“First Aids to the Un-Injured”

When you board or leave a street car, be sure that it has come to a full stop. Haste isn't worth life or limb.

Do not grab at a moving car. You cannot pull it back, but it can pull you forward—and sometimes under.

When you leave a car let it get well past you before crossing the street. Dodging behind the rear end is a dangerous habit.

Stop! Look! Listen! Bring your vehicle to a dead stop before crossing any railway track, and look both ways.

Playing on the street car tracks is dangerous. Every mother should caution her children against this practice.

If you dodge in front of a car you are in danger. The motorman may not be able to stop his car in time.

Above all things, always think of “Safety First.”
