The year 1871 was an historical one in the annals of Assabet Village when it incorporated as the Town of Maynard; the same year saw the Catholic community of the village made into St. Bridget's Parish. In January of that year Rev. M. O'Reilly became the first resident pastor, and during his pastorate a parochial residence was erected beside the church on Main Street. (This is now standing at 201 Main Street and is occupied by Mr. and Mrs. Harold F. Hatch.)

In March 1872, Rev. Timothy Brosnahan became pastor and in 1873 he was named pastor at St. Bernard's Parish, Concord, with St. Bridget's made a mission of that parish. Rev. M. J. McCall succeeded him in 1877 and during his pastorate the present St. Bridget's Church was erected. The Church on Main Street had become too small for the growing parish. The cornerstone was laid in 1881, but the work progressed slowly, and the church was dedicated in 1884 by Archbishop Williams.

January 1, 1894 the parish was re-established with Rev. John A. Crowe as pastor. During his pastorate many changes were made to the church. The Abel G. Haynes' house on Percival Street was purchased and converted into a parsonage. He was succeeded by Rev. Bernard F. Killilea in 1905, who in 1906 had the present parsonage erected, and also began saying Mass for the Catholic colony at Lake Boone. Rev. Walter A. Browne followed from 1909 to 1917. During his pastorate, the mission chapel of St. Elizabeth of Hungary was built at West Acton.

Rev. John McHugh was appointed pastor in 1917, and both he and his curate Rev. Patrick Meagher were stricken and died during the influenza epidemic of 1918. Rev. Edward F. Crowley succeeded and remained as pastor until 1930. It was during his pastorate that the famous St. Bridget's Corps of Cadets was organized. He was followed by Rev. Walter A. Roche who served as pastor until 1935. Rev. D. Edward O'Bryan was appointed in 1935. During his pastorate St. Elizabeth of Hungary Parish was created in West Acton and also Our Lady of Fatima Parish in Sudbury. Father O'Bryan died at Maynard in 1952. He was succeeded by Rev. William J. O'Brien, who was elevated to the rank of Monsignor in 1959, and passed away at Maynard during the that year.

Rev. John Callahan was appointed pastor in 1959, and elevated to Monsignor shortly thereafter. During his pastorate St. Isadore's Parish in Stow as created, thereby reducing St. Bridget's Parish to Maynard only. He also directed the building of St. Bridget's Parochial School in 1965. He was succeeded by our present pastor, Rev. Joseph P. Gately, who was installed by Bishop Joseph F. Maguire on Sunday, September 14, 1973.

MAYNARD MASSACHUSETTS

THE MINICOMPUTER CAPITAL OF THE WORLD.

Maynard is our home town. We were born here back in 1957 in a corner of the old mill on Main Street. We made logic circuit modules that first year; many of them were used in other manufacturers' computers. It wasn't until 1960 that we made our own computer, and another three years passed before the world's first minicomputer had our name on it.

Today we manufacture over three million logic modules a year, more than any other maker. Our minicomputer systems—50,000 of them—are helping people all over the world to do things faster, more accurately, with greater efficiency than ever before. They're used in science, industry, business, government, education...(You'll find one of our systems at the Maynard Town Hall, another at the Will Dodd Boys' Club.) Our products include everything from one-dollar tape reels to multimillion-dollar computer systems. In fact, we can supply an answer to just about any data handling requirement.

We have sales and service offices in most of the world's major cities and manufacturing facilities in five countries (as well as seven cities in the United States). We occupy most of the Mill now, as well as the Parker Street complex and the H.H. Scott building. We employ over 25,000 people worldwide, are included in Fortune magazine's list of top 500 U.S. corporations, and are recognized as the world's number one manufacturer of minicomputers.

Our growth has brought change, both for us and the community. But as we grow, it's with concern for Maynard, both as our corporate headquarters and as a community of people who have played an important part in our success...and will continue to do so. Together, we'll keep Maynard the Minicomputer Capital of the World.
