## TOWN OFFICERS

---

### *Town Clerk.*

Alfred E. McCleary.

### *Selectmen.*

Arthur J. Coughlan,  
Patrick J. Sullivan,  
William Jones,

Term expires 1909.  
Term expires 1909.  
Term expires 1910.

### *Treasurer.*

George H. Gutteridge.

### *Collector of Taxes.*

George N. Salisbury.

### *Overseers of the Poor.*

James Mullin,  
James R. Bent,  
George H. Creighton,

Term expires 1909.  
Term expires 1910.  
Term expires 1911.

### *Water Commissioners.*

Robert Carter,  
John Lawton,  
William Cullen,

Term expires 1909.  
Term expires 1910.  
Term expires 1911.

### *School Committee.*

John H. Lawton,  
Daniel E. Goodenow,  
Albert Batley,

Term expires 1909.  
Term expires 1910.  
Term expires 1911.

*Trustees of Public Library.*

James N. Haire,	Term expires 1909.
Alexander Veitch,	Term expires 1910.
Michael Twomey,	Term expires 1911.

*Board of Health.*

Albert Batley,	Term expires 1909.
F. U. Rich, †	Term expires 1909.
Dennis E. Sheehan,	Term expires 1910.
K. T. Richards,*	

*Constables.*

John Connors,	William Jones,
	Nicholas J. Driscoll,

*Registrars of Voters.*

James A. Cleary,	Term expires 1909.
Cornelius F. Connor,	Term expires 1910.
George Smith,	Term expires 1911.

*Assessors.*

Orrin S. Fowler,	Term expires 1909.
Cornelius Murphy,	Term expires 1910.
Harry J. Parmenter,	Term expires 1911.

*Auditors.*

Alexander Pettigrew,	Frank E. Sanderson
----------------------	--------------------

*Tree Warden.*

Luke S. Brooks.

Department Credits,	537 83
	—————
	\$860 35
Expended,	443 32
	—————
Cash balance,	\$417 03
	—————

The reports of the various departments under the control of the Selectmen are herewith submitted.

Not only were overdrafts avoided, but there are no unpaid accounts in any department of any amount to be met not of any coming appropriations.

## STREET LIGHTING.

The amount allowed for street lighting was made somewhat greater this year, as we have had a few additional lights placed in various parts of the town. As the Board are of course restricted by the appropriation in the number of lights, we would suggest that those parties who may feel that their particular locality has been neglected, appear before the Committee on Appropriations which is appointed at the meeting in March, or else see that proper articles are inserted in the Town warrant. This latter method is used in most towns so that the voters themselves, not the selectmen, determine the number and location of the lights.

## POLICE.

Although the amount of credits in the Police Department were much less than in the past few years, all bills have been met and a balance remains unexpended.

In connection with the Police Department, there has been installed a call light on the corner of Nason and Main street by which any one desiring an officer at night may call the telephone "Central" who then turns on the light. The officer then learns through the "Central", the location of the party calling him. This should be of particular benefit to those who living out of the centre of the town, have the telephone service.

#### HIGHWAYS.

When the comparatively small amount which was allowed for this department is taken into consideration, the amount accomplished should be a matter of congratulation. The aim of the Board the past year has been to thoroughly gravel and thus prepare the greatest number of streets possible for a surfacing of broken stone, which we find, for streets used only for light travel, gives good satisfaction and is nearer to permanent construction.

During the year the following streets were graveled at an expense of \$1,548.12, divided as follows:

Brooks Street,	\$427 26
Maple Street,	389 08
Maple Court,	51 00
River Street,	244 29
Mill Street,	30 00
Park Street,	231 77
Glendale Street,	35 00
Acton Street,	139 72

In the early spring, all these streets, or a majority of them, should receive a light coat of broken-stone well rolled in. The roller of the contractor of the State Road may be used for the purpose. After that attention may be given to other streets, avoiding the expensive process of patching every road from year to year.

The balance of the available money was expended as shown by the report of the Superintendent of Streets herein.

Agreeable to the vote of the Town at the April meeting, we applied for and obtained from the Massachusetts Highway Commissioners an allotment of \$1,500.00 and entered into a contract with them to macadam 1,750 feet of the road known as Summer Street. We then sub-let the contract to John A. Gaffery of Medford. Through the delay caused by the fact of the engineers of the Highway Commission being otherwise engaged, the work was not finished, both the Town and the Commission reserving part of the funds for finishing in the early part of this year.

"Contract and itemized statement of work approved are appended."

COMMONWEALTH OF MASSACHUSETTS

---

MASSACHUSETTS HIGHWAY COMMISSION.

15 Ashburton Place, Boston.

---

MEMORANDUM OF AGREEMENT between the Commonwealth of Massachusetts, by the Massachusetts Highway Commission, and the Town of Maynard, in the County of Middlesex, by its Board of Selectmen, duly authorized, relating to the improvement of a section of road in said town under the provisions of Chapter 279 of the Acts of the year 1908.

In consideration of the sum hereinafter mentioned, to be paid said town of Maynard by the Commonwealth of Massachusetts, the Selectmen of said town hereby agree to grade, surface with broken stone and otherwise improve one thousand, seven hundred and fifty (1,750) feet of the road in said town for the improvement of which the Selectmen of Maynard petitioned the Massachusetts Highway Commission under date of November 27, 1907, said road being

locally known as Summer Street; the work to begin at the junction of Summer and Parker Street (station O) and extend in a southeasterly direction toward Sudbury to station 17--50, subject to the following conditions, viz:—

**First:** The road shall be graded to a true and even grade, in accordance with the grade line shown on a profile approved by the Massachusetts Highway Commission under date of October 6, 1908, for the width of twenty-one (21) feet; the roadway to be so shaped as to present a crown of three-quarters of an inch to the foot to the completed roadway after the surfacing material is in place.

**Second:** Before the broken stone surfacing is spread, the roadbed shall be shaped to a true surface, to conform to the lines, grades and cross-sections which will be furnished by the Commission, and shall be rolled by a steam roller. All depressions occurring must be filled with suitable material and rolled again until the surface is smooth and hard.

**Third:** On the roadbed prepared as hereinbefore specified broken stone, consisting of trap rock, shall be spread for the width of fifteen (15) feet, as follows:—

All broken stone used shall be laid in layers or courses. The bottom course shall consist of stones varying from one and one-quarter ( $1\frac{1}{4}$ ) to two and one-half ( $2\frac{1}{2}$ ) inches in their longest dimensions; the upper course of stones varying from one-half ( $\frac{1}{2}$ ) inch to one and one-quarter ( $1\frac{1}{4}$ ) inches in their longest dimensions.

The bottom course shall be four (4) inches deep at the centre and two and one-half ( $2\frac{1}{2}$ ) inches deep at the sides, after rolling. The top course shall be two (2) inches deep at the centre and one and one-half ( $1\frac{1}{2}$ ) inches deep at the sides, after rolling.

After the two courses above described are thoroughly compacted, broken stone screenings shall be laid on, watered and rolled until the mud flushes to the surface. The screenings so used shall not be larger than will pass through a half-inch mesh and shall contain all the dust. Care must be taken to lay on only enough of the screenings to cover the larger stones.

Each course, bollom, top and binder, shall be rolled separately by a steam roller, and evened up with material of the same size and quantity as shall have been used in that particular course, and to the satisfaction of the Massachusetts Highway Commission.

All broken stones shall be spread from the carts by hand, or from a dumping-board, or from self-spreading carts.

No soft or disintegrated stone shall be used.

If so ordered by the Commission, the thickness of the broken stone shall be increased or diminished at such points as it may direct.

The grade of the finished surface of the road shall present a crown of three-quarters of an inch to the foot.

**Fourth:** The catch basins on the northerly and southerly sides of the road, opposite stations 0—10 and 0—15, respectively, shall be repaired as directed by the Massachusetts Highway Commission. A 10 inch vitrified clay pipe, 240 feet in length, shall be laid under and along the southerly sides of the road from a point opposite station 2—60 to a point opposite station 5, and a catch basin shall be constructed at the easterly end of said pipe. A 10 inch vitrified clay pipe, approximately 18 feet in length, shall be laid under and across the road at station 3, and catch basins shall be constructed at both ends of this pipe. Said pipe drains and catch basins shall be built to conform to plans to be furnished by the Commission, and in accordance with its standard specifications relating to such work. The three new catch basins shall be equipped with curb inlets of granite or concrete.

**Fifth:** Cobble stone gutters, four (4) feet in width, shall be constructed along the northerly side of the road between stations 0—10 and 4—65, and along the southerly side of the road between stations 0—15 and 4—65. The work shall be done in accordance with the standard specifications of the Massachusetts Highway Commission relating to the construction of cobble stone gutters.

**Sixth:** Suitable guard rail shall be built where, in the

opinion of the Selectmen, such a safeguard is necessary to protect travelers on the highway.

**Seventh:** Stone monuments shall be placed on one side of the road at the beginning and end of the section of road herein referred to, at points to be designated by the Selectmen and approved by the Division Engineer of the Commission. Said monuments shall be of sound granite, pointed at the top and three of the sides for a distance of **not less than twelve (12) inches** below the top, and hammer-dressed on the face for a distance of not less than twelve (12) inches below the top; the top to be not less than six (6) inches square; the length to be not less than six (6) feet; the bottom to be parallel with the top face and the back to be split straight. Each monument shall have the figure 8 cut on its face, said figure to be three (3) inches high. Not more than twelve (12) inches of each monument shall project above the surface of the ground. When the excavation is in spongy earth, gravel or sand shall be furnished by the Selectmen, placed above the stone and thoroughly rammed.

**Eighth:** All of the work done and all the materials furnished under this contract shall be to the satisfaction of the Massachusetts Highway Commission.

**Ninth:** On the completion of the work hereinbefore described, all rubbish and debris shall be removed from the roadway and the roadsides and the whole work left neat and presentable.

**Tenth:** In the employment of manual labor under this contract preference shall be given to citizens of the United States. No laborer, workman or mechanic in the employ of the contractor, sub-contractor or other person doing or contracting to do the whole or a part of the work contemplated by this contract shall be requested or required to work more than eight (8) hours in any one calendar day; and eight (8) hours shall constitute a day's work. Said Selectmen or their agents or employees shall not, directly or indirectly, make it the condition of the employment of any person

that he shall lodge, board or trade at any particular place or with any particular person; but every employee on the work to be done under this contract shall have full liberty to lodge, board and trade wheresoever and with whomsoever he may choose.

**Eleventh:** On the completion of the work called for by this contract to the satisfaction of the Massachusetts Highway Commission, the Commonwealth of Massachusetts by said Massachusetts Highway Commission, will pay or cause to be paid to said town of Maynard the sum of ONE THOUSAND, FIVE HUNDRED DOLLARS (\$1,500.00), being the amount of the allotment granted to said town under the provisions of Chapter 279 of the Acts of the year 1908, for the said work, by a vote of said Commission dated April 9, 1908; the cost in excess of said allotment to be borne by said town of Maynard.

IN WITNESS WHEREOF, the parties to this agreement have hereunto set their hands this 13th day of October, A. D., 1908.

Commonwealth of Massachusetts,

By John H. Manning,

Wm. D. Sohier.

Massachusetts Highway Commission.

Town of Maynard.

By Arthur J. Coughlan.

William Jones,

P. J. Sullivan.

Board of Selectmen of Maynard duly authorized.

---

Maynard, Mass., November, 4, 1908.

IN consideration of one dollar and other valuable considerations to be paid by the Town of Maynard, by its Selectmen.

I, the undersigned John A. Gaffey, of Medford, hereby agree to assume the within contract, with all its conditions and specifications, for and in behalf of the Town of Maynard and I also agree to save the Town harmless from any and all damage or suits caused by any defect or negligence in the construction of the within described road.

JOHN A. GAFFEY.

Witness:

January 14, 1908.

Mr. A. J. Coughlan,  
Chairman of Selectmen,  
Maynard, Mass.

Dear Sir:

The following is a statement of work done by Mr. John A. Gaffey under the contract with your town for the construction of the work covered by the contract between your town and this Board, as per statement submitted by Mr. F. C. Pillsbury, Division Engineer, under date of December 15, 1908.

Excavation, 200 cubic yards. at	\$ 50	\$100 00
Borrow, 200 cubic yards. at	50	100 00

	\$2,502 74

Yours truly,

A. B. FLETCHER.

Secretary.

We have petitioned the State for a similar allotment and earnestly recommend an appropriation of an equal amount, \$1,500.00, so that this road be completed to the Sudbury line.

A considerable and bothersome item of expense is caused by the necessity of replacing and repairing the plank roadways in bridges, particularly the bridge on Walnut Street. This one requires complete replacing every three or four years, at quite an expense. During the past winter we have corres-

ponded with various bridge contractors in regard to substituting cement concrete for the planks. We have learned that this is not practicable with the present frame work but would require a new bridge. While this would be expensive to erect, much would be saved in items of repair and replacing. In any event this bridge should be recovered at the earliest opportunity.

Another suggestion we would make is that a suitable shed be erected to be used for the storage of the watering-cart, road-scraper and other tools and equipments of the town. Arrangements might be made to place this building which need not be expensive, on land at the Town Farm. We would thus avoid paying storage charges and have all equipments in one place. An inventory of property in charge of the Superintendent of Streets, is inserted in this report.

#### SIDEWALKS.

The reduction of the amount available for sidewalks from \$1,000 to \$750, of necessity somewhat restricted the work done in this line. Quite a number of citizens availed themselves of the town-concreting plant but we would wish more might, particularly in the business part of the town. Corner curbs were set (twelve) in different sections, which not only serve to define and protect the walks, but add to the appearances.

Some provision must be made by the town for the removal of snow, or at least, the plowing of sidewalks. Heretofore this has been done by the Woolen Mill employees but as that has not been done during the past winter, it would appear that we should be better prepared. As a result of a lack of necessity in the past, we find ourselves unprovided for in the matter of plows as well as funds available. We would suggest that a special appropriation be made for the purchase of four or five modern snow-plows to be used by, and kept on the premises of as many different men with whom arrangements could be made to take care of their particular section in case of a storm.

As a matter of comparison, it might be added that the towns of Hudson and Concord, each appropriate for this purpose, \$1,000, yearly.

The thanks of the town are due, and in its name, are hereby extended, to Mr. Albert W. Haynes, by whose action in giving land, it was made possible for us to widen and improve the sidewalk on Brooks Street, near his residence, and Haynes Street, corner of Concord Street.

In a conference between the Selectmen and the Trustees of the Congregational Church it was suggested that in return for the Town building a suitable wall, that they would grant to the Town, a strip of land varying in width from .81 of a foot to 2.86 feet in front of their church on Main Street. This would greatly improve this locality, being in the center of the Town and we would recommend a favorable action by the voters.

Respectfully,

ARTHUR J. COUGHLAN.

WILLIAM JONES.

PATRICK J. SULLIVAN.

Selectmen.

**TOWN CLERK'S REPORT**

---

**For the Year 1908.**

---

From the Town Clerk's Records, March 1, 1908,  
to March 1, 1909.

---

Town Warrant No. 172.      Town Meeting March, 9 1908.

Commonwealth of Massachusetts.      Middlesex ss.

To either of the Constables of the Town of Maynard, in said  
County,

Greeting:

In the name of the Commonwealth of Massachusetts  
you are hereby directed to notify and warn the legal voters  
of said Maynard to assemble in Co-operative hall in said town,  
on Monday, the ninth day of March next, at 7.30 a. m., then  
and there to act on the following articles:

Article 1. To choose a Moderator to preside at said  
meeting.

Art. 2. To choose by the Australian system of ballot-  
ing, the following Town officers: one Town Clerk, one Town  
Treasurer, one Collector of Taxes, one Selectman for one year,  
one Overseer of Poor, for three years, one member of the  
Board of Health for three years, one Water Commissioner for  
three years, one member of the School Committee for three  
years, one Assessor for three years, one Trustee of the Public  
Library for three years, one Tree Warden for one year, two

Auditors for one year, three Constables for one year, one Cemetery Committee for three years, and all other Town Officers to be chosen at said meeting, also to answer by the said Australian System of balloting, the following question: Shall license for the sale of intoxicating liquors be granted in this Town?

For the purpose specified in this article, the polls will be opened after the election of a Moderator, and will remain open until four o'clock, when they shall be closed unless the meeting there assembled otherwise determine.

Art. 3. To hear and act upon the reports of Town Officers and Committees.

Art. 4. To see if the Town will appoint a Committee to consider appropriations for the ensuing year, and report at the April meeting. To do and act thereon.

Art. 5. To see if the Town will accept from the estate of William H. Mason, the sum of one hundred (\$100.) dollars to be known as the Mason Cemetery Fund, the same to be invested and the income expended for the perpetual care of Lot No. 268 in Glenwood Cemetery. To do and act thereon.

Art. 6. To see if the Town will accept from Samuel G. Brown, the sum of one hundred (\$100.) dollars to be known as the Samuel G. Brown Fund, the same to be invested and the income expended for the perpetual care of his lot in Glenwood Cemetery. To do and act thereon.

Art. 7. To authorize the Town Treasurer, with the approval of the Selectmen, to borrow during the municipal year beginning February 1st, 1908, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the total tax levy for said year, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year. To do and act thereon.

Art. 8. To see if the Town will vote to install a fire alarm box on Acton street, at or near private way leading to Herbert Fowler place of residence, and grant and appropriate a sufficient sum of money therefor. To do or act thereon.

Art. 9. To see if the Town will vote that the Public Park, situated on Great Road shall thereafter be known as John A. Crowe Park. To do or act thereon.

Art. 10. To see what action the Town will take in complying with the laws of the State with reference to suppressing the gypsy and brown-tail moths. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon to the Town Clerk or the Selectmen at or before the time appointed for holding said meeting.

Given under our hands this twenty-eighth day of February in the year of our Lord one thousand nine hundred and eight.

PATRICK J. SULLIVAN,  
WILLIAM JONES,  
ARTHUR J. COUGHLAN,  
Selectmen of Maynard.

Middlesex, S. S.

Maynard, February 29, 1908.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said Town, seven days before the time of holding said meeting, as within directed.

JOHN CONNORS,  
Constable of Maynard.

A true copy, Attest:

Town Clerk.

### Proceedings of Town Meeting Held March 9, 1908.

Pursuant to Town Meeting Warrant No. 172, the voters of Maynard assembled in Co-operative hall and acted upon the articles of the warrant as follows:

The meeting was called to order at 7.30 o'clock a. m., and the warrant read by the Assistant Town Clerk, cards of instruction and specimen ballots having been previously posted.

Article 1. Voted that the Town Clerk cast one ballot for Patrick J. Sullivan for Moderator. The check list was used.

James A. Cleary, John H. Lawton and James J. Morgan, ballot clerks appointed by the Selectmen were sworn by the Town Clerk.

A package of ballots and duplicate check lists were delivered to the Ballot Clerks and receipt taken therefor.

The ballot box was examined by the Election Officers and the register set at 0000, and the box placed in charge of Constable William Jones, who was sworn by the Town Clerk.

At 7.35 a. m., the polls were declared open by the Moderator.

Voted to postpone action under the remaining articles in the warrant till two o'clock p. m.

Bartholemew J. Coughlin, George W. Jamieson, William Connolly and James Mullen, tellers appointed by the Selectmen were sworn by the Moderator.

Ballots were taken from the ballot box at various times during the day and counted, it being deemed advisable by the Moderator and Town Clerk to do so.

Voted to close the polls at 4.15 p. m.  
 The number of general ballots cast, 856.  
 The number of women's ballots cast, 49.  
 Both general lists showed 856 names checked.  
 Both women's lists showed 49 names checked.

The register on the ballot box registered 904, one less than the number of ballots cast.

The count was made by the use of the Counting-board and resulted as follows:

Town Clerk, one year.

Alfred E. McCleary, three hundred and seventy-eight votes,	378
Michael F. Mullin, two hundred and eighteen votes,	218
Thomas J. Smith, two hundred and seventeen votes,	217

Article 3. Voted to accept the reports of the various Town Officers as printed in volume entitled, "Annual Reports of the Several Boards of Town Officers of the Town of Maynard, Massachusetts, for the year ending February 1, 1908," excepting the Report of the School Committee.

Voted that the report of the School Committee be laid upon the table until the April meeting.

Article 4. Voted to appoint a committee of seven to consider appropriations for the ensuing year and report at the April meeting. Committees appointed: Arthur J. Coughlan, B. J. Coughlin, Charles H. Persons, Edward F. McManus, George H. Gutteridge, James A. Cleary, William B. Case.

Art. 5. Voted to accept from the estate of William H. Mason, the sum of one hundred dollars (\$100.), the same to be invested and the income expended for the perpetual care of Lot No. 268 in Glenwood Cemetery.

Art. 6. Voted to accept from Samuel G. Brown, the sum of one hundred dollars (\$100.), the same to be invested and the income expended for the perpetual care of his lot in Glenwood Cemetery.

Art. 7. Voted that the Treasurer is authorized, with the approval of a majority of the Selectmen to borrow during the municipal year beginning February 1, 1908, in anticipation of the collection of taxes, such sums of money as may be necessary for the current expenses of the Town, but not exceeding the total tax levy for said year which exceeds \$50,000.00 giving the notes of the Town therefor payable within one year after the date thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year.

Art. 8. Voted to install a fire alarm box on Acton street, at or near the private way leading to the residence of Herbert Fowler and to appropriate one hundred dollars (\$100.) for said purpose.

Art. 9. Voted that the Public Park hereafter be known as the John A. Crowe Park.

Art. 10. Voted that the work be placed in charge of the Selectmen with full power to act.

Voted to again take up Article 3.

Art. 3. The Committee appointed March 11, 1907, to investigate the condition of Russell's Bridge, presented the following report which was read by Arthur J. Coughlan, and is now on file at the Town Clerk's Office:—

The report—

Your Committee desires to state that they have made an investigation of Russell's Bridge. In the first place the Committee communicated with the County Commissioners for the purpose of getting their judgment, the services of their engineer and, if possible, some relief in a financial way.

The Commissioners were very attentive in the matter and gave a hearing in the Selectmen's room in Town.

The meeting was attended by representatives from Stow and Maynard, also by the Bridge Committee.

At that time the Commissioners stated that the bridge was in very poor condition and dangerous to traffic, and that some measures should be taken to better the present condition.

Later they sent their engineer to make the necessary survey of the bridge and soundings of the river. Finally the print and details as to how the work should be done, also the cost of the same were forwarded.

Their figures were \$2,500.00 approximantely, Stow's proportion being \$800.00.

At a later date the committee received a communication through the chairman of the Board of Selectmen that it was not in their power to go ahead with the matter until the Town of Maynard had appropriated money for the purpose of repairing the bridge.

The report, gentlemen, covers our dealings with the County Commissioners.

At the final meeting of your Bridge Committee, we agreed that the bridge was in poor condition and that some measures should be taken in the near future to insure the safety of traffic over the bridge.

Your Committee, having taken into consideration the urgent needs of the Town, also the state affairs at the present time in a financial way, do not feel as though they ought to recommend the work, but make this report as our best judgment in the matter and leave it in the hands of our citizens for their early and earnest consideration.

Signed Committee on Russell's Bridge,

PETER WILCOX,  
P. J. SULLIVAN,  
ARTHUR J. COUGHLAN,  
E. T. McMANUS.

Voted to accept the report.

Voted to appoint a committee of five, not to include a member of the Building Committee, the School Committee, or the contractor of the Bancroft Street School Building, to

investigate the difficulty between the School Committee and the Contractor and report at the April meeting.

Committee appointed: W. C. Croft, Sidney B. Shattuck, Arthur Croft, Joshua W. Carr, Levi R. Cheney.

The meeting adjourned at 5.45 p. m.

Attest:

ALFRED E. McCLEARY,  
Town Clerk.

---

Commonwealth of Massachusetts, Middlesex, SS.

Maynard, Mass., March 12, 1908.

In accordance with the provisions of Section 62 of Chapter 25 of the Revised Laws of Massachusetts, I hereby appoint Lillian M. Mead of said Maynard to be Assistant Town Clerk of said Maynard for the current municipal year, or until the appointment is revoked.

ALFRED E. McCLEARY,  
Town Clerk of the Town of Maynard.

---

I, Lillian M. Mead, above named, solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of Maynard, Mass.

LILLIAN M. MEAD.

Middlesex, SS.

Maynard, March 12, 1908.

Then personally appeared the above named Lillian M.

Mead and took and subscribed the foregoing oath, before me.

ALFRED E. McCLEARY,  
Town Clerk of Maynard.

Town Clerk.

Town Warrant No. 173. Town Meeting, April 6, 1908.

Commonwealth of Massachusetts, Middlesex, SS.

To either of the Constables of the Town of Maynard, in said County,

### Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative hall in said Town, on Monday, the sixth day of April next, at 7.45 p. m., then and there to act on the following Articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To hear and act on reports of Town Officers and Committees.

Art. 3. To fill all vacancies in Town Offices.

Art. 4. To see if the Town will vote to accept a list of Jurors as prepared by the Selectmen.

Art. 5. To see if the Town will vote to appropriate the sum of one hundred and fifty (\$150.) dollars for band concerts. To do and act thereon.

Art. 6. To see if the Town will vote to grant and appropriate money for all necessary Town purposes. To do or act thereon.

Art. 7. To see if the Town will vote to install a fire alarm box on Glendale Street, at or near the corner of Warren-

Street and grant and appropriate a sufficient sum of money therefor. To do or act thereon.

Art. 8. To see if the Town will vote to accept the provisions of Sections 42 and 43 of Chapter 49 of the Revised Laws and amendments thereto. To do and act thereon.

Art. 9. To see if the Town will vote to adopt the recommendations of the Committee on Sewerage, as contained in their report, and printed in annual report book. To do or act thereon.

Art. 10. To see if the Town will vote to appropriate the sum of eight thousand (\$8,000.) dollars for the Water Sinking Fund, as recommended by the Committee on Sewerage. To do or act thereon.

Art. 11. To see if the Town will vote to increase the salary of the members of the Board of Health, to seventy-five (\$75.) dollars each. To do and act thereon.

Art. 12. To see if the Town will vote to increase the salary of the Secretary of the Overseers of the Poor twenty-five (\$25.) dollars per year. To do and act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least, before the time of holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 26th day of March in the year of our Lord one thousand nine hundred and eight.

ARTHUR J. COUGHLAN,  
WILLIAM JONES,  
PATRICK J. SULLIVAN,  
Selectmen of Maynard.

---

Middlesex SS.

Maynard, March 28, 1908.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said Town seven days before the time of holding said meeting.

WILLIAM JONES,  
Constable of Maynard.

A true copy, Attest: ALFRED E. McCLEARY,  
Town Clerk.

State road,	1,500 00
Amount due treasurer,	1,700 78

Signed,

ARTHUR J. COUGHLAN,  
GEORGE H. GUTTERIDGE,  
B. J. COUGHLIN,  
JAMES A. CLEARY,  
W. B. CASE,  
C. H. PERSONS,

Appropriation Committee

The above report is on file at the Town Clerk's office.

On motion of Arthur B. Papineau it was voted to lay the report on the table to be taken up when Article 6 was reached.

---

The committee appointed at the March meeting to investigate the difficulty between the School Committee and the contractor who built the Bancroft street school-house submitted the following report which was read by the Town Clerk:—

Your Committee elected at the Town meeting held in Co-operative hall on Monday, March 9, 1908, to investigate the difficulty between the School Committee and the contractor who had charge of the erection of the Bancroft School, and to report their finding at the April Town meeting, beg leave to offer the following report:—

Your Committee went to the Bancroft School Building one afternoon several hours after it had ceased raining and found the building in a wet and leaky condition, the water coming through in each of the rooms and hall. We went out on the reoof and found it constructed in such a way as might lead the water through instead of from the roof. No further proof was needed in regard to the leakage.

We then invited the School Committee, Building Committee and Contractor, also the Architect, Mr. Bateman, enclosing an addressed, stamped envelope for reply, to meet us with plans, specifications and contract in the Selectmen's rooms, that we might hear whatever they had to say to the Committee in regard to the matter. The Committee and contractor met with us but the architect failed to respond in any way.

The contractor brought with him what he called a plan of the roof construction, but it was on such a small scale that we could not determine whether he had constructed in accordance with it or not, and we called for detailed drawings which he failed to produce. He said atht at the time of the roof construction, he told the Building Committee and the architect that the roof could not be made water-tight built in that manner. On being asked why he did it in that way, he replied that it was as the architect's plans specified. The Committee deny having heard the contractor say that the roof could not be made tight constructed in the manner as drawn by the architect.

Your Committee thinks that the contractor, the Building Committee and architect deserve censure for allowing the Town to accept the building in a leaky condition, knowing that there was a guarantee to make the building tight.

We think that the architect, in as much as he was the superintendent of construction, should not have allowed the contractor to leave a leaky roof, and that the Building Committee should not have allowed the contractor to receive a full settlement until the building was watertight.

Your Committee think the contractor the party the most to blame for the leaky roof and that he should be compelled to make the roof water-tight in as much as he was, and is a citizen and a real estate owner, also that he had given a warrantee that it should be tight and had received his money to enable him to do so, even though the architect may not have given him proper details, he was the person most interested and it was his duty and privilege to tell the Committee that he could not fulfill his agreement if they allowed the architect's details to be carried out.

But instead of informing the Committee of these facts, he went ahead and finished the roof along lines which he himself admits were faulty and under which he knew by his own admission to your Committee the roof could not be made water-tight.

Your Committee find that the builder contracted with the Town and gave his written guarantee to construct the building in such a manner that it would be free from leaks. He has not done as agreed and has failed to fulfill the terms of his guarantee. We therefore endorse the report of the School Committee in as far as it has reference to the Bancroft School Building.

Signed,

W. C. CROFT,  
SIDNEY B. SHATTUCK (Sec.)  
LEVI R. CHENEY,  
A. R. CROFT,  
J. W. CARR.

The above report is on file at the Town Clerk's office.

Frank E. Sanderson and Hugh Miller were appointed tellers by the Moderator and duly sworn.

On motion of William Scully it was voted to accept the report of the Committee as read, 72 voting in favor of acceptance and one in opposition.

On motion of John H. Lawton it was voted to take the report of the School Committee from the table and accept it as printed in the Volume entitled, "Annual Reports of the several Boards of Town Officers of the Town of Maynard, Mass., for the year ending February 1, 1908.

Art. 3. It appearing that there were no vacancies in any of the Town Offices, this article was passed over.

Art. 4. It was voted to pass over this article as Chapter 348 of the Acts of 1907 placed exclusive power in the selection of jurors in the hands of the Selectmen.

Art. 5. On motion of Henry Ledgard, it was voted to appropriate \$150. for band concerts to be given by the Maynard Brass Band, this same to be expended under the direction of the Selectmen.

Art. 6. It was voted to take the report of the Committee on Appropriations from the table.

On motion of Arthur B. Papineau, amended by W. H. Gutteridge, it was voted to accept the report and act on its several recommendations separately.

The following appropriations were voted.

Schools,	\$22,000 00
Water sinking fund,	3,000 00
Highways,	4,000 00
Sidewalks,	750 00
Poor,	3,500 00
Street lighting,	2,800 00
Fire department, maintenance,	3,000 00

Fire department, repairs to building,	500 00
Police,	2,000 00
Incidentals,	2,500 00
Interest on loans,	1,500 00
Public Library	dog tax and 350 00
Salaries,	2,250 00
Treasurer's and collector's bonds,	175 00
Soldier's relief,	550 00
Tree warden,	100 00
Decoration day,	100 00
Public parks,	200 00
State road,	1,500 00

This sum to be expended only on condition that  
a like sum be secured from the Commonwealth.

Amount due treasurer,	1,700 78
-----------------------	----------

Article 7. It was voted to install a fire alarm box on Glendale street at or near the corner of Warren street and \$100. was appropriated for this purpose.

Art. 8. It was voted to accept the provisions of Sections 42 and 43 of Chapter 49 of the Revised Laws and amendments thereto.

Art. 9. It was voted to pass over this article.

Art. 10. It was voted to pass over this article.

Art. 11. It was voted to pass over this article.

Art. 12. It was voted to increase the salary of the Secretary of the Overseers of the Poor \$25. per year.

The meeting adjourned at 9.10 p. m.

Attest:

ALFRED E. McCLEARY,  
Town Clerk.

Town Warrant No. 174. Town Meeting, Nov. 3, 1908.

Commonwealth of Massachusetts. Middlesex, SS.

To either of the Constables of the Town of Maynard, in said County,

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall, in said Town, on Tuesday, the third day of November, next, being the first Tuesday after the first Monday in November, at 7.30 a. m., then and there to bring in their votes to the Selectmen for Presidential Electors, Governor, Lieutenant Governor, Secretary, Treasurer, Auditor, Attorney-General, Councillor, Senator, Representative in the General Court, Representative in Congress; County Commissioner, County Commissioner for the unexpired term ending January 1911, one Associate Commissioner for the same term and all other State, County and District Officers.

The polls will be opened at seventy-thirty o'clock a. m., and may be closed at four o'clock p. m.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen at or before the time appointed for holding said meeting.

Given under our hands this twenty-first day of October in the year of our Lord one thousand nine hundred and eight.

ARTHUR J. COUGHLAN,  
WILLIAM JONES,  
PATRICK J. SULLIVAN,  
Selectmen of Maynard.

## Middlesex SS.

Maynard, October 24, 1908.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at each of ten other public places in said Town, seven days before the time of holding said meeting as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy, Attest:

ALFRED E. McCLEARY,  
Town Clerk.

## Proceedings of Town Meeting Held November 3, 1908.

Pursuant to Town Warrant No. 174, the voters of Maynard assembled in Co-operative hall on the above date and cast their ballots for the several National, State, County and District Officers to be elected at this meeting.

The meeting was called to order at 7.30 a. m., and the warrant read.

The specimen ballots and the cards of instruction having previously been posted, the polls were then declared open by Arthur J. Coughlan, Chairman of the Board of Selectmen, who acted as presiding officer.

The Ballot Clerks, Edward T. McManus, Patrick J. Sullivan and James E. Cleary were sworn by the Town Clerk, as were the Tellers, George Smith, Owen Duggan, George W. Jamieson and Frank M. Lawton, who were appointed by the Selectmen.

A package of ballots and duplicate check lists were delivered to the Ballot Clerks and the receipt taken therefor, which receipt is on file at the Town Clerk's Office.

The ballot box was examined by the Election Officers and the register set at 000. The box was locked and placed in charge of Constable, William Jones, who was sworn by the Town Clerk.

Ballots were taken from the ballot box at various times during the day, under the direction of the presiding officer, and counted.

At four o'clock, on motion of John W. Ogden, it was voted to keep the polls open till 4.15 o'clock at which time they were closed.

The total number of ballots cast was eight hundred and forty-three which was the number of names checked on both check lists. The register on the ballot box registered eight hundred and forty, three less than the full number of ballots cast.

The count was made with the counting board and was as follows:—

ELECTORS OF PRESIDENT AND VICE PRESIDENT  
AT LARGE.

James E. Cotter of Hyde Park, two hundred and forty-five votes,	245

Town Clerk.

Town Warrant No. 175.

Town Meeting Nov. 10, 1908.

Commonwealth of Massachusetts.

Middlesex.SS.

To either of the Constables of the Town of Maynard in said County,

Greeting:—

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall in said Town, on Tuesday, the Tenth day of November next, at 7.45 o'clock p. m., then and there to act on the following articles.

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To see if the Town will accept from Mrs. John Allen, the sum of one hundred and fifty (\$150.) dollars to be known as the John Allen Fund, to be invested and the interest used for the perpetual care of the John Allen Lot in Glenwood Cemetery. To do or act thereon.

Art. 3. To see if the Town will vote to accept, receive and hold as a perpetual fund, the sum of twelve hundred (\$1200.) dollars the income therefrom to be used and expended for the perpetual preservation, care, improvement and embellishment of the private burial lot and tomb owned by the heirs of the late Lorenzo Maynard and the late William Maynard, and situated in the Town of Maynard adjacent to Glenwood Cemetery. To do or act thereon.

Art. 4. To see if the Town will vote to appropriate the sum of three hundred and fifty dollars (\$350.) for the use of the Fire Department. To do or act thereon.

Art. 5. To see if the Town will vote to appropriate the sum of one thousand dollars (\$1,000.) for the use of the Poor Department. To do or act thereon.

Art. 6. To see if the Town will vote to purchase suitable fire-proof safes for the preservation of the Public Records, as ordered by the State Commissioners of Public Records, and appropriate a sufficient sum of money therefor. To do or act thereon.

Art. 7. To see if the Town will vote to build and equip a fire-proof vault for the preservation of Public Records and appropriate a sufficient sum of money therefor. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this 30th day of October in the year of our Lord, one thousand nine hundred and eight.

ARTHUR J. COUGHLAN,  
WILLIAM JONES,  
PATRICK J. SULLIVAN,  
Selectmen of Maynard.

---

Middlesex SS.

Maynard, Nov. 10, 1908.

I have served the within named warrant by posting an attested copy at the Post Office and one each at ten other public places in said Town seven days at least before the time of holding said meeting as within directed.

NICHOLAS J. DRISCOLL,  
Constable of Maynard.

A true copy, Attest:

ALFRED E. McCLEARY,  
Town Clerk.

**Proceedings of Town Meeting Held Nov. 10, 1908.**

Pursuant to Town Warrant No. 175 the voters of the Town of Maynard met at Co-operative hall on the above date and acted on the several articles in the warrant as follows:

The meeting was called to order at 7.45 o'clock p. m., by the Town Clerk and the warrant read.

Article 1. One motion of George H. Gutteridge it was voted that the Town Clerk cast one ballot for Arthur J. Coughlan for Moderator. The check list was used.

Art. 2. Voted to accept from Mrs. John Allen, the sum of one hundred and fifty dollars (\$150.) to be known as the John Allen Fund, the interest upon the same to be used for the care of the John Allen Lot in Glenwood Cemetery.

Art. 3. Voted to accept the sum of twelve hundred dollars (\$1,200.) the interest from the same to be used for the care of the private burial lot and tomb owned by the heirs of the late Lorenzo and William Maynard.

Art. 4. Voted to appropriate the sum of three hundred and fifty dollars (\$350.) for the use of the Fire Department.

Art. 5. Voted to appropriate the sum of five hundred dollars (\$500.) for the use of the Poor Department.

Art. 6. Voted to appropriate the sum of four hundred dollars (\$400.) for the purchase of four safes, the same to be for the use of the Assessors, Board of Health, Overseers of the Poor, School Committee and Police Department and a committee consisting of the Chairman of the Board of Selectmen, Assessors, Health, Overseers of the Poor and School Committee was appointed to purchase the same.

Art. 7. Voted to appropriate the sum of six hundred dollars (\$600.) for the construction of a fire-proof vault ad-

joining the Police Station, the same to be constructed according to plans received by the Selectmen, and the Selectmen were authorized to build and equip the same.

The meeting adjourned at 8.20 p. m.

Attest:

ALFRED E. McCLEARY,  
Town Clerk.

---

Town Warrant No. 176. Town Meeting Dec. 15, 1908.

Commonwealth of Massachusetts. Middlesex SS.

To either of the Constables of the Town of Maynard, in said County,

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard to assemble in Co-operative hall in said Town on Tuesday, the fifteenth day of December next, at 7.45 p. m., then and there to act on the following articles:—

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To see if the Town will vote to appropriate the sum of fifteen hundred and thirteen dollars and fifty-nine cents (\$1,513.59) for the suppression of the gypsy and brown-tail moths, for the year ending Nov. 30, 1909. To do or act thereon.

Art. 3. To see if the Town will vote to authorize the Treasurer, with the approval of the Selectmen, to borrow a sum not to exceed five thousand (\$5,000.00) dollars in anticipation of the taxes of 1909, and payable therefrom. To do or act thereon.

And your are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said Town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this fourth day of December in the year of our Lord, one thousand nine hundred and eight.

ARTHUR J. COUGHLAN,  
WILLIAM JONES,  
PATRICK J. SULLIVAN,  
Selectmen of Maynard.

**Proceedings of Town Meeting Held December 15, 1908.**

Pursuant to Town Warrant No. 176, the voters of the Town of Maynard assembled at Co-operative hall on the above date and acted on the several articles in the warrant at follows:—

The meeting was called to order at 7.45 o'clock by the Town Clerk and the warrant read.

Article 1. On motion of Patrick J. Sullivan it was voted that the Town Clerk cast one ballot for Arthur J. Coughlan for Moderator. The check list was used.

Art. 2. It was voted that the sum of fifteen hundred and thirteen dollars and fifty-nine cents (\$1,513.59) as named in the warrant, be appropriated for the suppression of the gypsy and brown-tail moths for the year ending Nov. 30, 1909.

Art. 3. It was voted that the Treasurer be, and hereby is, authorized, with the approval of the Selectmen, to borrow, if necessary a sum or sums, not exceeding five thousand (\$5,000.00) dollars, giving the notes of the Town therefor, payable within one year after the date thereof. All debts incurred under the authority of this note to be paid from the taxes of 1909.

The meeting adjourned at 8.05 o'clock, p. m.

The Town Clerk requests information of any omissions or errors in the lists of births, deaths or marriages.

This office is prepared to furnish blanks for the proper return of births, and calls particular attention to the law in relation to returns being filed with the Town Clerk within the first five days of each month of all births occurring during the preceding month, the neglect or failure of any physician or midwife to make such returns for ten days thereafter being punishable by a fine not exceeding \$25 for each offence.

ALFRED E. McCLEARY,  
Town Clerk.

**PUBLIC PARK.**

---

I herewith present my report for the year 1908 and I would recommend that the sum of fifty dollars (\$50) be appropriated to keep the grounds in condition.

Appropriations,	\$200 00
Expended:	
Wm. Taylor, grading,	\$97 04
B. J. Coughlin, home-plate and pitchers plate,	5 50
American Woolen Co., iron for holding bases,	1 37
Wm. Taylor, labor,	40 75
Geo. Kaliler, labor on diamond,	2 00
Wm. Taylor, removing stumps from park,	45 50
	\$192 16
Unexpended,	\$7 84

JAMES J. MORGAN,  
Superintendent.

## REPORT OF BOARD OF HEALTH.

---

Our Town has been remarkably free from contagious diseases during the past year.

A slight increase in the number of cases of the so called minor contagious infantile diseases will be seen from the table following, "Vis"—

Diphtheria,	1
Scarlet-fever,	2
Tuberculosis,	3
Measles,	26
Chicken-pox,	9

Through the constant effort of the Board, the sanitary condition of the village has steadily improved.

The system of garbage and offal collecting instituted by the Board last year, resulted in a decided improvement over the old system of promiscuous collection. The Board would suggest that a more careful watch be kept over the condition of the receptacles left for the deposit of swill etc., so that they may not become leaky and unsightly as well as unsanitary. Care also should be exercised by those entrusted to the collecting, so that portions of decomposing animal and vegetable matter may not be left scattered upon the ground, thereby creating germs for the spread of disease.

We wish to express our thanks to the American Woolen Co., as well as to private citizens for the prompt and willing co-operation they have exhibited in attending to the sanitary condition of their cesspools and vaults. Too much stress cannot be laid upon this work, as, upon this depends the health and comfort of the poorer class of people in particular.

The Board also especially desires to call the attention of any and all those who have the pernicious, unhealthy, as

well as unsightly, to say nothing of the filthy habit of **expectorating upon** the street, especially the sidewalks. The attention of the Board has several times within the past year been called to particular cases where the parties guilty of such a pernicious habit are, and are generally known to be tubercular.

The crusade against the white plague which is costing the state thousands of dollars annually, cannot be successfully carried out unless towns stringently enforce regulations relative to this disease, and diligently co-operate with the state in crushing out this one prolific source of spreading the tuberculous bacilli.

We wish to thank the citizens of Maynard, in advance, for the assistance they may each and all render the Board in the future to carry out any and all processes of reformation which may tend in any way to lessen disease and promote the public health.

DENNIS SHEEHAN, Chairman

F. U. RICH, M. D., Sec'y.

ALBERT BATLEY,

Board of Health.

## REPORT OF TRUSTEES OF PUBLIC LIBRARY.

For the Year Ending March 1st, 1909.

We herewith submit the following:—

Circulating books on hand, March 1st, 1908,	4,798
Added during the year,	73
	—
	4,871
Less,	
Sold,	93
Destroyed or worn out	10
	—
	103
Total Circulating books,	4768
Public Documents and Pamphlets,	50
	—
Gross total,	4,818

The conditions in general are satisfactory. In commenting on the light—it at times gave poor results but this is being remedied as the Riverside Co-operative Association have under way the matter of installation of electricity.

We expect the Town to pay for the current used in the Library as the superior light will demand this compensation.

We are of the opinion that unexpended balances of this account should be carried forward from year to year instead of reverting to the Town Treasury.

The dog tax of which amount we are in ignorance until the close of the fiscal year is an uncertain quantity and when we are aware of the amount it is too late to apply in purchases. Hence a matter of conjecture and impoverishment to the Library.

We would recommend an appropriation of \$500.00 for the ensuing year together with the dog tax.

Subjoined is financial report:—

## FINANCIAL REPORT.

*Receipts.*

Appropriation,	\$350 00
Balance dog tax,	352 95
Fines, sale of catalogues and books,	23 13
	—

 MICHAEL TWOMEY,  
 ALEXANDER VEITCH,

Trustees Public Library.

**REPORT OF THE BOARD OF FIRE ENGINEERS.**

---

To the Board of Selectmen:—

The financial report of the Fire Department is hereby submitted. The year 1908 has been singularly free from destructive fires, those to which we were called having been conquered before serious damage resulted.

While we are extremely fortunate in the matter of fires, we believe that an additional safe-guard should be provided by the utilizing of the old hose wagon now in storage, which could be done at a small increase in expense. We would suggest that this wagon be equipped with a small amount of hose and two extinguishers and arrangements be made so as to keep it in the west end of the town or in the vicinity of Maynard's Hill, "so-called," and manned by not over ten volunteers, who could draw it by hand so as to reach and take care of incipient fires, either without calling on, or before the arrival of, the regular apparatus. By reason of, what in our opinion, at least, was misunderstanding, this wagon cost the department, for storage, during the past year, an amount, which, if spent in the manner above suggested, would be of great assistance in the more effective way of fighting fire.

By reason of a regretable and unavoidable accident, July last, one of our horses was so badly injured that we were compelled, after keeping him for about three months without using him, to cause him to be killed. We had called in three or four veterinarians who were unanimous in recommending that the animal be killed. Dr. H. L. Alderman's letter is as follows:

East Lexington, Mass., Nov. 15, 1908.

Mr. A. J. Coughlan,  
Chief of Fire Department,  
Maynard, Mass.,

Dear Sir:—

The gray horse's pastern bone was split in such a manner that the articulation was involved and in consequence a recovery could not take place. Had we been entirely sure of the condition at first, the destruction of the animal would have been indicated then.

Thanking you for your courtesy in the matter, I am,

Yours very truly,

DR. H. L. ALDERMAN.

The charges of these veterinarians, as well as the cost of a horse to replace the one killed, forced us to ask for an additional appropriation.

We are now fairly well provided with alarm boxes but there are two particular points that should be looked after in this regard. The first is that section of the new village, "so-called" in the east part of the town, in the vicinity of Hayes St. This street, as well as Arthur, Grant, Cleveland and adjacent streets, are too far from present boxes for proper protection. The second is Maynard Hill, "so-called." There we have had a wonderful growth in the past few years of private dwellings, as well as the Bancroft St., School. The nearest box for those on the east side is on Parker St., corner of Roosevelt St., and for the west side, that on Park and Sudbury Sts.

We would suggest that those living in these localities take steps to have proper articles presented to the voters at the Annual Meeting in April next.

Respectfully,

ARTHUR J. COUGHLAN,  
C. F. CAHILL,  
THOS. A. SWEENEY,

## REPORT OF OVERSEERS OF POOR.

---

To the Selectmen of Maynard:—

Gentlemen—The annual report of the Overseers of the Poor for the year ending Jan 31, 1909 is herewith submitted. The panic of 1907—08, and the consequent closing down of many factories had a marked effect on this department, and while we were forced to call for an extra appropriation of \$500. to carry out the work which the panic had caused, and when we take into consideration the number of cases aided that had a settlement in Maynard, your board feels pleased that they have been able to show an unexpended balance. We wish to call your attention to the large number of out-door Poor that were aided during the year. The most of them had no work for eight or ten months and had to be aided every week, hence the large bills for groceries, fuel etc., and while we have been repaid by cities and towns and by the state, the collection of this large amount of money was due to a great deal of painstaking investigation, and persistent following up of persons and clews by the Overseers of the Poor.

### ALMSHOUSE.

The close of the year finds this department in its usual good condition, owing to the faithful care of the warden and matron. There is nothing left undone that will contribute to the care and comfort of the inmates.

GEO. N. SALISBURY,

Tax Collector.

## REPORT OF THE WATER COMMISSIONERS.

---

To the Selectmen:—

The annual report of the Water Commissioners is herewith submitted; including the Superintendent's and Engineer's detailed reports and the accounting of the Water Registrar.

For the first time since the waterworks has been in operation, the usual appropriation by the Town of \$2,000.00 for use of fire hydrants was cut off this year. This makes the balance on hand seemingly less. Also an unusually large amount of extra iron pipe has been purchased and laid in stock, the reduced price seeming to warrant the outlay.

The condition of the conduit line of which much has been written and said in years past makes it imperative that this problem be met without further delay. The Commissioners are planning early in the spring to begin operations.

It is proposed to start at the pumping station, work along the present line, and lay a twelve inch iron pipe as far as the third chimney, following the plan known as Estimate C. of Engineer Coffins' recommendations which was submitted to the Water Commissioners in 1903.

 Sinking Fund Commissioners.

## SUPERINTENDENT'S REPORT.

---

To the Board of Water Commissioners:—

Gentlemen:—

The report of the Superintendent and Registrar, including the report of the Engineer for the year ending January 31, 1909, is herewith submitted.

### SOURCE OF SUPPLY.

The past season has been exceptionally dry and though we have had sufficient water for our needs the water in the pond has lowered from three feet above the pipe in May to two inches below the top invert in December. It has risen about one inch during January. I propose to extend the intake pipe into the pond twelve feet and place the end about one foot under the present surface of the water. This will avoid all matter, which may float on the surface, from entering the pipe.

### CONDUIT LINE AND RECEIVING WELLS.

The conduit has been cleaned from Manhole No. 3 to the Receiving Wells. Manholes No. 2 and 3 have been built up and covers put on. Both wells were thoroughly cleaned in the fall. The circle was removed from the round well and the iron stay bolts were removed. The brick work was repaired and finished on the top with cement. There are thirty-five hundred feet of twelve inch iron pipe which has been bought and stacked at the pumping station to be used in the reconstruction of the Conduit Line.

## PUMPING STATION.

The Engineer's report gives the pumping record for the year and states the condition of the plant at this time. No work has been done on the building at the pumping station excepting a few minor repairs.

## RESERVOIR.

The embankment of the reservoir was burned over in the spring and the grass cut in the summer.

## MAINS.

Three leaks have been repaired in the mains, one on Spring Lane where a  $1\frac{1}{2}$  inch union was broken, one on Parker street near Crane avenue, and one on Parker street on a hydrant branch where the joints were leaking.

The following extensions and renewals of mains have been made:—

	Distance	Size	Valves	Hydrants
Walcott St.	268	4 in.	1	
Florida Rd.	263	4 in.	1	1
Summer Hill Rd.	395	4 in.	1	
Brooks St.	120	4 in.		
Summer St.	746	2 in.	1	
Summer St.	670	6 in.	2	
Butler Ave.	84	6 in.		

2,546 feet

On Walcott and Brooks streets and Butler Ave., the extensions are to supply new houses; on the westerly end of Summer street to supply house of J. O. Thompson; on Florida

Road a  $1\frac{1}{2}$  inch was replaced by a 4 inch so that a hydrant could be placed near the buildings on Florida Road; on Summer Hill Road a 3-4 inch was replaced by a 4 inch to give a better supply; on the easterly end of Summer street the 4 inch and  $1\frac{1}{4}$  inch were replaced by a 6 inch so that the new road would not have to be dug up at some future time.

#### SERVICES.

The leaks which have been repaired are three in the lead connections; one in a galvanized pipe where a leak was caused by rust, and one on Main street where the electric current had so affected the pipe as to require a new one from the main to the sidewalk.

Three services have been relaid from the sidewalk to the cellar. Several have been cleaned out.

Taps made in the mains for new services,	18
Taps reported last year,	857
Taps now in use,	875

#### METERS.

Twenty-six additional meters have been placed during the year, one has been discontinued, making the number now in use 871. About 140 meters have been changed for repairs.

#### HYDRANTS AND VALVES.

The hydrant on Walnut street opposite River street was replaced by a taller one.

New hydrants have been set on Summer street opposite Summer Hill road, on Summer street near corner of Hayes street, and on Florida road; making ninety-nine public hydrants now in use.

Valves have been set on all new extensions.

## RECOMMENDATIONS.

I recommend that the 3,500 feet of pipe which has been bought for the conduit line be laid this year and that the line be straightened as much as possible without incurring too much expense for land damages.

I also wish to call your attention to the improvement which a metal ceiling would make in the pump room of the pumping station.

I wish to thank the Commissioners for their hearty support during the year.

Respectfully submitted,

WILLIAM NAYLOR,

Superintendent.

## ENGINEER'S REPORT.

To the Superintendent:—

Sir:—During the past year there have been no changes to make to the machinery at the station and what repairs have been necessary were of minor account. The pumps and boilers are in first class condition.

The following stock is on hand, Feb. 1, 1909, 45 tons of coal, 50 gallons of cylinder oil, 1 barrel of grease, 30 pounds cotton waste, 10 pounds of piston rod packing, 5 pounds of square flax and 18 pounds of sheet packing.

## PUMPING RECORD.

	Coal	Gallons	Daily Ave.
February	46,284	8,966,052	309,174
March	39,748	8,942,130	288,455
April	40,565	9,208,269	306,942
May	35,268	7,909,650	255,150
June	33,506	7,603,821	253,460
July	28,564	6,618,537	213,501
August	27,260	6,319,701	203,861
September	28,360	6,514,722	217,157
October	31,265	6,839,802	220,638
November	34,145	7,146,063	238,202
December	34,100	7,371,945	237,804
January	36,010	7,657,578	247,018
	415,075	91,198,270	

Average daily consumption, 248,900 gallons.

Average daily consumption for each person, figured on 5,500 consumers, 45 gallons.

The coal consumption includes banking and starting fires.

Respectfully submitted,

STEPHEN BEATON,

Engineer.

Term expires 1911

Francis S. Brick, Supt. of Schools.

Edward Kingsley, Supervisor of Music.

Mary J. Stickney, Supervisor of Drawing.

Daniel E. Goodenow, M. D., School Physician.

John Connors, Truant Officer.

## REPORT OF SCHOOL COMMITTEE

---

The school committee hereby submit their annual report for your consideration which, supplemented by the reports of the superintendent of schools, principal of the high school, supervisors of music and drawing, and school physician, gives a fairly accurate idea of the work being accomplished in this department.

Of all town departments it is probable that none carry in their workings a greater element of seriousness than in this department, for it is here the problem is worked out as to how best fit the children of the town so as to aid them in achieving success in their after life. Here also the character of the child is moulded to a great extent and the foundation laid upon which to build up men and women who will measure up to the highest ideals. With these facts in view it is self evident that in order to successfully cope with the various problems which must of necessity arise from time to time in carrying out this work, patient industry and wise fore-thought are demanded upon the part of the committee supplemented by faithful co-operation on the part of the teachers and a friendly and generous attitude on the part of the public.

While perfection is still far away your committee feel that the past year has been prolific in good results and will touch upon those points which as they conceive it should be made plain to you, namely; the work being done in the schools by pupils and teachers, the condition of town property intrusted to our care and a correct statement of the school finances.

### AS TO SCHOOL WORK.

or what is being accomplished in the schools at the present time a perusal of the reports of the superintendent of

schools and the principal of the high school together with that of the special teachers of Music and Drawing will put you pretty closely in touch with the work being done but from the standpoint of the committee there is one point of special interest upon which to comment. For a number of years the great fault in our school work was the inequality of the work done by pupils in the same grade. This, of course was not a condition peculiar to Maynard but a general one with which many communities have had to contend and in common with them various methods were adopted to reach an improved condition with only indifferent success. On the opening of the school year last fall but one method was adopted "plenty of good hard work all along the line" a little harder work, perhaps, than the average amount laid out for a teacher but the result is apparent in a great improvement in the scholarship throughout the school so that the committee are able in this particular matter to report a most satisfactory condition. In every branch of school work the same conditions maintain and to generalize we may say that all is well in the schools.

#### THE TEACHING FORCE.

As previously stated a great essential to success in school work is the cooperation of the teachers and this we believe we have at the present time. Our corps of teachers is producing work of a high standard and there is developing a hearty, "pull together" sentiment among them which renders anything but good results prohibitive. The usual number of changes have taken place in the teaching force during the year which summed up briefly are as follows: at the close of the last school year resignations were received from Supt. of schools John C. Mackin, Principal J. H. Swayne of the high school Submaster G. H. Eaton of the high school and Misses Pearl Copeland and Lena Haynes also of the high school. Mr. Mackin was succeeded by Francis S. Brick of Uxbridge, and J. D. W. Chester of Southington Ct., was elected principal of the high school. The position of submaster of the high

school was abolished and Miss Ruth Wolcott of Hudson was elected teacher of mathmematics which subject was handled by Mr. Eaton the previous year. Miss Marie de Rochemont of Portsmouth N. H. was elected teacher of French and German to succeed Miss Copeland and Miss Lena Sanborn of Hampton Falls N. H. was elected to succeed Miss Haynes as teacher of English and history. Since the opening of the school year Miss Sanborn has resigned and the position is now being filled by Miss M. Louise Doherty of Woburn. During the year also resignations were received and accepted from Miss Etta C. Burns teacher of the sixth grade in the Nason street school and Miss Anna K. Sheridan teacher of the seventh grade in the same building. Miss Anna Johnson teacher of the third grade in the Nason street building was transferred to the sixth grade at her own request and the vacancy thus created in the third grade was filled by the election of Miss Blanche Mason of this town. The seventh grade vacancy was filled by the election of Miss Maud Smith of Ashland, Me. In September it was found necessary to enlarge the teaching force, a new eighth grade being opened in the Nason street school in charge of Miss Jennie M. Loomis of Arlington and Miss Margaret Quimby of So. Acton being elected an assistant to Miss Helen Warren teacher of the first grade in the Nason street building as, there was no room available for an extra first grade which was badly needed. Another change was made necessary by the resignation of Robert W. Carter, supervisor of music, whose place was filled by the election of Edward Kingsley of Boston. Salaries still continue to be a question of importance and one considerably discussed. This town is unfortunate in being close to educational centerrs where exceptionally high wages are paid on one hand and have difficulty in securing teachers from smaller towns on the other hand on account of the high cost of living in Maynard which renders such a change unprofitable. However the committee is not planning for any radical rearrangements in the salaries at the present time.

## SCHOOL PROPERTY.

The Main street school is in excellent condition. Several small leaks which appeared at intervals in the roof have been repaired, the heating system improved, the walls tinted and the ceiling kalsomined so that this building is in excellent condition.

## NASON STREET SCHOOL.

⑥ The Nason street school should be equipped with electric lights as at the present time only the high school rooms have lights, and it is difficult for teachers and pupils to complete their work short winter afternoons. The interior of this building should be repainted and the committee will have this done if the appropriation the coming year will allow it. The boilers at this building have been retubed.

## THE BANCROFT STREET SCHOOL.

The Bancroft street school is about in the same condition as a year ago. The committee feel that another story should be added to this building so as to afford more room which is needed and for that reason delayed incurring the expense of having the roof repaired; of late, however, it has grown worse and at the time this report is being written plans are being made for some temporary repairs on the roof of this building.

## FIRE ALARMS.

An excellent fire alarm system is now in operation in all three of the buildings and frequent fire drills are held so as to provide against accidents in case of fire.

## THE FINANCES.

Inasmuch as the report of the committee shows a considerable sum remaining unpaid at the end of the financial

year it might be well to present a resume of the conditions which confronted the committee during the year. Last year the committee realized it was no time to ask for a large appropriation on account of adverse business conditions and so figured their wants down to \$22,500 which was a low figure. This the appropriation committee cut to \$22,000 which was accepted by the school committee who believed that \$500, which had been figured on for retubing the boilers at the Nason street school could be saved by letting the work go another year. To start with there remained a bill of \$504 from the account of the preceding year on account of shingling the Nason street school and several large bills for supplies which came in too late to be handled the previous year brought this amount up to over a thousand dollars which left the committee with a smaller working capital than in the year before and with greatly increased expenses to meet. It would have been difficult for the committee to keep within the original appropriation in paying the ordinary running expenses of the department but when the following is considered it is easy to see just what the department was up against financially. The Main street school heating system was considered deficient and \$90 was expended remedying this. In June the boilers at the Nason street school were examined and the committee found their condition such that immediate repairs were imperative which cost \$450. The election of a superintendent satisfactory to all the towns in the district caused the expense on the part of this town to be increased \$100 a year and to secure a principal of the high school in the scant two weeks time which was given them the committee was obliged to increase the amount on this score \$200 over the preceding year. In September there was an entirely unexpected deluge of pupils which caused the enlargement of the teaching force a new eighth grade teacher being secured at \$550 and an assistant primary teacher at \$360. There was also a bill of about \$300 for additional supplies owing to the increase in the school population all of which combined to put the committee decidedly to the bad financially. The committee considered the matter of

a special town meeting but it was finally decided to have the teachers wait for their salaries the last three weeks of the financial year which was accordingly done, that amount being thrown over onto this year. In doing this the committee felt that the coming year will be a much more prosperous one than last year and consequently the town will be in a better condition to raise the money required. Of course had the committee desired to make a good financial showing they could have paid the teachers and held back several large bills to be paid this year thus keeping within the appropriation but this course was not adopted. That Maynard citizens may gain a comparative idea of what this town is spending here is furnished the population and expenditures for school purposes of fourteen different towns in various parts of the state.

Town	Population	School Expense
Barnstable	4,336	\$27,153 47
Belmont	4,360	24,605 11
No. Andover	4,500	26,000 00
Lexington	4,530	28,370 76
Swampscott	5,141	29,462 38
Concord	5,421	35,000 00
Orange	5,578	23,650 30
Reading	5,682	33,858 40
Great Barrington	6,152	27,913 31
Hudson	6,212	25,464 63
Rockland	6,287	25,581 90
Stoneham	6,332	28,887 72
Middleboro	6,888	29,148 94
Montague	7,015	33,312 15
MAYNARD	5,800	22,000 00

The committee recommend an appropriation of \$24,000 for the coming year.

## FINANCIAL REPORT.

## RECEIPTS.

Original appropriation,	\$22,000 00
Rebate on supplies	10 30
Telephone tolls,	5 85
Rent of Hall,	5 25
Sale of old boiler tubes,	19 00
	—————
	22,040 40

## EXPENDITURES.

Salaries,	\$16,085 31
Supplies,	1,340 96
Fuel,	1,537 60
Repairs,	1,801 70
Sundries,	1,274 75
Balance,	08
	—————
	\$22,040 40

Note—Although a small balance is shown in this account the sum of \$1,312 03 remained unpaid on the salary acct. Feb. 1, the reason for which is explained in the preceding report,

The detailed expense amount is as follows:

## SALARIES.

Salaries of Superintendent, High School Principals, Assistant of High School, Teachers, Substitutes, Supervisors, Janitors, Transporting Children, Truant Officer, and School Physician, \$16,085 31

## REPORT OF SUPERINTENDENT OF SCHOOLS.

"Education always and everywhere has two ultimate purposes. It is to get children to go alone. This is the parent's view point. When a child comes into a home, the parent who thinks at all immediately begins to forecast its future. Going along means a great many things, but most important of all it means self-support, the ability to get a living.

The other purpose of education is to prepare children to do the world's work. This is the view point of the merchant who wants qualified salesmen and book-keepers, of the manufacturer who wants spinners and weavers, of the builder who wants carpenters and masons and painters, of the farmer who wants milkers and mowers, of corporations who want foremen and superintendents. It is, moreover, the broader and more unselfish view point of the statesman, who sees in education the preparation for citizenship and the safeguard of civil rights."

*HON. GEO. H. MARLIN.*

To the School Committee of Maynard, Mass., Gentlemen:

I herewith submit my first annual report of the Public Schools of Maynard.

In submitting this report I am conscious of the fact that very little can be said of an administration of so short duration as mine. It is scarce six months since I entered upon my official duties here, and most of that time has been spent in studying conditions, and becoming familiar with the various problems that are locally peculiar.

Practically no change of policy has been made over that laid out and pursued by my predecessor. We have

augmented, supplemented and made definite, that policy to a certain extent, but have not supplanted it.

I desire at this time to acknowledge my indebtedness to Mr. Mackin for his courtesy, his time and his patience, in aiding me to get hold of the work. If I have in any way been able to crystalize the work in so short a time, it is due to the fact that he spent much time, energy and patience in familiarizing me with the situation.

A most excellent foundation has been built, and on it should be erected a strong, effective and productive school system.

It takes skill and ability to build a good foundation, and the best of workmanship is required to construct one that will stand, and bear the test of time. I believe such a one has been builded.

#### THE GRADE WORK.

The chief problem of the year has been, and still is, the grade work. There were at the beginning of the year in September from ten to fifteen pupils in each class who were considerably below grade. It is easy to see how such conditions arise, especially if room has to be made at the end of a year for incoming classes. Hence this explanation is made with no criticism in view. All school systems have this problem to a greater or less degree.

It was for the meeting, and for the solution of this problem that the energies of the department were directed.

With this end in view, a list of such pupils in each grade was made, and special work and extra time given to them.

In some cases the former plan of dismissing early and retaining only backward pupils was followed. In other cases, backward pupils were retained till 4:30 or later for special help.

The key-note to all such work was intelligence and hard work, and plenty of both on the part of both pupils and teachers.

As a result of these efforts, a considerable number of backward pupils have been lifted to grade standard, and we hope that at the end of the year a good showing will be made in saving a greater part of them for promotion.

Of course there will be a few who are so far behind that they will need to repeat the grade work, but we hope the number will be small.

#### THE GRADE STANDARD.

The standard of the grade work is low, too low in fact, when you take into consideration the efficiency of the teachers, the general equipment of the schools and the amount of money expended for their maintenance. But the elevation of a school system is a matter of years and the causes of retardation are all natural ones. The remedies rather than the cause, however, are what concern us. They are: carefully and well wrought definite plans, followed by close supervision; the right kind of books and plenty of them, and good hard work all round.

To this end a detailed course of study is needed, coupled with supervision that will direct, suggest, criticise and examine; a system of text-books that will make the course of study practical and possible, and a corps of teachers who will live for and love the children, and will be willing at all times to work for a little more than they are paid. Besides this a careful watch should be kept on the children, individually, in each grade to see that they are kept growing; without over developing on the one hand and retardation on the other. This takes skill of the highest order.

In fact, the strength of all schools lies in the idea that all teachers should be trained, and whose training and ability should make it possible for them to grasp, assimilate new methods, as well as get definite results with the least friction. The marked difference between the "trained" teachers on the one hand and the "untrained" on the other, outside of methods, lies in the ability and skill in managing children and in keeping them growing.

No one factor will pull the standard of a school down or check its elevation as the promotion of children from grade to grade who are not ready for the work. It creates discouragement, listlessness and laziness; and the tendency to adjust the grade work to such results in a lowering of the standard. We should see to it that the children are kept growing, that they do their work thoroughly, and without dawdling; and that the instruction be definite, clear and concise. But if for any reason, through illness, absence from school, or for any other reason they are unable to do the work ahead of them, they should repeat the grade.

#### HIGH SCHOOL.

Your attention is especially called to the report of the Principal of the High School. In it is set forth the problems, purposes and ideals of the work. I agree with his conclusions, and approve of his criticisms and feel sure that we have the right man there. He and his corps of teachers have put a lot of hard work into the school this year, and if the work is kept up we ought to get some definite results from it in the near future. The personnel of the school is of the best, and there is no reason, if effort is crystalized and plans made definite, and enough earnest work put into it why we should not have a school of much higher order than we now have.

#### PROMOTION TO HIGH SCHOOL.

One of the drawbacks to a good high school however is a weak entering class. This is the case with ours. The present Freshmen class is weak, the present 9th Grade is also weak and unless especial effort is made down through the grades, the entering classes for several years to come will be weak. It is the recommendation of your superintendent that hereafter all pupils be admitted to the High School only upon examination.

Unless we do this, there will be those who will enter the High School to use it for a loafing place, dawdling away their time and wasting their opportunity, simply because they have not been trained to work and are unable to meet the demands of the situation.

I wish in this report to make an appeal to the parents against taking their children from school early in life to put them to work. There is a tendency on the part of some to put the children to earning as soon as possible, almost as soon as they get out of their swaddling clothes. This means death to the children, in view of the new demands that will be made upon them in the twentieth century. The children who are forced thus early into the fields of labor must write over their doors, "Abandon hope, all ye who enter here."

The mere pittance that a boy or girl may earn is but a drop in the bucket as compared to the earning power were they allowed to complete their education. Parents must sacrifice that their children may be saved to themselves. The paltry sum that a child can produce may aid at a critical time but it is an awful rate of interest to pay for a life that might be more productive, skillful and rich.

One of the reasons for this condition, parents seem to show an indifference to the claims of education. Pupils are not encouraged, urged, persuaded to do their best at all times, and they too become careless and indifferent. Let parents talk schools and education early and late. Let education be the chief industry of the town so far as children are concerned. Let it be the vocation and not the avocation of the children and let those of us who have them in charge see to it that every one is in his place daily and no time is lost, and results of our "modern education" so called, will challenge less criticism.

#### FIRE DRILLS.

During the past year, special attention has been given to fire drills in the various school buildings of the town. With this

in view a signal has been arranged, and frequent drills have been given in marching the children out of the buildings on time limit. Such drills occur at least twice a month, and have for their object the getting out of the building quickly and without panic.

Much will depend, however, upon the coolness and self-control of the teacher in cases of emergency.

The fire call is three long and two short strokes of the gong, and may be struck from the various landings of the hallways, and also from the basement.

Printed instructions have been placed near each push button, so that any one discovering a fire in the building may ring in an alarm.

I quote below from a circular issued a year ago by the State Board of Education relative to Fire Drills, which may serve as a circular of information to those interested, and whose children are under our care.

#### PRECAUTIONS AGAINST FIRE.

By George H. Martin, Secretary of the Massachusetts Board of Education.

The greatest danger in case of fire in a public building is in the fact that the occupants of the building do not know what to do. Lives are lost through delay and confusion. In several school houses fires have recently occurred in which a panic was averted, and loss of life prevented as a result of the discipline acquired through a periodical fire drill.

In case of fire in a school house, during a school session, the first thing to be done is to get the pupils out as quietly and quickly as possible. This necessitates frequent preparatory drill, that every teacher and pupil may know exactly what to do, and may do it instantly from habit.

No specific directions can be given, because buildings are not alike in the number and position of their stairways and exits.

In every school building containing two or more rooms, there should be a special fire signal known to teachers and pupils, and capable of being heard throughout the building.

At the sound of the signal, every person should instantly leave all other occupations and find his place in a line filing out.

The files should be so organized and arranged as to facilitate the most rapid motion in order to reach the stairways and exits in the most direct way.

The room teachers should direct the movements of their own classes under the general direction of the principal.

In order that this may be done without excitement, it should be made a part of the regular exercises of the school, and should be so frequent that all the movements may become habitual. For this purpose in schools where the fire drill is new, it should occur as often as once a week. In all schools, it should occur at least monthly.

No time should be set for the drill. It should occur at various times without warning.

A successful fire drill is the best evidence of a well disciplined school.

#### PATRIOTIC TEACHING.

During the past year, attempt has been made to make more definite the teaching of patriotism in the schools. With this in view, the following card was issued and we hope to place a copy in the hands of every pupil:

#### FLAG DAYS.

Jan.	1	The Emancipation Proclamation, 1863
	17	Franklin's Birthday, 1706
Feb.	12	Lincon's Birthday, 1809
	22	Washington's Birthday, 1732

Mar.	4	Inauguration of president
	17	Evacuation of Boston, 1776
Apr.	2	Jefferson's Birthday, 1743
	9	Lee's Surrender, 1865
	19	Battle of Lexington, 1775
	27	Grant's Birthday, 1822
May	4	H. Mann's Birthday, 1796
	18	Peace Day
	23	Foundation of Jamestown, 1607
	30	Memorial Day, 1866
June	14	U. S. Flag adopted, 1777
	17	Battle of Bunker Hill, 1775
July	4	Declaration of Independence, 1776
Sept.	5	First Continental Congress, 1774
	17	U. S. Constitution adopted, 1787
	18	Surrender of Quebec, 1759
Oct.	12	Discovery of America, 1492
	17	Surrender of Burgoyne, 1777
	18	Surrender of Cornwallis, 1781
Nov.	25	Evacuation of New York, 1783
Dec.	16	Boston Tea Party, 1773
	21	Landing of Pilgrims, 1620
	24	Treaty of Ghent, 1814
	25	Christmas

Labor Day—Thanksgiving—First day of each term.

#### SALUTES TO THE FLAG.

##### National Salute.

At the opening hour in the morning, the pupils are assembled and in their places in the school. A signal is given by the teacher. Every pupil rises in his place. The flag is brought forward, and at a given signal by the teacher, every pupil gives the flag the military salute, which is as follows:

The right hand is lifted, palm downward, to a line with the forehead and close to it. Standing thus, all repeat together, slowly, and distinctly, the following.

I pledge allegiance to my Flag and to the Republic for which it stands: One Nation indivisible, with Liberty and Justice for all.

At the words, "To my Flag," the right hand is extended gracefully, palm upward, towards the flag, until the end of the pledge of affirmation. Then all hands drop to the side. The pupils, still standing sing together in unison, the song: "America!" ("My country 'tis of thee")

#### INSTRUCTION FOR FLAG DAYS.

The list of days printed on this card as Flag Days should be observed in the following manner:

- (1) The flag should be displayed on the building (weather permitting) only on such days as indicated from 9 o'clock a. m. to 4 p. m.
- (2) A part of the opening exercises of the morning of each Flag Day should be devoted to saluting the Flag.
- (3) A short talk should be given at the morning exercise on the event for which the Flag is displayed.
- (4) A small Flag should be displayed over the teacher's desk every day that the schools are in session.

#### TEACHERS' CLUB AND GRADE MEETINGS.

At the beginning of the year a teachers' club was formed which has for its purpose, "self-improvement, educational uplift, professional growth, social advantage and the bringing of the schools into touch with the community,"

This club holds monthly meetings in the Assembly Hall, when a lecture is given by some speaker from out of town and light refreshments are served. The purpose of these meetings is to bring parents, the general adult public and teachers together.

Up to the present time only a small number of the parents have availed themselves of the opportunity. We hope, however, that when the aim and purpose of these meetings become better known, we shall have a greater number of the parents present.

---

Grade meetings have been held monthly for the purpose of laying out the work and discussing means and methods but we are handicapped greatly by the lack of an adequate course of study.

Mr. Mackin had as one of his future plans, the preparation of such a course of study, and I shall attempt to carry out his policy in this direction by submitting to you, at the end of the year, a very definite course.

#### THE SCHOOL CITY AND SAVINGS BANK PLANS.

This part of the school work is still carried on successfully, but owing to the shortness of time allowed for the preparation of this report, I am unable to give any statistics relative to this phase of the work.

I approve of both, and believe that they are excellent adjuncts to the education of our children, and productive of great good.

#### THE COMING EDUCATION.

The coming education is to be that of the hand and eye as well as the brain. The general trend of affairs is towards this end. We have ceased to regard mental development and the knowledge of the three R's sufficient. There is a cry for skill for such training as will not only develop a boy mentally but will train his hand and eye to be skillful.

Modern life, with its complex civilization, its specialized industries, is demanding not only an education which shall be broader than formerly but which shall emphasize the factors that characterize our modern life industry.

It is with this in view that I am bringing to you notice at this time, this phase of education. Some definite industrial work should be attempted this coming year in our schools:—at least a beginning should be made. Such work might consist of paper cutting and folding and weaving in the Primary Grades; whittling, cane weaving, raffiar basketry, in the Intermediate Grades; and bench work in the Eight and Ninth Grades. There is ample room in the basement and opportunity for bench work in the Nason street school for the two upper grades.

This work could be done in the afternoon at stated periods and at the same time a course in sewing could be given to the girls.

#### THE EYE AND EAR TEST.

According to the requirements of the State, the hearing and sight of the children were tested during the past year with the following results:

Whole number tested .....	558
Number found with defective sight.....	94
Number found with defective hearing. ....	42
Number of parents notified. ....	90

Aside from the fact that these yearly tests serve to keep the parents posted as to the condition of the children in this respect, a far greater result is being reached in bringing to the mind of the teacher certain defects of sight or hearing, which heretofore were not thought of, and which were mistaken for dulness or stupidity. I have no doubt that, in years past, certain children were pronounced dull or stupid, when dulness lay only in the fact that they could not see the board or hear the instructor; and so, become listless and disinterested. Often times a change of seat nearer the work, or away from the glaring light, will remedy a slight defect, prevent a more serious one and remove dulness. All this is being brought about by the yearly sight and hearing test.

## IN GENERAL.

One of the results of good schools ought to be good children; that is, good as indicated by their kindness, loyalty to institutions of the town, courteous in behaviour on the street, to their own people and to strangers.

I desire to commend the training of the children in this respect. There is an attitude of dignity and self respect among the children which is a credit to the town and to its educational training. I believe they compare very favorably with other localities of the State.

It is a pleasure to record the stimulus and help the teachers are giving to the lives of the children in and out of school, to the general welfare of the town in endeavoring to become a growing part of it, to the cause of education in adding strength and dignity to it, by outside study and by culture work. There is a side of education other than the bread and butter side, which is of slow growth, and whose permanent results do not appear until after years: of this good citizenship is one element. It is especially for work in this direction that I commend the teachers to you in this report.

## THE GOSPEL OF WORK.

As a part of this report I desire to submit a part of an address from Supt. J. N. Greenwood, of Kansas City, Mo.

It is valuable in as much as it is definite and direct, and is part of a gospel which the present administration advocates, and believes in and stands for. I commend it to you as a future text.

"Many grown people as well as children do not like to work. It is much easier to drift into habits of laziness, to take things easy, to expect big returns on no investments, than to get down to hard work and through it achieve success.

Great plans usually come to naught because of personal laziness. Most people believe in this doctrine for their children, and endeavor to practice it, to have them do as little work as possible. They want them to be free from drudgery. This seems to be natural to many a parent; but it makes the child flabby, helpless, and a parasite in the community. Success in life depends more on the ability to do honest work, whether in school, at home, or in the busy industries of the world, than all other characteristics combined. Children need to have their courage developed and trained, so that whenever they go at whatever is set for them to do, they will stick to it till it is finished. Quickness of mind and vigor and strength are all required. Courage to do is of a high moral quality when it is directed to worthy objects.

To have confidence in one's self, to be cheerful in doing, to have a definite purpose and to keep moving forward toward the accomplishment, will bring victory in the end. The best gospel is work, work physical, work mental, and work moral. Work is the very condition of the enjoyment of life. Every good thing in this world is the product of work. Every parent who brings up his child to eschew work, to be indulged in idleness, to fritter away his time and life in mere frivolities, hates his child and is preparing him for an idler, or a tramp, a fungus growth for the State to take care of.

Coddling children in school leads them to the same dire consequences later in life. All sensible persons feel a contempt for the idlers, the useless, and the counterfeits of society.

In closing this rather lengthy report, I am not unmindful of the fine spirit in which the teachers have met my demands. For this as well as for their untiring energy—their broad progressive spirit, their love for the children, I commend them to you.

To you, however, I extend my special appreciation for your support, loyalty and courtesy.

I submit as a part of this report, the report of the Principal of the High School and the reports of Supervisors of Music and Drawing.

Respectfully submitted,

FRANCIS S. BRICK.

## REPORT OF PRINCIPAL OF HIGH SCHOOL.

---

The Committee and Superintendent of the Town of Maynard:  
Gentlemen:—

The High School began its work in September with an almost complete change of instructors. The time elapsing since then has been characterized by a constant study of the situation and the adoption of some new policies. However, the year will be one of seed sowing rather than harvest, for it has not seemed wise to disturb existing conditions too largely.

The organization of the classes was taken without reserve as it stood, for it was not possible to secure sufficient data at the start to attempt any arbitrary grading of the students. Time has revealed the fact that in many of the classes there are students that should be taking less advanced work, because of previous failure. At the end of the year every student will be placed where he can work most advantageously. The school records have been thoroughly systematized and are now instantly available, a combined card system and record book having been devised to meet this need. Promotions hereafter will occur only on the successful completion of all previous work.

The enrollment has been large, the total membership being 127 and attendance has been fairly well maintained. Tardiness has been an evil against which we have contended with vigor, the afternoons session being given as a penalty. It has not yet been reduced to a desirable limit.

Discipline has of necessity been constant. It is to be hoped that in time habits of responsibility, application and earnestness will be more pronounced, and will become automatic. Thus far there has been noticeable too much of a tendency to regard the school as a social center, and to

evade the serious aspects of its work. Certain severe penalties have been necessary to establish a healthy atmosphere and we have found it wise to be uncompromising in the demand for proper deportment.

Various features of encouragement are to be noted. There is a large tendency in the upper classes towards college preparation. About 16 have manifested a desire to prepare for college, 10 for normal school, 5 for hospital work and 21 for other training. The school is ready to prepare this work, and is empowered to give a certificate of entrance, where this is offered to schools, to those that have attained high rank in the four years work. Parents are urged to plan for such pursuits by regulating the choice of studies from the first year. Delays in making suitable selections may defer college entrance for a year or more, in the case of those institutions that have rigid requirements.

The proportion of boys in the school is 53 per cent of girls 47 per cent. This ratio is rather unusual, the usual ratio being 1-3 boys and 2-3 girls. This condition is partly explained by the fact that the number of positions open to boys in the mill has been reduced, owing to the financial depression. But it is a reason for congratulation that the school has retained so many, and the loss of an education because of the attractiveness of a little spending money is to be deplored, whenever it occurs.

A third feature for congratulation lies in the hearty support that has been given the school by parents and public: the High school presents a number of very serious problems, many of which can never be worked out except by the co-operation of all. No teaching force can raise a school higher than the limit set by public opinions. And any town may have what it wants and demands.

We therefore hope for a continuance of this cordiality. The activity of the school must be expressed in more than the teaching of classes. There is need of moral stimulus, of efforts directed to improve personality and character, of ideals of conduct and thought. The school will try to work along all

these lines. It asks of parents to recognise this need, and this purpose, and to aid in the working out of the plans.

Visiting the school is one way to help. Insisting on regular home hours of concentrated study, two or three each school day, is a second. The prevention of absence and tardiness, as habits that not alone undermine the working of the school as a whole, but are certain to weaken the efficiency of the pupil, not alone in school, but in his after life, is a third. And a fourth is the regulation of reading matter, of outside interests and amusements and of companions. We have no more serious problem than the unfortunate results that are related to this fourth item. There is too great a tendency to look on life as a scene of social pleasure chiefly, too slight a realization of its responsibilities.

The working of the school is greatly hampered by reason of its congested condition. The rooms available for the study purposes of the 127 pupils in the school are 3 in number, while, considering the 9th grade of 50 as two divisions, there are 6 classes in the school, each of which recites in 5 things per day, taking the average of all recitations made. In order to provide for this, it has been necessary to hold recitations wherever a place could be made in the assembly hall and drawing room, as well as in rooms otherwise packed full of students studying. This make shiff arrangement produces a continual shifting of classes and seatings, a condition which operates against order and the responsibility of pupils for particular seats or rooms. Added to this, the three large study rooms are the only ones equipped for recitation. We need at least two more full sized rooms, a laboratory of double the dimensions of the present, with proper tables and closet room, and a principals office with enlarged stock room. Certain of the sccientific courses, as Botany and Physics, if conducted as is usual elsewhere, will require additional facilities for working.

It seems advisable to recommend certain modifications of the course of study. The point system under which the school is now working has much to commend it, but it is open to the objections that students may do a certain amount of

slipshod work for which they may not be called to account<sup>4</sup> as the present rules specify only in regard to the number of points to be gained for graduation. Moreover there exists the possibility of classes in which may be students from each of the four strictly high school classes. Certain pupils in every high school will do only so much work as is definitely required, and pressure must be available for them, and for others whom they influence. Therefore it seems well to recommend that pupils that have begun a given study shall be required to complete it before leaving it; that no one may elect studies out of his year; that a definite number of studies be required each year; and that the course be modified somewhat so as to fit more perfectly the needs and capacity of the school.

A well defined need exists in the problem of pupils lunches. The present tendency for pupils to buy at recess whatever appeals to their taste at that time is unfortunate. Observations show that the articles gotten are apt to be candy, pickles, fancy crackers, frankfurters, pie, cake, etc. From a hygenic standpoint the result of a hasty lunch of this sort of material means mental dullness instead of the alert attitude that is necessary to do good work. The pupils should by all means have a lunch. It is entirely wrong to force them to wait till one o'clock or later for dinner. But the choice should be from such a list as fruit, milk, cocoa, plain but substantial sandwiches, and articles that can be easily digested and that give real nourishment.

I wish to extend my thanks to the Superintendent for constant advice and support, and to the Committee for their hearty co-operation. Any progress that has occurred is largely due to these factors. I also wish to express my appreciation for the wholesouled and faithful work of my associates.

Respectfully submitted,

J. D. W. CHESTER,

Principal.

## CLASS ODE

Tune, Alma Mater of Syracuse

Classmates now of happy schooldays,  
 Swiftly come and gone;  
 Sad farewells we must be taking,  
 For our duty's done.

Refrain

On our way turning  
 God ordained,  
 Duty to each doth call,  
 And the streams of life advancing  
 Passeth over all.

We have won! The strife is over;  
 Ours the victor's crown.  
 What care we for toil and labor  
 In the years to come?

Refrain

On our way turning, etc.

When the mists of sorrow gather,  
 Sad the heart may be;  
 Still the light of youth and gladness  
 Lives in memory.

Refrain

On our way turning, etc.

## REPORT OF SUPERVISOR OF DRAWING

---

Superintendent of Schools and School Committee, Maynard,  
Massachusetts.

Gentlemen:—

No radical change has been made in the general work in drawing in the Maynard schools. In previous reports have been given the different phases of work developed, therefore it is not necessary to enumerate those here.

The direct aim throughout the schools is to produce sincere and honest work from the pupils; that although there is pleasure in being able to represent a likeness in a picture, there is joy in making or creating a thing as it truly should be.

There are laws from which, if followed, pupils may derive the principles that govern the right and wrong in all construction, as well as art, and "find out the right and like that." The work in construction in the intermediate and higher grades, for the year past, has been of paper, card board and book-binder's linen. Pupils have learned the limitations and possibilities of the material with which they work; have applied the principles governing the special problem in consideration; have through effort gained mastery and power.

At the beginning of the present school year a change was made in the plan of the Supervisors visits. Formerly the arrangement was such that a visit was made to each room once in two weeks.

A necessary re-arrangement of time was made in September thereby making the visits once in three weeks to each grade. Therefore it can be seen that between visits by

Supervisor the work is conducted by the grade teachers. This arrangement of the teacher taking the greater responsibility of the work has proved satisfactory. It is also apparent in many cases that greater individual work is produced on the part of the teacher.

The past year there was added to the courses in the High School a course in metal work, elective. Very creditable work has been accomplished, enthusiasm abounds. The class at present numbers fourteen, showing that the course appeals to boys and girls. As the work has proved successful in the trial of one year I feel justified in asking that the equipment be made more complete that progress in the work may be advanced. The expenditure of a small amount would give opportunity for more variety in the work, therefore gaining better results and still more interest.

There is also great need in the High School of suitable plaster casts and vase forms for drawing purposes, for reference in ancient history, for study of design. Much may be learned from studying photographic reproductions of these casts but more by actually seeing and feeling of the objects. The constant repetition on one subject, like the repeated re-reading of a piece of literature while it may produce some thinking, becomes monotonous. Pleasing surroundings are an incentive toward the perfection of all work.

I wish to express my appreciation to the Teachers for their conscientious and willing efforts the past year. To the Superintendent and the Committee my sincere thanks for their encouragement and support. It has always been a pleasure to be associated with the Teachers and the School Committee of Maynard.

Respectfully submitted,

MARY J. STICKNEY,

February, 1909.

## REPORT OF THE MEDICAL INSPECTOR.

---

To the School Committee and Citizens of Maynard.

During the last two decades, civilization has progressed most rapidly, and perhaps in no line has this been more pronounced, than in the matter of Education.

In every educational department there has been a great advance, noticeable, not only in our public schools, but in all the higher institutions of learning, as well.

The pupil, of today, has conveniently located, easy of access and comfortable buildings, equipped with all the modern conveniences, in striking contrast to those of our own school days, when one desirous of obtaining an education, was obliged to walk a matter of perhaps 4 or 5 miles, there to spend his entire school day in a poorly-constructed, insufficiently-heated and ill-ventilated building, which, at the present day, would be held in the highest condemnation.

The query often arises, among a certain few, "why the necessity of such a radical change, and why should not the child, of today, subsist on the same lines as his or her fore-fathers?" who, it must be admitted, were most sturdy, hardy and ambitious.

The answer is found in the first few lines of this report, viz, advance in Civilization; The child, of today, reared as he or she has been, could not with-stand the hardships, incident to former days, and if forced into them, would rapidly decline.

Diseases, of all kinds, are more prevalent at the present day than formerly, due in part to the modes of living, but mostly to our overcrowded and too-populous cities and towns.

Recognizing this fact and condition, the Boards of Education of Massachusetts, as well as of many other states, have

passed orders, which have become legalized, to the effect that every city and town must provide an inspector or inspectors, for its various institutions of learning, and the result, during the two years the law has been operative, is evident from the increased attendance in the schools, diminished amount of sickness among the pupils and absence of epidemics.

The teacher, of today, is more observant and watchful of her charges, than perhaps are the parents, who, through carelessness or oversight, allow little ailments to be neglected, which, otherwise might be easily remedied, and it is upon the observation and alertness of this or that teacher, that the school inspector, to a great degree, must depend.

The teachers, of our public schools conduct, not only the various tests for hearing and vision, but call the attention of the medical inspector to any abnormalities of speech, actions and manners, resulting from various causes, such as adenoids, growths in the nose and throat, nervousness, mal-nutrition, etc., and in all these instances, notices are sent to the parents or guardians, stating the nature of the ailment and requesting the securing of competent medical advice, at once.

All eruptions, appearing upon this or that child, are suspicious, and the subject is debarred from school until examination has been made by either the school inspector, or, if the preference exists, by the family physician, and in no instance, is any pupil, who personally has been afflicted with any contagious disease, or in whose household such has existed, permitted to attend school without permission from some medical authority.

The sanitary arrangements and ventilation of the school buildings are also under the observation of the school inspector, and thus the possibility of epidemics is avoided and averted.

In all these ways the state and local Boards of Education are acting and collaborating, not only for the interests of the schools, but incidentally for the welfare of the entire community, and results, even if not evident now, will present themselves more markedly, as the years roll by.

In conclusion, let me state that your schools, as far as their physical condition is concerned, are most prosperous, and this state of perfection will be the aim for years to come, but it cannot be accomplished by the authorities alone, and I would solicit the co-operation and assistance of the parents in this matter.

Let them see to it that the children are warmly clad, clean-bodied, and well-fed, and at the same time be a little more observant than is their usual wont, and have such slight troubles as headaches, poor teeth, catarrh, defective eyesight, and dull hearing attended to at once, for these have, in many instances been the cause of the seeming indifference, lack of application and inevitable failure among pupils.

Habits of industry and punctuality can be inculcated in children by their parents, and all these help in their way, in the matter of deportment and scholarship of the pupil, so that again would I appeal to all those interested, to further this work, not only by encouragement, but by actions, ever bearing in mind the adage, "a stitch in time saves nine."

Respectfully submitted,

DANIEL GOODNOW.

## REPORT OF THE SUPERVISOR OF MUSIC.

To the School Committee and Superintendent of schools,  
Maynard, Mass.

Gentlemen:—

I beg to submit my first report as Supervisor of Music in the schools of Maynard.

If the future of music in this country depends on the pupils now being educated in our public schools, it behooves us to consider carefully the system we employ and to use it as an educational force.

Music should be taught according to fixed positive laws as the art of reading English or any other language—and is a science before it become an art. It should be made to be of universal benefit to the pupil not only as an accomplishment but also for the development of his intellectual faculties, cultivation of attention and concentration of mind. There is a mental music as there is a mental calculation.

The aim thus far this year has been to maintain an even balance between the artistic and mechanical in music, for in order to give expression from the true artistic standpoint the fundamentals of music must first be taught and mastered.

Since September last the periods for the supervision of music have been crowded into one day each week, past year two days a week were allowed for this work and I respectfully submit that the same schedule ought to be granted the present Supervisor. The arrangement this year allows me to spend from ten to fifteen minutes in each grade and more than half the grades are visited only once in two weeks. Weekly visits should be made to each grade and my periods for instruction should be longer to get the best results.

A brief review of the work accomplished thus far this year follows.

In grades I and II class and individual drill on the major scale and a systematic study of intervals has been followed by exercises from the Board individual slip work and rate songs. The Primer of the new Educational Music Series has been purchased for use in the second grades at the Nason street and Bancroft street schools also new books for the third grade at Nason street school.

The Intermediate grades are singing two and three parts with harder combinations of time and tune. When there is two part singing by a fair division of voices and constant interchange of parts each pupil gains greater independence in part singing.

No 6 of the Silver Song Series has been purchased for use as supplementary music in the upper grammar grades where three parts are sung and is used in connection with the exercise books already in use. The public will have an opportunity to hear the work of these upper grades in an informal concert later in the year. They are doing good work in music.

The chorus practise at the High school thus far has been the study of the cantata Ruth by A. R. Gaul. This work is practically finished and a public performance will be given of the same in the early spring. The ninth grade continues to have music with the High school chorus as last year.

There is excellent material and enthusiasm in the High school for a boys glee club and for a girls glee club but time cannot be arranged for rehearsals, which I regret very much.

Considerable attention has been given throughout the schools to tone production and use of the voice, striving for better tone quality in the singing of songs. The results have been gratifying.

I wish to express my thanks to you for your willing encouragement and to the Teachers and Committee for their support during the year.

Respectfully submitted,

EDWARD A. KINGSLEY,  
Supervisor of Music.

## COURSE OF STUDY IN MUSIC.

*Grade One.* The major scale with syllables and numbers. Staff reading of the first five tones. The first principle in time. Rote songs. The representation and names of the line, space, staff, G clef, bar, double bar measure. The quarter, half, dotted half and whole notes. Individual singing.

*Grade Two.* The remaining notes of the scale. Staff reading of all the scale tones. The second principle in time, represented by two eighth notes. Rote songs. Individual singing. Written work. Names of lines and spaces.

*Grade Three.* Staff reading with more difficult melody. Last half of year finding "do" from the key signature. The third principle in time, represented by dotted quarter and eighth notes. Rote songs. Individual singing. Written work.

*Grade Four.* Names of 15 major keys. All chromatic tones in progression down and back a half-step, using for the representation a sharp and cancel, and if necessary a double sharp. Thorough review in time principles already presented with other representations. Song interpretation. Two part singing. Individual singing. Written work.

*Grade Five.* All chromatic tones in progression up a half-step and back, using a flat for the representation. The arithmetic of music. The theory of common time. Song interpretation. Musical terms. Two part singing in concert and individually. Written work.

*Grade Six.* Position of sharps and flats in the signature. The use of the sharp, double sharp, flat, double flat, cancel (or natural). The fourth principle in time represented by three eighth notes (the triplet.) The second form of the triplet, represented by the quarter and eighth notes. The theory of compound time. The sixth time principle represented by four sixteenth notes. The seventh time principle represented by dotted eighth and sixteenth notes. Song interpretation. Two part singing. Individual singing. Written work.

*Grade Seven.* Review. Syncopation. Song interpretation. Musical terms. Three part singing. Individual singing and written work.

*Grade Eight.* Song interpretation. The bass clef. Three or four part singing. Individual singing. Reading of tenor part. Sight reading with words. History and biography. Written work.

## TOWN WARRANT.

Commonwealth of Massachusetts, Middlesex, SS.  
To either of the constables of the Town of Maynard, in said  
County, Greeting:

In the name of the Commonwealth of Massachusetts  
you are hereby directed to notify and warn the legal voters  
of said Maynard, to assemble in Co-operative hall, in said  
Town, on Monday, the eighth day of March next, at 7.30 a.  
m., then and there to act on the following articles:

Article 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose by the Australian system of balloting the following town officers: One Town Clerk, one Town Treasurer, one Collector of Taxes, each for one year, two Selectmen for one year, one Overseer of the Poor for three years, one member of the Board of Health for three years, one member of the Board of Health for two years, one Water Commissioner for three years, one member of the School Committee for three years, one Assessor for three years, one Trustee of the Public Library for three years, one Tree Warden for one year, two Auditors for one year, three Constables for one year, one Cemetery Commissioner for three years, and all town officers to be chosen at said meeting. Also to answer by the said Australian system of balloting the following question: Shall license for the sale of intoxicating liquors be granted in this town?

Also to answer by the said system of balloting the following question: Shall an act passed by the general court

in the year nineteen hundred and eight, entitled, "An act to provide for the protection of forest or sprout lands from fire," be accepted by this town?

For the purpose specified in this article the polls will be opened after the election of a Moderator and will remain open until four o'clock in the afternoon, when they shall be closed unless the meeting there assembled otherwise determine.

Art. 3. To hear and act upon the reports of Town Officers and Committees.

Art. 4. To see if the Town will appoint a committee to consider appropriations for the ensuing year and report at the April meeting. To do or act thereon.

Art. 5. To see if the Town will authorize its Treasurer, with the approval of the Selectmen, to borrow during the municipal year, beginning February 1, 1909, in anticipation of the collection of taxes of said year, such sums of money as may be necessary for the current expenses of the Town; but not exceeding the total tax levy for said year, giving the notes of the Town therefor, payable within one year from the dates thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year.

Art. 6. To see if the town will vote to raise the sum of \$2,000 to be expended on the bridge known as Russell Bridge, to repair the walls, raise it three feet and retimber so far as is necessary.

And your are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk or the Selectmen, at or before the time appointed for holding said meeting.

Given under our hands this eighteenth day of February, in the year of our Lord, one thousand nine hundred and nine.

ARTHUR J. COUGHLAN,  
WILLIAM JONES,  
PATRICK J. SULLIVAN,  
Selectmen of Maynard.
