Report of the Board of Selectmen

To the Citizens of Maynard —

Herewith is presented the Annual Report of your Board of Selectmen for the year ending December 31, 1959.

Before we attempt to review some of the major accomplishments of the past year, we think that we are able to state with modesty and without fear of contradiction that we have been the busiest Board of Selectmen in many years. We would like to feel that, aside from the many hours involved, our decisions and recommendations have met with your approval.

During 1959, the Board of Selectmen was deeply concerned with and actively participated in an ever-increasing number of controversial administrative and municipal problems, some of which have been successfully concluded whereas others must be realistically pursued and resolved in the near future if the Town is to flourish and prosper relative to the progress shown in surrounding communities. However, our enthusiasm for expansion and municipal changes, both from materialistic and social viewpoints, must be tempered by keeping foremost in our minds the following basic facts: (1) the limited natural resources and geographical dimensions of our community and (2) the extent of our ability, without over-taxation, to maintain financial solvency and to meet our obligations and debts should an expansion program be warranted in the near future. Furthermore, an active evaluation program of present Town needs with co-operation and participation by all Town Boards should be initiated on a sound, systematic basis with emphasis and priority placed on what is essentially needed and what can be relegated to positions of lesser importance without sacrificing the facilities and services indispensable to the residential, business and industrial segments of our community.

Elsewhere in this Annual Report, the detailed activities and functions of the various Town departments under our jurisdiction are presented.

As for Board actions and decisions relative to 1959 Town matters, the Board is pleased to report in some detail its activities and accomplishments:

(1) Adoption of the Town Employee's Group Insurance Program with Blue Shield-Blue Cross benefits, effective October 1, 1959.

(2) Adoption of increased extended fire insurance coverage on all Town buildings and their contents by \$200,000 at an additional cost of \$300 - \$350 per year in premiums to keep pace with rising building costs; said change made in accordance with Insurance Advisory Committee's recommendations.

(3) Adoption of a more equitable re-distribution system of extended fire insurance policies under the Board's jurisdiction among local agents.

(4) Vigorous enforcement of liquor license violations with the full cooperation of and endorsement by the State Alcoholic Beverage Commission. It should be noted that the Board has been commended for its actions by ABC representatives relative to alcoholic matters.

(5) Adoption of local alcoholic club license regulations relative to members and guests with assistance and advice from the ABC agency.

(6) Adjustment of all Town beer and wine and alcoholic license fees to levels comparing favorably with neighboring communities; said changes to result in a \$3,600 yearly increase in Town revenue effective January 1, 1960.

(7) Re-adjustment of special beer and wine permit fees for local and non-resident applicants from \$7 to \$10 and \$20 to \$25 per day, respectively.

(8) Establishment of traffic regulations with the State Department of Public Works' sanction relative to the streets adjacent to our industrial areas: Thompson, Park, Hillside, Walnut, Bancroft, Chandler, Dartmouth, Fairfield, Elmwood, Florida, Thomas, Beacon, Railroad, etc. To place this matter in its proper perspective, these regulations resulted from the wonderful cooperation received from not only the residents of these areas, but also from the representatives of the Maynard Industries, Raytheon, and Bradley-Sun, the Planning Board, and the Chief of Police Michael Zapareski.

(9) Elimination of illegal expenditures of Town funds with the cooperation of the Dept. of Public Works for the lighting, plowing, and maintenance of private business properties; said costs to Town being nearly \$1,000 - \$1,300 per year.

(10) Elimination of an unauthorized tax abatement under Chapter 59 with the Board of Assessors cooperating with a private property owner which has led to the serious parking problem which exists in our business district at the present time.

(11) Participation in joint meetings with other Boards to discuss mutual Town problems.

(12) Adoption of a fee schedule from applicants seeking variances from the Board of Appeals in adopted Zoning By-laws; said fees to cover the cost of legal notices in local newspapers as required by law.

(13) Inauguration of monthly meetings with the Chief of Police to discuss Town and Police Department matters of mutual concern.

(14) Active cooperation with the Post Office Department of the Boston Regional Office and Postmaster Frank Sheridan in an effort to find a suitable site for a new postal facility for our town.

(15) With assistance from the American Medical Association and its Massachusetts branch, the Board continuously sought competent members of the medical profession to establish offices in Maynard in order to more adequately administer to the needs of our people; said inquiries resulting in the establishment of one new doctor's office in our community in 1959.

(16) Issuance of a personal proclamation designating the week of November 8, 1959 as "Decent Literature Week" in order to bring to the attention of our citizens the work being initiated by our state and national governments to eradicate this moral cancer from our midst.

(17) Initiation of a public opinion poll relative to the adoption of a United Fund Drive for Maynard; said poll receiving favorable replies from our clergymen and industrial concerns, a vote in opposition by a veterans' organization, indecisive votes from two other groups, and no answers to our questionnaire from nearly twenty-five social, fraternal, charitable, and benevolent organizations; such a poor response clearly indicating that the Maynard people themselves do not desire such a program; furthermore, these latter groups are comprised of Maynard's leading and influential citizens.

However, in addition to the above matters brought before the Board, there are many problems yet to be resolved. As a minimum goal set for 1960, the Board should attempt to accomplish the following:

(1) Be authorized by the Town to enter into negotiations with owners of private property in the business district to obtain by lease (at a cost of \$1 per lease) additional municipal off-street parking areas in exchange for plowing, lighting, and maintenance privileges (when deemed necessary by the Board); said cost to the Town from parking meter funds to

be approximately \$1,000 - \$1,300 per year (as recommended in part by the Planning Boards of 1951 and 1952).

(2) To investigate the most desirable sites for future additional parking areas if leased lands do not alleviate the parking situation (as recommended by the Planning Board in past Town reports and by the Chamber of Commerce during mutual discussion on this problem in 1959).

(3) To consult with the Planning Board on means to more adequately control and divert increased traffic in the business district; plan to be based on a one-way traffic flow system on Main, Nason and Summer Streets which enclose the central triangular business area as recommended by past Planning Board surveys in view of the narrow roadways in this section of the Town.

(4) To file a bill with the Legislature relative to an "Act to provide unlimited Tenure for James V. King, incumbent of the office of Town Accountant of the Town of Maynard" which, if approved, will be placed upon the ballot of the nearest Town or state election for acceptance by the voters of Maynard.

(5) To have placed on the 1961 Town election ballot a referendum granting life tenure in office to Mrs. Eleanor Jones, Town Clerk, after meeting all of the requirements set forth in Sections 19B and 19C of Chapter 41 of the General Laws relative to a petition by five percent of the voters of Maynard which must be submitted 60 days prior to the election date.

(6) Recommend and support the formation of an active Town Insurance Committee or Board to administer and handle all Town insurance matters; said Board to be comprised of a member from the Board of Selectmen, the Public Works Commissioners, the Fire Commissioners, and the School Committee as well as the Town Clerk, Town Treasurer, Town Accountant, Chief of Police, and all local insurance agents having been granted insurance policies by the Town; said agents to act only in an advisory capacity relative to insurance problems. The primary function of this committee, other than the supervision and administration of all Town insurance programs, is to consolidate our present programs into one in such a way in order to realize some possible savings to the taxpayers. This Board would replace the present system wherein all departments administer their own insurance needs.

(7) To consult with the Planning Board and Public Works Dept. relative to the possible widening of Summer Street from Main to Nason Streets and the widening of the southerly corner of the junction of Summer and Nason Streets.

(8) As Town "fathers," to become more active in and familiar with other Department affairs as time will permit to insure conformity to the law.

The Board of Selectmen commends with pride the Department of Public Works for the completion of the resurfacing program under Chapter 90 of Nason and Main Streets as well as the installation of new lighting facilities on said streets.

Furthermore, the Board wishes to acknowledge the wonderful job done by the Civil Defense Agency in 1959 and wishes to congratulate this organization for its sponsorship of the disaster nursing course conducted in Maynard with participants from Maynard, Stow, Hudson, Harvard and Bolton.

In conclusion, we wish to extend our thanks and appreciation to all employees and all departments for their cooperation and assistance; particularly to Mr. James V. King, Town Accountant.

Respectfully submitted,

JAMES B. FARRELL, Chairman
JOHN S. SOKOLOWSKI
BENJAMIN J. GUDZINOWICZ

JAMES B. FARRELL,
 JOHN S. SOKOLOWSKI,
 BENJAMIN J. GUDZINOWICZ,
 Selectmen.

Report of Dog Officer

Honorable Board of Selectmen:
Maynard, Massachusetts

Gentlemen:

I herewith submit my report as Dog Officer.

During the year I returned fifteen (15) dogs to their owners, and twenty-five (25) were destroyed after 10 days.

At this time I wish to thank the Chief of Police, and his officers for their assistance.

Respectfully submitted,

WALTER DONOHUE,
Dog Officer.

Report of Inspector of Animals

Honorable Board of Selectmen:
Maynard, Massachusetts

Gentlemen:

As Animal Inspector I hereby submit my report.

28 milk cows, 5 heifers between one and two years old, 8 heifers under one year, and 1 horse were inspected. Thirty-five dogs were quarantined on suspicion of rabies, and after 14 days the quarantine was lifted.

The barns were inspected and found to be clean. The cattle were free from barn mange, lockjaw and other contagious diseases.

Respectfully submitted,

WALTER DONOHUE,
Inspector of Animals.

Report of Chief of Police

To the Honorable Board of Selectmen:

I hereby submit my annual report as Chief of Police for the year ending, December 31, 1959. In performance of the duties of this office, I have received the cooperation of this department, the assistance of the Board of Selectmen and of the other Town Officials:

The increased registration of automobiles over previous years and the new industries in Maynard, have caused considerable congestion to our parking in the business section and on streets adjacent to the mill property. As recommended in previous reports, serious consideration should be given to establishing additional parking areas in the business district. During the year, various streets adjacent to the mill were posted for either two hour parking or no parking. The erection of these signs has alleviated the parking problem that existed on these streets.

This Department wishes to acknowledge the assistance and cooperation received from the Maynard Civil Defense Unit, (Auxiliary Police). The performance of their duties at either athletic or special functions has received favorable comment.

The funds approved for the sending of two (2) police officers to the State Police Training School in Framingham was not used, because of the increased classes held this year for State Police only. During the coming year two officers will attend this school and be trained in the new and correct method for police activities.

In conclusion, I wish to express the appreciation and thanks of the Police Department, to the Board of Selectmen and to all other Departments who have been of assistance to the Police Department.

Respectfully submitted,

MICHAEL ZAPARESKI,

Chief of Police.

Report of The Board of Fire Engineers

To the Honorable Board of Selectmen:

The Board of Fire Engineers herewith submit their report of the activities of the Department for the year 1959.

We have had 181 runs for the year, divided as shown in our statistics at the conclusion of the report.

A review of the statistics leads to the following conclusions:

The number of runs has increased, which generally means that the possibility of serious fires is on the increase.

While the number of brush and dump fires is high, they include numerous calls to the Town Dump. In passing it should be said that the improvements made at the Town Dump have reduced our calls there. It is still a situation which requires active study and every effort to eliminate it.

The number of inspections is increasing because of the mill occupancies. Some of the occupants have caused town, state and Maynard Industries, Inc. a great deal of trouble because of the tendency to revert to dirty housekeeping immediately after each inspection. The Fire Department has endeavored to impress on everyone concerned the fact that a major fire in the mills could cause untold losses in life and property. It is a fantastically large place from every point of view. While it is very well sprinklered, an explosion or a failure of the sprinkler system would mean the immediate employment of miles of hose. Our practice in the area indicates that valuable time is wasted in laying this hose, which would give a fire a minimum of 1/2 hour for gaining headway. We have suggested the installation of dry standpipes in various buildings, but so far these have been refused.

We call to the attention of all occupants that rescue by means of ladders will be most limited because of the size and exposure of the buildings. Fire drills have been carried out by some of the occupants and this practice should be encouraged and continued.

We have encouraged the burning of used flammable fluids employed at various plants to remove them from the premises. This has meant that apparatus has been detailed to the Town Dump on 23 occasions this year for this purpose. It is increasingly obvious that flammable fluids are a necessary part of most of the operations in the mill and we have limited its use as much as possible without stopping the production. A satis-

SPECIAL CALLS

2-2-2 All Firemen report to Headquarters

1-1 Test at 12:10 P. M.

2-2-1 Brush Fire Call

1-1 After an alarm indicates fire is out

6 American Legion, Veterans of Foreign Wars or State
Guard Call

7 Boy Scout Call

8 Civil Defense Call

Air Raid Alarm — 28 single blasts

All Clear — Three series of 3 single blasts

3 at 7:15 A. M. or 12 Noon — No school for first six
grades

5 at 7:15 A. M. or 12 Noon — No school all grades

factory solution of this problem is being sought by all parties concerned.

From our investigation of fires of any consequence this year, all were due to carelessness or neglect, either the careless disposal of cigarettes or neglect of stoves or chimneys. It is clearly a matter for the individual citizen to correct, himself.

We have distributed stickers for homes of ill or invalid persons to indicate to the Fire and Police Departments the presence of such persons in dwellings, so that rescue can be more quickly accomplished. Any person who has an aged or invalid person in his home and desires the posting of the stickers should contact either Department and they will be promptly posted.

We have campaigned against Christmas trees in public buildings and halls and will continue to do so. They are highly flammable and a permit to decorate such halls and buildings will be denied. There are numerous non-flammable decorations which are available. While the Christmas tree is an integral part of our Christmas, we all agree that living persons are a better Christmas present than panic and death from Christmas fires.

While it is not obvious from our statistics, the range or space oil heater has caused widespread disaster on a nationwide front. We are opposed to these heaters and if a By-law outlawing them proves legal elsewhere, we will work for such a By-law.

We are happy to learn that a building code is being urged by the Planning Board. It has our whole hearted support and recommendation. We have urged the electrical code and inspection and believe our homes are safer because of them. We believe safety will be increased by the building code.

Our radios have been converted to the required narrow band in accord with Federal requirements.

Our mutual aid arrangement with the Towns of Acton, Concord, Stow and Sudbury has worked well during 1959. We aided others on 4 occasions and they aided us on 2 occasions. It is comforting for those persons responsible for the public safety to know that this aid is available in emergencies on short notice.

Our equipment is tested frequently and is in first class condition except for age. We point out that our aerial ladder is a 1938 Pirsch and has already seen 21 years of service. Combination #3 is a 1934 International and is kept strictly as a reserve piece.

We are continuing our policy of replacing 500 feet of 2½ inch and 500 feet of 1½ inch hose each year.

The resuscitators which were given to the Department have again been successful in 9 cases out of 10. This should be a source of great pleasure to the donors. We are always available for this service. Do not hesitate to call if aid is needed.

Our thanks to all persons and Departments for their help and cooperation during the year.

Respectfully submitted,

PHILIP A. WILSON
HENRY MARIANI
MARTIN GRUBER
Board of Fire Engineers.

Report of the Inspector of Wires

To the Board of Selectmen
Maynard, Massachusetts

The annual report of the Wire Inspector is herewith submitted. During the year 1959 there were 247 permits issued.

The underground cable for electricity on Main and Nason Streets has been completed. All the homes and business establishments on Main Street have been connected to the underground, and the old wooden street light poles have been removed. During the early part of 1960, this work will be completed on Nason Street, and the poles will also be removed.

During the year I have inspected the wiring in various business establishments at the request of the Fire Department and in all instances required that the wiring be brought up to meet the State standards.

Once again may I warn the citizens of Maynard to be careful before connecting any additional electric appliance. Contact your electrician to ascertain if your wiring is adequate.

May I extend my appreciation and thanks to the Board of Selectmen and the Fire Department for the cooperation and assistance received during the year.

EDGAR J. CHRISTIAN,
Wire Inspector.

Report of Civil Defense Agency

The following is the report of the Civil Defense Agency for the period ending December 31, 1959.

Your Maynard Civil Defense Agency has continued to increase its membership and is willingly standing ready to assist in any major catastrophe.

We have purchased a one half ton Chevrolet truck and have had it painted with C. D. colors. This truck will be available for emergency use by your safety units such as Police, Fire and Civil Defense. We still have a request in for a surplus

closed truck to be converted into an emergency vehicle similar to the emergency vehicles used in Concord and Sudbury.

Your Agency has been able to account for over six hundred and fifty man hours worked by all units of Civil Defense. We are sure that this time has been well spent aiding the Town of Maynard and increasing the training of our C. D. units to better aid our citizens in any time of need.

We at the Civil Defense Agency wish to thank the Board of Selectmen, the Police Department and all Town of Maynard officials for their wonderful co-operation during the year 1959.

DONALD A. MACGLASHING,
Director.

Town Clerk's Report

FOR THE YEAR ENDING DECEMBER 31, 1959

Proceedings of Annual Town Meeting

HELD MARCH 2, 1959

The Annual Town Meeting was called to order at 7:30 o'clock by the Moderator, Philip Wilson, who declared a quorum to be present.

On motion of R. Frank Punch it was voted to waive the reading of the Town Warrant No. 474, as a whole.

Rev. Robert K. Jones, Jr., offered prayer.

Raymond Sheridan requested that the Engineer for the Board of Public Works be admitted to the meeting, and as there was no objection from the voters, this request was granted.

Article 1. Arthur J. Brooks reported for the Personnel Board and filed a copy with the Town Clerk.

The Town Clerk made an oral report for the By-law Committee.

Both reports were accepted as reports of progress.

Article 2. No vacancies in Town offices to be filled.

Article 3. On motion of Leonard E. Boyko, John	100.00	Salenius, Elmer	100.00
Carey, Alfred S.	100.00	Stockwell, William	200.00
Creighton, Fred	50.00	Tarmalehto, Aniti	25.00
Felos, Klim	100.00	Vielichka, Peter	200.00
Hebden, William J.	200.00	White, Louia	100.00
Kangas, Andrew W.	100.00	Wilgren, Wilma	100.00
Mikkola, Olga	100.00		

Article 11. On motion of John S. Sokolowski: Voted, unanimously, to authorize the Board of Selectmen to sell lots numbered 5-A, 5-B, 67-A and other land of the Town remaining adjacent to lots which front on Great Road, this shall not include Lots A, B, nor land reserved for Ways, all being shown on a Plan filed with the Office of the Town Clerk.

Article 12. On motion of John S. Sokolowski: Voted, unanimously, to appropriate the sum of \$2,000.00 to have the title of the land known as "McNamara and Coughlin" property off Great Road, Maynard, corrected of any defects in the title and to authorize the Board of Selectmen to sell said land.

Article 13. On motion of Raymond Sheridan: Voted that the sum of \$1,000.00 be appropriated from the Excess and Deficiency Account for the Town's share of Chapter 90 Maintenance; also that the sum of \$2,000.00 be transferred from the Excess and Deficiency Account to meet the State's and County's share of the cost of this work. The reimbursement from the State and County to be restored, upon their receipt to the Excess and Deficiency Account.

Article 14. On motion of Raymond Sheridan: Voted, unanimously, to appropriate the sum of \$16,000.00 to the Board of Public Works for Chapter 90 Construction on Waltham, Main and Nason Streets. The Town's share of \$4,000.00 to be appropriated from the Excess and Deficiency Account and the State's and County's share of \$12,000.00 to be borrowed under Chapter 44, Section 6-A of the General Laws.

Article 15. On motion of Raymond Sheridan: Voted to appropriate the sum of \$2,100.00 to the Board of Public Works for the purpose of spraying for mosquito control.

Article 16. On motion of Gerald J. Nee: Voted, unanimously, to accept about 200 feet of Second Street from Waltham Street, as a public way according to a plan filed at the office of the Town Clerk and approved by the Board of Public Works, provided that all work performed relative to the acceptance of the street be done in accordance with the provisions of Chapter 80 of the General Laws.

Article 17. On motion of Gerald J. Nee: Voted to appropriate the sum of \$1,000.00 for the construction of about 200 feet of Second Street starting at Waltham Street. This work

shall be done in accordance with the provisions of Chapter 80 of the General Laws.

Article 18. On motion of Raymond Sheridan; as amended by Leo F. Mullin: Voted 163 in favor to 53 opposed, to authorize the Board of Public Works to purchase a four cubic yard street sweeper and to transfer the sum of \$5,000.00 from the Stabilization Fund and appropriate the sum of \$8,700.00 for this purpose. And to further authorize the Board of Public Works to trade in the present 1941 sweeper in conjunction with this transaction.

The counters for the vote on the above article were, Martha L. Champagne, Margaret J. McCormack, Phyllis P. Savikoski and Helen V. MacDonald, who were sworn by the Town Clerk.

Article 19. On advice of the Town Counsel the Moderator ruled that no action could be taken under this article.

(re Water Refunds on Private Ways)

Article 20. On motion of Raymond Sheridan: Voted to appropriate the sum of \$6,000.00 for the purpose of paving and surfacing of streets and to authorize the Board of Public Works to do the work.

Article 21. On motion of Gerald J. Nee: Voted to allow the Public Works Commissioners to dispose of by bids the following obsolete pieces of equipment. No. 1 — 1940 Conant Loader, No. 2 — 1933 Cement Mixer ($\frac{1}{2}$ bag), No. 3 — two 1936 Birch Sand Spreaders, No. 4 — one tar kettle, year unknown. And to further authorize the Public Works Commissioners to sell or otherwise dispose of scrap metal and other junk at the Winter Street and Great Road Yards.

Article 22. On motion of Gerald J. Nee: Voted to authorize the Board of Public Works to purchase two (2) snow plows and to transfer the sum of \$2,000.00 from the Water Surplus for this purpose.

Article 23. On motion of Raymond Sheridan: Voted, unanimously, to authorize the Board of Public Works to lease the property of Leo P. Boeske and Grace P. Boeske, off Waltham Street, for use as a public dump, and to appropriate the sum of \$1,800.00 for this purpose.

Article 24. On motion of Raymond Sheridan as amended by Leonard E. Rae: Voted to appoint and authorize a com-

mittee of five (5) persons to investigate, study and report to the Town, as soon as possible, but not later than the next Annual Town Meeting, its findings and recommendations of and concerning the Town of Maynard changing the present Type of Rubbish Disposal from an open face dump to a Sanitary Land Fill type dump or to a Rubbish Disposal by Incinerator, within the Town or otherwise; and to prepare an article or articles pertaining to rubbish disposal as it may deem advisable to be presented to the Town for its consideration, as soon as possible, but not later than the next Annual Town Meeting; said committee to be comprised of one member of and designated by each of the following Town boards: The Board of Public Works, The Planning Board, The Finance Committee, the School Committee and the Board of Health.

Article 25. On motion of Raymond Sheridan: Voted to pass over this article for technical failure on the part of the abutters.

(re acceptance of Maybury and Little Roads)

Article 26. On motion of Gerald J. Nee: Voted to authorize the Board of Public Works to extend the present 15 inch storm drain on Fairfield Street for a distance of about 300 feet to Parker Street with one manhole. And to appropriate the sum of \$1,500.00 for this purpose from the Water Surplus Fund.

Article 27. On motion of Howard L. King: Voted, unanimously, to authorize the Town Treasurer and Collector, with the approval of the Selectmen to borrow money from time to time in anticipation of revenue of the financial year beginning January 1, 1959, and to issue a note or notes therefor, payable within one year and to renew any note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 4, Chapter 44 of the General Laws.

Article 28. On motion of Howard L. King: Voted to appropriate the sum of \$525.00 for payment of part of the premiums of group life insurance for permanent Town employees, in accordance with Chapter 239 of the Acts of 1952. The amount of said insurance to be limited to \$1,000.00.

Article 29. On motion of Virginia N. Robinson: Voted to appropriate the sum of \$200.00 for the general maintenance of the Wilson School Site.

Article 30. On motion of Virginia N. Robinson: Voted to appropriate the sum of \$500.00 for reconditioning the playground area at the rear of the Wilson School site.

Article 31. On motion of F. Frank Punch: Voted to lay this article on the table.

(re transferring certain town owned land to the School Committee)

Article 32. On motion of Virginia N. Robinson as amended by Joseph E. Boothroyd: Voted that a Maynard High School Needs Committee be established as follows: the three members of the School Committee, one teacher from the faculty of Maynard High School, one member of the Board of Selectmen, one member of the Finance Committee, one member of the Planning Board, one member of the Parent-Teachers Association and one member of the Chamber of Commerce; the latter six members to be selected by their respective organization, and three members to be appointed by the Moderator. The functions of this committee shall be to determine whether or not a secondary school program suited to the needs of the youth of Maynard can be adequately housed in the present Maynard High School plant and to report its findings and to make recommendations if the present plant is not adequate, at a future Town Meeting. The committee shall organize on or before April 15, 1959. The Chairman of the School Committee shall call the first meeting and shall preside until such time as the Committee shall elect a Chairman.

Article 33. The Moderator ruled that no action be taken under this article.

(re expenses of Regional School District Planning Committee)

Article 34. On motion of Gerald J. Nee: Voted to authorize the Board of Public Works to replace the present 4-inch, 2-inch and 1½-inch mains on Glendale Street, with about 1900 feet of 8-inch A.C. Pipe, and a cross connection on Lewis Street to Prospect Street for a distance of about 285 feet with 8-inch A.C. Pipe, and on Summer Hill Road to replace the 2-inch main with about 215 feet of 12-inch A.C. Pipe with the necessary hydrants, valves and fittings, and to appropriate the amount of \$15,700.00 for this purpose; \$3,000.00 to be taken from the Water Surplus Fund and the remainder of \$12,700.00 from taxation.

Article 35. On motion of Raymond Sheridan: Voted, unanimously, to authorize the Board of Public Works to con-

tinue with the search for a new water supply and to further authorize the Board of Public Works to acquire options for or title to land necessary for a well site and to appropriate the sum of \$10,000.00 for this purpose.

Article 36. On motion of John S. Sokolowski: Voted, unanimously, to authorize the Board of Selectmen to sell Boston Edison Company and New England Telephone and Telegraph Company for one dollar, seven (7) poles with the cross-arms, wires, fixtures, guy wires and anchors attached thereto constituting a line for transmission of electricity and transmission of intelligence by electricity, over and across the property of the Town located on the southeasterly end of Pine Hill Road, and to execute in the name and behalf of the Town an appropriate bill of sale conveying said property to said companies, and such instruments as they may deem proper, granting the companies authority to maintain and use said line.

Article 37. On motion of Leonard E. Rae: Voted to amend Chapter VII, Section 1 of the By-Laws by adding the sentence at the conclusion of Section 1 "Said printed list shall be distributed free of charge to all departments in the Town, but the Assessors shall determine and collect for the benefit of the Town a reasonable charge for all other copies thereof."

Article 38. On motion of Leonard E. Rae: Voted to amend Chapter VI of the By-Laws by adding another paragraph as follows:

"Section 8 — The Board of Registrars of Voters shall delegate the Town Clerk as the sole distributor of the annual listings prepared by them in accordance with the General Laws. They shall determine what shall be a reasonable charge for said listing and the Town Clerk shall collect said charge for each listing distributed, except those that are distributed to Town Departments or officers and those specifically exempt by law from charges.

Article 39. On motion of Leonard E. Rae: Voted to amend Chapter II, Section 3 of the By-Laws by adding the words "in all articles involving the expenditure or appropriation of money; and may in all other articles" after the word "shall" in the first sentence thereof so that said sentence shall read:

It shall be the duty of this committee to consider all articles of any warrant for any town meeting hereafter issued and

the committee shall in all articles involving the expenditure or appropriation of money, and may in all other articles, after due consideration of the subject matter in such articles, report thereon, in print or otherwise, such information and recommendations, as it shall deem best.

Article 40. On motion of Leonard E. Rae: Voted to appropriate the sum of \$5,000.00 from the Excess and Deficiency Fund, to the Stabilization Fund, as authorized by Chapter 124 of the Acts of 1945. Such Stabilization Fund to be used for capital outlay only.

On motion of R. Frank Punch it was voted to adjourn.
Time 10:05 P. M.

Attest:

ELEANOR JONES,
Town Clerk.

Boston, Mass., April 8, 1959

The foregoing amendments to by-laws are hereby approved.

E. J. McCORMACK, JR.,
Attorney General.

Town Clerk.

Proceedings of Annual Town Election

HELD MARCH 9, 1959

On the above date the Annual Town Election was held in the Maynard Memorial Gymnasium, in accordance with Town Warrant No. 475.

Prior to opening the polls, the ballot boxes were checked by the Moderator and Town Clerk. They were found to be empty, the registers were set at zero and they were locked and the keys were held by the officers in charge of them.

The following Election Officers were sworn by the Town Clerk: Martha L. Champagne, Margaret J. McCormack, Ruthmary Armour, Pauline E. Foley, Helen V. MacDonald, Ann T. MacGlashing, Irma Sarvela, Phyllis P. Savikoski, James J. Ryan, Herbert R. Usher, James J. Tobin and William G. Weir.

At eight o'clock A. M. the meeting was called to order by Moderator Philip Wilson, and on motion of James V. King it was voted to waive the reading of the warrant. The polls were then declared open.

The following Election Officers (counters and tabulators) were sworn by the Town Clerk: Agnes V. Rizpo, Eva H. Evers, Jeannette I. Robblee, Margaret M. Boothroyd, Grace E. French, Margaret I. Fardy, Dorothy E. Hamlin, Catherine Lyons, Jessie B. Crowe, Lillian J. Alton, Rachel Lester, Evelyn Darcy, Mabel A. Bemis, Gertrude Duggan, M. Mabel Holly, Mary F. Sharpe, Myrtle Whitney and Doris A. Lowney.

Authorization having been given to open the ballot boxes before the close of the polls for counting, ballots were removed and counting began at 2 o'clock P. M.

At Eight o'clock P. M. the Moderator declared the polls closed.

Number of Voters checked in Area 1	1,197
Number of Voters checked in Area 2	1,078

2,275

Total number of ballots counted and tabulated	2,275
---	-------

Number on Register of ballot box in Area 1	1,197
Number on Register of ballot box in Area 2	1,077

(In freeing ballots caught in rollers in Box in Area 2, one ballot did not register)

The result was announced at 9:02 P. M. as follows:

Attest:

ELEANOR JONES,
Town Clerk.
March 10, 1959

In accordance with the provisions of Chapter 41, Section 19 of the General Laws of Massachusetts, I hereby appoint James V. King of Maynard to be Assistant Town Clerk during the current municipal year or until this appointment is revoked.

ELEANOR JONES,
Town Clerk of Maynard.

I, James V. King, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

JAMES V. KING.

Subscribed and sworn to this tenth day of March, 1959, before me,

ELEANOR JONES,
Town Clerk.

A true copy,

Attest:

ELEANOR JONES,
Town Clerk.

IMPORTANT REQUEST

Please notify the Town Clerk immediately of any error or omission in the following List of Births.

Errors not reported at once can be corrected only by sworn affidavit, as prescribed by the General Laws, and may cause you inconvenience which can be avoided by prompt attention.

All dog licenses here listed expire
March 31, 1960.

Dogs must be licensed on or before
April 1st or the owners or keepers
thereof are liable to a fine.

The law applies to all dogs three
months old or over, regardless of
time of year ownership is acquired.

No tax bills are sent to owners
of dogs.

Assessors' Report

To the Board of Selectmen
Gentlemen:

The Annual Report for the Board of Assessors for the year ending December 31, 1959, is submitted herewith:

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property shall, each year, on or before the 31st of January, submit to the local Assessors a list with the valuation of their taxable property. Notices are posted, and forms may be obtained at the Assessors' office in the Municipal Building.

All male inhabitants who are 65 years of age and over, and who wish to be exempted from payment of a poll tax, must make a request in writing on a form furnished at the office of the Assessors.

All requests for abatement or exemption of taxes must be filed on forms which can be obtained at the Assessors' office. All applications for abatement or exemption of Personal Property Taxes or Real Estate Taxes must be filed on or before October 1st of each year.

Town Accountant's Report

To the Honorable Board of Selectmen:

Herewith is presented the report of the Accounting Department for the year ending December 31, 1959. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1959. The total cash balance December 31, 1959 was \$294,652.73.

In accordance with provisions of Section 23, Chapter 59, General Laws, as amended, the amount of available funds or "free cash" as of December 31, 1959 is \$139,547.31.

The courtesy and co-operation received from the various Town boards, officials and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING,
Town Accountant.

Report of the Finance Committee

To the Citizens of the Town of Maynard:

During the year the Finance Committee held nineteen meetings.

Transfers from the Reserve Fund during the year 1959 have been made by the Finance Committee totaling \$8,285.19.

All departments are reminded that requests must be made and transfer voted before any expenditure in excess of appropriation is incurred.

Following last year's Town Meeting the Moderator re-appointed Mr. J. Francis Cleary, and appointed Mr. Robert R. Billups and Mr. Patrick J. Donovan.

J. FRANCIS CLEARY, Chairman
 INGRID A. MARTIN, Secretary
 ANTHONY R. CIRASO
 JOHN H. MACDONALD
 WALTER J. ZANCEWICZ
 WILLIAM NAYLOR
 HAROLD W. JOHNSTON
 ROBERT R. BILLUPS
 PATRICK J. DONOVAN

	Total	<u>\$8,285.19</u>
	Unexpended Balance	\$1,714.81

Report of the Personnel Board

During the year 1959 the Personnel Board met eighteen times for the purpose of adjusting personnel matters. The members also met with interested town departments, boards, and committees at their convenience.

Chairman James Wheeler's term expired and the vacancy was filled by Albert Rogers, who was appointed by the Moderator for a five-year term.

At the first meeting of the new board Arthur Brooks was elected Chairman, and Robert Lalli was appointed the Recorder.

To insure strict adherence to the Salary Administration Plan, a review was made of all town employees in regard to their job classification writeup. Violations of this requirement were noted and reported to responsible personnel.

A policy was formulated by the board where by the rise and fall of the Consumers Cost of Living Index would have a direct bearing on the wages and salaries of the town employees.

The board wishes to thank the town employees, and the department heads for their cooperation.

As of 1 January, 1960, the following are members of the Personnel Board.

Arthur Brooks	term expires	March 1960
Robert Lalli	term expires	March 1961
John Tombeno	term expires	March 1962
Frank Waldron	term expires	March 1963
Albert Rogers	term expires	March 1964

Respectfully submitted,

ROBERT L. LALLI,
Recorder.

Report of the Board of Registrars of Voters

To the Board of Selectmen
Maynard, Massachusetts
Gentlemen:

As usual the first business of the New Year for the Board of Registrars was the Annual Listing of Residents, twenty years of age and over, and listing of Dog owners. We find that a great deal of work on the listing must be done at night as in many houses no one is at home during the day. If the weather is bad in the first two weeks of January the listing is slowed up but so far we feel the work has been satisfactory.

Prior to the Town Election in March, several meetings for the registration of voters were held. The voting list was corrected and new lists were printed for the election.

The 1959 Annual Register of Voters contained a total of 3,769 names: 1,868 Men and 1,901 Women — 896 enrolled Democrats and 813 enrolled Republicans — 2,060 unenrolled voters.

Respectfully submitted,
ALEXANDER J. BOURKE, Chairman
REGINALD JONES
EDWARD E. PUFFER
ELEANOR JONES

Report of the School Building Committee

January 1, 1959 to December 31, 1959

SCHOOL BUILDING COMMITTEE

Irving H. Manning, <i>Chairman</i>	Irene G. Wood, <i>Secretary</i>
Walter Carbone, Constructional Advisor	
Helen C. Gately	Virginia N. Robinson
William H. Larson	John S. Sokolowski
Noble E. Loomer	Florence M. Wilder
Anthony Palmaccio	Albert Lerer, <i>Advisor</i>
Frank Punch	Leonard Rae, <i>Counsel</i>

To the Board of Selectmen
Maynard, Massachusetts

Gentlemen:

Mr. Irving Manning, Chairman of the School Building Committee, and Mr. Albert Lerer, Superintendent of Schools and Advisor to the School Building Committee, held several meetings with the various contractors and with Mr. Smith, architect representing the Hugh Stubbins Associates Architects, during the year regarding the Green Meadow School. The purpose of these meetings was to inspect the leaking roof, unsatisfactory locks, the boiler room pump, and the shrubbery.

The All - Purpose Room roof has been replaced and recently the flat roof adjoining the All - Purpose Room has been made leakproof by the Ned Nobilini and Sons Inc. of Framingham. The shrubbery that did not survive has been replaced by N. F. Brisson Inc. of Lincoln. Locks have been adjusted by Worsley Fardy of Maynard.

A few small items remain to be adjusted.

Expenditures for the year 1959 were as follows:

May 25, 1959

Worsley Fardy — Adjustment of locks	\$41.25
---	---------

June 22, 1959

Samuels Studio — Photostatic copies of work agreements	9.00
--	------

July 27, 1959

N. F. Brisson — Planting shrubs	300.00
---------------------------------------	--------

July 27, 1959

Ned Nobilini and Sons — 6 galvanized troughs	30.00
--	-------

TOTAL	<u>380.25</u>
-------------	---------------

Respectfully submitted,

IRENE G. WOOD,
Secretary.

Report of The Board of Public Works

To the Citizens of Maynard:

The annual report of the Board of Public Works for the year ending December 31, 1959, is herewith submitted.

It is important to this Board that every resident of the Town has a feeling he is being represented fairly. With this in mind we have endeavored to perform our duties for the general good of the Town.

This Board feels that it should seek to employ a registered professional engineer who is educated and technically trained in Public Works. He could render valuable assistance to all Depts. especially the Planning Board.

Our continued search for an underground water supply is now in the hands of the General Court and the Town of Stow. We have petitioned the Legislature for permission to go into the Town of Stow and continue our search.

An engineering study was made of our White Pond supply by Whitman & Howard and the report of their findings was submitted to the Board. This report was primarily concerned with obtaining more water from the pond. We are sponsoring an Article for this purpose at the Annual Town Meeting.

A contract was awarded for Chapter 90 — Construction on Main and Nason Streets to the Chesterbrooke Construction Co. of Arlington, Mass. This contract has been completed; 75 percent of the cost was borne by the State and County.

In cooperation with the Sanitary Land Fill Committee we did some leveling and grading to our leased dump. We also hired an exterminating contractor who sprayed the dump with rat bait. Both of these operations have been successful in making the site more presentable to this particular part of the community.

The Board wishes to thank the employees of the Department and the elected and appointed officials for their cooperation.

Respectfully submitted,

JOHN J. TOBIN,
RAYMOND J. SHERIDAN,
MICHAEL BARILONE,
Board of Public Works.

Report of the Superintendent of Public Works

TO THE BOARD OF PUBLIC WORKS
Gentlemen:

I submit herewith the annual report of the Public Works Department ending December 31, 1959, covering Highways and Bridges, Water, Sewer, Cemetery, Parks, Trees, Insects, Parking Areas and the Public Dump.

Highway Division

The following Streets were treated with oil: Concord, Thompson, Dartmouth, Chandler, Elmwood, East, West, Percival, High, Sherman, Winter, Glendale, Railroad, Prospect, and Deane Street. The following Avenues were also treated with oil: Taft, O'Moore, Driscoll, Butler, Espie, Parmenter, Sheridan and Newton Drive. Summer Hill Road for a distance of 1,000 feet and Crane Avenue for a distance of about 400 feet, were also given a penetration and seal coat of oil.

Under Chapter 90 — Maintenance a mix in place was applied to 2,000 feet of Main Street from the railroad crossing to Mill Street.

Oiled stone was applied to Walnut Street.

Due to the traffic congestion on the following Streets, "Restricted" and "No Parking" signs were installed: Walnut, Hillside, Dartmouth, Park, Elmwood, Fairfield, Chandler, Railroad, Bancroft and Florida Road. In addition two hour parking signs were installed in the parking area off Summer, Main and Nason Streets. However this is not the answer to the parking problem in Maynard. There should be more off street parking areas built for the people who work and shop in Maynard.

Under the sidewalk program fifty two blocks of concrete sidewalk were either replaced or lowered, most of this damage was caused by the roots of trees. In addition 200 feet of concrete sidewalk was replaced on Concord Street from Brooks Street to Lincoln.

Under the Betterment Act, whereby the abutters pay one half the cost, new bituminous sidewalks were built in front of the homes of William Tobin of 25 Thompson Street, Vincent Crotty of 49 Sudbury Street and Mildred Duggan of 1 Park Street. The total amount of these sidewalks is 462 feet.

Drainage was installed in Fairfield Street totaling 275 feet of 15 inch R.C. pipe and 50 feet of 12 inch R.C. pipe, in

addition two manholes were built. On O'Moore Avenue one leaching basin with nine feet of 12 inch R.C. pipe was installed and on Espie Avenue two leaching basins were built. These basins have relieved the drainage problem in these areas.

Due to the high water level of the Assabet River, I deferred the installation of the drain pipe from Powder Mill Road. However a manhole was built and the culvert cleaned underneath Powder Mill Road and this has temporarily corrected the drainage problem in that area.

In addition the every day maintenance of streets and walks was maintained. The new street sweeper has been in use since its purchase in April and has made the job of keeping the streets clean, much easier.

With the ever increasing traffic in and out of Maynard the cost of plowing, sanding and removal of snow increases. The cost of these operations for the year 1959 was \$12,932.72. This figure includes extra help and over time, repairs and supplies for equipment, hired trucks for plowing and removal of snow, salt and sand.

Water and Sewer Division

I will not go into the question of the need for water as you have covered this in your report.

The Department has had a lot of trouble at the Sewer Station on Powder Mill Road as the 350 gallon per minute pump is thirty years old this is to be expected, and an article is being inserted on the Warrant to replace it with a new 650 gallon per minute pump.

This year seven new hydrants were installed on Main and Nason Streets, also all of the services were relayed to the curb boxes. This work was performed in conjunction with the rebuilding of Main and Nason Streets under Chapter 90 — Construction.

About 2,000 feet of four and two inch water main was replaced with eight inch pipe on Glendale and Prospect Streets, also four new hydrants were installed. On Summer Hill Road 150 feet of 12 inch water main and 1,030 feet of eight inch plus two hydrants were installed. All of the house services were changed over to the new line on Glendale Street and the old line was discontinued.

New services were laid to twenty-one new homes, twenty-eight old services were relayed and thirteen breaks were repaired in water services to various buildings. In addition three breaks on main water lines were repaired.

The total amount of water pumped from White Pond for the past year was 223,520,000 gallons. The daily average was 612,383 gallons or an increase of 36,329 gallons per day. This daily average might well have been more than double had the months of June through September been normal months in respect to rainfall. The following table shows the monthly use of water for the years 1958 and 1959.

<i>1958</i>		<i>1959</i>	
January	15,310,000 gals.	January	16,995,000 gals.
February	16,115,000 gals.	February	14,755,000 gals.
March	14,473,750 gals.	March	16,340,000 gals.
April	16,060,000 gals.	April	16,290,000 gals.
May	18,417,000 gals.	May	20,075,000 gals.
June	20,028,000 gals.	June	19,044,000 gals.
July	20,222,000 gals.	July	19,825,000 gals.
August	19,843,000 gals.	August	22,394,000 gals.
September ..	18,062,000 gals.	September ..	21,002,000 gals.
October	18,450,000 gals.	October	20,540,000 gals.
November ..	16,974,000 gals.	November ..	17,970,000 gals.
December ..	16,305,000 gals.	December ..	18,290,000 gals.

There was only one sewer extension and that was on Crane Avenue for a distance of 320 feet. Sewer house services were laid to twenty-five homes, and forty-four sewer blocks were freed in various house services. In addition twelve main sewer blocks were taken care of. Most of these blocks occurred because of roots growing inside of the sewer pipe.

Cemetery, Trees and Parks

Grass was mowed and the shrubbery trimmed when needed in the Cemetery and Parks. Foundations were built and markers set on graves when requested.

A section of four grave lots in the new Cemetery was changed over to a two grave lot section. This was done to take care of the demand for couples that had need of only two graves.

All trees were sprayed and early in the Spring samples for Dutch Elm Disease were taken and the trees found infected were removed. Aerial spraying for mosquito control was done in three stages, this kept the nuisance of mosquitos somewhat under control.

In closing I wish to thank all members of the Department for their cooperation and Jimmy King for his invaluable advice at all times.

Very truly yours,

GERALD J. NEE,
Public Works Superintendent.

The Board of Public Welfare

The Board of Public Welfare and Bureau of Old Age Assistance submits herewith their annual report.

The Board meets every Tuesday evening during the year with the Director, Mrs. Barbara P. Hayward, attending the meetings.

Financial aid and service has been given to the aged, handicapped and indigent.

The number of General Relief cases has remained fairly stationary, however, there has been a marked increase in the Old Age and Aid to Dependent Children categories. This increase in Old Age Assistance is due to the increased longevity of a person today due to scientific and medical advancements. This is a nationwide situation and Government statistics indicate that this trend will continue at an ever-increasing pace in the future.

Another contributing factor toward the increase of cases in specific categories is the population increase which the Town is currently undergoing.

The Welfare Department has incurred a considerable expense during the past year in transporting welfare recipients out of town, for medical consultation and treatment, due to the lack of adequate facilities in Maynard.

The Welfare Department operates under the rules and regulations of the State Legislature and State Regulatory Agencies. Frequent legislation necessitates changes in financial and administrative operation at the local level, especially in years such as this, an election year.

Our sincere thanks to our Welfare Director, Mrs. Barbara P. Hayward and to our Clerk-Typist, Mrs. Lorraine Whitney, for their untiring efforts in behalf of our Welfare Department during the past year and to the Officers and Personnel of the Town, who have rendered aid to this department.

CASE SUMMARY

Category of Assistance:	Cases 1/1/59:	Cases Added:	Cases Closed:	Cases 12/31/59:
Old Age Assistance	101	21	13	109
Aid to Dependent Children	11	7	5	13
Disability Assistance	5	4	2	7
General Relief	20	30	32	18

The financial report will be found in the report of the Town Accountant.

Respectfully submitted,

ALFRED S. CAREY, JR., Chairman,
 FREDERICK CAPONE, Clerk,
 ALAN F. PALMER,
 Board of Public Welfare.

Report of the Library Trustees

The Board of Trustees are most grateful for the books given in memory of Mrs. Jacob Seder and Mrs. George Merrick by the Maynard Woman's Club. Miss Mary Hodgess has presented the Library The Youth's Companion for the year 1884 bound in book form, reading this will take you back to the "good old days," also the many other gifts of books and magazines. These gifts help us to have more books of the type that we feel cannot be purchased with our limited budget.

We strive to keep the latest reference books of all kinds, covering all school age groups, to assist them in their various school projects. The most recent addition to our shelves are, The Lincoln Library of Essential Information, Encyclopedias of Mythology and Astronomy. For the elementary age there is a Children's Encyclopedia, American History, American Folk Tales and Legends.

Outside of the current fiction, non-fiction, books for children and the teen-agers, we have some outstanding books such as, Nature by Donald Culross Peattie, Golden Anniversary of Scouting, Massachusetts Municipal Law and Practice, newest edition of Etiquette by Amy Vanderbilt, A Natural History of New York by John Kieran, a fascinating book telling of the wild life discovered around New York.

The Board regrets that due to reaching retirement age, Mrs. Inez Lester had to retire April 30th. Mrs. Lester has been associated with the Library since 1928 and has been a faithful and devoted worker. Her many friends along with the Board were sorry to see her leave. The Board of Trustees and Miss Morgan presented Mrs. Lester with a plant stand as a token of their appreciation of her cooperation throughout the years.

Mrs. Alice Lyons, a life long resident of Maynard, was appointed to fill the vacancy and we are pleased to have her with us.

During the past five years we note there is a definite increase in the circulation of books; 1954 circulation was 26,529; 1959 was 27,381. In this era of TV and the turmoil of our way of living it is nice to know that people still enjoy the relaxation reading can give.

The Trustees endorse the report of the Librarian and our thanks to Miss Morgan and Mrs. Lyons for their cooperation.

Respectfully submitted,

WILLIS I. LESTER, Chairman
EDITH H. CARBONE, Secretary
R. FRANK PUNCH

REPORT OF THE LIBRARIAN

We are indebted to the following Libraries for the loan of books: The Division of Public Libraries, Brookline, Concord, Watertown and Newton.

The following people and Organizations have donated books or magazines to the Library, for which we express our thanks.

The American Legion
 The Maynard Rotary Club
 The Maynard Woman's Club
 St. John's Evangelical Lutheran Church
 Mrs. Walter Carbone
 Mr. Joseph Nicilas
 Miss Mary Hodgess
 Mrs. Benjamin Gruber

We would like to thank Mrs. Walter Carbone for the beautiful flower arrangements which she has provided, for the Library, all through the year, they are appreciated and admired by all.

Statistical report is as follows:

Books in the Library, January 1, 1960	15,193
Lost books	20
Discarded	230
Borrowed	140
Bound	14
Purchased	340
Magazines	38
Weekly papers	2
Daily papers	1
Fines collected	\$166.03
Sale of old books	9.00
Circulation	27,381

Respectfully submitted,

OLIVE MORGAN,
 Librarian.

Report of the Board of Health

The Board of Health submits its report for the year ending December 31, 1959.

The Board organized in March as follows:

Chairman	John J. Johnston
Secretary	Irving H. Manning and Frank C. Lituri, M.D.

The following appointments were made:

Board of Health Nurse	Mary A. Ward, R.N.
Assistant Nurse	Martha D. Champagne, R.N.
Inspector of Plumbing	William F. Osbeck
Assistant Inspector of Plumbing	Waino K. Pekkala
Inspector of Milk	Robert W. Rimbach
Inspector of Slaughtering	Vito A. Carbone
Burier of Animals	Rinaldo Mariani
School Dentist	Dr. Samuel Garland

The Board voted to hold regular meetings at the Board of Health Office on the 2nd and 4th Tuesdays of each month at 8 P. M.

NURSES' REPORT FOR THE YEAR 1959

Number of patients visited	526
Association visits	4,097
Free nursing visits	456

COMMUNICABLE DISEASES REPORTED IN 1959

Chicken Pox	26
Mumps	12
Measles	18
Tuberculosis	4

SMALLPOX CLINIC

Smallpox Clinic was held on May 6th at the Board of Health office. 12 pre-School children were vaccinated by Dr. Lituri, Mary Ward, R.N. assisting.

DIPHThERIA CLINIC

Diphtheria Clinic was held on November 18. Seventy-eight first graders were given booster inoculations against diphtheria and tetanus. Dr. Frank C. Lituri was assisted by Mary Ward, R.N. and Dorothy G. Holt, R.N.

TUBERCULIN TESTING PROGRAM

A tuberculin testing program was initiated in cooperation with the School Department. A total of 1,161 pupils were tested at the various schools with only 4 positive reactors on April 30 and 31. Dr. Lituri and Dr. Hooper in charge were assisted by Dr. N. B. Gorkora from the Rutland State Sanatorium. Assisting were nurses, Mary Ward, Dorothy Holt, Myrna Palmer, and Rita Capone.

POLIO PROGRAM

In response to an appeal from the state health authorities, the physicians of Maynard initiated a polio inoculation program in co-operation with the Maynard Board of Health. A Polio Clinic Committee was formed. Co-Chairmen Dr. S. M. Cremer and Dr. Frank C. Lituri. On June 2 and July 22 clinics were held at the George Washington Auditorium. Dr. Hooper assisted at the first clinic and Drs. Cremer, Lituri and Rosemark assisted at both clinics. We express our thanks to Miss Anne Pasakarnis and her class for designing the polio posters, to the assisting nurses at the first clinic, Martha Champagne, Myrna Palmer, and Marion Tomy, to the nurses assisting at both clinics, Mary Ward, Dorothy Holt, Pauline Salmi, to the volunteer clerks, Lorraine Whitney, Marcella Dintino, Pamela Farrell, Robert Merriam, Mrs. Herbert Merriam, Mrs. Harold Lyons, and Lynda Palmer.

A total of approximately 800 persons received inoculations at both clinics.

MILK INSPECTIONS

Milk inspections were held regularly through the year and all reports of both the milk and dairy inspections were very satisfactory.

PLUMBING INSPECTIONS

Inspector issued 146 plumbing permits and 14 cesspool permits during the year.

DOG CLINIC

The board conducted its largest Rabies Inoculations Clinic in its history, almost 500 dogs being inoculated by Dr. Vance Carlson, veterinarian in charge, assisted by Walter Donahue.

IRVING H. MANNING, Secretary,
FRANK C. LITURI, M.D.,
Maynard Board of Health.

Report of Maynard High School Needs Committee

To the Board of Selectmen
Maynard, Massachusetts

The Maynard High School Needs Committee, formed in accordance with the vote of the citizens at the Annual Town Meeting of March 2, 1959, the functions of which are "to determine whether or not a secondary school program suited to the needs of the youth of Maynard can be adequately housed in the present Maynard High School plant and to report its findings and to make recommendations if the plant is not adequate," herewith presents a report of progress of its findings and recommendations.

The committee has held a total of twelve meetings to date. Of these, nine were general meetings, during one of which an inspection and survey of the present Junior and Senior High School plants were made; two consisted of meetings with a representative of the Massachusetts School Building Assistance Commission at 88 Broad Street, Boston; and one consisted of a visit to the new Westborough High School. In addition, a representative of the Massachusetts School Building Assistance Commission visited Maynard to conduct a survey of the school plants on Summer Street. On our visits with the Massachusetts School Building Assistance Commission, we found that it was rather adequately informed regarding the Maynard School system having on file a wealth of material gathered in connection with the building of the Green Meadow School and the Maynard Memorial Gymnasium.

The committee discussed at length the possibility of recommending a professional survey, but concluded that it could itself conduct an adequate investigation with the aid of the Massachusetts School Building Assistance Commission. At its initial meeting, it invited Mr. Albert Lerer, Superintendent of Schools, to serve with the committee in an advisory capacity.

Our study of the adequacy of the present Maynard High School plant was made in the light of (1) the educational programs adopted by the Maynard School Committee to provide an adequate up-to-date Junior and Senior High education for the youth of Maynard and (2) the projected enrollments of the Junior and Senior High Schools as of 1969 - 1970.

The programs adopted by the School Committee were drawn up on forms provided by the Massachusetts School Building

Assistance Commission. In addition, the Commission suggested that the School Committee might well include in its program for the Senior High School an electronics and/or an advanced science class over and above the program it has adopted.

The projected enrollment of the Senior High School for 1969 - 1970 made by the Maynard School Department (based on birth rate records) and the Massachusetts School Building Assistance Commission (based on past records) is in the vicinity of 550 students. This projection, however, does not take into consideration either proposed or possible housing developments in the town. Therefore the committee felt that a projection of approximately 600 was a more realistic figure. For the same reason, a projected enrollment of approximately 300 was established for the Junior High School for 1969 - 1970.

The estimated capacity of the present Maynard High School physical plant, as determined by the Massachusetts School Building Assistance Commission from the viewpoint of the safety, health and education of the students is 338. At the present time we are actually housing 366 students. Again, from the same viewpoints, the estimated student capacity of the present Junior High School is 210 students. At the present time we are actually housing 249 students.

As stated in the opening paragraphs, we visited the new Westborough High School. This was done on the recommendation of the Massachusetts School Building Assistance Commission. This new school was constructed to house a program comparable to that adopted by the Maynard School Committee to provide a modern up-to-date education for 600 students.

Our study has brought us to the following conclusion:—the educational program adopted by the Maynard School Committee, suited to the needs of the youth of Maynard and the number of students to be educated, cannot be adequately housed in the present Senior High School physical plant.

The committee investigated the possibility that the program, with the number to be cared for, could be housed by combining the present Senior High School plant with the present Junior High School plant. However, to do so would entail major renovations, the cost of which would have to be borne entirely by the taxpayers of Maynard. Moreover, provisions in the form of a new building would have to be made for housing the Junior High School program, and this, too, would place an additional burden on the taxpayer.

The Junior High School program could be offered in the combined structures for a two or three year program. If a three year Junior High School was instituted, it would necessi-

tate the construction of a three year Senior High School. Due to the basic requirements of a Senior High School building, the cost of constructing a three year Senior High building approximates that of a four year building.

Since this is so, the committee will recommend at the next Town Meeting, the use of the combined Summer Street plants for two purposes: (1) the housing of a modern up-to-date Junior High School program for the expected enrollment of 300 students on that level, and (2) the housing of an improved program for all the sixth grade pupils of the town.

The present Junior High School plant will not adequately house a modern up-to-date program for our expected enrollment on that level. The use of the rooms and other features in the present Senior High School building, with a minimum of renovations, should enable the town to provide all our expected Junior High School students with an adequate education for the foreseeable future.

Since all the space in the combined Summer Street plant will not be necessary for the housing of the Junior High School program that we know you desire for your children, we will recommend the transfer of all sixth grade students to this plant. This latter recommendation has three compelling advantages from an educational viewpoint. First of all, it will afford these pupils with a more diversified educational program in that they will be able to use the facilities of the Memorial Gymnasium for an improved physical education program, the library which an adequate Junior High School program will provide, shop and home economic facilities, and the like. Secondly, it will afford a more gradual transition to the Junior High School level than our present system allows. Thirdly, such a plan will free needed space in our present elementary buildings which are daily feeling the increased pressures of additional enrollments, and thus delay the day when we will be forced to expand our elementary building facilities for the influx of pupils which our projected enrollments indicate. Thus, we "buy" time.

The committee will further recommend the immediate construction of a four year Senior High School plant that will adequately house the secondary school program adopted by the Maynard School Committee as being suited to the needs of the youth of Maynard for a projected enrollment of 600 students on town-owned land adjacent to Alumni Field. At the present time, out of every dollar that the town would spend for the construction of such a plant, the State's share would be 36.58 cents.

The selection of the location adjacent to Alumni Field is compelling for the following reasons:

- (1) It is the *last* available site that is of suitable size to allow for the building of an adequate physical plant necessary to house the secondary school program suited to the needs of our youth and for the numbers who are to receive the benefits of this program.
- (2) It is already owned by the town and thus eliminates the additional expense of land purchase.
- (3) It has already been given tentative approval by the Massachusetts School Building Assistance Commission.
- (4) It makes it possible to integrate the athletic facilities of Alumni Field with those that would be incorporated in a modern secondary school building, thus enriching the offerings of our high school program.

To carry out this recommendation, we will urge the acceptance of the articles placed on the warrant by this committee providing for the establishment of a High School Building Committee and the transfer to the School Committee of additional town-owned land adjacent to Alumni Field.

The recommendations which we will make at the next Town Meeting we believe are the only ones that can be made in that (1) they provide for the best possible education for the youth of Maynard in keeping with our ability to pay, (2) they provide for the most effective use of our present school buildings, and (3) they contribute to some long-range thinking relative to serving the educational building needs of the town.

Respectfully submitted,

GEORGE I. MIDDLEBROOKE, Chairman
For the Committee.

Report of the Planning Board

To the Board of Selectmen
Maynard, Massachusetts
Gentlemen:

During the year 1959 the Planning Board held a total of 21 regular meetings, 25 special meetings with other town departments, 1 public hearing, and several field trips to the various sub-divisions now under construction within the Town. In addition to the above meetings we spent many hours compiling a building code for the town and held several meetings with the Town Counsel, Leonard Rae, to study legal problems pertaining to Planning Boards.

Building Activity

New construction has continued, during the year, at approximately the same pace as in previous years. However, we can anticipate a decided up swing in building activity during 1960. Projected estimates show a very strong possibility that between 100 and 200 new homes will be constructed during 1960 as compared with an average of 35 during the past few years.

Building Code:

The above section strongly indicates the necessity for a building code for the Town. Maynard is one of the few towns in the state and the only one in this area without a building code and a building inspector. The Board has spent many extra hours during the past months studying the building codes of adjacent communities as well as those of other communities with similar problems to our own. We have, as a result of this study, compiled a fair and workable building code, and will recommend its acceptance by the town at the next annual Town meeting.

Adoption of the proposed building code will do much to insure the Town against the possibility of poorly constructed homes in the future.

1. The builder benefits through a building code because before he begins construction he will know exactly what he will be permitted to do and exactly what will be prohibited in his buildings.
2. The home owner will benefit through a building code by having a competent building inspector check on the construction of his home during construction.
3. The community will benefit through a building code by

insuring that construction will be well done and thereby hold up its tax valuation for a longer period of time.

Sub-division Control

During 1959 one sub-division of 200 homes was approved by the board. Two preliminary plans of sub-divisions containing a total of 85 building lots have been reviewed by the Board.

In addition three parcels of land on accepted streets containing a total of 26 lots were released by the board as required by law.

Randall Road Court Case:

Members of the Planning Board were present during the entire nine days of this trial. In the final written judgment by the court found no case against the members of the Planning Board.

Resignations and Appointments:

Walter E. Carbone and Fiorentino J. Di Grappa resigned in April 1959 after serving several years on the Board. Ralph Herrick, Jr. and Robert E. McMahon were appointed to fill the above vacancies until the next Town election. Both of whom have contributed excellent help in the administration of the board.

Street Acceptance:

The Planning Board will recommend at the next annual Town meeting the acceptance of the following streets: Walker Street, Ethelyn Circle, Windmill Drive, Country Lane, 300 ft. of Randall, and 300 ft. of Charles Street.

In conclusion your Planning Board wishes to take this opportunity to extend its thanks to the other town departments who have so generously helped in cooperating with the Board. We wish to thank the voters of Maynard for their interest and support of the Planning Board.

Respectfully submitted,

WORSLEY FARDY, Clerk
CARLO J. MISTRETTA, Chairman

Report of The Zoning Board of Appeals

To the Board of Selectmen
Maynard, Massachusetts

Gentlemen:

The following appeals and petitions have been considered during the year 1959 under the Protective Zoning By-law.

- | | |
|---|------------------------------|
| Dennis Lessard, 4 Burnside Street
Authority to subdivide lot for erection of single dwelling | Granted |
| Rufin M. Potapowicz, 2½ Riverbank Road
Convert existing building into two family dwelling on lot with less area than required | Granted |
| I. Matti Tervo, 100 Acton Street
Authority to conduct part time television repair business in home | Granted |
| Kenneth Olsen, 251 Great Road
Authority to use mobile home for dwelling purposes | Denied |
| Ludger & Michelina Dubie, 92 Waltham Street
Variance to subdivide lot with insufficient area for erection of second dwelling | Modified |
| Stephen Lowell, 66 Great Road
Authority to sell plants, flowers and other products not raised on the premises | Granted |
| George R. Greenaway, Field Street
Authority to conduct lawn mower sharpening business in residential area | Granted |
| Victor J. Pileeki, 71 Parker Street
Authority to erect roadside stand for sale of products, most of which are raised in the town | Granted |
| Conrad and Mary Mayberry, 43 Great Road
Authority to conduct real estate business in residential district | Granted with restrictions |
| Edward Karpeichik, 136 Great Road
Variance to extend existing dwelling nearer the side lot line than law allows. | Granted |
| Joseph Vincent, 47 Brown Street
Authority to conduct lawn mower sharpening business in residential area | Granted
with restrictions |

Wylie Pugsley, Concord and Brown Streets Variance to allow the erection of second bay to gas station nearer lot lines than law allows	Denied
Edward Powers, 19 Roosevelt Street Variance to construct addition to dwelling nearer to side lot line than law allows	Granted
Mr. and Mrs. Ronald Wardwell, 88 Powdermill Road Variance of Zoning By-law to use premises for off-street, business parking area.	Denied
Stanley Kodzis, 1 King Street Renewal of special permit to conduct taxidermy business in residential area	Granted
Birger Koski, 143 Parker Street Authority to enlarge roadside stand	Denied
Frank and Josephine Kasziewicz, 155 Waltham Street Authority to remove sand and gravel from premises	Unfinished
Catherine Ann Lydon, 208 Main Street Authority to conduct beauty shop in single residence district	Granted
John Martucci, Corner Hayes and McKinley Streets Variance to erect two family dwelling in single residence district	Granted
Precision Line, Inc., 63 Main Street Renewal of special permit to operate electronics industry in a business district	Granted
Paul and Virginia Murphy, lot #4, Ethelyn Circle Variance to erect dwelling on lot with insuffi- cient frontage	Default
Bert and Carol Lee Jenkins, 24 Lincoln Street Renewal of authority to conduct real estate business in residential district	Granted with restrictions

This past year Mr. Howard Schreiber resigned, he has served on this Board since the adoption of Zoning by the Town. Mr. Pasquale Lalli, alternate, replaces Mr. Schreiber, Mr. Stanley Nowick has been appointed to fill the vacancy.

Respectfully submitted,

EDMUND W. BEEBE, Chairman
WILLIS I. LESTER, Clerk
JAMES P. BAUDREAU
WALTER E. CARBONE
PASQUALE LALLI
GEORGE I. MIDDLEBROOKE, Alternate
STANLEY D. NOWICK, Alternate

Report of Progress of the Special Water Committee

The problem of acquiring a supplementary source of supply still remains unsolved. During the past year, the engineering firm of Whitman & Howard have made a thorough study of this problem and have submitted a complete report of their findings, this report is available to any interested citizen of the town, at the office of the Board of Public Works.

During the past year, the 65 year old, small main on Glendale Street was replaced with an eight inch line and a cross connection to Prospect Street. This project increased the fire flow in the vicinity of St. John's Lutheran Church from 200 gallons per minute to 2,200 gallons per minute and on Prospect Street from 810 gallons per minute to 1,700 gallons per minute.

Prior to the rebuilding of Main Street and Nason Street, all of the old hydrants were replaced. It must be borne in mind that there is a considerable number of the original installation hydrants still in service, these are of an obsolete type, none of this type having been manufactured for more than fifty years, and are limited in their capacity, due to their small size. Although they have given good service, they cannot be expected to resist age and corrosion forever. Therefore a program of replacing a few each year should be started, such a program can only be considered as normal maintenance.

This committee recommends the immediate extension of the twelve inch feeder main on Walnut Street to the intersection of Roosevelt and Cleveland Street, this will provide at least one street in the New Village with an adequate main. We also recommend the relaying of Linden Street with an eight inch main connecting on Concord Street.

Report of Maynard School Committee

To the Citizens of Maynard:

We herewith submit the Annual Report of the School Committee for the year ending December 31, 1959.

The Committee has met regularly twice a month during the year and at other times when necessary to act upon matters pertaining to the schools.

There have been a number of resignations and appointments of school personnel during 1959. The following listing is for your information:

CHANGES IN PERSONNEL

RESIGNATIONS

Senior High School
Paul Boucher
Marie B. Tobin

Junior High School
Nancy Piston

Roosevelt School
Barbara DeLuca
Sybil M. White (Retired)

Coolidge School
Lorraine Celi

Green Meadow School
Marion A. May
Mary Kivikoski
Lawrence A. Gomes, Jr.
(Special Class)

APPOINTMENTS

Senior High School
Donald Hoffmeister (Sub.)
Sylvia Clark
Arthur K. George

Junior High School
James J. Duggan
Dorothy M. Stowell

Roosevelt School
Joan T. Spencer
Beverly C. King

Coolidge School
Marie E. Healey
Helen L. Bettencourt

Green Meadow School
Mary C. Hibbard
Margaret D. Heffron
Arthur L. Wallace
(Special Class)

During the year Mr. Clement P. Theriault was appointed Custodian of the Emerson Junior High School to replace Mr. Cyril Spratt who resigned and moved out of town.

MAINTENANCE

The usual program of repairs and replacements was continued during the past year. The following listing indicates some of the major projects completed to maintain the buildings and their educational equipment:

Senior High School

Boys' Toilet Room, First Floor Corridor, Stair Wells, Windows and Outside Trim painted
 Lab Ceiling replaced
 Furniture — Room 14, replaced
 Two Typewriters and One Duplicator replaced
 24" Television purchased for Auditorium

Junior High School

Exterior pointed
 Baffle in Boys' Toilet Room constructed
 Fluorescent Lights installed in Band Rooms
 Wet-Dry Pick Up Vacuum replaced

Roosevelt School

Wire Screens on Basement Windows replaced
 Window Locks, Chains etc., repaired
 Record Player replaced

Coolidge School

Additional heating radiation provided in one classroom
 Automatic Fire Warning System installed
 Water Cooler installed
 Film Strip Projector purchased
 Two Window Sashes replaced

Miscellaneous

Usual emergency repairs:—plumbing, electrical, heating, carpentry, etc.
 Renewed maintenance contracts for heater controls, clocks and business machines

For some time now it has been evident to this Committee that classroom space and facilities at the High and Junior High School levels would soon be inadequate to house an efficient program of education of high quality for the increasing number of children entering these areas. Your Committee brought this to public attention at the last Annual Town Meeting and a High School Building Needs Committee was established to look into the situation and make a report to the townspeople. Having worked with this Committee, your School Committee is aware of and in accord with its findings and trusts that the Needs Committee Report will be acted upon favorably so that adequate facilities will be ready and available as soon as required and before any of the children of Maynard have to suffer because of curtailed educational programs.

SALARY LEGISLATION

The Massachusetts State Legislature has enacted legislation during the 1959 session raising the minimum salary of

teachers to \$4,000 beginning in September 1960. This has necessitated a new revision of the Maynard Salary Schedule as the present minimum is \$3,700. The salary budget of the School Department has necessarily been increased for the fiscal year 1960 in order to provide for this new minimum next September. Except for those teachers below the minimum, the adjustment raises for the teaching staff will be spread over a two year period in order to ease the burden on the taxpayer. This will represent a raise of \$150 a year for two years for those teachers who are eligible.

As part of the Work-Shop program of our school personnel, a general philosophy of the Maynard School System has been evolved and with minor changes was adopted officially by the Maynard School Committee at its regular meeting on November 5, 1959. The text of this Philosophy is included verbatim in this report because of its importance in the clarification of school aims and objectives as it applies to curriculum changes.

STATEMENT OF PHILOSOPHY

The Maynard School System aims at the development of the individual intellectually, morally, physically and emotionally, so that he may become a hard working, law abiding, responsible citizen in our democratic society.

The appreciation of the effects of various cultures on our civilization through the ability to judge the value of this information is the essence of mental growth. An atmosphere of intellectual curiosity which stimulates each child to explore, to experiment and to test himself within his own aptitudes and abilities must pervade the school environment. Disinterest and frustration are thereby avoided when each individual becomes aware of his intellectual capacities. A respect for the achievement of others and an experience of a feeling of self-accomplishment are essential elements of such an atmosphere.

The Maynard Schools also accept the responsibility for training each individual boy and girl to respect the worth and integrity of the individual regardless of race, creed, color or economic circumstance. The school must share with the church and the home, the responsibility of the development of ethical standards and habits which enable the child to recognize a purpose above the knowledge and planning of man.

In providing for physical and emotional growth, a safe, sanitary and healthful school environment must exist. A feeling of security for each child fostered through understanding, encouragement and a skill in leadership is the basis of a teacher's success.

This is the job of education. The schools attempt to do this work within the limits described and do not pretend to venture into fields which rightfully belong to others. When the work of proper agencies is supplemented by this school program, effectively applied, the student will grow in wisdom, will mature socially and will learn to live a morally sound life. Future leaders and constructive citizens will be produced.

In the total program of the Maynard Public Schools, an atmosphere of rigorous application to the task at hand must prevail on the part of the staff and the student body if these objectives are to be attained.

CONCLUSION

In our endeavors to provide the best possible education for the children of Maynard, we recognize the necessity for community understanding and cooperation. The continually changing curricula, increasing costs and increasing enrollments have given us vitally important problems to resolve. It is essential that we continue to receive your cooperation if we are to successfully deal with these problems.

In conclusion, we wish to thank Superintendent Albert Lerer, the entire school personnel and the Citizens of Maynard for their continued interest and devoted performance in working for the maximum educational development of the children attending our schools.

Respectfully submitted,

WILLIAM LARSON, Chairman
NOBLE E. LOOMER, Secretary
VIRGINIA N. ROBINSON
School Committee.

Report of Superintendent of Schools

To the School Committee and Citizens of Maynard:

I herewith submit the Annual Report of the Maynard School System for the year 1959.

In my annual report for 1958 I brought to your attention the need for studying the effect of increasing enrollment on the Junior and Senior High School buildings. Both of these buildings are now filled to capacity and in a few years will not be able to efficiently offer a satisfactory educational program to the increasing number of pupils that will have to be accommodated.

At present there are three hundred seventy-five students in grades nine through twelve, but by 1970 it is expected that there will be over five hundred. This figure is based primarily on birth rate and does not include the possible effects of new housing developments in the town. The Junior High is already overcrowded with two hundred fifty pupils and it is also expected to increase proportionally over this same period of time.

The Maynard High School Needs Committee established at the 1958 Annual Town Meeting has been diligently investigating the impact of our educational program and the increasing enrollments on the classroom space and facilities now available. I am sure that its report will confirm the need for immediate action to obtain classroom space and more modern facilities if we are to avoid hampering the educational growth of a considerable segment of our school population.

The table following is an enrollment projection that will be helpful in visualizing the increasing number of school pupils that must be given an adequate education in the Maynard Schools in the decade ahead. These figures will be affected somewhat by drop outs, pupils attending private schools and by the fluctuation of the population of the town.

ENROLLMENT PROJECTION

	Grades														
	1	2	3	4	5	6	Total	7	8	Total	9	10	11	12	Total
1959	152	142	125	128	124	111	782	134	115	249	81	92	102	90	365
1960	130	152	142	125	128	124	801	111	134	245	115	81	92	102	390
1961	164	130	152	142	125	128	841	124	111	235	134	115	81	92	422
1962	167	164	130	152	142	125	880	128	124	252	111	134	115	81	441
1963	163	167	164	130	152	142	918	125	128	253	124	111	134	115	484

1972										150		163	167	164	644

WORKSHOP COMMITTEES

During the year a new emphasis has been placed upon the in-service workshops for teaching personnel. We have had regular workshop committees investigating the needs of our school system in the following areas:

1. Arithmetic (Grades 1 through 6)
2. Penmanship (Grades 1 through 6)
3. Civil Defense
4. Handbook for personnel
5. Report Cards
6. General School Philosophy

It is expected that an additional workshop in Reading from grades one through eight will be actively in operation by the time this report is given to the citizens of Maynard. The reports and recommendations of these workshops help to keep our educational program coordinated throughout the various grade levels and also brings to our system the current research and newer techniques and study materials being used in up-to-date educational systems.

NATIONAL EDUCATION DEFENSE ACT

(Public Law (85 - 864))

This Act of the Federal Legislature is divided into many parts known as "Titles." Title III and V were of primary interest to Maynard. Title III is concerned with the improvement of Science, Mathematics and Languages and Title V with the improvement of the Guidance Program. Under the provisions of the Act, Maynard will be reimbursed by the federal government on a matching basis for funds expended under these titles. One Language, three Science and one Mathematics project have been approved for Maynard under Title III and also a general Guidance project under Title V. These projects will enable us to purchase new equipment, apparatus, reference books, audio-visual aids and other items of considerable value toward improving the educational offering in these important subject areas. A special article has been inserted on the Warrant for the Annual Town Meeting to provide the necessary money to match the government's allotment for the 1959-1960 federal fiscal years.

(Public Law 874)

When there are a sufficient number of parents in a community who work on federal government installations and who send their children to the local schools, it is possible to receive a reimbursement from the government because of the impact these children have on the cost of schools in the local community. A survey is now being conducted throughout the

Maynard School system to determine our eligibility for this reimbursement under P. L. 874. A preliminary accounting would indicate that Maynard will be entitled to a considerable return because of the number of parents who have indicated that they work on Federal installations which are acceptable under this act.

EDUCATIONAL PROGRAM

Probably at no time in the history of education in the United States has there been such widespread interest in public schools and as many controversies surrounding them. Our School Committee, administration, and staff are doing everything within their power to provide the best possible education for the school children of Maynard. This annual report which records the past and reflects the present, contains excerpts and summaries from accounts submitted by Principals, Supervisors and other Special Teachers.

The basic aim of the annual report is to inform the parents and general public of the schools' program and needs.

AMERICAN EDUCATION WEEK

American Education Week was observed from November 8th - 14th. It was a time when the spotlight was turned on public education and its unique contribution to American life. The observance pointed up the importance of strengthening our public schools in terms of their mighty responsibilities.

To honor American Education Week the Maynard Schools invited the parents and citizens to visit the schools to observe the classroom activities and to confer with the teachers.

A special program held at the High School was the induction ceremony of the National Honor Society to which the relatives and friends of all members and the general public were extended an invitation.

HEALTH AND ATTENDANCE

The annual "Pre-school Round-up" was held in May, when forty-one children were given physical examinations by our school physician, Dr. Raymond Hooper.

A toxoid clinic for the prevention of diphtheria was held in November for first graders. Sixty-four children were given booster shots by Dr. Frank Lituri.

Students in the fourth, seventh and tenth grades were given physical examinations by Dr. Hooper. All students participating in competitive sports were also given physical examinations.

A dental survey of pupils in grades one through six was made by a dental hygienist from the State Department of Public Health. Parents were notified of any dental work needed. The dental clinic, formerly held every Tuesday and Friday at the Town House has not been in operation since September. It is hoped that in the near future the Board of Health will resume the dental clinic.

All students had their vision tested with the Massachusetts Vision Test this year. Forty-five children failed and their parents were advised to take them to eye specialists. With the audiometer it was discovered that thirty-five children had hearing deficiencies and their parents were advised to seek the attention of ear specialists.

As a result of absences due to illnesses, three hundred and nine home visits were made during the school year. Fifteen home visits have been made to investigate the absence of truants. Three cases were referred to the Youth Service Board.

GUIDANCE

The guidance Department has continued the administration of the basic Guidance Program which is in effect throughout the school system.

Guidance services as applied to the High School include Counseling, Educational Advisement, Job Placement, and Career Guidance. These activities should assist each pupil in making the most of his strengths and in correcting or compensating for weaknesses that interfere with his progress; in learning about occupations so that he may intelligently plan and prepare, in whole or in part, for a career; in learning about educational opportunities available to him; and in discovering and developing creative and leisure interests.

In the field of Career Guidance, regular career conferences are held at the High School. Maynard High School is associated with the Northeastern University Career Guidance Program which arranges and conducts career conferences concerning the various professional and non-professional career fields. In addition to the Northeastern Conferences which are held at the school, other career conferences are arranged and conducted with the cooperation of local industry and the Armed Services.

In the matter of National and Regional Examinations, our High School students participate and achieve their share of distinction in every noteworthy diagnostic and competitive testing program educationally accepted as a valid yardstick of achievement. Among these are the College Entrance Boards, National Merit Scholarship Examinations, Scholar-

ship Qualifying Tests, National Educational Development Tests, Naval R.O.T.C. Examinations, Service Academy Examinations, Betty Crocker Scholarship Examination, and the Roxbury Carpet Company Scholarship Examination.

The percentage of Maynard School graduates who continue on to further areas of education is steadily increasing. Following are statistics evolved over a span of the three previous years:

	1957	1958	1959
Graduates attending some form of further schooling	45.6%	39.2%	50.6%
Graduates attending four-year degree granting institutions	22.8%	21.7%	23.5%
Graduates entering the Armed Forces	14.0%	7.2%	9.9%

The aspirations and success of our graduates has evolved a deep sense of satisfaction among the educational staff of Maynard.

ELEMENTARY EDUCATION

In order for the elementary school to function effectively, there must be a well-defined program designed for its specific objectives.

The primary task at this level is to provide and develop the tools of learning — to teach the skills for acquiring and communicating knowledge. Since most children can be reached through the school and because the school day occupies a major portion of the pupils' time, we have a secondary responsibility — to develop social skills and good citizenship. These objectives can best be achieved through formal programs of instruction.

In the elementary schools of Maynard it is our aim to provide a curriculum of rich and varied experiences that will meet the needs of each individual and at the same time build and develop the learning process.

The curriculum in the elementary schools is in the process of evaluation and revision. The Arithmetic Course of Study has been completely revamped. It has been effectively organized at each grade level and a sequential program from grade one through six has been inaugurated.

The committee working on the Penmanship Curriculum made a study of penmanship programs and a survey of several penmanship methods. As a result of its study, the Noble and Noble Writing Method has been adopted in the Maynard

Schools. Manuscript writing is taught in the first and second grades because this form of writing resembles printed letters used in books and is an aid to pupils learning to read. The transition to Cursive Writing is made at the third grade level.

ELEMENTARY EDUCATION

The In-School Television Programs are continuing weekly for grades two through six. These series of programs give further enrichment in language expression, arts and sciences. In addition to the regular scheduled programs, PARLONS FRANCAIS became available to all pupils in the fourth grades in September. This is a conversational French program on an elementary level. The fourth grade teachers meet each week to view the program designed for teachers as an aid in formulating their instructional plans which precede and follow each lesson viewed by the children. The success of the television programs is evidenced by the enthusiasm shown by teachers and pupils. It is a well known fact that new methods or techniques of teaching achieve better results if there is enthusiasm on the part of those involved.

In addition to our formal instructional program, many other activities were conducted as a means of developing an understanding of good citizenship and broadening the social experiences of the elementary school child. Field trips were arranged to such places as the Museum of Science, Museum of Fine Arts, Childrens' Museum, Peabody Museum and Logan Airport. Children were given opportunities to participate in the Emerson Hospital Harvest Collection, the Jimmy Fund Campaign, the Band Parents' Candy Sale and the Junior Red Cross. The response to these worthy causes was most gratifying in all cases.

Under the guidance and direction of the teaching staff, the children presented several public performances during the school year. The Green Meadow School presented an operetta entitled "A Western Fantasy" and the Coolidge School put on a play called "Frolics for the Queen." These schools also held public Christmas Programs. The Roosevelt School's public performance was in the form of a Minstrel Show. In addition to these, each school held special observance of the holidays throughout the year.

The transition from the sixth grade to the Junior High School is a major step for children. They are moving from a small unit where they have had one teacher all day to a school where they find themselves in a departmental program with many teachers each day. Here the elementary objectives are continued and broadened through a program of formal instruction and related activities such as clubs, dancing classes and competitive sports.

In the Junior High School the social studies curriculum has been modernized and a new text provided for all seventh grade pupils.

REMEDIAL READING

The Remedial Reading Program is now in its second year of operation and has been developed according to procedures recommended by authorities in the field of reading. Educators agree that not all children can achieve at the same rate in reading in the regular class group. Some children whose potential or capacity for learning is average or above average become under-achievers in the classroom because of a reading disability. These are the children who need specialized individual or small group instruction.

This specialized instruction has been conducted throughout the school year. Groups have been guided according to individual needs. Instruction was suited to the level of attainment, reading activities were focused directly on specific weaknesses, and practice materials were used to motivate the greatest degree of learning.

The effectiveness of the first year's program was evaluated carefully with reference to comprehension skills in particular. The standardized tests administered at the end of the school year were the criteria used to note growth in reading ability. In many instances results were gratifying and several children attained sufficient growth to maintain a good level of achievement in the regular classroom with the security and confidence needed for future success. Others, where the retardation is greater and the correction more difficult, will need more special teaching at their level of achievement to do satisfactory work.

Before the closing of school in June, the teachers were asked to refer all children whom they felt could be helped by remedial instruction. The advantage of this procedure was that the teachers had had the children under their guidance for a full school year and were better acquainted with the weaknesses of the individual child. When school opened in September, the referrals were carefully studied, cumulative records were perused, and results from standardized achievement and intelligence tests recorded.

Any child new to the Maynard School System was given tests to determine his reading achievement and capacity. These results were all tabulated and carefully analyzed. Acceptance of a child for remedial instruction was based upon the child's ability, the intensity of the difficulty, and the possibility of making sufficient progress in an intensive program of reading.

The first step in corrective instruction is to determine the level of achievement at which the child can read easily and fluently with good comprehension. This was accomplished through informal tests of oral and silent reading — using a series of graded reading selections from pre-primer level up through a sixth grade level. These tests provided a basis for diagnosis of the child's specific difficulties. Groups were then formed in each school to meet the needs of each learner and provide for individual differences. These groups vary in number from two to seven. Instruction is given twice weekly and the time periods vary from thirty to sixty minutes depending on the number in the group, the age level of the children, and the disabilities to be corrected.

Instructional materials for remedial classes differ from those used in the regular classroom. The work-type readers which provide worth-while basic and enrichment materials of high interest — low vocabulary levels are used. These build reading skills such as word recognition, comprehension and interpretation. Many reading word games and devices also help to strengthen skills and maintain high interest.

At the intermediate level, lessons are designed to strengthen the pupil's powers of listening and of observation to help word recognition and increase spelling power. Several children at this level are using the SRA Reading Laboratory — Elementary Edition. This is a reading improvement program which is designed to meet each individual's needs and allows each student to master the skills at his own rate.

Progress in reading as well as progress in any skill is greatly improved with practice. For this reason we strongly urge parents to encourage independent reading for all children and especially for those who are experiencing difficulty in reading. A time for reading should be a part of every child's day — preferably not at bedtime or during a favorite television program. Books and magazines should be secured at the child's level — not something too difficult or discouragement and frustration will result. The Public Library contains many books which are highly interesting and worthwhile. There are lists of available books for the children in the Remedial Reading Program. Providing interesting reading materials and giving help and encouragement are important factors in building desirable reading habits and attitudes both in the school and in the home.

The ultimate goal of the Remedial Reading Program is the feeling of security and sense of achievement which the retarded reader gains. Permanent reading habits therefore result, and, in fact; must result if the child is to maintain his reading level and go on to better reading and therefore better learning.

SPECIAL EDUCATION

The program of the Special Class emphasizes the development of social and vocational skills, the attainment of academic achievement commensurate with ability, and satisfactory adjustment to everyday problems now and to the world of work later.

It is important that each unit of study be made clear and meaningful to the child. For this reason much of the work is related to his everyday living. To supplement the study units, field trips are taken in order that the child see first hand the functions and importance of what he has learned. Movies, speakers, socio-dramas within the group, and group discussions enable the child to obtain a better understanding of his work as well as himself.

The program is designed for the child who does not profit sufficiently from regular class instruction but who requires a modified curriculum to fit his particular needs and provide for his maximum development.

AUDIO-VISUAL EDUCATION

Learning involves stimulating all senses, such as seeing, hearing and feeling. The term "audio-visual" is used to describe those instructional materials and experiences which do not depend primarily on the printed word, but appeal to one or more of the senses. Audio-Visual instructional materials not only contribute to children's understanding but also are essential in a good learning environment to meet individual differences inherent in any school population. We have endeavored to offer to the pupils of the schools of Maynard all the audio-visual resources that we feel will be valuable in the learning process. These include slides, films, film strips, opaque projectors, sound projectors, record players, etc.

Participation in the "21 Inch Classroom" has more and more become an important addition to our audio-visual program. Lessons are now planned for pupils in the elementary grades through this media in varied subjects such as science, nature, art and even the teaching of a foreign language — French — at the fourth grade level.

Our participation with five other schools in a Cooperative Film Library has made it possible for us to enrich the curriculum in many areas of study and it is essential that we make every effort to continue and expand this phase of the program.

ART

The Art Program consists of those courses, activities, and units of instruction which are designed to contribute to the

visual art and aesthetic needs of the pupils. Emphasis is placed upon meeting the art needs of the total school enrollment by helping all pupils to explore their aptitudes and interests through experiences in the creation and appreciation of art.

At the elementary levels the fundamentals of art were studied with the curricula emphasis on the principles of design, lettering, illustration and construction.

In the High School, art classes were conducted on an individual basis, thus offering extensive opportunity for guided exploration and experimentation with a variety of art media.

ELEMENTARY MUSIC

The ultimate aim of the Elementary Music Program was to cause children to know, to love, and to understand music in as many forms as possible and thus to bring enjoyment to their lives as well as an enrichment of culture and refinement. To accomplish this purpose, a variety of experiences — singing, listening, playing, creating, and developing rhythmic expression — were offered in the program so that each child might discover some phase of musical activity for self expression and enjoyment.

SECONDARY SCHOOL MUSIC and INSTRUMENTAL PROGRAM

The Maynard Secondary School Music and the Instrumental Programs provide opportunities to develop desirable understandings and appreciations of voice and instrument in solo, ensemble, and group renditions.

Instrumental music placed in the hands of the growing child is a tool which can be used throughout life.

Every musical experience and activity directly penetrates and influences the personalities of the students. At any of the school or community functions, the Maynard School Musical Organizations have always displayed an enthusiastic group spirit. They have become aware of "expertness" as an essential element in musical growth as well as the enjoyment which they find in belonging to these groups. The desire for power and skill in musical performance is the outcome of enjoyment and of the wish to create expressive effects more perfectly.

INDUSTRIAL ARTS

Our Junior High School Industrial Arts Program endeavored to develop in the pupil certain basic industrial skills

together with an appreciation of the products and labor of industry. Students were taught the elements of good design, methods of construction, purpose of planning, and the necessity of good housekeeping through the construction of various wood and metal projects.

Each student was encouraged to visualize and plan his project with the instructor's help. Through this type of teaching, the pupil found an immediate and practical use for some of his other school subjects such as English, Mathematics and Science. Industrial arts also provided an excellent opportunity to mold some desirable traits of character such as friendly competition, sharing of equipment, and the necessity for safety.

The Senior High School Program combined the fields of mechanical drawing, woodworking, and metal working into a comprehensive general shop course, with each student working to his full capacity and interests. Students were required to develop complete working drawings and blueprints of articles to be built. Further emphasis was placed on the same traits of character skills taught at the Junior High School level.

Many excellent articles were built by the students for the home and recreational purposes. Seventeen projects were entered by Maynard Junior and Senior High School pupils in the State Project Fair which was held at the Winchester High School in May. Fifteen pupils received Certificates of Outstanding Workmanship. Three of the projects were adjudged among the top fifty entries in a field of several hundred excellent projects from many parts of the state.

HOME ECONOMICS

The Home Economics Program in the Junior and Senior High Schools provided practical learning experiences with a variety of goods, services and equipment as used in the home. Class work was based on the following objectives:

1. To purchase, prepare, serve, and preserve food to fulfill the nutritional requirement of the family.
2. To purchase and make articles of clothing with emphasis on proper style, fit, selection of fabrics, and good workmanship, and to be well-groomed through personal cleanliness and proper care of clothing.
3. To promote clean, healthy living by learning basic principles of hygiene, first aid and child care.

PHYSICAL EDUCATION

Physical Education activities give expression to the instinctive tendencies of youth which are developed through participation in activities that include running, jumping, climbing and throwing. Activities of this nature were presented to the children in grades three through twelve. The aim was to develop habits, attitudes and ideals necessary to maintain physical and mental health.

During the year, the following program was carried out at the various school levels:

Junior and Senior High Schools

BOYS

- I. Activities
 - Calisthenics
 - Tumbling
 - Rope Climb
 - Chest Weights
 - Basketball
 - Volley Ball
 - Dodge Ball
 - Beat Ball
 - Long Base
- II. Varsity Sports
 - Baseball } Member of
 - Basketball } Middl's'x Jr.
 - Football } High League
- III. Intramural Basketball

GIRLS

- I. Activities
 - Volleyball
 - Baseball
 - Beat Ball
 - Soccer
 - Relays
 - Tag Games
 - Basketball
 - Mat Work
 - Long Base
- II. Varsity Sports
 - Basketball
 - Field Hockey

Elementary Schools

 - Football
 - Baseball
 - Kick (baseball)
 - Soccer
 - Indoor Games
 - Movies
 - Hygiene and Sports Instruction
- (At Green Meadow School)
 - Volley Ball
 - Basketball
 - Calisthenics
- I. Activities
 - Dodge Ball — variations
 - Tag Games
 - Baseball
 - Beat Ball
 - Stop Ball
 - Relay Races

DRIVER EDUCATION

Driver Education experiences included a thorough study of the rules of the road and general safety principles. It pro-

vided for actual practice in driving as well as classroom instruction.

During the past year a record number of sixty-eight students took the Driver Training Program. However, this will be surpassed next year, as eighty students are presently registered for the course. This presents a problem in scheduling and instructional personnel for which provision will have to be made.

Again the Barber Chevrolet Company of Maynard provided a 1959 dual-control Chevrolet for the Driver Education Program.

ADULT EDUCATION

A valuable community service rendered by the public schools is Adult Education.

In the Adult Civic Education Class there is at present an enrollment of twelve persons. The group is divided into four sections — the beginners, the intermediates, the advanced, and those who are preparing to work for a high school diploma. A variety of materials and techniques have been used commensurate with the needs of the groups. This class meets twice weekly and is under the direction of Mr. Donald Jones.

A sewing class, with Miss Evelyn Sawutz as instructor, is also offered two evenings a week. The members of the group are engaged in activities which will enable them to master the complexities of the modern sewing machine and the techniques leading to sewing skills.

SUMMARY AND CONCLUSION

Mastery of the goals of learning — reading, writing, spelling, correct speech, and arithmetic — always has been and always will be the fundamental task in our schools. In fact, educators give more time and attention to the search for better ways of teaching these basic skills than to any other form of school improvement. The “3-R’s” are not taught in the same way that you and I learned them. Different materials are used; different procedures; different pupil activities — but the same skills are developed.

Not all children master the fundamentals as well as they should. This was also true a generation ago. The fact is that, by and large, today’s pupils read better, speak better, write better, spell better and have better command of arithmetic processes than the children of any previous period. Many research studies have shown this.

Except for a few standards set by the State, the scope and character of your school program is determined locally. The

number and kinds of school buildings, the type and amount of teaching materials, the amount of preparation and experience your teachers have had — these and nearly all the basic decisions about the schools are made in our own community.

Members of your School Committee and the Superintendent of Schools and his staff must take the leadership in making school programs and policies. These administrators continuously try to provide the education you want for your children. Those who want good schools for their children can have them. The price is continuous interest and financial support of the school program, clear understanding of its aims and objectives, intelligent support of things that are good, and constructive cooperation in improving its weaknesses.

Due to the fine home — school — and community spirit, the year 1959 has been a successful one. By planning and working together, the townspeople and the school staff have done much to provide the best possible conditions for the growth and development of the children of Maynard.

I wish to thank the citizens of Maynard, the School Committee, and the School Personnel for their loyal and continued support.

Respectfully submitted,

ALBERT LERER,
Superintendent.

Report of The High School Principal

Mr. Albert Lerer
Superintendent of Schools
Maynard, Massachusetts

Dear Mr. Lerer:

I herewith submit the Annual Report for the Maynard High School for the year 1959, my fifth Annual Report.

After the initial flood of ideas concerning changes which should be made in the educational structure of the public secondary school, or more generally with the United States public school system, a quieter atmosphere has prevailed during 1959. Quieter, yes, but not more complacent. Those who panicked, issuing forth with invective and destructive criticism following Sputnik are now relatively silent, while those who answered the challenge calmly, who realized right along that there were shortcomings in our educational system, are constructively examining our problems with a view to their ultimate solution.

This past year has been a year of much study on the part of administrators everywhere: the drastic changes that were predicted have not come about, indicating that hasty overhauls were not deemed necessary. What progress has been made has come largely in the solidification of existing courses and in the area of better provision for the academically talented student.

To my mind the most noteworthy change in the past few years has been a change, not in curriculum, but a change in attitude in many of our schools. A greater respect for knowledge is emerging. Intellectual curiosity is gaining more prestige. The good student is receiving more recognition. The dignity of hard work is again coming to the fore.

The demands of our American society are involving more and more students with thoughts of furthering their education beyond high school. More than half of the members of the class of 1959 decided to continue their education following their graduation last June, — some at four-year degree granting institutions of higher learning, some at two-year schools or Junior Colleges, others at nursing, secretarial and other specialized schools. The large majority of these students and also of those who have entered the business world or the armed services are adjusting satisfactorily to their new environments.

Grouping according to potential ability and actual achievement, though necessarily restricted by space limitations, has shown good results in the attainment of our students on national tests. In order to follow the progress of our students more closely, tests of educational development were offered to our Freshmen and Sophomore students this past spring. Eighty-one students availed themselves of the opportunity to take these tests which covered achievement in the areas of English Usage, Mathematics Usage, Social Studies Reading, Natural Science Reading, and Word Meaning. Both these and other standard tests continue to show that our students are receiving a sound education.

The pupil enrollment at Maynard High School as of October 1, 1959 was according to classes, 81-92-102-90 reading from grade nine through grade twelve. At the present time there are one hundred fifteen pupils in grade eight and one hundred thirty-four in grade seven. Lack of high school space will be very evident when we attempt to absorb these larger classes coming up from the elementary levels.

As a member of the New England Association of Colleges and Secondary Schools, Maynard High School must complete a self-evaluation every ten years. This evaluation conducted by the high school staff was begun this fall. When it is completed, a visiting committee will come to Maynard to review the self-evaluation and make recommendations.

During the fall, the English teachers have met on several occasions to discuss the English program in the high school. They are planning to evolve a revised English syllabus. The gradual acquisition of additional literature has made available a greater variety of reading materials for students. The serious problem which remains in this department is the large classes which are carried by English teachers mainly because of space limitations. Mathematics teachers are making plans for a similar project of curriculum study in their area.

Only two faculty changes occurred over the summer with Mrs. Clark replacing Mr. Hoffmeister in Latin and English and Mr. George replacing Miss Tobin in French and English. This small number of changes has made for stronger cohesiveness in our program since excellent secondary school teachers are not easy to find. However, in order to provide all the courses which a high school should have, and in order to give each pupil the best kind of education for which he is suited, additional space requirements must be met.

In the area of activities, Maynard High School has inter-scholastic athletic teams in football, basketball and baseball for boys and field hockey and basketball for girls. Musical

activities include a school band, school orchestra, dance band, brass choir, boys' and girls' glee clubs. Other organizations which contribute to the full and well-rounded development of our youth include the Student Council, Dramatic Club, Science Club, Future Teachers of America, Junior Women's Club, French Club, school publications and exchange programs.

Many parents visited the High School during the year. Some have attended school events and activities; others have come to discuss their child's work and progress in school. A large number of parents and friends visited teachers during our Open House program in November. This parental interest is immensely gratifying since it assists us in better providing for the education of each individual student in accordance with his needs and interests.

Also heartwarming is the interest shown in our youth by many local civic and fraternal organizations and by many local businessmen. Scholarship assistance, in particular, has helped some worthy boys and girls to meet the increasing expenses of a college education.

I wish to express my appreciation to the High School staff whose cooperation, diligence and dedication have made our accomplishments possible.

May I thank you also for the assistance that has been rendered, and for the support and cooperation that have been helpful to me in the carrying out of my duties.

Respectfully submitted,

FREDIANO D. MATTIOLI,
Principal.
