Anthony Warsewicz	Theodore W. Lowney
William Naylor	Fernande R. Smith
Agnes Rizzo	

### RETIREMENT BOARD

‡Harold J. Morgan	James V. King	Job U. Doel
-------------------	---------------	-------------

\* Resigned

† Deceased

‡ Appointed to fill vacancy

## Report of the Board of Selectmen

To the Citizens of Maynard:—

The Board of Selectmen respectfully submit for your consideration the Annual Reports of the Town Officers and Committees for the year 1955.

During the past year the reorganization of the Police Department, was begun, and with the appointment of a new Chief of Police, one new Sergeant to fill the vacancy caused thereby, and the appointment of two permanent police officers, and two permanent intermittent (reserve) officers, the police department re-organization is now complete.

With the new Police Headquarters, completed this year, we find the police well housed, close to the Fire Department which is in this same combination building, which should make for better co-ordination of the two very important branches of the town's departments of security.

The Police Department, suffered the loss of its police cruiser, while in pursuit of a law breaker, and we well may all give thanks that it was the cruiser that we lost instead of one of our able and popular young officers. The much damaged cruiser is to be repaired, and the department will then be equipped with an auxiliary machine for investigation, the taking of prisoners to court, and thus leave the town covered at all times with the regular machine.

A continued bright look into the future is new industries coming to our town during 1955. The Raytheon Mfg. Co., and the Dennison Mfg. Company, two very substantial companies are now located here.

The dedication of the combination Fire and Police Station Building, gave the town quite a face lifting, besides offering the townspeople increased security in both Police and Fire protection.

The building of a new High School Gymnasium, and a new Grade School, are now under construction, and will soon be completed. The School, we expect to be ready for occupancy for the Fall of 1956 again this giving our town another decided face lifting, and that Maynard is on the road of long overdue progress.

The Board of Selectmen, feels that the committee studying the possibility of erecting a new Town Office Building, and Library, might well postpone any thoughts of so doing for sometime to come, or until such a time as the completion of the two new buildings now under construction are now completed, and avoid adding to the taxpayers any further financial burdens at this time.

We wish to thank all boards and committees for their co-operation and assistance during the past year.

Respectfully submitted,

EMILE A. DUMAS, Chairman  
JOHN MITZCAVITCH, Secretary  
JOHN S. SOKOLOWSKI

## List of Jurors — 1955 - 1956

Grace Alberi .....	5	Harrison Street	Housewife
Arthur Anderson .....	4	Main Street	Car Dealer
George J. Anelons .....	9	Crane Avenue	Carpet Worker
Carlo Angelosanto .....		Boeske Avenue	Laborer
Edward F. Arcieri .....	14	Grant Street	Auto Worker
Hilda Aromaa .....	24	Waltham Street	Spinner
Regina M. Ayotte .....	6	Front Street	Personnel
James J. Bakun .....	10	Garfield Street	Pipe & Steam Fitter
Edmund Barrett .....	35	Harrison Street	Gardener
Charles A. Batsford .....	9	Haynes Street	Electrical Worker
Edward E. Beals .....	27	River Street	Sales
Edmund W. Beebe .....	3	Warren Avenue	Claims Representative
Edward Bobik .....	112	Great Road	Salesman
Annie M. Bobnis .....	13	Dartmouth Street	Bundler
Edward J. Boltrukiewicz .....	169	Main Street	Auto Worker
Joseph Boothroyd .....	166	Great Road	Weaver
Edward J. Boulden .....	20	Brown Street	Guard
Arthur F. Burt .....	6	Brown Street	Accountant
Alfred S. Carey, Jr. ....	146	Powdermill Road	Fireman and Pipefitter
Janet I. Carlton .....	131	Summer Street	Clerk
Raymond F. Catania .....	19	McKinley Street	Carpenter
Edgar J. Christian .....	96	Powdermill Road	Electrician
Leonard Cirino .....	14	Hayes Street	Mill Work
Charles H. Colburn .....	24	Prospect Street	Service Station Mgr.

Walter J. Zancewicz .....	16 Maple Street	Mgr., Retail, etc.

EMILE A. DUMAS,  
 JOHN MITZCAVITCH,  
 JOHN S. SOKOLOWSKI,  
 Selectmen.

## Report of Civil Defense Agency

The following is the report of the Civil Defense Agency for the period ending December 31st, 1955.

During January and February of 1955 several members of the Civil Defense Agency completed the standard Red Cross First Aid course and six members of the Agency completed the Advanced First Aid and Instructors Course. The Agency then announced that first aid courses would be given to all those persons in the town who wished to take it. To date, three courses have been given and plans are underway to continue these courses in 1956. Both junior and adult courses will be given.

The Auxiliary Police, headed by Captain William J. Stades, have been available for duty as special officers at Halloween, during the dedication of the police and fire station and at the Boosters Bonfire and also at Alumni Field during the arrival of Santa Claus. Approximately 250 man hours were worked by the Auxiliary Police during 1955. This organization was also standing by during the August floods. About 95% of the Auxiliary Police have completed the first aid courses.

The Civil Defense agency has been called upon several occasions for blood donations and as a result of these calls the Air Raid wardens, under the direction of Clarence Braman, Deputy Director, are formulating plans for 1956 to secure additional blood donors and set up a plan for the distribution of blood for the citizens of Maynard who may be in need. The wardens also have plans for guided tours of defense areas, such as guided missile sites, etc.

The Civil Defense Agency is still waging a fight with public apathy but we feel confident that continued publicity and the cooperation of the many agencies in our town will enable this Agency to greatly expand during the next year.

We of the Civil Defense Agency wish to thank the Board of Selectmen and all other town officials for their excellent cooperation received during 1955.

DONALD A. MacGLASHING,  
Director.

January 4, 1956

## Report of Dog Officer

Honorable Board of Selectmen:  
Maynard, Massachusetts  
Gentlemen:

As Dog Officer I hereby submit my report.

During my three months twenty-one dogs were brought in and boarded.

Fourteen were returned to their owners.

Seven were destroyed after six days.

Two dogs were quarantined on suspicion of rabies. After fourteen days they were checked, and quarantine lifted.

At this time I want to thank the Chief of Police, and his officers for their assistance.

During the year the town was saddened by the death of Josiah Herrick who faithfully served the town for many years as Dog Officer and Inspector of Animals. This loss was deeply felt.

Respectfully submitted,

WALTER DONOHUE,  
Dog Officer.

## Report of Inspector of Animals and Slaughtering

Honorable Board of Selectmen:  
Maynard, Massachusetts  
Gentlemen:

As Animal Inspector I hereby submit my report for 1955.

4 cows, 4 heifers, 1 bull, 7 horses, 1 goat and 500 pigs, in seven barns.

The barns were inspected and found to be clean. The cattle were free of barn mange, lump jaw, and other contagious diseases.

Respectfully submitted,

WALTER DONOHUE,  
Inspector of Animals.

## Report of Sealer of Weights and Measures

The Honorable Board of Selectmen:  
Gentlemen:

I herewith submit my annual report as Sealer of Weights and Measures for the year of 1955.

In submitting my report I wish to state that at the close of the year all the weighing devices and measures examined by me were in good condition and all complaints received by this department were properly investigated and disposed of in accordance with the law.

In conclusion I wish to thank the merchants for the splendid cooperation they have given me.

Scales over 10,000 lbs.	3
Scales 100 to 5,000 lbs.	27
Scales under 100 lbs.	73
Weights	145
Liquid Measures 1 gallon or under	31
Meters 1 inch or less	37
Vehicle Tank Meter System	9
Other Measuring Devices	39
Oil and Grease	19
Fees received from Sealing by myself	\$181.00
Appropriation	500.00
Expenditures	415.39

The fees collected by me for the year of 1955 were paid to the Town Treasurer on December 27, 1955.

Respectfully submitted,

ANTHONY WARSEWICZ,  
Sealer of Weights and Measures.

# Report of Chief of Police

To the Honorable Board of Selectmen:

I hereby submit my annual report as Chief of Police for the year ending, December 31, 1955.

## TRAFFIC AND PARKING

As in previous years all traffic lines and signs have been painted in various sections of the Town. The parking area off Nason and Main Streets has been marked off for the parking, in accordance with a plan designed by the Planning Board. Now traffic may enter and go from the parking area without causing any congestion. During 1956 the parking area in the rear of Peoples Theatre and the one off Summer Street should receive another seal coat of bituminous oil and then lines painted to facilitate the parking of more cars.

## EQUIPMENT

In my budget for the coming year I have requested that another cruiser be obtained. This cruiser is needed in order that the Town may be properly protected when the present cruiser is out of town bringing persons to court.

The new Police and Fire Station has aided this Department considerably in performing the Police Department's duties.

### Crime Against the Person

Assault .....	10
Threats and intimidations .....	1
	<hr/>
Total .....	11

### Crime Against Property

Arson .....	4
Breaking and Entering .....	1
Larceny .....	2
Malicious mischief .....	4
Using Motor Vehicle without authority .....	1
	<hr/>
Total .....	12

### Crime Against Public Order

Ordinance violations .....	15
Delinquency .....	2
Disturbing the peace .....	9
Driving motor vehicle to endanger ....	3

Driving motor vehicle while intoxicated .....	21
Drunkenness .....	149
Indecent exposure .....	2
Motor vehicle laws violations .....	29
Neglect or desertion of family, non support .....	8
Traffic rules violations .....	21
Total .....	259

In conclusion, I wish to express the appreciation and thanks of the Police Department, to the Board of Selectmen, Town Counsel and to all other Departments who have been of assistance to the Police Department.

Respectfully submitted,

MICHAEL ZAPARESKI,  
Chief of Police.

## Report of the Rent Control Board

1955

To the Board of Selectmen:

The 5-member Rent Control Board continued to function in 1955 as a liaison between landlord and tenant with both groups being granted the privilege of meeting with the Board to discuss particular problems. The Board has been chairmaned by Theodore Lowney.

Because of limited funds and members knowing the area in general no Investigator was employed, however, many rent cases were investigated by William Naylor and Anthony Warsewicz, both members of the Board.

Petitions for increases, inquiries on de-controls, authority of evictions, office and telephone consultations have been the major business of the Board.

According to State Law Rent Control went off December 31st, 1955.

THEODORE P. LOWNEY, Chairman  
WILLIAM NAYLOR  
ANTHONY WARSEWICZ  
FERNANDE SMITH  
AGNES RIZZO  
EDNA M. FARRELL, Secretary

## Report of Municipal Building Committee

To the Honorable Board of Selectmen:

The Municipal Building Committee makes the following brief report.

The year 1955 was a very active one for this Committee. Acting as the Fire and Police Station Building Committee we supervised the erection of a building to house the Police and Fire Departments, on a lot of land owned by the town at the junction of Summer and Acton Streets. In connection with the erection of the building we were able to widen Acton and Summer Streets in the immediate vicinity of the building. This widening was badly needed.

In October the building was dedicated with fitting ceremonies, and the townspeople by the hundreds inspected the building after the dedication.

The final report of this committee will be made at the Annual Meeting in March 1956.

The Municipal Building Committee continues to function, and at present we are working on plans for a new office building and library. We intend to present to the people in the Town Meeting in 1956 our plans for such a building.

LEO F. MULLIN, Chairman  
WILLIAM NAYLOR, Secretary  
JOHN SOKOLOWSKI  
R. FRANK PUNCH  
DAVID PALLIAN  
HAROLD WILCOX

## Report of Board of Fire Engineers

To the Honorable Board of Selectmen:

We herewith submit our report of the Fire Department for the year 1955.

Our losses soared sharply in February and March when we suffered a succession of large fires. In spite of the rumors to the contrary we, the Board of Engineers, are not of the opinion that arson was involved. Our experience in Maynard is not too different from other towns of similar size and characteristics. We have said for many years that luck has been with us, but this year it left us.

It is not in the least remarkable that serious fires result in the buildings in our center. They have been built, rebuilt and altered over a long period, almost completely without regard to Fire Prevention practices or building codes. An excellent example was the Eagles Block. It was one of the oldest mercantile buildings in town. There was almost a complete lack of fire stops in the walls. A great effort to get ahead of the fire in the walls was made, but it was impossible to cut it off. The excellent cooperation of our neighboring towns prevented the fire from being even more serious. To even the casual observer who watched the wreckers tear the building down, the course of the fire through unblocked spaces was obvious.

Although a building code would not alter this situation, so far as the older structures are concerned, it should prevent repetition of these hazards in future construction. We, therefore, recommend such a code be enacted after careful study of existing codes in the light of our town and conditions.

Several investigations have been conducted by the Engineers this year with particular regard to unsafe wiring in dwellings. We have ignored the statutory requirement for a wire inspector too long. Electrical wiring carries death with it in several ways. Defective wiring can cause electrocution and it can cause death in a much more insidious way, by starting a slow burning, smoky fire which can overcome the occupants before the existence of the fire is noticed. On one occasion we ordered the Boston Edison Company to discontinue service to a dwelling until the obviously defective wiring had been made safe. We again urge the Town officials to take the necessary steps for wire inspection.

Gas leaks have caused us concern again this year. If any citizen suspects a gas leak, take the following steps immediately:

1. Shut off all sources of ignition, pilot lights, electric motors, etc.
2. Call the Fire Department.
3. Get away from the source of the suspected leak as soon as possible.

The new Fire and Police Station was occupied by the Fire Department on October 4, 1955. The new quarters are a credit to the Town and the source of much favorable comment from visiting persons who inspect it. As in the case of all new buildings, there are the usual number of "bugs" which the Building Committee, the contractor and the Police and Fire Departments are adjusting.

The celebration of the opening was an occasion that will be long remembered by all the parties involved. A small crowd was anticipated. The wives of the firemen offered to serve a collation and many of the merchants contributed coffee and other materials. While the Firemen were in the parade the crowd surged into the building and all control was lost. We know that many persons were unable to inspect the quarters on that occasion and, therefore, we welcome the citizens to inspect them at any time.

The statistics again reveal that the Resuscitator has been of great benefit by saving three persons out of six.

Grass and rubbish fires were numerous but not as large in area as in some of the past years.

An increase in building fire calls is disturbing.

Our mutual aid system has worked out well. We had assistance from others on 5 occasions and we gave assistance to others on 8 occasions.

The new telephone system has increased the cost of telephones because of the need of two separate phones. We urge all persons who have occasion to call for ordinary business to use the number TW 7-2345.

**PLEASE USE THE NUMBER TW 7-2121 FOR FIRE AND EMERGENCIES ONLY.**

We want to thank the citizens for their support and cooperation during the year and we hope that this support has been justified by our performance of our duties.

Respectfully submitted,

PHILIP A. WILSON,  
HENRY MARIANI,  
MARTIN GRUBER,  
WALTER ALLAN,  
Board of Engineers.

**MAYNARD FIRE DEPARTMENT**

**SPECIAL CALLS**

**2-2-2 All Firemen report to Headquarters**

**1-1 Test at 12:10 P. M.**

**2-2-1 Brush fire call**

**1-1 After an alarm indicates fire is out**

**6 American Legion, Veterans of Foreign Wars or State Guard Call**

**7 Boy Scout Call**

**Air Raid Alarm — 28 single blasts**

**All Clear — three series of 3 single blasts**

**3 at 7:15 A.M. or 12 Noon No School for first eight grades**

**5 at 7:15 A.M. No School all grades all day**

**3 at 6:30 P. M. No Evening School**

**1 at 9:30 A. M. or at 12:30 P. M. no Supervised Recreation for children (During the Summer Months Only)**

Hose Laid:	
Booster and 1 $\frac{1}{8}$ " .....	15,375 feet
1 $\frac{1}{2}$ " hose .....	1,450 feet
2 $\frac{1}{2}$ " hose .....	8,900 feet
Estimated Losses .....	\$104,000.00
Insurance paid on losses .....	\$34,500.00

---

We are not printing the fire alarm card in the Town Report. We hope thereby to reduce the number of sightseers who have caused delay and interference with the Fire and Police Departments at several emergencies.

## Report of Special Water System Study Committee

The Special Committee appointed under article 34 of the March 14, 1955 town meeting submit the following report of progress:

At the meeting of May 10, 1955, the resignation of Mr. Peter T. Peterson was accepted, he having become ineligible to serve on this committee due to his appointment as Superintendent of Public Works, he has continued to cooperate with this committee in that position. Mr. Raymond J. Sheridan was elected to fill this vacancy.

During the year, six meetings were held by this committee, at which representations of town boards and committees directly concerned, participated. A representation of this committee conferred with various water works officials, some of whom were graduate civil engineers, in the following cities and towns: Acton, Arlington, Billerica, Concord, Sudbury, Waltham, Watertown, Weston and Westboro.

During the latter part of the year a complete survey of the fire protection of the town was made by the Underwriters Municipal Rating Bureau, which agency will shortly submit a report setting forth the steps necessary to obtain a more favorable grading. The town of Maynard is presently down in sixth class, which results in high insurance rates for all buildings except those used exclusively as dwellings or are protected by sprinklers. As part of this survey, comparisons were made of hydrant flows, with similar tests made in 1940, these tests showed a very serious drop in capacity. As one example, in 1940 the hydrant flow at the corner of Elmwood and Thompson Streets was 1340 gallons per minute, the latest test showed only 330 gallons per minute.

The principle reasons for the present low capacity of our water system are: The high proportion of small mains, 79% being six inch or less, of this 24% is four inch, which has no place in a system which supplies fire hydrants. There are many gaps in the system, streets on which the main only goes part way through, resulting in too many dead ends. In many instances small mains are feeding larger mains, as an example; the single four inch main on Florida Road is feeding two six inch mains, one on Euclid Avenue and the other on Thomas Street. And all of the mains, with the exception of the comparatively small amount of Transite, are so badly clogged with scale, that tests made by the engineering firm

of Haly & Ward showed that some of the six inch pipe is carrying less than twenty percent of its original capacity and that the two main feeders from the reservoir are only carrying about one half of their original capacity.

Town records show that over the years, more than \$120,000 of surplus water revenue has been diverted to other town departments. This was done at the expense of failing to provide adequate sized mains to keep up with the extensions to the system and the increased use of water. Flow tests show that even the most recent extensions of the system fail to deliver minimum underwriters requirements. Examples of this are the Maybury Village development which is supplied by a single six inch main and hydrants of an obsolete type, and Old Mill Road where a six inch main was laid at about the same time that \$1000 was being paid to an engineering firm for a report recommending a ten inch pipe at this location. The only additional expense involved in laying the larger pipe while the ditch is open, is the difference in the cost of the two sizes of pipe.

This committee is of the opinion that a start should be made on a program of improvements, we therefore recommend the appropriations of \$50,000, to be financed from water revenue, for the laying of new mains in the following streets:

1. Florida Rd. 10 in. Main to Summer St.
2. Walnut St. 12 in. Main to Thompson St.
3. River St. 8 in. Walnut to Main St.
4. Elmwood St. 8 in. Parker to Chandler St.
5. Chandler St. 8 in. Elmwood to Fairfield St.
6. Fairfield St. 8 in. Chandler to Thompson St.

These mains will provide adequate fire protection for some of the most critical areas.

Consideration should also be given towards a program of cleaning existing mains that are of adequate size, starting with the mains from the reservoir, which as previously stated, are now carrying only about half of their full capacity. The town of Arlington, considered a model of municipal management, is engaged in a major program of main cleaning which has proved highly successful and economically sound.

ROUFF A. TOMPKINS  
HENRY T. HANSON  
EMILE A. DUMAS  
RAYMOND J. SHERIDAN  
HERBERT RUOTSALA

# Town Clerk's Report

For the year ending December 31, 1955

## Proceedings of Town Election

Held March 7, 1955

On the above date, in accordance with Town Warrant No. 458, the annual Town Election was held in the George Washington Auditorium.

Moderator Philip Wilson called the meeting to order, and on motion of J. Fred Stokes, it was voted to waive the reading of the warrant. The polls were then declared open at 8:01 o'clock A. M.

The ballot clerks, appointed by the Selectmen and sworn by the Town Clerk, were as follows:

Area. 1. Francis A. Brayden, Evelyn M. Mulcahy, Ann T. MacGlashing, Sadie Sluyski, Phyllis P. Savikoski and Edward J. Costello.

Area 2. Irving G. Dart, Ethel O. Carlson, Katherine Pareago, Helena M. Murphy, Ruthmary Armour and Magloire Lesage.

Prior to opening the polls, the ballot boxes were examined by the Moderator and Town Clerk, found to be empty and the registers were set at zero. The boxes were then locked and the keys placed in the custody of the election official in charge of the box.

At 2:00 o'clock P. M. the Tellers and Tabulators, appointed by the Selectmen, were sworn by the Town Clerk. The opening of the ballot box to remove ballots for counting having been authorized, ballots were removed and the counting began, by the following:

Margaret M. Boothroyd	Elsie P. Brayden
Eva H. Evers	Dorothy E. Hamlin
Edna M. Farrell	Grace E. French
Elvira A. Hicks	Jessie Crowe
Evelyn Darcy	M. Mabel Holly
Agnes W. Driscoll	Dorothy Garlick
Gertrude Morgan	Mabel A. Bemis
Mary A. Tierney	Tillie O. Eriksen

The tabulation was done by Myrtle Whitney and Doris A. Lowney.

The ballot box in Area 1 registered four over-rings caused by ballots getting caught in the rollers. The register was 1169.

The ballot box register in Area 2 registered 1150.

Total number of names checked in Area 1 .....	1,165
Total number of names checked in Area 2 .....	1,150
<hr/>	
Total number of ballots cast and tabulated .....	2,315

The voting list in use at the election contained 3681 names and 3900 official ballots were delivered to the ballot clerks and a receipt taken therefor.

The results of the voting were announced at 9:14 o'clock P. M. by the Moderator, as follows:

#### SELECTMEN — THREE YEARS

Town Clerk.  
March 8, 1955.

---

In accordance with the provisions of Section 19 of Chapter 41 of the General Laws of Massachusetts, I hereby appoint James V. King of Maynard to be Assistant Town Clerk during the current municipal year or until this appointment is revoked.

ELEANOR JONES,  
Town Clerk of Maynard.

---

I, James V. King, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

JAMES V. KING.

---

Subscribed and sworn to this eighth day of March, 1955 before me,

ELEANOR JONES,  
Town Clerk of Maynard.

A true copy,

Attest:

ELEANOR JONES,  
Town Clerk.

## Proceedings of Town Meeting

Held March 14, 1955

On the above date the Annual Town Meeting was held in Peoples Theatre. The meeting was called to order at 7:30 o'clock P. M. by the Moderator, Philip Wilson, who declared a quorum present.

On motion of R. Frank Punch it was voted to waive the reading of the warrant as a whole.

A motion by Edwin Carlton, Jr., that Articles 22, 24 and 34 be voted by secret ballot, amended by David L. Pallian and Emile A. Dumas, was not carried.

Article 1. On motion of Walter E. Carbone it was voted to allow the Engineer employed by the Planning Board to conduct the study of the Town's Water System, to be present in the meeting and answer questions when Article 34 was acted upon.

R. Frank Punch requested Mr. Leo F. Mullin, former member of the Municipal Building Committee to read a report for the Committee now known as the Police and Fire Station Building Committee.

Irving H. Manning read a report for the School Building Committee. Report was filed.

Walter E. Carbone read reports for the Planning Board. Reports were filed.

Voted that these reports be accepted as reports of progress.

Article 2. At this time the Moderator reported that there was a vacancy in the Police and Fire Station Building Committee caused by the resignation of Ernest Mariano and he appointed Leo F. Mullin to fill the vacancy.

Article 3. Edwin Carlton, Jr. moved that the sums of money under this article be transferred and appropriated as approved by the Finance Committee and that the recommendations of the Finance Committee be adopted.

An amendment by David L. Pallian to remove Subsection No. 20 and act on it separately, was carried.

An amendment by Anthony Warsewicz to remove Subsection No. 32 and act on it separately, was carried.

An amendment by Joseph Dutkowski to remove Subsection No. 33 and act on it separately, was withdrawn.

The motion by Mr. Carlton was then voted upon and it was voted as follows:

1. Selectmen—Office Salaries .....	\$3,448.00

On motion of David L. Pallian: Voted to appropriate under Subsection 20 of Article 3 the sum of \$823.00 for the Planning Board.

On motion of Anthony Warsewicz: Voted to appropriate under Subsection 32 of Article 3 the sum of \$5,980.00 for Health Department—Salaries.

On motion of Irving H. Manning it was voted to act on Article 47 at this time.

Article 47. On motion of Irving H. Manning: Voted unanimously, that an additional \$38,000.00 be appropriated for the purpose of constructing and originally equipping and furnishing an elementary school building, said sum to be added to the appropriation of \$344,000.00 previously appropriated for the same purposes under Article 3 of the warrant for the Special Town Meeting held April 26, 1954, and for this purpose the appropriation be provided as follows: the sum of \$3,000.00 be transferred from the Excess and Deficiency Account and the Town Treasurer be authorized to issue notes or bonds for the sum of \$35,000.00 in accordance with the provisions of Chapter 645 of the Acts of 1948, as amended.

Article 4. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$245,651.00 to be expended by the School Committee as follows: Salaries \$205,330.00, Maintenance \$33,421.00, Outlay \$6,900.00.

Article 5. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$1,500.00 for Vocational Education.

Article 6. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$50.00 for Adult Alien Education.

Article 7. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$1,300.00 for General Maintenance of Alumni Field.

Article 8. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$4,280.00 for School Transportation.

Article 9. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$2,500.00 for School Athletics (Chapter 658, Section 47).

Article 10. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$4,800.00 for the renovation of toilets at the Coolidge School.

Article 11. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$2,000.00 for New Building Maintenance.

Article 12. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$1,800.00 for Special Education.

Article 13. On motion of Joseph E. Boothroyd: Voted to raise and appropriate the sum of \$300.00 for Supervised Summer Recreation.

Article 14. On motion of Emile A. Dumas: Voted that the salary or compensation of the various elected Town Officials, in accordance with Chapter 41, Section 108, of the General Laws, said salary or compensation to be effective from January 1, 1955 and remain in force until the next annual Town Election, unless sooner changed by the vote of the Town, be as follows:

Moderator .....	\$50.00
Town Clerk .....	1,700.00
Town Treasurer and Collector .....	4,200.00
Selectmen, 3 members each .....	300.00
Board of Assessors, Chairman .....	700.00
Other members, each .....	600.00
Public Works Board, 3 members, each .....	100.00
Board of Public Welfare, 3 members, each .....	50.00

Library Trustees, 3 members, each .....	25.00
School Committee, 3 members .....	No Salary
Planning Board, 5 members .....	No Salary

All fees and charges collected by each department must be paid to the Town Treasurer at the end of each month.

The above salaries are effective January 1, 1955, to December 31, 1955. For changes in personnel during the year, salaries will be prorated according to the length of service at above recommended rates.

The sums above recommended are included in the Budget Schedule under Articles 3 and 4.

Article 15. On motion of Edwin Carlton, Jr.: Voted to appropriate the sum of \$8,000.00 for Finance Committee Reserve to provide for extraordinary or unforeseen expenditures. Transfer to be made to Departments only by vote of the Finance Committee as provided by Chapter 40, Section 6, of the General Laws.

Article 16. On motion of Howard L. King: Voted to accept the following Cemetery Funds, same to be invested and interest to perpetually care for their lots and surroundings in Glenwood Cemetery.

Anderson, William	\$50.00	Mattson, Annie	\$50.00
Archer, Robert B.	100.00	Nummelin, Jacob Ivar	50.00
Carter, Mrs. Leo	100.00	Shattuck, Edward or	
Dutkowski, Olga	100.00	Mildred	100.00
Hendrickson, Aliina	100.00	Stammers, Paula D.	50.00
Larkin, Walter or Alice	100.00	Trench, Robert	100.00
Lofberg, Peter	50.00	Williams, Esther	50.00
Mason, Ann Joan	50.00	Williams, William	50.00

Article 17. On motion of Howard L. King: Voted, unanimously, to authorize the Town Treasurer and Collector, with the approval of the Selectmen to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1955, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, of the General Laws.

Article 18. On motion of Howard L. King: Voted to appropriate the sum of \$500.00 for the payment of part of the premiums of group life insurance for permanent town employees, in accordance with Chapter 239 of the Acts of 1952. The amount of said insurance to be limited to \$1,000.00.

Article 19. A motion of John S. Sokolowski under this article was not carried.

(re sale of land owned by Town at corner of Nason and Summer Streets)

Article 20. On motion of Olavi Warila: Voted to authorize the Board of Selectmen to petition the General Court of Massachusetts for a special act to use a portion of Memorial Park for a right of way between Summer Street and the Naylor Court municipal parking area.

Article 21. On motion of John Mitzcavitch: Voted to lay this article on the table.

(re quorum by-law)

Article 22. On motion of Emile A. Dumas: Voted that the sum of \$2,739.60 be appropriated from Revenue of 1955, in order to grant a fifteen cents per hour increase to the Police Department Employees.

Article 23. On motion of James J. Bakun: Voted that the sum of \$1,200.00 be transferred from the Excess and Deficiency Account for the Town's share of Chapter 90 Maintenance; also that the sum of \$2,400.00 be transferred from

the Excess and Deficiency Account to meet the State's and County's share of this work, the reimbursements from the State and County to be restored upon their receipt, to the Excess and Deficiency Account.

Article 24. On motion of James J. Bakun: Voted that the sum of \$3,250.00 be transferred from the Excess and Deficiency Account for the Town's share of Chapter 90 Highway construction on Powder Mill Road, also that the sum of \$9,750.00 be transferred from the Excess and Deficiency Account to meet the State's and County's share of this work. The reimbursements from the State and County to be restored upon their receipt to the Excess and Deficiency Account.

Article 25. On motion of James J. Bakun: Voted that the sum of \$4,000.00 be transferred from the Excess and Deficiency Account for the purpose of increasing the wages of the Public Works Employees \$0.10 per hour.

On motions by James J. Bakun:

Article 26. Voted to authorize the Board of Public Works to extend the common sewer on Beacon Street for a distance of about 225 feet northwesterly from Thomas Street and to appropriate from revenue the sum of \$725.00 for this purpose.

Article 27. Voted to authorize the Board of Public Works to extend the common sewer on Acton Street about 600 feet to No. 122, and to appropriate from revenue the sum of \$1,740.00 for this purpose.

Article 28. Voted to authorize the Board of Public Works to extend the common sewer on Main Street, from Mill Street to Great Road, and on Great Road, from Main Street to the Stow Town line, for a total distance of about 3,000 feet, and to install an ejector pump at Mill Street, and to transfer from the Excess and Deficiency Account, the sum of \$24,000.00 for this purpose.

Article 29. Voted to raise from revenue the sum of \$550.00 for the purpose of constructing a catch basin and about 150 feet of drainage on Marlboro Street, near Great Road.

Article 30. Voted unanimously, to authorize the Board of Public Works to purchase a used truck chassis for mounting the sand spreader, and for other general use, and to transfer from the Stabilization Fund the sum of \$1,000.00 for this purpose.

Article 31. Voted unanimously, to authorize the Board of Public Works to purchase a new sidewalk tractor for plowing snow from sidewalks, and to transfer from the Stabilization Fund the sum of \$3,500.00 for this purpose. To further authorize the Board of Public Works to trade in or sell the old sidewalk tractor in conjunction with this transaction.

Article 32. Voted to authorize the Board of Public Works to replace the water main on Beacon and Thomas Streets, and to install a hydrant, and to appropriate from revenue the sum of \$1,300.00 for this purpose.

Article 33. Voted unanimously to authorize the Board of Public Works to lease the property of Leo P. and Grace Boeske off Waltham Street for the use of a Town Dump.

Article 34. James J. Bakun moved to authorize the Board of Public Works to make additions and improvements to the water system as recommended in Program 1 table A of the 1954 report of Haley and Ward Engineers to the Planning Board, and to expend therefor a sum not to exceed \$195,000.00 and to authorize the Town Treasurer to borrow money in payment thereof by the issuance of Bonds or notes payable in or within Fifteen (15) years in accordance with the provisions of Chapter 44, Section 8 of the General Laws. To further authorize the Public Works Board to purchase and/or take by eminent domain, the necessary land, rights of ways or easements, and to do any thing lawfully pertaining thereto:

James S. Wheeler moved an amendment and under the amendment it was voted that no money shall be appropriated under this article, and that the subject matter of this article shall be further studied by a special committee of five, appointed by the Moderator, at least two of whom shall not be town officers, this committee shall report to the next town meeting. And in order that this committee may accomplish its purpose, the Board of Selectmen shall request a survey of the town by the New England Fire Insurance Rating Association, which survey shall not obligate the town in any manner. The original motion was therefore lost.

Article 35. On motion of James J. Bakun: Voted unanimously, to authorize the Board of Public Works to make additions and improvements in the drainage system running from the corner of Summer and Brooks Streets behind the Case Building and out to Nason Street, and to appropriate from revenue the sum of \$1,000.00 for this purpose. To further authorize the Board of Public Works to secure the necessary rights-of-way or easements, and to do anything lawfully pertaining thereto.

On motions of James J. Bakun:

Article 36. Voted to raise from revenue the sum of \$220.00 for the purpose of constructing a catch basin and about 30 feet of drain pipe on Hayes Street opposite Grant Street.

Article 37. Voted to appropriate from revenue the sum of \$250.00 for the purpose of constructing two leaching basins and pipe on Driscoll Avenue, to provide surface drainage for the street between Great Road and Sheridan Avenue.

Article 38. Voted to appropriate from revenue the sum of \$300.00 for the purpose of constructing two catch basins and making repairs to an existing drainage pipe on Thomas Street.

Article 39. Voted to authorize the Board of Public Works to sell or otherwise dispose of scrap metal and other junk at the Winter Street and Great Road yards, the proceeds to be paid to the Town Treasurer.

Article 40. On motion of R. Frank Punch: Voted to lay this article on the table.  
(re sewer extensions to service North St. and Marlboro Rd.)

Article 41. On motion of Walter E. Carbone: Voted, 147 in favor to 49 opposed, to amend the Zoning By-laws and Zoning Map by changing from an "Industrial" to a "Single Residence District" all of the area in the southwest portion of town bounded by Parker Street on the southwest, by Old Marlboro Road on the northwest and by the Town of Sudbury on the east.

Article 42. On motion of Walter E. Carbone: Voted, 214 in favor to 2 opposed, to amend the Zoning By-Laws by adding at the end of Subsection 1 of Section 3 a new paragraph as follows:

"(d-8) The use of a dwelling as a funeral home provided the residential character of the premises is not changed."

Article 43. On motion of Walter E. Carbone: Voted unanimously, to amend the Zoning By-Laws by adding at the end of Subsection 2 of Section 3 a new paragraph as follows:

"(c) the Board of Appeals may authorize the use of a room in a dwelling for hairdressing by a resident occupant only, provided the residential character of the premises is not changed."

Article 44. A motion by Walter E. Carbone to amend the Zoning By-Laws by changing at the end of paragraph

(a) of Subsection 1 of Section 6, the period to a comma and adding the following:

"except dwellings or other buildings or structures used for human occupancy."

so that the paragraph will read:

"(a) Any purpose authorized in Single residence, General residence or Business districts, except dwellings or other buildings or structures used for human occupancy."

was lost 35 in favor to 76 opposed.

Article 45. A motion by Walter E. Carbone was lost, 10 in favor to 141 opposed, to amend the Zoning By-Laws by adding at the end of Section 8 thereof a new Subsection, as follows:

"(8-7) Any building or structure used for human occupancy in any district shall have a total habitable floor area of not less than five hundred and seventy-five (575) square feet for each family therein, exclusive of open porches, basements, or any space above the first floor having a clear head room of less than six feet, six inches (6'-6"), provided, however, that this requirement shall not apply in the case of a conversion of an existing dwelling authorized by the Board of Appeals under the provisions of Section 3-1 (d-6), or in case of a (duly licensed) over night camp or cabin or trailer camp located in a Business District."

Article 46. A motion by Walter E. Carbone to amend the Zoning By-Laws by deleting from the first paragraph of Subsection 1 of Section 9, the following:

"(covering over one hundred square feet in area) so that said paragraph of said subsection will read:

"9-1 No building for use as a habitation, for business for industry or accessory buildings shall be erected, enlarged, changed in use or moved after this by-law is adopted without a permit from the Selectmen showing that the requirements of the district have been substantially complied with.",

was lost, 6 in favor to 124 opposed.

The counters on all articles, which required a count of the vote, were Ann T. MacGlashing, Evelyn M. Mulcahy, Helena M. Murphy, Phyllis P. Savikoski and James V. King, appointed by the Moderator and sworn by the Town Clerk.

Article 47. This article was acted on after Article 3.

At 10:55 P. M., on motion of R. Frank Punch, it was voted to adjourn.

Attest:

ELEANOR JONES,  
Town Clerk.

---

The amendments to the Zoning By-Laws and Zoning Map, voted under Articles 41, 42 and 43, were approved by George Fingold, Attorney General, on March 25, 1955.

ELEANOR JONES,  
Town Clerk.

## Proceedings of Special Town Meeting

Held April 25, 1955

A Special Town Meeting, called by Town Warrant No. 460, was held on the above date in George Washington Auditorium. The Moderator Philip Wilson called the meeting to order at 7:30 o'clock P. M.

On motion of R. Frank Punch it was voted to waive the reading of the Warrant as a whole.

Article 1. The Special Water System Study Committee presented a report, read by Ruoff A. Tompkins. The Moderator declared a quorum to be present. It was then voted to accept the report of the Special Water System Committee as a report of progress. The report was filed with the Town Clerk.

Walter E. Carbone read a report for the Planning Board and the Moderator ruled that as it concerned Article 11 of this meeting no action was necessary. The report was filed with the Town Clerk.

Article 2. There were no vacancies in Town Offices to be filled.

Article 3. On motion of Emile A. Dumas: Voted that in-as-much as a substantial shortage of rental housing exists in Maynard and that continued control of rents is necessary in the public interest that the provisions of Chapter 225, Acts of 1955, "An Act Relative to Rent Control" be accepted, and that the control of rents be continued until December 31, 1955.

Article 4. On motion of George J. Sharpe: Voted to authorize the Board of Public Works to extend the common sewer on Taft Avenue for a distance of about 275 feet west from Great Road, and to appropriate the sum of \$1,200.00 from the Sewer Surplus for this purpose.

Article 5. On motion of Joseph E. Boothroyd: Voted that the sum of one thousand dollars (\$1000) be appropriated from Excess and Deficiency for the purpose of improving the existing heating system of the Senior High School Building.

Article 6. On motion of Leo F. Mullin: Voted to enlarge the Municipal Building Committee by adding to said Committee, the member appointed by the Planning Board to serve on the Police and Fire Station Building Committee.

Article 7. On motion of Philip Wilson: Voted to transfer the sum of \$2,646.00 from the Excess and Deficiency Account for the purpose of giving a raise of 15¢ per hour to the Regular Firemen. (The Town Clerk acted as Moderator on this Article.)

Article 8. On motion of Joseph E. Boothroyd: Voted that the sum of three thousand dollars (\$3000) be transferred from the Excess and Deficiency Fund for the purpose of demolishing the Wilson School Building and that the School Committee be authorized to dispose of any and all materials connected with the school.

Article 9. On motion of John S. Sokolowski: Voted to transfer from the Parking Meter Account the sum of \$500.00 for Police Salaries for traffic duty in the parking areas.

Article 10. On motion of John Mitzcavitch: Voted to transfer from the Parking Meter Account the sum of \$200.00 for a Parking Meter Office Maintenance Account for the maintenance of meters and office supplies relative to the enforcement of meter regulations.

Article 11. On motion of James S. Wheeler: Voted that no action be taken under this article.  
(re repeal of Zoning By-Law)

On motion of I. Matti Tervo voted to adjourn. Meeting adjourned at 8:35 o'clock P. M.

Attest:

ELEANOR JONES,  
Town Clerk.

IMPORTANT  
REQUEST

Please notify the Town Clerk immediately of any error or omission in the following List of Births.

Errors not reported at once can be corrected only by sworn affidavit, as prescribed by the General Laws, and may cause you inconvenience which can be avoided by prompt attention.

## NOTICE

All dog licenses here listed expire  
March 31, 1956.

Dogs must be licensed on or before  
April 1st or the owners or keepers  
thereof are liable to a fine.

The law applies to all dogs three  
months old or over, regardless of  
time of year ownership is acquired.

No tax bills are sent to owners of  
dogs.

## Board of Registrars of Voters

To the Board of Selectmen  
 Maynard, Massachusetts

Gentlemen:

The Annual Listing of residents of the Town, 20 years of age and over, was conducted in conjunction with the State Census. Mrs. Almeda S. Jones, was appointed to supervise the listing of both, and the Board of Registrars feel that the work was done in an excellent manner. According to the State Census, Maynard has a population of 7,253. This year for the first time the Registrars were also responsible for the listing of dog owners.

Meetings were held prior to the Town Election for registration of voters and the Voting List was revised. At the Town Election in March there were 3,681 names on the voting list, 1,828 men and 1,853 women. The list on December 31, 1955 contained 3,675 names, 1,816 men and 1,859 women.

Respectfully submitted,

ALEXANDER J. BOURKE, Chairman  
 REGINALD JONES  
 EDWARD E. PUFFER  
 ELEANOR JONES

## Assessors' Report

To the Board of Selectmen:

The Board of Assessors submit the following report for the year ending December 31, 1955.

All owners of taxable property are required to file with the local Board of Assessors, a list showing the valuation of such taxable property, in accordance with the provisions of Chapter 59, Section 29, of the General Laws. Notices of this requirement are posted at various public places in town and forms for filing may be obtained at the office of the Assessors in the Municipal Building.

The construction of new homes, or other buildings, the sale or transfer of any real estate, mean that work such as recording, inspecting and valuing must be done by the Assessors. The number of Motor Vehicle Excise Taxes is constantly increasing, bringing in consequence increasing work in assessing and in making abatements.

All male inhabitants who have reached the age of 65 before January 1, 1956, are exempted from the payment of a Poll Tax. Anyone who is 65 years old and who wishes to be exempted, but has not filed an application for such exemption, may obtain the necessary form at the office of the Assessors.

### RECAPITULATION OF TAX RATE

Total Appropriations to be raised by taxation .....	\$665,962.74
Total Appropriations to be taken from available funds .....	220,443.10

## Town Accountant's Report

To the Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1955. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1955. The total cash balance December 31, 1955 was \$432,384.84.

In accordance with the provisions of Section 23, Chapter 59, General Laws, as amended, the amount of available funds or "free cash" as of December 31, 1955 is \$80,862.19.

The courtesy and co-operation received from the various town boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING,  
Town Accountant.

## Report of Finance Committee

Transfers from the Reserve Fund during the year 1955 have been made by the Finance Committee totalling \$7,087.91.

Requests for transfers should be made before money is expended by any department and responsible boards should see that this practice is followed.

The floods that plagued New England during August caused damage in Maynard and a transfer of \$1800 was made to the Public Works Department in this regard.

This Committee has expended an unusual amount of time and thought on its recommendations on the articles submitted on the Town Warrant in light of the extremely large budget submitted to the Committee this year.

The Finance Committee is working closely with various departments in order to determine whether or not the sums expended by said departments could be reduced or used to better advantage.

We have met with all departments and discussed budget requests where there was a differential between the sums requested and the sums recommended.

JAMES S. WHEELER, Chairman,

# Report of the Board of Retirement

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Two new members have been added during the year 1955, four members withdrew from the System, and one retired member died.

A statement has been mailed to each member giving his or her credit as of December 31, 1955.

## IN MEMORIAM

During the past year Harold J. Morgan, who was one of the originators of the Maynard Retirement System and a board member since the system began in 1940, died on October 22, 1955. Mr. Morgan gave many hours of his time and without compensation in order that others may enjoy the happiness of retirement with some security. We hope that Mr. Morgan is now enjoying peace and happiness with his Eternal Father for his kindness and unselfish work.

JOB U. DOEL,  
JAMES V. KING,  
Maynard Retirement Board.

## Report of the Board of Public Works

To the Board of Public Works  
Gentlemen:

I submit herewith the annual report of the Superintendent of Public Works for the year ending December 31, 1955, covering Highways and Bridges, Water Sewer, Cemetery, Trees and Insects, Parking areas, and the Public Dump.

The added construction of new homes, beyond what was anticipated, has added to this Department, costs for sewer house connections and water services.

"The American Society of Planning Officials" has come up with some interesting figures on what is required in the way of municipal services when one hundred new families move into Town.

One hundred new families add about four hundred and fifty new people to the population. They will add about one mile to our streets, water mains, and sanitary sewer lines.

They will increase our sewage disposal plant by about ten percent. An additional 26,000 gallons of water will have to be pumped. The Public Works payroll will increase \$12,000.00 to \$15,000.00 a year.

What has happened in Maynard this past year and what is anticipated for 1956? Over sixty new water services were laid during 1955. Plans have been submitted to this Department for 103 new homes plus an anticipated 35 more making a total for 1956 of 138 new homes.

Using the formula of the American Society of Planning Officials, by December 31, 1956 it will mean an increase of double the figures required as stated in costs by this Society for 100 new homes.

The necessity of greater highway improvement has become obvious in the last few years. People are wondering how it can be accomplished, and most important of all, what it is going to cost the taxpayers.

Such a problem as this is the concern of every citizen and I believe they are eager to know just what has been accomplished and what is now being planned.

Public Works officials of the State were contacted to see if additional money could be allotted for Chapter-90-Construction. The sum of \$9,750.00 has been granted as the State's

share of Chapter-90-Construction. This is an increase of \$3,250.00 over the previous years.

Meetings have been held with Federal Officials in regard to Federal Aid for construction of Federal Secondary Roads.

I have included in this report a list of all equipment and buildings owned by this Department. The cost of maintaining some of this equipment and lost time because of break downs is so great that for economy and service it should be replaced.

The building at the Cemetery is unsafe to store equipment. I have had two competent building contractors examine this building and they are of the opinion that it would cost more to repair this building than to build a new one.

The Board of Selectmen have granted us the use of the old fire station until the annual Town Meeting so this equipment is being housed there for the present time.

I am making the following recommendations: A definite replacement program be set up to replace obsolete and worn out equipment. A new storage and garage unit to be built at the Cemetery.

#### **Wage and Classification Plan**

The classification plan should be revised so that changes and corrections I have found may be made. Equipment operators should receive the same rate. Foremen who are called out after regular work hours should receive time and one half the same as the men they supervise.

Permission was granted to a group of employees of this Department to meet with the Commissioners regarding a pay raise. I am in agreement in granting this increase and am very much satisfied with the work performed and the interest taken by the men during this past year.

#### **Special Committees**

We have tried to cooperate with the various Committees and other Departments in the Town. In some cases the work has been performed by this Department at a saving to the Town. Supervision only has been given in other cases. This Department is ready at all times to assist or advise any Committee or Department in the Town in whatever way possible.

#### **August Flood**

On August 19, 1955 the devastating hurricane "Diane" struck the North East, and poured a veritable deluge of torrential rains upon the country side.

This storm moved so fast and erratically that no accurate forecast of its path, or probable effects could be made. Pre-

vious storms preceding Diane had been responsible for heavy rain fall and actually about twenty inches of rain was dropped upon our area in less than a week.

About half the Public Works force were called out and kept on a stand by status in case they were needed.

We were very much concerned about the dam in Hudson because if this dam had let go, the Hudson Light and Power Station would be inoperative and our power for the White Pond Pumping Station is supplied by Hudson. The stand by unit was checked and ready to start at a moments notice.

The main sewer pumping station on Powder Mill Road at the height of the flood was within three inches of being flooded. All available pumps were set up at this station in case they were needed.

High water mark was reached at 8:00 P. M. Saturday, August 20th. At 11:07 A. M. Sunday, near High Street, Acton, the dam let go and four hours later the water at the Main Street Bridge had only receded an inch.

The Bridges throughout the Town were checked at intervals during the storm. Both Army Engineers and State Engineers checked the Bridges with me, and also the dam near the Ben Smith Bridge.

Help was offered the surrounding Towns. The Town of Acton was the only Town that needed help. Men and equipment were loaned to this Town.

The Finance Committee transferred \$1,800.00 to this Department for expenses incurred and the Town will be reimbursed by the State.

When the waters receded an estimate of the damages could be ascertained, and it was found that considerable damage had been done to the retaining wall on Walnut Street, caused by the fast flowing water. The retaining walls on both the upstream and downstream sides of the Mill Street Bridge had been damaged. A washout under one of the abutments of the Walnut Street Bridge had occurred. The Sudbury Street Bridge has settled and cracked so badly it was declared unsafe for more than four tons and was posted as being unsafe.

Numerous conferences were held with the State, Flood Relief, Army, Federal and private engineers to ascertain if the Town could have any new structures, or the damage repaired at no expense to the Town.

Conferences are still being held with the State and Federal Agencies in regard to the other projects and it is hoped that at the annual Town Meeting, progress can be made.

### Highway Division

The duties of this Division concerns the maintenance of the street, sidewalks, bridges, drainage system, parking areas, traffic and street signs, public dump, snow removal and any construction done under these headings.

A survey of all the sidewalks in the Town was made and it was found that a considerable amount of the sidewalks were in deplorable condition. In some cases long sections of asphalt surface sidewalks are so broken up that they should be replaced. Concrete surface sidewalks have been lifted to a height of four inches by the trees and constitute a hazard.

The main streets of the Town should be swept twice each week but the condition of the street sweeper is such that some weeks because of breakdowns, the streets were not cleaned. A new sweeper is vitally needed if we are to keep the streets clean.

Outside help and equipment were hired and cost for same reimbursed to the Town from the State, for cleaning catch basins last year. No such money was available this year and with an undermanned crew, the catch basins could not be all cleaned. Necessary equipment could be purchased at a small cost and mounted on the sand spreader truck so this work could be accomplished.

The tractor with the backhoe and front end loader has been in demand by all Divisions of the Public Works. By installing a front end loader attachment on one of the sidewalk tractors, the backhoe could be used to greater advantage.

With the continued increase each year in traffic, snow removal is becoming a considerable problem. Snow is packed down so quickly by the cars that streets are very slippery and salting and sanding must commence at the start of every storm. One salt spreader and one sand spreader are available and some thought should be given to the purchase of additional equipment for this purpose so that the streets may be salted and sanded more efficiently.

The snow loader was purchased in 1943 and for the last few seasons has given considerable trouble and inconvenience due to breakdowns. If we have a severe winter, this equipment will be unable to cope with the situation. I therefor recommend the purchase of a new snow blower that can be used both for loading and plowing snow.

It has been found that storing salt in the garage has caused corrosion, both to the building and equipment. The new addition to the storage shed has been converted into a suitable building for the storage of salt. Lights have been installed so trucks may be loaded at night.

Some of the main drainage lines are over sixty years old. Roots and other matter have blocked these to a certain degree. A program of cleaning should be planned for cleaning some of these lines each year.

The inventory of equipment and buildings will be found under the listing of this Division made by the Department.

### Water Division

The duties of this Division concerns the maintenance and operation of the pumping station, reading and repairing of meters, cleaning and maintenance of reservoir, water mains and services and installation of services and mains, painting and repair of hydrants.

The pumping station at White Pond has given excellent results this last year except during the August flood. A short circuit developed and this station was out of operation for thirty-six hours. We had enough advance notice so that the reservoir was full when the trouble occurred.

Experts were called in and the trouble was rectified. Hudson Light and Power dispatched men and equipment to render whatever assistance they could.

At the present time over 750 meters are out of operation. The records show some of these meters have not been recording for some time. It has been proved by other Water Departments that a water meter should be removed and checked every five years. Additional revenue can be expected if this is accomplished. It has been impossible to determine the unaccounted for water with so many meters not working.

Sixty new services were added this year and one hundred and thirty-five anticipated for the ensuing year. Serious thought should be given to a new source of supply.

The Federal Government conducted a survey and made numerous borings in the vicinity of White Pond, as they are contemplating building in this vicinity. I immediately contacted the Honorable Philip J. Philbin, Congressman 3rd District, Massachusetts and have had conferences with him on the matter. Every safeguard is being taken to protect this watershed and our main source of supply.

A start should be made the coming year to replace small mains. Haley & Ward Engineers have prepared a master plan of the entire system and whatever work is done should conform to this plan.

### Sewer Division

The duties of this Division concerns the operation and maintenance of the pumping stations and disposal plant. The

installation of house connections, lateral sewer lines and the maintenance of same.

More house connections have been made this year than for many years in the past. The more connections that are made means more attention and amount of time needed to keep the disposal plant in operation. It is anticipated that over 100 house connections will be made in the ensuing year.

At the present time there are 1272 house connections in the system. The system as designed was for 1,000 connections. We are now operating the disposal plant 27% over design capacity. Therefor any additional connections made will bring this percentage higher. It is hoped that by adding chemicals this plant will be adequate for a few more years.

### **Trees and Insects**

The duties of this Division concerns the planting of trees, the trimming of dead branches, the removal of dead and diseased trees, and insect control by spraying.

This past year the State sprayed the entire State by airplanes. From the reports of men sent into the field to study the results of this type of spraying it was found to be very successful. It is planned to do this every second year in the future.

### **Cemetery Division**

The duties of this Division concerns the maintenance of the Cemetery.

The entire area was broom raked before any mowing was done. This protects the mowers and means less cost of maintenance for this equipment.

Over 250 sunken graves were filled and it is anticipated that almost the same number will require attention this coming year.

Many favorable comments were received from people who have loved ones interred in the Cemetery and it is very gratifying both to me and the men of this Division.

### **Highway Division — Work Performed Streets, Sidewalks and Parking Areas**

Acton Street — crushed stone and asphalt armor coat from Concord Street to Brown Street, 2,880 feet.

Main Street — crushed stone and asphalt armor coat from Riverbank Road to Mill Street, 1,100 feet.

Parker Street — crushed stone and asphalt armor coat from Great Road southerly, 3,800 feet.

Brown Street — crushed stone and asphalt armor coat from Acton line southerly, 1,535 feet.

Euclid Avenue — Rebuilt with twelve inches of gravel, rolled and treated with asphalt.

Parking Area — Connected the two parking areas with a new street edged with curbing on both sides, twelve inches of gravel rolled and surface treated with asphalt.

New Fire Station — Entire site excavated, graded, graveled, rolled, loamed and seeded and Acton Street and Summer Street widened.

Junior High School — Access road built for new gymnasium.

Nason Street — New concrete sidewalk built at No. 9-11-15.

Sudbury Street — Replaced damaged sections of concrete sidewalks.

Main Street — Replaced damaged sections of concrete sidewalks.

River Street — Replaced damaged sections of concrete sidewalks.

Walnut Street — Replaced damaged sections of concrete sidewalks.

Waltham Street — Replaced damaged sections of concrete sidewalks.

168 tons of Cold Patch put in place.

1,250 tons of sweepings picked up.

Sand barrels placed in Fall picked up in Spring.

Snow fences placed in Fall picked up in Spring.

All Streets swept in Spring.

Addition to Highway shed built.

#### Work Performed — Highway Division

Hayes Street — Thirty feet of 12" pipe and one catch basin installed.

Driscoll Avenue — Seventy-two feet of 12" pipe and one catch basin installed.

Euclid Avenue — Three hundred and sixty feet of 12" pipe and four catch basins installed.

Summer Street — Fifteen feet of 12" pipe and one catch basin installed.

Street Signs — Eighty-six repaired and repainted.

Traffic Signs — Twenty-three installed.

#### Water Division — Work Performed

One hundred and fifty meters repaired.

Four broken hydrants repaired.

Vacuum tank electrical system repaired.

Seven day a week maintenance at Pumping Station.

Daily chlorine tests taken.

Monthly samples taken and sent to State Experiment Station.

#### Pumping Record

January .....	14,197,800 gals.

Average per day ..	456,550 gals. sewage

### Cemetery Division — Work Performed

Sixty-three burials.  
 Filled two hundred and fifty sunken graves.  
 Weed killer applied to avenues.  
 Catch basins cleaned.  
 Repaired and graveled avenues.  
 Trimmed trees, cut and burned brush.  
 Tool house painted.  
 Cultivated, weeded, and edged shrub beds.  
 Sprayed and trimmed shrubs.  
 Reset several grave markers.

### Trees and Insects — Work Performed

Town wide spraying by air.  
 Forty-four Dutch Elm diseased trees removed.  
 Thirty-eight other types, dead or diseased removed.  
 Town wide trimming bolting and bracing of trees.

### Parks — Work Performed

Crowe Park baseball diamond completely regraded.  
 Lines on tennis courts repainted.  
 Memorial Park monument cleaned.  
 Shrub beds trimmed and cultivated.  
 Street connecting two parking areas constructed.  
 Sidewalk connecting parking lots constructed.  
 Grass mowed weekly.

### EQUIPMENT — HIGHWAY DIVISION

	Year purchased	Value new	Present condition	Present value

**Note:** This does not include the costs of excavation and grading, nor does it include the values of foundations and/or footings below the levels of the lowest floors and/or the level of the ground as the case may be.

The work which has been accomplished in the Public Works this year can be charged up to the conscientious endeavors of its foremen and employees; I wish to thank them for their cooperation. I also appreciate the assistance of the Board of Public Works. Lastly, the Town Accountant and his hard working staff have been very cooperative.

Respectfully submitted,

PETER T. PETERSON,  
Public Works Supt.

## Report of the Planning Board

To the Board of Selectmen  
Maynard, Massachusetts

During 1955, the Planning Board held 34 meetings and made several field trips. Its activities during the year are briefly summarized in this report.

### Building Activity

During the year building activity showed a further increase. A total of 126 permits were issued under the Protective Zoning By-Laws, of which a total of 66 permits were for new single dwellings. A comparison of building activity for the past five years follows:

	1951	1952	1953	1954	1955
Single family dwellings	11	26	29	41	66
Garages	16	13	14	13	16
Other additions	11	22	18	17	15
Accessory buildings	3	2	1	3	4
Business establishments	—	2	—	4	9
Conversion to 2-family dwelling	—	1	2	2	2
House trailers	—	—	—	4	3
Municipal buildings	—	—	—	—	3

The Planning Board is pleased to report that at the annual Town Meeting in 1955, an amendment to the Zoning By-Laws was passed converting an area in the southeast portion of town bounded by Parker Street and Old Marlboro Road from Industrial to Single Residence District. This will protect the residences now existing in this area.

It is also necessary to protect our Industrial areas by prohibiting residential construction. In this connection, the Planning Board has submitted an article for adoption at the 1956 Town Meeting.

Most communities are taking steps to protect its citizens from financial loss due to depreciation of their properties resulting from the use of trailers for permanent residences. The increased trend in the use of trailers for residential purposes is indicated above. The Planning Board is at present devoting further study to this problem and will report at the completion of the project.

### Subdivision Control

During the year the Planning Board received plans for 7 proposed subdivisions. Of these, 2 were approved and are at present under development, 1 was abandoned by the sub-

divider due to the impracticability of the project, and 4 were in the process of revision and design at the year's end.

Your attention is called to the increased trend of population movement from the cities to smaller country towns like Maynard.

During the past year approximately 30 new families have moved to Maynard. It seems quite certain, based on the subdivisions under process of qualifying before your Planning Board and on the general trend, that during the next two years approximately 150 new family units will move to Maynard. What effect one hundred new families might have on our community is shown below based on a recent study of the American Society of Planning Officials:

One hundred new families mean about 450 new people.

One hundred families will put about 100 new children in our school. About 67 will be in grammar school and 33 in high school. If you operate on the 6-2-4 system, it will be 50 in grammar school, 17 in junior high, and 33 in senior high.

You will need 2.2 new grade school rooms and 1.65 new high school rooms, which will cost about \$120,000.

You will need four new school teachers and they are hard to find.

The 100 families will add about \$30,000 a year to the school operating budget.

The city will have to buy about four acres of land, one acre for grammar school, one acre for high school, one acre for parks, and one acre for playgrounds and playfields.

Besides school teachers, the 100 new families will require you to hire other municipal employees.

The city will need 0.84 new employees in the police department and two-thirds of a new fireman.

The police budget will have to be boosted \$4510 each year and the fire department budget increased \$2820.

You will need all sorts of additional jobs done, like cleaning streets and like collecting garbage and collecting taxes; like looking after the city parks and the city health.

You will probably need four new persons on the municipal payroll besides the policemen, firemen and school teachers, a \$12,000 to \$15,000 added to the annual payroll.

The water department will have to figure on pumping about 10,000 additional gallons of water each day.

The 100 families will own 140 automobiles and trucks that will be added to your present traffic.

There are all sorts of odds and ends of things the 100 new families require.

Like a new hospital bed (price \$10,000); 500 new volumes

in the library (add \$675 to the library's annual budget); a fraction of a visiting nurse; and a fraction of a jail cell.

Your Planning Board has met with your Finance Committee to discuss this problem and a general agreement was reached to the effect that controlled building activity in future years would result in lower tax rates to the citizens of our community. In view of this your Planning Board has taken the first step by submitting an article to the forthcoming Town Meeting designed to restrict lots in single residence districts to a minimum of 100 foot frontage and 10,000 square feet of area. The Planning Board has agreed with the Board of Public Works that all developers should bear the full cost of all utilities construction.

### **Water System**

The survey of the water system was prepared for the Planning Board by Haley and Ward, Consulting Engineers for submission to the 1955 Annual Meeting. The recommendations contained in this report were not adopted and a special Water Study Committee was appointed to consider further the problem of water supply and fire protection for our town.

Your Planning Board suggests that the Town's citizens review the recommendations contained in its report in order that they may be fully informed prior to the forthcoming Town Meeting. Your attention is particularly directed to that portion of the report which recommended the purchase of land in the southeast section of town for the purpose of erecting additional water storage facilities in the future. You are further reminded of the report's recommendations for a new feeder line starting from a 12" source at the old pumping station and feeding the southerly part of town in order to safeguard a continuous supply of water to the whole town as well as serving the new school and the Coolidge school areas.

### **Parking**

During the year the Planning Board prepared a parking layout and traffic-flow chart which was used by the Town in marking the Nason Street parking area. The two principal areas have now been connected in accordance with Planning Board recommendations and one-way traffic flow is in effect in order to obtain the greatest use from the area available.

The Summer Street parking area is in need of further surface treatment and marking.

### **Zoning**

The recommended increase of minimum lot size in single residence areas to 10,000 square feet and 100 feet frontage is intended to apply essentially to outlying areas of town

which will be likely to be developed. The principal reason for this recommendation, aside from general improved appearance, is to conserve the value of land and buildings in our town and to provide space which will ultimately be needed for additions such as garages and extra rooms.

### Plans for 1956

Your Planning Board has received a \$1,000. grant from the Federal Government which is to be matched with an equal amount by the town. You will recall that at the last annual Town Meeting \$500. had been provided by the town and the remaining \$500. will be voted on at the forthcoming Town Meeting. The total sum of \$2,000. will be used by your Planning Board in paying for professional assistance in connection with planning for development and growth of our town.

It is intended that particular attention will be given to the study of the town's potential needs for additional parking areas, recreational areas, public buildings and school sites in order that the Master Plan for the town's growth may be brought nearer to completion.

During 1955 representatives of the Planning Board served on the following Town Committees:

Public Works

Appeals Board

School Building Committee

Town Building Committee

School Committee

also the Sudbury, Assabet, Concord River Watershed Asso.

Your Planning Board wishes to take this opportunity to thank the voters of the Town of Maynard for the interest which they have indicated in its work.

ARTHUR J. BROOKS  
 ROWLAND W. DAWSON  
 FIORENTINO J. DiGRAPPA, Clerk  
 DAVID L. PALLIAN  
 WALTER E. CARBONE, Chairman

## Report of The Board of Appeals

To the Board of Selectmen  
Maynard, Massachusetts

Gentlemen:

The following appeals and petitions have been considered during the year 1955 under the Protective Zoning By-Law.

Bessie M. Roome, 8 Pine Street Operate store in residential district	denied
Birger Koski, 145 Parker Street Erect farm roadside stand	granted
Maynard Industries, Thompson Street Parking lot in residential district	modified
Russell Salamone, Tremont Street Front yard variance for new dwelling	modified
William C. Wasiuk, Lindbergh Avenue Variation of side yards for new dwelling	granted
Louis C. Morrissey, 36 Glendale Street Conversion of 2 family dwelling into 3 family dwelling	modified
Nilo Keto, 20 Harrison Avenue Side yard variance to erect garage addition	granted
Richard T. White, Bancroft Street Use dwelling in residential district for funeral home	modified
Michael O'Toole, Sheridan Avenue Use accessory building in connection with painting business	modified
Earl S. Brown, 259-A Great Road Side yard variance to erect breezeway and garage addition	denied
Robert F. White, Garfield Street Front yard variation for new dwelling	granted
Town and Country Homes, Inc., Fletcher Street Side yard variance for new dwelling	granted
Adam Mariani, Fourth Street Authority to locate house trailer on same lot with residence	denied

- Edwin Gately, 6 Pomciticut Avenue  
Side yard variation to add second garage to existing one  
denied
- Alfred Whitney, 17 Great Road  
Variation of side yards for new dwelling granted
- Frank Falcucci, 35 Arthur Street  
Side yard variation for breezeway and garage addition  
modified
- Charles W. Schnair, 63 Concord Street  
Authority to locate house trailer on same lot as residence  
for 30 days granted
- Pasquale A. Lalli, 111 Great Road  
Front yard variation for breezeway and garage modified
- Precision Line, Inc., Woolworth Building, Main Street  
Operate small industry in business district modified
- Sam and Polly Wade, 93 Acton Street  
Renewal of one year permit for home manufacture of  
certain food products granted
- Dominick Strumsky, Silver Hill Road  
Removal of topsoil from property in construction  
of roadway granted
- Town and Country Homes, Inc., Maybury Village No. 2  
Removal of excess loam from sub-division for sale modified

## Report of Library Trustees

To the Citizens of the Town of Maynard:

We herewith submit the report of the Librarian and Trustees for the year 1955.

### REPORT OF THE LIBRARIAN

We are indebted to the following libraries for the loan of books:

The Division of Public Libraries, Brookline, Concord, Watertown and Lynn.

The following people and organizations have donated books, or magazines to the Library, for which we express our thanks.

Mr. and Mrs. Walter Carbone  
 Mrs. Mary Flannery  
 Mrs. Howard Jones  
 Mr. Orville Tucker  
 The United Cooperative Society  
 The Maynard Garden Club  
 The Maynard Rotary Club  
 The Parent-Teacher's Association

Statistical Report is as follows:

Books in the Library, January 1, 1956	14,642
Lost Books .....	30
Discarded .....	55
Borrowed .....	125
Bound .....	6
Purchased .....	280
Magazines .....	41
Daily Paper .....	1
Weekly Papers .....	2
Fines Collected .....	\$151.68
Circulation .....	26,975

Respectfully submitted,

OLIVE R. MORGAN,  
 Librarian.

---

### REPORT OF TRUSTEES

The Trustees endorse the report of the Librarian and do thank Miss Morgan and Mrs. Lester for their co-operation throughout the year.

The library has been under much discussion this year for various reasons. With the limited budget under which it operates and its location the library has done remarkably well. There is hardly a town the size of Maynard that does not have their own library building and it is hoped this situation will be remedied soon. There are many readers who are not able to climb the flight of stairs so cannot enjoy their privilege of using the library. There is not adequate room for the number of students to work on their assignments efficiently at one time. A new set of Compton encyclopedias was added in December which will be of great help to the students. It is interesting to see 12 to 25 of them all working together on their school assignments. Students are always coming to look for information that cannot be found at home and encyclopedias are not at all times the answer. We would like to broaden our scope of reference books.

The Division of Public Libraries is most co-operative but it takes about a week to get a book from them by mail, so that means one has to know well in advance if it is to be needed. The Concord Public Library also is most generous with their loan of books to the students.

We have reading certificates for the children, Miss Morgan, librarian, will explain how to earn this certificate to any child or their parents. It is never too early to start the children in using the library. When we have adequate library space we hope a children's story hour can be started. It has proven most successful in many of the surrounding towns.

We occasionally receive the gift of a book in memory of some one who has passed away. This is a lovely and long lasting memorial, we wish more people would do this. Some towns receive small or large money bequests which enable them to buy special books which the regular budget does not cover.

It is interesting to note an increase in circulation, though not a great one, the figures from 1950 to 1955 do show that after a decrease people are now swinging back to reading and that television is not absorbing all their leisure time.

Suggestions will be welcomed by the Library Committee, they should be mailed to the Committee in care of the Library.

Respectfully submitted,

WILLIS I. LESTER, Chairman  
EDITH H. CARBONE, Secretary  
R. FRANK PUNCH

# Report of The Board of Public Welfare

December 27, 1955

To the Citizens of Maynard:

The Annual Report of the Board of Public Welfare is herewith submitted.

## General Relief

As of January 1, 1956, we have twenty-five cases receiving General Relief, (one case more than a year ago) consisting of seventeen families and seven single cases, cared for in Maynard and three cases cared for in other cities and towns. Also we are caring for six cases at the State Hospital and Infirmary at Tewksbury. Several short cases have been opened and closed throughout the year.

With the Rent Control closing in Massachusetts we have already felt the impact of increases in rent; in two cases the increases have amounted to more than one hundred per cent.

New industries are still coming in to occupy space in the old Assabet Mills, which reflects improvement in our economic condition.

## Disability Assistance

We have five cases receiving Disability Assistance at the present average of \$86.44 per month. Two-thirds of this amount is refunded by Federal and State Departments.

## Aid to Dependent Children

Three cases of Aid to Dependent Children; consisting of six children are receiving aid at present at an average of \$87.36 per month. However, we expect to open at least three new cases in the near future, consisting of twenty-one dependent children, which means a sizable increase in our appropriation.

In our appropriation for the coming year we are asking for an additional worker for this office. This request is due to the large amount of case work that is being handled by this office. The Federal Government will pay approximately one-half of this expense. We feel that by taking this step forward it will more than pay for itself in the amount of help we could provide for the individual applying for relief. A trained person could do much in aiding our more unfortunate citizens to rehabilitation. As most of you know the closing of the mills left a lot of people, too young to collect

Social Security and too old for a lot of jobs, out of work. These citizens must be taken care of, and it is our job to see that they are.

It is with regret that we report the death on September 7, 1955, of Alton W. Sims, a member of the Board of Public Welfare since 1936. *1940*

Mr. Arthur J. Brooks of 1 Whitney Avenue was appointed as his successor.

Mrs. Marian Weaving, our Junior Clerk and Typist, resigned on April 1, 1955, to join the Town Accountant's Staff.

She was succeeded by Miss Gertrude Morgan on March 24, 1955, who was given a provisional appointment.

### Old Age Assistance

Seventy-nine persons are receiving Old Age Assistance in Maynard as of January 1, 1956. (Four cases less than a year ago.) They consist of fifty-seven women and twenty-two men, at an average of \$70.08 per month.

We have opened nine new cases and closed fifteen cases during the past year. We also have thirteen cases in other cities and towns, with a Maynard settlement.

Thirteen of our cases are without settlement and we receive full reimbursement from Federal and State.

Five of our cases are settled elsewhere and must be paid for with Maynard funds.

Seven of our cases are in licensed Nursing Homes at a rate of \$35.00 per week, plus clothing, and Personal care.

Six cases are cared for in licensed Boarding Homes at a rate of \$25.00 per week, plus clothing, and Personal care.

Effective January 1, 1956, an increase of \$2.50 per month has been granted by law to all recipients as a traveling allowance, except to recipients in Nursing Homes, and Chronic Hospitals.

The financial report will be found in the report of the Town Accountant.

ALFRED S. CAREY, Jr., Chairman  
 HOWARD F. KING, Clerk  
 ARTHUR J. BROOKS  
 Board of Public Welfare.

## Report of the Board of Health

To the Board of Selectmen:

During the past year the Board continued their policy of worth while clinics which included X-ray, Vaccinations, Inoculations of Dogs against Rabies and Milk Inspections.

### VACCINATION CLINIC

A large number of children were vaccinated against Small Pox at this important clinic with Dr. Ryan in charge assisted by Miss Mary Ward and Mrs. Dorothy Holt. All children on reaching the age of 6 months should be given this protection against Small Pox.

### SCHOOL DENTAL CLINICS

Dr. Samuel Garland assisted by the School Nurse, Mrs. Dorothy Holt, conducted these clinics on Tuesday and Friday mornings at the Town House.

### TUBERCULOSIS

With the advent of new drug therapy which has cut the death rate of Tuberculosis there has been a slight decline in the number of cases as of this date. The great need lies in finding the undiscovered cases early enough so that these drugs may be used. One way to do this is by taking advantage of the monthly X-ray Clinics held at the Town House evenings. Every person should take advantage of this opportunity to have a chest x-ray taken. These clinics are made possible by the sale of Christmas Seals and are free to the public.

### POLIO

During the past year the program to conduct a Polio vaccination was set up but was deferred owing to lack of Serum at that time. It is hoped that the unqualified approval for this clinic will be given by the Massachusetts Department of Public Health in the near future.

List of Commonwealth diseases for 1955 reported:

Measles .....	27	Chicken Pox .....	24
Mumps .....	18	Meningitis .....	2
Scarlet Fever .....	4	Pulmonary TB .....	4
Polio .....	5	Salmonella .....	1

To the townspeople, various Town departments and our own faithful employers, also Mr. James King, our thanks for their

fine cooperation and splendid services rendered to this department.

Respectfully submitted,

JOSEPH DUTKOWSKI,  
JOHN J. JOHNSTON,  
GEORGE EDWARD,  
Board of Health.

---

## Annual Report of Nurses for the Year Ending Dec. 31, 1955

Number of patients visited .....	690
Association visits .....	3,000
Old Age Assistance calls .....	500
Town Nursing visits .....	580
	4,080

Respectfully submitted,

MARY A. WARD, R. N.

## Report of School Building Committee

January 1, 1955 — December 31, 1955

To the Board of Selectmen  
Maynard, Massachusetts

During the year of 1955 the School Building Committee held 18 regular meetings with an equal number of special meetings held by the sub-committees.

At the 52nd meeting, on January 3rd, the architectural plans by Hugh Stubbins Associates, Architects for the Elementary School and High School Gymnasium, were accepted. Mr. Stubbins was instructed to advertise for bids.

On February 14th at 8:00 P. M. bids were officially closed. Thirteen contractors submitted bids. These bids were opened by the architects at 8:15 P. M. in the presence of the School Building Committee, contractors and a number of interested citizens of the town at the Town House.

The lowest bid on the High School Gymnasium was made by the Franchi Construction Company of Newtonville, Massachusetts, with a bid of \$225,930.

The lowest bidder on the Elementary School was the Louis Proia Construction Company of Newton, Massachusetts, with a bid of \$323,580.

At the March 10th meeting the Committee voted to accept the Franchi Construction Company as the lowest bidder for the construction of the new Gymnasium Addition to the High School. Contracts were signed and Mr. Irving Manning, chairman, initialed the Blueprints. Mr. Franchi agreed to start immediate construction and to substantially complete the structure within eight months from the date of the signing of the contract.

At the March 16th meeting the Committee voted to accept the Louis Proia Construction Company as the lowest bidder for the construction of the new Elementary School. Contracts were signed and Mr. Irving Manning, chairman, initialed the Blueprints. The performance clause stated that the school would be completed within ten months from the date of the signing of the contract.

An increase in the cost of constructional materials and labor after the original \$344,000 appropriation made it necessary for the School Building Committee to ask for additional funds to equip the building and to help cover additional archi-

tectural fees and any contingencies which might arise. After a thorough study of all costs and estimates, the Committee arrived at a figure of \$38,000 as the necessary amount. This amount was voted by the people at the March 15th Town Meeting. Added to the original appropriation this brings the cost of the school up to \$382,000.

On March 27th, 1955, ground breaking ceremonies were held at the Elementary School and High School Gymnasium sites with a program appropriate for the occasion.

At the March 30th meeting the School Committee announced that it had decided to name the new High School Gymnasium the "Maynard Memorial Gymnasium" in honor of veterans of all wars. The School Committee also announced at that time that it had decided to allow the children of the first six grades to suggest names for the new school and to take a vote on the names submitted. This was done and the children voted to call the new Elementary School "The Green Meadow School."

The School Committee informed the Building Committee that the Veterans Post and the Elks Club have volunteered to present flags to the new buildings.

At the April 11th meeting it was voted to hire Mr. Irving Winslow of Holbrook, Massachusetts, as clerk-of-the-works supervising both structures at a salary of \$125 per week, plus 7¢ per mile for transportation between structures, and expenses for telephone calls, stationery and stamps. Equal amounts are to be taken from the Elementary School Fund and the Gymnasium Fund for his salary and expenses. It was also voted at this meeting to have concrete testings made at both structures by Herman G. Protze, Material Technologist, to be assured that the proper proportions of materials were used to obtain the specified strength of the concrete.

Both structures have been covered by Increased Insurance Policies which increase as the construction progresses. The John C. King Agency of Maynard handles the Elementary School policy, while the J. Francis Cleary Insurance Agency carries the High School Gymnasium policy.

On October 10th a permit was granted to the School Committee for underground storage of 6,000 gallons of oil on the property owned by the School Department on Summer Street.

At the November 1st meeting, equipment for the Gymnasium was discussed and a list of needed equipment necessary to make the Gymnasium functional was presented by the Gymnasium Equipment Committee, which consists of the School Committee, Acting Superintendent of Schools Mr.

Albert Lerer, Mr. Irving Manning and Mr. Walter Carbone. The School Building Committee voted that the amount to be spent on essential equipment for the Gymnasium at this point should not exceed \$3,500.

There has been a considerable added expense to the Elementary School construction due to excavation of ledge and rock removal which was not made evident in the Boring Program.

Changes in the membership of the School Building Committee during the past year have been as follows:

March 10, 1955 Mr. John Sokolowski succeeded Mr. Leo Mullin as Selectman Representative.

March 10, 1955 Mr. Noble Loomer succeeded Mr. Philip Morrison as School Committee Representative.

March 10, 1955 Mr. William Larsen succeeded Mr. David Pallian as School Committee Representative.

September 19, 1955 Mrs. Virginia Robinson succeeded Mr. Joseph Boothroyd as School Committee Representative.

September 19, 1955 Mr. Albert Lerer succeeded Miss Mary A. Doyle as Advisor.

October 3, 1955 John Piantedosi succeeded Carl L. Becker as Finance Committee Representative.

November 1, 1955 Miss Florence Wilder succeeded Mr. Albert Lerer as School Principal Representative.

The Memorial Gymnasium will be completed in the very near future and the Green Meadow School will be ready for occupancy in September, 1956.

The School Building Committee feels that this building program which was accepted by the citizens of Maynard and financed within the ability of the town to pay, will be an asset to our community both in the physical facts of the buildings themselves and in the opportunity they will give our children to further their mental, emotional, social and physical development.

Respectfully submitted,

IRENE G. WOOD, Secretary

Irving H. Manning, Chairman

Walter Carbone, Constructional Advisor

Mrs. Helen Gately

John Piantedosi

William Larsen

R. Frank Punch

Noble E. Loomer

Mrs. Virginia Robinson

Charles Lerer, Town Counsel

John Sokolowski

# Report of the Middlesex County Extension Service

By J. T. BROWN, Director

The County Extension Service is a part of the Land Grant College System and is associated with the University of Massachusetts and the United States Department of Agriculture. Other phases of this system include the Experiment Stations, the Regulatory Control Services and Resident Instruction.

The Extension Service is under the direction of the Board of Trustees and the Middlesex County Commissioners. The objective of the Extension Service is to bring to the residents of Middlesex County the results of research, enabling producers and consumers to put into practice efficient production and utilization practices. The effects of this program result in lower unit cost and a savings for the consuming public.

The three departments of the County Extension Service are Agricultural, Home Economics and 4-H Club Work.

In the Agricultural Department, formal programs are conducted in poultry, turkey, dairy, general livestock, fruit, vegetables, flowers, forestry, home gardening and landscape care. The agricultural program is conducted on a regional basis with many towns participating in the numerous meetings and other events. In the past, greater emphasis has been placed on production problems and in assisting farmers to use efficient methods that they might compete with other areas.

A surplus of agricultural products makes it necessary for agricultural agents to do more in the marketing of these crops. In the future, more attention will be given to better market facilities, more efficient distribution and maintenance of high quality. This will require expanding the services to producers, wholesalers, jobbers, retailers and consumers.

The Home Economics Department program is designed to help the busy homemaker in her search for information regarding problems of home and family life. Subjects covered are foods and nutrition, clothing, home furnishings and management, family economics, child development and recreation. A Women's Advisory Council helps select and promote programs in the different towns. Meetings are held in local communities, or on a regional or county-wide basis depending on the subject.

4-H clubs offer opportunities to young people to learn more about all phases of Agriculture and Home Economics. In 1955, there were 4-H clubs in 46 towns of Middlesex County with an enrollment of over 2400 members. The success of 4-H club

work depends entirely on the 206 volunteer local leaders who freely give many hours teaching the projects carried on by the clubs. The excellent work done by these youngsters was exhibited at the 4-H Achievement day in May and the Middlesex County 4-H Fair in August. A 4-H camp at Ashby is operated for weeks each summer and provides nature study, crafts, swimming and healthful living for the 4-H'ers of Middlesex County. The Extension Service is especially proud of the five 4-H'ers of Middlesex County who became state winners in Citizenship, Health, Home Improvement, Rural Arts, and Recreation and National Poultry Winner.

New programs of the Extension Service broaden the scope of the work. Special emphasis on marketing and consumer information, urban problems, farm and home counseling and public affairs are being undertaken in the year ahead.

The brevity of this report requires generalization. The motto of the Extension Service, "To Help Those Who Help Themselves," expresses the primary goal of this organization.

---

# School Calendar for 1955 - 1956

## HIGH SCHOOL

Fall Term began .....	September 19, 1955
Closed .....	December 23, 1955
Winter Term began .....	January 3, 1956
Closed .....	February 17, 1956
Early Spring Term begins .....	February 27, 1956
Closes .....	April 15, 1956
Late Spring Term begins .....	April 23, 1956
Closes .....	June 22, 1956

## ELEMENTARY SCHOOLS

The same as for the High School except that Late Spring Term closes on June 8, 1956.

## DAILY SESSIONS

Roosevelt School	8:45-11:30 A. M.	1:00-3:15 P. M.
Coolidge School	8:30-11:15 A. M.	12:30-2:45 P. M.
Junior High School	8:45-11:45 A. M.	1:00-3:00 P. M.
Senior High School	8:00 A. M.	1:00 P. M.

## HOLIDAYS, etc.

October 12	Columbus Day
October 28	Teachers' Convention
November 11	Armed Forces Day
November 24, 25	Thanksgiving Recess
March 30	Good Friday
May 30	Memorial Day

## STORM SIGNALS

Three blasts for first eight grades, five blasts for entire school system. Blown at 7:15 A. M. and 12:00 P. M.

Announcements of "No School" will also be broadcast over WBZ, WEEL, between 7 and 7:30 A. M.

N. B. Errors in judging the weather are unavoidable. It is suggested that parents exercise independent judgment about sending children to school in stormy weather.

# Report of Maynard School Committee

---

To the Citizens of Maynard:

We herewith submit the Annual Report of the School Committee for the year ending December, 1955.

We, of the School Committee, meet regularly twice a month, but also have frequent special meetings whenever necessary. We have made a number of visits to the various school buildings to ascertain their condition and to inspect alterations, repairs and progress. Also, many visits have been made to the two new school buildings now being erected; — namely, the Green Meadow School and Memorial Gymnasium.

These two buildings are needed in Maynard. The people in this community realize that the new schools must be built to accommodate our growing school enrollment. Careful consideration and study has been given to planning and constructing these buildings. More detailed information may be obtained concerning them from our School Building Committee Report.

The School Board, acting as spokesmen between the public and its schools, urge that parents who have any problems concerning their children and the schools feel free to come before the board to discuss these problems. We have done and will continue to do all in our power to keep the standards of education high in Maynard and carry out your wishes for the education of your children.

Respectfully submitted,

WILLIAM H. LARSON, Chairman  
NOBLE E. LOOMER, JR., Secretary  
VIRGINIA N. ROBINSON  
School Committee.

January 11, 1956

# Report of Superintendent of Schools

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard School System for the year 1955.

The White House Conference on Education held in Washington from November 28th to December 1st left no doubt that Education, as an American Heritage, is a public enterprise and responsibility. It is basic to democracy and as such requires for its wholesome growth the active concern, support and participation of the public.

The continued success of our democratic way of life requires that every individual be afforded that education necessary to enable him to make intelligent decisions on personal and public problems, if the well-being of our nation and its citizens is to remain our major objective.

To accomplish these aims, the following goals of education were enumerated in the White House Conference report:

1. Continuous improvement in the fundamental skills of communication. (The report also says that "schools are doing the best job in their history in teaching these skills.")
2. Good work habits, self-discipline, appreciation of democratic heritage, respect for human values.
3. Social competence, ethical behavior, intellectual curiosity, esthetic appreciation, and self-expression in the arts.
4. Physical and mental health, including constructive leisure pursuits.
5. The understanding and awareness of the physical world, the relations with the world community, and knowledge of American institutions.

After calling for a program of effective counseling and guidance, the report concluded by considering the need for continuing growth and development in education at all levels in amount and scope, to keep up with the economic, social and moral implications resulting from our tremendous advances in technology and science.

As we analyze our own educational organization in the light of the findings of the Conference, we can be proud of the educational offering in Maynard. Our program is basically in line with the recommendations emanating from these leaders. We are well aware of the changing demands of citizenship

upon our youth. We are constantly revising our curricula and courses of study to meet these changes. With the continued interest, understanding and cooperation of our townspeople, we can expect that our schools will turn out graduates who will be prepared to take their places successfully in a highly competitive and complex society.

While we can point with pride to our educational system at the present time, it would be foolhardy to believe that our organization alone will guarantee these successes in the future. The shortage of good teachers is becoming alarming. As enrollments increase and competition for teachers becomes more intense, towns and cities with better salary schedules are attracting the good ones as fast as they are ready to enter the profession. This situation will soon not only affect our chances of obtaining good replacements but also our power to hold the excellent teachers we now employ. Our neighboring towns are meeting this problem by raising their salary schedules as others are doing all over the state and country.

At present our own schedule is considerably below the average. If we are to continue to maintain the standards of education we desire for our children, we shall have to do something about teachers' salaries before it is too late.

#### CHANGES IN PERSONNEL

During the year we have had approximately a twenty percent turnover of teaching personnel. Listed below are the resignations and appointments for your information:

RESIGNATIONS	APPOINTMENTS
High School	
Clare T. Kiley	Margaret M. McDonough
Thomas F. McGrail	Paul V. Ryan
Francis J. Collins	Donald E. Sisson
Joseph P. F. Allen	
Junior High School	
Joanne Spurk	Francis L. Sullivan
Francis J. Haggerty	Patricia A. Finnegan
Roosevelt School	
Patricia Vickery	Ann K. Frazier
Lucinda Silk	Rose Monteiro
Catherine G. Finn	Louis Callahan (Sub.)
Coolidge School	
Joan U. Fitzpatrick	Maureen N. Turner
(Special Class)	Lawrence Gomes, Jr.

## LEAVE OF ABSENCE

Mary A. Doyle— Superintendent	Albert Lerer—Acting Supt.
Albert Lerer— H. S. Principal	Frediano D. Mattioli— Acting H. S. Principal
Frediano D. Mattioli H. S. Math.	Ruth L. Castendyk
Lawrence Lerer— H. S. Science	John J. Sullivan

## MAINTENANCE

During the year, the School Committee continued its program of repair and replacement. Within the limits of the budget, necessary alterations were made and new equipment was purchased as needed to improve the efficiency of the educational program and the buildings.

## REPAIRS AND REPLACEMENTS 1955

**Senior High School**

Painting—Guidance Room and Stairwells  
Office Duplicator replaced  
Two Metal Files purchased  
Furniture — One classroom replaced, Desk and Chair purchased for Health Room  
Snowblower attachment for lawn mower purchased  
One electric typewriter purchased  
Regular maintenance contract for typewriter service renewed

**Junior High School**

Painting—Girls' Toilet Room and Basement Stairwells  
Furniture—One classroom replaced  
Typewriter purchased for Junior High Office  
Two electric sewing machines purchased for Domestic Arts Room  
Electric stove purchased for Domestic Arts Room  
Drinking Fountain installed in toilet room  
Handwashing facilities in boys' and girls' basements  
Saw and Grinder replaced in Manual Arts Room  
New Stoker installed  
Bicycle Rack purchased

**Roosevelt School**

Painting—Exterior Trim and Rooms 8, 10, 11, 13, 14, 15  
Furniture—One classroom replaced  
Fire doors installed as directed by State Building Inspector  
Two handwashing sinks installed

### Coolidge School

New stair treads installed on rear stairwell  
 Projector purchased for school use  
 Fence erected on school boundary  
 Grounds rolled and loamed  
 Major renovation of boys' toilet room

### Miscellaneous

Window shade replacements in all buildings where necessary  
 Provision made for removal of ashes from all buildings  
 Band—purchase of instruments and uniforms  
 Wilson School demolished  
 Usual emergency repairs

### ENROLLMENT

As in most towns, Maynard is progressively showing an increased enrollment. It is fortunate that we can plan on the completion of the new Green Meadow School for September. The additional facilities there will be sufficient to relieve the overcrowded conditions at our other elementary schools. The Junior High and Senior High Schools are also contending with this problem. These increases have made it necessary to ask for an additional teacher next September for both the elementary and secondary levels.

### AMERICAN EDUCATION WEEK

Hundreds of interested parents visited our schools during American Education Week in November. Their interest and cooperation was appreciated. Successful education of its children is a community responsibility. The teacher must have the help, knowledge and support of all parents if her job is to be done well. It is to be hoped that this interest on the part of parents will continue and that the relationship between home and school will remain closely associated so that the maximum educational objectives for Maynard children will be attained.

### FEDERAL MILK PROGRAM

As of October 1955, the Maynard Elementary Schools have been participating in the Federal Milk Program. Under this program, the government now reimburses the schools at the rate of three cents a bottle for white milk consumed. This allows the children to purchase milk at three cents a bottle instead of six cents, the former cost. The same dairies deliver the milk as before. The only limitation is that the reimbursement is for white milk only. No reimbursement is made on chocolate milk as the government feels that this drink does not have sufficient food value for the children. We strongly urge you to encourage your child to purchase white milk at school,

not only because of the low cost, but for the food values contained which are so necessary for building strong and healthy bodies.

### ADULT EVENING EDUCATION

At the request of a number of Maynard citizens, the School Committee approved the offering of evening courses for adults. Classes in Typewriting, Stenography and Bookkeeping have been started.

The evening school is in session Mondays and Thursdays for twenty weeks. Miss Meredith Drew, of the Waltham High School Faculty and Mr. Maurice Nolan of the Acton High School Faculty are the instructors in charge. The enrollment of students at the present time is slightly over one hundred. The interest shown in these courses has been very gratifying. It is evident that Maynard citizens are desirous of improving themselves by further education. The response to this program indicates that it should be continued and enlarged in future years. While the students enrolled now are paying for this instruction, if sufficient interest continues, it is possible to make use of the Massachusetts State Extension Course Program and thereby reduce the cost to the citizens of Maynard.

### ELEMENTARY EDUCATION

The current elementary program offers opportunity at all grade levels for enriching experiences of great variety, in addition to acquisition of basic skills, which contribute to the balanced development of the whole child. Participation in dramatics, clubs, parties, glee clubs, games, Quizdown Contests, band, dancing classes, excursions, field trips, community drives etc., has broadened the educational background of Maynard children. They have visited such interesting places as the Science Museum in Boston, General Motors Plant in Framingham, Children's Museum, Symphony Hall for a Pops Concert, Cinerama, Music Festivals, Maynard Public Library and Fire Station.

For eleven years, the Junior High School pupils have studied ballroom dancing and etiquette at evening classes under the direction of Miss Helen Merrill of Lexington. Nearly two hundred pupils took advantage of these lessons this year. Much credit for the success of this activity is due to the teachers who help supervise the classes every Thursday during October, November and December.

Although the instructional program in our elementary grades is excellent, we are no exception to the nationwide problem of the need for remedial reading instruction for those

experiencing difficulty in this area. With approximately five hundred children in grades one through four, where the basic skills of reading are taught, a certain percentage are slower than others in acquiring all the reading facility so necessary for success in understanding science, history, geography, literature, grammar, spelling and arithmetic problems which are given increasing emphasis in the intermediate grades. Employment of a full time Remedial Reading Teacher would be highly beneficial at the grade levels mentioned to help those children who have not responded as rapidly as the rest in learning the reading skills necessary for understanding the content subjects.

### SPECIAL EDUCATION

Special Education was organized in Maynard this year in accordance with Chapter 514 of the Acts of 1954 of the General Laws of Massachusetts.

A class was established here for "The Educable" and provision was made for "The Trainable" by paying tuition for attendance at a class for this type of pupil now being held in Concord.

Since these Special Education Classes are now required by State Law, the State reimburses the town for 50% of the cost of this instruction.

### HEALTH AND ATTENDANCE

Medical examinations have been given to the fourth, seventh and tenth grade pupils by the School Physician and defects noted. All candidates for athletic teams have been examined also. The results indicate that we have a fairly healthy group of children. Immunizations against diphtheria and tetanus have been carried on as usual. We are fortunate that there have been no serious outbreaks of contagious diseases during the year. The parents have cooperated very well when suspected cases of childhood diseases have been sent home.

The annual "Pre-School Round-Up" was held in May when sixty-one children were given physical examinations.

Every Tuesday and Friday morning, Dr. Samuel Garland conducts a Dental Clinic at the Town House. To date, one hundred twenty have requested dental permits. Through the cooperation of the State Department of Dental Health, every elementary grade pupil had a complete dental check-up by Miss Marion Holden, dental hygienist.

Results of the Massachusetts Vision Test indicated that twenty-five children failed, and twelve children showed defects

in the audiometer hearing test. These children were referred to their parents with suggestions for further treatment.

The School Nurse made three hundred and eighty-five home visits. As Attendance Officer also, she has made twelve home visits to investigate the absences of truants.

## ART

Many media are used to enable each child to express creative talent, in the regular art program. Through facility with crayon, water color, finger paint, poster paint, blockprint, etching, charcoal, clay, plaster and papier mache, the principles of design, color, construction and illustration are studied. In the High School, mechanical and free-hand drawing courses are offered. Many posters and decorations have been made by students for school and local community groups.

## MUSIC

The music program provides for guided musical experiences through singing, rhythmic activities, playing instruments, listening and reading music. We encourage through the teaching of singing, the use of the voice, the most versatile of all musical instruments. Rhythm, the basic element in music, is taught through the use of singing games, instruments and physical interpretation of recordings. Listening to recordings of good music from many cultures is a form of music appreciation. To acquaint the pupil with the scope of range, fundamental beat, and the variations of loudness and quality, music reading is taught. At the high school level, pupils participate in choirs and glee clubs which perform at school and community functions.

## SCHOOL BAND

The Band Organization, which has grown considerably this year, now consists of a forty-two piece School Band, a thirty-four piece Junior Band and a seventeen piece Beginners' Band. In addition, there is a students' Dance Band, which has given several public performances, and a girls' Majorette Group, which accompanies the band at public functions.

Free class instrumental instruction was offered again this year, as well as private lessons financed by the individuals desiring them.

Commendation is due to the Band Parents' Organization for its excellent support and cooperation with those in charge of the Band Program.

## PHYSICAL EDUCATION

Classes in tumbling, calisthenics, marching, apparatus and games are held, twice a week, in the gymnasium for high school boys. Such classes are also conducted once a week for mixed groups of junior high school boys and girls. Afternoons and evenings, an intramural sports program of basketball and baseball for boys was offered again this year.

In the elementary grades, an outdoor program of seasonal sports, including football, basketball, baseball, volleyball and active games took place during the warm weather. In the winter, indoor work is confined mostly to group discussions on health, hygiene, game rules, etc.

Varsity teams in football, basketball and baseball for boys represent Maynard in Midland League competition. Girls' basketball and field hockey teams play those of other high schools in the nearby towns. Junior High basketball and baseball teams compete in the Middlesex Junior High League.

## PRACTICAL ARTS

Regular classes are held for pupils of the Junior and Senior High Schools in Industrial and Domestic Arts.

The objective of the Industrial Arts Program for boys is the proper understanding of production, consumption and recreation through the completion of assigned practical projects. The boys learn the discipline of production work and become acquainted with good industrial procedures. As consumers, they are enabled to make discriminating choices of products and services. Skills and knowledge for potential hobby fields contribute to profitable utilization of leisure time.

This year two students received certificates for outstanding workmanship from both State and National Industrial Arts Exhibits in which their work was displayed.

It has been evident for the past few years that increasing numbers of students are requesting courses in the Industrial Arts program. The facilities for handling them has always been limited. The shop itself, when originally set up, was a make-shift arrangement utilizing the boys' and girls' basement play areas. The present work rooms have never been conducive to good shop instruction. The School Committee is aware of these limitations and realizing the importance of this curriculum to so many children has made provision in its 1956 budget for renovating these rooms and adding more equipment for a better program.

Domestic Arts classes for girls provide training in basic skills of cooking, sewing and home nursing. Girls are taught how to purchase, prepare, serve and preserve food, so that the

family's nutrition needs may be met within a food budget. They learn how to select patterns for correct fit and proper style, to purchase fabrics intelligently, to make garments correctly and to purchase clothing. Good grooming through personal cleanliness and care of clothing is studied. They also learn the basic principles of home nursing and first aid so that they may be of service at home in case of illness, of child care to help them in "baby-sitting," and the general health fundamentals for clean, healthful living.

## AUDIO-VISUAL EDUCATION

Audio visual Aids, when properly utilized, become another means of introducing subject matter, of providing the facts on which concepts are built, of reviewing material already learned by other methods. They are important tools of the teaching profession, and they add variation to the regular school room procedures by providing the teacher with a dynamic method of presenting facts. Films, film-strips, tape recordings, slides, pictures, etc., as well as being used with the entire class, may also be utilized as reference material together with books, pamphlets and magazine articles.

The Audio-Visual Department was instituted to be of assistance to the teachers of Maynard. A great deal of money can be spent on equipment and materials, and yet this does not guarantee the proper use of these aids. The A-V Department attempts to help the teacher to be able to call upon these aids with little trouble and to use them properly. The following are some of the services that the department renders:

### 1. Providing Sources of Information

Files are maintained which include sources of Audio-Visual materials.

#### A. Materials and Equipment Owned by the School System:

- |                           |                            |
|---------------------------|----------------------------|
| (1) Cooperative Film list | A personal copy of each    |
| (2) Filmstrip Catalogue   | of these is given to every |
| (3) List of Equipment     | teacher.                   |

#### B. Files that Contain:

- (1) Free film catalogues
- (2) Catalogues of films that may be rented or purchased
- (3) Catalogues of filmstrips that may be rented or purchased.
- (4) Catalogues on equipment for purchase
- (5) List of free and inexpensive aids to teaching
- (6) List of Museum exhibits that may be borrowed
- (7) List of State Department Tapes

## 2. Coordinating the Film Cooperative

Maynard belongs to a film Cooperative Plan with five other communities; namely, Marlboro, Shrewsbury, Westboro, Grafton and Lyman School. The Cooperative Film Library now contains approximately one hundred twenty-five educational films. An average of fifteen to seventeen films are added each year. The films are owned by the School Department which purchased them, but they are pooled together for the use of all. The main purpose of the Cooperative is to provide films for the teachers at the time when they will be of most value to their classes.

The A-V Representatives of the five communities meet once every two weeks in Shrewsbury where they pick up the films that their teachers have requested.

3. **Allocating Equipment and Materials Owned by the Department**
4. **Obtaining Materials That Must Be Borrowed or Rented from Outside Sources**
5. **Maintaining Equipment and Aids**
6. **Training Student Operators**

Students are trained to operate equipment. We now have approximately fifty boys, ranging from the fifth to the twelfth grades, who are capable of running equipment, and who are always most willing to do so. Our teachers, even though they are able to operate the equipment themselves, request the services of the students because it allows them to be concerned with the educational value of the aid, while they leave the mechanical details in capable hands.

## 7. Encouraging Field Trips

These are most of the services now rendered by the Audio-Visual Department. We are always striving to improve on those already established. As we look ahead, we hope to add new services to those already in operation.

Following is a list of equipment and materials purchased this year: one dozen tapes — approximately one hundred dollars worth of filmstrips — three sound films (16 mm): "How Many Stars," "Water Cycle," "Supreme Court."

## DRIVER EDUCATION

High School Juniors and Seniors have been given classroom instruction in motor vehicle rules and regulations, and road instruction in the Driver Training Car obtained from the Barber Chevrolet Company. The Driver Training Program is of vital interest to parents. Successful completion of this

course will assure them that their children have had proper training before they assume the responsibility of operating a motor vehicle.

## GUIDANCE

The aim of the guidance services continues to be the ultimate self-knowledge and optimum adjustment of each individual pupil. To this end, a cumulative record of each pupil is kept in constant progress from the date of his entrance to school until he leaves. This record contains many evaluations of the student; scholastic achievement, effort, behavior, ability, attendance, health, personality, and each teacher's observations.

To evaluate the mental ability, achievement, interest and aptitude of Maynard children, the best objective measuring devices obtainable are used for group testing. Special tests, including the individual Stanford-Binet and Wechsler are given as the need arises.

In the High School, examinations were administered in the Guidance Room, for the National Honor Society Scholarships, the Westinghouse Science Talent Search, the Betty Crocker National Homemaker Award, and the National Merit Scholarships, to the Seniors competing. Last January, the Juniors were given a battery of vocational tests by the Boston University Cooperative Testing Service. Through personal interviews, the scores were interpreted for each student, to aid him in planning his future. The United States Employment Service has administered the General Aptitude Test Battery to all Seniors who have registered for employment following graduation. A group of Seniors took the tests of the College Entrance Examination Board, and some Juniors took them in May for a practice run.

School and college information and applications for admission have been distributed. Many applications have already been completed by Seniors and some candidates have been notified of acceptance and scholarship aid for next fall. Earlier, a number of 1955 graduates received scholarship grants in varying amounts for present higher education.

Part-time job placement of students, and permanent placement of graduates, has been very high this year, due to the excellent cooperation of local industrialists and retailers.

Vocational information is distributed through films, Guidance Library materials, and career conferences. Again, the series of monthly occupational conferences is being presented by experts in various fields, under the auspices of Northeastern University. Juniors and Seniors attend voluntarily and a Guidance Committee of students handles publicity and

registration, greets speakers, conducts the meetings and welcomes guests. Acton High School students attend regularly, also, by invitation. All visiting speakers have been enthusiastic in praising the courtesy and interest of the students who have attended.

The results of the follow-up survey of the Class of 1955, which was completed in December, produced some pertinent information from the fifty-four graduates.

#### STATUS OF CLASS OF 1955

	Number	Percent
Full-time employment	23	42.6
Attended school or college since graduation	21	38.9
In armed services (Army 3, Navy 3, Air Force 1)	7	12.9
At home (Married)	3	5.6

Schools or colleges attended by the graduates include: Boston College, Boston University, Dartmouth College, Northeastern University, Tufts University, University of Massachusetts, Massachusetts College of Pharmacy, Fisher Junior College, Lasell Junior College, Chandler School for Women, Pierce Secretarial School, Stenotype Institute, Framingham Union Hospital School of Nursing and the Maynard Evening Classes.

In the Junior High School, arithmetic strengths and weaknesses noted after administration of the California Arithmetic Test, were discussed with the teachers and pupils. Where discrepancies between mental ability and achievement appeared, further action was taken.

After a survey of all students in Grades I-VIII, involving teacher reports and conferences, some were referred for adjustment and others, for Special Education. As a result of this survey, certain speech difficulties of children were reported by teachers. A Speech Therapist from Emerson College conducted a diagnostic interview with each child, to which his parents were invited to discuss the results.

Our School Drop-Out Survey, which was completed and reported to the State Department of Education, reveals that the percentage of children who leave the Maynard Schools, before graduation from high school, is considerably below the State and National average.

#### CONCLUSION

It is a pleasure to conclude this report with the statement that our schools are in excellent condition to serve Maynard

children. The buildings are in good repair, the personnel has maintained its spirit of interest and cooperation, and the invaluable assistance of the School Committee, public officials, parents, public spirited citizens and civic organizations have made it possible to maintain a standard of education that is in keeping with the best educational traditions.

I wish to express my appreciation for the excellent work of our teaching staff and other employees of the system in meeting their responsibilities and performing the duties of their positions. Without their loyal and earnest endeavors, our plans and efforts could not carry us to the educational objectives which we feel are necessary for the future success of our children.

Respectfully submitted,

ALBERT LERER,  
Acting Superintendent of Schools.

## Report of The High School Principal

Mr. Albert Lerer  
Acting Superintendent of Schools  
Maynard, Massachusetts

Dear Mr. Lerer:

As Acting Principal of Maynard High School since September, I herewith submit this annual report. Since the report is for the calendar year of 1955, it will of course include work accomplished earlier in the year under your direction.

Maynard High School is successfully preparing its students for the life that faces them after graduation. Large numbers of our students have desired to go on to institutions of higher learning and most of these have been successful both in college acceptance and in the quality of work they have achieved. Information received from colleges concerning our former students nearly always indicates satisfactory scholastic achievement, occasionally high achievement. Follow-up studies conducted by our Director of Guidance show evidence that nearly all of our other graduates are gainfully and usually satisfactorily employed.

However, we are not complacent in our attitude concerning the education provided by Maynard High School. As changes take place in our way of life, changes of emphasis must be made in our curriculum to provide for these conditions. To this end, in September 1955, the subject of World History has replaced European History in our Social Studies curriculum.

During the past year a non-cumulative marking system was adopted after a survey conducted by a special committee of high school teachers. The new report card, adopted in September keeps parents up to date on the current achievement of their children.

This past year, as often in recent years, many excellent teachers left Maynard to take positions in school systems which offered them more financially. In the High School, four vacancies were created by resignations and a fifth by my assumption of the duties of Acting Principal. As a result, five teachers (more than one third of the High School faculty) had to be oriented in the procedures at Maynard High School. These teachers have adjusted satisfactorily, but one cannot dispute the fact that, to some extent, a constantly changing faculty is not conducive to the maintenance of the highest educational standards. The ultimate sufferers are the youth

of Maynard. Following are the faculty changes in September 1955:

Joseph P. F. Allen, Science	John J. Sullivan
Francis J. Collins, Mathematics	Donald E. Sisson
Clare T. Kiley, Business Subjects	Margaret M. McDonough
Thomas F. McGrail, English	Paul F. Ryan
Frediano D. Mattioli, Mathematics	Ruth L. Castendyk

Throughout the year the High School has been in the midst of an interesting period of distraction which is inevitable during a period of construction. Although at times necessary noise made it difficult for teachers to conduct classes in the rooms in the end of the building adjoining the gymnasium, both the teachers concerned and their students endured these minor annoyances to quiet study and classes have proceeded practically uninterrupted.

Other items worthy of note include the following:

1. American Education Week was very successful as a large number of parents attended both the Open House and the National Honor Society Installation.

2. A problem that educators all over the country consider imperative is that of the education of our potentially outstanding students. A committee of teachers is studying this problem as it relates to Maynard High School.

With the anticipated completion of the Memorial Gymnasium this coming year, a desired broadening of the physical education program will become a reality. A court for our interscholastic basketball team will provide the long needed adequate practice facilities and the benefits of a home court.

Increasing enrollment has necessitated the formation of an additional home room this year and indications are that another home room will be needed next year. This increase of students has also had the effect of overloading some classes, notably in the subjects of World History, Chemistry and Industrial Arts. While the World History classes are expected to level off, the increased interest in the sciences will probably be maintained and in the foreseeable future our laboratory facilities, which are now crowded, may need some expansion.

More immediate has been the increasing desire on the part of students to take the Industrial Arts Course. Reorganization and expansion here has reached the imperative stage if we are to make the best use of available facilities and provide for all who wish to take this course.

Increasing enrollment and the use of Room 16 for special class has necessitated the combining of our Health and Guidance services into one room. With the completion of the

Gymnasium it may be possible to move the Health Room thereby assuring both services of the privacy each often requires.

I should like to report to you that our accomplishments have been made possible only through the diligence and cooperation of the members of the High School faculty.

May I express to you appreciation for the assistance that has been rendered, and for the support and cooperation that have been very helpful to me in the carrying out of my duties.

Respectfully submitted,

FREDIANO D. MATTIOLI,  
Acting Principal.

January 3, 1956

# Graduation Exercises

of the  
Class of 1955

GEORGE WASHINGTON AUDITORIUM  
MAYNARD, MASSACHUSETTS  
SUNDAY AFTERNOON, JUNE TWELFTH  
AT THREE O'CLOCK

---

## PROGRAM

*Theme: YOUTH FACES THE CHALLENGE*

- Processional — War March of the Priests .....*Mendelssohn*  
Carolyn Quirk — Meredith Lerer
- Invocation — Reverend C. Thomas Kangas
- Salute to the Flag  
Peter Wilson, President, Class of 1955
- Star Spangled Banner .....*Francis Scott Key*  
Class and Assembly
- Honor Essay — The Challenge of a Bright New World  
*Original*  
Jean Antila
- Essay — Political Frontiers .....*Original*  
Mary Bachrach
- Selection — One God .....*Drake and Shirl*  
Senior Class — Barbara Phillips — Soloist
- Poem — True Nobility .....*Charles Swain*  
Greta Carlquist
- Essay — Economic Frontiers .....*Original*  
John Cocco

- Piano Duet — Polonaise in A Flat Major .....*Chopin*  
Myrna Johnson — Patricia Manning
- Essay — Social Frontiers .....*Original*  
Elizabeth Kasziewicz
- Essay — Educational Frontiers .....*Original*  
Carol Martin
