Expended,	148 10	
	<hr/>	
Balance unexpended,		\$1 90

#### *To the Citizens of Maynard:*

The financial report of the various departments under our charge is herewith submitted, from a financial standpoint the year covered by this report we feel has been a successful one when we take into consideration the unexpended balances in the different departments, especially is this so of the general government and police, both of these departments showing good balances.

### Highways and Sidewalks.

During the past year we have continued to expend the appropriation of these departments in permanent improvements as far as possible, by recovering the surface of Main and Mason streets and Parker from Waltham street to the Acton line, with another application of tarvia. We believe on account of the heavy traffic over these streets that this is the best method to save them from wear and prevention of dust during the past year we applied to the County Commissioners for a re-location of Acton street from the corner of Nason to Concord street, this work being done we feel that the whole of Acton street should be put in good condition during the present year.

Nason street from Summer to Acton street needs attention as does also Glendale street, Great road from the junction of Main street to the Stow line was finished during the past year and is now in good condition. We are still seriously handicapped for the want of good gravel at convenient points.

The stone work under paper mill bridge has been pointed with cement the top was also stripped and covered covered with a coat of cement, walls were built underneath the two largest arches with cement leaving the bridge now in good and safe condition. The money for doing this work being taken from the Highway department,

The appropriation for permanent sidewalks has proven a success. A large amount of concrete and cement has been laid in different parts of the Town and hope this work will be continued ..

We have endeavored to carry out the wish of the Town regarding the same and in so doing we wish to call the attention of the citizens that any one may by applying to the Selectmen and agreeing to pay one half of the cost have such a sidewalk constructed. We have considered it our duty to take this work up in the order in which the citizens apply for it that is those applying first to be served first. During the past year we again took up the matter with the B. & M. R. R. Co., for protection at the Concord, Acton and Summer streets crossings as a result gates have been installed at all three crossings.

We have requested the company to repair the fence along their line of tracks between Main and Sudbury streets crossings and have their assurance of an early compliance of the same.

### Lighting.

During the year the board has installed new lights in different parts of the Town where they thought them most needed. There are other places in Town which we don't consider properly lighted and hope they will be given attention during the present year.

### Police.

During the past year we have continued the system by which each license holder should pay for a special officer to be stationed near his place of business, subject to the

orders of the Chief of Police, this we believe has worked well as we think it helps to keep down lawlessness in our Town which we believe has been very free of during the past year.

In conclusion would say that the Town is handicapped in building of highways for the want of a steam roller the hiring of one being very costly. The board has found it very hard to engage one at the time of the season when mostly needed and would recommend that at some future Town meeting, the citizens take up the matter as to the advisability of securing a roller to be owned by the Town,

During the fall the drinking fountain which was presented to the Town through the generosity of Mrs. L. S. Brooks in memory of her husband was set in place, and will be ready for use during the coming summer.

Respectfully submitted,  
WILLIAM CONNOLLY,  
WILLIAM JONES.

## TOWN CLERK'S REPORT FOR THE YEAR 1911.

---

From the Town Clerk's Records, March 1, 1911, to  
March 1, 1912.

Town Warrant No. 188    Town Meeting, March 13, 1911.

Commonwealth of Massachusetts.

Middlesex, ss.

*To either of the Constables of the Town of Maynard, in said County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said Town, on Monday, the thirteenth day of March next, at 7 o'clock a. m., then and there to act on the following Articles:

**Article 1.** To choose a Moderator to preside at said meeting.

**Art. 2.** To choose by the Australian system of balloting the following Town officers: One Town Clerk, one Town Treasurer, one Collector of Taxes, each for one year, three Selectmen for one year, one Overseer of the Poor for three years, one member of the Board of Health for three years, one Water Commissioner for three years, one member of the School Committee for three years, one Assessor for three years, one Trustee of the Public Library for three years, one Tree Warden for one year, two Auditors for one year, three Constables for one year, one Cemetery Commissioner for three years, and all Town Officers, to be chosen at said meeting. Also to answer by the said Australian system of balloting the following question: "Shall licenses for the sale of intoxicating liquors be granted in this Town?"

For the purpose specified in this article the polls will be open after the election of a Moderator and will remain open until four o'clock in the afternoon when they shall be closed unless the meeting there assembled otherwise determine.

**Art. 3.** To hear and act upon the reports of Town Officers and Committees.

**Art. 4.** To see if the Town will appoint a Committee to consider appropriations for the ensuing year and report at the April meeting. To do or act thereon.

**Art. 5.** To see if the Town will authorize the Treasurer with the approval of the Selectmen, to borrow, during the municipal year, beginning February 1, 1911, in anticipation of taxes for said municipal year, such sums of money as may be necessary for the current expenses of the Town, giving the notes of the Town therefor, payable within one year from the date thereof.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this second day of March in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM JONES,  
WILLIAM CONNOLLY,  
ARTHUR E. WALKER,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, March 4, 1911.

I have served the within named Warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said Town, seven days before the time of holding said meeting, as within directed.

WILLIAM JONES,

*Constable of Maynard.*

A true copy, Attest:

ALFRED E. McCLEARY,

*Town Clerk.*

---

Proceedings at Town Meeting, March 13, 1911.

---

Pursuant to Town Warrant No. 188, the voters of Maynard assembled at Co-operative Hall on the above date and acted on the several articles of the Warrant as follows:

The meeting was called to order at 7 o'clock a. m., by the Town Clerk and the Warrant read, cards of instruction and specimen ballots having previously been posted.

**Article 1.** On motion of Edward G. Cheney it was voted unanimously that the Town Clerk cast one ballot for Henry Ledgard, Jr., as Moderator. The check list was used.

**Art. 2.** The ballot clerks, William F. Morrison, Luke J. Hannon and Henry S. Gilroy, appointed by the Selectmen were sworn by the Town Clerk, who delivered to them a sealed package of ballots containing twelve hundred general ballots and two hundred and forty special ballots for School Committee only, together with duplicated check lists of men

and women voters, and took the receipt therefor, which receipt is on file at the Town Clerk's office. The ballot box was opened and examined by the election officers and the register set at 0000, after which it was locked and put in charge of John Connors, Constable, who was sworn by the Town Clerk. The polls were declared open by the Moderator at 7.10 a. m.

John W. Flood, George Smith, Daniel Colbert and James Mullen were appointed tellers by the Selectmen and sworn by the Town Clerk.

It was voted to postpone action on the other articles in the Warrant until two o'clock p. m.

It being deemed advisable by the Moderator and Town Clerk it was decided to begin counting the ballots before the close of the polls. Ballots were accordingly taken from the ballot box from time to time during the day and counted. The polls were closed at 4.15 p. m.

The total number of ballots cast was nine hundred and twelve. The number registered by the ballot box was nine hundred and thirteen. Of this number eight hundred and forty-eight were general ballots and sixty-four were special ballots for school committee only. The names checked on the check lists tallied with the number of ballots cast. The count was made with the counting board and resulted as follows:

**Field Drivers.**

Fred W. Taylor, William Bishop, Ainsley O. Dunham.

**Measurers of Wood and Bark.**

Albert W. Haynes (sworn), Hiram Parkin, James R. Bent.

**Surveyors of Lumber.**

Albert W. Haynes (sworn), James Mullen, Levi R. Cheney.

**Art. 3.** The reports of the several Town Officers were taken up in order and accepted as printed in the annual Town report.

It was voted that the Committee appointed at the annual meeting in March 1910, to investigate the need of a new hook and ladder truck be instructed to investigate further the kind of truck needed and the cost of such a truck as they would recommend and report at the April meeting.

**Art. 4.** It was voted that a committee of seven be appointed from the floor to consider appropriations for the ensuing year and report at the April meeting. The following committee were appointed:

Arthur J. Coughlan, Charles D. Holmes, Orrin S. Fowler, George H. Gutteridge, Abel G. Haynes, B. J. Coughlin, Julius Loewe.

**Art. 5.** It was voted unanimously that the Treasurer be and hereby is authorized with the approval of a majority of the Selectmen, to borrow during the municipal year beginning February 1, 1911, in the anticipation of the collection of taxes such sums of money as may be necessary for the current expenses of the Town but not to exceed in the aggregate \$50,000.00 giving the notes of the Town therefor, payable within one year after the date thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year.

Attest: ALFRED E. McCLEARY,  
*Town Clerk.*

Warrant No. 189

Town Meeting, April 3, 1911.

Commonwealth of Massachusetts,

Middlesex, ss.

*To either of the Constables of the Town of Maynard, in said County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said Town; on Monday, the third day of April next, at 7.30 p. m., then and there to act on the following articles.

**Article 1.** To choose a Moderator to preside at said meeting.

**Art. 2.** To hear and act on reports of Town Officers and Committees.

**Art. 3.** To fill all vacancies in Town Offices.

**Art. 4.** To see if the Town will vote to appropriate and grant money for all Town purposes. To do or act thereon.

**Art. 5.** To see if the Town will vote to appropriate the sum of two hundred dollars (\$200.00) for band concerts. To do or act thereon.

**Art. 6.** To see if the Town will vote to appropriate a sum of money for Memorial Day.

**Art. 7.** To see if the Town will vote to appropriate a sum of money for widening and improving sidewalk, and building bank wall in front of Congregational church. To do or act thereon.

**Art. 8.** To see if the Town will instruct the Water Commissioners to lay about two thousand feet of iron pipe on the

conduit line, according to plan of Engineer L. D. Thorpe, as recommended by the Superintendent of Water Works. To do or act thereon.

**Art. 9.** To see if the Town will vote to accept the sum of one hundred dollars (\$100.00) and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Matilda Clark lot in Glenwood Cemetery. To do or act thereon.

**Art. 10.** To see if the Town will vote to accept the sum of one hundred dollars (\$100.00) and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Artemas Whitney lot in Glenwood Cemetery. To do or act thereon.

**Art. 11.** To see if the Town will vote to appropriate a sum of money for fighting the elm beetle. To do or act thereon.

**Art. 12.** To see if the Town will vote to accept the sum of one hundred and fifty dollars (\$150.00) and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Thomas C. Denniston lot in Glenwood Cemetery. To do or act thereon.

**Art. 13.** To see what action the Town will take in regard to salary of the Fire Engineers. To do or act thereon.

**Art. 14.** To see if the Town will vote to purchase a new hook and ladder truck and appropriate a sufficient sum of money therefor. To do or act thereon.

**Art. 15.** To see what rate of interest the Town will charge upon its unpaid taxes, after September 10th, in the year of assessment. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 22nd day of March in the year of our Lord, one thousand nine hundred and eleven.

ALFRED E. McCLEARY,

*Town Clerk.*

## Proceedings at Town Meeting, April 3, 1911.

---

Pursuant to Town Warrant No. 189 the voters of Maynard assembled at Co-operative Hall on the above date and acted upon the several articles in the Warrant as follows:

The meeting was called to order by the Town Clerk at 7.30 p. m., and the Warrant read.

**Article 1.** Henry Ledgard, Jr., was elected Moderator by ballot, the check list being used.

**Art. 2.** The Committee on appropriations appointed at the annual March meeting submitted the following report which was accepted by the meeting:

### Report of the Committee on Appropriations.

Your Committee beg leave to submit the following report. We interviewed the several town boards and would recommend the following amounts:

Water Sinking Fund	\$6,000 00
Fire Department Maintenance	3,000 00
Interest on Loans	1,300 00
Treasurer's and Collector's Bonds	175 00
Soldier's Relief	300 00
Tree Warden	100 00
Board of Health	1,000 00
Park and Bancroft Street School	
Grounds	150 00
School Department	26,000 00
Highways	4,000 00
Sidewalks	1,000 00
Poor Department	3,500 00
Street Lighting	3,100 00
Police Department	2,200 00

General Administration	\$4,000 00	
Suppression of the Elm Beetle	300 00	
Public Library      Dog Tax and	400 00	
Public Library, special for indexing	600 00	
Total	<hr/>	\$57,125 00

(Signed )

ARTHUR COUGHLAN,  
 B. J. COUGHLIN,  
 O. S. FOWLER,  
 GEO. H. GUTTERIDGE,  
 A. G. HAYNES,  
 C. D. HOLMES,  
 JULIUS LOEWE,

*Committee.*

Arthur E. Walker, Chairman of the Selectmen, reported that plans had been filed with the Selectmen of Oak and Summit streets but that it appeared therefrom and from an inspection of said streets that it would not be desirable for the Town to accept these streets as town ways for the reasons that they were too narrow, it would be necessary to fence certain portions and their general condition was not such as to make acceptance desirable at this time.

The above report was made under the vote taken at the special meeting held October 19, 1910, on Article 15 of the Warrant calling said meeting.

**Art. 3.** There being no vacancies in Town offices this article was passed over.

**Art. 4.** It was voted to take up the matter of appropriations for the several town departments, separately. This was accordingly done with the following result.

## Appropriations.

Water sinking fund	\$6,000 00	
Fire department maintenance	3,000 00	
Interest on loans	1,300 00	
Treasurer's and Collector's Bonds	175 00	
Soldier's relief	300 00	
Tree Warden	100 00	
Board of Health	1,000 00	
Public park	50 00	
Bancroft street school grounds to be expended under the direction of the park superintendent	100 00	
School department	26,000 00	
Highways	4,000 00	
Sidewalks	1,000 00	
Poor department	3,500 00	
Street lighting	3,100 00	
Police department	2,200 00	
General administration	4,000 00	
Suppression of the Elm Beetle to be expended under direction of Selectmen	300 00	
Public Library Dog tax and	400 00	
Special appropriation for index for Public Library	600 00	
Observance of Memorial Day	125 00	
Total		\$57,250 00

**Art. 5.** It was voted that the sum of two hundred dollars (\$200) be appropriated for band concerts.

**Art. 6.** This article having been acted upon under article four, it was passed over.

**Art. 7.** On motion of Arthur E. Walker it was voted that the sum of four hundred dollars be appropriated for widening and improving the sidewalk, and building a bank wall in front of the Congregational church.

**Art. 8.** Voted that the Water Commissioners be and hereby are instructed to lay about two thousand feet of iron pipe on the conduit line from White Pond to the Pumping station according to the plan of Engineer L. D. Thorpe as recommended by the Superintendent of Water Works.

**Art. 9.** Voted to accept the sum of one hundred dollars and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Matilda Clark lot in Glenwood Cemetery and its surroundings.

**Art. 10.** Voted to accept the sum of one hundred dollars and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Artemas Whitney lot in Glenwood Cemetery and its surroundings.

**Art. 11.** This Article having been taken up under article four, it was passed over at this time.

**Art. 12.** Voted to accept the sum of one hundred and fifty dollars and hold the same as a fund, the income therefrom to be used for the perpetual care and preservation of the Thomas C. Denniston lot in Glenwood Cemetery and its surroundings.

**Art. 13.** Voted that the salary of the Fire Engineers be fixed at fifty dollars each per year.

**Art. 14.** Voted that the sum of eighteen hundred dollars (\$1,800.00) be appropriated for the purchase of a new hook and ladder truck for the fire department and that the Fire Engineers acting with the Selectmen be instructed to purchase the same.

**Art. 15.** Voted that the Town charge interest at the rate of six per centum per annum upon all unpaid taxes after September 10, in the year of assessment.

The meeting adjourned at 9.30 p. m.

Attest:

ALFRED E. McCLEARY,

*Town Clerk.*

Commonwealth of Massachusetts, Middlesex, ss.  
Maynard, April 27, 1911.

In accordance with the provisions of Section 62 of Chapter 25 of the Revised Laws of Massachusetts, I hereby appoint Mabel A. Brown of said Maynard to be Assistant Town Clerk of said Maynard for the current municipal year, or until the appointment be revoked.

ALFRED E. McCLEARY,  
*Town Clerk of Maynard.*

---

I, Mabel A. Brown, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Mass.

MABEL A. BROWN.

Subscribed and sworn to this twenty-seventh day of April, before me.

Warrant, No. 190

Town Meeting, Sept. 26, 1911.

Commonwealth of Massachusetts, Middlesex, ss.  
*To either of the Constables of the Town of Maynard, in the County of Middlesex, Greeting;*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall in said Town on

Tuesday, the twenty-sixth day of September at 6.30 p. m., then and there to bring in their votes to the Selectmen for nominations for the following offices: Governor, Lieutenant Governor, Secretary of the Commonwealth, Attorney General, Treasurer, and Receiver General, Auditor of the Commonwealth, Councillor for the Sixth Councillor District, Senator for the Fifth Middlesex District, Representative in the General Court for the Tenth Middlesex District, County Commissioner for Middlesex County, Clerk of Courts for Middlesex County, Register of Deeds for the Southern Middlesex District, and for all other State, County and District officers; and to elect District member of the State Republican and Democratic committees, three delegates to the Republican State Convention, two delegates to the Democratic State Convention, and five members each of the Republican and Democratic Town Committees.

The Polls will be opened at six thirty p. m., and may be closed at 8.30 p. m.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk or the Selectmen at or before the time appointed for holding said meeting.

Given under our hands this 14th day of September in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM CONNOLLY,  
WILLIAM JONES,  
*Selectmen of Maynard.*

Middlesex, ss.

Maynard, September 18, 1911.

I have served the within named Warrant by posting an attested copy of the same at the Post Office and one at ten other public places in said Town, seven days before the time of holding said meeting as within directed.

WILLIAM JONES,

*Constable of Maynard.*

A true copy, Attest:

MABEL A. BROWN,

*Assistant Town Clerk.*

---

**Proceedings at Town Meeting, Tuesday, September 26, 1911**

Pursuant to Town Warrant, No. 190, the voters of Maynard assembled at Co-operative hall on the above date to cast their ballots for the nomination of the various party candidates for State, County and District officers, according to the provisions of the new direct primary act so-called.

The meeting was called to order by the Town Clerk and the Warrant read after which the polls were declared open, at 6.30 o'clock p. m.

The following primary officers, appointed by the Selectmen, were sworn by the Town Clerk:

Ballot Clerk and Tellers:—George Smith, Henry Ledgard, Jr., William Coulter and James Mullen, Constable, John Connors was in charge of the ballot box. William Connolly, Chairman of the Board of Selectmen presided.

The total number of ballots cast was two hundred and twenty-seven apportioned as follows: Republican, one hundred and sixty-six; Democrat, sixty; Democrat Progressive, one.

The ballot box register showed two hundred and twenty-seven ballots registered and both check lists corresponded with the number of ballots cast.

The polls were closed at 8.30 p. m.

The result of the voting was as follows:

Attest:

ALFRED E. McCLEARY,

*Town Clerk.*

Warrant No. 191

Town Meeting, November 7, 1911

Commonwealth of Massachusetts,

Middlesex, ss.

*To either of the Constables of the Town of Maynard, in said County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall, in said Town on Tuesday the seventh day of November next, being the first Tuesday after the first Monday in November, at seven a. m., then and there to bring in their votes to the Selectmen for Governor, Lieutenant Governor, Secretary, Treasurer and Receiver General, Auditor, Attorney General, Councillor, Senator, Representative in the General Court, County Commissioner, Clerk of Courts, Register of Deeds for the Southern District of Middlesex County, and for all other State, County and District officers.

Also to vote on the following questions:—

Amendment to the Constitution authorizing the use of Voting Machines at all elections. (Chapter 75, Resolves of 1911.)

Amendment to the Constitution increasing the power of the Legislature to authorize the taking of land and property for highways or streets. (Chapter 91, Resolves of 1911.)

Acceptance of Chapter 634, Acts of 1911 entitled, "An Act to authorize the counties of the Commonwealth to establish retirement systems for their employees."

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 24th day of October in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM CONNOLLY,  
WILLIAM JONES,  
*Selectmen of Maynard.*

Middlesex ss.

Maynard, Oct. 28, 1911.

I have served the within named Warrant by posting an attested copy of the same at the Post Office and one at ten other public places in said Town, seven days before the time of holding said meeting, as within directed.

WILLIAM JONES,  
*Constable of Maynard.*

A true copy, Attest: MABEL A. BROWN,  
*Assistant Town Clerk.*

**Proceedings at Town Meeting, November 7, 1911.**

Pursuant to Town Warrant, No. 191 the voters of Maynard assembled at Co-operative Hall on the above date to cast their ballots for the several candidates and to vote on the questions submitted at the annual State election.

William Connolly, chairman of the Board of Selectmen presided. The meeting was called to order at seven o'clock a. m., and the Warrant read by the Town Clerk, after which

the ballot box having been inspected and the register set at zero, the polls were declared open.

A package said to contain twelve hundred ballots was delivered to the ballot clerks, together with duplicate check lists, and their receipt taken therefor.

The ballot clerks were William Morrison, Emmett W. Riley and Emmett J. Thane, who were sworn by the Town Clerk.

The tellers, Luke J. Hannon, George Smith, Charles S. Bradley and William Coulter, were sworn by the Town Clerk.

Constable William Jones, was in charge of the ballot box. It being deemed advisable by the election officers, ballots were taken from the ballot box from time to time during the day and counted. The polls were closed at 4.15 p. m.

The count which was made with the counting board resulted as follows:—

The total number of ballots cast were seven hundred and seventy-one, and this number of names was checked on both check lists. The ballot box register failed to work properly at times and as a result the register showed only seven hundred and sixty-nine.

Warrant No. 192

Town Meeting, Dec. 21, 1911.

Commonwealth of Massachusetts

Middlesex ss.

*To either of the Constables of the Town of Maynard, in said County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative Hall, in said Town, on Thursday, the twenty-first day of December next, at 7.45 p. m., then and there to act on the following Articles:

**Article 1.** To choose a Moderator to preside at said meeting.

**Art. 2.** To see if the Town will vote to appropriate the sum of fifteen hundred and ninety-three and twelve one hundredths dollars (\$1,593.12) for the suppression of the gypsy and brown tail moths for the year ending Nov. 30, 1912. To do or act thereon.

**Art. 3.** To see if the Town will vote to appropriate a sum of money sufficient to meet current expenses of the Board of Health. To do or act thereon.

**Art. 4.** To see if the Town will vote to accept from Joel Butterworth the sum of one hundred (\$100.00) dollars, to be known as the Joel Butterworth fund, the same to be invested and the income expended for the perpetual care of his lot in Glenwood Cemetery. To do or act thereon.

**Art. 5.** To see if the Town will vote to accept a private way, known as Park street extension. To do or act thereon.

Art. 6. To see if the Town will vote to appropriate the sum of six hundred (\$600.00) dollars for additional appropriations for the Fire Department. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting?

Given under our hands this ninth day of December in the year of our Lord, one thousand nine hundred and eleven.

WILLIAM CONNOLLY,  
WILLIAM JONES,

*Selectmen of Maynard.*

Middlesex ss.

Maynard, Dec. 14, 1911.

I have served the within named Warrant by posting an attested copy of the same at the Post Office and one at ten other public places in said Town, seven days before the time of holding said meeting, as within directed.

WILLIAM JONES,

*Constable of Maynard.*

A true copy, Attest:

MABEL A. BROWN,

*Assistant Town Clerk.*

**Proceedings at Town Meeting, Thursday, Dec. 21, 1911.**

Pursuant to Town Warrant No. 192 the voters of Maynard assembled at Co-operative Hall on the above date. The meeting was called to order by the Town Clerk at 7.45 p. m., and the Warrant was read, after which the several articles were taken up in order with the following result:—

**Article 1.** Arthur J. Coughlan was unanimously elected Moderator.

**Art. 2.** Voted to appropriate the sum of fifteen hundred and ninety-three and twelve one hundredths dollars (\$1,593.12) for the suppression of the gypsy and brown tail moths during the year ending November 30, 1912.

**Art. 3.** Voted to appropriate the sum of six hundred (\$600) dollars for the use of the Board of Health for current expenses.

**Art. 4.** Voted to accept from Joel Butterworth the sum of one hundred (\$100) dollars, the same to be known as the Joel Butterworth fund, it to be invested and the income to be expended for the perpetual care of his lot in Glenwood Cemetery.

**Art. 5.** Voted to refer to the Board of Selectmen the question of the acceptance of Park street extension, with power to accept the same when it had been placed in proper condition, said extension to be known as Park street when so accepted.

**Art. 6.** Voted to appropriate the sum of six hundred (\$600) dollars as an additional appropriation for the fire department for the current year.

The meeting adjourned at 8.15 p. m.

Enrolled Militia, 532.

The Town Clerk requests information of any omissions or errors in the lists of births, deaths, or marriages.

This office is prepared to furnish blanks for the proper return of births, and calls particular attention to the law in relation to returns being filed with the Town Clerk within the first five days of each month of all births occurring during the preceeding month, the neglect or failure of any physician or midwife to make such returns for ten days thereafter being punishable by a fine not exceeding \$25 for each offense.

ALFRED E. McCLEARY,  
*Town Clerk.*

## REPORT OF BOARD OF HEALTH.

---

*To the Citizens of Maynard:*

Dear Sirs:—The Board of Health submits the following annual report for the fiscal year ending Jan. 31, 1912.

The organization of the Board was Dr. F. U. Rich, chairman and Joshua Edwards, secretary.

Early in the year it was voted to procure a long felt want by purchasing proper receptacles for garbage as the citizens well know the old method of using buckets without covers that was most always either uncovered or tipped over besides being an unsightly nuisance was in a large measure a breeding place for flies and liable to cause disease.

So it was agreed to purchase some galvanized iron sanitary garbage cans which every well thinking citizen must acknowledge is a step forward in the right direction and every one should appreciate by seeing that the cans that are nearest to their homes are properly cared for. The Board did not purchase as many as it would like this year but if they meet with the approval of the citizens will get more in the near future. The matter of collecting garbage is a problem that is no easy matter as it is almost impossible to get one to do it to the satisfaction of all but we think this year it has been done fairly well and will compare favorably with the past as we think Mr. Sidney Haynes tries to do the collecting in a thorough manner and is always ready to remedy all complaints.

There has been an increase in contagious diseases this year as compared with last.

We are pleased to note that there has been nothing approaching an epidemic of contagious diseases in the Town during the year, yet the Board has to be constantly on guard in respect to such cases as present themselves. Early recognition of cases and prompt action by the Board have doubt-

less prevented a greater extension of the diseases which are now classed as dangerous.

The Board this year had one very bad case to handle on River street. When the Board was notified one child had died from diphtheria as the parents of the child neglected to call a physician.

In that house were eight children and six adults, fourteen in all so it was necessary to act quick and in order to prevent an outbreak of the disease we were obliged to quarantine the entire house which was done under the provisions of revised laws 75 Section 36 as follows:

If a disease which is dangerous to the public health breaks out in a town, or if a person is infected or lately has been infected with any such disease the Board of Health shall immediately provide such hospital or place of reception and such nurses and other assistance and necessities as is judged best for their accommodation and for the safety of the inhabitants and the same shall be subject to the regulations of the Board. The Board may cause any sick or infected person to be removed to such hospital or place if it can be done without danger to his health; otherwise the house or place in which he remains shall be considered as a hospital and all persons residing in, or anyway connected therewith, shall be subject to the regulations of said Board and if necessary persons in the neighborhood may be removed. When the Board of Health of a city or town shall deem it necessary in the interest of the public health to require a resident wage-earner to remain within such house or place or otherwise to interfere with the following of his employment he shall secure from such city or town during the period of his restraint compensation to the extent of three-fourths of his regular wages; provided, however, that the amount so secured shall not exceed two dollars for each working day.

This year the Board has adopted regulations governing the production, care and sale of milk a plan has been formulated whereby all dairies supplying milk to be sold in the Town of Maynard will be inspected and dairies that were not up to the standard were not allowed to dispose of their

product until such places as barns and milk house were in a proper form to pass inspection.

It is the desire of this Board to make of this office a source of assistance and instruction to the producer, dealer and consumer wherein it applies to the public health, hence a publicity heretofore impossible is desired and the more progressive producers and dealers are gladly in accord with us in accepting our efforts.

We required each dealer selling milk in Maynard to make application for a license stating how many cans or quarts of milk were sold by him and the dairies supplying the same and after a thorough inspection if satisfactory were granted a license.

The price paid the producer or asked of the consumer does not enter the work of this office yet if the changes required to produce and market a clean pure article entail expenditures the prices may have to be advanced to give a just return on the money invested but we hope that will not be necessary. It is firmly believed by this Board that a poor unclean milk is dear at any price.

We look forward to a year of accomplishments of results and we ask the co-operation of the producer, dealer and consumer.

Following is a copy of Acts of 1909, No. 443.

#### **Licensing Dealers in Milk.**

Section 1. No person partnership or co-operation except a producer selling milk and other than consumers or not to exceed twenty quarts per day to consumers shall deliver, exchange, expose for sale or sell or have in his custody or possession with the intent to deliver, exchange, expose for sale or sell any milk skimmed milk or cream in any city or town in which an inspector of milk is appointed without obtaining from the inspector of milk of such cities or towns a license.

The license shall contain the number thereof the name, place of business, residence, number of carriages or other vehicles used by licensee and the name of every driver or other person employed by him in carrying or selling milk. A license issued to a partnership or co-operation shall be issued in the business name of said partnership or co-operation and it shall contain the names in full of the partners and managers of said partnership or officers of said co-operation. The license shall for the purpose of this chapter be conclusive evidence of ownership and shall not be sold assigned or transferred. Whoever in such cities or towns engage himself or by his servant or agent in the business of selling milk, skimmed milk or cream from any carriage or other vehicle shall display conspicuously on the outer sides of all carriages or other vehicles so used the license number in figures not less than one and one-half inches in height and the name and place of business of the license in gothic letters not less than one and one-half inches in height. Whoever in such cities or towns engage himself or by his servant or agent in the business of selling milk, skimmed milk or cream in a store, booth, stand or market place, shall have his license conspicuously posted in such store, booth, stand or market place.

Section 2. Whoever without being licensed in accordance with the proceeding section delivers, exchanges, exposes for sale or sells milk, skimmed milk or cream or has in his custody or possession with intent to deliver, exchange, expose for sale and whoever violates any of the provisions of the proceeding section shall for the first offence be punished by a fine of not less than ten dollars nor more than one hundred dollars for a second offence by a fine of not less than fifty dollars nor more than three hundred dollars and a subsequent offence by a fine of fifty dollars and by imprisonment for not less than thirty nor more than sixty days.

Section 3. Inspector of milk in any city or town may for the purposes mentioned in the proceeding sections grant licenses subject to the regulations established by the Board of Health of such cities or town, to suitable persons and shall

receive for each license so granted a fee of fifty cents for the use of such city or town and all license fees collected by him shall be paid over monthly to the city or town treasurer. Such license shall remain in force until the first day June next following unless previous to that time said license is suspended or revoked.

Said inspector of milk may declare any license granted by him suspended or forfeited upon a conviction of the licensee in any court of this commonwealth for violation of the terms of his license.

Section 4. If the applicant for a license fails to comply with any regulation established by the Board of Health in the city or town where the application is made a license may be refused until he has complied with such regulation and a license granted under these provisions may be revoked at any time for failure to comply with any such regulation as aforesaid. If a license is refused or revoked under this provision an appeal may be taken to the State Board of Health whose decision shall be final and conclusive.

Our annual inspection of the town was a little later this year than usual owing to the lateness of the season. We found things as a whole in very good shape others were notified of conditions as we found them and in most cases were promptly attended too. We seem to have the most trouble with non-resident land-lords who sometimes show a spirit of indifference and are some slow and some instances require more than one notification.

But as a town, Maynard will compare favorable with other towns in the matter of cleanliness.

Your Board is anxious to place the office in Maynard in a class attained by boards in other towns which are in up-to-date methods as the legislature is passing laws that upon their passage will make a great many things (that are laws now but not enforced) compulsory in the enforcement of existing laws.

And to place the office of Health in Maynard on a higher plane than has been attained and make it compare or exceed in efficiency it should be the duty of every citizen in Maynard

to tender such assistance as they can to enable the Board to remedy conditions that should not exist and to these efforts the Board ask your earnest co-operation.

We notice by the death returns that a great many causes of death are not reported as they should be either through lack of knowledge or carelessness and for that reason they are lots of existing conditions that the Board are not aware of and have no way of finding out until too late for action to be taken. For that reason the following law will be made compulsory on all case of infections and contagious diseases.

Section 49. A householder who knows that a person in his family or house is sick of small-pox, diphtheria, scarlet fever or any other infectious or contagious diseases declared by the State Board of Health to be dangerous to the public health, shall forthwith give notice thereof to the Board of Health of the city or town in which he dwells.

Upon the death, recovery, or removal of such person the householder shall disinfect to the satisfaction of the Board such rooms of his house and articles therein as in the opinion of the Board have been exposed to infection or contagion.

Should one or both eyes of an infant become inflamed, swollen and red and show an unnatural discharge at any time within two weeks after its birth it shall be the duty of the nurse, relative or other attendant having charge of such infant to report in writing within six hours thereafter, to the Board of Health of the city or town in which the parents of the infant reside, the fact that such inflammation, swelling and redness of the eyes and unnatrual discharge exist.

On receipt of such report or of notice of the same symptoms given by a physician as provided by the lfolowing section the Board of Health shall take such immediate action as it may deem necessary in order that blindness may be prevented.

Whoever violates the provision of this section shall be punished by a fine of not more than one hundred dollars. But the Board of Health of a city or town may in its discretion, disinfect or fumigate all such premises as in the opinion of the Board have been exposed to any infectious or contagious diseas

eases at the expense of the city or town and may employ any proper and competent person or co-operation for the purpose of such disinfection or fumigating.

Section 50 is the same as the foregoing and it applies wholly to physicians and if he refuses or neglects to give such notice he shall forfeit not less than fifty nor more than two hundred dollars for each offense.

The public health authorities should be notified of every known and every suspected case of tuberculosis which we regret to say has not been done in the past as reports will show that in nine cases in which death occurred only three were reported to this office a state of affairs that should not exist when organized committees of local, state, national and international are working for the prevention of tuberculosis.

We are fast approaching the time when every parent, teacher, employer, landlord, worker will see in tuberculosis a personal enemy. A menace to his fireside, his income, his freedom.

We of one mind must affirm that equal opportunity cannot exist where one death in ten is from a single preventable disease.

Of no obstacle to efficient living is more true than of tuberculosis, that the remedy depends upon enforcing rather than upon making law, upon practice rather than upon precept, upon health habits, rather than upon medical remedies upon co-operation lay citizens rather than upon medical science or isolated individual effort.

Without learning another fact about tuberculosis we can stamp it out if we will but apply and see that officers of health apply and enforce lessons of cleanliness and natural living already known to us.

I suggest that it should be compulsory to send notification of all tuberculosis cases to the local Board of Health compulsory removal to hospital of those not able at home to destroy the bacilli or compulsory supervision of home care.

Compulsory examination of all members of a family where one member is discovered to be tuberculous.

Following is a copy of a circular issued by the committee of sanitation of the Central Federated union of New York and the committee on the prevention of tuberculosis of the charity organization society.

Don't give Consumption to others.

Don't let others give it to you.

### **How to prevent Consumption.**

The spit and the small particles coughed up and sneezed out by consumptives and by many who do not know they have consumption are full of living germs too small to be seen. These germs are the cause of consumption.

Don't spit on the sidewalks—it spreads disease and it is against the law.

Don't spit on the floors of your room or hallways.

Don't spit on the floors of your shop.

When you spit, spit in the gutters or into a spittoon.

Have your own spittoons half full of water and clean them out at least once a day with hot water.

Don't cough without holding a handkerchief or your hand over your mouth.

Don't live in rooms where there is no fresh air.

Don't work in rooms where there is no fresh air.

Don't sleep in rooms where there is no fresh air.

Keep at least one window in your bedroom open day and night.

Fresh air helps to kill consumption germs.

Fresh air helps to keep you strong and healthy.

Don't eat with soiled hands—wash them first.

Don't neglect a cold or a cough.

### **How to cure Consumption.**

Don't waste your money on patent medicines or advertised cures for consumption, but go to a doctor or dispensary. If you go in time you can be cured; if you wait until you are

so sick that you cannot work any longer or until you are very weak it may be too late; at any rate it will in the end mean more time out of work and more wages lost than if you had taken care of yourself at the start.

Don't drink whiskey, beer or other intoxicating drinks, they will do you no good but will make it harder for you to get well.

Don't sleep in the same bed with any one else and if possible, not in the same room.

Good food, fresh air and rest are the best cures.

Keep in sunshine as much as possible and keep your windows open, winter and summer, night and day. Fresh air night and day is good for you.

Go to a hospital while you can and before it is too late, there you can get the best treatment all the rest, all the fresh air and all the food which you need.

The careful and clean consumptive is not dangerous to those with whom he lives and works.

An example in co-operation that anti-tuberculosis crusaders should follow.

The board this year has inaugurated a system where all contagious diseases are reported, to immediately notify the public schools when the parties have children attending school and also again when the quarantine is completed the same system is used where the parties are patrons of the public library.

As the state laws are being changed it is putting a great deal more expense on the Board of Health which necessitates additional work and a good deal more to look after and as they increase it is calling for a larger appropriation from year to year as it is impossible to state the amount that is needed because no one can tell what may turn up in the nature of an epidemic.

The following notice is issued by the State Board of Health to those local boards of health to whose cities and town immigrants are destined for the purpose of putting such boards on their guard against the introduction of infectious diseases by immigrants from foreign parts.

It is desirable that search be made for the persons named in this notice and when they are found careful surveillance should be maintained over them until the danger of infection has passed.

In most all notices sent all that is given is the parties names addressed to some post office box in the post office in our town and that necessitates looking up the party renting that particular box in the post office then trying to locate the new immigrant which in most cases is a rather difficult task.

The notice is made out in this form.

Name of immigrant, Vasehanskas Adolf; Destination, P. O. Box 1104; Port of departure, Russia; Port of arrival, New York; Disease, Cholera.

This year the total number reported at this office were one hundred and thirty-one (131).

The following is the report secured from the state bacteriologist of the different diseases that was sent for his examination. 37 cultures for diphtheria; 13 specimens of sputa for tubercle bacilli and 4 specimens of blood for the widal reaction in typhoid fever.

Following is the number of cases reported to this office this year.

	Jan.	Feb.	March	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Totals
Diphtheria	1	7	2	2						1	1		14
Infantile Paralysis													
Measles			2		3					3			8
Ophthalmia Neovatorum													
Scarlet Fever					1	1			1			1	4
Tetanus													
Tuberculosis			1	1					1				3

---

That the library is being called upon to serve a larger number of subscribers year to year is attested in as much that the average circulation the past year was 17,854, this necessitated the handling of a great many books. So much so that it was becoming impossible for the Librarian to do the work alone, therefore, about the latter part of last year we considered it necessary to appoint an assistant. Miss Vera A. Lawton was engaged:

There is a strong sentiment among our citizens that the library should be available at least one more afternoon or evening of each week. If such should be considered it will be imperative that an appropriation of not less than \$700.00 and the balance of the dog tax be placed to the credit of the library the ensuing year. Note financial report, an over-

draw of \$33.89 which amount was met by drawing on Mrs. Green's legacy.

Referring to special appropriation of \$600.00 for classifying and cataloguing, the services of Professor J. G. Bergquist was secured under whose direction the work was satisfactorily accomplished at an expenditure of \$421.50 the unexpended amount \$178.50 reverted to the Town Treasurer.

We commend the librarian and assistant for the general condition of the library.

The following letter which should appeal to our citizens, we have had incorporated in our report:

To the Board of Trustees of the Public Library, Maynard, Mass.

Gentlemen:—

The work of indexing the contents of the Library is now finished on the lines laid down at the start. In arranging the card catalogue I have divided it into four general headings: Authors, Various Subjects, Fiction and Juvenile Books. All divisions are in strict alphabetical order. Circumstances considered, I think this is for your Library the most practical system.

Though uncalled for, you might like to hear my humble opinion of your collection of books, as I am now pretty familiar with same. Considering the size, I think it a well selected Library.

To commence with the popular section containing Fiction, you have the writings of the most eminent American and English authors, together with works, translated into English, of numerous standard French, German, Russian and other foreign writers. There is also a liberal sprinkling of the productions of modern novel manufacturers.

In poetry you can suit the most fastidious. You have works by Arnold, the Brownings, Bryant, Burns, Byron, Campbell, Chaucer, Mrs. Hemans, O. W. Holmes, Kipling, Longfellow, J. R. Lowell, Milton, Tom Moore, E. A. Poe, Alexander Pope, Sir Walter Scott, Shelley, Swinburne, Stevenson, Tennyson, Whittier, Wordsworth, etc., etc.

Relating to art, you have works by Ruskin, Crow and Cavalcaselle, J. A. Symonds, and others.

In the history division there are works by Motley, J. R. Green, Macaulay, Hume, Prescott, John Fiske, George Bancroft, H. H. Milman, Justin Winsor, etc.

Of essays there is an excellent collection embracing such by Bacon, J. Burroughs, Carlyle, DeQuincy, Emerson, J. A. Froude, Higginson, J. G. Holland, Huxley, Charles Lamb, Herbert Spencer, Charles Dudley Warner and a good many others.

Those interested in natural history have circa 100 titles at their disposal. Readers of travel in various parts of the world will find 328 items to select from. The important section of biography is represented by 236 cards. Civil war and sport are also two prominent divisions. In all there are circa 90 subject headings as you will find from accompanying list.

To judge from the condition of the volumes, light literature is more in demand than the more substantial kind. The instructive books are as a rule in prime condition; some are even in the same state as they left the bookseller. Well! Though many of us clamor for solid reading matter, yet we stick to the lighter sort. Just as with music; many of us, in theory, prefer oratorios, sonatas, yet, in practice, we enjoy rag-time.

Mrs. Nyman, who has the contents of the Library at her finger-ends, has ably and laboriously assisted me. Miss Mead has cheerfully submitted to my "dictation," and in the same mood gone through the monotonous task of getting the titles into type.

To conclude I have to thank you for the courtesy extended to me, and with sincere wishes for the future welfare of the Maynard Public Library.

I remain, Gentlemen,

Yours very truly,

J. G. BERGQUEST.

## REPORT OF FIRE ENGINEERS.

---

*Selectmen of Maynard:*

Gentlemen:—

The annual report of this department is forwarded herewith.

The new ladder truck for which the Town voted, at the April meeting has been placed in commission, and makes a handsome and serviceable addition to our equipment.

We would recommend, that the old one, which is in storage for the present, be sold at the earliest opportunity.

The frame and wheels are in very poor condition and we doubt being able to sell as a truck but the ladders, other than those which we shall retain for use in the department, could be disposed of to advantage.

The severity and number of forest or wood fires we experienced last Spring, made serious inroads into our appropriation, and made it necessary for us to ask an additional appropriation of \$600.00. We are pleased to be able to report another year of exceptionally small fire loss. We would ask that \$3,200.00 be appropriated for maintenance for ensuing year.

Appropriations,	\$3,600 00	
Sale of old hose,	20 00	
	<hr/>	\$3,620 00
Thomas Collins, labor,	\$812 50

#### REPORT OF COMMITTEE ON LADDER TRUCK.

---

The committee after inspecting various different styles of trucks, decided in favor of one, similiar to that in use in Waltham, Mass.

We awarded the contract for building to James Mullen of Waltham for \$1,800, this to include all necessary equipments. The truck was delivered early in November and we feel positive that the citizens will agree with us that we have secured a modern and well equipped piece of apparatus.

Appropriation,	\$1,800 00
Paid James Mullen,	1,800 00

Respectfully,  
 WILLIAM CONNOLLY,  
 WILLIAM JONES,  
 ARTHUR J. COUGHLAN,  
 GEORGE H. GUTTERIDGE,  
 THOMAS A. SWEENEY,  
*Committee.*

## ASSESSORS' REPORT.

---

For the Year Ending February 1, 1912.

The Assessors' desire to call the attention of all persons who may be liable to taxation on personal estate, that the law requires that they shall submit to the Assessors' a sworn list of property liable for taxation.

Unless this is done, there is a liability that the Assessors' may over estimate their holdings.

These lists may be had from any of the Board from April 1st to May 15th, and are returnable on or before May 15th.

### Table of Aggregates.

Total paid Treasurer		\$69,150 81

Respectfully submitted,

GEO. N. SALISBURY,

*Collector of Taxes.*

February, 9 1912.

Maynard, Mass., Feb. 13, 1912.

*To the Board of Selectmen:*

We hereby certify that we have examined the accounts of the following Town officers and find them correct. Selectmen, Treasurer, Tax Collector, School Committee, Water Commissioners, Water Registrar, Water Sinking Fund, Overseers of the Poor, Fire Engineers, Board of Health, Trustees of Public Library, Cemetery Commissioners, and Town Clerk's dog tax account.

ALEXANDER PETTIGREW,  
R. M. STOCKBRIDGE,

*Auditors.*

## REPORT OF WATER COMMISSIONERS.

---

*To the Selectmen:*

We herewith submit the report of the Water Commissioners, including the reports of the Superintendent, the Engineer, the Water Registrar and the Sinking Fund Commissioners.

We have carried out the instructions given us at the April Town meeting, in regard to installing 2,100 feet of 12-inch cast-iron pipe for new Conduit Line.

We called for bids for same, and the contract was awarded to Joseph Long & Co., of Leominster, as they were the lowest bidder.

We feel that the Town is to be congratulated on the quality of the work, as it was done in a very satisfactory manner.

It was necessary to secure a new right of way for part of the new line, and satisfactory arrangements to secure the same, were made with Emil Boeske, Mrs. Lucy Newton, Wm. Taylor and Mr. Gately.

Early in the year, Mr. Stephen Beaton resigned his position of Engineer, as he intended moving away on account of ill health, but we were fortunate in securing Mr. Joseph Sheridan to fill the position, as he is giving the very best of satisfaction.

### Maintenance.

From February 1, 1911 to February 1, 1912.

## SUPERINTENDENT'S REPORT.

---

*To the Board of Water Commissioners:*

Gentlemen:—

My report as superintendent and registrar, together with the report of the engineer, for the year ending January 31, 1912, is herewith submitted.

### White Pond.

Again the year just past has been the driest since the works were built and the water in the pond has reached a lower level than ever before.

### Conduit Line.

The lower part of this line, which was in very bad condition, has been discontinued and a new line of twelve inch cast iron pipe, with lead joints, has been laid. The new pipe is laid in the old right-of-way about 700 feet and on a new right-of-way for about 1,400 feet. There have been placed in this line, a brick man hole where the old line connects with the new, four observation pipes, three clean-outs and a blow off gate.

The work was done in a very satisfactory manner and the contractors deserve credit for their faithful performance of the work. The new line was put in use Sept. 20 and has proved very satisfactory.

### Mains.

Only two leaks have been repaired in the mains during the year. One on Spring Lane and one on Florida Road, where leaks in 1¼ inch pipes were discovered.

The following extensions have been made:

Crane Ave.,	200 feet 6 inch pipe
Concord Street,	292 feet 6 inch pipe, 1 valve
Fairfield Street,	148 feet 4 inch pipe
Park Street,	150 feet 1 inch pipe

### Services.

Leaks have been repaired in twelve services. Fifteen services have been cleaned out. Five have been renewed from the sidewalk to the cellar. Two were lowered so that that they would not freeze.

No. of taps for new services,	20
No. of taps reported last year,	924
	<hr/>
No. of taps now in use,	944

### Meters.

Twenty additional meters have been set, five have been discontinued, making the number now in use 944. About 175 meters have been changed for repairss.

The cold weather of the past month has caused about 60 meters to burst.

### Pumping Station.

I was very sorry that our engineer Stephen Beaton was obliged to leave on account of his health and am very glad that we have secured so capable a man as the present engineer, Joseph E. Sheridan who has given entire satisfaction.

In closing I wish to thank the Commissioners for their hearty support during the year.

Respectfully submitted,  
 WILLIAM NAYLOR,  
*Superintendent.*

## ENGINEER'S REPORT.

---

### *To the Superintendent:*

Sir:—During the year the front walls of both boilers and the bridge wall and part of the side wall of No. 1 boiler have been rebuilt. A new blow-off valve was put on No. 1 boiler and a new check valve was installed in the feed line of the same.

Owing to the leaky condition of the steel smoke flue, between the building and the chimney, it was thought best to build a brick flue, which was done. These with a few minor repairs on the pumps places the plant in first class condition.

The supplies on hand, Feb. 1, 1912 are:—7 tons of coal, 25 lbs. of sheet packing, 8 lbs. piston rod packing, 10 lbs. square flax packing, 12 hand hole gaskets, 6 valve plates, 24 valve springs, 25 gallons cylinder oil, 1-3 barrel of grease, 50 lbs. of soda, 25 lbs. cotton waste and 25 fire brick.

### Pumping Record.

	Coal	Gallons	Daily Aver.
February,	30,275	6,698,484	239,231
March,	31,260	7,682,094	247,809
April,	304,26	7,966,782	265,559
May,	38,052	9,298,908	299,964
June,	39,986	8,825,409	294,180
July,	44,965	10,755,764	358,325
August,	44,418	10,542,231	340,072
September,	39,359	8,421,570	280,719
October,	36,831	8,304,363	267,882
November,	37,634	8,221,959	274,065
December,	35,656	8,073,675	260,441
January,	37,808	8,523,098	274,939
	<hr/> 448 270	<hr/> 103,314,337	

Average daily consumption 283,599 gallons. Average daily consumption for each person, figured on 5,500 consumers, 51.6 gallons.

The coal consumption includes banking and starting fires also heating oil which was used on the roads by the street department.

Respectfully submitted,

JOSEPH E. SHERIDAN,

*Engineer.*

---

### *Committee.*

JOHN H. LAWTON, Chairman, Term expires 1912.  
KENNETH H. DAMREN, Secretary, Term expires 1914.  
DANIEL E. GOODENOW, Term expires 1913.

---

FRANCIS S. BRICK, Superintendent of Schools.  
DANIEL E. GOODENOW, M. D., School Physician.  
JOHN CONNORS, Truant Officer.

---

### *Storm Signals For Our Schools.*

3 blasts blown 1-1-1 for 1st four grades.  
5 blasts blown 11-1-11 for entire system.  
Blown at 7.30 and 11.30 respectively.

## REPORT OF SCHOOL COMMITTEE.

---

An other year has rolled around, and once again the edict goes forth, for the various boards, connected with the Town, to present reports as to the condition and needs of the departments, which they represent, this being only logical, as, in no other way, can the citizens ascertain the true condition of those things, for which they have been taxed, and in which they should have the greatest interest.

It is obvious that the report of this or that department elicits scrutiny, proportionate to the interest the individual has in the same, but the only one which calls for the careful perusal and interest of all the residents of both sexes, is that of the school board, which we, herewith, respectfully submit.

### Changes in the Teaching Force.

The usual changes in the teaching force, occurred in September, and while in point of number these changes were unusually small, yet in point of value and service, the loss was great, although not irreparable.

Miss Eva Garvin, who had been in the service for nearly six years, and had developed into a strong factor in our teaching force, resigned to accept a position in Passaic, N. J., her position being filled by Miss Anita Walker, of the North Adams Normal school.

Both Miss Wheeler and Miss Fletcher, unusually strong primary grade teachers, also resigned in June, the former to enter a new field of life, while the latter accepted a position in the schools of Arlington, Mass. These two vacancies were filled respectively by Miss Edna Locke, of Winchester, and Miss Mary Coughlin, of Concord.

Miss Mary Varley, who for six years, had filled most acceptably the position of third grade teacher, in the Main street

school, was allowed a leave of absence, the first of the school year, and resigning shortly after, her position was filled by Miss May Ledgard, of Maynard.

Miss Mary Rhodes, who taught very successfully for two years, the fifth grade, in the Main street school, resigned her position in September, and Miss Theresa Hefferman, of Maynard, was elected in her stead.

In the High school two changes occurred. Miss Agnes Barry, who had occupied most acceptably, for six years, the chair in Ancient Languages, resigned to accept a position in the Lynn High school.

Owing to a reduction in the teaching force in the High school, Miss Marie de Rochemont, who had filled for three years, to an excellent degree, the chair of Modern Languages, resigned; Both of these teachers were of unusual strength and character, and we greatly regretted their departure; to fill the position made vacant by the withdrawal of Miss Barry, Miss Josephine Clark, of East Jaffrey, N. H., was elected.

One of the greatest losses, which this department has sustained, happened, at the present writing, in the resignation of Miss Margueretta J. Conway, who has been in our service since 1905, during which time she has occupied the position of Principal of the Main street school, and, in that capacity, has discharged her duties with loyalty and fidelity.

Miss Conway goes to accept a position in the schools, of Malden, Mass., and Miss Rose Wallace, of the third grade, has been elected to succeed her, while Miss Chloe Hobbs, of Uxbridge, Mass., has been our selection for the vacant position.

Since January 1911, the Department of Music has suffered three changes; at that time Mr. Edward Kingsley resigned, and Miss Gertrude Heartz, who succeeded him, resigned at the end of the school year, Miss Alice Genther, who was elected in September, has since filled the position to our entire satisfaction.

Summing it up, the losses to our teaching force have been great in point of ability and service, not one of the retiring

teachers being classified as poor or even average, all being of superior grade, in point of efficiency of work, faithful in service and strong in ability, and while most of them went to higher fields of labor, for greater remuneration, all went with the respect and best wishes of this department.

### School Property.

Our school buildings, as far as their general design and commodity are concerned, are adequate for the present, although the addition of two new grades, which must be accommodated in some manner, in our present quarters, calls forcibly to our attention, that in the near future another school building will be needed to accommodate all the pupils.

To formulate our present plans, certain extensive alterations and innovations will be requisite before the beginning of another school year, and to meet the expense of these, it is the opinion of this board that a separate appropriation, other than the general one for school purposes, should be made by the Town.

The walls of the assembly hall, in the Nason street school demand that, which should have been done, at the time the building was constructed, namely:—tinting, the exact cost of which cannot now be given, as no estimate for the cost of the work has been made.

Few are probably cognizant of the fact that the use of the assembly hall, for any purpose, is illegal, but such is the case for with only two ways of exit, and these being the main stair ways, there is no provision for a speedy emptying of the hall, in case of fire, or for other causes.

A fire escape, of the most approved pattern, and complying with the laws of the state, must, *at once*, be attached to the building, without consideration of the incident expense, as the laws of the state demand the same, and further non-compliance may subject the Town to a heavy fine.

The heating system, in this same building, needs overhauling before another winter, the basement whitewashed,

radiators and a skylight put in the laboratory, and the entire building equipped with new curtains.

The tinting of the walls, in the Bancroft street school, while not essential, at the present time, would certainly be of great benefit, if not from an esthetic standpoint, at least for the relief given to that eye strain, occasioned by the dazzling white surfaces upon all sides.

On the back side of this building, and over the walk leading from the basement door, a covering, of some description, should be erected, as a protection from the water and snow which fall from the eaves of the building.

The putty, in the windows of this building, although the last one erected, is crumbling away, and the windows need an immediate over-hauling and painting.

The incompleted electric lighting system of this building should be finished, and, in this connection, fire alarms and electric bells might well be established throughout the building.

At the last Spring meeting, of the Town, the sum of \$100.00 was appropriated towards grading and putting the land, in the rear of the building, into a semblance of condition, but a far greater appropriation is necessary before the same will be suitable as a play ground for the school children, and a park, for the general public, as well.

The Main street school requires only minor outlays, hence no special appropriation is asked for, from the Town, but this building, as well as the other two, are required, by law, to be equipped with sanitary drinking fountains, and, as the cost of installing these fountains is considerable, we include it among the others, for which we ask a separate appropriation.

As a further incentive to study, and a stepping stone to after school life, it is the intention of the school committee to establish courses of industrial and commercial training, in the Nason street school: to put into effect these courses, a special appropriation of \$1,300.00 is asked, to defray the expense of altering and equipping such rooms as may be needed for the purposes, to which they are to put, and to pay the salary of a competent male instructor in these branches.

Such are our wants and needs, and by carefully perusing the foregoing, as regards the special appropriations asked for, and scrutinizing seriously the financial portion of this report, we are positive the tax payers will not begrudge us our requests, namely the same appropriation, as the preceeding year, together with a special one, sufficient to cover the needs specified.

The expenditure of each and every dollar of our appropriation has been carefully considered, with the view of giving the tax payers the same returns for their investments, that we should, individually, seek, were the affairs of a private rather than public nature.

In conclusion, we would express our appreciation to Superintendent, F. S. Brick, for the great interest he has taken in our public schools, the energetic work he has put forth in behalf of the same, and the ideas he has promulgated for the advancement of the various school departments and our only regret is that our appropriation, and the financial condition of the Town, does not permit our securing his entire services, rather than dividing the same with other towns.

To the entire teaching force and the janitors as well, would we express our public approval for their labors in behalf of the welfare of the schools, as they, in no small measure, contribute to the success or failure of the institutions they represent.

## Financial Report.

---

The financial report this year is of necessity in two parts. This is due to the fact that the State Board of Education requested the use of a special form of school accounts to secure uniformity throughout the Commonwealth.

February 1, 1911, to July 1, 1911.

## REPORT OF SUPERINTENDENT OF SCHOOLS.

---

*To the School Committee of Maynard:*

Gentlemen:—

I herewith submit my fourth annual report of the Schools of Maynard for the year ending January 1st, 1912. This year culminates the efforts that have been ever since my advent into office, of the formation of some sort of a specific course of study. Such a course of study is now in the hands of the teachers in type written form and is being tried and fitted to the various grades. When this is done your Superintendent recommends that it be printed in pamphlet form, with such erasures and additions as shall occur, to be adopted and distributed as a guide for the work in the schools.

This course of study provides in the main for the two distinct groups in each grade, viz., A and B groups or an advanced and a normal group. This grouping is based upon the fact that there is in all school systems a large number of pupils who are able to do the prescribed work in less time than the prescribed nine years.

In the past, many school systems have endeavored to accomplish this by "jumping" grades; but this plan has generally failed because of the inability of most pupils to skip the work of an entire grade in a single year. It followed therefore that many pupils were kept "marking time" who otherwise could have advanced were the gap smaller, e. g., a half or a third of a year.

This problem of advancing forward pupils is being solved in many towns by having a semi-yearly promotion, and in a few towns by having promotions once a term. But neither of these is practical here in Maynard.

This problem has received the closest study of your superintendent during the past two years. As a result the present course of study was formulated during last summer vacation, In the main the advanced division is allowed to go forward as rapidly as it may regardless of the prescribed course of any particular grade, while the normal division advanced just as rapidly as formerly and without any loss. The details of the plan are too numerous and too intricate to admit of discussion here. It is sufficient to state that by this plan at least one-half of the pupils ought to be able to accomplish the work of the grades in eight years and to pass directly from the eighth grade to the high school.

### Waste in Our School Systems.

It must be evident to every one who considers the subject at all that a child who enters the first grade at five years or six years of age and spends nine years in the grades and four years in high school graduating there from at the age of 18 or 19 years is spending a lot of time, (nearly one-third of a lifetime) in getting ready for life. There must be a tremendous waste somewhere. Add to this the four years of college work which a few will take and three years more for the still fewer who train for a professional work and we have an advance age of 25 or 26 before a young man or woman enters professional life. Now what is true of the college student is true in the same ratio all down the line. At the figures I have given the boy or girl finishes the grammar school at the age of 14 or 15 when he ought to complete it at 12 and 13. I do not deny that there are some who require the full nine years for the elementary course. But for the majority who come from good surroundings who are well nourished, and who are strong and healthful children it is a wanton waste of years to keep them in the grammar school until 14 years of age. A few children may require nine years to complete the elementary course. The majority ought to complete it in eight years, and a considerable number could complete it in seven years. We are hearing much

now-a-days of retardation of the pupils who are kept back because of absence from school sickness and etc. But what is worse than retardation is keeping children marking time in order to keep within the prescribed year in which they are placed. Retardation is a deplorable condition, but marking time is an educational crime.

This problem of advancing pupils is the coming problem. Its solution depends upon many things. A flexible course of study, an absolute loyalty to the well fare of the child on the part of the teacher, hard work, careful planning, definite and practical child study and an entrance age of not less than six years. These are some of the factors of its solution.

While it is true that much waste is due to organization in holding pupils back. It is equally true that there is much individual waste due to ineffective organization on the part of the teacher for her school, indefinite planning of her work, the failure to forecast the work, thereby failing to unite the work day by day to the next and the inability to individualize each pupils case with respect to the work in hand, distinct and separate, while at the same time carrying on the class work.

This phase of the work known as organized effort has received and is receiving close attention on the part of a large majority of teachers. But it is very difficult to do this and keep up to "concert pitch" with forty-five or fifty pupils in a grade. Yet this is the case in some of our grades at the present time.

The selection of material, the plan for presentation, the elementation of subject matter that causes useless repetition. The measuring and testing for progressive development and thorough knowledge, these are some of the things that enter into modern school teaching and calls for scholastic equipment, skill, the best of health, and endurance and with it all very definite executive power and organization.

### Some Serious Problems.

The foregoing brings to mind a serious problem that will confront us next September.

Prob. 1. There are in the four first grades at the present 190 pupils, of these about two-thirds will be promoted and about 63 will remain to repeat with advanced work. The addition of new pupils judging from last year will be about 175. Adding this to the 63 repeaters will give a total enrollment 238 to be divided among the four first grade teachers. This will make an average of 59 or nearly 60 pupils to a teacher. This is an impossible number for any teacher to care for and develop, and more especially is this true of first grade work. The question arises, What shall we do with them?

Prob. II. There are in the three fifth grades at the present time 110 pupils. Nearly all will be promoted either to the A or B division according to our new plan of promotion. Considering the fact that we have but two sixth grades in the complete system, this will make 55 to each grade next year. This is impossible both for the seating capacity and for the teacher. The question arises, What shall we do with them? There should be opened in the Nason street school an additional sixth grade but where?

Prob. III. In the two seventh grades at the Nason street and the Bancroft school a total membership of 75 nearly all of which will be promoted into a single eighth grade. And again the question arises 'What shall we do with them?

These are serious problems that must be solved. If we are to maintain a high standard of our school the limit of 40 to a grade should be fixed. I present these problems to you thus early, and earnestly request your serious consideration of them.

### More Time.

The facts just presented coupled with the additional fact that during the three years of my administration (up to last Sept.) we have opened four new rooms and still find some

of the grades crowded, bring this topic home to the question of administration. Counting the two special teachers of music and drawing we have twenty eight teachers on the pay roll with all the problem of congestion to meet.

With these facts in mind your superintendent is promoted to ask for more time in which to do his work. He needs four days each week in which to administer to the needs of the schools properly.

The modern superintendent is not so much a critic as a helper; who's criticism when any come should be only of the constructive kind that will offer a possible remedy for all cases that are unsatisfactory. To do this he must have time; time to plan; time to study; to supervise closely; time to construct and time to apply.

### Evening School.

With the increase in population and school enrollment always comes the demand for an evening school.

Considering the large number of young people with meagre education who are at work in our mills. I believe an evening school in the Town of Maynard to be not only desirable, but a necessity. It is incumbent upon every town to educate its children for life in the best possible way, and those who are so unfortunate as to be taken from school through the stress of necessity ought to have their chance in some other way. No town will do its full duty until an evening school forms a part of the educational system. Whether it can be done at present without increasing the cost is the question. I sometimes feel that if those attending an evening school were obliged to pay a nominal fee for the opportunity of such a school, it would be doubly appreciated and the efforts of those attending would be doubly increased. We generally prize what we pay for.

### **Taking Children From School Early.**

I wish to make an appeal to the parents against taking their children from school early in life to put them to work. There is too strong a tendency on the part of some to put the children to earning as soon as possible, almost as soon as they get out of their swaddling clothes. This means death to the children, in view of the new demands that will be made upon them in the twentieth century. The children who are forced thus early into the fields of labor must write over their doors, "Abandon hope, all ye who enter here."

The mere pittance that a boy or girl may earn is but a drop in the bucket as compared to the earning power were they allowed to complete their education. Parents must sacrifice that their children may be saved to themselves. The paltry sum that a child can earn may aid at a critical time but it is an awful rate of interest to pay for a life that might be made productive, skillful and rich.

One of the reasons for this condition, is that many parents seem to show an indifference to the claims of education. Pupils are not encouraged, urged, persuaded to do their best at all times, and they too become careless and indifferent. Let parents talk schools and education early and late. Let education be the chief industry of the town so far as the children are concerned. Let it be the vocation and not the avocation of the children and let those who have them in charge see to it that every one is in his place daily and no time lost, and results of our "modern education so called, will challenge less criticism..

### **Rearrangement of Terms.**

The present arrangement of terms is not I believe conducive to the best interests of the children. According to the present arrangement the year is divided into one long term of fifteen or sixteen weeks and two of twelve weeks each. This year a vacation of two weeks occurred after the long term at Christmas, and a week between the winter and spring vacation is to be given.

A better arrangement than this would be I think a division of the year into four distinct divisions of nine weeks each with a week between each.

### Age Entrance.

Once again I am bringing to you an earnest appeal to raise the age limit from five to six years. Nothing is gained by admitting a child at the age of five.

Many children are immature at this age and the time is worse than wasted. The mature child loses nothing by entering at six and moves along more rapidly than if entered at five. There is something artificial in the schoolroom that stultifies the child at five years of age and makes its life monotonous.

But there is another factor, a local one, that enters into this question here in Maynard at the present time. At present every room in the system is full. Since my advent into office four new rooms have been added to the Bancroft school and occupied. Last September there was an enrollment of two hundred in the first grades alone. The eighth grade had an enrollment of nearly forty-eight pupils and the sixth grade had an enrollment of nearly fifty each. The average enrollment in each room of the entire elementary department is forty-five. In three years we have increased our enrollment over one hundred and fifty that is we have occupied the four new rooms with that number. Here they are in exact figures; Grade 5, 36; Grade 6, 49; Grade 7, 35; Grade 8, 48; making a total of 158. The present first grades number now about 190. Two thirds of these or about 126 will be promoted in June to the second grade, leaving about 60 pupils behind as repeaters.

Now if the usual number at five years of age apply for admission, we shall have the enormous number of first grade pupils of two hundred and sixty to house in four rooms. This will be an average of sixty five to each room. The question arises what shall we do with them.

There is but one solution. Raise the age limit to six years..

### A Commercial Course.

I am presenting to you the claims of a commercial course for the Maynard High school. I desire to present to you all sides of the question as I have gleaned them from the citizens and other sources in order that you may judge whether such a course is expedient at the present time.

In the beginning I wish to state that the entire cost of such a course will be not far from twelve hundred dollars and after the first year the annual expenditure of ten hundred dollars will be required.

In the following table will be found the enrollment of the 9th year and also the Freshman year in the high school in each year for the last four years, with the percentage of loss in each year in passing from the 9th year to the freshman year.

Bearing in mind that each freshman class is recruited from the 9th grade of the preceding year, the following drop will be noticed in each year. In 1909-10, 45 %; in 1910-11, 33 % and in 1911-12, 45 %; if the average holds true the drop next Sept. will be 38 %.

1908-9 Grade 9, 42; 1909-10 Freshman 22; Grade 9, 42, 45 %; 1910-11 Freshman, 28; Grade 9, 47, 33 %; 1911-12, Freshman, 17; Grade 9, 48, 37 %. 1912-13, Freshman, 19, (estimated); 38 % (estimated).

Now in estimating the value or the demand of a commercial course keeping in mind the added expense several pertinent question require an answer.

1. Will more pupils remain in school and enter in the Freshman class because of the commercial course?
2. Can a commercial course with one teacher compete with a commercial college, i. e., will it turn out the same product?
3. Will a commercial course interwoven with the other course enhance the value of a four years training in the high school.

4. Will a commercial course of two or three or four years duration appeal to any certain class of pupils more than does either of the present courses now in existence.

5. To what extent will such a course as we can maintain aid pupils who are to enter commercial life?

6. Will the percentage of graduates increase because of commercial studies in the curriculum?

These are some of the questions that are being asked, and in order that they may be answered intelligently I am submitting below a tentative list of commercial studies that would enter into such a course.

#### List of Studies.

<i>Commercial Department</i>	<i>Course Elective</i>
Bookkeeping	Penmanship
Grammar	Pen and Brush Lettering
Rhetoric	Commercial Arithmetic
Commercial Law	Rapid Calculation
Commercial Correspondence	Spelling
Composition	Analysis of Words

#### Shorthand and Typewriting Department.

Shorthand, Typewriting  
Carbon, Letterpress, Neostyle, and Mimeograph Copying  
Penmanship  
Analysis of Words  
Grammar, Punctuation, Rhetoric  
Spelling and Correspondance

#### Industrial Work.

During the past year an attempt has been made to crystalize our work in the industrial phase. In this we have been only partly successful. The sewing has passed the first stage and has already proved itself a necessity. This phase of the work was begun under Miss Garvin in the seventh and

eighth grades, who devoted about two hours a week. This year beginning with September the work was taken up by Miss Walker who was engaged with this special work in view and who has had special training in this and other phases of domestic work. Under her direction the seventh and eighth grades have been divided into an advanced and a preliminary group. A sewing machine has been provided for the advanced group and instruction in simple sewing leading to dressmaking is giving one afternoon a week.

While it is true that a few girls get excellent sewing instruction at home and do not need this work, a large majority receive instruction in this work only at school. It is hardly necessary for me to add that for a large number who's school education ends with the eighth or ninth grade, this work is as necessary for their training for life as arithmetic; and for that matter much of it involves the best kind of applied arithmetic, in measuring, and estimating.

While it is true that the work in sewing has developing successfully into productive lines I regret to state that our attempt to interest the boys in wood working has not been successful.

This is then no fault of the boys but rather because of the lack of equipment. There are fifty-two boys in the seventh and eighth grades and because of the lack of suitable tools and instruction the work has not progressed beyond the stage of whittling.

This discussion of an attempt at industrial work brings me again to the old question of the ninth grade and the waste contained therein which was discussed in my two previous reports.

If you will consult the table completed in another part of the report you will note that an average of forty-six per cent of those who enter the ninth grade drop out at the end of the year. Applying this to the present condition we make the following conclusion; of the fifty who now comprises the present eighth grade, about forty-five will advance, of this forty-five, one-third may be able to skip the ninth grade and advance directly into the freshman class of the high

school. Of the remaining thirty who will enter the ninth grade nearly one-half will leave at the end of the ninth, and this brings us to the question of the value of the present ninth grade work.

Last Sept. the ninth grade entered on a special curriculum. This embraced English, Algebra, Concrete Geometry, Book-keeping and U. S. History and Civics.

This course is largely experimental and is successful only in a measure. The course should be further differentiated so that the 46 % who drop out of the ninth grade at the end of the course may get more benefit from this year. For this group I would recommend a preliminary commercial course distinctly separate from the high school work.

I give below in outline in sewing for the girls for the past two years and as suggestive outlines for extended Household Economics, next year.

' Sewing course in brief—making of, bags, aprons, underwear, plain dresses, mending, hats.

Involving knowledge of—stitches, seams, fitting, material, use of pattern, use of machine, simple millinery principles, sewing braid, facing, wiring, trimming, tie-tacking, .

Teaching value of—color, line, economy in selection of material and in application of pattern.

For next year household economics, price of food, relative food values, hygeinic and attractive cooking and serving of inexpensive foods, use of materials usually wasted, such as soap from fats.

Household sanitation—value of fresh air, sunshine, practical cleanliness, as applied to the different departments of housekeeping, emphasis on systematic effort and discrimination of essentials, avoidance of friction and waste of time.

### Outside Interest.

During the past year special effort has been made to interest children in matters not immediately connected with the school room. Of these athletics and school garden work have been especially successful.

For the past two years a baseball league has been organized among the 6th and 7th and 8th grades under the supervision of the superintendent and teachers, with regular schedule and rules governing it. A silk flag has been offered each year to the grade winning the greatest percentage of games.

A semi-military training was organized nearly a year and a half ago including 7th and 8th grades and the entire high school. Later on this proved to be unweildly and unsatisfactory and the 7th and 8th grades were dropped from the plan. There exists now a successful well defined organized battalion in the high school which meets one hour a week and has for its sole purpose the physical development of the boys and girls.

The battalion is under the immediate command and instruction of Raymond Hamlin. For details of this phase you are referred to the report of the Principal of the High school. Athletics should be further developed in the High school. Much of the baseball, football and basketball has been more or less spasmodic during the past two or three years. This has been partly due to the lack of funds. I feel positive that the work would be better and interest in studies more intense as well as a far better school spirit, were there a well defined, consistent and stable athletic scheme in the high school which would embrace both boys and girls. Your superintendent recommends an appropriation of one hundred dollars from the fund of the town.

### School Gardens.

The second year of the school and home gardens work was tried out this past year with notable success. The high school especially developed remarkable interest and success in this work outside of school hours.

The success of this work was made possible by the generosity of the Men's Club who appropriated the sum of ten dollars for the prizes and the co-operation of the Women's Club who appointed a committee to direct control and exam-

ine school gardens and award prizes. The work of this committee cannot be too highly praised.

During the month of July and August this committee personally examined and kept constantly in touch with upward of one hundred and fifty gardens, and in September reported back to the Superintendent the awards. Without the work of this committee the school and home gardens scheme would of necessity been doomed to failure.

Below are the members of the committee and prize winners.

*Committee.*

MRS. WILDER McCURDA,  
MRS. HOWARD A. WILSON.

---

**Prize Winners.**

High School, Concord street section—Donald Lent, 1st prize.

Main street section—Marion Jones, Grade 9, Joseph White, Grade 4, 1st prize; Ethel Gately, Grade 7, Lena Yukoska, Grade 3, second prize.

Bancroft section—James Doyle, Grade 9, Rose Barilone, Grade 4, 1st prize; Wm. Edwards, Grade 8, Ralph Jamieson, Grade 8, second prize.

Concord street section—Herbert Martin, high, Samuel Goldberg, Grade 7, 1st prize; Sylvia Bailey, Grade 1, Anna Coughlin, Grade 5, second prize.

Acton street section—John Taylor, Grade 8, first prize, Elwin and Peter Jencan, Grade 6, 1st prize; Grace Sweeney, 7, second prize.

### Club Interest.

The department desires to make grateful acknowledgment to the Woman's Club for this and other interests shown in various local educational movements, among which was the especially successful literary contest in the high school for the best essays on Town Improvement'.

The committee in charge were:

MRS. ALFRED McCLEARY,  
MRS. PEARL PACKARD,  
MRS. HOWARD A. WILSON.

The prize winners were:—Carl Marsh, 1st prize; May Parkin, 2nd prize.

### Eye and Ear Test.

Number of pupils in school,	925
Number found defective in eyesight,	70
Number found defective in hearing,	20
Number of parents or guardians notified,	84

Acknowledgement is made here of the services of Mr. Dahl, who has continued to do special work in examining the eyes of our children, when ever required to do so by the department.

During the past year, Mr. Dahl has examined 19 children.

In closing this report I wish to acknowledge in behalf of the children the loyalty of the teachers for their work and for the effort to meet the increasing demands made upon them for the advancement of these same children. There is a kind of service that money cannot buy.

To you as a committee your superintendent desires to express his earnest appreciation for the support you have given him and the confidence you have placed in him.

Respectfully submitted,

FRANCIS S. BRICK,

*Superintendent.*

Maynard, Mass., Feb. , 1912.

## REPORT OF THE HIGH SCHOOL PRINCIPAL.

---

*To the Superintendent and Committee of the Town of Maynard:*

The enrollment data of the Maynard High School is as follows:

	Boys	Girls	Total
Ninth Grade,	29	18	47
Grades ten to thirteen,	20	37	57
	<hr/>	<hr/>	<hr/>
Totals,	49	55	104
By percentage,	47 %	53 %	

There has been only a small decrease in membership during the school year thus far—four pupils. As compared with other years the difference is great and the condition is encouraging, and should continue. If a boy or girl is saturated with a desire to have spending money to go to all the shows, and dislikes study and restraint, probably the school cannot hold him. But if he wants to get the benefit of studies that are fundamental, the following list of facts will speak for itself. Of a very large list of eminent men who were investigated in a recent search for the answer to the question, "Does Education help one to success", it was found that a boy with a high school education has 22 times the chance of a boy without it; and a boy with college education has 10 times the chance of the one who stops with the high school course. These statements are made from the fullest statistics ever obtained, by government experts.

The question then is one of ambition. To awaken it is the fundamental duty and task of the school and the parent. The high school has therefore been seeking to arouse a larger interest during the past year to acquire this ambition by

making the teaching concrete and vivid. These are some of the ways. In the courses in mathematics, special apparatus has been made, illustrations used and exhibits of good work displayed. In the modern languages courses there has been the committing of German poems to memory, conversations and the use of foreign periodicals. In elementary science such topics as the study of the town water system, the school ventilator, the danger from germs, the physical laws that govern play, and simply electric appliances have been studied. And in all the courses, the teaching force has put an increasing amount of time and thought into plans to economize time, reduce waste and meet special troubles.

### COURSE OF STUDY.

#### Required.

##### *Ninth Grade*

English

U. S. History and Civil Government

Concrete Geometry

Spelling, Penmanship

Drawing, Elocution

Music

##### *Freshman*

English

Ancient History

Drawing, Elocution

Spelling

Music

#### Optional.

##### *Elect One*

Algebra

Bookkeeping

##### *Elect Two*

Latin

General Science

Algebra

Bookkeeping

##### *Sophomore*

English

History

Drawing, Elocution

Spelling

Music

##### *Junior*

English Literature

with Senior Class

Elocution, Spelling

Music

##### *Senior*

English Literature

Elocution, Spelling

Music

<i>Elect Two</i>	<i>Elect Three</i>	<i>Elect Three</i>
Latin	German, French Physics, Latin	French, German Latin, Adv. Mathe- matics
Physiology and Botany	Constitutional His- tory of U. S.	English Literature with Juniors
German	Advanced Mathe- matics	Physics, Latin with Juniors
Geometry	with Senior Class Drawing	Constitutional His- tory of U. S. Drawing

Pupils will be promoted from the ninth grade to the Freshman class of the High School, on a final examination in June.

Pupils will be required to complete four studies proper to a given class before promotion to the next; all class relationships must be with the class with which a pupil is registered.

Music is required of all. Elocution is confined to class work except in the Junior year, where the pupils will appear before the whole school; and in the Senior year, where the exercise becomes a public evening debate.

Only one modern language will be begun yearly. In 1911-1912 beginning German will be open to Sophomores and Juniors; and in 1912-1913 beginning French may be elected in the same way. Those who have begun French may register with that class for which they are prepared.

The group of minor exercises, drawing, spelling, elocution and music do not have promotion value in this schedule.

A study once begun must be completed and may be given up only with the mutual consent of parent and principal. A partly completed study carries no credit.

The course indicated provides that Juniors and Seniors may elect studies open to both classes as follows:—

#### 1911-12

Physics  
U. S. Constitutional History  
Virgil  
Advanced Mathematics

#### 1912-13 .

Chemistry  
English History  
Cicero  
Advanced Mathematics

### Concrete Geometry.

The ninth grade Concrete Geometry deals with actual problems such as locating the positions of new electric lights in the large study room; constructing working plans for sheet iron hoods for the ventilation; making plans for a canopy for a walk in the rear of the Bancroft street school; locating the course of a shaft to provide a safe passage for the heavy weight which controls the fire alarm system, and constructing plans for an extension of the Main street school. All of these problems are drafted on paper, neatly and to scale, as in architectural work. This form of study gives the most practical kind of arithmetical drill in measuring and computing with real things.

### Bookkeeping.

The bookkeeping class is equipped with satisfactory working materials for a year's work. The course ought to expand so as to include typewriting in accordance with the advice of the State Board, and the class should be in a room fitted to handle it. It would, if allowed to grow with a two-years course, or longer, easily become highly popular. Three-fourths of the ninth grade are taking the course at present.

### History.

The work in this department is being vitalized by the use of the stereopticon. We plan to use it with some one of the classes three or four times each month. The new stereopticon will permit the use of a large variety of illustrations from books. To make either instrument entirely available in the day time will require that one room be fitted with opaque curtains to shut out all light.

### Rhetorical Work.

A feature of the English work which needs reorganization is the public speaking, not alone with a view to prepare for graduation and public appearance but to influence the daily work. The pupils of our school speak in voices that are too low, too indistinct, and they do not clearly express themselves. We have used the following ways to work at the matter: correction in class; declamations given before the school; exercises for special days. But to secure the result sought, there ought to be regular class work, put on the same basis as any other class exercise, with criticisms and corrections. To find the time and place for this is an acute problem which we hope to solve. If such class work could be begun in the first year and continued throughout the course, the pupils' whole personality would be improved and strengthened.

### Interests outside the Regular Course of Study.

Two inspiring addresses have been given the school by visitors, the subjects being "The Elements of Leadership" and "Life at West Point," We hope to have more messages of this kind from men of strong personality and deep interest in school life. The Woman's Club have offered a year's membership to that girl in the present Junior class whose work is most worthy. It is noticeable that this class has, by a considerable margin, the best standing in the school. The dramatic evenings furnished by the Junior class, last year and this, under the direction of Mr. Damren, have been valuable in a rhetorical way and also in adding zest to the school life. This kind of interest should grow.

### Military Drill.

The military drill is continued weekly under the captainship of Raymond Hamlin, and the work is progressing well enough for us to hope that at some time there may be equipment. An important feature of the work is its bearing on health.

The drill has features that develop breathing power, expand the lungs, straighten the shoulders, keep the feet from dragging, stiffen up the back and make one alert. It increases the quickness of mental action by making it necessary to keep the attention focussed on the orders given. It creates the ability to move with decision and surety and to sense an order. These qualities are often somewhat undeveloped.

### School Visitation.

Hardly any parents have visited the school during the last four years and not one thus far this year. We fully believe that this has the effect of causing the scholars to feel that the school life is not of vital interest to parents. Their work suffers correspondingly. Every parent ought to visit

once a term at least, the place where the son or daughter spends five hours of each day. They should know the teachers. These visits would bring a new birth of school spirit, of intensity of effort of desire to appear well and to excell. In every way, the school needs visitation of that friendly and stimulating kind which spring from the knowledge that the teacher is, next to the parent, the guiding force towards the future of the children.

### Graduation.

The class of 1911 furnished the program for graduation in place of an outside speaker. This is a return to the custom of former days and the exercises were, I believe, sufficiently well received to warrant the continuance of the plan. The general subject for the year, on which work has been in progress for some time as a part of the English course is "Choosing Vocations."

The graduating class of 1911 presented the school a beautiful cast representing the revolutionary minuteman as he answered the call to arms. The tendency of classes at present is to give casts rather than pictures and the result is pleasing.

The present graduating class of ten students will probably have representatives in the following institutions next year.

Massachusetts Agricultural College,	1
Framingham Training School for Nurses	3
Business college	3

The program for the graduation of the class of 1911 follows. Of the class, one entered Dartmouth college; one, Boston University; two, Fitchburg Normal school; one, Wheaton Seminary; one, Massachusetts Trade school; one, Simmons college.

It is a pleasure to state that our graduates who have entered college have in general maintained good standing, and have made it possible for us to renew and retain our

right to send students to college on certificate. The class of 1911 is maintaining this record.

I desire to express my thanks to associates and superiors for that help and co-operation which have aided in producing such results as are have been attained.

Respectfully submitted,

J. D. W. CHESTER.

### GRADUATION PROGRAM.

## REPORT OF THE SUPERVISOR OF DRAWING.

---

Mr. F. S. Brick,  
*Superintendent of Schools:*

I herewith submit my annual report concerning the work in drawing..

I am pleased to be able to state that I continue to enjoy in the Schools of Maynard the hearty co-operation of teachers and pupils that has been characteristic of the work from the first. It is a pleasure to work under the conditions I meet here. At this time I want to thank all for the kindly spirit and enthusiasm accorded my subject.

Few changes have been made in the conditions under which Drawing is taught since the work has been under my direction. The time devoted to the work remains unchanged. In the High School it is still required the first three years and elective the last two years.

The course has been somewhat revised standing at present as follows:—

One lesson a week in illustrative drawing is required in grades one and two throughout the year.

September—Plant drawing.

October—Design.

November—Design with color application. Lettering in grades seven and eight.

December—Constructive problems with applied design. Printing applied to mottoes and booklets in grades seven and eight.

January and February—Animal drawing, grades one to three. Landscape work, grades four to six. Introduction to mechanical drawing with use of instruments, grades seven and eight.

March and April—Free hand object drawing.

May and June—Plant drawing.

In all grades, at any time, the teachers are privileged to introduce such work as will relate the drawing to the general subjects. The supervisor stands ready to assist in this work when asked.

Outline for the High School:—

Grade nine and Freshman Class—Free hand drawing.

Four weeks—Drill in free hand drawing of curves.

Twelve weeks—Details of their design and their application.

Ten weeks—Printing, grade nine. Object drawing from groups, Freshman.

Eight weeks—Object drawing from dictated problems, grade 9. Sketching from casts, Freshman.

Six weeks—Plant drawing and design.

Sophomores—Mechanical and freehand drawing.

Sixteen weeks—Geometric problems.

Twelve weeks—Diagrams and object drawing from groups.

Twelve weeks—Casts in charcoal.

Juniors and Seniors are given a choice of free hand or mechanical drawing and as none have elected free hand the work is entirely mechanical.

Juniors—Orthographic projection through intersection of solids with the developments of these.

Seniors—Machine drawing and isometric drawing with details of building construction.

Respectfully submitted,

MAUD I. DOLAN.

Hudson, Dec. 27, 1911.

## REPORT OF THE MEDICAL INSPECTOR.

---

Considering the cosmopolitan character of our population, the crowded condition of our tenements and dwelling houses, the improper diet prepared for old and young, and the lack of education, relative to good health, upon the part of a goodly number of our inhabitants, Maynard, indeed, has just cause to point, with pride, to the fact that there has never been experienced any of the epidemics or scourges, common to so many of our manufacturing centers.

This fortunate condition is, by no means, referable to chance, but has been brought about by a combination of circumstances, among which may be enumerated the following.

The furnishing to its employees with comfortable tenements and dwellings, equipped with modern conveniences, by the company, upon which the Town depends for its existence; the watchful eye of the local Board of Health, for any and all things, which may be detrimental to the public health; the inclination, upon the part of a good number of our inhabitants, from other countries, to educate themselves in that which will better their conditions, and last, and the greatest factor of all, our Public Schools.

A decade ago the predominating idea, in our public schools, was that of the development of the mind, and every endeavor was put forth to accomplish that end, without regard to consequences, but now all this has changed, and development of health takes precedence over that of the mind.

Where, formerly, poorly nourished, uncleanly and, perhaps, sickly children were permitted to attend school, without any notice of their condition being taken, now the oppo-

site extreme is, gradually, being promulgated, and it is a rare exception to observe, at the present day, a child, in our public schools, whose general appearance is distasteful as regards health and cleanliness.

A careful scrutiny, by each teacher, of those under her charge, a report of her observation to the medical examiner, a personal examination of each case by the latter, a notification, to each parent or guardian, of the existing state of affairs, and a request that an immediate consultation with a physician be held, before further attendance at school will be permitted, has, in no small degree, remedied the defects, which existed.

Tests, by the teachers, for vision and hearing, and the results of the same communicated to the parents, have resulted in a decided betterment of those human senses.

Perfect sanitary conditions of the school buildings and an almost perfect system of ventilation, in the halls and school rooms, has shown its effects in the keener and brighter intellects displayed.

Lastly, an adaptation of the old adage, "All work and no play makes Jack a dull boy" and the advocating and furtherance of sports by those in authority, has developed a physical and mental condition, which, otherwise, might be woefully lacking.

Thus it may be seen that our educational leaders are laboring, not entirely for an advancement in book learning, but for all those factors, which will develop our present day pupils into future bright and sturdy citizens.

In conclusion, I would state that the health and general welfare of the pupils, in the public schools, was never better than at the present time, and in recognition of the efforts of the teachers to further this end, and the co-operation of the parents and guardians, the Town of Maynard should extend its appreciation.

Respectfully submitted,

DANIEL GOODENOW, M. D.

## REPORT OF THE SUPERVISOR OF MUSIC.

---

Mr. F. S. Brick,

*Superintendent of Schools:*

Maynard, Mass.

Dear Sir:—Although without a Supervisor of Music for the first few weeks of school, I found, on visiting the schools of Maynard in October 1911, that some of the teachers had already started the work, if only to review songs of the previous year.

In these grades we have, perhaps advanced faster than in the others.

Although in all the grades I find an eager interest in music, manifested by the children in enthusiastic singing and this spirit is largely inspired by the teachers, who realize that not only is the child developing mentally, but physically and spiritually as well.

Breathing exercises should be made use of before the music period and we all know the value of deep breathing which is necessary in singing.

All children love to sing and they sing naturally of love, happiness, joy, patriotism and good will; the evil impulses of the soul do not thrive in a musical atmosphere.

So we count music one of the many things in modern education, which appeals to the child and serves to create higher ideals.

In the first three grades, note songs are being taught continually and all the individual help possible is given to the monotones.

The first grades are able to sing very simple intervals from the staff.

The sight singing melodies are used in 2nd grades for board work and placed in the hands of the children of the 3rd grades for study.

The 4th grades are using the 1st Educational Readers and 5th grades the 2nd Readers.

Many important principles of music are involved in the work of the 5th year and we have much to accomplish on account of time lost at the beginning of the year.

Grades 6, 7 and 8 using respectively 3rd, 4th and 5th books, are doing especially good work in 2 and 3 part singing.

In all grades we are trying to introduce the use of Loo or Koo after the syllables and a marked improvement in tone is noticed.

In the 8th grade we shall study selections from best composers and also study the lives of composers to a small extent.

But for the lack of a piano, the Bancroft street school would be able to form a small orchestra.

The High school chorus is doing creditable work; we have just begun a short cantata "The Village Blacksmith" and as there is talent, instrumental as well as vocal, in the school, an orchestra will add support to the chorus.

My work has been made very pleasant for me by the teachers and I wish to extend my sincere thanks for their hearty co-operation.

Respectfully submitted,

ALICE M. GENTNER,

*Supervisor of Music.*

Feb. 3, 1912.

## TOWN WARRANT.

Commonwealth of Massachusetts,

Middlesex, SS-

*To either of the Constables of the Town of Maynard, in said County, Greeting:*

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative hall in said Town, on Monday, the eleventh day of March next, at 7.00 a. m., then and there to act on the following articles:

**Article 1.** To choose a Moderator to preside at said meeting.

**Art. 2.** To choose by the Australian system of balloting the following Town Officers: One Town Clerk, one Town Treasurer, one Collector of Taxes, each for one year, three Selectmen for one year, one Overseer of the Poor for three years, one member of the Board of Health, for three years, one Water Commissioner, for three years, one member of the School Committee, for three years, one Assessor, for three years, one Trustee of the Public Library, for three years, one Trustee of the Public Library, for one year, one Tree-Warden, for one year, two Auditors, for one year, three Con-

stables, for one year, one Cemetry Commissioner, for three years, and all Town Officers to be chosen at said meeting. Also to answer by the said Australian system of balloting the following question: "Shall licenses for the sale of intoxicating liquors be granted in this Town?"

For the purpose specified in this article the polls will be open after the election of a Moderator and will remain open until four o'clock in the afternoon when they shall be closed unless the meeting there assembled otherwise determine.

**Art. 3.** To hear and act upon the reports of Town Officers and Committees.

**Art. 4.** To see if the Town will appoint a Committee to consider appropriations for the ensuing year and report at the April meeting. To do or act thereon.

**Art. 5.** To see if the Town will authorize the Treasurer with the approval of the Selectmen, to borrow, during the municipal year, beginning Feb. 1, 1912, in anticipation of taxes for said municipal year, such sums of money as may be necessary for the current expenses of the Town, giving the notes of the Town therefor, payable within one year from the dates thereof.

**Art. 6.** To see if the Town will accept from Martha B. Cutting, two hundred dollars (\$200) as a Cemetery Fund, the income to be used for the perpetual care of her lot in Glenwood Cemetery, to do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant, with your doings thereon, to the Town Clerk, or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this seventeenth day of February, in the year of our Lord, one thousand nine hundred and twelve.

WILLIAM CONNOLLY,

WILLIAM JONES,

*Selectmen of Maynard.*
