One Member	Term expires 1954
One Member	Term expires 1955
One Member	Term expires 1956

Report of the Board of Selectmen

To the Citizens of Maynard:

The Board of Selectmen respectfully submit for your consideration the Annual Reports of the Town Offices and Committees for the year 1952.

At the Annual meeting in March, 1952, the Town voted to install parking meters in the business section. These have now been installed and parking conditions have improved greatly. The Chamber of Commerce through its Board of Directors, and principally through the efforts of its secretary, Oliva Warila, established off street parking areas in the rear of the First National Store on Nason Street and adjacent to the Park on Summer Street. The Chamber of Commerce is sponsoring an article to see if the town will purchase additional property to enlarge the area in the rear of the First National Store.

The town also voted in March of 1952 to establish a Department of Public Works. The Board of Selectmen, with the aid of our local representative David B. Williams, drew up an act based on similar acts which have been passed by our legislature in the past ten years. It was decided to have a board of three commissioners and the act was passed by the legislature in June and accepted by the town at the November election. Subsequently, a delegation of the Finance Board met with the Selectmen and requested to have the board enlarged to five (5) commissioners. The Selectmen agreed to investigate the possibility, inasmuch as the Finance Board fostered the act in the first place.

The Board of Selectmen held fifty-two regular meetings and several special meetings during the year. The Board has been represented at all County and State meetings of the Selectmen's Associations. As heads of the town governments, we attended several local functions when our presence was requested.

We wish to thank all boards and committees for their cooperation and assistance during the year.

Respectfully submitted,

WILLIAM J. BAIN,
JOSEPH P. DINEEN,
LEO F. MULLIN,
Board of Selectmen.

Report of State Audit of Books and Accounts

To the Board of Selectmen
Mr. William J. Bain, Chairman
Maynard, Massachusetts

Gentlemen:

I herewith submit my report of an audit of the general accounts of the town of Maynard for the period from March 4, 1950, and of the accounts of the tax collector from March 4, 1952, to October 4, 1952, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Verty truly yours,

FRANCIS X. LANG,
Director of Accounts.

January 19, 1953.
FXL:TJP

Mr. Francis X. Lang
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the general accounts of the town of Maynard for the period from March 4, 1950, and of the accounts of the town collector from March 4, 1952, the dates of the previous examinations, to October 4, 1952, and report thereon as follows:

The records of financial transactions of the several departments receiving or disbursing money for the town or committing bills for collection were examined, checked, and verified by comparison with the reports and records of the town accountant.

The books and accounts of the town accountant were examined and checked in detail. The recorded receipts were compared with the treasurer's books and with the several departments collecting money for the town or committing bills for collection. The recorded payments were checked with the treasury warrants and with the disbursements as shown by the treasurer's books. The appropriations and transfers, as entered

on the ledgers, were checked with the town clerk's records of town meeting votes and with the finance committee's authorization of transfers from the reserve fund.

The general and appropriation ledgers were analyzed, the necessary adjusting entries resulting from the audit were made, and a balance sheet, a copy of which is appended to this report, was prepared showing the financial condition of the town on October 4, 1952.

The books and accounts of the town treasurer and collector, as town treasurer, were examined and checked in detail. The cash book was footed throughout, and the cash balance on October 4, 1952 was verified by actual count of the cash in the office and by reconciliation of the bank balance with a statement received from the bank of deposit.

The recorded receipts were analyzed and checked with the town accountant's books, with the records of the several departments collecting money for the town, and with other sources from which money is paid into the town treasury. The payments were compared with the treasury warrants authorizing the treasurer to disburse town funds and with the town accountant's ledger.

The records of payroll deductions on account of federal taxes, Blue Cross and Blue Shield, and for the purchase of war savings bonds were examined and reconciled with the ledger controls.

The payments on account of maturing debt and interest were proved with the amounts falling due and checked with the cancelled securities and coupons on file.

The savings bank books and securities representing the investment of the trust, investment, and retirement funds in the custody of the town treasurer were examined and listed, the income being proved and all balances and transactions being verified and compared with the books of the town accountant and, in the case of the retirement funds, with the records of the retirement board.

The cash balances in the trust and retirement funds on October 4, 1952 were compared with the balances in the bank accounts as shown by reconciliations with statements furnished by the banks of deposit.

The records of tax titles and tax possessions held by the town were examined and checked in detail. The amounts added to the tax title account were compared with the collector's and the accountant's books, the foreclosures were verified, and the redemptions and sales were checked with the entries in the treasurer's cash book. The tax titles and tax possessions on hand were listed and reconciled with the ledger controls, and

all transactions were checked with the records at the Registry of Deeds.

The books and accounts of the town treasurer and collector, as town collector, were examined and checked in detail. The tax, motor vehicle and trailer excise, and special assessments recommitted on March 4, 1952 and all subsequent commitments were audited and verified. The recommitments and commitments were proved and compared with the assessors' warrants for their collection, the recorded collections were compared with the payments to the treasurer, the abatements as entered were checked with the assessors' records of abatements granted, the taxes transferred to the tax title account were proved with the Treasurer's record of tax titles held by the town, and the outstanding accounts were listed and reconciled with the controlling accounts kept by the town accountant.

Attention is called to the delinquent tax and excise accounts dating back to 1948 and 1946, respectively, and it is urged that prompt action be taken by the collector to obtain a complete settlement of all prior years' tax and excise accounts.

The recommitment and subsequent commitments of departmental and water accounts receivable were examined and checked in detail.

The recorded collections were compared with the payments to the treasurer as shown by the treasurer's and the accountant's books. The abatements, as recorded, were proved with the departmental records of abatements granted, and the outstanding accounts were listed, checked with the available departmental records, and reconciled with the controlling accounts kept in the accountant's ledgers.

Verification of the outstanding tax, assessment, and water accounts was made by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the outstanding accounts, as listed, are correct.

The detailed checking necessary to prove the tax and water accounts required a great deal of time and consequently added to the cost of the audit.

The records of apportioned and deferred sewer, sidewalk and street betterment assessments were examined. The apportionments, the payments in advance, and the amounts due and added to taxes were verified, while the deferred and suspended assessments were listed and proved to the accountant's ledger controlling accounts.

The financial records of the town clerk were examined and checked in detail. The collections on account of dog, sporting

and town licenses issued, as well as for marriage intentions, recording fees, and miscellaneous charges, were verified and compared with the payments to the town treasurer and to the Division of Fisheries and Game. The cash book was footed and the cash balance on October 4, 1952 was verified.

The records of departmental cash collections by the sealer of weights and measures and the inspector of plumbing, as well as by the police, health, school, and library departments, and by all other departments in which money was collected for the town, were examined and checked. The payments to the town treasurer were verified, and the cash on hand in the several departments, including petty cash advances, was proved by actual count.

The records of guarantee deposits for sewer house connections and water construction were examined. The recorded deposits, the transfers to the town to cover the cost of the work done, and the amounts refunded were verified and proved to the Treasurer's and the town accountant's books, and the deposits on hand October 4, 1952 were listed and reconciled.

The surety bonds furnished by the several officials required by law to furnish such surety were examined and found to be in proper form.

In addition to the balance sheet, there are appended to this report tables showing a reconciliation of the treasurer's, collector's, and town clerk's cash, the summaries of the tax, assessment, tax title, departmental and water accounts, as well as tables showing the condition and transactions of the trust, investment, and retirement accounts.

For the cooperation received from all the town officials during the progress of the audit, I wish, on behalf of my assistants and for myself, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

HBD:TJP

Report of the Superintendent of Streets

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my report for the year 1952 as the acting foreman of the Maynard Highway Department.

MAINTENANCE

The general maintenance including the sweeping and cleaning of streets; collection of rubbish from the business district; the cleaning of catch basins; the resurfacing of some sections of sidewalks; the surfacing, oiling and patching of streets; cutting grass and brush and the painting of signs, fences and posts.

STREET CLEANING

It is impossible to clean and sweep the streets by hand. Each year more and more sand is used and the town is in need of an automatic sweeper.

DRAINAGE

No new drainage was constructed. However, the cleaning and maintenance of the existing drains is becoming increasingly difficult and some thought should be given to replacement of existing drains and construction of new drains.

STREETS TREATED WITH BITUMINOUS IN 1952

Name of Street	Kind of Bit.	No. of Gal.	Type of Surfacing	Kind of Coverage	Square Yds.
Brown-Haynes	OA3	1800	Seal	Treated Stone	5600
Parker Street	OA3	2000	Seal	Treated Stone	5778
Main Street	RC2 10% Kero.	3360	MIP	Stone	5600
North Street	MC3	500	Seal	Sand	1319
Marlboro Street	MC3	1000	Pen. & Seal	Sand	3055
Powdermill Road Trench	MC3	1000	Pen. & Seal	Sand	Paid for by Marlboro Gas Co.
Driscoll Avenue	MC3	1500	Pen. & Seal	Sand	
Winter Street	MC3	500	Seal	Sand	2830
Espie Avenue	MC3	700	Seal	Sand	1880
Sheridan Avenue	MC3	700	Seal	Sand	2780
Summerhill Road	MC3	1400	Seal	Sand	2400
Lewis Street	MC3	1200	Seal	Sand	5630
Parking Area					5300
Peoples Theatre	MC1 & MC3	1500	Pen. & Seal	Sand	1800

SIDEWALKS

Thirty-nine hundred square feet of sidewalk was excavated, refilled and resurfaced with Bituminous Concrete on the following listed streets: Warren, Pleasant, Summer, Nason, Waltham, Sudbury and Parker Streets.

SNOW

Snow fences were erected at the usual places. Sand barrels were placed in convenient locations for the public use. The snow was plowed and salt spread and the snow was then removed from the business district, churches, and other public buildings as soon as practicable.

With the addition of two large parking areas and the installation of parking meters throughout the business district, a new problem has arisen in snow removal. This makes the removal of snow more difficult and more costly. Some thought must be given this matter in the future.

The usual Chapter 90 Maintenance work was followed as in previous years. This work was carried out as required by the State Public Works Department.

GARAGE

The usual services were maintained for all town vehicles using this garage.

The Town Accountant's report will show the expenditures of this department.

I wish to extend to the Board of Selectmen, to the various supervisors, and to the departmental employees, my thanks for any assistance rendered me during the previous year.

Respectfully submitted,

JOHN CONNORS,
Acting Foreman.

Report of John A. Crowe Park Superintendent

To the Honorable Board of Selectmen:

I herewith submit my report of John A. Crowe Park for the year ending December 31, 1952.

During the year the baseball diamond was graded and the park enlarged. An addition to the fence was added along Taylor Road and the knoll in back of the backstop was graded to enlarge parking area.

In my budget for 1953 I have requested funds to grade the baseball diamond and to install an outdoor basketball court.

In conclusion I wish to express my appreciation to the people of Maynard and the various Town Departments for the co-operation received during the year.

Respectfully submitted,

WILLIAM F. KITOWICZ.

Report of Dog Officer

To the Honorable Board of Selectmen:

I herewith submit my report as Dog Officer:

Eighteen dogs were destroyed after six days. Ten dogs were quarantined on suspicion of rabies. After fourteen days they were returned.

There were two complaints of dogs destroying property.

One dog was quarantined from out of State.

I want to thank the Chief of Police and his officers for their assistance.

Signed,

JOSIAH M. HERRICK.

Report of Sealer of Weights and Measures

To the Honorable Board of Selectmen:

Gentlemen:

I herewith submit my annual report as Sealer of Weights and Measures for the year 1952.

In submitting this report, I wish to state that at the close of the year all weighing devices and measures in the town were in good condition in accordance with the law.

I wish to take this opportunity to express my gratitude to the merchants and all those who come under the requirements of this department for their co-operation.

	Sealed	Not Sealed
Scales over 10,000 lbs.	3	
Scales 5,000 to 10,000 lbs.	1	
Scales 100 to 3,000 lbs.	41	
Scales under 100 lbs.	95	1
Weights, each	143	
Yard Sticks	20	
Liquid measures, 1 gallon and under	37	
Meters, 1 inch or less	37	
Vehicle Tank, Meter system	8	
Other Measuring Devices	32	
Peddlers licenses examined	2	
	419	1
Fees Received from Sealing		\$209.50
Appropriation		555.00
Total Expenditures		487.14
Balance		\$80.38

Respectfully submitted,

CLIFFORD F. KING,
Sealer of Weights and Measures.

Report of Superintendent of Memorial Park

To the Chairman of the Board of Selectmen:

To the Trustees of the Soldiers' Memorial:

As caretaker of Memorial Park, I was first faced with the fact that the park could be a beauty spot, but was badly neglected, hence a thorough cleaning job was in order. The shrubs were cut back and thinned out, and the grounds near the shrubs were freshly spaded and weeded, to allow for better growth. One evergreen was removed as it was growing unshapely and retarded the growth of nearby shrubs. In its place, a rose arbor was started to landscape that bare spot upon removal of the evergreen. Many beds of flowers were started which were in bloom from early spring to late fall, and the riot of color from the flowers was pleasing to the eye of the passerby. All the trees in the park were trimmed for dead limbs. Then with the regular weekly mowing and raking of the lawns, the park was put into good order.

The monument in the park was repaired and the bronze part was also cleaned. The flagpole was painted.

The new work for next year in the park consists of removal of the shrubbery around the monument, to be replaced with other shrubs of a smaller nature. A new fence around the park is a necessity and would be a vast improvement.

I wish to thank the Chairman of the Board of Selectmen and the Trustees of Soldiers' Memorial for their splendid co-operation during the entire year. Thanks to the Welfare Department in lending out some of their men to work in the park. I also would like to mention at this time the wonderful work done by Daniel J. Hardesty, who installed the Christmas decorations in the park. Also to Michael Rynkiewicz, the caretaker of the flag for his work is always well done.

Also it was very gratifying for me to hear such nice reports from citizens on how my efforts resulted in the grounds of Memorial Park being the best for Memorial Day exercises.

Respectfully submitted,

AKSENTY LUKASHUK,
Superintendent of Memorial Park.

Report of Board of Fire Engineers

To the Honorable Board of Selectmen:

We submit herewith our report of the Fire Department for the year 1952.

Our reports in past years have indicated that our Town has numerous possibilities for serious and extended fires and that we had been in the past very fortunate in avoiding these situations. This year we have had a sample of the possibilities.

As to the potential danger of the liquid petroleum gas tanks, one need only look at the West End House. The high temperature generated by this gas, renders ordinarily fire resistant material highly flammable.

To be sure, our high fire loss this year was undoubtedly due to factors other than carelessness, construction and location. We are of the opinion that two of our heavier losses were definitely due to arson. This opinion, in at least one case, was also the opinion of the Fire Marshall's office.

As a rule, we are more than grateful for any assistance given us by the citizens. However, it has become necessary to restrict much of our alarm system because of unwarranted use by private citizens. This could have been disastrous, but fortunately the interference did no damage.

A new annoyance has arisen this year. We have had 15 calls to the mill filter beds on Hillside Street, where spontaneous combustion has caused very smelly and smoky fires.

The Town Dump has been the cause of 16 calls. Owing to the extended dry periods and the surrounding forest land, the dump has had to be extinguished on numerous occasions. This is both a fire and health menace and will soon require drastic action.

Our resuscitator has accomplished miracles this year. There have been 11 calls. The victim was saved in 6 calls. In 4 calls the victim was already dead and the eleventh call was a demonstration which called this piece of equipment to the attention of more people. We are extremely grateful to the Maynard Nursing Association for this fine gift.

Our new radios have been installed and are working far beyond expectations. The proposed Fire Radio area composed of Maynard, Acton, Stow and Littleton is progressing at a fast

pace. Acton has one set and is seeking 2 or 3 more. Littleton is seeking 2. It is hoped that this combination will make our Mutual Aid even more effective.

During the year we have assisted neighboring towns on 4 occasions and we have had the help of Acton, Sudbury and Stow on 4 occasions.

It has come to our attention that the permanent men desire a By-Law effective in 1954 to shorten the hours of employment to 56 hours average per week, which will necessitate three shifts instead of two. We are of the opinion that this is a fair and reasonable request, in view of the request of the police and other departments for shorter hours.

It is to be noted that the Town of Maynard is one of three towns in the State which employs their firemen an average of 84 hours per week. The majority of towns our size average 56 hours. It is amazing to learn that there are people in this Town who did not realize that the permanent men were on duty all night. It should also be mentioned that although the men have 24 hours on and 24 hours off, there is never a day (except vacations) when they are not coming on or leaving duty. Therefore, they never have a period from vacation to vacation when they can leave Town for over night.

The question is not for us to decide. It is a matter for the voters to consider in their own way and to vote as they see fit, upon a proper presentation of the matter.

There follows the usual list of statistics which clearly indicates why our Town is classified as it is for insurance purposes.

We repeat:

PLEASE DO NOT RUSH TO AN ALARM OF FIRE. KEEP THE ROADS CLEAR FOR YOUR FIREMEN. DO NOT FORGET THAT YOUR DEPARTMENT IS STILL LARGELY A CALL FORCE AND MUST COME IN THEIR OWN VEHICLES AND IF YOU BLOCK THE ROAD, SOME OF YOUR FRIENDS MAY LOSE THEIR POSSESSIONS.

We should also call to your attention the penalties for interference with fire apparatus have been greatly increased.

Respectfully submitted,

PHILIP A. WILSON,
HENRY MARIANI,
MARTIN GRUBER,
Board of Fire Engineers.

STATISTICS

Number of calls	175
Number of box alarms	20
Number of false alarms	5
Number of dump fires	16
Number of fires in mill filter beds	15
Number of feet of 2½" hose laid	16,800
Number of feet of 1½" hose laid	3,900
Number of feet of 1⅛" hose laid	11,300
Number of feet of booster hose laid	14,775
Number of feet of ladders raised	463
Number of inhalator or resuscitator calls	11
Successful	6
Fatal	4
Demonstration	1
Calls for outside aid	4
Calls to assist other towns	4
Estimated loss for year	\$199,800.00
Estimated insurance paid on losses	\$99,150.00

Report of The Shade Tree Department

There are many factors tending to destroy our shade trees and these in turn finally destroy the trees or reduce their value as shade trees. One of these factors is damage by gas, which by breaking gas mains, kills the tree by the roots, and the tree slowly, but eventually dies, and has to be removed. Recently I have conferred with the Gas Company about one particular tree which was killed by gas, and the Company reimbursed the town for that one tree. Many more trees are suspected of dying by gas, but cannot be so proven until next year, when the tree is completely dead. Other considerable damage is done by storms which break the limbs and damage the bark, so that the trees have to be trimmed and healing paint applied to the damaged spots. This results in many times that the appearance of the tree is so noticeable, that the tree has to be removed. Then considerable damage is done to the trees by cars which hurt the bark and scars result, but if noticed soon, healing paint should be applied as soon as possible, thus the tree is saved.

There was a tremendous amount of calls from citizens who requested that limbs be trimmed, as they had a tendency to extend over the roofs of houses, and all such calls were answered by the Tree Warden. Thus, I decided to proceed with the following program, which was taking one street at a time and checking each tree. In this manner, many trees were thus saved because healing paint was applied to very small scars, several trees were bolted to prevent further splitting, and the dangerous low dead branches were removed from the trees. Many trees were taken down this year as they were either dead or considered to be dangerous to remain near the highways.

This year 66 trees were planted, of which 60 trees were purchased, and these were, 45 Norway Maple, and 15 Rock Maple. We extend our thanks to George Thompson, for donating a maple tree which was used for the Arbor Day exercises at school. Your local Tree Warden gave a nice Rock Maple which he planted near the Main Street highway, and four trees were taken from the town woodlands. Next year, we plan to plant a larger amount of shade trees because of the elms near the highways which were considered one of the best in shade trees, are being cut down because of Dutch Elm Disease, and have to be replaced. The failure of the past several years to plant many trees as a regular

program results in many more to be planted in the following year.

Please notify your Tree Warden if you notice any new damage done to the shade trees, so the damage can be checked and remedied, as we have to protect our shade trees.

Respectfully submitted,

AKSENTY LUKASHUK,
Tree Warden.

Report of Inspector of Animals and Slaughtering

I herewith submit my report as Inspector of Animals and Slaughtering for the year 1952.

Four pigs were slaughtered. Seven barns and twenty-seven herd of cows, 1 calf and 8 yearling were inspected.

The barns were clean and animals were free from Mange and other diseases.

Five hundred seventy-nine pigs were inspected and they were free from disease.

Signed,

JOSIAH M. HERRICK.

Report of The Moth Department

To the Honorable Board of Selectmen:

The past several years the Moth Department has undertaken a new and very serious duty when "Dutch Elm Disease" came into being, because it attacks and destroys the American Elm, which is one of our beautiful shade trees. Just what is Dutch Elm Disease? The disease is caused by a yeast-like fungus. It attacks the sap of the tree and slowly kills the tree. Also it is carried by the elm leaf beetles to the elm trees.

How do we determine a tree to have Dutch Elm Disease? First by the appearance, as the foliage will be wilted and turn yellow and by taking a sample and cutting into the grain of the wood, if streaked it has the disease. However, to be quite sure, we take a sample, a branch from $\frac{1}{4}$ to $\frac{1}{2}$ inch thick, a few inches long and post that tree, that is, we put a suspect card and number, and the same number on the sample and send it to the laboratories in Amherst, Massachusetts. Along with the sample, a form is written out to state the location, size, private property or public, and other remarks pertaining to the tree. Later these same forms are returned to the Moth Superintendent and state whether the tree has Dutch Elm Disease or not. If the tree is condemned, then a large yellow card stating so, is posted on that tree and the tree has to be cut down as soon as possible. This is the procedure the Moth Superintendent follows for Dutch Elm Disease.

The spraying of all the trees took place the latter part of May, so as to check the insects in their early feeding stages. Then again in July, all the elms were sprayed again to check the elm leaf beetles. It was later further necessary to answer several calls because the Maple trees were showing a wilt stage, but with spraying, was checked in time. Then we had an attack on a group of box elder trees by the box elder bugs, and to be quite sure, I called the entomologist from Amherst, Massachusetts and we found by using a dust of 5% chlordane we helped to combat these pests.

One of the greatest helps in our Moth Department was due to the fact that we were able to purchase a two-man power saw, which has saved many hours of labor and money. We hope to purchase also for our department a one man power saw, in order to be able to do lighter jobs more quickly. With

the problem that the Dutch Elm Disease confronts us, it is necessary to have this type of equipment, as the work has to be done quickly and to save money.

Eradication of Poison Ivy

Eradication of poison ivy along the roadside and highway was combated by the use of "Ammate." This material is considered the best as one spraying kills the leaves and dries the plant up, and lessens the danger of people getting poison ivy. Many persons have asked me, what to use on poison ivy, as it's in their backyard and dangerous when you have small children running around. I suggest using the "Ammate" because it takes only one application and costs a few cents per pound. By using $\frac{3}{4}$ lbs. of Ammate to one gallon of water and spray on a nice, quiet, sunny day, the plant will dry up. Other materials such as weed killer are sold on the market, but it has been found several applications are necessary with such, that Ammate is the best material to rid of poison ivy.

Your Moth Superintendent wants to be notified of any outbreak of pests or any damage done to the trees as soon as noticed, in order to check such cause before any real damage can be done. Thank you for the splendid cooperation by many citizens during the past year in notifying me about the insects on several trees.

Respectfully submitted,

AKSENTY LUKASHUK,
Moth Superintendent.

Report of Chief of Police

To the Honorable Board of Selectmen:

I hereby submit my annual report as Chief of Police for the year ending December 31, 1952. In performance of the duties of this office I have had the cooperation of this Department, the assistance of the Board of Selectmen, and the Town Counsel.

PARKING AND TRAFFIC

Two additional parking areas have been added, one at Nason Street, and one at Summer Street, these parking areas were sponsored by the Maynard Chamber of Commerce and have to some extent reduced the traffic congestion on the streets, with the increase registration of automobiles in Maynard and the surrounding Towns, serious consideration should be given for additional off street parking.

The parking meters have also been useful to reduce the congestion of the streets, all monies are collected from the meters each week and turned over to the Town Treasurer.

EQUIPMENT

As in previous years, I have requested for the purchase of a Police Car. It is far more economical to trade in for a new car annually.

CRIME vs. PUBLIC ORDER

Drunkenness	93
Driving while Intoxicated	11
Driving so as to Endanger	5
Violation of Town Ordinance	26
Operating Uninsured Car	2
Operating Without License	4
Deserter from Army	2
Disturbing the Peace	1
Non-Criminal Violations — Parking Meters	536

CRIME vs. PROPERTY

Larceny	3
Malicious Mischief	1

CRIME vs. PERSON

Assault and Battery	6
Indecent Assault	1
Threatening	1

In conclusion I wish to express my appreciation and the thanks of the Police Department to the Board of Selectmen and to all other Town Departments who have been of assistance to the Police Department.

I also wish to compliment the Maynard Chamber of Commerce on the fine work that was done on the parking areas.

Respectfully submitted,

HENRY F. PIECEWICZ,
Chief of Police.

Town Clerk's Report

For the year ending December 31, 1952

Proceedings of Town Election

March 3, 1952

In accordance with Town Warrant No. 439 the Annual Election of Town Officers was held on the above date in the George Washington Auditorium.

The polling place was prepared by the Town Clerk in conformance with the General Laws. The Moderator, Philip Wilson and the Town Clerk examined the Ballot Boxes, found them to be empty, set the registers at zero, locked them and delivered the keys to the Constables in charge.

The Ballot Clerks, appointed by the Selectmen were sworn by the Town Clerk. They were as follows:

Area 1. Edward Brennan, Evelyn M. Mulcahy, Bertha L. Davis, at the Gate Gertrude Morgan and Phyllis Savikoski at the Box. Constable William J. Spratt in charge of the Ballot Box.

Area 2. Irving G. Dart, Martha L. Champagne, Margaret J. McCormack, at the Gate. Grace M. Stokes and Helena M. Murphy at the Box. Constable Henry F. Pieciewicz in charge of the Ballot Box.

The meeting was called to order by the Moderator at eight o'clock and on motion of John F. Stokes it was voted to waive the reading of the Warrant. The polls were then declared open.

The opening of the Ballot Box before the close of polls, having been authorized by the Selectmen, ballots were removed and counting began at one o'clock. The following Tellers, appointed by the Selectmen and sworn by the Town Clerk, made the count:

TELLERS

Arthur F. Croft
Margaret M. Boothroyd
Elsie P. Brayden
Genevieve McCarthy
Eva H. Evers
Irene R. Martin

Helen M. Hinds
Mabel A. Bemis
Edward Brennan
Grace E. French
Gladys Fraser
Agnes V. Driscoll

Alice L. Joyce
Dorothy E. Hamlin

Eva M. Frye
Edna M. Farrell

Tabulators — Myrtle A. Whitney and Doris A. Lowney.

(John E. King replaced Edward Brennan at the Gate in Area 1 at one o'clock.)

William J. Spratt	1365
I. Matti Tervo	1154
Scattering	1
Blanks	1526

Henry F. Piecewicz, elected, qualified March 10, 1952.

William J. Spratt, elected, qualified March 7, 1952.

I. Matti Tervo, elected, qualified, September 11, 1952.

Attest:

ELEANOR JONES,
Town Clerk.

March 4, 1952

In accordance with the provisions of Section 19 of Chapter 41 of the General Laws of Massachusetts, I hereby appoint James V. King of Maynard to be Assistant Town Clerk during the current municipal year, or until this appointment is revoked.

ELEANOR JONES,
Town Clerk of Maynard.

I, James V. King, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

JAMES V. KING.

Subscribed and sworn to this fourth day of March, 1952, before me.

ELEANOR JONES,
Town Clerk.

Proceedings of Town Meeting

March 10, 1952

Pursuant to Town Warrant No. 440, the Annual Town Meeting to make appropriations and act on all other Articles in the Warrant, was held in the George Washington Auditorium, on the above date.

Moderator Philip Wilson called the meeting to order at 7:30 o'clock P. M.

On motion of R. Frank Punch it was voted to waive the reading of the Warrant.

Article 1. Dorothy M. McGrath read a report for the Committee on Revision of By-Laws, which was filed with the Town Clerk.

James S. Wheeler read a report for the Wage and Job Classification Committee. On motion of Harold R. Goodwin it was voted to receive this report and continue the Committee.

On motion of Harold R. Goodwin: Voted to accept the Annual Reports of the Town Officers, including the Financial Report of the Town Accountant, for the year ending December 31, 1951, as printed and published, be accepted.

Article 2. There were no vacancies in Town Offices to be filled.

Article 3. A motion by Harold R. Goodwin to appropriate for General Government, the sums of money recommended by the Finance Committee in the right hand column of their published report, was questioned by Howard L. King and the Moderator ruled that the motion must be made according to the Article published in the Warrant.

On motion of Harold R. Goodwin: Voted to appropriate for General Government the sums of money as printed in the Warrant under each item, except Items 6, 8, 26, 27, 28, 29, 38, 40, 54, 56, 58, 84, 85, 86, 102, 104 and 105, and under Item 69 to authorize the Board of Selectmen to appoint one of their members to act as Veterans' Agent.

Article 4. On motion of Harold R. Goodwin: Voted that the salary or compensation of the various elected Town Officials in accordance with Chapter 41, Section 108 of the General Laws, said salary to be effective from January 1, 1952 and remain in force until the next Annual Town Election, unless sooner changed by vote of the Town, to be as follows:

Moderator	\$50.00
Town Clerk	1,700.00
Town Treasurer and Collector	4,200.00
Selectmen, 3 Members, each	300.00
Board of Assessors, Chairman	700.00
Other Members, each	600.00
Tree Warden	300.00
Board of Public Welfare, 3 Members, each	50.00
Water Commissioners, 3 Members, each	50.00
Sewer Commissioners, 3 Members, each	50.00
Board of Health, 3 Members, each	50.00
Cemetery Commissioners, 3 Members, each	25.00
Library Trustees, 3 Members, each	25.00
School Committee, 3 Members	No Salary
Planning Board, 5 Members	No Salary
Trustees of Memorial Park	No Salary

also, that all fees and charges collected by each department must be paid to the Town Treasurer at the end of each month, and that the above salaries are effective January 1, 1952, to December 31, 1952. For changes in personnel during the year salaries will be prorated according to length of service at above recommended rates.

Article 5. On motion of Leo F. Mullin: Voted to authorize the Board of Selectmen to enter into an agreement for the acquisition, installation and maintenance of Parking Meters

for the Town of Maynard, Said agreement to contain a provision therein to the effect that payments by the Town of Maynard for the acquisition or installation of parking meters shall be made, over a period not exceeding five (5) years, from fees collected for the use of said meters.

Article 6. On motion of Harold R. Goodwin: Voted to authorize the Board of Selectmen to petition the General Court of Massachusetts for a special act for the purpose of establishing a Public Works Department in the Town of Maynard.

Article 7. On motion of Harold R. Goodwin: Voted to take from Excess and Deficiency Account the sum of \$7,000.00 for Finance Committee Reserve to provide for extraordinary or unforeseen expenditures. Transfer to be made to Departments only by vote of the Finance Committee as provided by Chapter 40, Section 6, of the General Laws.

Article 8. On motion of William J. Bain: Voted that the sum of \$1,200.00 be raised and appropriated for the Town's share of Chapter 90 Maintenance; also that the sum of \$2,400.00 be transferred from the Excess and Deficiency Account to meet the State's and County's share of the cost of this work. The reimbursement from the State and County to be restored upon their receipt, to the Excess and Deficiency Account.

Article 9. On motion of William J. Bain: Voted that the sum of \$6,250.00 be transferred and appropriated from the Excess and Deficiency Account for the Town's share of Chapter 90 Highway Construction on Powder Mill Road, also that the sum of \$18,750.00 be transferred from the Excess and Deficiency Account to meet the State's and County's share of the cost of this work. The reimbursement from the State and County to be restored upon their receipt to the Excess and Deficiency Account.

Article 10. On motion of Howard L. King: Voted unanimously, to authorize the Town Treasurer and Collector, with the approval of the Selectmen, to borrow money from time to time in anticipation of the revenue of the financial year, beginning January 1, 1952 and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, of the General Laws.

Article 11. On motion of Joseph P. Dineen: Voted to accept Chapter 403, of the Acts of 1936, relative to workmen's compensation, to include all other employees of the

Town except members of the police or fire force, regardless of the nature of their work.

Article 12. On motion of Harold R. Goodwin: Voted to authorize the Board of Selectmen to purchase a highway grader as specified in the article and that the sum of not more than \$13,500.00 be transferred from the Excess and Deficiency Fund for such purchase. Also that the present old grader be traded in towards the purchase price of the new grader.

Article 13. On motion of Gerald F. Tierney: Voted to authorize the Sewer Commissioners to purchase a Power Drive for turning the Flexible Sewer Rods, and to appropriate from Sewer Surplus the sum of \$375.00 for this purpose.

Article 14. On motion of Gerald F. Tierney: Voted to authorize the Sewer Commissioners to refund from Sewer Surplus the sum of \$300.00 to Mrs. Helen Whalen, 20 Prospect Street, so that the property at 20 Prospect Street may be assessed according to the provisions of Chapter 340 of the Acts of 1916, as amended by the vote at the Annual Town Meeting on March 13, 1950.

Article 15. On motion of Peter T. Peterson: Voted to appropriate the sum of \$8,000.00 for the purpose of laying or relaying water mains. Said appropriation to be raised as follows: \$7,000.00 to be transferred from the Water Department Surplus and \$1,000.00 to be transferred from Excess and Deficiency Account, and upon receipt of sufficient funds in Water Surplus said \$1,000.00 will be reimbursed to the Excess and Deficiency Account.

Article 16. On motion of Howard L. King: Voted to accept the following Cemetery Funds, same to be invested and the interest to perpetually care for their lots and surroundings in Glenwood Cemetery.

Aho, Fannie	\$50.00	Havanka, Kauko G.	50.00
Anderson, Jennie		Jokinen, Bruno	50.00
(Elmer Johnson Lot)	50.00	Kavalchuk, Annie	50.00
Anderson, John E.	100.00	Lehto, Emil	50.00
Archer, Thomas	100.00	Lindquist, Karl	50.00
Belida, Annie	100.00	Littlefield, Donald P.	50.00
Belida, Peter and		Maki, Victor	50.00
Christopher	50.00	Makrzecki, Michelina	100.00
Dunlop, Percy	50.00	Mann, Florence V. or	
Fonsell, Otto F.	50.00	Nellie	100.00
Haager, Henry	100.00	Murto, Emma	50.00

Nyfelt, Matti or Linda	50.00	Stockbridge, Charles A.	50.00
Pierce, Grace Miller	100.00	Sullivan, Grace M.	50.00
Rafferty Fund	6.00	Tikkala, Mary	50.00
Smith, Charlotte	100.00	West, Ingrid A.	50.00
Soroka, John	100.00		

Article 17. On motion of William J. Bain: Voted unanimously, to authorize the Board of Health to lease the property of Leo P. Boeske and Grace Boeske off Waltham Street for the use of a Town Dump.

Article 18. On motion of Leo F. Mullin: Voted that the sum of \$400.00 be appropriated for School Traffic Officers in accordance with the provisions of Chapter 397, of the Acts of 1950.

Article 19. On motion of Joseph E. Boothroyd: Voted that the sum of \$21,000.00 be transferred from the Excess and Deficiency Fund for the installation of a heating system at the Coolidge School in accordance with the specifications on file with the School Department.

Article 20. The Moderator ruled that no action could be taken under this Article as it had not been submitted to the Planning Board. (re acceptance of Third Street)

Article 21. The Moderator ruled that this Article was out of order. (re appropriation for work on Third Street)

Article 22. On motion of Harold R. Goodwin: Voted that a Stabilization Fund be established agreeable to the General Laws, Chapter 40, Section 5B. Such fund to be used for the purchase of Capital equipment for the Town use upon a two-thirds vote at a Town Meeting. Also that the sum of \$10,000.00 be transferred from the Excess and Deficiency Fund to the Stabilization Fund.

Article 23. On motion of Dorothy M. McGrath: Voted 38 in favor to 25 against, to amend the By-Laws of the Town by inserting the following section after Section 1A (proposed) of Chapter 1, to be numbered 1B:

One hundred (100) voters at a Town Meeting shall constitute a quorum, except for a motion to adjourn, for which no quorum shall be required; provided, however, that no vote shall be held to be invalid by reason of lack of the required quorum, unless it appears from the records of the Town Clerk of the meeting that before the result of such vote was declared the question of the presence of a quorum was duly raised and that the record shows that the required quorum was lacking.

Article 24. On motion of Harold R. Goodwin: Voted to amend the By-Laws of the Town by inserting the following section after Section 9, Chapter 1, to be numbered 9A:

No motion to lay a matter on the table, the previous question or to postpone indefinitely, shall be in order until a motion has been made under an article and a reasonable amount of discussion has taken place.

Article 25. On motion of Dorothy M. McGrath: Voted to amend Section 4, of Chapter 2 of the By-Laws of the Town by striking out the words "December 21st" in the fourth line of said Section 4 and inserting in place thereof the words "November 21st," and by adding, at the end of Section 4, the following; "The Finance Committee in its report shall make an estimate of the probable tax rate for the ensuing year, based on their recommendations."

Article 26. On motion of Dorothy M. McGrath: Voted to amend the By-Laws of the Town by adding the following two sections after Section 18 of Chapter 11, to be numbered 19 and 20 respectively:

No person shall place or cause to be placed in any public street, snow which may be a hindrance to traffic. Whoever violates the provisions of this section shall be liable to a penalty of not more than twenty dollars (\$20.00) for each offense.

The Superintendent of Streets, or other officer having charge of ways, for the purpose of removing or ploughing snow, or removing ice, from any way, is hereby authorized to remove or cause to be removed to some convenient place, including in such term a public garage, any vehicle interfering with such work, and the cost of such removal, and of the storage charges, if any, resulting therefrom, shall be borne by the owner of such vehicle.

Article 27. On motion of R. Frank Punch it was voted to approve the regulations of the Glenwood Cemetery of the Town of Maynard, in accordance with the provisions of Chapter 114, Section 23, General Laws. (Said regulations were incorporated in the vote of acceptance and so recorded in the Town Clerk's records)

At 10:50 P. M. on motion of R. Frank Punch, it was voted to adjourn.

Attest:

ELEANOR JONES,
Town Clerk.

Proceedings of Presidential Primary

April 29, 1952

The Presidential Primary held at the George Washington Auditorium on the above date, in accordance with Town Warrant No. 441, was called to order at 2:00 o'clock P. M. by William J. Bain, Chairman of the Board of Selectmen.

On motion of J. Fred Stokes it was voted to waive the reading of the Warrant. The polls were then declared open.

The following Election workers, appointed by the Selectmen, were sworn by the Town Clerk.

Irving G. Dart, Martha L. Champagne, Margaret J. McCormack, Helena M. Murphy and Grace M. Stokes. Constable Henry F. Piecewicz was in charge of the Ballot Box, which had been examined and set at zero by the Presiding Officer and the Town Clerk.

Duplicate Check Lists containing 3,751 names of voters of which 903 were enrolled Republicans and 881 Democrats, also 2184 Republican Ballots and 2156 Democratic Ballots, were delivered by the Town Clerk and a receipt taken therefor.

At 5 o'clock P. M. the following Tellers, appointed by the Selectmen, were sworn by the Town Clerk. Arthur F. Croft, Elsie P. Brayden, Myrtle A. Whitney, Elizabeth M. Farrell, Margaret M. Boothroyd, Doris M. Lowney, Helen M. Hinds, Gertrude Morgan, Mabel A. Bemis, Irene R. Martin. Permission having been given by the Selectmen to count ballots before the close of the polls, ballots were taken from the box and counting began at 5:15 P. M.

The Polls were closed at 8:00 o'clock P. M.

The result was announced at 10:00 o'clock P. M.

Total number of ballots registered by the Ballot Box, Three hundred and eighty-two (382).

Total number of names checked on voting list, 382.

Total number of Republican voters checked, 295.

Total number of Democratic voters checked, 87.

Proceedings of State Primary

September 16, 1952

In accordance with Town Warrants No. 442 and 443 a State Primary for the nomination of candidates of Political Parties and to vote on the so-called Rent Control Question, was held on the above date in the George Washington Auditorium.

William J. Bain, Chairman of the Board of Selectmen, as Presiding Officer, called the meeting to order at 12 o'clock Noon. A motion by John F. Stokes to waive the reading of the warrant was so voted and the polls were then declared open.

Before the opening of the polls the Presiding Officer and Town Clerk examined the Ballot Box, declared it empty and set the register at zero. It was then locked and the keys were put in the custody of Constable Henry F. Piecewicz.

The Ballot Clerks, sworn by the Town Clerk, were Irving G. Dart, Evelyn M. Mulcahy, Bertha L. Davis, Helen M. Gilleney and Phyllis P. Savikoski.

At 5:30 Ballots were removed from the Ballot Box and counting began. The count was made by Arthur F. Croft,

Elsie P. Brayden, Eva M. Evers, Margaret M. Boothroyd, Mabel A. Bemis, Irene R. Martin, Edna M. Farrell, Eleanor M. Hellawell and Grace E. French. Tabulators were Myrtle A. Whitney and Doris Lowney.

At 8:00 o'clock P. M. the polls were closed by the Presiding Officer.

The count was announced at 9:20 P. M.

A total of 1015 names were checked on the Voting Lists.

There were 259 Democratic Ballots cast.

There were 245 Republican Ballots cast.

There were 511 Rent Control Ballots cast (7 Rent Control Ballots were cast by voters not voting Primary Ballots)

The total number registered on the Ballot Box was 1015.

The results were:

Proceedings of State Election

November 4, 1952

In accordance with Town Warrant No. 444 an election was held in the George Washington Auditorium, on the above date, for Electors of President and Vice President, National, State and County officers and to vote on two questions.

The meeting was called to order at 8:00 o'clock A. M. by William J. Bain, Chairman of the Board of Selectmen, who was Presiding Officer of the Election. On motion of John F. Stokes, voted to waive the reading of the Warrant. The polls were then declared open. Official Ballots and check lists containing the names of 4,072 registered voters and 11 Special Service registered voters, were delivered to the Ballot Clerks and a receipt taken therefor. The Ballot Clerks, appointed by the Selectmen and sworn by the Town Clerk, were as follows:

Area 1. Gate. Francis A. Brayden, Bertha L. Davis and Evelyn M. Mulcahy.

Area 1. Ballot Box. Phyllis P. Savikoski and Helen M. Gilleney, with I. Matti Tervo, Constable, in charge of the Ballot Box.

Area 2. Gate. Irving G. Dart, Martha L. Champagne and Gertrude Morgan.

Area 2. Ballot Box. Helena M. Murphy and Grace M. Stokes with Henry F. Piecewicz, Constable, in charge of the Ballot Box.

Prior to the opening of the polls, the polling areas were inspected and the Ballot Boxes checked and registers set at zero and the keys put in custody of the Constables. Authorization having been given to remove and count ballots before the closing of the polls, the counting began at 10:00 o'clock A. M. by the following Tellers, sworn by the Town Clerk.

Arthur F. Croft
Elsie P. Brayden
Eva H. Evers
Sadie Sluyski
Gertrude M. Doyle
Gladys Fraser
Joyce P. McCauley
Gertrude Duggan
Agnes V. Driscoll
Edna M. Farrell

Myrtle Whitney
Doris A. Lowney
Grace E. French
Irene R. Martin
Dorothy E. Hamlin
Mabel A. Bemis
Alice L. Joyce
Evelyn Darcy
Margaret M. Boothroyd
Mary T. Ollila

Eva M. Frye
Ann T. MacGlashing

M. Mabel Holly
Dorothy Garlick

At 8:00 o'clock P. M. the polls were declared closed by the Presiding Officer.

The Presiding Officer then cast Ninety-five (95) Absent Voter Ballots. (68 Absent Voter and 27 War Ballots).

Constable Tervo reported that twice ballots caught in the rollers and registered twice before being released. The register on Ballot Box, Area 1, therefore showed 1865 but the correct number should have been 1863.

The register on the Ballot Box in Area 2 showed 1855.

The check list in Area 1 showed 1863 names checked as having voted.

The check list in Area 2 showed 1855 names checked as having voted.

Total number of Ballots cast 3,718.

The result was announced at 12:10 P. M. and was as follows

ELECTORS OF PRESIDENT AND VICE PRESIDENT

NOTICE

All dog licenses here listed expire
March 31, 1953.

Dogs must be licensed on or before
April 1st or the owners or keepers
thereof are liable to a fine.

The law applies to all dogs three
months old or over, regardless of
time of year ownership is acquired.

No tax bills are sent to owners of
dogs.

Board of Registrars of Voters

To the Board of Selectmen,
Maynard, Massachusetts

Gentlemen :

Ten advertised meetings of the Board of Registrars of Voters were held during 1952 for the purpose of registering voters. Four of these meetings were open from 12 Noon to 10:00 P. M. as required by law.

Nomination Papers of independent candidates for Town Offices containing 316 signatures were filed with the Board and of these 247 names were certified. Primary Nomination Papers filed with the Board contained 1,578 signatures of which 1,235 were certified.

All applications from those serving in the Armed Forces or from civilians, for absent voter ballots were promptly attended to by the Board.

A recount of the ballots cast at the Town Election for Trustee of the Public Library was conducted by the Registrars. There was a slight change in the figures but the result was not changed.

The voting list used at the State Election in November, 1952 contained the names of 4,085 voters, 2,040 Men and 2,045 Women. This is the largest number of registered voters we have ever had.

Respectfully submitted,

ALEXANDER J. BOURKE, Chairman
REGINALD JONES
EDWARD E. PUFFER, Jr.
ELEANOR JONES, Clerk

Report of the Board of Public Welfare

January 6, 1953.

The Annual report of the Board of Public Welfare is herewith submitted:

GENERAL RELIEF

There has been very little change in the General Relief picture for the past three years. Old Age and Survivors Insurance and Unemployment Compensation have taken up the slack to a great extent and many of our workers have found employment in other cities and towns. However, it is expected that much of the Unemployment Compensation will run out this year and we must expect to open many new cases.

As of December 31, 1952 we are caring for twenty families in Maynard and seven cases in other towns with a Maynard settlement. Several cases have been opened and closed through the year.

Relief, medical and hospital costs, have increased materially and show no signs of decreasing at present.

DISABILITY ASSISTANCE

This new category of relief opened in November 1951 under Chapter 118D and we have at present five cases receiving relief under this chapter at an average of \$80.59 per case. Seventy-five per cent of the cost of caring for these cases is reimbursed to the town through Social Security and the Massachusetts State Department of Public Welfare.

OLD AGE ASSISTANCE

Ninety-six persons are receiving relief in this category as of December 31, 1952, consisting of sixty women and thirty-six men; fourteen cases less than the preceding year. Under the Lien law which went into effect January 1, 1952, ten persons were dropped from our rolls at their request. Ten other cases with Maynard settlement are receiving Old Age Assistance in other cities and towns. Seven of our Old Age Assistance cases are at present in Rest and Nursing Homes. Sixteen new cases have been opened through the year and thirty-four cases have been closed.

New minimums were added to the State policies in October 1952, whereby all single cases must receive at least seventy-nine dollars per month, less resources and all family cases must receive at least fifty-nine dollars per month, less resources. There are no maximums in Old Age Assistanfe.

AID TO DEPENDENT CHILDREN

At present we are granting relief through Aid to Dependent Children to four cases, one less than a year ago. Three cases have been added and two cases closed through the year.

The financial report of receipts and expenditures will be found in the report of the Town Accountant.

Signed —

BOARD OF PUBLIC WELFARE

ALTON W. SIMS, Chairman

CHARLES P. SPURRELL, Clerk

ALFRED S. CAREY, Jr.

Report of the Board of Health

December 31, 1952.

To the Board of Selectmen:

During the past year the Board continued their policy of conducting many worthwhile clinics; the hospitalization of needed persons due to illness classified under the Health Department; the x-raying and the follow-up at clinics at the Middlesex County Sanatorium.

VACCINATION CLINICS

A total of 48 children were inoculated against smallpox at this important clinic which was in charge of Dr. E. F. Ryan assisted by Miss Mary Ward, R. N., Mrs. Martha Champagne, R. N. and School Nurse, Mrs. Dorothy Holt, R. N. A child on reaching the age of six months should receive this protection against small pox.

DIPHTHERIA CLINICS

Every parent should realize the importance of having his child protected against this dreaded disease, either at the clinic or by his family physician. Although this town has been free of this disease for 21 years, we cannot get careless or relax, for there could be an outbreak and epidemic in rapid manner. Parents are reminded that a child reaching the age of six months should be immunized against diphtheria.

SCHOOL DENTAL CLINICS

The value of these clinics are best told in the health and development of the health of the school children. Drs. F. A. May and S. R. Garland are to be commended for their fine work in caring for these youngsters teeth at a small nominal fee.

TUBERCULOSIS

As often stated, tuberculosis has been our most serious disease, both in hospitalization and as an expense. We must and will continue to have all persons x-rayed at the request of a physician. By having a person hospitalized in the early stages, we can try to control the disease, thus being of benefit to both the individual and the welfare of the townspeople. We are fortunate that the state pays a subsidy of \$5.00 per week for each person hospitalized at the sanatorium. Thus

the cost is small for the fine service and treatment the patient receives while at the sanatorium. There is no charge for x-raying at the Middlesex County Sanatorium.

DOG CLINIC

A total of 218 dogs were inoculated for protection against rabies at the 21st annual Dog Clinic. Dr. Stedman was in charge assisted by Josiah Herrick local dog officer. Once again a reminder to have your dog inoculated once a year and aid in the war on rabies.

The annual report of the milk inspector will be found on another page. He has done a faithful and excellent job in his capacity here.

Although there was a mild epidemic of measles, the co-operation of the townspeople, physicians, nurses and school authorities managed to keep the number low.

COMMUNICABLE DISEASES

Dog Bite	6
Chicken pox	8
Mumps	3
Measles	23
Scarlet Fever	2
Tuberculosis	4

It is with deep regret we note the passing of Dr. F. A. May who devoted years of duty to the School Dental Clinic.

A Health Budget, as we know from personal experience, is difficult to foretell. The number of communicable diseases which requires hospitalization controls the budget. We wish to thank the Finance Committee for their understanding and co-operation in this respect the past years.

The Board wishes to thank all the townspeople, their faithful employees, the various town departments for their splendid co-operation in the work of the health.

Respectfully submitted,

JOHN J. JOHNSTON,
LESTER F. COWLE,
HOWARD L. CLARK,
Board of Health

Annual Report of Nurse for the Year Ending Dec. 31, 1952

Number of Patients visited	692
Paid Nursing Visits	1,926
Old Age Assistance Calls	627
Town Nursing Visits	464
Total	2,017

All other activities of the Nursing Services will be found in the Board of Health Annual Report.

Signed,

MARY A. WARD,
MARTHA CHAMPAGNE,
Board of Health Nurses.

Report of Milk Inspector

Board of Health
Maynard, Massachusetts

Gentlemen:

During the year of 1952 I have found conditions in the dairies, that supply Maynard with dairy products, to be very good. There have been no serious violators of the milk laws and no conditions were serious enough to warrant court action.

The bacteria counts this past year have improved over the previous years, and the general sanitation of the various dairies were found to be very satisfactory.

Sincerely yours,

ROBERT W. RIMBACH,
Inspector of Milk.

Report of the Board of Appeals

To The Board of Selectmen
Maynard, Massachusetts.

Gentlemen:

The following appeals and petitions have been considered during the year 1952 under the protective Zoning By-Laws:

Birger R. Koski, 145 Parker St. Non-conforming use of premises (auto repair and paint shop)	denied
Reno T. Aho, 24 Marlboro St. Side yard variation (accessory building)	granted

On June 9th Harold Wilcox resigned as an alternate, Willis Lester was appointed to fill the unexpired term. On October 30th Howard Schreiber resigned as clerk and Gerald Tierney was elected to the office.

Respectfully submitted,

EDMUND W. BEEBE, Chairman
 GERALD F. TIERNEY, Clerk
 JAMES P. BAUDREAU
 HOWARD E. SCHREIBER
 WALTER E. CARBONE
 HENRY R. PIRKOLA, Alternate
 WILLIS I. LESTER, Alternate

Report of Library Trustees

To the Citizens of the Town of Maynard:

We herewith submit the report of the Librarian and Trustees for the year 1952.

REPORT OF LIBRARIAN

We are indebted to the following libraries for the loan of books:

The Division of Public Libraries, Boston Public Library, Brookline, Concord, Cambridge, Lynn, and Watertown.

The following have donated books or magazines to the Library, for which we express our thanks.

The Rotary Club
 The Holy Name Society
 The Middlesex Laundry
 Maynard Garden Club
 Mrs. Ina Junno
 Miss Ruby Hamlin

The Statistical Report is as follows:

Books in the Library, January 1, 1953 ..	14,086
Discarded	45
Lost Books	26
Borrowed	260
Bound	64
Purchased	330
Magazines	41
Daily Paper	1
Weekly Paper	2
Fines Collected	\$122.96
Circulation	26,474

Respectfully submitted,

OLIVE R. MORGAN,
 Librarian.

The Public Library Trustees hereby endorse the report of the Librarian.

We wish to thank Miss Morgan and Mrs. Lester for their co-operation during the year and for their splendid work in

making the Library an attractive and pleasant room for patrons.

The children's room deserves special mention and we wish the mothers and fathers would visit it sometime to see how the recreational and intellectual needs of their children are cared for by the careful selection of books and by the efforts to make the surroundings of their department most pleasant and cheerful.

Suggestions from patrons in regard to the selection of books or as to the general welfare of the Library will be gratefully received by the Trustees.

In March of this year, the Library lost a most faithful worker in the death of John E. Hannon. For 41 years Mr. Hannon served as a member of the Board of Trustees and was always active in furthering the progress of the Library and advancing its service to the people of the town. The loss of such a worker is keenly felt by the personnel of the Library.

Respectfully submitted,

MARY H. FLANNERY, Secretary,
NELLIE C. MAY, Chairman,
R. FRANK PUNCH,
Maynard Public Library Trustees.

Report of Water Commissioners

To the Board of Selectmen :

Gentlemen :

The report of the Water Commissioners for the year ending December 31, 1952 is herewith submitted. The report of the Superintendent is included. This is the sixty-fourth report of the Water Department.

Mains were extended on the following streets: Parker Street, South Street and Assabet Street.

The fence around the reservoir has been repaired by replacing forty new posts and restretching the wire.

The reservoir has been cleaned and the brush and grass around the reservoir cut.

A new pump to replace the small pump which is not adequate to meet the demand should be replaced.

A new truck suitable for use by the Water Department needs should be purchased. The present truck is in need of extensive repairs.

The voters of the Town have voted to place the Water Department under Public Works to take effect March 2, 1953. It has been a pleasure and privilege to serve the Town as your Water Commissioners. Gavin Taylor has served on the board since 1910 and has been chairman of the board since 1925. Edward J. Boulden has served on the board since 1945 and has been Secretary since 1946. James J. Bakun has served on the board since 1946.

Respectfully submitted,

GAVIN TAYLOR,
EDWARD J. BOULDEN,
JAMES J. BAKUN,
Water Commissioners.

Report of the Water Superintendent

To the Board of Water Commissioners:
Gentlemen:

The report of the Superintendent of the Water Department for the year ending December 31, 1952 is herewith submitted.

January 1, 1952 the water in the pond was 28 inches from high water elevation. By May the pond had filled to an elevation of six inches above full pond. December 31, 1952 the pond was thirty inches below high water elevation.

Twenty-six new services have been added this year making a total in use 1760. Thirty-three services have been relaid. Nineteen cellar stops were replaced and eleven services were cleaned.

Twenty-six services have been metered making the total 1817 now in use. Three hundred and forty-one meters were repaired.

Four hydrants were broken by automobiles and have been repaired. Eleven leaks in services and five in the main lines have been repaired.

Mains were extended on the following streets: Parker Street, 205 feet with six inch cement asbestos; South Street, 520 feet with six inch cement asbestos; Assabet Street, 720 feet with six inch asbestos. Two new hydrants were set.

With the use of Calgon in the water the reservoir must be cleaned every other year and was therefor cleaned this year. Water was started back into the reservoir at noon July 3 but due to the demand by the water takers no water came into the reservoir until 11:00 P. M. that night. The large pump with a capacity of 560 gallons per minute was not shut down for the balance of the month. The other pump at the station has a pumping capacity of 290 gallons per minute. This pump should be replaced with one of greater capacity.

All Calgon samples and samples for the State Board of Health were taken when required and met all requirements necessary.

PUMPING RECORD

Month	Gallons	K. W. Hours
January	11,295,200	11,940
February	12,316,900	13,020
March	12,581,800	13,300

April	12,487,200	13,200
May	13,527,800	14,300
June	14,417,000	15,240
July	20,038,800	21,180
August	15,079,200	15,940
September	11,162,800	11,800
October	10,462,700	11,060
November	9,762,700	10,320
December	9,554,600	10,100
	<hr/>	<hr/>
	152,686,700	161,400

Average daily consumption 418,237 gals.
 Average daily per person for 7,000 59.7 gals.

I am grateful for the assistance given me by the Water Commissioners and other Town Departments and to the department employees who have been co-operative.

Respectfully submitted,

PETER T. PETERSON,
 Superintendent.

Report of the Sewer Commissioners

To the Board of Selectmen:
Gentlemen:

The twenty-third report of the Sewer Department for the year ending December 31, 1952 is herewith submitted. The Superintendent's report is also included.

It is with deep regret that we report the death of Thomas H. Tierney on May 29, 1952. Mr. Tierney was elected to the Board in March 1931, and served the Town until the time of his death.

There were no sewer extensions made this year. Applications for a number of short extensions have been accepted and an article will be placed on the warrant for the voters to vote upon.

The power drive for the street rods has been purchased.

Twenty-one house connections were made making the number in use 1165.

The voters of the Town have voted to place the Sewer Department under Public Works to take effect March 2, 1953. It has been a pleasure and privilege to serve the Town as your Sewer Commissioners. Vincent Crotty has served on the board since 1948 and has been Secretary of the board since 1948. Gerald F. Tierney has served on the board since 1948.

Respectfully submitted,

VINCENT CROTTY,
GERALD F. TIERNEY,
Sewer Commissioners.

Report of the Superintendent of Sewers

To the Board of Sewer Commissioners:
Gentlemen:

The report of the Superintendent of Sewers for the year ending December 31, 1952 is herewith submitted.

Analysis and tests of sewerage taken from different points in the disposal system by Massachusetts Department of Public Health show that the Imhoff tank and the entire disposal plant is operating efficiently.

Thirty-seven stoppages in the house connections and sixteen in the common sewers were cleared.

Twenty-one house connections have been made this year making the number in use 1165.

The planks covering the secondary tank were replaced.

The new power drive for the street rod was purchased and is giving satisfactory service.

Special equipment to safeguard the electric equipment at the pumping station has been installed.

Record of pumping at the Powdermill Road Station:

Total flow for year, 107,426,100.

Average daily flow, 291,557.

I am grateful for the assistance given me by the Sewer Commissioners and other Town Departments and to the department employees who have been so co-operative.

Respectfully submitted,

PETER T. PETERSON,
Superintendent.

Report of the Work of the Middlesex County Extension Service in Maynard

The Middlesex County Extension Service is an organization maintained by the County in cooperation with the University of Massachusetts and the United States Department of Agriculture to serve the citizens of the town in the field of agriculture and home economics. The work is carried on under the guidance of the town director who is assisted by the chairman in home-making and boys and girls 4-H Club work.

The county office makes farm and home visits to help when requested and, in addition, carries on organized projects county-wide under the guidance of farmers' and homemakers' service on County Committees.

Radio service is maintained weekly on WBZ, monthly on WHDH, and five days a week during the summer on WKOX. A monthly bulletin with a circulation of 5,000 is maintained and timely notices of interest to dairymen, fruit growers, market gardeners, poultrymen, and commercial florists are sent to anyone on request.

The Extension Poultry Program in 1952 was keyed to help poultrymen and turkey growers to improve the efficiency of their operations, maintain flock health, and take better advantage of their marketing opportunities. Efforts were made to provide breeders with information which might help them to hold their prominent place in the industry and routine service was provided in all phases of poultry and turkey farming.

Milton Duclos is a member of the Advisory Committee which plans the Extension Poultry Program and is a Director of the Middlesex County Poultry Association. Mr. Duclos also participated in the 1952 Middlesex Flock Health Program.

A spray service is maintained by radio to all fruit growers as well as market gardeners. Fruit growers also follow closely the weekly twilight meetings held during the growing season to keep abreast of production and marketing problems. There has been an increased demand from home owners for information on vegetables, flower gardens, and lawns.

Mr. R. C. Creighton has been an excellent cooperator in the growing of raspberries and strawberries. Russell Fitz is a small orchardist who also has been an excellent cooperator.

Mrs. Lauri Manning, Mrs. A. N. Rivers and Mrs. Kenneth Jarvinen represent Maynard on the Woman's Advisory Council. Four groups saw the "Christmas Everywhere" program presented; a clothing clinic was held where problems of renovation and clothing care were discussed. Demonstrations on "The Art of Sandwich Making" and "New Laundry Products" were well received. Miss Janet Taylor attended a leadership course on Textile painting and is using this information with her 4-H group.

4-H Club work was again a most active youth organization in Maynard. There were 110 girls enrolled in projects which included foods, home furnishings, craft, child care and clothing.

Miss Janet Taylor received her fifth year silver pin for 4-H leadership, as well as a National 4-H award for the Recreation and Rural Arts Program.

Betty Jarmulowicz represented the county in the State 4-H Dress Revue.

Sixteen girls attended Camp Middlesex, the 4-H Club Camp in Ashby.

April was the month for the town exhibit which included fifteen clubs. The interest in Club work was high among the townspeople and attendance at 4-H events.

Those people responsible for the success of 4-H Club work in Maynard were: Mrs. Paul Sawyer, 4-H Town Chairman; Mrs. Ralph Sheridan, Secretary of the Town Committee; Mrs. Alexander Massarelli; Miss Janette Taylor; Mrs. F. A. May; Mrs. Albert Rubin; Miss Mary Hodges; Mrs. Walter Larkin; Mrs. Vincent Jarmulowicz; Mrs. Alric French; Mrs. Eino Eklund; Mrs. Irving Manning; and Miss Jane Sawyer.

Respectfully submitted,

MILTON DUCLOS,
Town Director.

Report of Cemetery Commissioners

Maynard, Mass., January 6, 1953.

To the Honorable Board of Selectmen:

The annual report of the Board of Cemetery Commissioners is herewith submitted.

The usual work of trimming the trees and shrubs was accomplished. Due to the over crowding and thick growth of the evergreens, it was necessary to transplant and remodel several of the shrub beds.

Several trees throughout the cemetery were trimmed and all underbrush cut and burned. The shrub beds were weeded and cultivated and all shrubs trimmed.

The Commissioners at this time wish to express their thanks and appreciation to the people and the various departments for their cooperation during the past year.

Respectfully submitted,

GUYER W. FOWLER,
GEORGE WEAVING,
WALTER FRANCE,
Cemetery Commissioners.

Report of Superintendent of Glenwood Cemetery

Maynard, Mass., January 6, 1953.

To the Cemetery Commissioners:

I herewith submit the report of the Superintendent of Glenwood Cemetery for the year 1952.

During the early spring and fall several of the badly sunken graves were repaired and improvements made in sections where it was inconvenient for the proper handling of power mowers.

The shrubs throughout the cemetery have been trimmed and all shrub beds weeded and cultivated. All catchbasins were

cleaned and several avenues were graded and put in proper condition.

Repairs were made on the tool house and it also received a coat of paint. Several markers were reset and many of the larger trees were trimmed and sprayed.

In conclusion, I take this opportunity of thanking the Commissioners for their kind help during the past year.

Respectfully submitted,

ROY E. MARSDEN,
Superintendent.

Report of the Board of Retirement

December 31, 1952.

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Eight new members have been added during the year 1952 and two retired members died during the year.

A statement has been mailed to each member giving his or her credit as of December 31, 1952.

Respectfully submitted,

HAROLD J. MORGAN
JAMES V. KING
ROBERT B. DUGGAN

	\$58,931.00	\$58,931.00

Assessors' Report

To the Board of Selectmen:

The Annual Report of the Board of Assessors for the year ending December 31, 1952, is submitted herewith:

In accordance with the provisions of the General Laws of Massachusetts, Chapter 59, Section 29, all owners of taxable property shall each year on or before the 31st of January, submit to the local Assessors a list with the valuation of their taxable property. Notices are posted, and forms may be obtained at the Assessors' office in the Municipal Building.

All Male Inhabitants who are 65 years of age and over, and who wish to be exempted from payment of a poll tax, must make a request in writing on a form furnished at the office of the Assessors.

Each year increasing duties are imposed by the State Department upon your Assessors, made necessary by newly created tax laws by the Legislature. Yearly work has been added to this office by the great increase in Motor Vehicle taxes known as the Excise Tax. There is a great increase in the number of Real Estate Transfers which requires a great deal of additional work in the Assessors' office. The office is open each day from 9:00 A. M. to 5:00 P. M. except Saturdays.

HOWARD L. KING,
Treasurer-Collector.

Town Accountant's Report

Maynard, Massachusetts, January 12, 1953.

To the Honorable Board of Selectmen:—

Herewith is presented the report of the Accounting Department for the year ending December 31, 1952. The report is made in accordance with the requirements of the State System of Accounting.

In accordance with the provisions of Section 61, Chapter 41, of the General Laws, I hereby certify that I have verified the cash balance of the Town Treasurer as of December 31, 1952. The total cash balance December 31, 1952 was \$218,891.85.

The net debt of the Loan Accounts amounts to \$60,000.00 which is about approximately 1.00% of the Town Valuation.

The courtesy and co-operation received from the various town boards, officials, and employees is gratefully appreciated.

Respectfully submitted,

JAMES V. KING,
Town Accountant.

Report of the Planning Board

December 31, 1952

To The Board of Selectmen
Maynard, Massachusetts

During the year 1952 the Planning Board held twenty-five regular meetings in addition to twelve special meetings.

Parking

The uprising of suburban shopping centers is literally forcing local communities into doing something about their inadequate parking facilities. Many towns and cities have appointed special boards and commissions to take action in providing parking areas.

The Maynard Chamber of Commerce with the co-operation of the town departments have done a gratifying job of establishing two parking lots and repairing the one in the rear of People's Theatre, which was recommended by the Planning Board for 1952.

For 1953 it is recommended that the parking area adjacent to Memorial Park be oiled and the stalls marked. Proper parking of cars will facilitate movement about the parking lot. A fence should be installed on the side adjacent to the Osbeck property. A roadway should be constructed along the rear of Memorial Park to connect the two parking areas.

Zoning

During 1952 single dwelling house construction reached a new peak. The number of permits issued under the Protective Zoning By-Law as compared with 1951 are as follows:

	1951	1952
Single dwellings	11	26
Additions (other than garages)	11	22
Garages	16	13
Accessory buildings	3	2
Business establishments	—	2

The trend is toward building homes with a larger floor area than in the past. Many of the new homes have been built on lots having more than the required width thus not overcrowding the premises, also leaving room for future additions. On the other hand some are still attempting to build too large a home on a small lot.

Subdivisions

South street and related lots have been approved by the Board. This street should require very little work in order to be accepted by the Town in the future, as an adequate water main has been installed and the street has been brought to a proper grade with a minimum of one foot of good gravel.

The Board of Selectmen have again attempted to sell the remaining portion of the Eveleth estate. After spending money for advertising with no bids received, it is recommended that a sum be appropriated to have engineers make a topographic survey of the land and plans of layouts of streets, lots, drainage, sewer and water lines, with estimates of costs of constructing the same. This to aid in determining the cost of development per lot to the Town for which they can be sold to present or future residents of Maynard. The cost of engineering will not be a large investment, and as it is seen feasible streets may be constructed and utilities installed.

Acceptance of Streets

Reports on condition and recommendations for construction of Third Street and Colbert Avenue have been submitted to the Board of Selectmen. It is anticipated that with the advent of the Public Works Department that streets in the future will be constructed with particular care given to surface drainage.

Since we do not have a Town Engineer we are fortunate to have a civil engineer member of the Board which has made it unnecessary to hire a surveyor for the taking of street elevations and bearings of Town property.

Recreational Facilities

With the co-operation of the sponsors of the Little League the School committee was able to have the stands on the south side of Alumni Field painted, the stands on the north side are anticipated being painted in 1953.

Two-thirds of the fence around the field has been painted which was recommended. The remainder is expected to be finished in 1953.

The Planning Board has recommended that the School committee have a portion of the adjacent Eveleth estate annexed to Alumni Field for future use by them.

Highway Improvements

The eradication of poison ivy which was recommended for 1952 should be continued as this plant can be kept under control by persistent spraying.

Shade trees should be planted in the Glen-Haven development which will add to the appearance of this section.

We wish to thank the Town Boards and Departments for their co-operation and assistance throughout the year.

Respectfully submitted,

ERNEST J. IANNUZZO,
ROWLAND W. DAWSON,
ARTHUR F. CROFT,
FIORENTINO J. DiGRAPPA, Clerk,
WALTER E. CARBONE, Chairman.

School Calendar for 1952 - 1953

HIGH SCHOOL — 39 WEEKS

Fall Term began	September 2, 1952
Closed	December 23, 1952
Winter Term began	January 5, 1953
Closes	February 20, 1953
Early Spring Term begins	March 2, 1953
Closes	April 17, 1953
Late Spring Term begins	April 27, 1953
Closes	June 19, 1953

ELEMENTARY SCHOOLS — 38 WEEKS

The same as for the High School except that Late Spring Term closes on June 12, 1953.

DAILY SESSIONS

Roosevelt School	8:30-11:30 A.M.	1:00-3:15 P.M.
Coolidge School	8:45-11:45 A.M.	1:15-3:30 P.M.
Junior High School	8:45-11:45 A.M.	1:00-3:00 P.M.
Senior High School	8:00 A.M.	1:00 P.M.

HOLIDAYS, etc.

October 13, 1952	Celebration of Columbus Day
October 31, 1952	Teachers' Convention
November 11, 1952	Armistice Day
November 27, 28, 1952	Thanksgiving Recess
April 3, 1953	Good Friday

STORM SIGNALS

Three blasts for first eight grades, five blasts for entire school system. Blown at 7:15 A. M. and 12:30 P. M.

Announcements of "No School" will also be broadcast over WBZ and WEEL.

N. B. Errors in judging the weather are unavoidable. It is suggested that parents exercise independent judgment about sending children to school in stormy weather.

Report of Maynard School Committee

To the Citizens of Maynard:

We herewith submit the Annual Report of the School Committee for the year ending December 31, 1952

Throughout the year the School Committee has held a regular meeting on the evening of the first Monday of each month for the transaction of business which properly came before it. Special meetings were held at other times whenever it was deemed necessary. We have made special visits to the buildings to ascertain their condition and to inspect alterations and repairs in progress. Previous to the drawing up of estimates for the operating of your schools for 1953 a thorough survey was made of all the buildings and grounds to determine the necessary proposals relative to alterations, maintenance and repairs.

By means of this report we wish to call the following pertinent matters to the attention of the people of Maynard:

CHANGES IN PERSONNEL

Maynard is very fortunate in having had only a minimum of withdrawals from the system. The following changes in the personnel have taken place during 1952:

Resignations

William A. Calarese	Bookkeeping, Sec. Training, etc.
Gerard J. Costello	Mathematics and Assistant Football Coach
Mary M. Shine	French and English
Mildred A. Desmond	J. H. Grammar and History

Appointments

Rose E. Chiesa	French and English
Francis J. Collins	Mathematics and Assistant Football Coach
Meredith Drew	Bookkeeping, Sec. Training, etc.
Louise J. Pascoe	J. H. Mathematics, Grammar and Composition
Frances Flynn	Roosevelt — Grade Five
Dorothy G. Holt, R.N.	School Nurse

One member of the personnel retired — Miss Edith B. Foster, R. N., School Nurse. The School Committee has caused the following resolution to be spread upon its minutes:

"WHEREAS, Miss Edith B. Foster retired from service in the Maynard Schools on January 14th, 1952,

THEREFORE BE IT RESOLVED, that the School Committee record on its records an acknowledgment of almost twenty-five years of faithful service given by Edith B. Foster to the Town of Maynard as School Nurse."

SALARIES

The salary schedule which became effective after the Annual Town Meeting held on March 10, 1952 (and retro-active to January 1, 1952) has already begun to bear fruit in the promoting of contentment among our teachers, professional improvement, improved morale, better classroom teaching, and a stronger school system. We have been able to retain good teachers who otherwise would have undoubtedly moved on to other systems. Also we have been able to attract better teachers than we would have without the schedule.

WILSON SCHOOL

We had hoped to be able to report that all our school buildings were in excellent condition, both inside and outside. However, the disastrous pre-dawn fire of December 18th at the Wilson School precludes us from making that statement.

At the present writing we have not as yet met with the representatives of the insurance companies to arrive at a settlement. From our observations at this time however, it would seem that the building is a total loss.

One of our first major concerns immediately following the fire was to make arrangements for the continuance of the educational processes of the children attending the Wilson School. The Acton School Committee very graciously released us from our agreement with them, giving up one room each in the Roosevelt and the Coolidge School. Grade One of the Wilson School is to go to the room thus vacated at the Coolidge School, while Grade Four is to hold sessions in the room formerly rented to Acton in the Roosevelt School. Grade Two is to meet in the Guidance Room of the High School. Grade Three is to take over the Activities Room of the Roosevelt School. Grade Five is to meet in the Activities Room of the Coolidge School. Grade Six is to hold sessions in the Junior High School.

While we have thus found space within our present buildings, it is obvious that this arrangement is not conducive to an educational program that we feel confident the people of Maynard desire and should provide for their children. It is at

best a temporary arrangement in the face of the present emergency and should not be allowed to continue indefinitely.

The above arrangement was reached only after a very lengthy consideration of a number of plans. It eliminates the necessity of holding double sessions. It also eliminates the need of running a single session at one of the schools which would have resulted in most of the pupils in that particular building carrying a cold lunch with them. We repeat, however, that this arrangement should not be allowed to continue indefinitely since its inevitable result (as the inevitable result of any comparable arrangement would be) represents a drastic curtailment of a minimum educational program.

The present arrangement keeps each child of the Wilson School area with the teacher with whom he started the current school year and enables him to begin on January 5th, as far as it is humanly possible under the present circumstances, at the same place where his studies were interrupted by the fire.

The destruction of the Wilson School has made it necessary to use every bit of available space within our existing buildings. Thus, the problem of providing more space to care for our present and future school populations stares us squarely in the face.

Accordingly, then, your School Committee will sponsor an article at the Annual Town Meeting to be held in March for the appointment of a School Building Committee (1) to investigate among other things, the school building needs of the town and the possibilities of state and/or federal aid in any construction that may be necessary, and (2) to make recommendations in the light of its findings.

It is our contention that with the insurance monies received as a result of the fire, state and/or federal aid, a judicious transfer from the Excess and Deficiency Fund, and the floating of a bond issue — that any proposed school construction program should not too seriously affect the tax rate of the town of Maynard.

MAINTENANCE

Your School Committee feels that it has the obligation to maintain, preserve and modernize the present buildings. We feel that the present condition of each of these buildings is indicative of the careful and conscientious attention of the present and past School Committees. It is our hope to continue the same long-range planning for the benefit of your children.

MAJOR REPAIRS AND REPLACEMENTS 1952

Replacing Stair Treads — Roosevelt School
 Painting of Exterior of Senior and Junior High Schools
 Painting of two classrooms — Senior High School
 Painting of Chairs — Auditorium
 Resurfacing of Floor — Gymnasium
 Miscellaneous Masonry Work on Each Building As Needed
 Installation of New Heating System — Coolidge School
 Sanding etc., of 100 Desks in Each Building
 Repairing of Gutters at Auditorium
 Replacing of Three Typewriters
 Bench Drill Vise
 Mitre Box
 Motor for Disc Sander
 Purchase of Sander for use of Shop and Custodians

 PROPOSED ALTERATIONS, MAINTENANCE, AND
 REPAIRS FOR 1953
High School:

Paint two rooms, upper corridor and principal's office
 Paint flag pole
 Install new window shades in four rooms
 Install adequate light fixtures in office
 Install new sink in upper corridor
 Repair wall and ceiling of stairwell
 Replace forty units of furniture

Coolidge School:

Paint two rooms and corridor
 Paint flag pole
 New dado in lower corridor

Junior High School:

Install window shades in shop
 Duplicator
 Sewing Machine

Auditorium and Gymnasium:

Clean and re-cover gym mats

Roosevelt School:

Paint one room
 Install new window shades in five rooms
 Replace toilets in boys' toilet room
 Install additional toilets in girls' toilet room

These items and a few other miscellaneous items such as typewriter upkeep, office machine upkeep, clock maintenance, and the like are for the most part maintenance items which any prudent property owner would undertake to keep his property up to par and in desirable condition.

OUTLAY

The following items are to be interpreted as permanent improvements or additions within our buildings:

There have never been any facilities beyond the textbook for the teaching of General Science and Biology in the High School. Effort has been made on the part of the Chemistry and Science teachers to use the Chemistry Laboratory together, but it is not practical. As a result, we propose to equip a room with a teacher's demonstrating desk piped with gas and water.

There is need for a bicycle rack and storage closet in the Junior High School plus three classroom bookcases at the Roosevelt School. We propose to purchase the lumber for these and to have them built by the manual arts students.

There is the need for work tables for classroom activities at the Roosevelt School. Rather than purchase heavy tables for each classroom, we propose to purchase light, folding tables which can be transported from room to room.

As far as equipment is concerned, we propose to purchase an audiometer for use in the testing of pupil's hearing. In the past we have been able to borrow an audiometer for a very short period of time. However, we have never felt that this has given the School Nurse an opportunity to test adequately. With a machine of our own a more adequate testing program can be arranged in the interests of your children.

We propose also to purchase some miscellaneous equipment for the household Arts Department and some incidental tools for the shop, thus enlarging to a slight degree the offerings of both these departments.

There has always existed a great deal of danger from snow falling from the roof of the Coolidge School. We propose to install snow guards as a protection for the children from falling snow.

ALUMNI FIELD

During 1952 a portion of the fence surrounding Alumni Field was painted. So also was the metal work on one of the grandstands. In 1953 we propose to complete the painting of the fence and of the grandstands.

Your Committee is not unaware of the absence of sanitary facilities at Alumni Field. We have given considerable thought to and have sought advise on the matter. However, we have concluded that the cost for installing such facilities at this time was not justified in view of other major needs of the town.

The granting of permission for the use of the practice area at Alumni Field for Little League Baseball for the 1952 season has resulted in some permanent improvements which are to the benefit of the children of Maynard.

At the Annual Town Meeting to be held in March we will propose an article to transfer to the School Committee a portion of land adjoining Alumni Field and presently owned by the town of Maynard. This land will help to make more regular the boundaries of Alumni Field and will be available in the future for any expansion of the athletic facilities of the area or for any purposes deemed necessary and proper for the education of the children of Maynard.

VOCATIONAL EDUCATION

At the present time, under the provisions of Chapter 70 of the General Laws, there are nine students from Maynard attending Vocational Day or Evening Schools. The town of Maynard is liable for the tuition of these students, but is reimbursed by the state for fifty percent of the amount expended.

By a recent change in the provisions of Chapter 74 of the General Laws, the town of Maynard is required to pay for the transportation of these pupils who attend such schools. The town is reimbursed by the state for fifty percent of the amount expended.

CONCLUSION

The destructive fire at the Wilson School has placed a challenge before the people of the Town of Maynard. We are confident that this challenge will be met forthrightly and that whatever construction or other steps may be necessary to care for the educational needs in an adequate manner will be wholeheartedly undertaken.

We wish to take this opportunity to thank the citizens who were responsible for the testimonial banquet tendered to the members of the High School Football Team in December of 1951 for outfitting the boys of the so-called Junior Varsity Football Team (Grades 8 and 9). The valuable experience gained by these boys will in time be reflected in the football teams of the Senior High School.

To the citizens who were responsible for the testimonial banquet given to the members of the High School Football Team in December 1952 we wish to express our grateful appreciation.

The report of the Superintendent of Schools, which follows, in a large measure covers the activities and conduct of the Maynard Schools and deals with their accomplishments, their aims, and their purposes. We recommend this report for your consideration.

In conclusion we wish to express our appreciation to the Superintendent of Schools, the Principals, the other members of the entire personnel, and all others who in any way were responsible for making a successful year possible.

Respectfully submitted,

JOSEPH E. BOOTHROYD, Chairman
NOBLE E. LOOMER, Jr., Secretary
PHILIP S. MORRISON

January 3, 1953

Report of the Superintendent of Schools

To the School Committee and Citizens of Maynard:

It is with pleasure that I submit my report on the phases of the educational system for which I am responsible.

ENROLLMENT

Previous to the Wilson School fire, an effort was made to keep the enrollment as evenly distributed as possible by districts. The cooperation of the parents in accepting the assignment of children to particular rooms or buildings has been excellent.

Before the fire, the enrollment for the various buildings and grades was as follows:

	Grade—1	2	3	4	5	6	7	8	9	10	11	12	Totals
School:													
Senior High									87	74	68	59	288
Junior High							94	77					171
Roosevelt	32	24	22	34	30	26							168
	31	19	25	34	31	16							156
Coolidge	33	22	28	32	34	33							182
Wilson	30	19	17	33	23	28							150
Totals	126	84	92	133	118	103	94	77	87	74	68	59	1115

SUPERVISION AND INSTRUCTION

The personnel of the school system has the interests of the children at heart. They are making efforts to keep alert to changes in the ways of living which will bear an influence on the future citizens of Maynard. They have evaluated trends in education and brought the basic curriculum up to date. In September and during the months following, the teachers of all grades have met by grade or subject and developed a Curriculum Guide for each grade and subject.

The teachers plan the program for two months ahead and then revise it as they work with it in their classrooms. Working together on their common problems, they realize (1) that the improvement of the curriculum requires a continuing effort, (2) that coordination is as essential as improvement in the curriculum, (3) that the curriculum must keep pace with

modern trends and materials, (4) that there must be agreement on the general aims and objectives to be attained. The fourth principle has been the basis of the Curriculum Guide being developed. Aims and objectives were decided by all teachers concerned before the content of each subject was determined. Though teachers developed the same general aims and objectives for each subject, the Guide allows teachers freedom in developing their own methods and activities with which to attain these aims. It allows **consensus without conformity**, but it provides a solid base for the development and the continuation of the best instructional program for the children of Maynard.

As a result of the work on individual subjects during 1951 and the work on the Curriculum Guide during the past year, the instructional program was improved in many ways.

The language, spelling, and reading programs were improved considerably through the addition of a formal dictionary program in the fourth, fifth and sixth grades. Over and above the help that this dictionary program has given in these subjects, it is also forming a sound basis for the pupils' effective use of reference materials such as encyclopedias, and source books in the upper grades.

The phonics program in the lower grades has been re-evaluated and has been made more effective through extending as well as intensifying the program. Phonics demonstrations have been helpful to the teachers in evaluating their own programs.

There was a time when any activities other than the 3 R's were considered as extra-curricula activities. That term is fast disappearing because it has been realized that the obligation of the school goes far beyond "Reading, Riting and Rithmetic." As part of his education, a child must be made to realize that there is another "R" for him—"Responsibility."

Maynard children are guided in the development of "Responsibility" by such various activities as the Student Council, School Paper, Field Trips, Hobby Shows, Play Days, Driver Education, Sports, Memorial Day Flowers for local memorials, Emerson Hospital Harvest Drive, March of Dimes, Quiz-Downs, etc.

GUIDANCE

Several years ago it was recognized that the children needed help beyond the regular classroom. We were giving the pupils a good educational program but the individual child needed to be helped use the program to the best advantage for himself. The need for this help was at all levels, but pertinent

at the high school level. We began the program in the high school but it has now extended to the elementary grades.

In the Senior High School all seniors conferred with the counselor at least once before January concerning his own plans after June.

The U. S. Employment Service in Marlboro has given service to those seniors who are entering the labor market. The service included group registration, individual interviewing and screening, and the administration of a battery of aptitude tests. These activities, and the final interviews with explanation of test results, placement opportunities, etc., were carried on in the High School Guidance Office.

As the year progressed, numerous interviews for seniors with the counselor were arranged during which plans were formulated, opportunities discussed, information given, applications filed for schools, colleges and job openings. Letters of recommendation followed these applications. Examinations were administered to five senior girls who applied for the regional scholarship given by the Massachusetts Parent-Teacher Association. These candidates were transported to Worcester for interviews. One of the Maynard girls won this scholarship, having been selected from the candidates of seven towns in the area. Examinations were also administered to the two qualifying candidates for the National Honor Society Scholarship Competition. A senior boy took the examination for the General Electric Apprentice Training, and five senior girls applied for the Delta Kappa Gamma Society Scholarship. A senior girl received a Nursing Scholarship and a senior boy was awarded a New England Scholarship of \$500 by East Coast Aero Tech. Deserving seniors secured the scholarships offered by generous local organizations. The selection procedure for the winner of the D. A. R. Award was completed with the faculty and members of the Senior Class.

In January 1952, the Juniors were given a vocational battery of tests by the Boston University Cooperative Testing Service. This battery, containing tests of interest, mental maturity, mechanical and clerical aptitude, and reading comprehension, contributed valuable data to aid the students in planning future courses of action. The scores of the tests were interpreted for each Junior during his individual interview.

On a voluntary basis, Sophomores took the Kuder Preference Record, which indicates definite vocational interests. The significance of the results was explained to each student during a personal interview.

In the spring, under the principal's direction, the Juniors, Sophomores, Freshmen and Eighth-Graders planned scholastic programs for this school year. Many students sought the advice of the counselor in choosing subjects which would coincide with their plans for the future. Arrangements were also made to send five boys to the Trade School in Waltham for the pre-admission tests.

Occupational and educational information has been distributed through various channels. A number of career talks were given to acquaint students with the opportunities, requirements and duties of careers which were of interest to them.

The placement service has been active placing students in suitable part-time jobs, which, in some cases, became permanent upon graduation.

In the Junior High School, as a result of the comparison of mental ability with arithmetic achievement, discrepancies between the two test scores indicated a need for diagnostic and remedial work, in some cases. A group was carefully chosen for this instruction, which was scheduled between 1.00 P. M. and 3:00 P. M., Tuesday through Friday, throughout the spring. Personal data, cumulative records, test results, interviews, parent conferences, etc., were employed in making adjustments which were found to be necessary in certain other problems of these adolescent children.

A follow-up survey was made of the members of the Class of 1952, in which information was gathered from all of the fifty-five graduates. It is significant to note that 38.2 per cent are continuing their education, while four young men, or 7.3 per cent of the class, are in the armed services. The following gives the status of the Class of 1952, as of December 23, 1952:

Status of the Class of 1952

Status	Number	Per cent
Full-time employment (including one who attends school, also)	30	54.5
Part-time employment	1	1.8
Unemployment	0	0
In school (including one who will enter in January)	21	38.2
In armed services	4	7.3

The twenty-one students who are attending schools have chosen the following:

Types of Schools Attended by the Class of 1952

Type of School	Number attending
College or University	11
School of Nursing	4
Vocational or Trade School	2
Private Business School	4
	—
	21

Fields of Endeavor of those Students Continuing Education

Field	Frequency
Teaching	5
Nursing (one to enter in January)	4
General Education	3
Business Administration	2
Accounting	2
Airplane Mechanic	2
Secretarial	1
Stenography	1
Dramatics	1
	—
	21

In the Junior High School, the California Test of Mental Maturity was administered to all students of the seventh grade. The California Arithmetic Test was given to all pupils of both seventh and eighth grades. A comparison of mental ability with arithmetic achievement may show discrepancies. In these cases, remedial measures will be taken. A diagnostic item analysis will be furnished to each teacher, indicating strengths and weaknesses apparent.

In the elementary grades, reports were obtained from teachers, concerning students who needed specialized study. From these reports, seven pupils were selected for referral to the Traveling Clinic. Preliminary testing was done by the teachers before the Clinic arrived on November 18th. Beginning in January, the Guidance Director will spend afternoons in the elementary buildings according to a regular schedule, in order to facilitate the individual adjustment of the pupil to the school, and the adjustment of the school to the pupil. The elementary grade guidance program will be expanding as needs are identified.

During the past year referrals have been made to the Massachusetts Department of Public Health, the Department of Vocational Rehabilitation, the Department of Public Welfare, to Trade Schools for Girls, and for Boys, and to Remedial

Reading Clinics. Conferences with parents in a number of cases have been of mutual benefit in solving adjustment problems.

This help or guidance for the system as a whole as well as for individual children is under the direction of Miss Mary Queenan who has been responsible for the growth of the excellent relationship not only within the system but with outside agencies.

HEALTH AND SAFETY

The health of the children has been the daily concern of the School Nurse and School Physician. There is an up-to-date individual health history for every child in the system. It includes for each child, the annual physical examination, defects, and follow-up, as well as disease history — the latter obtained through a questionnaire sent to the parents of each pupil. In order that the teacher may be familiar with these findings, the records are kept in the teacher's desk and are sent to the next grade with each child.

The cooperation of parents and teachers has been excellent and I feel we have the foundation for an improved nursing service. At a "Pre-School Round-up," held in May sixty-nine children were given a physical examination by the school physician, Dr. Raymond Hooper. At this time, as an experiment, Miss Phyllis Glidden, R. N., Public Health Consultant, examined the eyes and ears of thirty-five children. Five children were found to have defective vision and were referred to their family eye specialist. Three of the five were corrected with glasses. Three senior girls who plan nursing careers assisted at the five "Pre-School Clinics."

On July 9, 1951, the State Department of Public Health, acting under authority of Section fifty-seven, chapter seventy-one of the General Laws, established new rules and regulations relative to the physical examinations of school children. These rules became effective September 1, 1952. The authorities recommended that each child be examined separately and carefully by a registered physician. The child is allowed to be examined by his family physician, at his own expense. In order to examine the child more thoroughly we have the children remove their clothing to the waist. The girls in the seventh and tenth grades are amply covered with cotton capes, and are given all possible privacy. Instead of an annual examination the child will be examined at a pre-school clinic, in the fourth grade, in the seventh grade, and in the tenth grade.

The new law further states that the hearing and vision of each child should be examined in the first grade and every

second year thereafter. I am happy to report the New Massachusetts Vision Testing Equipment, which the School Committee purchased, has proven very valuable to screen pupils with defective vision. This test screens for near-sightedness, far-sightedness and lack of muscle balance. The schools tested to date are the High School, Junior High School and the Roosevelt School. Sixty-nine pupils were referred to their family eye specialist, and fifty-nine of these children have been corrected with glasses. Through the year the follow-up of those failures who have not as yet consulted their eye specialist will be continued. Dr. Donald Feltus has been extremely helpful and cooperative in this program.

In October four hundred and forty-nine children were tested with an audiometer borrowed from the Massachusetts Department of Public Health. Fifteen children were found with defective hearing. These children were referred to their family ear specialist, and eight received medical treatment. I feel the addition of an audiometer to the Maynard School Nursing Service would be of great value in detecting a hearing loss, following a contagious disease. A child referred by a teacher may be examined by the school physician at any time during the year.

A Dental Clinic is held at the Town House under the auspices of the Board of Health every Friday morning with Dr. Samuel Garland in charge. To date, one hundred and fifty-two children have requested dental permits. Emergency work in cleaning and temporary fillings is done.

We have had the usual and expected number of absences from contagious disease. The only way to control communicable disease is to educate the parents to its seriousness, and to stress the importance of immunization. A child returning to school after a contagious disease must have a certificate from his physician or the Board of Health. The nurse has made an effort to investigate the absence of any child out of school for three days. **Two hundred and forty-four home visits** were made during the school term. Not only can an illness be checked in this way, but the nurse helps to create a better understanding between home and school.

The new law states that children returning to school after an absence of five consecutive school days or more, due to illness, must be examined by a registered physician. Since we have only a part-time school physician, the school nurse may examine the child and issue the necessary permit.

For one week in June, Mrs. Holt attended a "Work Shop" on childrens' diseases, sponsored by the Massachusetts Department of Public Health, at Simmons College. This gave her new

information on the latest theories and treatments of exceptional children.

Each month our School Nurse and Public Health Nurses in this district meet with Miss Phyllis Glidden, our State Consultant, for discussions and lectures on various subjects pertaining to school and health problems.

The nurse keeps the following schedule with few exceptions:

- 8:00 - 9:00 A. M. — Senior High School
- 9:00 - 10:00 A. M. — Junior High School
- 10:00 - 11:00 A. M. — Coolidge School
- 11:00 A. M. — Home Visits
- 11:45 A. M. — Roosevelt School
- 12:00 - 1:00 P. M. — Lunch
- 1:00 - 4:00 P. M. — Roosevelt School and Home Visits

There are regular Fire and Air Drills held. The fire drills are frequent enough in good weather to assure protection and safety at any time. In the Air Raid Drills the Manual of the Massachusetts Civilian Defense Program in Schools is followed. The children go to the basements, take designated positions, answer roll call and receive general instructions to follow in the event of an attack.

The prompt and regular supervision of the children in the streets in the area of the schools by the janitors has been very valuable not only in protecting them at the time of their crossing but also teaching them to obey safety rules.

The children should not arrive in the school grounds any earlier than fifteen minutes before each session begins.

INDUSTRIAL ARTS

The year of 1952 gave the Industrial Arts Program an opportunity to produce three large projects of benefit to pupils, school, and community. The first of the three projects was a 6' x 10' staging platform 10' high for use at Alumni Field for the photographer at football games, which was constructed of new and used pipe, and can easily be dismantled for storage or maintenance.

The second project was an all metal cabinet for the storage of paints and other flammable liquids used in the shop program. The material used in the construction of this cabinet is used, but excellent quality steel, secured by the instructor, school department, and students from various sources at practically no cost to the town.

The third project constructed, was an overhead track and hoist, for use in the High School to facilitate the removal of ashes and other rubbish from the boiler room.

Construction and planning of all the above mentioned projects was done by the students under the supervision and guidance of Mr. Fardy. The educational and real life experiences gained, were without doubt, substantial, in that the students have had unsurpassed opportunities to put their shop training to an immediate and practical use. These experiences are so much like the ones which they may face in later life; yet they can observe, even while learning, the resultant benefits of their handwork to school and community.

Many worthwhile articles for the home are constructed regularly.

The technical, as well as the practical nature of the subject has been stressed, with the administration of a Mechanical Comprehension Test by the Guidance Department. By use of the results obtained from the tests, more effective individual teaching can be accomplished; also more efficient use can be made of the equipment in the Shop, by the students.

During 1952 slide films on machine operations were purchased which clearly demonstrate the safest ways and means of operating machine tools.

A mitre saw machine and drill press vise were purchased during the year and are greatly appreciated by the students. This has been another step forward in the long range planning of continually improving the Industrial Arts Program. It is our aim to keep it abreast, as is reasonably proper with industrial practices and to have it equally as good as other communities the size of Maynard.

HOME ECONOMICS

The major divisions of the Home Economics are Cooking, Sewing, First Aid and Home Nursing according to the grade level of the children.

Each class in the Junior High School is allowed a double period a week. In the seventh grade, simple basic stitches in sewing are taught and the girls make hand towels and aprons that are used in their foods work during the last half of the year. The foods work consists of learning a few fundamental steps of handling ingredients and to prepare and serve refreshments at simple parties and breakfasts.

In the eighth grade, the first half of the year is spent working on the home preservation of food and the preparations and serving of simple lunches. In the clothing classes during the

last half of the year, development of skill in hand sewing and sewing machine work is stressed and the girls make simple skirts and blouses.

In the high school, the clothing work consists of the care and the use of the sewing machine, selection of patterns and fabrics, care of clothing, personality development and personal grooming. Projects which the girls construct include hand towels, aprons, pot holders, shoe bags, laundry bags, dresser scarves, blouses, skirts, pajamas, nightgowns, housecoats, dresses and toys. Girls not only make clothing for themselves but are encouraged to make things for others, especially younger brothers and sisters, and to remodel clothes.

The foods classes deal with meal planning and serving lunches and suppers, including marketing and nutrition. Manners, customs and conventions relating to foods are also considered. Girls also have practice in planning and serving food at social functions.

In the home nursing classes, girls are taught ways in which they can help when sicknesses strike; the first aid care for minor illnesses; and how to care for children.

The program is flexible so that projects for holidays, special parties and receptions may be carried out.

AUDIO-VISUAL EDUCATION

During the year, 1952, the Audio-Visual Department has been most fortunate in securing membership in a Film Cooperative.

A Film Cooperative is established when the School Departments of surrounding communities join together to purchase films. Each film is independently owned by the member who purchases it, but it is shared with the other members of the Cooperative to enrich the curriculum of all the schools. The selection of films is left entirely to the discretion of each department and the choice is questioned only if there are duplications.

Maynard has joined the Cooperative which includes the following school systems: Marlboro, Shrewsbury, Grafton, Westboro and the Lyman School. This Film Cooperative had been in operation for three years, previous to our joining it, with Milford as its sixth member. In September, 1951, Milford dropped out, and in January 1952, Maynard was accepted in its place.

Each member of the Cooperative purchases three films each year, but because Maynard owned no films in 1952, we agreed to buy five films each year until we accumulate as many as the

other members. The five films that were purchased this year are all on the primary level. We found that there were no primary films, so we concentrated our efforts in this field. The teachers of grades 1, 2, and 3 selected the films after spending a great deal of time and effort in previewing and evaluating them. Their final selections were the following:

- | | |
|--------------------|--------------------|
| 1. Cotton | 3. Gray Squirrel |
| 2. Robin Redbreast | 4. Passenger Train |
| 5. Airplane Trip | |

These films were purchased from Encyclopoedia Britannica Films, Inc., at fifty dollars per film.

The Cooperative now has the following eighty-six films which encompass a variety of subjects at all grade levels:

SOCIAL STUDIES

Geographical Regions and Areas Peoples - Customs and Cultures	Immigration
Northeastern States	Kentucky Pioneers
Southeastern States	Pioneers of the Plains
Middle States	Territorial Expansion
Northwestern States	The Story of Our Flag
Southwestern States	Territorial Possessions
Far Western States

TYPEWRITING

Basic Typing

The value of such a cooperative venture is that films are readily available to teachers and students and they may be used at precisely the time when they are most needed.

Since September of 1952, the Directors of the Cooperative have been devising a plan whereby the films may be available to the teachers at a week's notice. This plan will become more and more effective as the number of films increases.

The Filmstrip

We own two Filmstrip Projectors. We are gradually building up a library of filmstrips. At present we own about two hundred fifty filmstrips on the following subjects:

Primary Social Studies	Literature
Elementary and Secondary	Mathematics
Social Studies	Science
New York Times Current	Home Economics
Events	Music
English	Industrial Arts

When motion is not involved, filmstrips have been found most valuable. They stimulate a great deal of discussion from which understandings result. Teachers' guides, which offer information and helpful suggestions to the teacher accompany most of the filmstrips.

The Tape Recorder

The tape recorder magnetically reproduces sound. The teachers in Maynard have used tape for many purposes. Very often some teacher has found a new and interesting use for this remarkable aid. Some of its uses are listed here:

- Speech correction
- Reading (Student evaluation of his own reading)
- Diction
- Pronunciation
- Dramatization (Student Productions)
- Music (Practice in choral and instrumental music)
- Interviews
- Round Table Discussions
- Reproduction of student programs
- Reproductions of radio programs
- Narration to accompany student-produced films

The Opaque Projector

With this projector a teacher may project a child's paper, a picture from a book or a magazine, or even a post card. All the color in the original picture is intensified. This aid is most valuable when the teacher has only a single copy of an item. She may project it on the screen so that every child may see it at the same time and discuss it.

The Califone

This is a record playing machine which will play a regular record at 78 rpm or a transcription at $33\frac{1}{3}$ rpm.

Slide Projector

The most valuable use of this projector has been in the projection of handmade lantern slides made by the pupils or the teacher. The slides may be written on with ordinary pencil, colored slide pencils or colored inks.

16 MM Silent Projector

A 16 mm silent projector was purchased in September 1952 for use by the Football Coach. Four games were filmed this year. All those involved in the sports program agreed that the information gained by these films was most helpful to them.

Loss of Equipment

The following equipment was lost in the fire at the Wilson School:

- 1 16mm Sound Projector (Victor)
- 1 Filmstrip Projector (SVE)
- 1 Slide Projector

This summary shows the thought put into our Audio-Visual Aids in the school system. In addition to the loss of equipment in the Wilson School fire, the program is curtailed by the loss of the rooms equipped with darkened curtains at the Coolidge and Roosevelt School which are now being used by pupils from the Wilson School district.

MUSIC AND ART

Music education begins with rhythm training, singing of rote songs, and understanding and appreciation of music. Any child who shows an aptitude for an instrument is given an opportunity to take lessons in school time.

There are thirty-eight children in the school band.

In all twelve grades the necessary principles and elements are studied with a gradual increase of knowledge and techniques as the student advances in Art.

The high school students are trained individually. All students have the preliminary factors of design, color and construction, and then emerge them into original problems of interest.

PUBLIC RELATIONS

The relationship between the School and Home has always been very important. Efforts have been made to bring the school and home together. Parents are always welcome to visit any classroom. Notices of programs, vacation schedules, P. T. A. Meetings, special dismissals, transportation schedules and field trip permits are sent home at intervals.

At a recent meeting of the P. T. A. the teachers attended and answered questions of the parents on policies and practices proposed.

January will see the first issue of THE THREE R'S, a bulletin between the school and home. This will go home with special notices and general information.

Words of congratulation should go to the Band Mothers Club. They purchased twelve hundred dollars' worth of band uniforms.

INTERDEPARTMENT COOPERATION

This report is the only median I have of calling to the attention of the taxpayers, the excellent cooperation and evidences of good will between the Highway Department, Water Department, Fire Department, Finance Committee, Selectmen and School Department.

WILSON SCHOOL FIRE

The morning sun of December 17th, 1952 rose on the Wilson School to find it in flames. It was a great loss to the children of the town. Although it may appear that the educational program is going on because each child is placed in a room, it is a greatly curtailed program. A seat, a desk, and books are not all that is necessary for a complete education.

My first concern after the fire was to find a room for each grade and the replacement of books lost in the fire. This has been done and at this writing, most of the books have been received and will be ready for the children.

Many times the details of the extra clerical work imposed on the teachers and janitors may seem of no value, but it certainly proved its value after the fire. We had a complete up to date inventory of text books, supplies and equipment which will be very valuable in the insurance claims.

CONCLUSION

The buildings in use are in good condition. The custodians, principals and teachers are alert for anything which would

interfere with the safety of the children. The children show their appreciation of the attention given to the buildings for their benefit by the care they take of them.

There is almost no evidence of wanton destruction in any building.

May I express at this time my appreciation of cooperation and good will of all with whom I have had any contact the past year?

Respectfully submitted,

MARY A. DOYLE,
Superintendent.

Report of the High School Principal

Miss Mary A. Doyle
Superintendent of Schools
Maynard, Massachusetts

Dear Miss Doyle:

I herewith submit my report of the Maynard High School for the year 1952.

Robert Browning, one of our great poets has said, "the best is yet to be, the last of life for which the first was made." So it is with education. Great strides have been made since early days. The dynamic interest of those in the profession has brought about many changes. Teachers, even the best teachers, are not entirely satisfied with what they teach and how they teach. Even as most of us hope to live more satisfyingly tomorrow, so do most teachers hope to teach better tomorrow. Teaching in the schools of today is a vastly more complex and professional undertaking than teaching in the schools of previous generations, and it is constantly becoming more so.

To "impart" knowledge had been the primary function of the "early teacher." Definite formal procedures were utilized in an effort to make certain that all pupils acquired a mastery of subject matter. Little or no consideration was given to the present or future uses the pupil could make of the knowledge he was acquiring. The acquisition of knowledge was considered an end in itself. Today, assisting young people to acquire information remains an important part of the teacher's work, although it occupies a much lower point in the scale of educational values. The modern school recognizes the necessity of acquiring knowledge not for its own sake but as a means toward an end. Through all the more recent developments in methodology, it is easy to discern a trend toward more purposeful and cooperative pupil-teacher relationships. The teacher's most important responsibility is to plan and direct the activities which will result in learning. Instead of being a drillmaster and disciplinarian, the teacher is more of a director of learning. He conceives and provides the goals, motivation, materials, activities, and measures of growth which will insure that the learners under his supervision will mature, acquiring information, habits, skills, ideals, and interests that will help them to be better citizens tomorrow.

More and more we realize that the very existence of humanity and civilization as we have known it on this earth depends upon the teacher. Development of the atomic means of human destruction has been so rapidly accelerated that we are now left with alternatives of chaos or mutual understanding among the peoples of the world. The responsibility which the school must discharge in educating for world understanding is great. The safety of our people depends upon their knowledge of world affairs. In a democracy, national policy must be in agreement with the will of the people;— whether that will is founded on facts and sound education or upon propaganda and ignorance. It is a challenge to the teachers of this great democracy to lead the way. With clear objectives and purposeful teaching in our public schools, the minds of the people will rise above the tangle of propaganda, distrust and suspicion and solve the problems which are confusing the world today.

PERSONNEL CHANGES

If the objectives of this great educational task are to be realized to their fullest extent, it is important that our schools be as free as possible from the interruptions and breaks in learning that result from too frequent turnover of personnel. We have been fortunate in Maynard this year as our losses have been kept at a minimum and our replacements have been good. During the year, Mr. Gerard Costello, Miss Mary Shine and Mr. William Calarese resigned to accept other positions. The new teachers are rapidly orienting themselves to our system and the needs of our pupils and should ably carry on the responsibilities placed on their shoulders.

EDUCATIONAL PLANNING

Our college preparatory program has always been adequate in preparing our students to compete successfully with graduates of other high schools. Our interest and hopes are with them as they further their education at the higher institutions throughout the state and nation. Even though this part of our program is successful, we still have the major responsibility of properly educating those who do not go on to college. These graduates must be prepared for participation in community affairs directly after graduating from high school. We have made a start in this direction by the inclusion of a Civic Curriculum in our Program of Studies. Our offering in this field has been limited by the lack of teachers. This program could be enriched sufficiently to accomplish its purpose if it was possible to add one new teacher to the faculty. Courses in Public Speaking, Practical Science, and possibly Economic Geography could be added to the present program. These would hold the interest and fill a definite need for those pupils

who are not interested in college, the commercial subjects, or practical arts but who still wish to graduate from high school and be prepared for good citizenship.

RECOMMENDATIONS

The continuous program of maintenance and repair has improved the appearance of our plant. There is still some inside painting to be completed. The outer basements, the upper corridor, and rooms 12 and 14 should be given a coat of paint to complete this project.

A program for gradually replacing classroom furniture should be started as soon as possible. The old desks and chairs have been in use for over 35 years and are showing the effects of this long period of service.

The disastrous fire that destroyed the Wilson School has created a problem of prime importance for the school department and the citizens of Maynard. Before this happened, I planned to recommend strongly that thought be given to building an adequate gymnasium for the school program of health and physical education. We have been handicapped for years in the development of this program because of limited space. This fact is well known by the citizens of our town. I firmly believe that Maynard children should have as good physical education facilities as those of surrounding towns. If the fire has created a need for new construction, it may be opportune to consider the gymnasium problem at the same time.

CONCLUSION

At this time I wish to report that the teachers and personnel of Maynard High School have been very cooperative throughout the year. They have been called upon many times for extra duties and responsibilities and have shown sincere interest and understanding of the educational needs of our Maynard children.

In closing, I wish to express my appreciation for your suggestions and cooperation throughout the year.

Respectfully submitted,

ALBERT LERER,
Principal.
