The Maynard girls basketball team beat Monson 57-41 in the Division 4 State Semifinals at Worcester State University Wednesday, March 11, 2020. Because the MIAA decided to cancel the upcoming weekend's championship games, Maynard was declared the division Co-Champions with Cathedral.

SCHOOLS CLOSED

Until May 4th!

"Preceding the pandemic, I was essentially at the school from 7:30 in the morning to 7 or 8 at night. Now I'm home 24/7. It's definitely surreal having the carpet under us pulled out like a magic show. Of course the play has been postponed and all of our last impression college visits have been canceled. Basically, any certainty that I had has deteriorated into unpredictability and confusion." Patrick O'Neil

"My accepted student days for college got canceled, meaning I wasn't able to get a feel of what the schools would be like so I didn't know what to do or how to make this huge decision. Also my last softball season kept getting postponed, we weren't even sure if it would happen at all. So I could have had my last high school sports game ever and not have known it." Sydney Lucas Jacobson

U.S. CORONAVIRUS CASES

Wash YOUR HANDS!

COUNTRIES AND TERRITORIES WITH CONFIRMED CASES

CUMULATIVE CORONAVIRUS CASES IN U.S.

COVID-19 FACTS

RISK
The risk of contracting coronavirus in Massachusetts remains low. Those at higher risk include people who may have been exposed through direct contact with a person who has COVID-19 or through travel.

PREVENTION
Stay home when you are sick. Avoid touching your face and close contact with people who are sick. Wash your hands often. Face masks should be used by people who show symptoms of COVID-19.

SYMPTOMS
Symptoms can include fever, cough, and shortness of breath and appear 2-14 days after exposure. If you have these symptoms, call ahead before you go to a doctor's office, urgent care or emergency room.

TRAVEL PRECAUTIONS
If you have traveled to China, South Korea, Japan, Iran or Italy within the last 14 days and you develop symptoms, it is important you call your physician or hospital first before coming in so the medical team can prepare appropriately.

Learn more about coronavirus at cdc.gov/coronavirus

"The coronavirus caused my play to be postponed, and I also had to cancel the blood drive that the Peer Leaders have been working on for months. Accepted students days for colleges got canceled, so now we I can only participate in virtual accepted students days, which is making it harder for me to pick a school." Riley Hines

"Honestly, since I committed to college early, the main impact the virus has had on me is my change in outlook on a lot of things that I would usually take for granted. Coming to Massachusetts from Florida was a slap in the face that this is really life right now." Kayla Heideman

"The coronavirus postponed many things for me inside and out of school. The play, sports, concerts and much more. It took things away from me that I had been working hard for which is disappointing." Erin Coleman

"Luckily for me I have already decided on a college, so the worst part about this break is not being able to see friends." Jack Bottasso

HEADLINES

A LEGEND LOST

Kobe Bryant and his daughter, Gianna Bryant, are killed in a helicopter crash along with seven others on January 26, 2020. Bryant is widely regarded as a basketball legend for his 20-season career with the Los Angeles Lakers and is the all-time leading scorer in Lakers franchise history.

FASTEST FINISH

Eliud Kipchoge finishes the Austrian INEOS marathon in 1 hour, 59 minutes and 40.2 seconds. He is the first human in history to run a marathon in under two hours. According to a team of pacemakers who keep up with Kipchoge throughout the ordeal, he runs a pace of 4:33.5 minutes per mile to finish the race ahead of schedule.

HISTORIC SPACEWALK

Astronauts Christina Koch and Jessica Meir complete the first spacewalk with an all-woman team. This is Koch's fourth space walk and Meir's first. NASA Administrator Jim Bridenstine mentions that NASA's Artemis program is currently working to land the first woman and the next man on the moon in 2024.

ROLL BACK THE CLOCK

In October, California's Governor signs a bill becoming the first state in the nation to pass legislation that prohibits public schools from starting too early. The bill mandates that middle schools can start no earlier than 8 a.m., while high schools will be prohibited from starting any earlier than 8:30 a.m. Public schools have until the start of the 2022 school year to adjust their schedules accordingly.

NOTRE DAME DESTRUCTION

A mammoth blaze tears through the Notre Dame Cathedral in Paris, nearly destroying the 850-year-old landmark. The church's wooden latticework roof and iconic spire collapse, but many of the valuable cultural treasures avoid damage with some kept safe at the Louvre Museum. French President Emmanuel Macron would like the Notre Dame Cathedral to be rebuilt in five years, but restoration experts believe it could take 10 to 15 years. More than \$700 million is collected in donations for the reconstruction, including \$100,000 from the University of Notre Dame in Indiana.

GLOBAL FIRES

Massive wildfires rage on two continents: in Brazil's Amazon rainforest and across Australia. This year the Amazon rainforest experiences the highest number of fires since Brazil's National Institute for Space Research began keeping records in 2013, which burn 2.2 million acres. The Australian bushfires primarily affect the state of New South Wales and 12 million acres are burned as of January 2020. New South Wales is home to Australia's most populous city, Sydney.

LOST CONTINENTS

Douwe van Hinsbergen – a geologist at Utrecht University in the Netherlands – and his colleagues discover a lost continent known as Greater Adria while studying rocks beneath the Mediterranean Sea. Approximately 140 million years ago, Greater Adria and southern Europe collided, burying Greater Adria in the process. Most of the continent sank beneath what is now Italy, Greece and the Baltics. Analysis of ancient rocks suggests that almost all of Earth's earliest continents might have disappeared, leaving traces behind like certain rocks found on the Alps.

SPORTS

PHOTO FINISH

Lawrence Cherono wins the 2019 Boston Marathon in the third-closest finish ever, edging out Lelisa Desisa by two seconds. A review of the photo finish is needed to confirm the winner.

BACK TO BACK BROOKS

Brooks Koepka is a back-to-back winner of the PGA Championship. This is his fourth major win in 23 months, a milestone only four other golf greats have reached: Ben Hogan, Arnold Palmer, Jack Nicklaus and Tiger Woods. This is the first repeat PGA Championship winner since Tiger Woods in 2007.

WOMEN'S WORLD CUP

KINGDOM COMEBACK

The Kansas City Chiefs defeat the San Francisco 49ers 31-20 in Super Bowl LIV. This is the Chiefs' first Super Bowl win in 50 years and also signifies the end of the NFL's 100th season. Quarterback Patrick Mahomes joins Ben Roethlisberger and Tom Brady as the only quarterbacks in history to earn the Lombardi Trophy before their 25th birthdays.

COLLEGE FOOTBALL

The LSU Tigers defeat the Clemson Tigers 42-25 to win the College Football Playoff national title. LSU's win breaks Clemson's 29-game winning streak and crowns LSU as National Champions for the first time since 2007.

SPORTS

WORLD SERIES

The Washington Nationals defeat the Houston Astros 6-2 to earn their first World Series title in franchise history. This is also the first time the road team has won all seven games of the World Series.

RESOUNDING VICTORY

The Seattle Sounders defeat Toronto FC 3-1 to win the 2019 MLS Cup. This is their second Major League Soccer Cup win.

YOUNG TENNIS STAR TRIUMPH

Cori "Coco" Gauff, 15, makes history defeating five-time Wimbledon champion Venus Williams, 39, whom Gauff calls her idol. Gauff is the youngest player to win in the first round of the women's singles since 1991. In October, Coco wins Austria's Linz Open, becoming the youngest woman to win a Women's Tennis Association Title since 2004.

HISTORIC HEIGHTS

Simone Biles wins five gold medals at the 2019 World Championships, more than any gymnast at a single World Championship since 1958. She also earns her 25th career World medal, 19 of which are gold, a total that surpasses any gymnast in history. While winning her sixth U.S. all-around title in Stuttgart, Germany, the 22-year-old gymnast successfully lands two historic gymnastics moves: the double-double dismount off the balance beam and the triple-double on floor. Her landing of the triple-double move on floor is dubbed the Biles II in the FIG Women's Artistic Gymnastics Code of Points. She also has a floor element named the Biles.

TECH/SCIENCE

A NEW WAY TO APPLY

McDonald's announces a new initiative it is calling the "Apply Thru," where owners of Amazon Alexa or Google Assistant devices can begin job applications using standard "Alexa" and "Ok Google" voice commands. The company is also investing in ways to automate its self-order kiosk, mobile app and drive-thru experiences.

FORTNITE FREEZE

Popular online game *Fortnite* goes silent for 36 hours before launching an entirely new experience, dubbed Chapter 2. Epic Games, the creator of *Fortnite*, foreshadows this event through social media, via video trailer and by generating a black hole within the game itself.

3D TECHNOLOGY

Scientists from Dresden University of Technology in Germany develop a 3-D bioprinter capable of producing human tissue. Scientists design this technology specifically for future astronauts experiencing low gravity conditions.

AMAZING ADVANCEMENTS

Two successful experimental treatments are offered to Ebola patients in the Democratic Republic of Congo. Scientists note that 90% of those infected can ultimately be cured with these treatments.

OUT OF THIS WORLD ANNIVERSARY

Fifty years ago, on July 20, 1969, about half a billion people across the globe – about one-seventh of the Earth's population at the time – watch NASA astronauts Neil Armstrong and Buzz Aldrin become the first humans ever to set foot on the moon as part of NASA's Apollo 11 lunar mission. The 50th anniversary celebration is marked with numerous events across the U.S. over five days. NASA restores the Apollo Mission Control Center to appear as it did during the original television broadcast of the moonwalk, to the delight of visitors to the Space Center Houston.

ROBOTIC DOORSTEP DELIVERIES

With self-driving vehicle technology rapidly advancing, many companies are turning to autonomous robots for the final leg of the delivery process. Often called the last mile, this stretch is usually from the store or local distribution center to the customer. The latest company to join the trend is e-commerce giant Amazon. Following a successful eight-month test run in Snohomish County, Washington, the company's Scout robots have been making the rounds in Irvine, California since August 2019.

DISTANT DISCOVERIES

NASA releases video of a black hole tearing apart a star millions of light-years away. Astronomers believe the black hole weighs about 6.6 million times the sun's mass and is located about 375 million light-years from Earth.

ROBOBEE

Harvard researchers Noah Jafferis and Elizabeth Helbling unveil an insect-inspired robot that can fly independent of a power source tether. The device, dubbed the RoboBee X-Wing, weighs a mere 259 milligrams.

MINECRAFT COMEBACK

According to Google trends, online searches for *Minecraft* peaked in 2012 and 2013. They have been on a steady decline since until 2019. In September, Google searches for the game boosted to 76% of their all-time high. It surpassed even *Fortnite*, arguably the most popular game in the world in 2018. This family-friendly game has 176 million copies sold as of May 2019, making it the second-highest game ever, under *Tetris*. Many companies choose to advertise on the game, as it is not violent or controversial. Younger audiences have gained interest with well-known YouTube personalities attracting new users and creating a widely popular weekly Minecraft tournament series known as "Minecraft Monday."
