WILLIAM J. SMITH, Secretary
JAMES M. MCKENZIE

REPORT OF LIBRARY TRUSTEES

To the Citizens of Maynard:

We herewith submit the report of the Librarian and Trustees for the year 1940.

During the year we feel that the Library was not used as much as it should have been by the citizens of the town. We have a large group of young people in and out of the Library most of the time, but we would like to have more of the older people use the Library than they do.

For loans of books we are indebted to the following Libraries: Division of Public Libraries, Boston; Boston, Concord, Hudson, Marlboro, Brookline, Newton, Fitchburg, Springfield, Bowdoin, Bates, Dartmouth, Princeton and Harvard colleges and the University of New Hampshire.

The following have donated books to the Library, for which we express our thanks: Barbara Gibney, Standard Oil Co., will of Luncinda Hallett Galger, Mrs. Elizabeth Malcolm Kopp, Isabella White, thru Mrs. Helen Chase McWalters, Nicholas Murray Butler, Grand Encampment, Veterans of Foreign Wars, Cancer Dept. of Mass., Grand Encampment, G. A. R., Women's Centennial Congress, Mrs. John H. Moynihan and the Pro Parvulis Book Club.

| | |
|---|---------|
| Books in Library Jan. 1, 1940 | 8298 |
| Worn out | 105 |
| Lost | 11 |
| Bought | 372 |
| Gifts | 101 |
| Bound | 251 |
| Borrowed | 318 |
| Circulation | 31,703 |
| Fines | \$43.03 |
| Books in Library Jan. 1, 1941 | 8655 |

Sincerley yours,

MARY E. MOYNIHAN, Librarian.

Although the Library is small we aim to get the best books, and through the Division of Public Libraries we can get any books to enable anyone to pursue a course of study. This matter should be called to the attention of the voters, as, a great many times they say that they can not get the books they want in a small library like ours. Post-graduates and college students can

avail themselves of our library and it can be made complete in every sense of the word with these outside facilities.

This year the Library observed Flag Day with appropriate exercises in the Library. On that day we were presented a United States Flag by William F. Baron, Commander of Frank J. Demars Post No. 235, American Legion and a Massachusetts State Flag by Walter Goss, Commander of Maynard Post No. 1812, Veterans of Foreign Wars, on behalf of their respective organizations. The Trustees wish to express their thanks and the thanks of the citizens of the town for these two beautiful flags. During the exercises a poem entitled, "A Prayer For Peace", written by John E. Hannon, Chairman of the Library Trustees for the Memorial Day exercises at the Junior High School was read. Because of it's appropriate theme at this time when the world is in such a turmoil, we are incorporating it as part of this report.

"A PRAYER FOR PEACE"

We thank Thee, Lord, for all the gifts
That, to us have been given,
The eyes to see, the ears to hear,
And hearts that trust in Heaven.

We thank Thee, for our country great,
That dares to do the right,
That strives to keep us all at peace,
And from the tyrant's might.

We pray Thee, Lord, these eyes of ours
Shall never, never see,
A tyrant foot upon these shores;
May that thing never be.

We pray Thee, Lord, with all our hearts,
Our ears will never hear,
The booming of a hostile gun
To fill our minds with fear.

And though the future is unknown,
The past we can't forget—
The reason these men have died
Seems to be with us yet.

The heroes, now long gone to rest,
Who sleep in hallowed ground;
Let us remember well their deeds,
Where'er their graves are found.

They pledged allegiance to their flag,
Let us pledge ours too.
For the protection it insures;
It is fitting that we do.

And as we gaze upon the flag
With hearts filled to the brim—
Our prayers are winging Heavenward,
Borne on by Seraphim.

And hear, Dear Lord, our fervent plea,
That cruel war shall cease;
Let the purple light of morning,
Dawn on a day of peace.

The Trustees are open to any suggestions for the betterment
of our Library and urge all citizens to avail themselves of it's
advantages.

Respectfully submitted,

JOHN E. HANNON, Chairman,
ROBERT LESTER, Secretary,
MISS NELLIE C. MAY,
Maynard Public Library Trustees

REPORT OF THE TREE WARDEN

The Honorable Board of Selectmen:

I herewith submit my report as Tree Warden for the year ending December 31, 1940. A larger amount of work and much better results than any previous year, have been achieved by this department at a very slight cost to the taxpayers. Under a W. P. A. project, 800 shade trees on our residential streets have been trimmed, 200 trees have been bolted, cabled, and strengthened. In addition, the trees were trimmed and spaced in John A. Crow Park, the old filter beds, and along all the county roads, also 60 large stumps were removed.

From this project there were secured 302 loads of wood distributed by the board of selectmen, welfare department, and the civic committee. The value of this wood would be twelve hundred dollars as there were three-fourths of a cord of wood in each load.

This project was stopped during the summer as it is more suitable for a winter project. There will be another Tree Planting Project this spring, when there will be approximately 125 nursery trees planted consisting of Norway maple. In addition to these there will be white pine, swamp maple, and beech, obtained from the town forest. This will bring the total of young trees planted up to 2,300.

During the Tree Planting Project of 1940 the number of trees planted totaled 520, consisting of: Norway maple, red maple, linden, beech, elm, white pine, and northern spruce.

During the year, ash trees were sprayed for oyster scales, the maple for cotton aphid, and red mite. A number of large trees were artificially stimulated.

The young trees received much attention which they required in the way of trimming, shaping and bracing. The elm trees were examined for signs of the Dutch Elm disease and specimens were sent to Massachusetts State College for analysis. There is no sign of this disease as yet. The elm beetle was very destructive in devouring the leaves on private owned elms during the summer months. Another year of this and there will be very few privately owned elms.

There was one large elm tree destroyed by gas on Great Road, and two on Brown Street. Nine large trees were artificially stimulated because of the effect of gas. The Gas Company reimbursed the town for this work.

There were six young trees destroyed by individuals for which the town has been reimbursed.

During the coming year the trees should be sprayed, approximately 2,300 young trees should be trimmed, shaped, and braced. There are limbs to be taken off, trees to be cut down, and thousands of mechanical scars to be treated this year, because of the hurricane of 1938; and trees to be artificially stimulated.

The Town Accountant's Report will show the expenditures of this department.

Respectfully submitted,

WILLIAM V. HANSEN,
Tree Warden

GEORGE H. GUTTERIDGE,
Treasurer.

REPORT OF THE SEWER COMMISSIONERS

To the Board of Selectmen:
Gentlemen:

The eleventh annual report of the Sewer Commissioners for the Year ending December 31, 1940, is herewith submitted. With this report is the report of the superintendent.

The Common Sewers have been extended 755 feet this year, making a total of 12.54 miles of Common Sewers now in use.

The extensions made this year are Chandler St., Elmwood St. and Butler Ave. We are now planning for a Right-of-Way from Acton St. to Brown St. The extensions on Bates Ave., Crane Ave., Douglas Ave., and Elmwood St. have been voted and will be put in as W. P. A. labor is available.

With 41 house connections made this year we now have 812 properties connected.

Our maintenance expenses have been larger this year as more labor has been required at the disposal plant and it has been necessary to renew a large number of the sprinkler heads which were broken by boys.

It was necessary to request the Finance Committee for additional funds to carry on the work.

While we have been quite free from serious stoppages in the Common Sewers, we feel that we should be prepared with necessary equipment to clear any stoppage which might accrue, we are therefor recommending that equipment be purchased for this purpose.

The following expenditures have been approved this year:

| | |
|----------------------------|-------------|
| Maintenance..... | \$ 3,657.81 |
| House Connections..... | 1,440.50 |
| Butler Ave..... | 281.27 |
| Chandler St..... | 629.68 |
| Elmwood St..... | 887.68 |
| Acton St. to Brown St..... | 169.58 |
| Bates Ave..... | 70.97 |

For the year 1941 we recommend these appropriations:

| | |
|-------------------------------|-------------|
| Maintenance..... | \$ 3,600.00 |
| House Connections..... | 2,000.00 |
| Sewer cleaning equipment..... | 475.00 |

Respectfully submitted,

WALTER R. DENNISTON
THOMAS H. TIERNEY
FRED C. ELSON

Sewer Commissioners

REPORT OF THE SUPERINTENDENT OF SEWERS

To the Board of Sewer Commissioners:
Gentlemen:

The report of the Superintendent of Sewers for the year ending December 31, 1940 is herewith submitted.

During the winter and early spring we had considerable trouble with the Imhoff Tank and it was necessary to have extra men to take care of this trouble, this accounts for much of the extra expense in the maintenance this year. It appears that much of this trouble was caused by returning the light sludge from the Secondary tank to the Imhoff Tank which caused the sludge to float in the clear water apartment. We have made a connection so that the sludge from the Secondary Tank may be delivered to the sand beds.

On November 17 it was discovered that boys had been playing at the Disposal Plant and among other things had broken 80 spindles on the spray nozzels.

The following Common Sewers have been laid this year: Butler Ave. from Station 7-00 to Station 8-36, 136.2 feet; Chandler St. from Dartmouth St. 465 feet; Elmwood St. from Dartmouth St. 153.8 feet.

This is a total of 755 feet of Common Sewer this year.

Forty-one house connections have been made this year, making 812 connections now in use.

It has been necessary to clear three house connections and one has been relaid. Two stoppages in Common Sewers have been cleared.

| | |
|---|-----------|
| Lineal feet of House connections laid this year | 2057 feet |
| Average length | 50.2 feet |
| Average cost | \$ 37.50 |

LOCATION OF CONNECTIONS INSTALLED THIS YEAR

| Street | Connections | Street | Connections |
|---------------------|-------------|--------------------|-------------|
| Acton | 1 | Nason | 1 |
| Brooks | 4 | Railroad | 1 |
| Butler Ave. | 5 | River | 3 |
| Chandler | 2 | Sherman | 1 |
| Concord | 3 | Spring | 1 |
| Crane | 1 | Sudbury | 3 |

Recording of pumping at the Powder Mill Road pumping station.

| | |
|-------------------------------|--------------------|
| Total flow for year | 66,347,200 gallons |
| Average per day | 181,276 gallons |

The Commissioners kind co-operation has been greatly appreciated.

Respectfully submitted,

WILLIAM NAYLOR
Superintendent

REPORT OF CEMETERY COMMISSIONERS

January 20, 1941.

To the Honorable Board of Selectmen:

The annual report of the Board of Cemetery Commissioners is herewith submitted.

The loss of the fence between the Maynard Tomb and the cemetery made necessary the planting of a hedge. Owing to the importance of selecting a shrub which would withstand the winter and also make a compact hedge, we chose barberry.

We have been very fortunate in receiving a W. P. A. Drain Project for the new Cemetery. During the past a large body of water would accumulate in the center of the cemetery, covering shrubs, avenues and several sections of burial lots. The new drain will relieve this unfavorable condition.

A few of the larger trees which were growing in lots and were a hinderance to the lot owner, have been removed. Several maple trees have been planted around the border of the New Cemetery and more placed near the main entrance.

It is gratifying to note the interest the lot owners are taking in their lots and also the ever increasing number of people who are placing their lots in Perpetual Care.

In conclusion, we wish to thank the citizens and the various departments for their cooperation during the past year.

Respectfully submitted,

ERNEST E. JOHNSON,
G. W. FOWLER,
JACOB LAURILA.
Cemetery Commissioners.

REPORT OF SUPERINTENDENT OF GLENWOOD CEMETERY

January 20, 1941.

To the Cemetery Commissioners:

I herewith submit the report of the Superintendent of Glenwood Cemetery for the year 1940.

The evergreens, flowering shrubs and trees throughout the cemetery have been trimmed and sprayed. Owing to the rapid

growth of the evergreens, several beds had to be made over and many of the shrubs transplanted.

The circle in the old section which was planted two years ago is doing very well. All shrubs and plants are in a good healthy condition and were trimmed and well fertilized throughout the season.

During the past, the weeds in the avenues of the new section have been a constant nuisance. The use of the Tree Department's spraying machine has made it possible to apply an even dose of weed killer, thereby improving this condition. This is a decided improvement over the hand pump and if the system is carried on, little trouble should be encountered in the future.

The W. P. A. Drain Project is going along on schedule. The project consists of the laying of approximately eight hundred feet of pipe and the building of ten catchbasins and one manhole. This project was especially necessary on account of the large body of water which covered several burial lots.

The last section of single graves has been used and it will now be necessary to make these burials in the New Cemetery. The section chosen for this purpose should last for several years.

A great number of sunken graves were filled during the early spring and fall and many of the older monuments which were tipped have been straightened.

I take this opportunity of thanking the Commissioners for their help during the past year.

Respectfully submitted,

ROY E. MARSDEN,
Superintendent of Glenwood Cemetery.

REPORT OF WATER COMMISSIONERS

To the Board of Selectmen:
Gentlemen:

The report of the Water Commissioners for the year ending December 31, 1940 is herewith submitted. This report includes the report of the Superintendent and Registrar. This is the fifty-second report of this Department.

Blue-prints have been made of the plans which were made under the W. P. A. Location Project and books have been made of the locations of all valves on the water mains also of all service boxes.

Under the Project for laying mains, 2,300 feet have been laid this year. On Acton St. the water main was extended from No. 115 to No. 134 and a hydrant was installed. On Acton St. from Concord St. to Elm Ct., on Parmenter Ave., on Euclid Ave. and Florida Road the small mains were replaced with larger ones.

A two inch trench pump has been purchased.

During the Summer we had an investigation of our water supply by Frank A. Barbour, Engineer of Boston, to determine the best way to improve our system. In July, Mr. Barbour sent his report to this Board. This report recommends that we build a new pumping station at White Pond and lay a new force main from the Pond to the pumping station. With this system the water would be delivered directly in the town mains doing away with the present pumping plant. The fact that electric current may be secured at the Pond at a very low rate and that this plant can be operated with very little attendance, it would appear, that a considerable saving can be made over our present pumping expense.

Feeling that this plan should be presented to the town, an article was placed in the warrant for a town meeting held December 9, 1940. At that meeting a vote was passed to authorize the Water Commissioners to proceed with the work and an appropriation of \$65,000.00 was made.

Mr. Barbour has been engaged to make the plans for the Pumping Station and let the contracts for the Pumping Station and Pumping equipment. We expect to have the force main laid with W. P. A. labor.

The expenditures for Maintenance this year is \$10,345.75; for Main Extensions and Replacements \$2,960.08, Location Project \$192.09, Trench Pump \$225.00, Water Supply Investigation \$600.00.

The estimates for the year 1941 are Maintenance \$10,000.00, for Main extensions and replacements \$1,000.00 and for Lighting Equipment \$200.00.

Respectfully submitted,

GAVIN TAYLOR
 JAMES C. MAHONEY
 CHRISTOPHER WILSON
 Water Commissioners

REPORT OF THE SUPERINTENDENT

To the Board of Water Commissioners:
 Gentlemen:

The report of the Superintendent and Registrar of the Water Department for the year ending December 31, 1940 is here submitted. Included herewith is the report of the Engineer at the Pumping Station.

At the first of the year the water in the Pond was quite low but with the spring thaw and the rain the Pond filled up, receding again in the fall so that the intake pipe was not running full. At times during the summer more water was being used than was coming into the wells.

No work has been done on the line from the Pond this year.

The wells at the Pumping Station have been cleaned.

Although the repairs on the Diesel engine have been large, the total cost of operation is very low, for the amount of water delivered.

No work has been necessary at the reservoir except to repair the fence and cut the grass.

On Acton St. the six inch main was extended to No. 134 a distance of 750 feet. The four inch main on Acton St., from Concord St. to Elm Court was replaced with an eight inch main, the distance was 900 feet, on Parmenter Ave. the 1½ inch pipe was replaced with a six inch main, 300 feet. These Mains were laid with W. P. A. labor and the pipe used was Transite. On Euclid Ave. 300 feet of small pipe was replaced with a 4 inch cast iron pipe and on Florida Rd. the small main was replaced with a 4 inch cast iron pipe for 150 feet. The old 4 inch main on Florida Rd. was cleaned to Summer St. by a new process. When the trench was open on Elmwood St. for a sewer extension, a one inch copper main was laid to No. 22 and 24 Elmwood St. This house

was formally supplied through property on Dartmouth St. A hydrant was put in on the new extension on Acton St. and on Euclid Ave. The valve on one hydrant was renewed.

Eight new services have been added this year, making 1535 now in use, thirty-three have been relaid, seventeen leaks have been repaired, seventeen cellar stops have been changed, twelve were thawed and seven were lowered. Thirty services have been cleaned.

Fourteen new meters have been set this year, the number now in use is 1513. 200 meters have been repaired.

Blue-prints have been made on cloth, of the drawings made under the W. P. A. Project last year. Two copies of the street plans and three copies of the valve locations were made. One set of plans have been placed in the vault to be kept safe in case of fire, one set of street plans is kept in the office for reference, two sets of locations have been made into books to be used in locating valve and service boxes.

A two inch Homelite trench pump has been bought and we find it to be very satisfactory for our work.

We have never had an adequate system for lighting for night work on the street. It would seem advisable that the department should have a portable outfit to be used to light any work when it becomes necessary to do so at night. An appropriation of \$200.00 has been requested to purchase a portable lighting equipment.

I would have the Commissioners know that there hearty support has been appreciated.

Respectfully submitted,

WILLIAM NAYLOR,
Superintendent.

REPORT OF THE ENGINEER

To the Superintendent:
Sir:

It has been necessary to make repairs on the Diesel engine several times to keep it in good condition. If this engine was to be kept in service it would be necessary to install a reconditioner for the lubricating oil.

There are about 4,900 gallons fuel oil, 54 gallons lubricating oil and some packing on hand.

PUMPING RECORD

| <i>Month</i> | <i>Gallons Fuel Oil</i> | <i>Gallons Water</i> |
|---------------------|-----------------------------|--------------------------|
| January | 821 | 9,138,460 |
| February | 750 | 8,354,567 |
| March | 680 | 8,341,282 |
| April | 739 | 8,216,257 |
| May | 780 | 8,763,770 |
| June | 860 | 9,302,502 |
| July | 853 | 10,411,673 |
| August | 1,007 | 12,041,177 |
| September | 1,050 | 11,442,302 |
| October | 1,070 | 11,949,09 |
| November | 1,008 | 9,839,342 |
| December | 1,030 | 10,280,197 |
| | <hr/> | <hr/> |
| | 10,648 | 118,090,721 |

Fuel for heating—1,119 gallons.

Average daily consumption—323,536.3 gallons.

Average daily per person, figured on 6,500 users—49.7 gallons.

Respect ully submitted,

O. R. BOSWORTH, Engineer.

TOWN CLERK'S REPORT

For the year ending December 31, 1940

**Information desired, not printed herein, will be
courteously supplied upon request to the Town
Clerk.**

**FRANK E. SANDERSON,
Town Clerk.**

PROCEEDINGS OF TOWN ELECTION

held March 4, 1940

In accordance with Town Warrant No. 379 the Annual Town Election was held on the above date at the High School Auditorium.

The Town Clerk prepared the polling place according to the requirements of the General Laws.

Moderator Matthew T. King presided.

The system installed in 1938, with two areas and two ballot boxes was in use.

Ballots prepared by the Town Clerk were delivered to the ballot clerks and a receipt taken therefor after said clerks had been sworn by the Town Clerk.

BALLOT CLERKS

Area 1—A to L.

| | |
|------------------|------------------|
| Howard Marsden | Gladys D. Nelson |
| Helen M. Connors | Bertha L. Davis |
| Florence Maley | |

Constable Edward S. Johnston was in charge of the ballot box.

Area 2—M to Z.

| | |
|-------------------|-------------------|
| William P. Rourke | Grace E. Tucker |
| Minnie Downey | Lillian I. Holmes |
| Josephine Stuka | |

Constable Henry T. Piecewicz was in charge of the ballot box.

The boxes were examined by the Moderator and Town Clerk, the register set at 0000, and declared empty. The keys were then given to the constables who held the same during the day.

At eight o'clock A. M. the Moderator called the meeting to order. James C. Mahoney moved that the reading of the warrant be waived and it was so voted.

The Moderator then declared the polls open.

The following tellers, appointed by the Selectmen were sworn by the Town Clerk.

| | |
|---------------------|--------------------|
| Alice L. Joyce | A. Frank Croft |
| James Sullivan, Jr. | Elsie P. Brayden |
| Daniel C. O'Connor | Albert E. Foster |
| Mary McNamara | Elizabeth A. Binks |
| R. Frank Punch | Hiram Parkin |
| Helen V. McDonald | Elsie H. French |
| Richard A. Thane | Clifford King |
| Edward J. Ledgard | Lessie G. McGarry |

TABULATORS

Roberta A. Marsden Elizabeth Mahoney

At 7.50 o'clock P. M. the following minor officers were elected.

FENCE VIEWERS

William Naylor
 Donald A. Lent Sworn March 5, 1940
 Benjamin C. Brown Sworn March 7, 1940

FIELD DRIVERS

James C. Mahoney Sworn March 9, 1940
 Herbert W. Martin Sworn March 9, 1940
 John J. Driscoll

SURVEYORS OF LUMBER

Walter R. Whitman
 Joseph A. Foster Sworn March 9, 1940
 Orville P. Tucker Sworn March 14, 1940

MEASURERS OF WOOD AND BARK

ATTEST:

FRANK E. SANDERSON,
Town Clerk.

March 5, 1940.

In accordance with the provisions of Section 19 of Chapter 41 of the General Laws of Massachusetts, I hereby appoint Eleanor Jones of said Maynard, to be Assistant Town Clerk during the current municipal year, or until this appointment is revoked.

FRANK E. SANDERSON,
Town Clerk of Maynard.

I, Eleanor Jones, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

ELEANOR JONES.

Subscribed and sworn to this fifth day of March, 1940, before me,

FRANK E. SANDERSON,
Town Clerk of Maynard.

A true copy,
Attest:-

FRANK E. SANDERSON,
Town Clerk.

Article 29. On motion of Charles B. Keene—Voted to authorize the Board of Assessors to apply the sum of \$5,000.00 to be taken from the Sewer Department Surplus to meet one of the Sewer notes of \$5,000.00 due in 1940.

Article 30. On motion of Charles B. Keene—Voted to authorize the Board of Assessors to apply the sum of \$5,000.00 to be taken from the Water Department Surplus to meet one of the Sewer notes of \$5,000.00 due in 1940.

Article 31. On motion of William F. Baron amended by Frank Punch—Voted to appropriate the sum of \$200.00 to be expended for public fireworks at John A. Crowe Park on the eve of the Fourth of July, 1940, under the direction of the Frank J. DeMars Post 235 American Legion. The Frank J. DeMars Post 235 American Legion to give an equal amount, said display of fireworks to take place not later than 11 o'clock P. M.

Article 32. On motion of Frank Punch—Voted to lay this article on the table.

Article 33. On motion of George H. Gutteridge—Voted that the Town Treasurer, with the approval of a majority of the Selectmen, be and hereby is authorized to borrow money from time

to time, in anticipation of the revenue of the financial year beginning January 1, 1940, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws.

Article 34. On motion of Charles A. Stockbridge—Voted that the town appropriate the sum of \$750.85 to cover the following overdrafts of the year 1939. Chapter 90—Great Road 1936—\$24.69. Chapter 90—Great Road 1938—\$726.16.

Article 35. On motion of Charles A. Stockbridge—Voted to authorize the Board of Assessors to apply the sum of \$4,456.21 unexpended balances of completed special appropriations to reduce the amount to be raised by taxation in the year 1940.

Article 36. On motion of Charles A. Stockbridge—Voted that the town appropriate the sum of twenty-five dollars to pay for the care of any cemetery lot where there is a grave of any person who has served in the army, navy, or marine corp of the United States, in time of war or insurrection, and has been honorably discharged from such service or released from active duty therein. Provided that the cost of such care is not paid by private persons or by the trustees of the cemeteries where such grave is situated, in accordance with Chapter 115, Section 22 of the General Laws. Payments from this appropriation to be authorized by the Cemetery Commissioners.

Article 37. On motion of Noble J. Morton—Voted to accept Prospect Street, as shown on a plan filed at the Town Clerk's office, as a public way.

Article 38. On motion of Harold J. Morgan—Voted to appropriate the sum of \$2,500.00 for the pension reserve fund or annuity reserve fund.

The meeting adjourned at 10.25 o'clock P. M.

Attest:-

FRANK E. SANDERSON,
Town Clerk.

PROCEEDINGS OF PRESIDENTIAL PRIMARY

held April 30, 1940

A primary was held on the above date in accordance with Town Warrant No. 381 at the High School Auditorium.

The Town Clerk prepared the polling place according to the requirements of the General Laws relating to primaries.

FRANK E. SANDERSON,
Town Clerk.

PROCEEDINGS OF TOWN MEETING

held July 29, 1940

A special town meeting was held on the above date in Parker Street Hall in accordance with Town Warrant No. 382.

Moderator Benjamin M. Piecewicz who presided called the meeting to order at 7.35 o'clock P. M.

On motion of Alton W. Sims—Voted to waive the reading of the warrant.

Article 1. Harold J. Morgan, Secretary of the Finance Committee stated that the recommendations of said committee would be given as each Article was taken up for action.

Article 2. On motion of Donald A. Lent—as amended, it was voted to accept as a public way the portion of Fairfield Street from the easterly end of the accepted part to Parker Street. a distance of 416 feet, more or less, as shown on a plan on file at the office of the Town Clerk, said plan drawn by Fred A. Boothroyd, Engineer, and approved by Edward V. Kelley, Supt. of Streets.

Article 3. On motion of Donald A. Lent as amended, voted to accept Railroad Street as a public way as described on a plan drawn by Fred A. Boothroyd, Engineer, and approved by Edward V. Kelley, Supt. of Streets. Said plan on file in the Town Clerk's Office.

Article 4. On motion of Donald A. Lent as amended, voted to accept Marlboro Street as a public way according to a plan filed in the office of the Town Clerk, said plan drawn by Horace F. Tuttle, Surveyor, and approved by Edward V. Kelley, Supt. of Streets.

Article 5. On motion of Merton Merrick—Voted “that Pomciticut Avenue, for a distance of four hundred feet from Summer Street, be accepted as a public way, as shown on a plan prepared by Horace Tuttle, Surveyor, on file in the Town Clerk's office and approved by the Superintendent of Streets.”

Article 6. On motion of George Savikoski as amended, voted to accept West Street as a public way as shown on a plan drawn by Fred A. Boothroyd, Engineer, and approved by Edward V. Kelley, Supt. of Streets. Said plan filed with the Town Clerk.

Article 7. On motion of Donald A. Lent as amended, voted to accept 394 feet of Bates Avenue in a north easterly direction from Crane Ave. as described on a plan filed in the office of the Town Clerk. Said plan drawn by Fred A. Boothroyd and approved by Edward V. Kelley, Supt of Streets.

Article 8. On motion of R. Frank Punch—Voted to lay this article on the table.

Article 9. On motion of Donald A. Lent as amended by Walter A. Cheslak—Voted to transfer from the excess and deficiency fund the sum of \$145.60 for the purpose of paying the unpaid bills of 1939, namely,

| | | |
|--|----|-------|
| Christmas lighting | \$ | 13.00 |
| Installing lights on hockey rink at Alumni Field | | 21.90 |
| Perrillo Bill | | 25.70 |
| Farnell Bill | | 85.00 |

and that in the case of Perrillo and Farnell bills, releases be obtained when payment is made.

Article 10. On motion of Harold J. Morgan—Voted to lay this article on the table.

Article 11. On motion of Harold J. Morgan—Voted to transfer from the excess and deficiency fund the sum of \$400.00 to be expended for Highway equipment as follows, same to be purchased from the State Prison.

- 1 Road Right sign @ \$9.20.
- 36 No Parking on this Side @ \$1.60.
- 10 No Parking between Signs @ \$1.60.
- 10 Stops signs @ \$9.50.
- 1 One Way @ \$8.85.
- 3 Reflectors @ \$15.00.
- 6 Keep to Right @ \$10.00.
- 1 Do Not Enter @ \$14.80.

Article 12. On motion of Lester Cowle—Voted to transfer the sum of \$500.00 from Sewer surplus to extend the sewer on Bates Avenue.

Article 13. On motion of Donald A. Lent—Voted to lay this article on the table.

Article 14. On motion of Donald A. Lent—Voted to lay this article on the table.

Article 15. On motion of Donald A. Lent—Voted to transfer the sum of \$500.00 from the excess and deficiency fund for the purpose of rebuilding Summer Hill Road.

Article 16. Following a motion by Walter A. Cheslak on this article a point of order was raised by Harold J. Morgan who stated that no sum was named when the article was submitted to the Finance Committee by the Selectmen and that the article was therefore not before the meeting in full conformity with the Town By-Laws.

The point of order raised by Mr. Morgan was sustained by the Moderator and the article was passed over.

Article 17. On motion of Charles A. Stockbridge—Voted that the Town authorize the Board of Library Trustees to appoint one of their members as Acting Librarian during the illness of the Librarian, at the same salary as received by the Librarian, in accordance with Chapter 41, Section 4 A, of the General Laws.

Article 18. On motion of Alton W. Sims—Voted to transfer from excess and deficiency fund the sum of \$1,000.00 for the purpose of remodeling the entrance and hallway of the Town Building.

Article 19. On motion of Harold J. Morgan—Voted to authorize the Selectmen to appoint a Town Counsel.

Article 20. On motion of Harold J. Morgan—Voted to transfer from Excess and deficiency fund the sum of \$125.00 for the salary of a Town Counsel for the balance of 1940.

Article 21. On motion of Matthew T. King—Voted to lay this article on the table.

Article 22. On motion of Donald A. Lent—Voted that the town appropriate the sum of \$300.00 from the Excess and Deficiency Account, for the salary of the Town Accountant.

On motion of Donald A. Lent—Voted to take Article 8 from the table.

Article 8. On motion of Donald A. Lent, as amended—Voted to transfer \$1,750.00 from the excess and deficiency fund to surface and erect a fence around the tennis courts at John A. Crowe park.

The meeting adjourned at 10.45 o'clock P. M.

Attest:

FRANK E. SANDERSON,
Town Clerk.

PROCEEDINGS OF STATE PRIMARY

held September 17, 1940

Pursuant to Town Warrant No. 383 the State Primary was held in the High School Auditorium on the above date.

The polling place was prepared by the Town Clerk and the requirements of the laws relating to Primary election were complied with.

Ballot clerks appointed by the Selectmen were sworn by the Town Clerk and stationed as follows:

Area 1. A. to L.

Gate, Hiram Parkin; Check list—Helen Punch, Gladys D. Nelson. Ballot Box—Constable Edward S. Johnston. Check list—Robert Lester, Florence I. Maley.

Area. 2. M to Z.

Gate—William P. Rourke. Check list—Grace E. Tucker, Agnes V. Driscoll. Ballot box—Constable Henry T. Piecewicz. Check list—Elizabeth A. Binks, Lilian I. Holmes.

The ballot boxes were examined by Donald A. Lent, Chairman of the Board of Selectmen and the Town Clerk. The registers were set at 0000 and the keys placed in the keeping of the Constables in charge.

The Ballot Clerks gave a receipt to the Town Clerk for the ballots and check lists. Said check lists contained the names of 1144 Republicans, 864 Democrats and 1544 of no political designation.

Selectman Lent acted as presiding officer and called the meeting to order at 11 o'clock A.M.

On motion of James C. Mahoney it was voted to waive the reading of the warrant.

The polls were declared open at 11.05 A. M.

The following persons were appointed Tellers by the Selectmen and were sworn by the Town Clerk.

| | |
|--------------------|----------------------|
| Arthur F. Croft | Mary McNamara |
| Helen M. Tucker | Helen M. Connors |
| Albert E. Foster | Helen V. McDonald |
| Bertha L. Davis | Margaret I. Johnston |
| Elsie P. Brayden | Helen M. Hinds |
| Mildred K. Smith | Clifford King |
| Roberta A. Marsden | Josephine Stuka |

The Presiding officer and the Town Clerk deeming it advisable so to do ballots were taken from the ballot boxes at 4 o'clock and counting was continued from that time until 9:15 P. M.

The total number of ballots cast was six hundred and eighty-three. Four hundred and fifty-six, Republican; Two hundred and twenty-seven, Democrat.

The check list showed that Two hundred twenty-seven Democrat and Four hundred and fifty-six Republican voters had voted.

The result was announced by the Town Clerk at 9:30 o'clock P. M. and was as follows:

PROCEEDINGS OF STATE ELECTION

held November 5, 1940

The Voters of Maynard cast their ballots for Election of President and Vice President and for National, State and County Officers in accordance with Town Warrant No. 384 on the above date at the High School Auditorium.

The polling place was prepared by the Town Clerk in accordance with the requirements of the General Laws. Ballots and check lists were delivered to the ballot clerks and a receipt taken therefor.

Donald A. Lent, Chairman of the Selectmen, acted as presiding officer.

On motion of John T. Higgins—Voted to waive the reading of the warrant.

The presiding officer and Town Clerk examined the ballot boxes and declared them to be empty, set the registers at 0000 and placed the keys in the keeping of the constable in charge of the same.

Ballot clerks appointed by the Selectmen were sworn by the Town Clerk as follows:

Area 1. A to L.

Gate. Hiram Parkin. Check list. Helen Punch, Gladys D. Nelson. Ballot box. Edward S. Johnston, Constable. Check list. Florence Maley, Elizabeth Binks.

Area 2. M. to Z.

Gate. William P. Rourke. Check list. Grace E. Tucker, Agnes V. Driscoll. Ballot box. Henry F. Pieciewicz, Constable. Check list. Lillian I. Holmes, Helen M. Connors.

The polls were declared open at eight o'clock A. M.

The following tellers appointed by the Selectmen were sworn by the Town Clerk.

| | |
|--------------------|----------------------|
| A. Frank Croft | Helen V. McDonald |
| Elsie P. Brayden | Joseph J. Arcisz |
| William Conlter | Mary E. Whalen |
| Mildred K. Smith | Alice L. Joyce |
| Robert Lester | Albert J. Connors |
| Bertha Davis | Margaret I. Johnston |
| Pearl D. McAnslin | Mary McNamara |
| Elsie Trench | Adam Mariani |
| Helen Tucker | Maxine Delorey |
| Roberta A. Marsden | Josephine Stuka |
| William T. Hinds | |

The Presiding officer and Town Clerk deeming it advisable so to do, ballots were taken from the ballot boxes at various times during the day and counting continued from throughout the day.

The polls closed at eight o'clock P. M.

The Town Clerk then cast 39 absentee ballots after the affidavit on the envelopes and the signatures of the absentee voters had been compared and approved.

The total number of ballots to cast was 3345.

Each set of check lists showed that three thousand three hundred and forty-five names had been checked as having voted.

The indicator on the ballot boxes read Area 1, 1755—Area 2, 1590; Total, 3345.

The thickness of the ballot when not folded properly was responsible for trouble with the registers on both ballot boxes several times during the day. The registers were adjusted in each instance by the Town Clerk and Presiding Officer.

The result of the count was announced at 12:30 A. M. by the Town Clerk and was as follows:

ELECTORS OF PRESIDENT AND VICE PRESIDENT

| | |
|---------------------------------|------|
| Aiken and Orange | 1 |
| Babson and Moorman | 1 |
| Browder and Ford | 13 |

To obtain a full expression of opinion, voters should vote on all three of the following questions:—

(a) If a voter desires to permit the sale in this city (or town) of any and all alcoholic beverages to be drunk on and off the premises where sold, he will vote "YES" on all three questions.

(b) If he desires to permit the sale herein of wines and malt beverages only to be drunk on and off the premises where sold, he will vote "NO" on question one, "YES" on question two and "NO" on question three.

(c) If he desires to permit the sale herein of all alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "NO" on questions one and two and "YES" on question three.

(d) If he desires to permit the sale herein of wines and malt beverages to be drunk on and off the premises where sold and in addition other alcoholic beverages but only in packages, so called, not to be drunk on the premises where sold, he will vote "NO" on question one and "YES" on questions two and three.

(e) If he desires to prohibit the sale herein of any and all alcoholic beverages whether to be drunk on or off the premises where sold, he will vote "NO" on all three questions.

1. Shall licenses be granted in this city (or town) for the sale therein of all alcoholic beverages (whisky, rum, gin, malt beverages, wines and all other alcoholic beverages)?

| | |
|--------------|------|
| Yes | 1735 |
| No | 981 |
| Blanks | 629 |

2. Shall licenses be granted in this city (or town) for the sale therein of wines and malt beverages (wines and beer, ale and all other malt beverages)?

| | |

FRANK E. SANDERSON,
Town Clerk.

PROCEEDINGS OF TOWN MEETING held December 9, 1940

A special town meeting was held in Parker Street hall on the above date in accordance with Town Warrant No. 385.

The meeting was called to order at 7.30 o'clock P. M. by Benjamin M. Piecwicz Moderator.

On motion of Alton W. Sims—Voted to waive the reading of the warrant.

Article 1. Gavin Taylor, Water Commissioner, read a report, which was later filed with the Town Clerk, re—the condition of the water system.

Article 2. On motion of Harold J. Morgan—Voted to take \$750.00 from the excess and deficiency fund for Soldiers' Relief.

Article 3. On motion of Harold J. Morgan—Voted to appropriate \$450.00 for Town Hall and offices, said amount to be taken from the excess and deficiency fund.

Article 4. On motion of Harold J. Morgan—Voted that \$3,000.00 be taken from the excess and deficiency fund and appropriated for snow removal.

Article 5. On motion of Harold J. Morgan—Voted that \$100.00 be taken from the excess and deficiency fund and appropriated for traffic regulations.

Article 6. On motion of William Naylor—Voted that the Sewer Commissioners be authorized to extend the common sewer on Crane Avenue, from Garfield Avenue easterly, and to appropriate \$2,500.00 from the sewer surplus for same, the work to be done as a W. P. A. project if possible.

Article 7. On motion of William Naylor—Voted that the Sewer Commissioners be authorized to construct a common sewer on Elmwood Street from Bancroft Street to Chandler Street and to appropriate \$500.00 from Sewer Department surplus for the same, the work to be done as a W. P. A. project if possible.

Article 8. On motion of William Naylor—Voted that the Sewer Commissioners be authorized to extend the common sewer on Douglas Avenue, easterly to No. 32 Douglas Avenue and to appropriate \$900.00 from the sewer department surplus for the same, the work to be done as a W. P. A. project if possible.

Article 9. On motion of Harold J. Morgan—Voted to take and appropriate from the road machinery fund the sum of \$400.00 for a snow plow.

Article 10. On motion of Harold J. Morgan—Voted to take from the excess and deficiency fund the sum of \$300.00 and appropriate the same to the financing, by the Board of Health, of N. Y. A. projects.

Article 11. On motion of William Naylor—Voted that the Sewer Commissioners be authorized to construct a common sewer on Elmwood Street from Thompson Street to Dartmouth Street and to appropriate \$1,500.00 from the sewer department surplus for the same, the work to be done as a W. P. A. Project if possible.

Article 12. On motion of Harold J. Morgan—Voted to take from the excess and deficiency fund the sum of \$340.00 and appropriate same for Vocational Education.

Article 13. On motion of William Naylor—Voted unanimously that the Water Commissioners be authorized to improve the method of delivering water from White Pond, by erecting a Pumping Station and installing Pumping Equipment at the Pond and by laying a ten inch Force Main from the Pond to the site of the present Pumping Station and to do all things necessary and lawful in connection therewith, that \$10,000.00 be appropriated from the Water Dept. Surplus for Pumps and Motors and

other Pumping Station Equipment and that \$55,000.00 be appropriated for construction of a Pumping Station and Force Main from the Pond and for necessary right-of-ways, and to meet said appropriation the Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow the sum of Fifty-five Thousand Dollars and to issue bonds or notes of the town therefor, and to be payable in accordance with the provisions of Section 19, Chapter 44, General Laws, so that the whole loan shall be paid in not more than ten years from the date of the issue of the first bond or note.

That this work be done under a W. P. A. Project as far as possible and practicable.

The meeting adjourned at nine o'clock P. M.

Attest:-

FRANK E. SANDERSON,
Town Clerk.

IMPORTANT REQUEST

Please notify the Town Clerk immediately of any error or omission in the following List of Births.

Errors not reported at once can be corrected only by sworn affidavit, as prescribed by the General Laws, and may cause you inconvenience which can be avoided by prompt attention.

FRANK E. SANDERSON,
Town Clerk.

NOTICE

All dog licenses here listed expire March 31, 1941.

Dogs must be licensed on or before April 1st or the owners or keepers thereof are liable to a fine.

The law applies to all dogs three months old or over, regardless of time of year ownership is acquired.

No tax bills are sent to owners of dogs.

FRANK E. SANDERSON,
Town Clerk.

NOTICE

Chapter 440 of the Legislative Acts of 1938, require the Board of Registrars to list all persons twenty years of age or over, thereby making necessary a canvass in January of each year.

Persons who fail to give full and correct information, may cause difficulty and inconvenience to members of their household, especially if names not given are of registered voters, as names not listed in the annual canvass must be removed from the voting list by the Registrars.

Co-operation on the part of householders is therefore respectfully solicited in order that lists may be as correct as possible, thus preventing inconvenience or injustice to any voter.

FRANK E. SANDERSON,
Clerk of Registrars.

REPORT OF THE BOARD OF REGISTRARS OF VOTERS

To the Board of Selectmen:
Gentlemen:-

The Registrars of Voters submit the following report.

On the second day of January the listing of all residents twenty years of age or over was started, in accordance with the provisions of Chapter 440 of the Acts of 1938.

The canvassing was done by Michael J. Nee, a member of the Board and Reginald B. Jones, Hiram Parkin and John Flaherty.

A list in book form containing 5153 names was later printed for distribution and a duplicate list of the record of the canvass, retained in the Town Clerk's office, was filed with the Board of Assessors.

The Registrars have held 24 sessions for registration of new voters. Said sessions were held on 17 different days and covered a period of 62 hours.

At the beginning of the year the list of voters numbered 3298, men 1815, women 1483. 538 persons were registered and 195 removed, as follows; married 23, changed name 5, deceased 53, not listed Jan. 1st 59, left town 54, previously registered 1. Present list 3641, men 1984, women 1657.

Several additional sessions of the Board have been held for certification of signatures to nomination papers. 1813 signatures of the 2276 submitted were certified.

A recount was held on March 13, of the votes cast for School Committee at the Annual Town Election and a second recount was held on Nov. 30, of the votes cast for Governor at the State Election, Nov. 5th.

The petitions for said recounts also the findings of the Registrars were filed with the Town Clerk.

The following changes in party enrollment have been filed during the year,

| | |
|-----------------------------------|------------------------------------|
| Republican to Democrat. 4 | Democrat to Republican. 3 |
| Republican to no enrollment. 9 | Democrat to no enrollment. . . . 5 |
| No enrollment to Republican. 2 | No enrollment to Democrat. . . . 1 |

Respectfully submitted,

JOHN C. BRAYDEN
WILLIAM COULTER
MICHAEL J. NEE
FRANK E. SANDERSON,
Registrars of Voters.

ASSESSORS' REPORT

To the Citizens of Maynard:

The annual report of the Board of Assessors for the year ending December 31, 1940 is hereby submitted.

The Laws require the owners of taxable property, shall each year on or before the 31st day of January, submit to the local Assessors a list of all their taxable property and the valuation of the same.

In the absence of these lists, the Assessors are obliged to estimate the value to the best of their ability.

BLANK LISTS MAY BE OBTAINED FROM THE ASSESSORS

For the year 1941 all males 70 years of age and over will receive a Poll Tax bill. Those wishing to be exempt from payment must apply to the Board of Assessors, and sign application for same.

TOWN ACCOUNTANT'S REPORT

Maynard, Mass., Jan. 31, 1941

To the Board of Selectmen:

Gentlemen:—I submit herewith the annual report of the Town Accountant for the year ending Dec. 31, 1940.

The year 1940 has shown an improved condition in the town finances.

Tax collections for the year 1940 amounted to \$22,727.17 more than in 1939.

Unexpended appropriation balances amounting to \$16,252.67 were turned back to the Revenue and Surplus accounts.

Of the items used by the Assessors as "Estimated Receipts" in making up the tax rate, the town actually received \$12,040.22 in excess of the amount used.

As a result of these factors the Excess and Deficiency account on Dec. 31, 1940 amounted to \$84,919.83 and the uncollected taxes on Dec. 31, 1940 totaled \$75,747.56 which shows an excess over uncollected taxes of \$9,172.27.

On Dec. 31, 1939 the total uncollected taxes amounted to \$102,114.83 and the Excess and Deficiency account was \$66,891.44, showing a deficiency under uncollected taxes of \$35,223.39.

At the annual town meeting held March 4, 1940, the town voted to accept Chapter 32, Sections 26 to 31 of the General Laws, authorizing the establishment of a contributory retirement system for town employees. A complete report of the Board of Retirement appears elsewhere in the town report.

Expenditures for Public Welfare, Aid to Dependent Children and Old Age Assistance amounted to \$60,150.33 in 1939.

In 1940 the expenditures for these items amounted to \$56,553.87. This is a reflection of the improved conditions at the Assabet Mills.

Total appropriations requested to date amount to \$354,079.26 while the amount which has been requested on this date last year (Jan. 31, 1939) amounted to \$357,633.68.

A loan of \$55,000.00 was authorized at a town meeting held Dec. 9, 1940 for the purpose of constructing a pumping station and force main to bring the water from White Pond. This loan has not as yet been placed as the work cannot be started until later.

Cash on hand Dec. 31, 1939 amounted to \$21,421.18 and on Dec. 31, 1940 this item was \$67,859.70.

Loans in anticipation of revenue for the year 1939 amounted to \$100,000.00. During the year 1940 it was necessary for the treasurer to borrow only \$62,000.00 in anticipation of revenue.

The amount used for appropriations from surplus funds in 1939 was \$39,820.00. The amount used from surplus funds in 1940 was \$44,956.51.

In estimating the State taxes for 1940 the Veteran's Exemption Tax was underestimated and \$7.36 will have to be raised in 1941 to cover this, while the Parks and Reservations Tax was overestimated by \$20.47 which will be used as a credit in 1941.

The town has unredeemed tax title deeds amounting to \$1,923.82 which represent thirteen properties. In addition to these, two properties which have been foreclosed amounting to \$271.46 are held as tax title possessions.

I am showing in my report this year a list of all regular town employees and the amount of salary, wages and compensation paid to them by the town. Owing to the reduced amount of exemption from income taxes, it will be necessary for more employees to file income tax statements.

The courtesy and co-operation which I have received from the various town boards and officials has been greatly appreciated.

Respectfully submitted,

C. A. STOCKBRIDGE,
Town Accountant.

REPORT OF THE BOARD OF RETIREMENT

At the annual town election held March 4, 1940 it was voted to accept sections twenty-six to thirty-one H, inclusive, of Chapter thirty-two of the General Laws authorizing cities and towns to establish contributory retirement systems for their employees.

By law, the management of the retirement system is vested in a retirement board, the membership of which is constituted as follows—

- (a) The Town Accountant. and
- (b) One person appointed by the Board of Selectmen, to serve for a term of three years from the date when the system becomes operative and until the qualifications of his successor. and
- (c) One person who shall be a member of the system, to be elected by the members thereof, under the direction of the Retirement Board in a manner to be determined by the Selectmen, to serve for a term of one year from the said date and until the qualification of his successor.

Mr. C. A. Stockbridge, Town Accountant became a member of the board by virtue of his office. Mr. Harold J. Morgan was appointed a member by the Board of Selectmen on March 13, 1940. The third member of the board has not as yet been elected but a meeting of the members is to be called as soon as convenient in order to accomplish this.

The system became operative on July 1, 1940 but persons in the employ of the town on that date were allowed ninety-days in which to decide whether or not they wished to become members. At the expiration of the ninety day period, fifty-eight employees had signified that they wished to become members.

Membership in the system is divided into two groups. Group 1 includes all employees, except members of the Police Department and Fire Department. Group 2 includes only members of the Police and Fire Departments.

At the time when the system became operative, any person regularly employed by the town had the privilege of joining the system if he wished to do so regardless of his age.

Any person under fifty-five years of age, who became an employee of the town after the system has become operative, except person elected by popular vote, must become a member of the system. Any person fifty-five years of age or over, who becomes an employee of the town after the system has become operative, cannot become a member of the system and no such employee shall remain in the service of the town after reaching age seventy.

Any member who shall have attended age sixty, may, upon his own written application to the board, be retired for superannuation. Any member classified under Group 2, who shall have attained age sixty-five and any member classified in Group 1, who shall have attained age seventy shall be retired for superannuation upon attaining such age.

The Board of Retirement has set up a system of records and accounts in conformity with the requirements of the State.

Four members were retired for superannuation by the Board as of July 1, 1940 as follows—

| <i>Name</i> | <i>Group</i> | <i>Age</i> | <i>Prior Years</i> | <i>Service Months</i> | <i>Annual Pension</i> |
|--------------------------------|--------------|------------|------------------------|---------------------------|---------------------------|
| John J. Driscoll | 1 | 78 | 32 | 3 | \$1,040.00 |
| Isaac Gates | 1 | 66 | 20 | 0 | 480.00 |
| Joseph Lovering | 1 | 83 | 19 | 0 | 530.84 |
| Nicholas J. Driscoll | 2 | 72 | 26 | 0 | 780.00 |

On October 1, 1940 the following member was retired by the Board of superannuation.

| | <i>Group</i> | <i>Age</i> | <i>Prior Years</i> | <i>Service Months</i> | <i>Annual Pension</i> |
|-----------------------------|--------------|------------|------------------------|---------------------------|---------------------------|
| Frederick J. King | 2 | 66 | 5 | 3 | 66.66 |

Total contributions from members from July 1, 1940 to December 31, 1940 amounted to \$1,415.92. Of this amount \$49.76 was refunded to employees who did not elect to join the system, making the net contributions \$1,366.16. Pensions paid for the six months amounted to \$1,432.14.

The Board is asking for an appropriation for the year 1940 amounting to \$4,570.00 as follows—

Pension Accumulation Fund:

| | |
|--|-------------|
| Accrued Liability | \$ 2,798.00 |
| Normal Liability | 1,455.00 |
| | <hr/> |
| | \$ 4,253.00 |
| Interest Deficiency on Funds | 17.00 |
| Expense Fund | 300.00 |
| | <hr/> |
| | \$ 4,570.00 |

The amount requested for the Pension Accumulation Fund is determined by the State Department of Insurance.

The financial report for the period ending December 31, 1940 follows.

Respectfully submitted,

C. A. STOCKBRIDGE,
HAROLD J. MORGAN
Board of Retirement

SCHOOL CALENDAR FOR 1940-1941

SENIOR HIGH—39 WEEKS

- Fall term began September 4, 1940
 Closed December 20, 1940—16 weeks
- Winter term began December 30, 1940
 Closes February 21, 1941—8 weeks
- Early spring term begins March 3, 1941
 Closes April 25, 1941—8 weeks
- Late spring term begins May 5, 1941
 Closes June 20, 1941—8 weeks
- Fall term begins September 3, 1941

JUNIOR HIGH AND ELEMENTARY SCHOOLS 38 WEEKS

The same as for the High School, except that late spring term closes June 13, 1941.

HOLIDAYS

The following holidays will be observed: Thanksgiving (schools will close for Thanksgiving at noon the day preceding and remain closed for the balance of the week), New Year's Day, Good Friday and Memorial Day.

DAILY SESSIONS

- Senior High School—8:15 A. M. to 1:15 P. M.
- Junior High School—8:30 to 11:30 A. M. 1:00 to 3:00 P. M.
- Elementary Schools—8:45 to 11:45 A. M. 1:15 to 3:30 P. M.
- First Grades are dismissed fifteen minutes earlier.

STORM SIGNALS

Three blasts for first eight grades, five blasts for entire system.
 Blown at 7:30 A. M. and 12:30 P. M.

Three blasts at 5:30 P. M. for Evening Schools.

REPORT OF THE MAYNARD SCHOOL COMMITTEE

To the Citizens of the Town of Maynard:

We herewith submit our report for the calendar year 1940.

Throughout the year the School Committee has met at least once a month for the transaction of any and all business which properly came before it. The reports on the following pages, of the Superintendent of Schools and the several Supervisors and Principals, in a great measure cover the activities of the School Department.

The following are pertinent facts which we feel should be brought to the attention of the citizens:

RESIGNATIONS

During the year the following resignations were received and accepted.

| | | |
|------------------|---|--|
| Alice D. Healey | — | Grade One, Roosevelt School |
| James P. King | — | Superintendent of Schools and High School Principal |
| Alice L. Fearn | — | Senior High School |
| Ruth E. Wild | — | Domestic Arts |
| Kathryn Bariteau | — | Junior High School |
| Eileen Doyle | — | Senior High School |

The School Committee desires to thank all of the above for their past services and wishes them well in their future activities.

APPOINTMENTS

(In the order in which they were made)

| | | |
|---------------------|---|--|
| Helen Zaniewski | — | Grade One, Wilson School |
| Mary A. Doyle | — | Acting Superintendent of Schools for period beginning April 5, 1940 and ending June 29, 1940 |
| Leo F. Mullin | — | Acting Principal of the Senior High School for the period beginning April 5, 1940 and ending June 29, 1940 |
| Mary E. Coughlan | — | Ass't Principal of the Junior High School for the period beginning April 5, 1940 and ending June 29, 1940 |
| William H. Reynolds | — | Senior High School |
| Albert Lerer | — | Senior High School Principal, effective July 1, 1940 |
| Donald A. Lent | — | Superintendent of Schools effective July 1, 1940 |
| Charles Manty | — | Faculty Manager of Athletics |
| Edith S. Jolikko | — | Domestic Arts |

Elizabeth Mahoney — Senior High School
 Eleanor Flaherty — Junior High School

At this time we think it proper to commend Miss Mary A. Doyle and Mr. Leo F. Mullin for the very fine work they did as Acting Superintendent of Schools and Acting Principal of the Senior High School during the time they occupied those positions.

MAINTENANCE AND REPAIRS

Senior High School

New grates installed in boilers
 Cracked header in boiler repaired
 New inside doors to hallway on first floor installed
 New drinking fountain bubblers installed

Junior High School

New radiators installed in Manual Training Room
 New drinking fountain bubblers installed

Roosevelt School

Outside walls re-pointed
 All window frames repaired
 New smoke stack installed in boiler room
 Chimney re-built
 Yard improved
 Clothes closets repaired
 New cement walks laid
 New drinking fountain bubblers installed

Wilson School

Ventilating fan installed in boys' basement
 Four new outside doors installed
 New doors installed in toilets
 Flag pole repaired
 New drinking fountain bubblers installed

Coolidge School

Lead pipe in plumbing fixtures replaced
 Old toilets removed
 Yard improved
 New cement walks laid
 New drinking fountain bubblers installed

The above listed repairs are of course, in addition to the great many minor repairs and replacements which were made as needed.

PROPOSED MAINTENANCE AND REPAIRS

Senior High School

New Roof

Roosevelt School

Wiring and electric light fixtures replaced
 New clocks throughout building
 New ceilings

Wilson School

Overhaul one of the heater units
 Sewer connection to be made

All Schools

To be repaired and redecorated both inside and outside in cooperation with the WPA

In connection with Maintenance and Repairs, it must be perfectly apparent to everyone that a proper amount of money should be spent to maintain the school grounds and buildings in excellent condition. The school buildings have an appraised value of \$493,891. Investigation discloses the fact that in the past, about three-fourths of one percent of the appraised value has been spent annually to maintain and repair these buildings and grounds. This amount, the committee feels has kept the buildings in usable condition, but not in excellent condition and it is their recommendation that in the future, approximately one and one-quarter percent of the appraised value of the buildings be appropriated and spent to maintain and repair them. This figure would amount annually to approximately \$6,000.

SALARY RESTORATION

The five percent salary reduction which went into effect in 1939 was restored to the School Personnel in 1940.

HEALTH SURVEY

In June 1940 the School Committee had a Health Survey made by the State Department of Public Health and has on file a comprehensive report as to the health and sanitary conditions in the schools. Since this report was made, the committee has put into effect whatever recommendations contained therein that it felt to be practical with relation to our own particular problems.

ATHLETICS

The School Committee during the past year has gone on record that they do not approve of the High School Football Team playing any more so-called "money games", that is, games played with much larger schools for a substantial money guarantee. The committee feels that games should be scheduled for the High School Football Team in so far as possible, with schools that are more our size and more nearly equal in ability. The committee further feels that the time has come when a larger appropriation

should be made by the town for athletics. This appropriation to cover the athletic activities of both the Senior High School, Junior High and Elementary Schools. Such an increased appropriation is asked for in our budget for 1941 and we feel very hopeful that the citizens of Maynard will act favorably on this increased appropriation and that they will recognize the necessity for such an increase.

VOCATIONAL EDUCATION

In our proposed budget for 1941, we are asking for a much larger amount for Vocational Education. More and more of our boys are attending trade schools in nearby cities, taking various vocational courses which are not offered in our school system. The cost of these courses must be borne by our town and we look to see this appropriation continue to increase.

In closing, the committee wishes to extend its sincere appreciation to the entire school personnel for their efforts in conducting schools affairs in such an excellent manner throughout the year.

Respectfully submitted,

J. FRANCIS CLEARY, Chairman
JOHN T. HIGGINS, Secretary
CHARLES A. HEKKALA

January 18, 1940

REPORT OF SUPERINTENDENT OF SCHOOLS

School Committee
Maynard, Mass.

Gentlemen:

I herewith submit for your consideration the Annual Report of the Maynard Public Schools.

In recent years many advanced educators have been approaching the idea that public schools are suffering from mental indigestion brought on by an overdose of variety in their curricula. The race to adequately prepare public school pupils to meet the rapidly increasing demands of adult life has carried our schools away from the necessary stressing of the fundamentals of education. An exhaustive survey of our local school curricula has shown that we must pay more attention to the basic studies. The development of the abilities in the elementary grades of thoughtfulness in reading, legibility in writing, correctness in spelling and accuracy in arithmetic will provide a sound foundation upon which to build intelligent and useful citizens.

BUILDINGS AND GROUNDS

A disorderly environment makes for disorderly pupils whereas agreeable and orderly grounds and buildings provide the environment to induce agreeable and orderly behavior. With the proper pre-disposition on the part of the pupils, the teacher may accomplish much, teacher and pupil both enjoying the pleasure of learning.

The school buildings and grounds have been allowed to deteriorate to a point where the cost of repairs will be considerably greater than would have been the cost had the repairs been made when the need first became evident. Through the cooperation of the WPA, many of the needed repairs and improvements have been and are being made. New walks have been laid and grounds improved at the Roosevelt and Coolidge Schools. A painting and repair project is now going on which will do much of the greatly needed work at a considerable saving to the town. Already, improvement has been reported in pupils' deportment.

Since the opening of school in the fall, the principals and teachers of the elementary grades have been cooperating with the Superintendent in developing a Course of Study best suited to our own school system. At best, it will take considerable time, for each step must be carefully tested. The schools will greatly benefit by the intelligence and enthusiasm being shown by these groups of teachers.

HEALTH SUPERVISION

Closer cooperation is necessary between the parent and the school if we are to make full use of the advantages of having

a School Doctor and a School Nurse. The nurse is available to examine all children who go to school and make proper recommendations where care is necessary. Parents too should watch their children carefully and see to it that those ill at home as well as those sent home by the School Nurse, receive medical care and are not allowed to contact other children, exposing them to possible illness.

PHYSICAL EDUCATION

For many years we have had physical instruction in our school system. We have not however, used this department in the way most beneficial to the community. Physical examinations of our young people show too many defects which could have been corrected by proper muscular exercises during school age. A system of muscular tests and systematic muscular exercises will begin as soon as the testing apparatus can be secured.

PROBLEMS

We still have the problem of sewerage disposal at the Main Street School to which attention was called in the Superintendent's Report of ten years ago. This year the State Board of Health ordered that connection be made to the town system. The Sewer Committee has promised to make connection available and I hope that this promise will be remembered.

The front stairway at the Bancroft School should be re-built as it is too steep and too long for the safety of the small children who use it.

The roof of the Senior High School should be re-built; it has been repaired many times but it would be economy to re-build it rather than continue to repair it.

School playgrounds should be developed so as to attract children from the streets. It is a waste of valuable property to remain idle when children are not using the schools.

ADULT ALIEN EDUCATION CLASSES

(Fall Term 1940)

| | Beginners Class | Inter- mediate Class | Citizen- ship Class | Totals |
|------------------------------------|--------------------|----------------------------|---------------------------|--------|
| No. Sessions..... | | | | 16 |
| No. Enrolled..... | 19 | 19 | 8 | 46 |
| Membership (Close of Term)..... | 17 | 17 | 7 | 41 |
| Average Attendance.... | 14.5 | 17 | 6.3 | 37.8 |

The number of Adult Alien men and women who have taken advantage of the opportunity to learn to read, write and speak English and to prepare themselves for Citizenship decreased in 1940, probably because of night work in the mill. The fact that

over thirteen hundred Aliens registered locally indicates that we must provide additional classes for alien education, possibly afternoon classes for women and day classes for both men and women.

VOCATIONAL EDUCATION

| School | School | Course |
|---|--------------------|----------------|
| Boston Trade School | Dominic Castelline | Airplane Mech. |
| Rindge Tech. Evening Industrial School | Royal A. Forssen | Mach. Draw. |
| | William C. Wasuik | Electricity |
| Waltham Trade School | Antonio Belli | Automobile |
| | Raymond Catania | Automobile |
| | Anthony Costanzo | Machine Shop |
| | Carlo Mistretta | Welding |
| | Anthony Pizza | Machine Shop |
| Worcester Independent Industrial School | Arne Koskinen | Machinery |
| | Lewis Cuttell | Plumbing |

The considerable increase in the number of students from Maynard who are attending Vocational Schools elsewhere at our expense, as well as the recognized need of providing training opportunity for those of our young people who are unable to go elsewhere for training; clearly demonstrates that we must plan to make Vocational Training available locally.

RECORD OF EMPLOYMENT CERTIFICATES

Issued July 1—December 31, 1940

| Factory | Farm | Hotel | Housework | Laundry | Office | Setting up Pins | Store Clerks | Technical | Ushering | Total |
|---------|------|-------|-----------|---------|--------|-----------------|--------------|-----------|----------|-------|
| 139 | 1 | 1 | 2 | 1 | 3 | 3 | 38 | 1 | 4 | 193 |

AGES OF THOSE SECURING EMPLOYMENT CERTIFICATES

July 1—December 31, 1940

| 14-16 | 16-18 | 18-21 | Total |
|-------|-------|-------|-------|
| 2 | 32 | 159 | 193 |

The above table shows the number of employment certificates issued during the past six months and the types of employment secured. Attention is called to the very large number of minors going to work in the factory. It is not in the best interests of the

community that so many young boys and girls should be competing with older men and women for these jobs. It would be of greater advantage to provide training in vocational trades.

CONCLUSION

I wish to express my appreciation to the School Committee for their constructive support and intelligent criticism in my attempt to improve the service of the School Department to the townspeople. I wish to extend my thanks to the Principals, Teachers and Supervisors whose inspiring cooperation has made my first year so happy. May I, through the committee, assure the townspeople that our schools are in safe hands. We are training our pupils for good citizenship, that they may take a proper place in the American Way of Life.

Respectfully,

DONALD A. LENT,

Superintendent of Schools

January 20, 1941

REPORT OF SCHOOL PHYSICIAN

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

The report of the school physician for the year ending December 31, 1940 is as follows:

All pupils (ten hundred and eighty-five) were examined during the year and parents were notified of any conditions that needed correction. These notices were well received and in the majority of cases some adjustment has been made.

The pre-school clinics were held May 9, and 16 and fifty-two children were examined. These clinics are held to prepare children for their school life and to save lost time in school as well as to preserve their health. Early education in health is of prime importance and because of these pre-school clinics there has been a noticeable improvement in the health of the first grade pupils.

The diphtheria clinics were held May 14, 21, and 28, at which time eighty-two children were immunized. These clinics, which are sponsored by the Board of Health, are of everlasting benefit to the school children. There has not been a single case of diphtheria in this town for over ten years.

There have been very few cases of infectious diseases this year, the most common being Impetigo. According to the state law, the treatment of these diseases is not the duty of the school physician or the school nurse unless engaged by the parents.

Inspection of schools for sanitation was made frequently and all buildings were found to be in good condition.

A new machine has been installed for ocular examination which is a decided improvement on the former method of testing the eyes.

A detailed account of school visits and examinations will be found in the school nurse's report.

I wish to thank the superintendent of schools, the school nurse, teachers, parents and all who have cooperated during the last year.

Respectfully,

EDWARD J. FLAHERTY, M.D.
School Physician.

REPORT OF SCHOOL NURSE

Mr. Donald Lent,
Superintendent of Schools,
Maynard, Mass.

Dear Sir:

I wish to submit my report as School Nurse for the year ending December 31, 1940.

| | |
|---|------|
| Number of Visits to Schools..... | 831 |
| Number of Visits to Homes..... | 389 |
| Number of Cases Treated..... | 605 |
| Number of Eye Examinations..... | 1085 |
| Number of Ear Examinations..... | 1085 |
| Communicable disease control—Number excluded..... | 26 |
| Cases of Chicken Box..... | 34 |

The following is a report of the clinics held during the year:

Pre-school clinics conducted by Dr. E. J. Flaherty, School Physician on May 9 and May 16. Number examined—52.

Diphtheria clinics conducted by Dr. E. J. Flaherty, School Physician on May 14, 21, 28; sponsored by the Board of Health. Number immunized—82.

Vaccination clinics conducted by Dr. E. J. Flaherty, School Physician on June 4, 1940; sponsored by the Board of Health. Number vaccinated—45.

Audiometer testing, November 14, 15, conducted by Mrs Helen Hackett, R. N. Public Health Nursing Supervisor. Number tested—895.

At all of these clinics the physician, technicians, etc., were assisted by the School Nurse and, in some cases, by the local Public Health Nurse, Miss Mary A. Ward.

The local branch of the Red Cross Association has aided many undernourished children by providing milk daily.

The Board of Selectmen supplied glasses for seven school children, who were not financially able to purchase them.

School Dental Clinics

This is the eleventh yearly report of the School Dental Clinics, financed by the Board of Health. These clinics were held two mornings a week by Dr. May, Dr. Palmer, Dr. Bellows and Dr. Garland.

| | |
|--------------------------------|-----|
| Number treated at clinics..... | 627 |
| Number Fillings..... | 172 |
| Number Extractions..... | 290 |
| Number of Cleanings..... | 137 |
| Number of Treatments..... | 19 |

The dental examination clinics were conducted by Dr. May January 2, 1940 and March 19, 1940.

Total number of pupils examined—316.

The dentists feel that our School Dental Clinics have accomplished much towards the care and development of the school childrens' teeth.

Good teeth are necessary for good health. The children know that everyone connected with the schools stress the caring of teeth as part of their school work.

I wish to thank our Superintendent, School Physician, Public Health Nurse, Board of Health, Board of Public Welfare, Board of Selectmen, Parents, Teachers and Pupils for the cooperation they have extended to me in my work during the past year.

Respectfully submitted,

EDITH B. FOSTER, R.N.
School Nurse

REPORT OF PHYSICAL EDUCATION SUPERVISOR

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

The aims and purposes of the courses of Physical Education are: To develop organic vigor, provide neuro-muscular training, promote bodily and mental poise, correct postural defects, secure the more advanced forms of coordination, strength, and endurance, and to promote such desirable moral and social qualities as appreciation of the value of cooperation, self subordination and obedience to authority, courage, and a wholesome interest in higher ideals.

The Physical Education Program in the grade schools this past fall was carried on out of doors. Both boys and girls participated in forms of ball games. The plan was to have all boys and girls playing under supervision. This fall, also, a survey in all the grade schools was taken to find the ratio of underweight and overweight children, and to find the number needing corrective work.

| | |
|---|------|
| Number of boys and girls..... | 532 |
| Number of boys and girls underweight..... | 65 |
| Number of boys and girls overweight..... | 62 |
| Per cent of underweight..... | .124 |
| Per cent of overweight..... | .116 |
| Number needing corrective work..... | 50 |

Time will be spent each week in each school to care for those children who need individual attention.

This year the Junior High School pupils have only one day a week in the gymnasium, where the physical side of education is stressed. All students are required to participate unless excused by the doctor. During the winter there is an inter-class league in basket ball for both the boys and the girls. In the spring the school is represented by a varsity baseball team which plays teams from Junior High Schools from surrounding towns.

In September the eyes and ears of all pupils were examined, and the heights and weights were taken. This information was all recorded on the health cards. Weights are recorded four times a year.

This year, for the first time, a practicable measurement program, known as The Physical Fitness Indices, has been installed in the High School. Scores and records of each student are kept year by year, and from this record physical weaknesses of the pupil will be corrected. The main function of measurement is the elimination of chance, thereby making possible progressive increase in rapidity and efficiency of attaining desired ends or objectives.

In the fall the High School is represented by a varsity football team, and also by a Freshman-Sophomore squad. The Freshman-Sophomore squad was something new this year, and we feel that it should be continued, as it not only builds for better teams in the future, but it helps to build the smaller boys both physically and mentally. In the fall the girls have field hockey, representing the school by a first and a second team, both having a full schedule with outside schools.

This winter in the high school there will be intra-mural basket ball leagues for both boys and girls, and at the end of the season the inter-class league schedule is played to determine the class winners and champions of the school.

In the spring track and baseball teams are sponsored by the school. This year, however, in order to carry on our spring program we are required to ask for financial assistance from the School Department. Our Faculty Manager's report shows the financial standing of the Athletic Association. Football gate receipts each year have had to pay for all sports, while this year they barely carried football and field hockey. Without this outside assistance we will have to curtail our regular spring program, which would be depriving our boys of that which they need most, organized and competitive athletics.

I wish to thank the School Committee, the Superintendent, the principals, and all the teachers for their fine spirit of co-operation throughout the past year.

Respectfully submitted,

REGINALD P. SAWYER.

REPORT OF MUSIC SUPERVISOR

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Mass.

Dear Sir:

I herewith submit my report as Supervisor of Music in the Maynard Schools.

The children in the grades receive a great amount of pleasure from their music. They learn songs, do rhythmic exercises, learn the theory of music and listen to the victrola for music appreciation.

A Christmas program was given in the auditorium by pupils of all the schools. The sum of forty dollars was added to the School Music Fund.

A class of twenty pupils are taking lessons on various instruments. If the parents will cooperate by having their child practice every day, much faster progress can be made.

The music in the Junior High School is progressing successfully. The orchestra has one lesson a week and is doing very good work.

I cannot accept the responsibility for the High School Orchestra and Band. Half of the membership of the orchestra since September have been practicing once in two weeks. It is impossible to progress very fast. Most High Schools have two periods a week for orchestra practice.

No period was provided for the Band to receive instruction. They made a good beginning and such a fine appearance in their uniforms that it does not seem advisable to do away with it entirely. The other musical work in the High School is satisfactory.

I express my appreciation to those who have given me their interest and cooperation during the past year.

Respectfully submitted,

ELEANOR S. COLBURN
Supervisor of Music

January 20, 1941

REPORT OF ART SUPERVISOR

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Mass.

Dear Mr. Lent:

For the amount of time granted the classes in art in the Maynard Schools, I feel that the work is quite satisfactory. For a town of this size, having so many talented children I believe sixty to eighty minutes a week in art should be granted the grades and Junior High so that the work won't have to be rushed. It would be more finished and much more satisfactory. A double period of art in the High School would be more beneficial than the single period as it would give the student ample time for actual class work.

"Art is everything and everything is art." A man who paints a picture is an artist—but so is a plumber, a policeman, a fireman, a doctor, etc. Any man who does his work well is an artist in his line of work. Therefore it might take just a bit more time to do the work well—but it would be worth it.

Children who are a bit slow in their studies might find that if they worked with their hands more that they would be much happier. There is a great deal of knowledge in knowing basketry, bookbinding, leather tooling and other handicrafts. This would require a double period of work.

In conclusion I want to thank the teachers for all the cooperation they've given me in trying to make art instructive and interesting.

To the janitors I also extend my thanks for the assistance they've given me.

Sincerely yours,

ANNE P. PASAKARNIS
Supervisor of Art

REPORT OF HIGH SCHOOL PRINCIPAL

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lent:

I herewith submit my report of the Maynard High School for the year 1940. The statistical tabulations of records appended to this report are in part based upon information and educational data which had been accumulating previous to my appointment as principal. Since assuming the responsibilities of this important position in September, I have concentrated on studying the particular educational needs of Maynard boys and girls for the present and future.

The basic requirements for progressive action in developing a program to meet these needs in Maynard is dependent upon the recognition of them by both the parents and the teaching personnel. We are indeed fortunate to be able to retain on our staff so many teachers who are genuinely interested and capable of handling the welfare of our pupils. I believe it might be pertinent to mention that many of these teachers are adding to their education in their spare time by studying for advanced degrees in colleges and universities as time and money will allow. The professional growth and experience of our teachers can compare favorably with schools much larger than ours. It is with pride that I take over the direction of a group so wide awake to the changing educational demands of a changing world.

At present there is a wide gulf between education and the practical affairs of life. Young people wander blindly about for several years after they leave school before they find out what they want to do. The result is confusion, discouragement, and waste. Children should have the opportunity to learn about vocations and their own particular interests and abilities while they are in school. College entrance requirements and educational traditions have been such that administrators in the past were tied to rigid requirements if they cared to maintain approval of their particular schools. Today, however, the college requirements have been broadened and modern progressive educators are attempting more than ever to make the high school fit the need of the student for present day life rather than for some uncertain future need that formerly was explained by confusing terminology and vague generalizations.

It is with this understanding that I have begun to make the changes necessary to bring the Maynard High School program in line with the definite functional needs of its pupils. The English Department has been reorganized with Mr. Reynolds at its head.

He is at present proceeding with the scientific testing of all freshmen to determine strengths and weaknesses in English so that emphasis may be placed where it is most necessary. Graded courses in all departments are essential and gradually, as our program allows, these reorganizations will take place under the supervision and guidance of the heads of the various departments.

The most formative year in high school is the first. It is during this freshman year that students begin to find the need for sound advice and intelligent guidance. Recognition of this has prompted the setting up of a counseling system which I hope will go far toward solving problems of personal adjustment. The freshman year should be one of orientation and exploration so that choices of programs and courses will be decided on the basis of aptitude, ability and interest instead of haphazardly as so often is the case. Under the leadership of Miss Butterworth, the freshman class counselor, each student has been subjected to a battery of psychological tests so that we can scientifically judge his fitness for particular vocations in which he may be interested. With these tests as a background and with other information that we plan to obtain from the parents and the pupils, we hope through individual conferences, to act as advisors so that pupils may choose courses intelligently and follow them through in a well organized plan toward the mastery of a particular field of school work that will lead to a definite predetermined goal. As the years go by this procedure will cover all pupils in the high school so that all may benefit from intelligently planned and guided programs.

To facilitate the further development of this guidance function in Maynard High School, I have assigned Mr. Manty our new course in Vocational Guidance. He is busy at the present time in building a library of information to be used in acquainting students with the requirements and conditions of all fields of work that will be open to them upon graduation.

In this report so far, I have purposely avoided mentioning the programs of our college preparatory and commercial departments. I feel that both of them have adequately taken care of the pupils specializing in these departments and the records of our graduates cannot but reflect the fine work of both our academic and commercial teachers.

RECOMMENDATIONS

I would like to place before you at this time suggestions that I feel will add greatly to the services rendered by us to the children of Maynard.

1. It has been my interest and I know it is yours to see that the health of our students is watched over carefully. I believe that a scientific check up and a corrective program of

individual instruction for those needing it is desirable for the high school. Superficial tests have shown many students with physical handicaps which could be corrected or improved if our Physical Education Director had the testing equipment and the time to devote to this work.

2. One of the greatest assets that any school can have is a good reference library that pupils can use in direct correlation with the work carried on in the classroom. Teachers in Maynard are greatly handicapped by the lack of research facilities which would add to the knowledge and understanding of their pupils. Lack of supervision in the past has made the establishment of one in Maynard High School impractical. I believe there is a solution to this problem that is worth considering. If the wall between Room 20 and the vacant room adjoining it were taken out it would be possible to have a study room teacher assigned to this enlarged room each period according to schedule. The library could then be set up around the walls of this room so that both the library and study could be supervised by the same teacher. This arrangement would not only increase the educational offering to the pupils but would also make more supervised study seats available so that teachers who had classes could be relieved of the responsibility of caring for study pupils in the rear of those classes while carrying on their more important teaching duties.

3. Today more than ever it is recognized that the trades offer as many respected opportunities as other lifetime occupations. While we are doing as much as is possible in our shop work with facilities at hand, I would strongly recommend that our Manual Training Department be equipped to include the teaching of the fundamentals of welding, automobile mechanics, and more electrical and metal work. A fine opportunity awaits those who can qualify as apprentices in these trades and I am sure that Maynard would be well repaid if it increased the offerings of the high school in these fields.

EDUCATIONAL ADDITIONS

1. A Visual Education program has been developed under the direction of Lawrence Lerer. Room 15 has been set aside for this purpose and every week one teacher has the opportunity of showing her classes moving pictures related to her particular subject. These educational films are of the 16 mm. size and are obtained from the Massachusetts State Department of Education and other agencies that specialize in visual aids for teaching.

2. A Club Program has been organized for the students. Ten clubs have been sponsored by the teachers to develop avocations and worthy use of leisure time. These clubs have been well received and I look forward to the time when the informal friend-

ship and confidence created by them between the pupils and teachers will make them valuable additions to our guidance organization.

In closing I wish to express my appreciation for your co-operation and many helpful suggestions throughout the year.

Respectfully submitted,

ALBERT LERER
Maynard High School Principal

MAYNARD HIGH SCHOOL ACCOUNTS 1940

This year there has been a general reorganization of the High School Accounts. The following is a statement of all accounts which are now held in the High School Office.

| | Balance July 1 1940 | Received 1940 | Total | Expenditures | Balance Dec. 31 1940 |
|----------------------|---------------------------|------------------|-----------|--------------|----------------------------|
| Class of 1941.....\$ | 66.49 | \$ 83.70 | \$ 150.19 | \$ 35.00 | \$ 115.19 |
| Class of 1942..... | 32.79 | 43.85 | 76.64 | 3.00 | 73.64 |
| Class of 1943..... | 15.52 | 2.00 | 17.52 | ——— | 17.52 |
| Screech Owl..... | 16.05 | ——— | 16.05 | ——— | 16.05 |
| *General Fund..... | ——— | 81.28 | 81.28 | 63.09 | 18.19 |

*This fund was created by the contribution of the following classes: Class of 1936, Class of 1938, Class of 1939. It is used to obtain visual aids, lecturers, and to pay incidental expenses for items which are purchased through the Principal's Office for the benefit of the students.

The financial affairs of the Athletic Association are now handled by the Faculty Manager, under bond. A statement of this account will be found in his report.

| Michael Zwirbla | Missouri School of Mines |

DIRECTOR OF COMMERCIAL DEPARTMENT

Maynard, Mass., January 21, 1941.

Mr. Donald A. Lent,
Superintendent of Schools,
Maynard, Massachusetts.

Dear Sir:-

I wish to thank the School Board, and you Mr. Lent, for the opportunity afforded me to contribute an article relative to the work of the Commercial Department of the Maynard High School, to the current issue of the Town Report.

This article must be brief because of the limited space available for such purposes. I believe a short story of the case of a certain pupil will tell the citizens as clearly as possible, under the circumstances, what we have been doing last year, and are doing every school day of every year, to produce competent secretaries and office assistants. Here is the story.

A large manufacturing concern wrote saying they were in need of a secretary to a major executive. Their requirements were long experience, or a beginner with one or two years experience, and higher education. They said, "You furnished the present secretary—a girl of sterling worth and great ability."

I recommend a girl about two years out of high school, whom we will call Miss Brown. That is not her name. She WORKED HARD in school, had a PLEASING PERSONALITY, and was very successful in the position she then had. They hired her at once.

After Miss Brown had been there a year, another position came up in their legal department of seven attorneys. This is what they wrote. "If you have another Miss Brown, we would be everlastingly grateful to you. She has turned out to be a prize from every angle." This is only one case; we have many others.

Many young men and young women who came to us could do equally as well, if they would WORK AS HARD AS MISS BROWN. They must first make up their minds as to what they want to do; then work hard to learn their subjects, and develop an agreeable personality. They should be taught outside of school, as well as in school, that to succeed they must work hard and attend strictly to their duties.

Very truly yours,

GEORGE A. KENNEDY
Director Commercial Department

REPORT OF DEAN OF GIRLS

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

The work of the Dean of Girls covers the three phases of a girl's life: physical, mental, and ethical.

The Dean gives first aid to all girls who become ill in high school and sees that all dismissals are investigated and the reasons recorded. She also checks the absent list each morning with the School Nurse, who reports all cases of sickness. When absence is due to other reasons than sickness, the Dean consults with the Principal and the home as to the best method of solving each individual problem.

The Dean examines carefully the ranks of all girls at the end of each marking period and interviews those girls receiving an F. She makes an attempt to learn the reason for the failure and to find the right remedy. After the Dean consults the instructor, if it seems advisable to readjust the girl's program, that is done; if it seems wise to consult the parents, the Dean calls at the home and talks with the mother. She has always found grateful cooperation in the home. The Dean also assists the Principal in all matters of discipline he calls to her attention.

The programs of all girls planning to continue training in schools or hospitals are checked each year to make sure that these students are covering the required subjects. Conferences are held with the senior girls as to their plans after graduation. The new emphasis on vocational guidance this year is a great help and will become more valuable in the future as the department grows.

The newly formed Junior Woman's Club is sponsored by the Dean of Girls and is already proving a helpful project.

The most valuable part of the Dean's work is that of confidential adviser to girls seeking personality adjustments. Adolescence is a time of turmoil and conflicting desires for many girls. These upsets interfere with successful school work, and the Dean is always willing to give time and help whenever a girl comes with her problem. The lasting friendships the Dean has formed with many of these girls is more than sufficient pay for any overtime work she may put in. In this work the Dean has always been handicapped in that she has no private office and no absolutely free period during which a girl may consult her privately. It would greatly increase the Dean's efficiency if such arrangements could be made for the future.

Respectfully submitted,

ETHEL R. BUTTERWORTH,
Dean of Girls

REPORT OF FACULTY MANAGER OF ATHLETICS
OF MAYNARD HIGH SCHOOL

Mr. Albert Lerer
Principal
Maynard High School
Maynard, Massachusetts

Dear Sir:

I herewith submit my report as Faculty Manager of Athletics in Maynard High School.

During the past the maintenance of the High School athletic program has been financed by the income derived from football. That this policy has never been successful is proven by the old bills that were unpaid at the beginning of school in September, 1940.

This year we were handicapped by the cancellation of the Thanksgiving football game with Clinton High School. Despite this fact we were able to balance the football accounts for the year.

In order to have a balanced program of sports for boys and girls, it will be necessary for other financial support. The desirability of scheduling contests with schools in our enrollment class will eliminate the money games which have been arranged in the past in order to bolster the athletic income.

Participation in hockey and track has been more or less sporadic in the past due to the inadequacy of local facilities. Our past record has shown, however, that we can successfully compete with other schools in these sports. In order to do this it will be necessary to make the facilities at Alumni Field available throughout the year.

In conclusion I wish to thank the School Committee and the Superintendent for their constructive criticisms, and express my appreciation to the Principal of the High School, members of the faculty, coaches, student body and townspeople for their splendid cooperation during the year.

Respectfully submitted,

CHARLES W. MANTY
Faculty Manager of Athletics

REPORT OF FOOTBALL COACH

Mr. Donald A. Lent
 Superintendent of Schools
 Maynard, Massachusetts

Dear Mr. Lent:

As Football Coach of Maynard High School I herewith submit my first annual report.

Football practice was called two weeks earlier this year than previous years due to a pre-season game with Leominster.

About thirty boys reported to me at Alumni Field and all were given equipment. The first week of practice was devoted to conditioning work such as callisthenics, grass drills, sprints, passing and kicking. The second two weeks were devoted to fundamental work.

A Freshman team was organized and we arranged games with other Freshman teams from Clinton and Framingham.

The weight of each boy was taken before and after practice each day to keep a close check on them. Due to the good condition of the boys we did not have any serious injuries. Minor bruises and such were taken care of by Mr. Sawyer and Dr. Flaherty.

The schedule consisted of nine league games and a pre-season game with Leominster. We won four games, lost four, and two were called off due to bad weather.

I wish to thank our Superintendent, Principal, Assistant Coach, members of the Faculty and all the boys on the team for their cooperation during the football season.

Respectfully submitted,

MICHAEL J. VODOKLYS.

REPORT OF HOME ECONOMICS DEPARTMENT

January 18, 1941

Mr. Donald A. Lent
 Superintendent of Schools
 Maynard, Massachusetts

My dear Mr. Lent,

I herewith submit my first annual report as teacher of Home Economics in the Maynard Junior and Senior High Schools.

The chief objectives of general Home Economics are:

1. To enable girls to make simple garments and to assist in the selection and care of their clothing.

2. To assist girls to buy, prepare, serve, and care for food in accordance to the family's need and income.

It is with these general objectives in mind, and with the guidance of past schedules, that I have planned the course of study for my classes.

Each class has a semester of Clothing and a semester of Foods. In the Junior High School, one double period a week is devoted to Home Economics, whereas in the High School we have a double period three days a week.

The Clothing is divided into the following units: Care and Use of the Sewing Machine, Construction, Selection of Clothing, Care of Clothing, Personality Development, and How to Know Textiles. In the clothing classes the students make towels, aprons, potholders, shoe bags, laundry bags, bureau scarves, table linen, blouses, skirts, pajamas, slacks, smocks, housecoats, dresses, and do remodeling.

The Foods is divided into the following units: Simple Breakfast, Packed Lunch, Simple Luncheon and Supper, Simple Dinner, Food Preservation, and Candy Cookery. Meal planning and serving, including marketing and nutrition, are taught in connection with meals for the family. Manners, customs, and conventions relating to foods are also given in connection with this course.

This year, a Boys' Cooking Club was organized. Because of facilities, the club membership is limited at present to twenty. The boys are very interested and filled with enthusiasm, suggesting a possibility of further development along this line in the school curriculum.

I have had great pleasure in working in a comparatively well-equipped laboratory with many evidences of fine work by predecessors. However, the work would be greatly facilitated with the addition of some type of a hot water system. I feel that ultimately it would prove more time-saving and economical than the present heating of small amounts of water on the gas stoves.

I wish to express my appreciation to those who have given me their interest and cooperation during the past year.

The Home Economics Department extends an invitation to all those interested to visit the classes at any time.

Respectfully submitted,

EDITH JOLIKKO

REPORT OF MANUAL TRAINING DEPARTMENT

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

I herewith submit my report of the Manual Training Department.

There are ninety boys in the Junior High School who take shop work. The fundamentals of woodworking are taught to these boys for a double period each week (eighty minutes). The boys get a chance to work on projects which are arranged according to their difficulties. The boys pay for the material used in their projects.

There are sixty boys enrolled in Senior High School Shop Work and fifteen boys in Second Year Mechanical Drawing. The Freshman shop is a general shop. It consists of practical projects in electricity, sheetmetal, pipe threading, glazing, general metal work, woodworking and woodturning. This is an exploratory course to give the boys a chance to try out several trades in order to help them choose a trade in which they are suited.

The Sophomore, Junior and Senior shop consists of a course in advanced woodwork. The boys have completed projects which are a credit to themselves and their school. A progress record chart is kept which is identical to the one that is used in State-aided Trade Schools.

I recommend this year that you consider the need of more equipment in order to teach more trades in which there is a demand for skilled workers. These trades are Machine Work, Automobile Repairing, Electricity, Welding and Sheetmetal Work.

I also recommend the purchasing of a ventilating fan and blower for controlling dust, for better health conditions in the shop.

I appreciate the prompt manner in which material has been given to me, also the cooperation shown me by fellow-members of the school personnel.

At this time I wish to thank the parents for their cooperation and sacrifices which they have made in order to have the pupils pay for their projects, at the time it was due.

The pupils of the Maynard schools are a fine group and with proper guidance and training will be an asset to our community and country.

Sincerely,

WALTER T. TIERNEY

REPORT OF JUNIOR HIGH SCHOOL PRINCIPAL

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

I herewith submit my annual report as Principal of the Emerson Junior High School.

This is an age of standardization and each field of endeavor has its own standard. The annual school report period is an opportune time to compare a school with the standard or general definition of what a school should be. The bulletin of the North Central Association of Colleges and Secondary Schools defined a junior high school in the following terms: "A junior high school is a school in which the seventh and eighth grades are segregated in a building by themselves, possess an organization and administration of their own that is distinct from the grades above and grades below and are taught by a separate corps of teachers who understand the needs of children of the junior high age."

The junior high school as a unit in the educational system of Maynard corresponds with this definition very closely. We have the separate building in which children are grouped by themselves, apart from the younger children in the earlier grades and also from the more mature pupils of the senior high school.

We provide for a gradual transition from the grades to the high school years. This is accomplished by the gradual introduction of departmental teaching and high school methods. A carefully controlled program of extra-curricular activities trains the pupil for participation of life's activities and develops his sense of social responsibility.

Regular assemblies are held and the programs planned with the following aim in mind:

- To observe holidays
- To stimulate expression and develop poise
- To develop good speech habits
- To develop high standards of taste and appreciation of the fine arts.

Children of today are becoming independent in their own minds. Their judgment isn't equal to all the situations that they create and they resent direction. The program of the junior high school must be planned to meet their growing needs, but must guard the progressiveness of their own spirit. The school and home have a common goal. Teachers and parents are dedicated to the proposition that youth must be prepared for useful, happy living as adult members of our democratic society.

There is a dangerous tendency today of teaching children "their rights" and failing to teach them "their duties". Parents have the duty of teaching discipline, work habits, self-reliance, courtesy and manners more than the school. The intangibles of attitude, cooperation, leadership, willingness to study, tolerance and an appreciation of the fine and beautiful in life are fundamental to good citizenship.

I have endeavored to keep up a high standard of discipline, scholarship and administrative policies in my school. It would be easier for the teacher to overlook failures by rating the children above their abilities and giving a mark which would please the children and parents for the time being, but later on the fallacy of such procedure would be evidenced by the failure in life of the pupil. The junior high teachers correct papers conscientiously and endeavor to help after school hours those children who are below average.

In conclusion may I say I would welcome suggestions as to how I might raise to a still higher standard all policies and attainments of the present program.

Respectfully submitted,

MARY A. DOYLE,
Principal of Emerson Junior High School

January 15, 1941

REPORT OF ROOSEVELT SCHOOL PRINCIPAL

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Mass.

Dear Sir:

I herewith submit to you my annual report of the Roosevelt School for the year 1940.

As far as the building and repairs in general are concerned I think I can pass over this topic. You know the run down and neglected condition it was in when you took charge of affairs. It is gradually being brought into shape again and if your present plans materialize it will again be a building the townspeople may well be proud of.

The conferences held during the fall term for open discussion of the work of the elementary teachers have resulted in an eagerness on the part of the teachers here to cooperate with each other and with the teachers of the other buildings to get the best results possible from their work.

At your suggestion we are giving reading a more important place on the daily program and shifting into the background the less essential and often non essential subjects and topics. This has brought about a demand from the teachers for more and better readers, in all grades. We are reviewing the sample readers you gave me and would like more. We all hope the conferences will be continued this term.

In the fourth, fifth and sixth grades, readers have been transferred from one building to another. Considering the price of elementary text books I think this is false economy. A greater strain is put upon the book, time is wasted in transferring and a teacher is often marking time while waiting for another teacher to hurry through a set of books because she knows some one is waiting for them. A pupil does not have the same respect and responsibility for a book passed around as he does for one placed in the keeping of his own particular room.

May I take a little of your valuable time to say something about *our playground*. I like that term better than "our backyard". Physical surroundings mean a great deal more to the all round education of children than most people think they do. The treatment given the grounds in the fall has made the best playground we have ever had. This is the first year that I have received any encouragement in my pleas to improve the grounds. I hope this is only a beginning.

You have been instrumental in establishing playgrounds for the older boys and girls of the town. I have long cherished a desire to see a playground in Maynard equipped for the younger children. The success of the former should be a strong plea for the latter. The centrally located Roosevelt grounds in a very congested area of the town would be an excellent place to start. We have some money in our school fund and could help a little in this work. A Parent-Teachers Association here might be a great factor in helping school officials find some way to finance a project like this.

We try to teach safety in the schools and should follow it up by giving children a safe place to play in. Playing in the streets is safe for boys and girls neither morally nor physically. During the long evenings of spring and summer, children would enjoy such a playground.

In conclusion I would say that the work of this school is possible only through the faithful efforts of an excellent staff of teachers. Uniting with them I thank you for your kindly interest in us and in our school. We wish you success in the coming year.

Respectfully submitted,

NELLIE C. MAY

January 10, 1941

REPORT OF COOLIDGE SCHOOL PRINCIPAL

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Sir:

I herewith submit to you my report as principal of the Calvin Coolidge School.

The building is in good condition but I am suggesting a few improvements. The ceilings in the upper story are cracked and in some places seem unsafe. There are also stains on the ceilings in the fourth and sixth grades.

It has been difficult to hear the outside bell from the playground ever since it was installed. I suggest that another bell be installed on the south side of the building, both bells to ring at the same time.

We would appreciate new lighting fixtures in all the grades. The old fashioned fixtures give us very little light.

The light switch in the lower hall is located near the first grade door which is some distance from the front door making it very inconvenient in the winter when one has to grope his way to the door. Would it be possible to relocate the switch nearer the outside door?

The installation of an electric clock to ring outside and inside bells would save much time and unless it is very expensive will you look into the matter and install one if feasible?

The mud and dust brought into the building from the unfinished playground certainly prove the need of finishing it as soon as possible. We appreciate the wider cement walks around the building. Seeded lawns and a few shrubs would add much to the appearance of the building.

The blackboards in the classrooms are becoming gray again. The finish put on last year did not last long and was not satisfactory. The boards reflect the light making it difficult to use them efficiently. Is there no way to overcome this difficulty?

In behalf of the teachers I wish to thank you for the interest you have taken in all our problems and the help you have given us so promptly at all times.

Respectfully submitted,

GRACE M. PERLEY

January 13. 1941

REPORT OF WILSON SCHOOL PRINCIPAL

Mr. Donald A. Lent
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lent:

The annual report of the Woodrow Wilson School is herewith submitted.

All the teachers in this school are members of the National Education Association. Membership fees are provided from the School Fund.

Money from the School Fund is used, also, to pay for subscriptions to four educational magazines. Further use of the Fund during the past year was to supply each teacher with a portable duplicating outfit which makes it possible for her to do her duplicating at home when she wishes. Victrola records and equipment for the toy band were bought for school use.

During the severe cold weather of last winter frequent indoor recesses were held. This kept the children warm and dry with the result that there were few absences due to colds at that period.

Before the close of school last June, NYA girls from the High School were called in to help the teachers with various tasks incidental to the closing of school. Their work was efficient and it was appreciated by the teachers. High School NYA boys helped our janitor with the spring clean-up about the grounds.

In the summer, improvements and repairs were made on the heating, ventilating and sanitary systems; four modern drinking fountains were installed; and side doors, which improve the appearance of the building were put on.

Several children in one of the classes were found to be unable to do the required work of their grade at the beginning of this year, so, for this reason, they are sent each day to a lower grade to receive special help in their weak subjects. By doing this they will be able to do better work next year when they repeat their grade. The teachers who are assisting these slow pupils are to be commended for their fine spirit of cooperation.

The well kept grounds make our school one of the most attractive spots in Maynard. Mr. Hilferty deserves a great deal of credit for the excellent care he gives the building and its surroundings. Recently a visitor who entered our school for the first time said, "I did not expect to find an old building looking so clean and well cared for."

The teachers are taking every opportunity to put into practice the suggestions received at the meetings of the Primary and the

Intermediate groups. We appreciate the opportunity for such discussions and we thank you for your cooperation and confidence.

We teachers thank the supervisors for what they are doing to help make the children's school life more interesting, and Miss Foster for the advice and assistance she gives to us.

To the teachers of the Woodrow Wilson School I am grateful for their cooperation and support.

Respectfully submitted,

MARY L. WOOD, Principal

The figures in bold faced type show the number of pupils of normal age for the grade; those at right of bold face type show the number above normal age or "over age," those at left show the number below normal age or "under age." With a well adapted course of study and not too arbitrary system of marking, a school system in general should show about the same percentage of "over age" and "under age" pupils.
