To the Citizens of Maynard:

The various reports of departments under the control of the selectmen are hereby submitted:

### HIGHWAYS, BRIDGES AND SIDEWALKS

The department of roads, bridges and sidewalks has grown to be one of the most important branches of the town service, and in following out the lines of permanent construction, much has been accomplished. We have deemed it advisable on our principal streets to cover the surface with an application of tarvia or oil, in order to protect them from the wear and tear of the heavy traffic of today. It also adds to the general good appearance of our streets. During the past year a part of Main street was rebuilt, Nason street, from Summer to Acton street was rebuilt of oil and gravel, and is now in good condition. Part of Sudbury street and Pleasant street have been re-graveled. It was intended to have the steam roller put on these streets, but on account of the lateness of the season it was thought best to leave them until spring.

Main street bridge has been planked with the best material obtainable for that purpose. Sudbury street bridge has been replanked, and both covered with a coat of tar and gravel. We believe this will be a great saving to the planking.

On account of the unsafe condition of the old bank wall leading to the Ben Smith bridge, we found it necessary to build a new one. All the stone work under the bridge has been pointed with cement. Cement walls were built underneath the arch, leaving the bridge in good and safe condition, the expense of same being borne equally by the C. M. & H. Street Railway company and the town.

The appropriation for permanent sidewalks has been a success during the year. A large amount of concrete and cement walks has been laid in different parts of the town. Several hundred feet of cement curbing has been built.

During the past year we had to appoint a new superin-

tendent of streets, on account of the death of the former superintendent, Mr. George A. Whitney. We secured the services of Mr. Frank Whitney, and taking into consideration the general appearance and good condition of our streets, we believe he has performed that duty well, and trust he has proven satisfactory to the citizens of the town.

#### LIGHTING

During the year we have had several requests for more lights in different sections of the town. A few new lights have been installed during the year, but on account of lack of funds we have been unable to grant all requests for same. We believe this appropriation should be large enough to install more lights in parts of the town which are not well lighted.

#### POLICE

Many people look upon an officer as a person who has an easy task of it, and is well paid for doing a very small amount of work. To them he is looked upon as one, who, when on duty, simply walks his beat, and occasionally arrests some intoxicated man, or a disturber, and at other times moves a group of persons who are congregated upon the street or sidewalk, or in some doorway, or other place, where they have no right to remain. These are far from being the only duties an officer is called upon to perform. He is bound by the oath he takes, when he qualifies as an officer, to perform many duties by which he may be required to risk life or limb, and to sacrifice his own time and personal comfort in the interest of public safety. Owing to the good work and efficiency of Mr. John Connors, our deputy chief of police, and his officers, we believe this department has been excellently conducted during the past year.

Respectfully submitted,  
 WILLIAM CONNOLLY,  
 RALPH WHITEHEAD,  
 WILLIAM JONES,  
 Selectmen of Maynard.

## REPORT OF CHIEF OF POLICE

**TOWN CLERK'S REPORT****For the Year 1913**

---

From the Town Clerk's Records, February 1, 1913,  
to February 1, 1914

**Town Warrant No. 200.      Town Meeting March 10th, 1913**

Commonwealth of Massachusetts.      Middlesex, ss.

To either of the Constables of the Town of Maynard in said County. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Cooperative Hall in said town, on Monday, the tenth day of March, next, at 7 a. m., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose by the Australian system of balloting the following town officers: One town clerk, one town treasurer, one collector of taxes, each for one year, three selectmen for one year, one overseer of the poor for three years, one member of the board of health for three years, one member of the board of health for two years, one water commissioner for three years, one member of the school committee for three years, one assessor for three years, one trustee of the public library for three years, one tree warden for one year, two auditors for one year, three constables for one year, one cemetery commissioner for three years, and all town officers to be chosen at said meeting. Also to answer by the said Australian system

of balloting the following questions: "Shall licenses for the sale of intoxicating liquors be granted in this town?"

For the purpose specified in this article, the polls will be open after the election of a moderator, and will remain open until four o'clock in the afternoon, when they shall be closed, unless the meeting there assembled otherwise determine.

Article 3. To hear and act upon the reports of town officers and committees.

Article 4. To see if the town will appoint a committee to consider appropriations for the ensuing year, and report at the April meeting. To do or act thereon.

Article 5. To see if the town will authorize the treasurer, with the approval of the selectmen, to borrow during the municipal year beginning February 1st, 1913, in anticipation of taxes for said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the notes of the town therefor, payable within one year from the dates thereof.

Article 6. To see if the town will accept from William D. Huntoon one hundred dollars (\$100), as a cemetery fund, the income to be used for the perpetual care of his lot in Glenwood cemetery. To do or act thereon.

Article 7. To see if the town will vote to instruct the selectmen to grant moving picture and hall licenses to all local parties applying who have a good character, and a suitable place approved by the state inspectors. To do or act thereon.

Article 8. To see if the town will vote to reimburse Honora Connors for taxes paid through error, and appropriate a sufficient sum of money therefor. To do or act thereon.

And you are directed to serve this Warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this Warrant with your doings thereon, to the town clerk or the select-

men, at or before the time appointed for holding said meeting.

Given under our hands this twenty-fifth day of February in the year of our Lord, one thousand nine hundred and thirteen.

WILLIAM CONNOLLY,  
WILLIAM JONES,  
RALPH WHITEHEAD,  
Selectmen of Maynard.

Maynard, March 3, 1913.

Middlesex, ss.

I have served the within named warrant by posting an attested copy of the same at the Post Office and one at ten other public places in said town, seven days before the time of holding said meeting, as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy. Attest:

MABEL A. BROWN,  
Assistant Town Clerk.

---

### Proceedings at Town Meeting March 10, 1913

Pursuant to Town Warrant No. 200, the voters of Maynard assembled at Cooperative Hall on the above date and acted on the several articles in the warrant as follows:

The meeting was called to order at seven o'clock a. m. by the town clerk and the warrant read, cards of instruction and specimen ballots having previously been posted.

Article 1. On motion duly made and seconded, it was unanimously voted that Albert Batley be moderator and the town clerk was authorized to cast one ballot for him for that office. The check list was used.

The ballot clerks, William Scully, William Holt and

Bernard Gerrigan, appointed by the selectmen, were sworn by the town clerk, who delivered to them a package said to contain twelve hundred fifty general ballots and one hundred eighty special ballots for school committee only, together with duplicate check lists of men and women voters, and took their receipt therefor, which receipt is on file at the town clerk's office. The ballot box was opened and examined by the election officers and the register set at zero, after which it was locked and placed in charge of Constable John Connors, who was sworn by the town clerk. The polls were declared open at 7.10 a. m.

John W. Flood, Frank J. Murray, Henry Ledgard Jr., and George Champaigne, tellers, appointed by the selectmen, were sworn by the town clerk.

It was voted to postpone action upon the other articles in the warrant until 2 p. m.

It being deemed advisable by the moderator and town clerk, ballots were taken from the box from time to time during the day and counted.

The polls were closed at 4 o'clock p. m.

The total number of ballots cast was nine hundred forty, and this was the number shown on the register of the ballot box. Of this number 939 were general ballots and there was one special ballot for school committee only. The names checked on both check lists tallied with the number of ballots cast.

The count was made with the counting board and resulted as follows:

#### TOWN CLERK FOR ONE YEAR

Frank E. Sanderson, five hundred seventy-three .....	573

James R. Bent, sworn

## SURVEYORS OF LUMBER

Albert W. Haynes

James Mullen, sworn

Levi R. Cheney, sworn

Article 3. Under this article it was voted to take up the several reports of town officers and departments separately. The reports of all officers and departments were accepted except those of school committee and board of health.

As to the report of the board of health, it was voted that it be not accepted until thoroughly investigated, and that a committee of three be appointed by the chair to investigate the entire report and report at the April meeting. The following committee was appointed: John W. Flood, William B. Case, William W. Oliver.

As to the school committee report, upon objection to the same by John W. Flood, it was voted that the school committee be instructed to submit an itemized report of all financial transactions of the board at the April town meeting.

Article 4. Voted that a committee of seven be appointed to consider and recommend appropriations for the ensuing year, and that this committee be a standing committee for the year. The following committee was nominated from the floor: John W. Flood, William Naylor, Alfred E. McCleary, Arthur J. Coughlan, Abel G. Haynes, Ralph Whitehead, Edward G. Cheney.

Article 5. Voted unanimously that the treasurer be and hereby is authorized, with the approval of a majority of the selectmen, to borrow during the municipal year beginning February 1, 1913, in anticipation of the collection of taxes, such sums of money as may be necessary for the current expenses of the town, but not to exceed in the aggregate \$50,000, giving the notes of the town therefor,

payable within one year after the date thereof. All debts incurred under the authority of this vote shall be paid from the taxes of the present municipal year.

Article 6. Voted to accept from William D. Huntoon the sum of one hundred dollars as a cemetery fund, the same to be invested and the income therefrom to be used for the perpetual care of his lot and its surroundings in Glenwood cemetery.

Article 7. Under this article James J. Ledgard moved that the selectmen be instructed to grant moving picture and hall licenses to all local parties of good character, and who had a suitable place approved by the state inspectors, who should apply therefor. This motion was defeated by a voice vote. Upon the result being doubted, the moderator appointed John Wollerschied and William Naylor tellers, they being duly sworn.

A rising vote was then taken, and the motion was rejected by a vote of forty-two to twenty.

Article 8. Voted that the treasurer be and hereby is instructed to refund to Honora Connors the amount of taxes overpaid by her.

The meeting adjourned at 7 o'clock p. m.

Attest:

ALFRED E. McCLEARY, Town Clerk.

Town Warrant No. 201

Town Meeting April 7, 1913

Commonwealth of Massachusetts.

Middlesex, ss.

To either of the Constables of the Town of Maynard in said County. Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Cooperative Hall in said town on Monday, the seventh day of April, next, at 7.30 p. m., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To hear and act on reports of town officers and committees.

Article 3. To fill all vacancies in town offices.

Article 4. To see if the town will vote to appropriate and grant money for all town purposes.

Article 5. To see if the town will vote to appropriate the sum of two hundred dollars (\$200.00), for band concerts. To do or act thereon.

Article 6. To see if the town will vote to appropriate a sum of money for Memorial day.

Article 7. To see what rate of interest the town will charge upon its unpaid taxes after September 10th in the year of assessment. To do or act thereon.

Article 8. To see if the town will vote to install two electric lights on High street (private way.) To do or act thereon.

Article 9. To see if the town will vote to install one electric light, corner of Elm and West streets (private ways.) To do or act thereon.

Article 10. To see if the town will vote to install private fire alarm box in mill yard. To do or act thereon.

Article 11. To see if the town will vote to install fire alarm box on Parker street near or opposite house of William D. Hooper. To do or act thereon.

Article 12. To see if the town will vote to accept Chapter 635, Acts of 1912, known as the tenement house act for towns. To do or act thereon.

Article 13. To see if the town will vote to appoint a committee to consider locations for a site and plans and estimates for a building, to be used as a town hall. To do or act thereon.

Article 14. To see if the town will vote to appropriate the sum of one hundred dollars (\$100.00), for the purpose of partly equipping the playgrounds at Bancroft and Main street schools, for vacation use for the children. To do or act thereon.

Article 15. To see what action the town will take relative to providing additional school accommodations to relieve the present congested condition of the present buildings.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the town clerk or the selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-fourth day of March in the year of our Lord one thousand nine hundred and thirteen.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.

---

Middlesex, ss.

Maynard, March 29, 1913.

I have served the within named warrant by posting an attested copy of the same at Post Office and one at ten other public places in said town, seven days before the time of holding said meeting, as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

**Proceedings of Town Meeting Held April 7, 1913**

Pursuant to Town Warrant No. 201, the voters of Maynard assembled in Cooperative hall on the above date and acted upon the several articles in the warrant as follows:

The meeting was called to order at 7.30 p. m., and the warrant read by the town clerk.

Article 1. It was unanimously voted to authorize the town clerk to cast one ballot for Arthur J. Coughlan for moderator. The check list was used.

Article 2. Kenneth H. Damren, of the school committee submitted a printed report, showing itemized expenditures of the school committee, for the year ending February 1, 1913, as directed by vote of meeting held March 10, 1913. Said report was distributed and a copy of the same is on file in the town clerk's office.

Voted that the report submitted by the committee, together with their report, as printed in the town report, be laid on the table until the next town meeting.

John W. Flood, for the committee appointed March 10, 1913, to investigate the report of the board of health, stated that upon investigation of the said report the committee saw no reason why the same should not be accepted, and therefore recommended that the report be accepted.

Voted to place report of the committee, together with report of the board of health, as printed in town report, upon the table until next town meeting.

Edward G. Cheney, secretary of the committee appointed March 10, 1913, to consider appropriations for the ensuing year, read a report. Said report is on file in the town clerk's office and is as follows:

Appropriations for 1913 recommended by the appropriation committee, John W. Flood, chairman, E. G. Cheney, secretary, members of committee, Abel G. Haynes, A. J. Coughlan, Fred McCleary, William Naylor, Ralph Whitehead:

For Support of schools .....	\$29,000.00
Water sinking fund .....	5,000.00
Highways and bridges .....	4,000.00
Sidewalks .....	1,000.00
Poor department .....	3,200.00
Street lighting .....	3,600.00
Fire department .....	3,200.00
Purchase of hose .....	600.00
Police department .....	2,400.00
General government .....	4,000.00
Interest on town debt .....	800.00
Public library, dog tax and .....	900.00
Treasurer's and collector's bonds .....	175.00
Soldiers' relief .....	250.00
Tree warden, for preservation of trees now planted .....	100.00
John A. Crowe park .....	50.00
Bancroft street school playgrounds, grading,	100.00
Board of health, \$450 back bills and \$1550 ..	2,000.00
Suppression of elm tree beetle .....	300.00
Memorial day .....	100.00

Voted to receive the report and lay same on the table until article 4 is reached.

Article 3. There being no vacancies to fill it was voted to pass over this article.

Article 4. Voted to take the report of the appropriation committee from the table and act upon each recommendation separately.

Voted to appropriate for support of schools .....	\$29,000.00
Voted to appropriate for sinking fund .....	5,000.00
Voted to appropriate for highways and bridges,	4,000.00
Voted to appropriate for sidewalks .....	1,000.00
Voted to appropriate for poor department .....	3,200.00
Voted that action on recommendation for street lighting be postponed until articles 8 and 9 are reached	

Voted to appropriate for fire department maintenance .....	3,200.00
Voted to appropriate for new hose .....	600.00
Voted to appropriate for police department .....	2,400.00
Voted to appropriate for general government ...	4,000.00
Voted to appropriate for interest on town debt ..	800.00
Voted to appropriate for public library, dog tax and .....	900.00
Voted to appropriate for treasurer's and collector's bonds .....	175.00
Voted to appropriate for soldiers' relief .....	250.00
Voted to appropriate for tree warden, for preservation of trees now planted .....	100.00
Voted to appropriate for John A. Crowe park ...	50.00
Voted to appropriate for Bancroft street school playground, for grading .....	100.00
Voted to appropriate for board of health .....	2,000.00
Voted to appropriate for suppression of elm beetle .....	300.00
Voted to appropriate for Memorial day .....	100.00

Article 5. Voted to appropriate \$200 for band concerts.

Article 6. An appropriation having been made under article 4, it was voted to pass over this article.

Article 7. Voted to charge 6% interest on unpaid taxes after September 10th, in year of assessment.

Article 8. Voted to instruct the selectmen to install two electric lights on High street.

Article 9. Voted to instruct the selectmen to install one light at corner of Elm and West streets.

Voted to appropriate for street lighting \$3,600.

Article 10. Voted to appropriate \$125 for purpose of installing a fire alarm box in mill yard.

Article 11. Voted to appropriate \$125 to install a fire alarm box on Parker street, near residence of W. D. Hooper.

Article 12. Voted that the selectmen and the board of health be a committee to investigate the matter under this article and report at some future town meeting.

Article 13. After considerable discussion it was voted to appoint from the floor a committee of seven, to consider locations for a site, and plans and estimates for a building to be used as a town hall.

Committee appointed: C. J. Lynch, A. E. McCleary, James Ledgard, A. J. Coughlan, O. S. Fowler, William Naylor, P. J. Sullivan.

Article 14. Voted to appropriate \$200 to be expended under the supervision of the superintendent of schools, in equipping the playgrounds at the Bancroft and Main street schools.

Article 15. Voted to appoint a committee of seven to consider subject matter of this article and report at some future meeting.

Committee appointed: B. J. Coughlin, Daniel Goode-now, Kenneth H. Damren, Howard A. Wilson, James J. Hilferty, A. J. Coughlan, A. E. McCleary.

Meeting adjourned at 9.30 p. m.

Attest:

FRANK E. SANDERSON, Town Clerk.

Town Warrant No. 202.

Town Meeting July 9, 1913

Commonwealth of Massachusetts

Middlesex, ss

To either of the Constables of the Town of Maynard, in said County,

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative hall, in said town, on Wednesday, the ninth day of July next, at 7.30 p. m., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To see if the town will accept from William

Harper one hundred dollars (\$100.00) as a cemetery fund, the income to be used for the perpetual care of his lot in Glenwood cemetery. To do or act thereon.

Article 3. To see if the Town will vote to appropriate an additional sum of money for the improvement of the Fire Department. To do or act thereon.

Article 4. To see if the town will vote to accept in its present condition Florida road, so-called, beginning at a point on Summer street adjoining the property of the Episcopal church and running southerly to the land of the Fitchburg railroad. To do or act thereon.

Article 5. To see if the town will appropriate a sufficient sum of money to build a general traffic bridge across the Assabet river on Florida road at the place now occupied by a foot bridge. To do or act thereon.

Article 6. To see if the town will vote to erect a public building for use as a town hall or library, or both, and purchase a site for the same, and appropriate a sufficient sum of money therefor. To do or act thereon.

Article 7. To see if the town will vote to build a combination town hall and school house, and appropriate a sufficient sum of money therefor. To do or act thereon.

Article 8. To see if the town will vote to build a combination library and school house, and appropriate a sufficient sum of money therefor. To do or act thereon.

Article 9. To see if the town will vote to build a school house, and appropriate a sufficient sum of money therefor. To do or act thereon.

Article 10. To see if the town will vote to purchase a lot of land on Summer street, and appropriate a sufficient sum of money therefor. To do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the town clerk or the selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-sixth day of June,  
in the year of our Lord, one thousand nine hundred and  
thirteen.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, July 1, 1913.

I have served the within named warrant by posting an  
attested copy of the same at the post office and one at ten  
other public places in said town, seven days before the time  
of holding said meeting as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

---

### Proceedings of Town Meeting, held July 9, 1913

Pursuant to town meeting warrant, No. 202, the voters  
of Maynard assembled in Co-operative hall on the above  
date and acted upon the various articles of the warrant as  
follows:

The meeting was opened at 7.30 p. m., and the warrant  
read by the town clerk.

Article 1. Voted to authorize the town clerk to cast  
one ballot for Arthur J. Coughlan for moderator. The  
check list was used.

Voted to take from the table the report of the school  
committee which was submitted at the town meeting, April  
7th, 1913.

Voted to accept the report of the school committee as  
printed in the annual reports of the town officers, together  
with the additional report submitted April 7th, 1913.

Voted that the report of the board of health and the report of the committee appointed March 10th, 1913 to investigate said board of health report be taken from the table.

Voted that the reports of the board of health and the committee be accepted.

Selectman William Connolly gave a verbal report for committee appointed under Article 12 of the meeting held April 7th, 1913, relative to tenement house act, and stated that as yet the committee had nothing definite to report.

Voted to accept the report as one of progress.

C. J. Lynch, chairman of the town hall committee moved that the report of this committee be heard under Article 6, and it was so voted.

B. J. Coughlin, chairman of the committee to investigate the need of additional school room stated that the committee were very firmly convinced that a new school was needed, and gave figures submitted by Superintendent F. S. Brick to show said need.

Dr. Goodenow of the school board read above mentioned report of Superintendent Brick.

Voted to receive the report of the committee and lay same on table until Article 9 is reached.

Article 2. Voted to accept from William Harper the sum of \$100, the income to be used for the perpetual care of his lot and surroundings in Glenwood cemetery.

Article 3. Chief Engineer George H. Gutteridge stated the plans of the fire engineers relative to a combination chemical auto and consequent changes at the engine house, and recommended the purchase of a combination chemical auto.

John W. Flood stated that the appropriation committee approved of the plan presented by the fire engineers.

On motion of George H. Gutteridge it was voted that to make the necessary changes in equipment, etc. at the fire station, an additional appropriation of \$1800 be made and that the increase be charged to the taxes of 1914, and that the fire engineers be empowered to make the changes.

Article 4. John O. Thompson moved to accept Florida road in its present condition, from Summer street to the Fitchburg railroad, but later was granted leave to withdraw the motion.

Voted to lay Article 4 on the table and take up Article 5.

Article 5. Voted to take Article 4 from the table and act on it in conjunction with Article 5.

On motion of William Naylor, voted to appoint a committee of seven to investigate the advisability of accepting Florida road from Summer street to Main street, the cost of erecting a bridge over the Assabet river, and all matters relative to obtaining rights of way.

Committee appointed: John O. Thompson, Harvey A. Harwood, William Naylor, William Connolly, Ralph Whitehead, William Jones, Richard Parmenter.

Article 6. C. J. Lynch, chairman of town hall committee read a report. Said report is on file in the town clerk's office, and is as follows:

#### REPORT OF TOWN HALL COMMITTEE

Your committee appointed at the April meeting to consider locations for a site and plans and estimates for a building to be used as a town hall herewith submits the following report:—

The committee has made a careful study of the situation and has sought to get the approximate price of every possible site that could be considered at all appropriate for the location of a town hall, the cost of such a hall as would fulfill all the needs of the town for a long time to come, the annual additional burden to be placed on the taxpayers, the probable income to be derived from the hall, and the advantage to the town as an evidence of public spirit among its people.

The following locations have been considered by the committee:

1st. The Amory Maynard lot at the corner of Main and Nason streets. This lot is not for sale, and if taken, the price would be prohibitive.

2nd. The Fowler lot on Main street, adjoining the Congregational church. The frontage of this lot is too small for such a building as would accommodate the town. To have a sufficient frontage here it would be necessary to have the combined Fowler and B. J. Coughlin lot down as far as the Cannon Block, the two costing about \$27,000, which price the committee considered prohibitive.

3rd. The Amory Maynard lot on Nason street, between the new B. J. Coughlin block and the Case block, a lot with a frontage of 100 feet and about 80 feet in depth. The price is \$17,000. The committee consider the lot too small and the price prohibitive.

4th. The Abel Haynes lot at corner of Nason and Summer streets, running to the high school building and the old Music hall lot, the former for \$9,000 and the latter for \$4,800 upon investigation proved to be of insufficient size for the purpose.

5th. The lot on which is situated the Nason street block, so-called, belonging to Mrs. Reed. This lot has a frontage of about 114 feet and a depth on the shorter end of about 105 feet. The price for this lot is in the neighborhood of \$13,500. To make this suitable for the purpose it would undoubtedly require a taking of a portion of the land in the rear belonging to the Maynard House and would bring the price up in the region of \$15,000 or \$16,000.

6th. A lot on Main Street composed of the land known as the Campbell lot and the land in back as far as the Maynard House land, and the property of Dr. Franklin P. Flagg, giving a total depth on the shorter side of 157 feet and a frontage of about 170 feet. Or that portion of the Flagg property known as the McManus lot, could be bought in connection with the Campbell lot so-called, and the back land giving a frontage of about 119 feet. The first named combination would cost about \$16,000 and the last named \$12,000.

The committee believes the combination of the Campbell lot and the Flagg lot for \$16,000 is the most desirable for a town hall because of its central location for town

purposes, the fact that it is on the Main street where such a building would be seen by travellers through the town, its size is the most suitable for the purpose, allowing some open space in front and on either side of the building so as to set it off to advantage, and, all things considered, is much cheaper than any other lot.

After consultation with several architects the committee is satisfied that a semi-fireproof building giving an auditorium on the ground floor, eight town offices with a private toilet, a committee room accommodating 50 people for hearings before any town board or for the use of town committees, a room suitable for either a library or banquet room, a vault, for the keeping of town books and documents, a lock-up and police room, public toilet, and an auditorium that would seat 1,000; eight hundred on the floor and two hundred in the balcony, could be built and suitably equipped for from \$40,000 to \$45,000. This price would include all heating and ventilating apparatus and all equipment and would enable the committee to deliver the hall ready for use.

This would make the total cost about \$60,000 for land and building. To pay for this it would be necessary for the town to issue serial notes or bonds coming due annually for a period of twenty years, each note or bond being for \$3,000. The interest on these bonds at the present time would probably be 4 1-2 per cent.

The committee has drawn up a rough estimate of the income from and expense of such a building as follows:

8 offices .....	\$ 600	Expense.	
Library .....	250	Interest on notes ...	\$2,700
Hearing room .....	100	Light .....	150
Vault .....	50	Fuel .....	350
Town Hall .....	150	Insurance .....	160
Police station .....	100	Water .....	50
Public toilet .....	100	Janitor .....	800
Hall rent .....	3,000	Repairs .....	100
	<hr/>		<hr/>
	\$4,350		\$4,310

The foregoing list of receipts and expenses practically balance. Thus, it leaves as the only expense on the town the meeting of each note for \$3,000 as it becomes due.

In conclusion, the committee would frankly state that this amount of principal due each year would for a time increase the tax rate about seventy-five cents. This would, of course, gradually diminish as the notes were paid from year to year and the amount of interest decreased.

The only question remaining is whether or not the citizens and tax payers of Maynard are so lacking in public spirit, which is in a town what patriotism is in a nation, that they would begrudge this small increase in the tax rate. The committee believes that this increase is so trifling when compared with the resultant benefits and when compared with the merely sentimental effect, if we may so term it, which it will have, that it should not weigh with the citizens of Maynard, and we accordingly recommend the purchase of the site heretofore mentioned as in the belief of the committee most suitable, and the erection of a town hall to cost, land and buildings and equipment, not more than \$60,000.

Respectfully submitted,  
 CORNELIUS J. LYNCH,  
 WILLIAM NAYLOR,  
 ALFRED C. McCLEARY,  
 P. J. SULLIVAN.

Committee.

Henry Ledgard, Jr. moved that the report be accepted and the article passed over.

Mr. Lynch objected and raised the point of order that he read the report understanding that the same was not heard in connection with the article, but before the article.

After considerable discussion it was voted to pass over Article 6.

Article 7. Voted to pass over Article 7.

Article 8. On motion of Alfred E. McCleary, voted that action on this Article be postponed until some time after September 1st.

Article 9. Voted to take the report of the committee on additional school accommodations from the table.

Voted to accept the report as one of progress.

Voted that the further consideration of this article be postponed until some meeting subsequent to September 1st.

Article 10. Voted that action under this article be postponed until some meeting after September 1st, and that the committee be instructed to look up other sites.

Voted to adjourn at 9.55 P. M.

Attest:—

FRANK E. SANDERSON, Town Clerk.

---

Commonwealth of Massachusetts.

Middlesex, ss.

Maynard, August 2, 1913.

In accordance with the provisions of Section 62 of Chapter 25 of the Revised Laws of Massachusetts, I hereby appoint Herbert Lawton of said Maynard to be Assistant Town Clerk of said Maynard during the current municipal year, or until the appointment is revoked.

FRANK E. SANDERSON,  
Town Clerk of Maynard.

I, Herbert Lawton, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Mass.

HERBERT LAWTON.

Sworn and subscribed to the second day of August, nineteen hundred and thirteen, before me.

FRANK E. SANDERSON,  
Town Clerk of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

**Town Warrant No. 203. Town Meeting September 23, 1913**

Commonwealth of Massachusetts

Middlesex, ss.

To either of the Constables of the town of Maynard in  
said County. Greeting:

In the name of the Commonwealth you are hereby required to notify and warn the inhabitants of said town who are qualified to vote in Primaries to meet in Co-operative hall, Tuesday, the twenty-third day of September, 1913, at 6.30 o'clock p. m., for the following purposes:

To bring in their votes to the primary officers for the nomination of candidates of political parties for the following offices:

Governor, treasurer and receiver general, lieutenant governor, auditor of the Commonwealth, secretary of the Commonwealth, attorney-general, all for this Commonwealth, councillor for sixth councillor district, senator for fifth senatorial district, one representative in general court for tenth representative district, county commissioner for Middlesex county, two associate commissioners for Middlesex county, district attorney for Northern district, register of probate and insolvency for Middlesex county, register of deeds, Southern district, for Middlesex county.

And for the election of the following officers:

District member of state committee for each political party, for the 5th senatorial district, five members of the democratic town committee, five members of the republican town committee, five members of the progressive party town committee, delegates to state conventions of political parties.

All the above candidates and officers are to be voted for upon one ballot.

The polls will be open from 6.30 to 8.30 p.m.

And you are directed to serve this warrant by posting attested copies thereof seven days at least before the time of said meeting as directed by vote of the town.

Hereof fail not and make return of this warrant with your doings thereon at the time and place of said meeting.

Given under our hands this eighth day of September, A. D., 1913.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.

Middlesex, ss. Maynard, September 13, 1913.

I have served the within warrant by posting an attested copy at the post-office and one at ten other public places in said town seven days at least before the time of holding said meeting as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy. attest:

FRANK E. SANDERSON, Town Clerk.

### Proceedings of Primaries, September 23, 1913

Pursuant to town warrant No. 203, the voters of Maynard assembled at Co-operative hall on the above date for the purposes named in the warrant.

The meeting was called to order at 6.30 p. m. and the warrant read by the town clerk.

William Connolly, chairman of the board of selectmen, acted as presiding officer. Specimen ballots and cards of instructions were posted as required by law. The ballot box was in charge of Constable John Connors, after the same had been examined by the primary officers and the register set at 0000. Constable Connors and also the ballot clerks, George Smith, Luke J. Hannon, William H. Mann, Christopher Wilson, and Joseph Hanna were sworn by the town clerk.

The ballot clerks also acted as tellers.

The polls were closed at 8.40 o'clock after having been open two hours. The register on the ballot box indicated that 245 ballots had been cast.

Of this number 106 were Democratic ballots, 14 Progressive ballots, and 125 Republican ballots. The check lists each showed that 245 names had been checked and corresponded with the above figures.

The result of the balloting was as follows:

**Democrat**

**Town Warrant No 204. Town Meeting, November 4, 1913**

Commonwealth of Massachusetts.

Middlesex, ss.

To either of the Constables of the Town of Maynard, in said  
County, Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Co-operative hall in said town, on Tuesday, the fourth day of November next, at seven a. m. Then and there to bring in their votes to the selectmen for governor, lieutenant-governor, secretary, treasurer, auditor, attorney-general, councillor, senator, representative in the general court, county commissioner, two associate commissioners, district attorney, register of probate and insolvency, register of deeds in Southern district (to fill vacancy), and all other state, county and district officers.

Also to vote on the following questions:

Amendment to the constitution making women eligible to appointment as notaries public. Chapter 28, Resolves of 1913.

Amendment to the constitution authorizing the referendum. Chapter 116, Resolves of 1913.

Acceptance of Chapter 807, Acts of 1913, entitled "An Act to provide for compensating certain public employes for injuries sustained in the course of their employment."

And you are directed to serve this warrant by posting an attested copy at the Post Office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the town clerk or the selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twentieth day of October,  
in the year of our Lord one thousand, nine hundred and  
thirteen.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, October 25, 1913.

I have served the within named warrant by posting an  
attested copy of the same at Post Office and one at ten other  
public places in said town, seven days before the time of  
holding said meeting, as within directed.

WILLIAM JONES,  
Constable of Maynard.

A true copy. Attest:

HERBERT LAWTON,  
Assistant Town Clerk.

---

### Proceedings of Town Meeting Held November 4, 1913

Pursuant to town meeting warrant No. 204, the voters  
of Maynard assembled in Co-operative hall on the above  
date and cast their ballots for state, county and district  
officers.

The specimen ballots and cards of instruction were  
posted as required by law. A package said to contain 1300  
ballots was delivered to the ballot clerks and a receipt  
taken therefor by the town clerk.

The ballot clerks, James F. Kelley, C. Clifford Cheney  
and Luke J. Hannon, were sworn by the town clerk.

The ballot box was examined by the election officers,  
the register set at 0000, after which it was locked and the  
keys placed in the keeping of Constable William Jones, who  
being sworn by the town clerk, took charge of the box.

The warrant was read by the town clerk and at 6.55 a. m. the polls were declared open by William Connolly, chairman of the selectmen, who acted as presiding officer.

It being deemed advisable by the presiding officer and town clerk, ballots were taken from the box at various times during the day and counted.

The tellers, George Smith, Christopher Wilson, Cornelius J. Lynch and John W. Flood, were sworn by the town clerk.

The total number of ballots cast was seven hundred and ninety-six (796).

The polls were closed at four o'clock and the ballot box register indicated seven hundred and ninety-seven (797), which was one more than the actual number of ballots cast.

Both check lists showed seven hundred and ninety-six (796) names were checked.

The result of the balloting was as follows:

#### GOVERNOR

Charles Sumner Bird of Walpole, Prog., two hundred and twenty-six .....	226
Alfred H. Evans of Northampton, P., six .....	6

---

Hudson, Mass., November 14, 1913.

We, the undersigned, clerks of the towns of Stow, Boxborough, Hudson and Maynard, met this day according to law and examined the copies of record of vote cast November 4, 1913, in the Tenth Middlesex district for representative in the general court, and the votes so cast appear from said copies of records to have been as follows:

	Walter E. Lamson	Thomas F. Mahoney	Alfred E. McCleary	A. J. Coughlan	Blanks
Stow .....	73	25	48	1	3
Boxborough .....	27	24	21		1
Hudson .....	333	431	349		41
Maynard .....	183	185	389		39
Total .....	616	665	807	1	84

HENRY P. SMITH, Town Clerk of Stow,  
SIMON B. HAGER, Town Clerk of Boxborough,  
FRED O. WELSH, Town Clerk of Hudson,  
FRANK E. SANDERSON, Town Clerk of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

# COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

Maynard, November 14, 1913.

I have this day delivered to Alfred E. McCleary, 15 Lincoln street, Maynard, the certificate of his election as representative in the general court from the tenth Middlesex district, said certificate being duly attested by the town clerks of the district.

JOHN CONNORS,  
Constable of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

**Town Warrant No. 205. Town Meeting December 10, 1913**

Commonwealth of Massachusetts. Middlesex, ss.

To either of the Constables of the Town of Maynard, in said county. Greeting:

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Cooperative Hall in said town, on Wednesday, the tenth day of December, next, at 7.30 p. m., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To hear and act on the reports of committees.

Article 3. To see if the town will vote to appropriate the sum of one hundred fifty dollars (\$150.00), to secure a survey and working plans with estimate of cost of a cement bridge across the Assabet river at Florida road, and a survey of proposed road from the river to the Main street, to do or act thereon.

Article 4. To see if the town will vote to appropriate the sum of sixteen hundred thirty-seven and eighty-two one hundredth dollars (\$1637.82), for the suppression of the gypsy and brown tail moths for the year ending November 30, 1914, to do or act thereon.

Article 5. To see if the town will vote to appropriate the sum of one thousand dollars (\$1000.00), to meet current expenses of the overseers of the poor, to do or act thereon.

Article 6. To see if the town will vote to purchase a site and erect a building thereon for use as a school building, and to appropriate a sufficient sum of money therefor, the same to be raised either by the issuing of notes or bonds of the town, or in any other manner not inconsistent with law, to do or act thereon.

Article 7. To see if the town will vote to purchase a site and erect a building thereon, to be used for school and library purposes, and appropriate a sufficient sum of money

therefor, the same to be raised either by issuing the notes or bonds of the town or in any other manner not inconsistent with the law, to do or act thereon.

And you are directed to serve this warrant by posting an attested copy at the post office and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the town clerk or the selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-sixth day of November in the year of our Lord one thousand nine hundred and thirteen.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.

Middlesex, ss.

Maynard, December 1st, 1913.

I have served the within named warrant by posting an attested copy of the same at the post office and one at each of ten other public places in said town seven days before the time of holding said meeting as within directed.

JOHN CONNORS,  
Constable of Maynard.

A true copy. Attest:

FRANK E. SANDERSON, Town Clerk.

---

### Proceedings of Town Meeting Held December 10, 1913

Pursuant to town meeting warrant No. 205, the voters assembled in Cooperative hall on the above date to consider and act upon the various articles of the warrant.

The meeting was called at 7.30 o'clock p. m., and the warrant read by the town clerk.

Article 1. Voted to authorize the town clerk to cast one ballot for Arthur J. Coughlan for moderator. The check list was used.

Article 2. William Naylor, member of the committee appointed July 9 to investigate cost of building a bridge across the Assabet river at Florida road, read a report for H. A. Harwood, clerk of the committee. Said report is on file in the town clerk's office and is as follows:

The committee appointed to investigate the necessity of the town opening a street from Summer street to Main street, known as Florida road, offers the following report: "We find the road from Summer street to the Assabet river, as recorded with the commissioner of deeds, as Florida road, is forty feet wide and can be taken by the town without question and it compares well, in its present condition, with other side streets of the town. The Assabet improvement association will transfer to the town a street forty feet wide from the Assabet river to the Boston & Maine railroad tracks, with the condition that the town put in a curbing to protect their property. We have secured the consent of the American Woolen company to take the required land and any rights they may have across the railroad property.

"We have met with the road commissioners of Concord. After putting \$40,000 into cement bridges they strongly advise us to put in nothing else, as they consider that settles the bridge question for good.

We have not been able to get plans or reliable estimates of the cost of a cement bridge, through lack of funds, and ask an appropriation of \$150 for the plans and survey of bridge and street, to be presented at the April meeting, when we will be able to report definitely the cost of a bridge and of opening of the street."

Respectfully submitted,

H. A. HARWOOD,

Clerk of Committee.

Voted to lay report on the table until article 3 is taken up.

B. J. Coughlin, member of committee appointed April 7th, to consider additional school accommodations, stated that the committee had met several times, were thoroughly convinced of the need of a new school house, and were prepared to report fully to the citizens.

Voted to lay this report on the table until article 6 is taken up.

Article 3. On motion of P. J. Sullivan, voted to receive the report of the committee and to appropriate \$150.00 to secure a survey and plans of a bridge across the Assabet river at Florida road.

Article 4. On motion of William Naylor, voted to appropriate \$1637.82 for the suppression of the gypsy and brown tail moths, for the year ending November 30, 1914.

Article 5. James Mullin of the board of overseers of the poor, stated the need of the appropriation asked for, and upon his motion it was voted, 58 Yes, 7 No, to appropriate \$1000.00 to meet current expenses of the overseers of the poor.

The above vote was counted by Albert Batley and Albert W. Haynes, who were appointed tellers and sworn by the moderator.

Article 6. On motion of John Hannon, voted that the report of the committee be received and that articles 6 and 7 be acted upon jointly.

Kenneth H. Damren, chairman of the school committee, made a verbal report, emphasizing the need of more school room, and recommended the erection of a building to be used jointly for school and library purposes.

After considerable discussion it was voted that action under articles 6 and 7 be postponed for one week.

Voted at 9.35 o'clock, to adjourn until 7.45 p. m., Wednesday, December 17th.

Attest:

FRANK E. SANDERSON, Town Clerk.

**Proceedings of Adjourned Town Meeting December 17, 1913**

In accordance with the vote taken at the town meeting December 10, 1913, that adjournment for one week be made, the voters assembled in Cooperative hall on the above date, to act upon the articles of the warrant, consideration of which had been postponed.

The meeting was called to order at 7.45 o'clock p. m., by Arthur J. Coughlan, moderator, and articles 6 and 7 of the warrant were read.

On motion of John W. Flood, voted that the meeting dissolve itself into a committee of the whole, to discuss the questions under consideration.

Upon a vote to rise from a committee of the whole, the consideration of articles 6 and 7 were taken up in town meeting.

Henry Gilroy and Charles H. Courtney were appointed tellers, and sworn by the moderator.

Voted that the town build a high school on the Main street site, so called, the building to cost not over forty thousand dollars (\$40,000), including equipment and land; the land purchased to have a frontage of not less than 100 feet, and a depth of not less than 100 feet, the cost not to exceed five thousand dollars (\$5000.)

Voted, 60 in favor and none opposed, that the town purchase a suitable site and erect thereon a high school building, the cost of said site and building not to exceed forty thousand dollars (\$40,000), and that a committee of seven be appointed to purchase said site and to erect said school building, and to have full power and discretion to do all things necessary or proper in connection therewith. And it is further voted that the sum of forty thousand dollars (\$40,000), be and hereby is appropriated for this purpose, and that this sum be raised by the issuing of twenty notes or bonds of the town of two thousand dollars (\$2000), each therefor, said notes or bonds to be payable one each year, beginning not more than one year after the date of issue of the first note or bond, so that the whole loan shall be paid in not more than twenty years from the

date of issue of the first note or bond. All notes or bonds issued under the authority of this vote shall be at a rate not exceeding four and one-half percent per annum. No site other than the Main street site shall be purchased by the committee appointed under this vote, without referring to the town for further instructions.

Voted that the school house committee be appointed as the building committee.

Voted that William Naylor, Frank J. McCarron and George H. Creighton be appointed members of the committee to fill vacancies caused by the resignation of Howard A. Wilson, Arthur J. Coughlan and Alfred E. McCleary. The school committee and Bartholomew J. Coughlin are other members of the committee.

Voted at 10.35 to adjourn.

Attest:

FRANK E. SANDERSON, Town Clerk.

Junk collectors .....	5
Auctioneer .....	1

### Enrolled militia, 557

The town clerk requests information of any omissions or errors in the lists of births, deaths or marriages.

This office is prepared to furnish blanks for the proper return of births, and in view of the fact that twenty-four births in 1913 were not reported by either physician or midwife, would call particular attention to the provisions of Chapter 280 of the Acts of 1912, requiring physicians and midwives to make a preliminary return of all births at which

they were in charge, within forty-eight hours of the birth. The act further provides that a more complete return of each birth shall be made within fifteen days of the birth and that the physician or midwife shall also keep a record of the same. Physicians and midwives will please observe that they are entitled to the customary fee only for births properly reported under this act and that the town clerk cannot certify bills unless the returns have been filed at this office within the time allowed by law.

FRANK E. SANDERSON, Town Clerk..

JOHN LAWTON,  
GAVIN TAYLOR,  
ORRIN S. FOWLER,  
Water Sinking Fund Commissioners.

## **SUPERINTENDENT'S REPORT**

---

To the Board of Water Commissioners.

Gentlemen: My report as superintendent and registrar, together with the report of the engineer, for the year ending January 31, 1914, is herewith submitted.

The water in White pond has been well over the intake pipe during the year. The water is analyzed regularly by the state board of health, and their reports show that the water maintains its high standard.

The sand has been cleaned out of the manhole on the conduit line, as usual. Some large leaks have been found and repaired during the year, so that the amount of water pumped this year is considerable less than last year.

A metal ceiling has been put into the pump room at the station, which keeps the place warm and adds much to the appearance of the station.

### **MAINS**

Two leaks have been repaired in the mains. One on High street and one on River street, where the lead joint had started on four-inch pipes.

The following extensions have been made:

Crane avenue .....	156 ft. 6 inch pipe
Street off Garfield street ....	154 ft. 2 inch pipe
Bates avenue .....	110 ft. 1 inch pipe
Acton street .....	204 ft. 6 inch pipe 1 valve
Lincoln street .....	108 ft. 6 inch pipe
Fairfield street .....	84 ft. 4 inch pipe
Beacon road .....	25 ft. 1 inch pipe

### SERVICES

Leaks have been repaired in 21 services. Seventeen services have been cleaned out. Five have been renewed and one has been renewed to the sidewalk.

Number of taps for new services .....	17
Number of taps reported last year .....	974
	<hr/>
Number of taps now in use .....	991

### METERS

Fourteen additional meters have been set, making the number now in use 986. About 200 meters have been repaired.

In closing I wish to thank the commissioners for their hearty support during the year.

Respectfully submitted,

WILLIAM NAYLOR,

Superintendent.

### ENGINEER'S REPORT

To the Superintendent:

Sir—The boilers are in first class condition. The entire firebox of No. 1 boiler and the side and front walls

of No. 2 have been relined with new fire brick. A number of repairs were made on the large pump during the year. One of the rods and plungers on this pump has become so badly worn that a new rod and plunger have been purchased to replace them. The small machines are in excellent condition.

Stock on hand February 1, 19 pounds sheet packing, 10 pounds piston rod packing, 10 pounds square flax, 10 manhole and handhole gaskets, 3 gallons engine oil, 40 gallons cylinder oil,  $\frac{3}{4}$  barrel boiler compound,  $\frac{1}{4}$  barrel grease, 50 fire brick and 5 tons of coal.

#### PUMPING RECORD

	Coal	Gallons	Daily Ave.
February .....	41,568	9,368,379	334,585
March .....	44,887	10,606,653	348,601
April .....	33,645	7,805,808	260,193
May .....	30,802	7,105,590	225,665
June .....	26,803	6,655,751	221,858
July .....	35,563	8,399,861	270,963
August .....	30,470	7,500,951	241,966
September .....	26,989	6,945,345	231,511
October .....	26,618	6,513,291	210,106
November .....	26,882	6,967,967	232,265
December .....	31,881	6,633,387	213,980
January .....	34,432	6,998,832	225,768
	<hr/> 390,340	<hr/> 91,501,815	

Average daily consumption 251,455 gallons; average daily consumption for each person, figured on 5,500 consumers, 45.7 gallons. The coal consumption includes banking and starting fires, also heating station during cold months on days when pumps are idle.

Respectfully submitted,

JOSEPH E. SHERIDAN, Engineer.

## REPORT OF WATER REGISTRAR

### Received from:

Flat rates .....	\$1,045.50

1913	91,501,815	14,583.03

WILLIAM NAYLOR, Registrar.

## REPORT OF TRUSTEES OF PUBLIC LIBRARY

---

To the Citizens of Maynard:

The circulation of books for the year ending January 31st, 1914, was in round numbers about 23,000. This is an increase over the preceding year of nearly 5,000. This increase is very gratifying, as it emphasizes the advantages of open shelves in the library, and seems to warrant the continuance of this policy in the future.

It is a matter of regret that the town has not among its citizens men who are able to assist financially and otherwise in providing more suitable accommodations for the reading public.

In regard to the reading of books, Ruskin has aptly said: "I cannot, of course, tell you what to choose for your library for every several mind needs different books." But there are some books which we all need. We will not need to have our shelves enlarged right and left for the purpose of study. If you want to understand any subject whatever, read the best book upon it you can hear of. A common book will often give you amusement, but it is only a noble book that will give you dear friends.

The trustees decided to open the library Monday evenings during the winter, and if the attendance warrants it, this will be continued throughout the year.

Four hundred fifty books have been purchased since the last annual report. The library has also subscribed for the "Readers' Guide," which is a monthly periodical. This magazine contains a list of titles of all the articles covered in the current magazines.

We have been informed that owing to the change of the fiscal year from January 31st to December 31st, the dog tax will not be a part of the 1914 appropriation, as the

fiscal year closes fifteen days before the dog tax is returned by the county treasurer to the town.

As to the management of the library, Mrs. Nyman, and her assistant, Miss Nellie C. May have responded heartily to the increased duties imposed upon them by the reading public, and they endeavor at all times to help the readers in their quest of books.

The following is the financial statement:

Total number of books in library at the last report ..	5271
Books bought during the year .....	450

Total .....	5721
-------------	------

Books destroyed to prevent disease .....	13
Unfit to bind .....	17
Lost .....	1

31

Total number books in library .....	5690
-------------------------------------	------

Circulation, 22,817.

Supplies .....	0.96
Rent and current .....	12.90
Incidentals .....	4.76
Books and magazines .....	38.25
Transportation .....	0.20
Unexpended balance .....	8.73
	<hr/>
	100%

Respectfully submitted,

JAMES N. HAIRE,  
JOHN HANNON,  
Trustees.

## REPORT OF THE BOARD OF FIRE ENGINEERS

---

To the Selectmen:

Gentlemen—The annual report of the department is herewith submitted.

During the year this department has made many changes, which are, we think, of such a nature that the town has placed itself in the front rank of towns of similar size or even larger, in the matter of equipment and preparedness for fire fighting.

Pursuant to the vote of the town, we have changed the horses from the Hose company side of the house to the Hook and Ladder truck, thus doing away with the hiring of call horses, which has been the past year, at least, very expensive. We have now two permanent men in the house, which tends to shorten the time in reaching the fires.

The building of the additional stable room was, after asking for and receiving bids, from all the local contractors, awarded to John Nordberg at \$360.00, which was the lowest figure submitted.

We have purchased and installed an American La-France Auto Combination Truck, with a capacity for 1,000 feet of regular water hose, and in addition 250 feet of chemical hose, which is supplied by a 40 gallon tank. While the regular price of the machine is \$5,500.00, we were able to get an allowance of \$300.00 for an old hose wagon and some allowance for other appurtenances, so that the net price to the town is \$5,158.50.

We feel that this purchase will prove to be a wise one, and be the means of avoiding much serious damage. There has been added to our system two additional alarm boxes, one at the Powder Mill village and one in the yard of the Assabet Mills. A complete list of boxes, with instructions,

are printed herewith to which we respectfully ask the attention of the citizens. During the past year we have had thirty-seven alarms and are pleased to report an exceptionally small fire loss. Following is our financial report:

Appropriation .....	\$3,200.00
New hose .....	600.00
Alarm boxes .....	250.00
Changes in building, etc. ....	800.00
Motor truck .....	5,500.00
	<hr/>
	\$10,350.00

Expended:

John Glynn, labor .....	\$48.55

## **Storm Signals for the Schools**

- 1-1-1 at 7.30 or 11.30 No school for the first four grades
- 1-1-1-1-1 at 7.30 or 11.30 No school for entire system

## **Instructions for Giving Fire Alarms**

Alarm should be given from the box nearest the fire. On each box there is a small box with a glass door that holds a key. Break the glass, take the key, unlock the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open the box except in case of fire.

Never sound an alarm for a chimney fire or a brush fire or a fire seen in the distance. Telephone the fire station or the fire engineers.

1 male age 78 years  
 1 male age 84 years  
 1 male age 66 years

The overseers recommend an appropriation of \$4,000.00  
 for the coming year.

JAMES R. BENT, Chairman  
 JAMES MULLIN, Secretary.

## REPORT OF SEALER OF WEIGHTS AND MEASURES

---

Maynard, February 1st, 1914.

To the Honorable Board of Selectmen of the Town of  
Maynard:

Sirs—I hereby submit my annual report of work performed by me as sealer of weights and measures for the town of Maynard for the year 1913.

During the past two years because of change in the law prohibiting the sale of some commodities only by weight instead of the old method of measure, it is a source of watchfulness on the part of the sealers in the different cities and towns to make some conform to the established legal weight per bushel, peck and quart, which is as follows:

### Weights of One Bushel, One Peck and One Quart as Provided by the Laws of Massachusetts

	1 Bu.	1 Pk.	1 Qt.
	Lb.	Lb.	Oz.
Apples .....	48	12	24
Apples (Dried) .....	25	6 $\frac{1}{4}$	12 $\frac{1}{2}$
Barley .....	48	12	24
Beans .....	60	15	30
Beans (Shell) .....	28	7	14
Beans (Soy) .....	58	14 $\frac{1}{2}$	29
Beans (String) .....	24	6	12
Beets .....	60	15	30
Beet Greens .....	12	3	6
Bran and Shorts .....	20	5	10

Buckwheat .....	48	12	24
Carrots .....	50	12½	25
Corn, Cracked .....	50	12½	25
Corn, Indian .....	56	14	28
Cranberries .....	32	8	16
Dandelions .....	12	3	6
Feed .....	50	12½	25
Flaxseed .....	55	13¾	27½
Kale .....	12	3	6
Lime .....	70	17½	35
Meal (except Oatmeal) .....	50	12½	25
Meal (Corn) .....	50	12½	25
Meal (Rye) .....	50	12½	25
Millet (Japanese) .....	35	8¾	17½
Oats .....	32	8	16
Onions .....	52	13	26
Parsley .....	8	2	4
Parsnips .....	42	11¼	22½
Peaches .....	48	12	24
Peaches (Dried) .....	33	8¼	16½
Peanuts (Green) .....	22	5½	11
Peanuts (Roasted) .....	20	5	10
Pears .....	58	14½	29
Peas .....	60	15	30
Peas (Unshelled, Green) .....	28	7	14
Potatoes .....	60	15	30
Potatoes (Sweet) .....	54	13½	27
Quinces .....	48	12	24
Rough Rice .....	45	11¼	22½
Rye .....	56	14	28
Salt (Coarse) .....	70	17½	35
Salt (Fine) .....	50	12½	25
Seed (Clover) .....	60	15	30
Seed (Herd Grass) .....	45	11¼	22½
Seed (Timothy) .....	45	11¼	22½
Seed (Upland Cotton) .....	30	7½	15
Seed (Lee Island Cotton) .....	44	11	22
Spinach .....	12	3	6

Tomatoes .....	56	14	28
Turnips .....	55	13 $\frac{1}{4}$	27 $\frac{1}{2}$
Wheat .....	60	15	30

Barrel:

Flour, 196 pounds.

Potatoes, Sweet, 150 pounds.

Potatoes, 165 pounds.

Liquid Barrel, 31 $\frac{1}{2}$  gallons.

Hogshead, 2 barrels.

**An Act Relative to the Sale of Fruits, Vegetables and Nuts,  
Chapter 246, Acts of 1912**

Be it enacted, etc., as follows:

Section 21. All fruits, vegetables and nuts, except as herein after otherwise provided, shall be sold at retail by dry measure, weight or by numerical count, and all fruits and vegetables for which a legal weight has been established shall be sold at retail only by weight or numerical count. Whoever violates any provisions of this section shall forfeit a sum not exceeding ten dollars for each offense.

Approved March 14, 1912.

**An Act Relative to the Penalty for Giving False Weight  
and Measure, Chapter 163, Acts of 1911**

Be it enacted, etc., as follows:

Section 1. Whoever, himself or by his servant or agent or as the servant or agent of another person gives or attempts to give false or insufficient weight or measure, shall for the first offense be punished by a fine of not more than fifty dollars, for a second offense by a fine of not more than two hundred dollars, and for a subsequent offense by a fine of fifty dollars and by imprisonment for not less than thirty days, nor more than ninety days.

Approved March 17, 1911.

I have posted cards printed with the above table of legal weights and measures, also a copy of the laws pertaining to the same in each retail place that deals in the commodities mentioned.

Recently I mailed a few circulars to the citizens, entitled "Suggestions to Housekeepers and Retailers," which at a very small cost could be distributed through the town and would be of great value to consumer and dealer, as it is very instructive for both.

Following is summary of last year's work performed by me in the town of Maynard:

	Adjusted	Sealed	Non-sealed	Condemned
Platform scales (capacity over 5,000 lbs.)	4	4		
Platform scales (capacity under 5,000 lbs)	49	49		
Computing scales .....	19	19		
Slot weighing machines .....		2		1
All other scales .....	75	75		
Weights .....	100	496		
Liquid measures: (other than milk jars).		31		
Linear measures, yard sticks .....		40		
Cloth measuring machines .....		14		
Oil and molasses pumps .....	1	6		
	248	736		1

Taking the dealers as a whole the consumers of Maynard are very fortunate, as all places of business are equipped with first-class scales and in most cases are accurate.

In closing I will state that the Standards, and sealer's working equipment are in excellent condition.

JOSHUA EDWARDS,

Sealer of Weights and Measures.

## BOARD OF HEALTH

---

To the Citizens of Maynard:

The board of health submits the following report for the year ending January 31st, 1914:

We have been very fortunate in having a small number of contagious diseases during the year. Following is a list of all contagious diseases reported to this board for the year:

	Measles	Diphtheria	Scarlet Fever	Tuberculosis	Meningitis
1913:					
February .....					
March .....					
April .....				1	
May .....	1				
June .....	3				
July .....	1				
August .....					
September .....		2		1	
October .....					
November .....	2				
December .....	7				
1914:					
January .....	11			1	1

Following is a list of bills paid during the year 1913

and 1914. Of the total account paid, \$1,196.44 represents bills that were unpaid for the year 1912-1913:

State Infirmary, support and treatment of Mrs. Ole Peterson .....	\$30.00

Respectfully submitted,  
JOHN E. KELLEY, Collector.

**AUDITOR'S REPORT**

---

To the Selectmen of Maynard:

We hereby certify that we have examined the accounts of the following town officers, and found them correct: selectmen, treasurer, tax collector, school committee, water commissioner, water registrar, water sinking fund, overseers of poor, fire engineers, trustees of public library, cemetery committee, board of health.

Respectfully,

R. M. STOCKBRIDGE,  
O. C. TREES,

Auditors.

## ORGANIZATION OF THE SCHOOL DEPARTMENT

1913-'14

---

### COMMITTEE

KENNETH H. DAMREN, Chairman,	Term expires 1914
JAMES J. HILFERTY, Secretary,	Term expires 1915
DANIEL E. GOODENOW,	Term expires 1916

---

FRANCIS S. BRICK, Superintendent of Schools.  
DANIEL E. GOODENOW, M. D., School Physician.  
JOHN CONNORS, Truant Officer.

---

### STORM SIGNALS FOR OUR SCHOOLS

3 blasts blown 1-1-1 for 1st four grades  
5 blasts 11-1-11 for entire system.  
Blown at 7.30 and 12.30 respectively.

## MAYNARD SCHOOL CALENDAR FOR 1913-14

---

### High School—40 Weeks

Fall term begins Sept. 2, for 16 weeks. Closes Dec. 19, '13  
 Winter term begins Dec. 29, for 8 weeks. Closes Feb. 20, '14  
 Spring term begins March 2, for 8 weeks. Closes April 24, '14  
 Summer term begins May 4, for 8 weeks. Closes June 26, '14

### Elementary Schools—38 Weeks

Fall term begins Sept. 8, for 15 weeks. Closes Dec. 19, '13  
 Winter term begins Dec. 29, for 8 weeks. Closes Feb. 20, '14  
 Spring term begins March 2, for 8 weeks. Closes April 24, '14  
 Summer term begins May 4, for 7 weeks. Closes June 19, '14

### Daily Sessions

High School—One session, 8.15-1.15.

\*Afternoon 3.00-5.00.

\*Grades—Two sessions.

1. 8.45 to 11.15, 1.30 to 3.

2 and 3. 8.45 to 11.30, 1.30 to 3.15.

All others. 8.45 to 11.45, 1.30 to 3.30.

\*Subject to modifications.

---

Note. By High school afternoon session is meant those taking domestic work, business course, and all delinquents.

## SCHOOL COMMITTEE REPORT

---

To the Citizens of Maynard:

The accompanying reports of the various department heads and of the Superintendent of Schools are so full as to require little from the committee.

These reports contain not only the ideas of the school heads, but also in the main show the ideas, desires and hopes of the committee.

### NEW TEACHERS

Last year we lost the following teachers in the grades: Misses White, Bateman, Quinn and Johnson.

From the High School we lost Mr. Chester together with Misses Doherty and Walcott. These losses were almost without exception because we could not offer salaries large enough to hold them.

In the High School we feel fortunate to have secured Mr. Clifford W. Millar as principal and our entire faculty, consisting of Mr. Kennedy in commercial branches, and Misses Jenkins, Currie, Dorntee and Guyton, are strong and capable.

In the grades we have as new teachers Misses Sullivan,

Carter, Wentworth, Hagar and Daley. These two latter were assigned to the new grades, made necessary by the large enrollment.

With the building of the new school some minor changes will be necessary in the Nason Street School. At the same time a thorough job on the roof of this building will be advisable.

The fences at this school are falling into ruin and nothing short of entire rebuilding seems possible.

The other schools need less attention though the decorative rail at the top of the Main Street School should be removed and the roof made tight.

The new school will give chance for a useful development of the High School and at the same time give adequate room for our crowded grades.

The new commercial course and the sixteen year age law will cause a great growth in this school.

In finances, the committee have tried to be economical but our great increase in pupils which called for two more rooms and an added high school teacher raised our expenses.

We had to paint the Nason Street School.

In the commercial department we had large expense but this is in the line of permanent equipment.

Our new principal found a shortage of apparatus in the laboratory which we could only partly supply this year.

Here and there extra needs arose and though we have a deficit we feel that we have been as economical as possible without really crippling the schools.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

"All the children of all the people."—Hopkinson Smith

---

To the School Committee of Maynard, Mass.

Gentlemen: I herewith submit my report of the public schools of Maynard for the year ending January 1, 1914.

In shaping this report for your consideration, I am influenced by the fact that half a decade has just passed since I became your executive officer. I am also influenced by the fact that the school system is on the eve of a great change, and that a period of expansion is before us. A new building is to be erected for the high school, and certain minor changes must take place in the grades in consequence. In connection with the two factors just mentioned, the context of this report is further influenced by the additional fact that the educational policy of the country is in the midst of a radical change as regards aims, methods, and policies.

It seems meet, therefore, that this report should be particularly one of the larger question of administration rather than of detailed method or of accomplishments, as my former reports have been.

A term of five years is a significant span in which to check up our past, and measure our future, and at the same time take account of stock, and consider our output.

Some of the topics I shall attempt to discuss in this report, relative to the past five years, are:

1. The growth of the system.
  - a. In enrollment.
  - b. In teaching force.
  - c. In equipment.
2. A comparison of these with present.
3. The increase in cost.
  - a. As regards the total expenditure.
  - b. Expenditure per pupil.
4. Measure of efficiency, showing
  - a. What we have tried to accomplish.
  - b. How far we have succeeded.
  - c. Where we have failed, and why.
5. A forecast for the future.
  - a. As regards our growth, measured by the past.
  - b. Measured by the new demands of education.
  - c. Measured by changed local conditions.

Table 1—Computed from January 1, 1909 to January 1, 1914

	1908	1909	1910	1911	1912	1913	Total
	1909	1910	1911	1912	1913	1914	Gain
Total Enrollment .....	865	900	950	1027	1040	1065	200
Enrollment of High School .....	100	109	105	110	102	130	30
Enrollment of Grades .....	765	791	845	917	938	935	170
High School Teachers .....	5	5	5	4	5	6	1
Grade Teachers .....	19	20	21	20	22	25	6
Average for Grade Teachers ...	40	44.5	40	45.5	42.5	37.5	
Special Teachers .....	2	2	2	2	3	3

	3rd	3	3	3	3	3	3
	4th	3	3	3	3	3	3
	5th	2	2	3	3	3	3
	6th	2	2	2	2	2	2½
	7th	2	2	2	2	2	2
	8th	2	1	1½	a1	b1	1½

b and a—62 and 52 pupils.

## A History of Past Five Years

### THE ENROLLMENT

A study of Table 1, on preceding page, shows the increased enrollment for the past five years, year by year, beginning with January 1, 1909, and ending January 1, 1914, and shows a total gain of 200 pupils. Of this number 30 belong to the high school and 170 to the grades. No increase was made in the high school, however, until the present year when the enrollment increased from 102 to 130.

The increase in the grades was constant and steady, with a total gain of 170.

### THE GROWTH OF THE TEACHING FORCE

The total number of teachers in 1909 was 24, and in 1914, 31. The increase, however, belongs to the grades, the number of teachers in the high school being practically the same with one exception, that is five, until the opening of the present year in September, when an increase of one teacher made the number six. A further analysis, however, shows the reduction of the force in the fall of 1912 to four. In the following year the commercial course was established and Mr. Kennedy was added to the force as a special instructor in the commercial department. In the beginning of the present year a new teacher was added in anticipation of increased numbers.

The study of the grade force shows an interesting story beginning with 19 teachers, with an enrollment of 765, a steady increase of one new teacher each year, (with one exception, viz 1912), up to the opening of the present school year when three new teachers were added to take care of the congestion.

A further study shows the average number of pupils to each teacher to be 40 or over, in any one year, save in the present year when the average dropped to 37.5. The

"average" figures serve no particular purpose, however, save to meet the argument of average pupils per teacher, made by people who do not understand our condition.

The fact remains that the pupils never were and never can be evenly distributed. In one instance the number ran as high as 62 in the 8th grade, (a year ago), and as low as 27 in one of our 4th grades.

### HOW WE HAVE MET THESE CONDITIONS

Almost from the very start we have been confronted with the lack of room. In the winter of 1910 four new rooms were made available by the addition to the Bancroft School, up to which time we were obliged to use the single session plan for the first grades.

A study of the lower part of Table 1 shows the distribution of the grades each year. It is interesting from the view point of administration; since it shows not only the location of the growth, but also indicates to some extent the struggle by combining and shifting, the effort to maintain a reasonable average. The half ( $\frac{1}{2}$ ) figures indicate combination with a grade above or below, and lettered eights (a & b) show 52 and 62 pupils respectively, in their particular year.

At the present time we are maintaining all our first grades in single sessions of three and one-half ( $3\frac{1}{2}$ ) hours each, (from nine to 12.30 and from 12.30 to four), alternating each week from forenoon to afternoon sessions. Besides this a divided sixth and a divided eighth are combined in a single room in Nason street.

This is the condensed story of our growth, development, and maintenance during the past five years.

### THE EQUIPMENT

During this period we have developed in other ways than in figures and numbers.

For two years we have maintained a commercial

department in the connection with the high school, with an equipment equal in proportion to any high school in the state, and in point of efficiency surpassing the majority.

For two years we have maintained a Domestic Science Department in connection with the high school, and grades consisting of optional cooking and sewing classes; the sewing extending to the 4th grades and the cooking to the 7th inclusive.

Two special teachers, one in music and one in drawing; each gives two days a week to her respective department.

In addition to the above, an attempt has been made to conduct some form of industrial work in the grades up to and including the 6th. For parts of three years an attempt was made to instruct the boys of the 7th and 8th grades in wood work, first under Miss McLaughlin, and later under Mr. Hilferty, but was finally abandoned.

#### THE INCREASED COST—HAS IT PAID?

We submit below for comparison the total expenditure for each year, and with it the average cost per pupil, based upon the total enrollment of the last half of the year:

Year .....	1909	1910	1911	1912	1913	Total Increase
Total Enrollment .....	900	950	1027	1040	1065	200
Total Expenditure .....	\$24,005	\$25,021	\$26,003	\$29,073	\$29,075	\$5,070
Cost per pupil .....	\$26.67	\$26.06	\$25.35	\$27.95	\$27.30	.63

The study of the foregoing table is most interesting. The odd cents have been purposely omitted from the total expenditure for the purpose of even figures. The table shows a total increased cost in five years of \$5,070, at an increased cost per pupil of only 63 cents. The cost per pupil is estimated, however, on the enrollment of the last half of the year as the only available figures, but they serve as a true index of comparison.

It will be noted that the unit of increase is in round numbers about \$1,000 for the first three years. In the years 1912 and 1913 the increased expenditure jumped to

about \$29,075 in round numbers. Two factors contributed to this, namely; the steady increased enrollment (which increased over 40 each year); and the installation of the Commercial and Domestic Science Departments.

Notwithstanding a total increase of over \$5,000 the net average increase per pupil is but 63 cents. Considering what value the Commercial and Domestic Science Departments have added to our schools and to the children, is it necessary for me to ask. Has it paid?

### PROBLEMS OF THE PRESENT

The present year beginning with September has been full of trying situations and difficult problems, more so than any year since my entrance into office.

At the outset we were confronted with the problem of having six first grades, for a part of which we had no abiding place. To solve this problem it was necessary to establish single sessions for the six first grades, dividing them into two equal groups. Each group alternating in forenoon and afternoon sessions, the unit of alternation being one week. The forenoon session extended from 9 to 12.30, and the afternoon session from 12.30 to 4.00. This plan gave us two extra rooms in which to have the extra second and the divided 6th and 8th, which was the result of the overflow.

The second difficult problem was created by the new labor law, which was passed during the closing hours of the last legislature, and which placed upon the superintendents of the state an enormous amount of labor with which, in many cases, there was no adequate means of coping.

### SALIENT POINTS OF THE NEW LABOR LAWS

The salient points of the new labor laws are:

1. The revoking of all of the old certificates, and rendering void all such evidence of birth as was formerly accepted.

2. The issuing of three distinct grades of certificates, viz:

a. An employment certificate for all children between fourteen and sixteen years of age, who have completed an educational standard equal to the fourth grade.

b. An Educational Certificate for all those over 16 years of age.

c. Non-Educational Certificate for all illiterates over 16 years of age.

Upwards of 400 certificates have been issued or re-issued since October as follows:

1. Employment .....	65
2. Educational .....	280
3. Non-educational .....	55

In meeting the demands for these certificates it was necessary to hold night sessions during the month of October, often times as late as to 11.30 o'clock, and entailed an enormous amount of labor in searching for back records, investigating claims of age, examining passports, explaining laws, etc. In this connection your superintendent was very greatly assisted by Mr. Millar of the High School, who came to the office night after night and helped to meet the demands of the crowds that filled the corridors in quest of certificates. Acknowledgement is also made to Dr. Goodenow and Mr. P. J. Sullivan for their help in examining credentials, thereby rendering valuable service.

The thanks of the Superintendent is extended to the Town Clerk, Mr. Sanderson for his patient assistance in looking up and issuing certificates of birth, whenever called upon, and to the teachers of the schools for their help in searching back records.

It is because of such intelligent aid that the department has been able to meet the demands with practically no errors and to establish an almost perfect file of records,

which will render the labor-statistical reports in the future available and accessible.

The following system of records has been established, as the result of the efforts to meet the demands of the new laws:

- A. School record of attendance dating back twenty-five years.
- B. Records of scholarship dating back six years.
- C. Duplicates of all certificates issued since September, 1913.
- D. Vaccination records.
- E. Health records, including yearly records of eye and ear tests.

### ARE OUR SCHOOLS EFFICIENT?

In discussing the efficiency of any system, schools or otherwise, several factors should be considered.

First, the cost, total and per capita. This we have already considered. The next question that arises is, Does it pay? To answer this question certain definite standards of measurement as to product, output and results must be met.

In the modern phase of efficiency, measurements are no longer relative. They are absolute. It is no longer a question of comparison with other towns or other systems, but rather a question of 100 percent efficiency measured by commonly accepted standards. These standards may or may not be accepted as adequate or true measurements, but such as they are, they are offered as the best we have at present, and as those agreed upon by educators throughout the country. These standards are as follows:

### WHAT CONSTITUTES AN EFFICIENT SCHOOL SYSTEM

1. Percentage of pupils attending school, as compared with the total census of all children, for a given period.

2. Percentage of pupils retained in school over the age limit.

3. Percentage of pupils kept in school, under the age limit for a given period.

4. Total percentage of attendance, year by year, for last five years.

5. An age-grade table, showing the relative progress of pupils through the schools for a given period.

6. Efficiency as measured by the various tests and standards for different subjects in the curriculum.

**The Period of Measurement for the Following Figures in Five Years, from Fall of 1909 to Fall of 1913, Inclusive**

Group 1. School enrollment compared to census, showing over age pupils kept in school:

	1909	1910	1911	1912	Gain in
	1910	1911	1912	1913	5 years
Total Census Record 5 to 13 ...	754	830	833	832	152
School Enrollment .....	901	949	1027	1040	164
Increase over Census .....	147	119	194	208	12

Group II. Pupils retained in school over age limit, 14:

	'09-'10	'10-'11	'11-'12	'12-'13
Total number in High school .....	59	73	60	79
Number leaving School .....	5	14	3	6
Number remaining .....	54	59	57	73
Percent remaining .....	91	70	95	91
Total in Grades .....	83	67	86	68
Number leaving .....	28	19	17	13
Number remaining .....	55	58	69	55
Percent remaining .....	66	87	80	83

Group III. Percentage of pupils kept at school under age limit, 14:

Census gives under 14 .....	694	762	778	779
School Enrollment under 14 .....	759	809	881	893
Percentage in Attendance under 14,	?	?	?	?

Group IV. is simply a comparison of the percentage of attendance of the various years, to note whether or not we are increasing the percentage of attendance. I submit the following:

Years	'09	'10	'11	'12	'13
Percentage of attendance .....	94.8	93.8	95	95	95

The above table speaks for itself.

Group V. This group is a standard of measurement, and is perhaps the most important of all, as it measures the success of the schools in overcoming retardation and loss of time, and in allowing individual development.

This standard was applied to all grades between the second and eighth in September, and divides the pupils into four groups. They are as follows:

A. In this group are those who are of normal age, and who have maintained a normal or rapid progress through the grades; included in it are, first, those who have jumped one or more grades; and second, those who have not repeated any grade.

B. In the B group are those who are over age, but who have made rapid progress through the grades. This group probably entered at advanced age, and owing to maturity were able to skip one or more grades.

C. These are the pupils who are under age and who have made slow progress. This group probably entered at the earliest possible age, (five years or less), and owing to immaturity have made slow progress.

D. In the D group are those who are over age and who have made slow progress.

This group indicates the amount of inefficiency of the service, since the schools have been unable to advance this group with normal rapidity. It locates the particular problem of the schools as regards progress of pupils.

The measure of efficiency as regards this item is expressed in the ratio of the first three groups to the whole and is thus indicated:

Total number of pupils examined, 715.

	A	B	C	D
Total .....	410	61	100	144
Percent .....	57½	9	13½	20

Total of A, B and C—Efficiency,—80%.

The problem for the future is the D group. This is the group that is failing, for some reason or other, to profit by the school, and for which the school is responsible to a greater or less degree.

Twenty percent of the pupils, during the last five years, have not, for some reason or other, made the progress they should. The causes are many.

Among these, as has been stated in my past reports, are absence for many reasons, poor physical health, certain deep-seated defects, poor teaching, improper nourishment, outside influences, like certain pernicious habits, etc. But whatever these may be, it is the problem of the school to remove these causes and give these D pupils their chance. It is not enough to say, "There they are, we can't help them." We must help them. One of the things for which the public school exists today is to give to the fellow who is born short (or made short after birth), the opportunity to "come through" and find himself.

#### THE ANALYSIS OF THE FOREGOING TABLES SHOWS SOME PECULIAR PHASES

Group I. Records the yearly census for five years and compares with it the school enrollment for the same period, in order to locate the children over 15 years of age. The number is fair. Just what percentage the number between 15 and 18 years kept in school is to the whole number in town between those ages we cannot tell, owing to lack of data regarding the latter. We must leave it to the popular judgment, whether or not we are holding a good number. The answer to this is one measure of efficiency.

Group II. Analyzes the problem a little more closely, by locating all the pupils over working age (14 years), who entered the High School and grades, and by noting the ratio of average percentage of those held in school. It will be seen that there is a constantly increasing ratio held to those entered as the years advanced from '09 to '13 inclusive, in the grades, and no falling off in the High School. This is another measure of efficiency.

Group III. Aims to measure the power of the School in accounting for all pupils who should be at school, viz: between the ages of five and fourteen. In searching the records, however, we find that the total school enrollment of all pupils under 14 for each respective year is greater than the census of all children in town under 14 for the same period. Why this is so I do not know.

Three reasons for this discrepancy may exist:

- (1) A repetition in enrollment.
- (2) A mistake in the census.
- (3) Addition to enrollment from out of town after the census was taken.

The discrepancy, however, precludes any deduction, but I am positive that all children under school age are attending school.

Group IV. is a comparison of the yearly averages and needs no analysis.

Group V. Age and grade table. Showing the progress of the children during the past five years.

(See explanation, page 19.)

## LOOKING BACK AND LOOKING FORWARD

### Some Facts That May Throw Light on our Output and Product

I am submitting a group of studies for your consideration, in order that you may measure our efficiency from another viewpoint, forecast the future, and at the same time allow me to form a basis for certain recommendations that I shall hereafter ask you to consider.

#### First Study:

A survey of the personnel of the present first grades showing why some of our pupils fail in their initial start. The total enrollment is 208, comprising 23 nationalities, based upon the birthplace of parents, as follows:

Nationality based upon birthplace of parents: Ameri-

can, English-American, English, Finnish, German, Scotch, Irish, English-Irish, Irish-American, French-Irish, English-Scotch, Canadian-American, Irish-Newfoundland, French, Canadian, Russian, Italian, Swedish, Polish, Danish, Sicilian, Russian-Jew and Russian-Polish.

## FIRST STUDY

### Statistical Report of First Grade, December 1, 1913

Total .....				201
Age at entrance .....	5	5½	6	
Number entering at each age .....	41	40	120	
Division in January of each age .....	A	6	8	41
	B	17	12	30
	C	16	10	30
	D	3	12	14
Number of pupils Non-English speaking at entrance .....				38
Division of Non-English speaking pupils in January .....	A	0	0	0
	B	0	0	0
	C	2	3	13
	D	3	6	11

It will be noted that of the total number 38 or 18% were non-English speaking when they entered.

The pupils on December 19 were grouped into three divisions, based on their advancement, and from facts thus gleaned, deductions were made, viz: 120 entered at the age of 6 or over; 40 at 5½, and 41 at the age of 5.

	A	B	C	D
5 years .....	1-7	4-10	4-10	1-14
5½ years .....	1-5	3-10	1-4	3-10
6 years .....	1-3	1-4	1-4	1-9

It will be seen that the more advanced the pupils

entered, the better progress they made. Note the fact that out of 14 backward six year old children, 11 were non-English speaking. The cause for their grade is thus evident.

The deduction I make from this table is that in a large majority of cases it is useless to send children to school before they are six years of age; that most of the work done before that time is that of the nursery grade.

### SECOND STUDY

A story of the various grades (up to the sixth), of the past five years, traced back to their initial entrance in the first grade.

Class Entering in	I.	II.	III.	IV.	V.	VI.	
1908-1909	168	163	127	116	110	109	Total loss in 6 years 59 or 35%
1909-1910	162	145	137	121	114		Total loss in 5 years 48 or 30%
1910-1911	210	161	136	110			Total loss in 4 years 100 or 47%
1911-1912	206	153	123				Total loss in 3 years 83 or 40%
1912-1913	227	147					Total loss in 2 years 70 or 30%
1913	208						
Total apparent loss in 6 years, 360.							

The above table traces each of the present grades now in the school, (beginning with the sixth), back to its initial beginning in the first grade, for the purpose of noting the relative loss and the percent of loss during its advance, and is valuable in forecasting the future.

As the table shows, from the Fall of 1908 to that of 1909, there was a loss between the first and second grades, of five pupils. Originally it may have been more, but others coming in filled the places of those who dropped out. Now in the year 1913-'14, in this grade (the present sixth), there is enrolled a total of 109 pupils, making the loss since their initial start 59 pupils.

From the Fall of 1912 to that of 1913 there has been a loss between the first and second grades of 70 pupils, or 30

percent. Yet it does not follow that when this grade reaches its 6th year the loss will have increased at this same rate. The facts are that as pupils are dropping out, others are constantly coming in and filling their places makes this conclusion doubtful.

The following facts stand out however.

1. Greatest loss occurs between the 1st. and 2d. grades and diminishes up to the sixth, where there is practically none.

2. Total loss is greater now than it was six years ago and shows an increased loss year by year from 1908 to 1913.

3. Total apparent loss for last six years is 360.

4. The fact that in spite of increased loss over past years the total enrollment is considerably larger than formerly.

This would indicate a constantly shifting population which, of course, reacts upon the educational system and makes the perfecting of our output product more difficult.

### THIRD STUDY

I submit the following study, for the purpose of showing the growth of increased efficiency, year by year, for the last five years, in retaining pupils in school.

The third study traces each eighth grade of the past six years back for three years to the sixth grade, to note the drop in enrollment as the class advanced.

	1909	1910	1911	1912	1913	1914
8th year .....	33	29	54	36	48	63
6th year .....	76	60	78	68	75	88
Loss in 2 years .....	43	31	24	32	27	25
Percent retained ....	43.5	48.4	59.3	52.4	64	71.6

It will be noted in the above that there is a steady gain in the percent of pupils held in each class during the past five years. Bearing in mind that many pupils arrive at the age of 14 in these grades, this is rather a strong indication of the growing efficiency of the system.

In the second study it will be noted that as one follows up the grades the school population becomes more stable. This fact is emphasized here.

This study seems to demonstrate that we are holding pupils better in the upper grades than formerly. As, for example, note the increased percent of pupils retained during the five years as follows: 45%, 48%, 59%, 52%, 64%, 71%.

#### FOURTH STUDY

The fourth is a study of the various classes of the last five years in the High School, traced back from time of graduation to the period when they passed from the eighth grade to the High School. The study aims to show an effort in retaining an increased percentage of pupils each year, after the classes entered the High School.

	Enrollment of 8th Grade	Loss	No. Entered as 9th Grade	No. at end of 9th Grade	No. Entered as Freshmen	Total loss from 9th to Freshman year	No. Graduating	Loss during H. S. Course	Disposal of Class Work	Further Study
Class of 1909 .....	50	4	46	33	15	18	15	0	5	10
Class of 1910 .....	40	3	37	29	13	16	10	3	2	8
Class of 1911 .....	47	0	48	41	20	21	9	11	3	6
Class of 1912 .....	39	1	38	36	28	8	10	18	5	5
Class of 1913 .....	44	0	48	31	22	9	11	11	6	5
Class of 1914 .....	63	10	53	46	27	19	14	13		
Class of 1915 .....	48	18	30	20	17	3				
					24					
Class of 1916 .....	69	20	49	37	(12)	13				
					18					
Class of 1917 .....	43	6	24	22	(18)	4				
Class of 1918 .....	58	10	30							

The two numbers in parentheses (12) and (18), in the two last squares of the column, entitled "No. entered as Freshmen," are the result of a certain number of pupils from class below skipping the 9th grade and entering the Freshman class direct. Thus in the Class of 1918, out of an enrollment in 8th grade of 58, 10 dropped out, 30 passed on to the 9th year and 18 jumped to the Freshman class.

So in Class of '17, 43 enrolled equals 6 loss, 24 into 9th grade and 12 into Freshman Class.

### THE FUTURE AS REGARDS OUR GROWTH MEASURED BY THE PAST

It would appear from the tables and statistics submitted that we are destined to increase our enrollment as much in the next five years as in the past five. If these deductions are correct, I predict that the Fall of 1920 will see an enrollment in the Schools of Maynard of over 1300. This statement is based on the fact that we are holding 30% more pupils in the upper grades than we did five years ago. This general statement covers many causes.

While it is true that the initial enrollment in the first grade is greater in 1913 than it was in 1909, it is also true that, since our population is becoming a more shifting one, our apparent percentage of loss in the lower grades is much greater in 1913 than it was in 1909. The stability of our school population rests with the upper grades, beginning with the fifth. This fact would indicate certain well defined policies for meeting the demands of those older pupils who are becoming interested in their school life. It would also appear that the people with children old enough to be in the upper grades stay with us better than those whose children are in the lower grades. This is rather significant.

### As Influenced by Local Conditions

When I say local conditions I have in mind the new labor laws which are here to stay. These laws are to be important factors in increasing the total enrollment to the figures I have given for 1920. All children must practically stay in school now until 16 years of age.

Another local condition is the modified courses of instruction in the High School which are now becoming specific and definite. In three years there will be in this school

an enrollment of 150 pupils, not including the ninth grade. These are facts deduced from the figures and placed here for your serious consideration.

## AS MEASURED BY THE NEW DEMANDS OF EDUCATION

The movements in education are tending away from general information toward specific training. The reign of the text book is over and is to be relegated to the second place in training a boy to develop himself and "come through" wherever it is possible. This means that changes in curriculum, methods, motives and aims will take place, and our schools should be reorganized to meet them.

I am submitting to you therefore a reorganization of the system. This reorganization is in three distinct departments, viz:

1. An Elementary System extending from grade I. to grade VI.
2. A Junior or Grammar School of two or three years.
3. A High School of three or four years.

In detail the developing of this idea is very simple and does not disturb, to any great extent, the present existing conditions. These details are as follows:

1. Raising age entrance in the first grade to 6 years to insure maturity and constant progress.
2. Raising each grade standard to that now demanded for the A division of each grade. In this way the elementary work for the increased standard of the first six grades could be covered in six or seven years or at an age of 12 or 13 years.
3. A satisfactory completion of the elementary work before allowing admission to the Junior School.
4. The ultimate absorption of the present ninth grade.
5. Junior School to have one session (similar to the High

School) returning in the afternoon for Domestic Science, Penmanship, Elementary Bookkeeping, Typewriting, and Manual or Industrial Training.

6. High School of three or four years much after the present plan and to include definite courses, viz.

College Preparatory. 4 years.

Commercial 4 years.

Domestic Science 2 years, to be supplemented by

Commercial of 1 or 2 years.

General Course 4 years.

The objects of this scheme are (1) A more definite education, with a specific motive in each group. The High School should exist wholly for specific training of a very definite kind. (2) To allow a pupil to work through the various divisions as fast as his natural ability warrants. (3) To provide a better education for the larger number who do not enter the High School proper.

Your attention is again called to the large number of pupils in the past who never go to school after completing the 9th grade. I repeat here the percent of loss from the 8th grade to the High School for the past nine years 70-67-57-29-50-57-64-48-16 (see page 25); with but three exceptions the loss was over  $\frac{1}{2}$ , in two instances  $\frac{1}{4}$ , and in one  $\frac{3}{4}$ . Should not something be done to give these pupils who drop out some more definite education if possible while they are in grammar school?

(4) To allow children to specialize in groups in the Junior School and in the High School.

There are significant facts in the "Fourth Study," to

There are significant facts in the "Fourth Study," (page 25), to which I desire to call your attention, and that is, the diminished enrollment of each Freshman class, compared to the number completing the eighth grade.

In comparing the Freshman enrollment of each class when it was in the eighth grade and computing the loss, you will find the following:

Class of	.....1909	1910	1911	1912	1913	1914	1915	1916	1917	1918
Percent of Loss	.. 70	67	57	29	50	57	64	48	16	9

1. Note the enormous loss of pupils in entering the High School.

2. Note the diminishing loss in all classes until the class of '12 was reached and then the increasing loss up to two years ago, the Class of '16.

3. Note particularly the sudden decreased amount of loss, 16%, when the commercial course was introduced. Does this prove anything?

### HELPING SCHOOL CHILDREN

A community can have just such schools as it demands and no better. The education of a boy or girl has ceased to be confined to the school-room. Community interests, local environment, public sentiment, organized civic movements, all affect the quality and kind of education that exists in a town and finally reacts on the pupils.

So great have these outside factors become that a large number of communities have organized efforts primarily for the purpose of helping school children. In another part of this report I have called attention to a Group Survey, wherein I indicated a Slow, D, division.

Were time and space allotted me I could show that the causes as well as the salvation of this group of over-age and under grade children lie largely outside the present school force, who with the limited strength, time and funds are unable to cope with the situation. This "D" group, (this 140 pupils) need outside help, help of a very definite, organized kind in order to bring them into the fold of good and self-supporting citizenship.

The opportunities for outside help for school children are so many and varied as to warrant special literature on the subject. No less than 76 distinct agencies are at work in this direction in some of the large cities. Space precludes the classification of these here. I am only mentioning a few that are applicable to Maynard.

1. A School Garden Association.
2. A Playground and Recreation Association.
3. A Campaign for General Public Health, especially pertaining to children.
4. Parents' Gatherings by Buildings.
5. General publicity of all the doings of the schools from the school committee down to the individual teacher.
6. Free public lectures on civic and economic topics for grown-ups.
7. Special educational departments in the newspapers, with special reference to local education.
8. Vacation schools for children during long summer vacations.
9. Definite religious instruction during the week on the part of various churches for their respective children.
10. Evening schools.
11. Health talks to separate classes of boys and girls.
12. Talks to boys and girls of upper grammar and high school by business men of the town.
13. Outside industrial work for children who are interested in some personal work.
14. A Village Improvement.

The above are only a few of the many ways in which organizations, clubs and associations might help school children into finding life for himself. But the work in each case needs to be carefully organized, surveyed and planned, in order to save waste of effort.

### EVENING SCHOOL

The facts herein presented are primarily intended to lead the committee and the community into serious contemplation of a growing town. Volumes might be written on all the activities and about all the factors that enter into the education of **All the Children of All the People**. Some of these stand out more prominently than others. Among the foremost is:

Consider that upwards of 450 certificates for labor have been issued this fall to persons between the ages of 14 and 21 and you have argument enough.

Can we not have an evening school next year?

### SALARY AND SALARY RATING

The new Tenure of Office Bill now before the State Legislature brings to the surface once more the need of revising the salary list of teachers.

In the five years I have been here the cost of living has constantly increased, yet the salary schedule remains the same. Each year it becomes harder to fill vacancies that occur in the crops. I am suggesting the following schedule for your consideration.

### SALARY SCHEDULE

- (1) Minimum for grades \$500.
- (2) Maximum for grades \$575.
- (3) Advanced for special rating after maximum had been recieved \$600.
- (4) High School Assistant Teachers; Minimum \$700, Maximum \$800.

In connection with the foregoing I desire to express my appreciation of the teachers for the splendid way in which they are working with me. If any success has been met with in the last five years it is theirs not mine; for they have been unsparing in their efforts to meet the demands of the times.

### THE SUPERINTENDENT

As a final word I am again appealing to you to relieve your Superintendent of the over-burden of three towns. I realize that this may appear to be a personal matter but I assure you that it is not. Your educational situa-

tion demands it and your Superintendent can do justice neither to Maynard or to himself.

Since your present Superintendent came into office your corps has increased from 24 to 31 teachers and yet an increase of one-half day's time has been allowed him.

You ought to have a Superintendent's full time but certainly a combination could be effected between Maynard and Stow, much to Maynard's advantage. The day to Boxboro is fraught with waste and is of little use even to Boxboro.

In closing permit me to express again my appreciation of you as a committee—for your loyalty and help to me in my work, without which nothing could have been accomplished,

Respectfully submitted

FRANCIS S. BRICK,  
Superintendent.

## REPORT OF HIGH SCHOOL PRINCIPAL

---

Maynard, Mass., February 1, 1914

To Mr. Francis S. Brick,

Superintendent of Schools:

In a report which covers but a period of five months of service, I am forced to narrate what I believe may be accomplished in the High School work rather than what has been successfully carried out; hence my report will largely be a statement of some few things begun and future prospects.

### THE NEW HIGH SCHOOL BUILDING

A new high school building which the town should build and equip would remove a serious obstacle to the successful work in the carrying out of plans.

By the enactment of the recent labor law, some few students were forced to re-enter school work and others to continue in school life longer than they had planned. This swelled the enrollment of the High School to a size greater than it ever has had before. In the ensuing years the number is bound to increase, and so I believe the town has been most wise in its decision to give us larger quarters.

As a direct result of the increased size of the school it was found necessary to add one teacher to the teaching force.

With the school established in new quarters, I believe it would be in a position to admit students from other towns in larger numbers. This year we have three from other towns. I believe that more could be allowed to attend without in any way increasing the burden on this town,

besides furnishing a considerable sum in tuitions which could be used in meeting the expense of maintaining the schools.

### EXHIBITION WEEK

Although last year a week in the school term was set apart as exhibition week, I do not believe that is a desirable scheme. It requires school sessions to be held in the afternoons and evenings and that certainly is not to be desired. The children do not do as efficient work and the results gained by the week can be accomplished as well, if not better, by other means.

I believe that the parents can arrange to visit during the usual morning sessions and so see their children working when most efficient, as they are then untired by play or other strains that are apt to be placed upon them if they should have the mornings free from school duty. The attendance of so many visitors in so short a period is distracting and does not have the same beneficial and helpful effect,—nor does it give the parent and teacher the same opportunity to learn and profit by their acquaintanceship,—as would be possible if the same number of visitors could come scattered throughout the year.

It has been a source of regret to me that more parents and friends have not called to visit and inspect the school work. My teachers and I, personally, would be only too glad to have more of the townspeople come to visit, and we urge you to feel free to come to see your children in their work. This is essentially your school and we want you to feel that it is.

Moreover, if your child realizes that you are interested in his work he will feel an extra stimulus to do better work. So, both for your own information and the benefit which the child will receive, I urge you to plan to visit the school.

### MUSICAL

The school is fortunate in having a number of students

who are musical. The orchestra which was started some years ago is continuing to meet and perform quite creditably. This year we have tried a new scheme of having one of the members lead the orchestra. This seems to be working admirably.

We have just organized a glee club of boys and girls, and I believe that it will be possible to have an organization which will be a credit to the school. I think it quite probable that in conjunction with the orchestra, the two organizations may, sometime in the late spring, give a concert which the public will be given an opportunity to attend.

### FAILURES

This year we are attempting to follow up all failures, to analyze them and to remove the causes in so far as we are able. In the records of the second two months as compared with the first two, we find that the number of failures has decreased so that it is but one third of the number in the first two months. This has been accomplished without lowering the standard of the work in any respect by following up all cases. We are requiring pupils to return for supervised study, and where, as is sometimes the case, the pupil is not doing sufficient work at home, he is required to come back in the afternoon that we may see that he does do his work.

I have never yet seen a school absolutely free of unsatisfactory pupils, but I believe this number can be materially decreased, as our work of this year has shown, by following out this line of work.

### NINTH GRADE

The ninth grade has been included in the High School as the Sub-Freshman class. At the beginning of the year eighteen children were promoted from the eighth grade to the Freshman class, and their work has been uniformly satisfactory. Thirty-four were enrolled as sub-freshmen, in-

cluding four who were compelled to return on account of the new child labor law. These children are taking work which supplements the work of the grades and also furnishes them with a knowledge of themselves and of the community; each of which tends to make better citizens, and to give them the means of a greater enjoyment of life by realizing its duties and liberties.

That so many can be promoted shows that the ninth grade is really an extra cog in the wheel and may be expected to die out gradually, for the work here in the other grades is constantly developing these powers to a greater extent. I do not recommend that it be dispensed with this coming year, but I do believe that the number who can be promoted from the eighth grade to the Freshman year will become larger each year, and that the ninth grade will be correspondingly smaller, until by natural evolution it will cease to exist.

This condition shows how well the grade and high school work has been made articulate. If similar relation existed between the college and the high school, I believe we would have an even larger number of our graduates taking up collegiate work, instead of entering business as they now do upon the completion of their high school course.

### WASHINGTON TRIP

The Senior Class is this year planning to take a Washington trip. However, before another class decides to do this, I believe it wise to consider it in all its possibilities and to decide whether it is really justifiable or not.

Everyone, I believe, is ready to admit that it has an educational value, for it certainly furnishes some of the members their first chance to see other states. It gives them a knowledge, perhaps gained in no other way of the immensity of this country. It develops to some extent a better knowledge of the government and its working.

Balance against all this, these facts. The funds for

the tickets are gathered by the class in various ways, but the larger proportion is done during their last year in the school in order that they may not interfere with any other class in its attempt to procure money for its trip. The work of raising this money distracts the students from their work, and if one year more than any other in the entire course should be free from distraction, it is the Senior year.

The means by which the money is raised are not always to be commended. Food sales are only possible by solicitation from friends and neighbors; and the gift of food, while perhaps not begrudged, becomes a burden if made a habitual practice and amounts to a gift of money by those solicited whether they realize it or not. In other words the child is asking something and giving nothing. A Fair is the same thing over again only on a larger scale and certainly can not justify itself on the basis that those solicited do get a fair return. Dances and plays which are given do justify themselves, however, if a dance or play ever does; and the play has an additional merit, for it has an educational value in the training it requires and the discipline it gives.

So much for the raising of the funds for the tickets.

The trip is usually taken in a vacation period. This results in the child returning to school tired rather than refreshed, excited over his experience rather than quiet and calm and ready to continue his work. Hence the very purpose of the vacation is frustrated. So he returns to school tired, and for the next few weeks his work suffers and the school has to "stand it" without complaint, for the entire class is in the same condition with possibly one or two exceptions.

There is another feature which demands attention. Though the class raises funds, it does not give spending money. This is no small item. Some children will have three times the amount that other children will have to spend. This tends to make the chap who went with twenty dollars extra, possibly spend the whole of it, whereas five dollars was really more than the family could afford to

let him have. I can not believe it right for a condition to exist which will compel a family to make these sacrifices. Again, if the family is planning to send the child to college in the fall, there is burden enough right there to force the parent to think twice before assenting to the trip.

Though it has almost become a custom, and certainly has existed since time immemorial so far as the present corps of teachers is concerned, I believe the townspeople and their school committee will do well to consider these points carefully before they assent to another class making the Washington trip.

### GRADUATION

The graduating exercises of last year have one feature which I believe is especially good. I refer to the Commencement speaker and I heartily endorse that scheme of an outsider for a speaker. However I would go even further and suggest that we do not have addresses or essays by the school students, awarded as a result of honors, so called.

By having a commencement speaker, the scholars are relieved of much strain and are left in a better condition physically at the conclusion of their school course, than when the plan, whereby each member of the class is required to prepare and deliver an essay or speech, is carried out. Moreover, the speaker brings a message which gives light not only to the students but to the townspeople which the child could never attempt, to say nothing of accomplishing.

The idea of having the two pupils ranking highest in their school subjects as speakers is not to be commended, for this is putting a premium on mere book knowledge which is universally admitted to no longer be the standard by which to judge ability.

Furthermore, this determination of the highest honors is by no means as just as it should be, although performed as fairly as possible from the records. When one child, at the end of four years, is but one point in the grand total ahead of the next lower, I must confess I feel it does not

show which child has the greater book knowledge or which deserves the title valedictorian. Anyone who is thoroughly acquainted with school work will realize that it is a human impossibility for a teacher to mark a child in percent to within one point of his true mark. And so I recommend for the graduation exercises this coming June the following program or one very similar:

### PROGRAM

Music .....	Orchestra
Invocation .....	Pastor
Selection .....	Glee Club
Address of Evening	
Selection .....	School Chorus
Presentation of Diplomas ...	Chairman of School Committee
Selection .....	Glee Club or School Chorus
Recessional .....	Orchestra

### GRADUATES

The graduates of the High school this last year numbered eleven. The following is a list of the members:

Frank Binks	Ralph P. Newton
Helen F. Coughlin	May Parkin
Emma Agnes Guillo	Grace H. Rutan
Mary L. Hodgess	Ruth O. Smith
Carl A. Marsh	Ella Springer
	Marion E. Sullivan

Of these four are at college, one at normal school, one at preparatory school and the remainder are either in Maynard or working elsewhere. Miss Ruth Smith was valedictorian and Miss May Parkin, salutatorian. The program of graduation follows.

## PROGRAM

Selections and Opening March

Maynard High School Orchestra

Invocation .....Rev. A. M. Osgood

"Our Policy of Conservation" ..May Parkin, Salutatorian

School Chorus—"Carnival Chorus" .....Jakobowski

Arranged from "La Tarantella"

Address—"Social Service and Citizenship"

Mr. Edward T. Hartman

Secretary of the Massachusetts Civic League

School Orchestra—"Humoreske" .....Anton Dvorak

"The Stepping Stones of History"

Ruth Olivine Smith, Valedictorian

School Chorus—"Over the Fields of Clover" Adam Giebel

Presentation of Diplomas

Mr. Kenneth H. Damren, Chairman of School Committee

School Chorus—"Blue Danube" .....Strauss

Selections .....High School Orchestra

Enclosed herewith is a report from the commercial  
department which has been requested.

Respectfully submitted,

C. W. MILLAR, Principal.

## REPORT OF THE COMMERCIAL DEPARTMENT

---

Maynard, Mass., February 1, 1914.

To the Principal of the High School:

Herein is the second annual report of the Commercial Department of the Maynard High school.

We are now well under way with the work of the second year, with the organization of the department nearly completed and with a record of success that has surpassed even my most sanguine expectations.

More than fifty per cent of the total school enrollment is engaged in the commercial work and is even more enthusiastic now than when the course was first started a year ago. All are showing the genuine enthusiasm that comes from an earnest desire for advancement. This is particularly true of the present Senior class who are trying to complete the full four years' course in these first two years. I cannot express too strongly my satisfaction with the efforts of these young people, for while the average age is only seventeen, they are working with the zeal not always found in people of twice their years. This is without doubt the hardest year they have experienced in their school lives. They are at work during the usual business hours; namely, from 8 a. m. to 5.30 p. m. on every school day and on Saturdays usually have enough left over to make that day an extremely busy one.

I wish to take this opportunity to thank the parents of these students for the co-operation they have given me in the work, inasmuch as they have used every effort to have the home life such as to keep this class physically fitted for the arduous task they are endeavoring to accomplish.

That which gives me the most pleasure is the fact that

this class pursues its work without having to be urged as is often necessary with public school pupils. This of course, is due to the opportunities they see so close at hand. When I came to Maynard a year ago, I was requested to inaugurate a commercial course covering a four years period. At that time I also made the proposition to them that if they were willing to work,—and work very hard, they might have the opportunity of doing the four's work and receive a complete commercial diploma in June 1914. This has meant very careful planning on my part not only to utilize every opportunity at hand, but to make the most of every minute in these two years. It was necessary to very definitely plan and follow up the work of this class and I am pleased to say that at this time we are very much in advance of our schedule of progress and I have no hesitation in predicting that they will greatly exceed even the highest hopes and results to which I had originally looked forward.

At this time the average shorthand speed of the Senior class is equal to that attained and accepted for graduation in the majority of the high schools of this state and with five months more in which to complete the work there is absolutely no doubt but that the speed of this class will exceed that required for graduation by the private commercial schools.

At the present time the average typewriting speed is forty words per minute, all that is required by most of the first class business schools. We have five months in which to increase this speed, and there is no doubt that the seventy words per minute record can be made. When I speak of the number of words and time, both in shorthand and typewriting, it is needless to say that these statements refer only to absolutely accurate work.

I have now covered the phonographic end of the course and would like to say a few words in regard to what we are doing in bookkeeping and accountancy. This subject is an interesting one to young people. In my report last year I described the methods used in teaching bookkeeping, usually known as business practice. One period of every

school day is devoted to buying and selling of merchandise, stocks and bonds, real estate, etc., and a regular set of books is kept by each student for the transactions he makes during these periods. Every student is responsible for his results not only from a bookkeeping standpoint, but to the extent that he must show a profit at the end of each month in order to obtain passing credit for the month's work. This brings out actual business conditions that could never be obtained with text-book work alone; namely, that the student is taught to make the best of his chances as they exist and show a profit as is done in the business world.

Another very gratifying result of our bookkeeping work is the handling of the school finances by the Senior class. During the past year we have made up the vouchers for, and paid out through this department, the sum appropriated by the town for school use and recorded the same in a scientifically organized set of accounts. We have now made up from these accounts a financial statement showing how every penny of the money appropriated has been spent. All of this work has been done by a member of the Senior class and I can truthfully say that I have not made a single entry in the entire set, although, of course, at times it has been necessary to appeal to my more mature judgment as to the disposition of some of the items that have come before us. This statement checks to a cent with the balance shown by the Town Treasurer at the close of the financial year. The main set of accounts was kept by one pupil, but duplicate sets have been worked out by every member of the Senior class. The keeping of the records of the school finances in this way furnishes an actual, live business problem for the students, one in which the handling of real money is involved.

There are at this time a number of excellent plans yet to be put in operation and with the added facilities that will be at our disposal in the new high school building, we will have a commercial department not only equal to that of the best business colleges, but one that can be so arranged as to handle the routine work of all the town officials and in

this way make to the community a return in cash as well as in educational value upon the investment laid out on this course. As this report must be very limited in its scope owing to lack of space and other conditions, I shall not try to describe in detail, or even enumerate here the many new plans we hope to complete in our new building during the coming year.

I wish to hereby publicly acknowledge the staunch support given this department by the Board of Education and to all who have in any way contributed to the phenomenal success we now enjoy.

Respectfully submitted

GEORGE A. KENNEDY,

Principal Commercial Department

## REPORT OF THE DOMESTIC SCIENCE DEPARTMENT

---

Mr. F. S. Brick, Superintendent of Schools:

I hereby submit the second annual report of the domestic science department.

The work in sewing has been extended to include work in the fourth grades this year. Both boys and girls sew in this grade and the little people are doing excellent work. It is believed that the training of this year's work is as valuable for the boys as for the girls and that they will be better fitted for the basketry and manual training that they take later in the grades—as well as that they will have learned to sew on “bachelor buttons.” The boys are doing as good work as the girls and evince as much interest. To train the fingers and to begin good habits in doing careful work—making small, even stitches, fastening the thread thoroly, making square corners, straight seams and narrow hems are the aims of the work in this grade. After five months' training the results are gratifying and the small fingers that at first held their needles much as they would a push-spoon are rapidly gaining control of their muscles.

The third grades, also, made a good beginning in the sewing which was discontinued because of the unusual amount of regular work to be covered by that grade this year.

As this is the second year of the department, the work of the seventh and eighth grades still suffers from inadequate preparation. A child whose fingers had been trained thru all the grades—who had learned the stitches in the third and fourth grades and had practiced them thru the following years would be well fitted to take up more advanced

work, whereas the children now have to learn the processes for the more difficult problems.

It is the purpose of this course to develop the initiative and self-reliance of the pupils—to insist on individual responsibility for work and to bring them to an appreciation of the joy of accomplishment—of having by effort planned and made well something useful. There are no practice pieces with purposeless stitches. All class work is toward the completion of some article which it will be a pleasure for them to possess or to give to father or mother.

I appreciate fully the interest the parents have taken in this work. When a little girl in the lower grades said seriously to me, "I want to do this the best I can because my father says he just needs a penwiper," I knew the stitches taken by that pupil would be painstaking. I am grateful to all parents who "just need" penwipers and dish towels handkerchiefs and aprons. I am always glad to vary the work to fit the needs of the individual pupil, that the garment may be useful and not an added expense.

In order to secure a better selection of material and greater uniformity of work, the school has furnished the materials for sewing and has sold the completed article to the pupil for the cost of the material. If all articles are not bought by the pupils, they will be sold at an exhibition of the work at the end of the year. As yet we have no articles for a sale.

The plan of work for the year is as follows:—  
Fourth Grade—

Dish cloths, dish towels, handkerchief cases, needle and thread cases for Christmas gifts, book covers, doilies with outlined pattern and button-holed edge.

Teaching involved—basting stitch, hemming stitch, back stitch, over and over stitch, buttonhole and outline stitches, and the sewing on of buttons.

Fifth Grade—

Sewing bags, crocheted handkerchief bags, small plain aprons, kitchen aprons, flannelette petticoats, sweeping caps, mending, sofa pillow covers.

Teaching—review of all stitches, gathering and putting gathers into a band, patching, darning and fancy stitches.

Sixth Grade—

Book bags, handkerchiefs, petticoats, kitchen aprons, night gowns, a study of textiles.

Teaching—hemstitching, making different parts of a garment, such as sleeves, cuffs, etc.,

Seventh Grade—

Double piece bags, handkerchiefs, kimonos, simple dresses by the more skilful pupils.

Teaching—use of patterns, care and use of machine.

Eighth Grade—

Laundry bags, boot and shoe cases, underwear, dresses. The work is along the same lines as that of the seventh grade but more difficult.

High School—

Fancy work bags, French embroidery, princess slips, aprons, dresses. But two pupils in this class have had any previous training.

The work in cooking is confined to the seventh and eighth grades. Note books are kept for recipes, methods and principles. Whenever possible, the food prepared by the classes has been sold at recess time to the children, the price being computed by the pupils at a rate to cover the cost of materials only. Thus the cost of maintaining the department has been lessened, added interest for the scholars, secured, and better training given because of the large quantity prepared. Cocoa, sandwiches, apple sauce, crackers with jelly (made by the pupils) hot soup, candy and many kinds of cookies have been sold in this way.

As cooking alternates with sewing in the two-hour period given weekly to domestic science, only fourteen lessons can be given to the actual practice of cooking. The following principles are taken up during that time:—preserving and canning, cooking of vegetables, meats, starches, making of doughs and batters and preparing light deserts. Bread making “with variations” will be taken up every year and

at least three lessons given to it as it is without question the most important project in the course. A whole loaf of bread is made by each pupil and made under normal conditions by mixing the bread at the noon recess and keeping the class a little later in the afternoon for the baking. Believing in this sort of training, every lesson for the year has been planned so that the conditions may be as nearly those of the home as possible.

The homework slips on which a record of the work done at home by each pupil, is kept, enables the teacher to test accurately the value of each lesson.

It is hoped that next year the domestic science work may be given a value in points in the high school and a course with a satisfactory scientific basis of related subjects be established. In our new building we shall have rooms well equipped for the purpose and we feel that a course of this sort will be appreciated and supported.

I thank the teachers most heartily for their encouraging help and interest and the school committee and superintendent for their very loyal support.

Respectfully submitted,

ANITA B. WALKER.

## REPORT OF THE MUSIC SUPERVISOR

---

To the Superintendent of Schools—

I herewith submit my third annual report on Music in the public schools of Maynard, Mass.

In some ways I can say that the progress in music thus far this year, is much more satisfactory than it was last year at this time.

A larger majority of 1st, and 2nd grade children are able to sing the rote songs correctly, than last year. They are also beginning to read and sing simple exercises in scale work and diatonics from the staff.

As a general thing children will sing head tones easily and naturally but I find many heavy voices among these little people in the lower grades and sometimes the monotonous defy the united efforts of grade teachers and myself for 2 or 3 years before they are able to sing head tones; but we should make allowances for some of these same children who perhaps never hear music until they enter school.

Grades III. and IV. have covered about the same amount of work as last year, but the fifth grades are in advance of the work of this time last year, which is very encouraging, as so many new principles of music should be taught in the fifth year.

Sixth grades are studying two part music. Key Signatures and time values.

Seventh grades have three-part music and begin the study of major and minor formations.

The results in the eighth grade are very gratifying altho we shall be unable to accomplish as much in four-part work as last year, so few of the boys are able to carry the Bass as their voices are not yet placed.

In written work I am trying to have the children make practical application of their mathematics to the arithmetic of music: and in song work to apply their knowledge of English, by clear enunciation, phrasing and expression.

A school Victrola would be a great help to the children of these schools, enabling them to hear and study much of the better class of music which they might never hear otherwise.

By giving an operetta or other musical entertainment, the schools might be able to raise the money to purchase a Victrola another year.

The High School chorus is doing creditable work this year and a Glee Club has recently been formed. With the united efforts of chorus, orchestra and Glee Club we hope to give a concert later on, and the school is not lacking in talent for a High School.

I wish to thank all the teachers who co-operate so faithfully with me in my work, also the Superintendent and Committee for their support.

Respectfully submitted

ALICE M. GENTNER,  
Supervisor of Music.

West Acton,  
Jan. 24, 1914.

## REPORT OF DRAWING SUPERVISOR

---

Mr. F. S. Brick, Superintendent of Schools:

There is little to report at this time concerning the work in Drawing. Throughout the grades interest in the subject continues unabated. The teachers and pupils join in an effort to do their best in all phases of the work as required by the outline.

With the increase of pupils and the consequent increase in the number of rooms under supervision the fact that the quality of work continues satisfactory is due more and more largely to the earnest efforts of the regular teachers.

We are doing all we can to meet the increased demand upon our time by lengthening our hours to meet those of the first grades. All the first grade work with the supervisor is done after the other grades are dismissed from, 12 to 12.30 and from 3.30 to 4 o'clock. At the Bancroft and Main Street Schools this has given time to keep to practically the same hours in length of periods and frequency of visits from the supervisor as heretofore. At Nason Street, however, it is quite different. Where formerly the special teacher visited four grade rooms every week and the other four each once in two weeks, she now visits but one grade each week and the other eight once in two weeks only. Although the day here is lengthened it does not help out as in the other buildings because of the changed conditions in the High School. Reducing the number of periods in the day and requiring all pupils to take Drawing necessitates spending fully one fourth of the supervisor's time on the High School alone. Considering the number of pupils with whom the time is spent, the conditions as regards equipment for proper

High School work in Drawing, and the attitude of pupils forced to take the subject, is this a wise expenditure of time?

When all are required to take Drawing, those who have talent and those who have no interest in the subject and, as they themselves know, in many cases, no real ability along these lines must receive the same training. If the pupils elect other subjects, to fit for advanced study in some particular institution of learning why should not those who are going to need special training in Drawing receive it along the lines needed? If only those interested in the work elected it this could be done. At the same time there would be a vast increase in the earnestness of the work in the High School Drawing Classes.

In the grades, even the upper Grammar grades, the boys and girls almost invariably look forward to the Drawing lesson and the supervisor's visit. They do their best to meet her expectations and produce results of a high standard of excellence.

These are the pupils from whom we have taken the time for the High School where it is far from generally appreciated.

Respectfully submitted

MAUD I. DOLAN,  
Supervisor of Drawing.

January 21, 1914.

## TOWN WARRANT

## COMMONWEALTH OF MASSACHUSETTS

Middlesex, ss.

To either of the Constables of the Town of Maynard, in said County. GREETING:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify and warn the legal voters of said Maynard, to assemble in Cooperative Hall in said town, on Monday, the ninth day of March next, at 7.00 a. m., then and there to act on the following articles:

Article 1. To choose a moderator to preside at said meeting.

Article 2. To choose by the Australian system of balloting, the following town officers: One town clerk, one town treasurer, one collector of taxes, each for one year, three selectmen for one year, one overseer of the poor for three years, one member of the board of health for three years, one water commissioner for three years, one member of the school committee for three years, one assessor for three years, one trustee of the public library for three years,

one trustee of the public library for two years, one tree warden for one year, two auditors for one year, three constables for one year, one cemetery commissioner for three years, and all town officers to be chosen at said meeting. Also to answer by the said Australian system of balloting the following questions: "Shall licenses for the sale of intoxicating liquors be granted in this town?"

"Shall Chapter 807 of the Acts of nineteen hundred and thirteen, being an act to provide for compensating laborers, workmen and mechanics for injuries sustained in public employment, and to exempt from legal liability counties and municipal corporations which pay such compensation, be accepted by the inhabitants of this town?"

"Shall this town accept the provisions of Section forty-two of Chapter five hundred and fourteen, of the Acts of the year nineteen hundred and nine, as affected by Chapter four hundred and ninety-four, of the Acts of the year nineteen hundred and eleven, which provides that eight hours shall constitute a day's work for city or town employes?"

For the purpose specified in this article, the polls will be open after the election of a moderator, and will remain open until four o'clock in the afternoon, when they shall be closed, unless the meeting there assembled otherwise determine.

Article 3. To hear and act upon the reports of town officers and committees.

Article 4. To see if the town will appoint a committee to consider appropriations for the ensuing year, and report at the April meeting. To do or act thereon.

Article 5. To see if the town will vote to accept Chandler street, running from Walnut street to Fairfield street. To do or act thereon.

Article 6. To see if the town will vote to accept from Margaret MacArthur the sum of one hundred dollars (\$100.00), as a cemetery fund, the income to be used for the perpetual care of her lot and surroundings in Glenwood cemetery. To do or act thereon.

Article 7. To see if the town will authorize the treas-

urer, with the approval of the selectmen, to borrow during the municipal year, beginning February 1, 1914, in anticipation of revenue for the said municipal year, such sums of money as may be necessary for the current expenses of the town, giving the notes of the town therefor, payable within one year from the dates thereof.

Article 8. To see if the town will petition the bureau of statistics for an audit of its accounts, in accordance with the provisions of Chapter five hundred and ninety-eight of the Acts of the year nineteen hundred and ten, and amendments thereof.

And you are directed to serve this warrant by posting an attested copy at the Post Office, and one at each of ten other public places in said town, seven days at least, before the time of holding said meeting.

Hereof fail not, and make due return of this warrant with your doings thereon, to the town clerk, or the selectmen, at or before the time appointed for holding said meeting.

Given under our hands this twenty-fifth day of February, in the year of our Lord, one thousand nine hundred and fourteen.

WILLIAM CONNOLLY,  
RALPH WHITEHEAD,  
WILLIAM JONES,  
Selectmen of Maynard.
