Report of the Board of Selectmen

To the Citizens of Maynard:

Your Board of Selectmen respectfully submit for your approval their annual report and that of the Departments, included in your Town government.

The report of the Town Accountant shows the various transactions of the town's business that have taken place during the year. An examination of this will show just how the taxpayer's money is expended.

The Board of Selectmen conducted their usual order of business every Tuesday at the Town Building from 7 P. M. to 9 P. M. Special meetings were held when necessary.

No major projects were attempted during the year due to the unsettled conditions and high cost of materials.

During the coming year serious consideration should be given to bringing in some form of additional revenue to the Town. If this is not feasible, a great deal of study should be given to the revaluation of property in order to alleviate the tax burden.

Your Board of Selectmen has been in conference with representatives of New England Telephone and Telegraph company and the Boston Edison Company relative to the placing of wires underground from lower Main Street to the intersection of Sudbury Street, and from Main Street up Nason Street to the Roosevelt School.

In our budget for 1947 we are recommending the purchase and erection of a municipal garage.

We wish to thank all boards, committees and citizens for their cooperation during the year.

Respectfully submitted,

JOSEPH P. DINEEN, Chairman
WILLIAM J. BAIN, Secretary
OLIVER WARILA

Report of Superintendent of Streets

To the Honorable Board of Selectmen:

I herewith submit my report for the year 1946 as Superintendent of the Street Department.

MAINTENANCE

The annual spring cleaning of sand from the streets and sidewalks were done. The streets were swept in the business section each week and also the papers were collected from the stores. The street signs, posts, fences and town line signs were painted.

DRAINAGE

The catch basins were cleaned, some were adjusted to grade. One catch basin and twenty feet of eight inch V. C. pipe were constructed off Main Street at the Town House. One catch basin and eight feet of eight inch V. C. pipe were constructed on Summer Street by E. Johnson's property. The outlet of the Fairfield Street drainage was extended with fifty feet of fifteen inch R. C. Pipe.

The drainage in the New Village was excavated at various sections and the broken pipes were replaced. Fifty-two feet of ten inch V. C. was laid. What drainage there is in the New Village is in good working order.

In my budget for 1947 I have requested funds for additional catch basin, manholes, and extensions of the lines.

STREETS TREATED WITH BITUMINOUS IN 1946

SIDEWALKS CONSTRUCTED IN 1946

Name of Street	Type of Walk	Property Abutting	Square Yards
Dartmouth Street	Bit. Concrete	William Scully	146
Lincoln Street	Bit. Concrete	Walter Whitman	60
Park and Sudbury Sts.	Bit. Concrete	Northeasterly side	612
Pervical Street	Bit. Concrete	St. Bridgets' Rectory	235
Powdermill Road	Bit. Concrete	Northeasterly side	506
Powdermill Road	Bit. Concrete	Middlesex Laundry	27
Summer Street	Granolithic	V. Carboni	65
Walnut Street	Bit. Concrete	James Coughlin	51
	Bit. Concrete	Jack Kearns	125
Total			1827

In my budget for 1947 I have requested funds for permanent sidewalk construction whereby the abutter contributes toward the cost.

SNOW

We had a total accumulation of sixty-three inches of snow caused by ten snow storms and eleven sleet storms.

DATES OF SNOW STORMS

January 21	10"	
January 25	10"	
January 30	5"	25"
February 20	15"	
February 26	3"	18"
March 11	3"	3"
April 2	2"	2"
December 20	6"	
December 28	7"	
December 29	2"	15"
Total		<u>63"</u>

The snow was removed from the business areas, churches and schools, and all the streets were plowed and sanded as were the sidewalks.

The State Department of Public Works renewed their contract for paying one half the cost of plowing Route 117.

CHAPTER 90 MAINTENANCE

Shoulders, drainage were cleaned and the brush cut on Great Road, Parker Street, Powdermill Road, Main Street, Acton Street, Haynes Street, Brown Street, and Waltham Street. All the guard rails were painted.

Five thousand square yards of Powdermill Road was Surfaced with a pea stone roadmix.

NEW EQUIPMENT PURCHASED

1 1½ ton G. M. C. Dump Truck

NEW STREET SIGNS

There has been eighty-four new street signs erected on various streets in the town this year. We now have a street sign on every street in town. This completes a project we started four years ago.

INVENTORY

Equipment	\$42,040.00
Repair and Replacements Parts	473.14
Construction Materials	781.27
Tools and Machinery	1,639.82
	<hr/>
Total	\$44,934.25

GARAGE

We are using D'Gata's garage for storage purposes but in my budget for 1947 I have requested funds to build a garage for this purpose.

CONCLUSION

The Town Accountants report will show the expenditures of this department.

I am grateful for the assistance given me by the Board of Selectmen and the other Town Officials, and also to the department employees who have been so co-operative.

Respectfully submitted,

RAYMOND J. SHERIDAN,
Superintendent of Streets.

John A. Crowe Park Superintendent

To the Honorable Board of Selectmen:

I herewith submit my report of the John A. Crowe Park for year ending December 31, 1946.

During the year, the baseball diamond was graded and also section near the bandstand, in order to keep the carnivals off the baseball playing field.

In my budget for 1947 I have requested funds to repair and paint the grandstand, bandstand, and other facilities at the Park. The tennis courts which are enjoyed by a great number of citizens will need a surface treatment during the coming year.

I wish to express my thanks and appreciation to the people and the various departments for their cooperation during the past year.

Respectfully submitted,

WILLIAM F. KITEWICZ,
Superintendent.

Report of Shade Tree and Moth Division

To the Honorable Board of Selectmen:

Gentlemen:

With the exception of Silver Hill, the appearance of gypsy moths in the woodlands and public shade trees has been greatly reduced. Considerable effort was spent eliminating those on Silver Hill, but conditions there warrant further attendance in the spring of 1947.

Insects included in the spring spraying were, the elm beetle, tent caterpillar, and the browntail moth, of these the browntail moth is now extinct, and very few tent caterpillar nests are present in the trees. The elm beetle which is bi-annual in appearance and consistently prevalent in some communities is kept under control in this town by immediate spraying, where discovered, with a mixture of creosote and arsenic of lead.

The Dutch Elm Disease has not as yet appeared in Maynard, but constant observance is being kept for the outbreak of this disease.

The existence of the fall web moth was very persistent this year though a great deal of effort was spent trying to eliminate it by cutting the affected parts from the trees and also by spraying with arsenic of lead. Spraying with D.D.T. will be tried in 1947 as a method of eliminating it. An attempt was made this year to purchase some D.D.T. but was unsuccessful. Since the fall web moth attacks many types of trees which are on private land, notably fruit trees, cooperation from the owners of these lands will enable us to eradicate this insect.

A small amount of the following diseases; cotton aphus, red mite, San Jose Scale, and oyster shell scale, were observed breaking out this year and dealt with as soon as they appeared.

The town's shade trees are in excellent condition. The older trees require only yearly trimming while the five thousand odd young trees planted since 1938 require a considerable amount of pruning and attention. Various sections of the town are still in need of shade trees and fifty will be planted each year.

Five shade trees were destroyed this year by gas. These trees were appraised and the town reimbursed by the Gas Company. New trees will be planted in their place during the transplanting season of 1947.

Roadside brush was cut along various thoroughfares of the town, more specifically; Taylor Rd., Espie Ave., Pumping Station Rd., Acton St., Brown St., Thompson St., Marlborough Rd., Sudbury St., Moore Ave., and parts of Great Rd.

I wish to acknowledge gratefully the co-operation extended to me by all town officials in my work.

Respectfully submitted,

WILLIAM V. HANSEN,
Tree Warden and
Supt. of the Moth Department.

Report of Trustees of Soldiers' Memorial Park

To the Citizens of Maynard:

The annual report of the Trustees of the Soldiers' Memorial Park is herewith submitted.

During the year the bronze tablets on the monuments were cleaned and repaired.

Plants were set out prior to Memorial Day and bloomed throughout the summer.

With the elimination of dimout regulations, the Park, was again decorated and illuminated during the Christmas season giving a cheerful and pleasing effect.

The work done by our superintendent Mr. William V. Hansen has been greatly appreciated by us. We also wish to show our appreciation for the faithfulness shown by Mr. Micheal Rynkiewicz in his care of the flag, and to thank the Highway Department for the cooperation and assistance given to our superintendent.

Respectfully submitted,

JOSEPH P. DINEEN
ALICE M. HOWE
OSWALD DRECHSLER
ALICE NAGLE
HOWARD KING
ANGUS HANSON

Trustees.

Report of Sealer of Weights and Measures

To the Honorable Board of Selectmen:
Gentlemen:

I herewith submit my annual report as Sealer of Weights and Measures for the year 1946.

In submitting this report, I wish to state that at the close of the year all weighing devices and measures in the town were in good condition in accordance with the law.

I wish to take this opportunity to express my gratitude to the merchants and all those who come under the requirements of this department for their splendid co-operation.

Sealers of Weights and Measures.

Report of Inspector of Animals and Slaughtering

To the Honorable Board of Selectmen:

I herewith submit my report as Inspector of Animals and Slaughtering for the year 1946.

During the year I inspected 254 pigs, 18 cows, 8 calves, and lamb. All of these animals were approved, with the exception of one pig, which was condemned.

Fifteen barns were inspected and found to be clean. The cattle were free of antinmonycosis, barn mange, and other contagious diseases.

Respectfully submitted,

JOSIAH H. HERRICK,
Inspector.

Report of Dog Officer

To the Honorable Board of Selectmen:

I submit my report as Dog Officer.

During the year nineteen dogs were quarantined on suspicion of rabies, and I released the same after fourteen days. I destroyed twenty-six dogs and returned two stray dogs to their respective owners.

In accordance with the law, all delinquent dog tax owners were notified.

At this time I want to thank the Chief of Police and his officers for their assistance.

Respectfully submitted,

JOSIAH H. HERRICK,
Dog Officer.

Report of Report of the Fire Department

The Honorable Board of Selectmen,
Gentlemen:

The report of the Fire Department for the year ending December 31, 1946, is herewith submitted.

Our financial statement may be found in the Town Accountant's report.

BUILDING

Headquarters, Nason Street, Housing Engine No. 1, Engine No. 2, Ladder No. 1, Steam Fire alarm System, 1 Air alarm System, 1 Forest fire Pump, 1 Police Boat and 2 G.I. 500 gallon Trailer Pump.

APPARATUS

In service, one International pumping engine, equipped with 150-gallon booster tank, 250 feet of booster hose, 1,000 feet of 2½-inch hose, 200 feet of 1½-inch hose, two 10 foot lengths hard suction hose, one 24-foot extension ladder, one 14-foot roof ladder, rubber coats, salvage covers and various other equipment for extinguishing fires.

Engine No. 2 is a Dodge pumping engine equiped with 100-gallon booster tank, 150 feet booster hose, 500-gallon midship pump, 1200 feet 2½-inch hose, 20 feet hard suction hose, salvage covers, one 24-foot extension ladder, one 14-foot roof ladder, rubber coats and various other equipment for extinguishing fires.

Ladder No. 1, equipped with pumping engine, 100-gallon booster tank, 150 feet booster hose, one sixty-foot aerial ladder, 240 feet of ground ladders, 50 feet of 3-inch hose, 100 feet of 1½-inch hose, 900 feet of 2½-inch hose, two-man sewer mask, gas masks, one inhalator, rubber boots, rubber coats and various other tools and equipment for saving lives and extinguishing fires.

FIRE ALARM SYSTEM

There are 24 boxes, 8 phantom boxes, 17 miles of wire, one whistling machine steam operated, one house tapper, one tape register, 27 battery cells, 2 rectifiers, 1 air whistle and 1 air whistle and 1 air compressor.

Maynard Fire Alarm

- 1-1 After a fire indicates that the fire is all out.
- 6 American Legion and Veterans of Foreign Wars call.
- 7 Boy Scout Call.
- 8 State Guard Call.

Storm Signals for the Schools

- Three blasts for first eight grades, five blasts for entire system. Blown at 7.15 and 12.30.
- Three blasts at 6.30 P. M. for Evening School.
- One blast at 9.30 A. M. and one blast at 12.30 P. M. for Supervised Recreation for Children during Summer months.

(OVER)

Instructions for Giving Fire Alarms

Alarms should be given from the box nearest the fire. Open the box, pull the hook clear down once and let go. After giving an alarm remain at the box and direct the firemen to the fire.

Never open a box except in case of fire.

Do not sound an alarm for a chimney fire or brush fire, or fire seen in the distance. Telephone the Fire Station or the Fire Engineers.

AN ACT TO PROHIBIT THE DRIVING OF VEHICLES OVER MUNICIPAL FIRE HOSE—1926, Chapter 278

Section 7A. Upon the approach of any fire apparatus which is going to a fire responding to an alarm, every person driving a vehicle on a way shall immediately drive said vehicle as far as possible toward the right-hand curb or side of said way and shall keep the same at a standstill until such fire apparatus has passed. No person shall drive a vehicle over a hose of a fire department without the consent of a member of such department. No person shall drive a vehicle within three hundred feet of any fire apparatus going to a fire or responding to an alarm, nor drive said vehicle, or park or leave the same unattended within six hundred feet of a fire or within the fire-lines established thereat by the fire department. Violation of any provision of this section shall be punished by a fine of not more than twenty-five dollars. (Approved April 28, 1926.)

Remain at box until apparatus arrives.

Investigate your chimneys and keep them clean.

Do not throw lighted cigarettes.

Traffic siren means pull out and stop.

Oil stoves need to be inspected and cleaned frequently.

Drive 300 feet from fire apparatus.

Remain 600 feet from fire.

A permit is required for all open fires.

False alarms are punishable by fine or imprisonment.

How to send an alarm from box: Go to the nearest box, open door, pull lever way down once and let go, then shut door, remain at box and direct firemen to fire.

When calling headquarters by telephone for fire speak calmly and distinctly, giving street, location on street, and name of person calling; this will insure more prompt response by the firemen.

Do not allow rubbish, paper, or any inflammable material to accumulate in or about your property.

Always call the Department before attempting to extinguish a fire yourself.

The Fire Department will be enabled to render better service if these instructions are followed.

The whistling machine is in excellent working order.

DUTIES PERFORMED

Number of alarms reported to	164
Box alarms	16

No. Ft. of Ladders raised	231
Assessed value of buildings involved in fires	\$24,500.00
Insurance carried on Building and Contents	\$20,500.00
Insurance paid on building and contents	\$4,454.00

FIRE PREVENTION WEEK

The department held fire drills at all schools and made inspections which was very satisfactory to School Superintendent Miss Doyle and this department.

We wish to thank the Superintendent, Principals and Teachers for their co-operation extended us during this work.

During the summer months the department held drills and practice in laying hose, ladder raising and classes to discuss the best methods of combatting fires.

Every man in the department has been insured against injury or loss of life, and at this time the insurance committee wishes to thank all the business men and all other that contributed to this fund making it possible to carry on this insurance.

The weekly collection of rubbish and waste paper in the business section by the highway department has been a great help to the Fire Department in reducing the many fire hazards that exists in and around many public buildings.

WE WISH TO EXTEND OUR THANKS TO

Superintendent, Mr. R. Sheridan and his co-workers for the splendid co-operation extended us in reducing fire hazards, it is our sincere wish that this splendid work be continued.

The Police force and all Town Departments for their co-operation extended us during this year.

And the Telephone Operators for their kindness and co-operation in helping our Department.

Respectfully submitted,

PHILIP A. WILSON
HENRY MARIANI
RICHARD ALLAN
Board of Engineers.

Report of the Forest Warden

The Honorable Board of Selectmen,
Gentlemen:

The report of the Forest Warden for the year ending December 31, 1946 is herewith submitted.

RICHARD ALLAN,
Warden

(Chap. 581

AN ACT FURTHER REGULATING THE SETTING
OF FIRES IN OPEN AIR.

Be it enacted, etc., as follows:

Chapter forty-eight of the general Laws is hereby amended by striking out section thirteen as amended by chapter two hundred and four of the acts of nineteen hundred and thirty-eight, and inserting in place thereof the following section—Section 13. No person shall set, maintain or increase a fire in the open air at any time unless the ground is substantially covered with snow, except by written permission, covering a period of not exceeding five days from the date thereof, granted by the forest warden or chief of the fire department in cities and towns, or, in cities having such an official, the fire commissioner; provided, that no such permit shall be granted to be exercised during any portion of the months of April and May except upon rainy days and provided, further, that persons over the age of twenty-one may, without a permit, set, maintain or increase a reasonable fire for the purpose of cooking, upon sandy or gravelly land free from living or dead vegetation or upon sandy or rocky beaches bordering on tide water, if the fire is enclosed within rocks, metal, or other non-inflammable material. The forest warden, chief or fire commissioner, as the case may be, may make it a condition for granting a permit that any burning shall be done only after four o'clock (eastern standard time) in the afternoon and he may revoke a permit at any time. The forester may make rules and regulations relating to the granting and revocation of such permits binding throughout the commonwealth. Such rules and regulation shall take effect subject to section thirty-seven of chapter thirty, when approved by the governor and council. The forest wardens in towns and officials performing the duties of forest wardens in cities shall cause public notice to be given of the provision of this section and shall enforce the same. Whoever violates any provision of this section shall be punished by a fine of not more than one hundred dollars or by imprisonment for not more than one month, or both.

Approved August 1, 1941.

Report of Police Chief

To the Honorable Board of Selectmen:

I herewith submit my annual report as Chief of Police for the year ending December 31, 1946.

During the past year all complaints received by the Police Department were properly investigated and disposed of by this department.

TRAFFIC

The traffic conditions in Maynard are becoming more serious, although we have two public parking areas, which are insufficient to accommodate the present demands.

PARKING

This department recommends that serious consideration should be given to appointing a committee to investigate ways and means to remedy the parking facilities in this Town.

SAFETY

In accordance with the Town By-Laws, the Selectmen have designated the following streets to be closed for sliding: Newton Drive, Elmwood Street, Florida Road, Lewis Street, Roosevelt Street, and Butler Avenue.

As recommended in previous years some consideration should be given to the establishment of ice skating rinks during the winter months in various sections of the Town.

This department wishes to thank the Superintendent of Schools, School Teachers, Peoples Theater and the businessmen, for their cooperation in making our annual Hallowe'en Party a success.

EQUIPMENT

As voted at the annual Town meeting a two-way police radio has been installed in the Police Department. The purchase of this equipment has increased the efficiency of this Department, especially during any emergencies.

REPORT OF ARRESTS FOR 1946

In conclusion, I wish to express the appreciation and the thanks of the Police Department to all other Departments who have been of assistance to the Police Department.

Respectfully submitted,

HENRY F. PIECEWICZ,
Chief of Police.

Report of Board of Public Welfare

To the Citizens of Maynard:

GENERAL RELIEF

The end of the year 1946 shows a slight increase in the number of cases cared for by this board. At present we are caring for twenty-four cases of General Relief as against twenty cases a year ago. Increased State budgetary requirements to meet increased costs of living have necessarily increased relief costs.

Practically all General Relief cases are either unemployable, or do not qualify for other forms of assistance. All cases are investigated and relief is granted in accordance with State budgeting plans. All resources are given consideration when budgets are figured.

OLD AGE ASSISTANCE

We are granting Old Age Assistance to eighty-four cases in Maynard, and to eight cases in other cities and town. Twenty-two cases have been added during the year and eight cases have been closed.

The liberalization of the "Support Your Parents" law, the budgetary increases ordered by the State Department to meet increased costs of living, and the increased medical and hospital costs, all contribute to the extra expense of this category of relief.

All applications are investigated and eligibility under the law must be proven before cases are accepted. Income or assistance from any other source is given consideration in determining the amount of the Assistance payment.

AID TO DEPENDENT CHILDREN

Six Mothers and sixteen Dependent children are receiving relief under this category of relief, an increase of one case with four dependent children over the preceeding year.

The financial account of expenditures and receipts will be found in the report of the Town Accountant.

Respectfully submitted,

ALTON W. SIMS, Chairman
 JAMES M. MacKENZIE, Clerk
 WILLIAM J. SMITH
 Board of Public Welfare

Report of Library Trustees

To the Citizens of the Town of Maynard:

The Maynard Public Library Trustees and the Librarian submit their report for the year 1946.

We are indebted to the following libraries for the loan of books during the year. The Division of Public Libraries and The Concord Public Library. We appreciate the loan of these books on special subjects, that we are unable to buy because of their cost, and the fact, that they are not generally circulated.

We will gladly try to supply any book of general interest, that is requested.

We also wish to thank the Teachers in the VI, VII and VIII Grades for their interest in the State Certificate Reading Contest, we have been conducting for these grades.

The following people have donated books to the Library; Mrs. Margaret Ayotte, Mr. Herbert Lawton, and Mr. Charles Seely. We wish to thank these people and assure them, and any others, that we are glad to receive these gifts of books at any time.

The Statistical Report is as follows:

Books in the Library January 1, 1947.....	12,310
Discarded	30
Lost Books	15
Borrowed	160
Bound	95
Purchased	400
Fines Collected	\$136.18
Circulation	27,239

Your respectfully,

OLIVE R. MORGAN,

Librarian

The Public Library Trustees wish to endorse everything the Librarian has reported.

Also we wish to extend a hearty invitation to all to come up to the Library and take advantage of the facilities we have to offer.

We wish to thank the Library staff for their cooperation during the year and their efforts to make the Library a pleasant place in which to browse around.

As always we will be glad to consider any book recommended providing it will prove of value to the most people.

Wishing all a Happy and Prosperous New Year.

Respectfully submitted,

JOHN E. HANNON, Chairman
ROBERT LESTER, Secretary
NELLIE C. MAY
Maynard Public Library Trustees.

Report of the Board of Health

To the Board of Selectmen:

Gentlemen:

During the past year, the Board of Health has continued its several valuable clinics, milk inspections, x-raying of tuberculosis suspects to aid in the protection and safeguarding of the health and welfare of the community.

DIPHTHERIA CLINICS

The Board for the 16th year conducted these clinics which by a safe and simple method has served as a protective measure against one of the most fatal diseases of childhood. Annually diphtheria kills thousands of children, particularly those from six months to five years of age. In fact, due to an outbreak of diphtheria in a neighboring town, a clinic was conducted, last February. At this clinic 323 children were given this protective measure; 265 receiving booster doses and 58 new cases. It is the duty of every parent to have their children receive every precaution to insure good health and should have their child inoculated at the age of six months. Dr. Hooper was in charge of the Diphtheria Clinics assisted by Misses Ward and Foster.

VACCINATION CLINICS

For the protection against smallpox the Board once again conducted such a protective clinic at which a total of 36 children were vaccinated. Parents should have their children vaccinated when they reach the age of six months. Dr. Hopper was in charge assisted by Misses Foster and Ward.

SCHOOL DENTAL CLINICS

Good, strong teeth are considered one of the most essential factors in the health and development of a child, so in co-operation of aid the Board continued its school dental clinics, which were conducted by Dr. S. R. Garland, Dr. F. A. May, assisted by the school nurse, Miss Foster.

No. Treated	546
No. Fillings	224
No. extractions	59
No. Cleanings	96
No. Treatments	16

TUBERCULOSIS

This is still one of the town's major problems and all suspects are immediately x-rayed at the Middlesex County Sanatorium, Waltham. This is a disease which the people must realize should be checked in its early stages.

DOG CLINICS

A total of 266 dogs were immunized against the much dreaded rabies at the two clinics conducted by the Board. Dr. Gerald O'Malley, veterinarian, was in charge assisted by Joshua Herrick, local animal inspector. Although not a single case of rabies has been reported, it must be remembered that every dog must be immunized annually as this is the protection for both the animal and community.

The following is a list of contagious and communicable diseases reported for 1946:

Chicken Pox	2
Dog Bite (not rabied)	12
Lobard Pneumonia	2
Mumps	10
Tuberculosis	2
Undulant Fever	1

Milk samples are continued to be taken monthly. Farms that produce milk sold in this community were also visited and both dealers and farmers are to be congratulated for the high protein value and excellent quality of milk sold, here.

The Public Health Association has generously given our regular nurse, Miss Ward, some much needed aid by having Mrs. Allan on duty, two days a week. For a number of years Miss Ward has served faithfully being on duty both day and night with little or no time for herself. This help will enable Miss Ward to at least have some enjoyment.

We wish to thank all departments, the citizens, the physicians, Mr. James V. King and all those who are employed under our supervision for their cooperation during the past year.

. Respectfully submitted,

HOWARD L. CLARK,
JOHN J. JOHNSTON,
LESTER F. COWLE,
Board of Health

Annual Report of Nurse for Year Ending January 1, 1947

John Hancock Insurance calls	50
Free Nursing visits	280
Total	<hr/> 2,502

Respectfully submitted,

MARY A. WARD, R. N.

Report of Cemetery Commissioners

To the Honorable Board of Selectmen:

The annual report of the Board of Cemetery Commissioners is herewith submitted.

The extension of the water system for the convenience of the lot owners in the sections bordering Parker Street and Great Road was completed during the Fall season.

A number of large stumps were removed from burial lots and all damage done by these removals has been repaired and is now ready for Spring seeding.

The shrubs throughout the cemetery have been trimmed and all shrub beds weeded and cultivated. Weed killer was applied on the avenues and several graves were filled and repaired.

In conclusion, we take this opportunity of thanking the people for their cooperation during the past year.

Respectfully submitted,

ERNEST E. JOHNSON,
G. W. FOWLER,
JACOB LAURILA,
Cemetery Commissioners

Report of Superintendent of Glenwood Cemetery

To the Cemetery Commissioners:

I herewith submit the report of the Superintendent of Glenwood Cemetery for the year 1946.

The discontinuance of wooden boxes for interments is now beginning to show results. By systematically repairing sunken graves and the continual use of vaults, the lots are in much better condition and more pleasing to the lot owners. A great

saving will also be made to the town in both labor and material in the future on account of fewer sunken graves.

A number of markers have been reset and weed killer applied throughout the cemetery. Several large stumps were removed from burial lots and all shrubs trimmed and weeded. Many of the larger trees were also trimmed during the winter months and all underbrush bordering the cemetery was cut and burned.

I take this opportunity of thanking the Commissioners for their kind help during the past year.

Respectfully submitted,

ROY E. MARSDEN,
Supt. of Glenwood Cemetery

Assessors' Report

To the Board of Selectmen:

The annual report of the Board of Assessors for the year 1946, is herewith submitted.

In accordance with the provisions of General Laws, Chapter 59, Section 29, all owners of taxable property shall each year on or before the 31st day of January, submit to the local Assessors, a list with the valuation of all their taxable property.

Notices were posted before January 1st in many public places of the Town, and forms may be obtained by making application at the Assessor's Office in the Municipal Building.

All Male inhabitants who have reached the age of 70 years before January 1st, 1947 who wish to be exempted from the payment of a Poll Tax, must make a request in writing on a form furnished at the office of the Assessors.

Veterans — World War II, Bonus Certificates

In order for the Veterans to receive their bonus it is necessary that the Assessors certify that they resided in the State 6 months previous to their enlistment or induction into the Service. The number certified in the 1945 report was 578. During 1946 this has been increased to 920 and many more yet to come.

During the year 1946 quite a number of Houses, Garages, and other Buildings, have been under construction.

Town Clerk's Report

For the year ending December 31, 1946

Information desired, not printed herein, will be courteously
supplied upon request to the Town Clerk.

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Election

Held March 4, 1946

The Annual Election of Town Officers was held in George Washington Auditorium on the above date pursuant to Town Warrant No. 407.

The polling place was prepared by the Town Clerk in accordance with the provisions of the General Laws.

Moderator Ralph B. Smith presided. The ballots and check lists containing the names of 3,668 voters were delivered to the ballot clerks and a receipt given to the Town Clerk therefor.

The following Ballot Clerks were sworn by the Town Clerk.

Area A to L

Hiram Parkin	Bertha L. Davis
Mary E. Schnair	Rachael Lester
Alyce Murphy	

Constable Edward S. Johnston at the Ballot Box

Robert G. Jackson acted as substitute at Gate and Box

Area M to Z

Helen McDonald	Beverly G. Fulton
William P. Rourke	Helena M. Murphy
Myrtle Whitney	

Constable Henry F. Piecewicz at the Ballot Box

The ballot boxes were examined by the Moderator and the Town Clerk. The registers set at 0000 and the keys placed in the keeping of the Constables who held them throughout the day.

At 8 o'clock A. M. the Moderator called the meeting to order. On motion of Lester F. Cowle it was voted to waive the reading of the warrant.

Tellers appointed by the Board of Selectmen and sworn by the Town Clerk were as follows:

Arthur F. Croft	Elsie P. Brayden
Robert Duggan	Elizabeth Farrell
Martha Champagne	Alice C. Smith
Dorothy E. Hamlin	Eva H. Evers
Phylis P. Savikoski	Helen Hinds
Mabel Bemis	Mary E. Worden
Laura Quinn	

TABULATORS

Roberta A. Grigas

Alice L. Joyce

Counting began at 1:45 o'clock P. M. it being deemed advisable so to do by the Moderator and Town Clerk.

The polls were closed at eight o'clock.

The total number of ballots cast was 2314.

The register on the box in Area 1 indicated 1203 which was one more than the actual number. During the afternoon the officer at the box reported a ballot caught in the rollers and was registered twice.

The register on the box in Area 2 indicated 1114.

A ballot torn in this box caused the over register. The check lists each showed that 1202 names were checked in Area 1 and 1112 in Area 2.

The result was announced at 9:45 o'clock by the Town Clerk as follows:

Attest:

FRANK E. SANDERSON,
Town Clerk.

March 5, 1946.

In accordance with the provisions of Section 19 of Chapter 41 of the General Laws of Massachusetts, I hereby appoint Eleanor Jones of said Maynard, to be Assistant Town Clerk

during the current municipal year, or until this appointment is revoked.

FRANK E. SANDERSON,
Town Clerk of Maynard.

I, Eleanor Jones, above named, do solemnly swear that I will faithfully perform the duties devolving upon me as Assistant Town Clerk of the Town of Maynard, Massachusetts.

ELEANOR JONES,

Subscribed and sworn to this fifth day of March, 1946,
before me,

FRANK E. SANDERSON,
Town Clerk of Maynard.

A true copy,
Attest:

FRANK E. SANDERSON,
Town Clerk.

Proceedings of Town Meeting

Held at George Washington Auditorium — March 11, 1946.
Town Warrant No. 408

A town meeting was held on the above date to make appropriations for the ensuing year and to act on such other business as might properly come before the meeting according to the articles of the warrant.

Moderator Ralph B. Smith presided.

The meeting was called to order at 7:30 o'clock P. M.

On motion of R. Frank Punch — Voted to waive the reading of the warrant.

Article 1. Joseph P. Dineen of the Board of Selectmen read a report for the committee appointed September 24, 1945 to engage engineering services for the purpose of designing plans for a storm drainage system in the southeastern section of the town. The report and plans were filed with the Town Clerk. On motion of R. Frank Punch — Voted to accept the report as one of progress.

Lester F. Cowle read a report for the Committee appointed August 21, 1944 to investigate the removal of rubbish, ashes, etc. The report was filed with the Town Clerk. On motion

of R. Frank Punch — Voted to accept the report as one of progress.

Harold J. Morgan read a report for the Finance Committee. The report was filed with the Town Clerk.

On motion of William Naylor — Voted to receive the report.

Article 2. The Moderator announced the following appointments to the Finance Committee for three years:

Irvin A. Howe, Sworn March 29, 1946
 Ralph L. Sheridan, Sworn March 11, 1946
 Thomas J. Duggan, Sworn March 16, 1946

Article 15. On motion of William Naylor — Voted to transfer \$300.00 from Water Department surplus to be used for Water Department Maintenance.

The meeting adjourned at 8:22 o'clock P. M.

FRANK E. SANDERSON,
Town Clerk

Proceedings of State Election

Held November 5, 1946

The voters of Maynard cast their ballots on the above date for State County and District Officers, and on the several questions on the ballot from 8 o'clock A. M. to 8 o'clock P. M. at the George Washington Auditorium pursuant to Town Warrant No. 411.

The polling place was prepared by the Town Clerk according to the requirements of the General Laws.

Ballots and check lists containing the names of 3829 voters were delivered to the ballot clerks and a receipt taken there for.

Olavi Warila, of the Board of Selectmen acted as Presiding Officer and declared the polls open at 8 o'clock A. M. following a vote duly made and seconded to waive the reading of the warrant.

The following election officers, appointed by the Board of Selectmen were sworn by the Town Clerk.

	Gate 1 — A to L	
Bertha L. Davis	Timothy T. Hickey	Mary E. Schnair
	Box 1	
Phyllis P. Savikoski	Michael Zapareski	Agnes W. Driscoll

	Gate 2 — M to Z	
	William P. Rourke	
Martha L. Champagne		Helen V. McDonald
	Box 2	
	Henry L. Piecewicz	
Grace M. Stokes		Helena M. Murphy
	Tabulators	
Myrtle Whitney		Eleanor M. Tobin
	Tellers	
Arthur F. Croft	Charles Weckstrom	
Elsie P. Brayden	Laura Quinn	
Hiram Parkin	Dorothy E. Hamlin	
Mabel A. Bemis	Vieno L. Heikkila	
John M. French	Ralph B. Smith	
Leo J. Noon	Alice L. Joyce	
Elizabeth M. Farrell	Alice C. Smith	
Helen M. Hinds	M. Eleanor Sheridan	
Eva H. Evers	Mary Mayberry	
Mary E. Coughlan		

The ballot boxes were examined by the Presiding Officer and Town Clerk declared empty, the registers set at 0000 and the keys delivered to the Constables in charge of the boxes during voting hours.

Counting began at ten o'clock A. M. and continued throughout the day.

The polls closed at 8 o'clock P. M.

The total number of ballots cast was two thousand eight hundred and one (2801) of which sixteen were absentee ballots. The register on the ballot box in Area 1 (A to L) indicated 1454.

The Constable in charge of this box reported that the register rang twice on one ballot.

The register on the ballot box in Area 2 (M to Z) indicated 1349 which was one more than the number of ballots. Folding and badly folded ballots caught in the rollers caused

The ballot being extra large, caused some voters trouble in the register to indicate one more than the actual number of ballots cast.

The check list showed two thousand eight hundred and one (2801) names scheduled as having voted.

The result was announced by the Town Clerk at 12:30 A. M. Nov 6 and was as follows:

Governor

QUESTION NO. 1
LAW PROPOSED BY INITIATIVE PETITION

Shall this measure, which by amendments of the General Laws (Ter. Ed.), provides for payment by the Commonwealth of adequate pensions to deserving citizens sixty-five years of

age or over in need of relief or support, who shall have resided in the Commonwealth not less than five years immediately preceding the date of application for such pension, and who shall have resided in the Commonwealth continuously for one year immediately preceding said date of application, which is further described as follows:

The measure, by amendments of General Laws (Ter. Ed.), c. 6, provides for an old age pension commission of three persons, one to be a qualified physician, another to be an attorney at law and a third to be a non-professional person, who are to be appointed and may be removed for cause by the Governor with the advice and consent of the Council, and are to serve under the Governor and Council. Not more than two members of said Commission shall be members of the same political party. Original appointments of members shall be for one, two and three years respectively, and thereafter appointments are to be for three years. Such members are to devote their whole time to the work of the Commission during business hours and be engaged in no other business, occupation or profession. One of their number is to be designated as chairman by the Governor and shall receive a salary of \$6,000, and each other member \$5,500 per year, with their necessary expenses. The commission is empowered to make and enforce rules and regulations as it may deem necessary in the performance of its duties and as may be approved by the Governor and Council.

The measure strikes out Chapter 118A of the General Laws (Ter. Ed.), and inserts in its place a new chapter entitled "Adequate pensions for certain aged citizens."

It is provided that pensions hereunder shall be paid from the date of application therefor, but in no event before the applicant reaches the age of sixty-five. The Commission shall render a decision in not less than thirty days from the date of application for a pension or a request for an increase of the amount thereof. Such pension shall, wherever practicable, be paid to the aged person in his own home or in lodgings or in a boarding home, which for the purposes hereof shall include any institution providing shelter, care and treatment for aged persons which is not supported in whole or in part by public funds: provided, that no inmate of such a boarding home or institution shall be eligible for a pension under this chapter while being cared for under a contract. Such pension shall be paid by check or in cash which shall be delivered to the pensioner at his residence, if he so requests, and shall be paid semi-monthly unless the pensioner prefers less frequent payments. Such pension shall be on the basis of need and the amount thereof shall be determined in accordance with budgetary standards established by the Commission. Budgetary standards shall be such as to enable an individual pensioner to maintain a standard of living

compatible with decency and health. Such pensions, except as hereinafter provided, shall be at the rate of not less than \$48.00 monthly. The pensioner's budget at such times as may be required shall include medical care, if recommended by a recognized physician, eye-glasses, if recommended by a recognized optician, dental care and false teeth, if recommended by a recognized dentist.

In computing the pensioner's payment under this chapter, the Commission shall deduct from the pensioner's budget or the minimum payment, whichever is greater, the amount of income the person paid or to be paid a pension hereunder may be receiving from any source, and may deduct therefrom such reasonable amount as may be deemed to represent the financial value of board, lodging or other assistance which is being furnished to such persons from any source.

Upon the death of a person drawing a pension, whose funeral cost does not exceed the sum of two hundred and fifty dollars and in whose estate there are insufficient assets to cover the full cost of the funeral, the Commission shall pay the funeral director the difference between the assets and the cost of the funeral, a sum not exceeding one hundred and twenty-five dollars.

Expenses for medical, hospital and other services rendered to a pensioner, which remain unpaid at the time of his death or commitment to an institution as an insane person, shall be paid directly to the person rendering such services.

No pension under this chapter shall be discontinued nor shall the amount thereof be decreased until the expiration of fifteen days after notice has been given by the Commission to the pensioner.

Provision is made by which a person receiving a pension may be absent from the Commonwealth on a visit without having such pension suspended.

It is provided that General Laws (Ter. Ed.), c. 273, § 20, which relates to the support of parents by children, shall not apply when parents are eligible to receive a pension.

Provision is made that there shall be set up in the Commission a subdivision of appeals under the jurisdiction of a supervisor of appeals. Any person aggrieved by the failure of the Commission to pay an adequate pension under this chapter, or by the failure of the Commission to approve or reject an application for a pension or a request for an increase in the amount thereof, within thirty days after receiving such application or request, shall have a right to a fair hearing, after due notice, upon appeal to the subdivision of appeals in the form and manner prescribed by the commission; provided that such appeal is received by the subdivision of appeals within sixty days after official notice of the action taken by the Old Age Pension Com-

mission has been received by the applicant or pensioner. The decision of the subdivision of appeals shall be final and binding upon the Commission.

The Commission or any interested person aggrieved by any decision in any proceeding before the subdivision of appeals may obtain judicial review of such decision by filing, within twenty days of the date of mailing of such decision, a petition for review thereof in the district court within the judicial district wherein the pensioner or the applicant for a pension lives.

In any proceeding for review the findings of the subdivision of appeals as to facts shall be conclusive, such proceedings shall be heard in a summary manner and given precedence over all other civil cases. From the decision of a district court upon review an appeal may be taken to the Supreme Judicial Court.

The possession by an applicant for pension under this chapter of assets consisting of cash, active securities or inactive securities, or any combination of such assets, shall not disqualify him from receiving such pension; provided, that the total of such assets, figuring the present cash value of such inactive securities at the sum determined by the Old Age Pension Commission, does not exceed the sum of \$300.

A person is not to be disqualified from receiving a pension because of the ownership of an equity in vacant land from which there is insufficient income to provide for his budgetary needs or minimum payments, or the ownership of an equity in real estate by an applicant who resides thereon or who, in the opinion of the Commission is residing elsewhere because of physical or mental incapacity, provided that if such equity on the basis of assessed valuation exceeds an average of \$3,000 during the five years immediately preceding application for the pension, the applicant shall execute a bond in the penal sum for the amount of the equity in excess of \$3,000 conditioned on repayment to the Commonwealth of all amounts paid as such pension without interest, such bond to be secured by a mortgage on the applicant's real estate. Provision is made for the recording of such bond and mortgage without a fee and the apportionment of the proceeds realized from any of them between the Federal government and the Commonwealth.

A person is not to be disqualified from receiving a pension by reason of the ownership of a policy of group insurance or of a policy of insurance in an amount not exceeding \$1,000 or of a policy of insurance in an amount not exceeding \$3,000, having a cash surrender value not in excess of \$1,000, if such policy has been in effect not less than fifteen years.

No pension shall be granted to an applicant who at any time within five years immediately prior to the filing of an application for such pension has made an assignment or transfer of property so as to render himself eligible to such

pension. No pension shall be subject to trustee process or assignment, and no applicant for a pension, who knowingly makes any false statement or perpetrates any fraud or deception in relation to his application, shall be granted any pension nor be eligible for one during one year thereafter. A person, his executor or administrator shall be liable in contract to the Commonwealth for expenses incurred by it for a pension paid to such person under this chapter if such person or his estate is in possession of funds not otherwise exempted thereunder.

If an application for a pension under this chapter is effected by the eligibility of the applicant to receive aid under General Laws (Ter. Ed.), c. 115, which relates to State and Military Aid and Soldiers' Relief, the applicant shall be entitled to exercise such options and execute such waivers as may be necessary to receive the pension which he seeks.

All cities and towns in the Commonwealth shall furnish suitable headquarters for the carrying out of the duties of the commission in such cities and towns.

The measure further provides that there shall be established and set up on the books of the Commonwealth a separate fund, to be known as the Old Age Pension Fund, consisting of receipts credited to said fund under General Laws (Ter. Ed.). 64B, G. L. (Ter. Ed.) c. 128A, § 15, as amended, G. L. (Ter. Ed.) c. 138, § 27, as amended, and all proceeds of taxes assessed under Acts of 1941, c. 729, § 9 and 9A.

The Old Age Assistance Fund as in force immediately prior to the effective date of this act is hereby continued in existence, but shall hereafter be entitled "The Old Age Pension Fund."

It is provided that all civil service employees in the Department of Public Welfare of the Commonwealth, including the supervisor, referees and employees of the subdivision of appeals in said department or of any city or town, employed in the administration of the Old Age Assistance Law on the effective date of this proposed measure, shall be transferred to the service of the Old Age Pension Commission, retaining their present civil service seniority retirement rights and any step increases from the minimum pay of their grade earned during their service with said department or said bureaus.

It is provided that all records and property used in the administration of the Old Age Assistance Law and which are the property of the Commonwealth are to be transferred to the Old Age Pension Commission.

This act shall take effect on March first, nineteen hundred and forty-seven, —

which proposed law was approved in the House of Representatives by a vote of 125 in the affirmative and 79 in the negative, and on which the Senate did not vote,
— be approved?

FRANK E. SANDERSON,
Town Clerk

NOTICE

All dog licenses here listed expire March 31, 1947.

Dogs must be licensed on or before April 1st or the owners or keepers thereof are liable to a fine.

The law applies to all dogs three months old or over, regardless of time of year ownership is acquired.

No tax bills are sent to owners of dogs.

Dog Licenses for the Year 1946

Issued to the Following Persons:

392	MacArthur, Willard	55	Kane, William J.
393	Colombo, Michael	56	Musgrave, Elizabeth
1	Newman, Chris	57	Barras, Rose
2	Croft, Herbert R.	58	Veracka, Adam

NOTICE

Chapter 440 of the Legislative Acts of 1938, require the Board of Registrars to list all persons twenty years of age or over, thereby making necessary a canvass in January of each year.

Persons who fail to give full and correct information, may cause difficulty and inconvenience to members of their household, especially if names not given are of registered voters, as names not listed in the annual canvass must be removed from the voting list by Registrars.

Co-operation on the part of householders is therefore respectfully solicited in order that lists may be as correct as possible, thus preventing inconvenience or injustice to any voter.

FRANK E. SANDERSON,
Town Clerk.

Report of The Board of Registrars of Voters

To the Board of Selectmen
Gentlemen:

The Board of Registrars submit the following report.

The Annual Listing of all persons twenty years of age and over, as required by the General Laws, was made by the following, who were appointed Assistant Registrars, and sworn by the Town Clerk, Anthony T. Grigas, Leon E. Frye, Bridie A. King, Maybelle Whalen, Bertha L. Davis and Bertha O'Toole. The Town Clerk, Robert G. Jackson and Alexander J. Bourke of the Board of Registrars also canvassed.

The printed books containing the names and addresses of the 5,240 persons listed, was completed and ready for distribution May 23rd.

Reginald Jones, appointed by your Board to succeed Robert G. Jackson, was sworn in as a Registrar May 10, 1946.

The following changes occurred in the voting list during 1946,

	Men	Women	Total
Voters Registered Jan. 1, 1946	1876	1809	3685
Registered in 1946	227	132	359
	2103	1941	4044
Removed			
Not listed	118		
Deceased	72		
Married	25		
	119	96	215
Total Registration Dec. 31, 1946	1984	1845	3829

Nomination papers filed with the Registrars numbered twenty-four and contained 1282 names of which 896 were certified.

Respectfully submitted,

JOHN C. BRAYDEN, Chairman
ALEXANDER J. BOURKE,
REGINALD JONES,
FRANK E. SANDERSON,
Board of Registrars of Voters

Report of Water Commissioners

To the Board of Selectmen:

Gentlemen:

The report of the Water Commissioners for the year ending December 31, 1946 is herewith submitted. The report of the Superintendent and Water Registrar is included. This is the fifty-eighth annual report of the Water Department.

Early in the year Mr. Naylor, the superintendent, brought to our attention, that, in accord with the rules of the pension system, he would be required to retire by the end of 1946. He suggested that some one be chosen to act as assistant to the superintendent with the idea of taking over the position if he should prove satisfactory. As the Superintendent of this department is also superintendent of the Sewer Department a joint meeting of the two departments was called to make any necessary arrangements. Several joint meetings were held and several applicants were interviewed. In a meeting held in April it was decided to appoint Peter T. Peterson to assist in the work and to get acquainted with both the water and sewer systems under Mr. Naylor. December 14, 1946 at a joint session of the two departments a meeting was held and Mr. Peterson was appointed to the position of Superintendent and Water Registrar by the Water Commissioners and as Superintendent of Sewer by the Sewer Commissioners. Mr. Peterson was bonded for \$10,000.00 as Water Registrar;

On retiring Mr. Naylor was requested to make the report of the water Superintendent for the year 1946. He has offered to give any assistance at any time that he is needed.

We had expected that the Recording System would be in operation this year but we have not been able to get the recording instruments.

The truck, for which an appropriation was made this year has been purchased.

An extension of the main pipe on Driscoll Ave. has been made.

It now appears that the land adjacent the reservoir lot will become the property of the town by tax title, and some of this land should be taken as part of the reservoir lot. The observation tower at the reservoir does not appear to be of any further use and it would seem best to have it removed.

The Gasoline Driven Unit at the old Pumping Station has been sold and most of the ten inch Transite Pipe, which was left from the new force main has been sold.

A six inch connection has been made to hydrants and building of the Conservation Department at White Pond. This at their expense.

An extra appropriation of \$300.00 was voted for maintenance and the Finance Committee transferred \$150.08 to this department. This was necessary even though there were sufficient funds, but in the labor account.

The bills approved this year, for maintenance \$10,592.03; for New Truck \$1,081.82; and for main extensions \$578.21.

The estimate for maintenance for 1947 is \$11,695.00

Special funds remaining for the use of this department are; for Water main construction and replacement \$2,122.04; equipment for Pumping Station \$500.00 and for Flow recorder \$1,738.67.

Respectfully submitted,

GAVIN TAYLOR
EDWARD J. BOULDEN
JAMES J. BAKUM

Water Commissioners.

Report of the Superintendent

To the Board of Water Commissioners:
Gentlemen:

The report of the Superintendent and Registrar of the Water Department, for the year ending December 31, 1946, is herewith submitted.

January 1, 1946 the water in the pond was 17½ inches below full pond, March 25 the pond was full, August 31, 22½ inches down, and December 14, the water was 41 inches below full pond.

We have not been able to purchase the instruments for cutting out the motors at White Pond.

The new system has been in service for four year and eight months and has operated very satisfactorily.

The gasoline driven pumping unit at the old pumping station has been sold.

453 feet of 10 in Transite pipe has been sold.

The recording instruments which were ordered two years ago have not been delivered.

No work has been done at the reservoir this year.

The observation tower at the reservoir, which is not in use, has become a problem as it is being torn down at times by boys. It would seem best to take it down.

The water main on Driscoll Ave. has been extended 180 feet to the property of John Walsh.

598 feet of 6 inch Transite pipe was bought and placed in the yard.

At the Conservation Department, near White Pond, two hydrants and the building have been connected to our system.

Three hydrants have been broken during the year, one was broken by the snow plow and two by autos.

Fourteen new services have been added this year, making 1,568 now in use. Twenty services have been relaid, 13 have been cleaned, 9 have been repaired and 9 new cellar stops have been put in.

The new building of the United Co-op Society on Main St. has been connected with a 6 inch fire service.

Ten new services have been metered, making 1,544 now in use, 85 meters have been repaired.

Two leaks in mains have been repaired, one on Acton St. and one on Main St.

A new truck was bought in October, this is a one ton truck with an express body.

PUMPING RECORD

	Gallons	K. W. Hrs.
January	9,614,000	12,420
February	8,766,000	11,490
March	10,063,000	13,090
April	10,024,000	12,650
May	10,677,000	13,040
June	11,719,000	12,260
July	12,396,000	13,070
August	11,240,000	12,020
September	10,974,000	11,880

October	12,186,000	13,320
November	12,176,000	13,490
December	12,522,000	14,090
	<u>132,357,000</u>	<u>152,820</u>

Average daily consumption	362,622 gallons
Average daily per person for 6,500	55.7 gallons

On leaving the position of Superintendent of the Water Department I would like to mention the following facts:

Appointment was made June 23, 1905 and the Water Commissioners at that time were B. J. Coughlin, Robert W. Carter and William Cullen. Mr. Coughlin is the only one living at the present time. Other commissioners who served on the Water Board for long terms are; John Lawton, who served from 1907 to the time of his death in 1926; O. S. Fowler, from 1912 to death in 1927; James J. Mahoney, from 1925 to 1946 when he retired on account of sickness; Christopher Wilson, from 1929 to the time of his death in 1944. Gavin Taylor has served on the Water Board since his appointment in 1909 to the present time about 38 years.

I should like to pay tribute here to the two men who have been with the department for long terms. James Lent has been in the employ nearly all my term of office and John Kapon has been employed for many years.

A used pumping engine was installed in 1921 and was operated until 1932 when a Deisel Pumping Unit was installed and a Gasoline Driven Pumping Unit was installed for a standby pump. These plants were operated until it became necessary to secure a larger flow of water. In 1942 the new Pumping Station was built at White Pond and a 10 inch force main was laid from the old Pumping Station to the new Station at White Pond.

In 1928 some of the land around the Pond was purchased and later the remainder of the land was acquired.

About 1926 a 10 inch water main was laid from the reservoir to Summer Street and on Summer Street to Nason Street.

In 1905 there were 714 house services, now there are 1,568.

In 1923 the meter rates were reduced from 37½ cents to 26 cents per 100 Cubic Foot and in 1931 they were reduced to 20 cents per 100 Cubic Feet.

In 1905 the revenue from water was \$11,099.58 and 1946 the collections are \$21,745.37.

The net Water Debt in 1905 was \$94,632.84 and at the present time \$15,000.00 remains to be paid on the new Pumping Station.

The last appropriation made from taxes, for the Water System, was made in the year 1908, since then there has been appropriated from Water Department Surplus about \$100,000 for other departments use.

In closing I wish to express my appreciation for the men who have served on the Water Board during my term of office and also for the men who are now serving.

For the men who have been employed in the department I express my thanks. For the new Superintendent I wish a successful administration.

Respectfully submitted,

WILLIAM NAYLOR,
Superintendent, Retired

Report of the Sewer Commissioners

To the Board of Selectmen:

Gentlemen:

The seventeenth annual report of the Sewer Department for the year ending December 31, 1946, is herewith submitted. The superintendent's report is also included.

Soon after the first of the year, Mr. Naylor the Superintendent, informed us that he would be required to retire at the end of the year as the Retirement System provides that a person at 70 years must be retired.

After interviewing several applicants for the position, it was decided, in conjunction with the Water Commissioners, to appoint Peter T. Peterson to act as assistant to Mr. Naylor so that he could take the position if he proved satisfactory. At a joint meeting with the Water Commissioners, held December 14, Mr. Peterson was appointed as Superintendent as Mr. Naylor retired at this time. The superintendent's report will be made by Mr. Naylor.

Requests for extending the Common Sewer to connect property on Fairfield Street and on Thompson Street were received and at a special meeting the Sewer Commissioners were authorized to make these extensions. A request to extend the Common Sewer on Moore Avenue has also been received.

The Common Sewer on Vernon St., 350 feet was laid, and on Great Rd. from Percival St. westerly 739 feet and Espie Ave., 54 feet. 200 feet has been laid from the Pumping Station to Powder Mill Road.

Total length of Common Sewer to date 13.4 miles.

Twenty-five house connections have been made this year making the number in use 966.

At a special town meeting \$1,200.00 extra was appropriated for maintenance.

The following expenditures have been approved this year:

Maintenance	\$6,546.72
House Connections	1,370.98
Great Road Westerly	3,278.68
Great Road to Thompson	162.40
Vernon Street	970.04
To Powder Mill Road	662.12
Butler Avenue	303.00

Appropriations recommended for 1947:	
Maintenance	\$6,940.00
House Connections	2,000.00

Respectfully submitted,

ROBERT R. HATCH,
 THOMAS H. TIERNEY,
 WALTER R. DENNISTON,
 Water Commissioners

Report of the Superintendent of Sewers

To the Board of Sewer Commissioners
 Gentlemen:

The report of the Superintendent of Sewers for the year ending December 31, 1946 is herewith submitted.

Although pipe was ordered early in the year, it was not until September that pipe was delivered. This delayed the work on sewer extensions which had been planned.

The Common Sewer on Vernon Street, 350 feet, has been laid and the Sewer on Great Road from Percival St., 739 feet westerly, has been put in. Fifty-four feet was laid on Espie Ave. About 200 feet of the Common Sewer from the Sewer Pumping Station to Powder Mill Road has been laid.

The Common Sewers authorized this year by vote of the town are, Thompson St. 250 feet; Powder Mill Road from Pumping Station 300 feet and a Sewer to service Fairfield St. from Parker St. With the Common Sewers laid this year there are now 13.4 miles of Common Sewers.

A few stoppages in the house connections and in the Common Sewers have been cleared.

Twenty-five house connections have been made this year, making a total of 966 connections. Total length of connections this year 1,133 feet.

The sludge beds at the disposal plant have been resanded.

Location of House Connections made this year:

Butler Avenue	4	Forest Street	1
Chandler Street	2	Glendale Street	1
Charles Street	1	Great Road	1
Elm Street	3	Maple Street	1

Parker Street	1	Tremont Street	1
Powder Mill Road	1	Vernon Street	3
Spring Lane	1	Waltham Street	2
Summer Street	2		

Record of Pumping at the Powder Mill Road Pumping Station:

Total Flow for Year	84,154,400 gallons
Average Daily Flow	230,560 gallons

On retiring from the position of Superintendent of the Sewer Department the following facts will be of interest.

Appointment was made April 10, 1934 by the Sewer Commissioners, who were Thomas H. Tierney, Alex. J. Bourke and Harold Lyons.

Of the present board, Mr. Tierney has served during my term of office, Walter R. Denniston was elected in 1936 and Robert R. Hatch was elected in 1943. Since my appointment, 19,979 feet of Common Sewers have been constructed, 474 House Connections have been made; the Sewage system, owned and operated by the American Woolen Co., has been connected to the town system and the domestic sewage, from the Assabet Mills, has been taken into the system.

In 1934 the flow of sewage was 29,429,600 gallons and in 1946 the flow was 84,154,400 gallons.

The wages paid in this department have been higher than in other town departments.

On retiring I wish to express my heartfelt thanks to the Sewer Commissioners who have given me their loyal support during the entire term of office.

To the men who have been employed in the department, I wish to express my appreciation.

For the new Superintendent I bespeak my best wishes for his success.

Respectfully submitted,

WILLIAM NAYLOR,
Superintendent, Retired

Report of Middlesex County Extension Service 1946

Food Production was of the utmost importance during 1946 and the main effort of the Extension Service was along this line. Through meetings, radio, farm and home visits, county bulletin, news releases and calls in person and by telephone at the office, assistance was given to as many people as possible.

Fruit growers this year were interested especially in knowing more about frost damage and its prevention and the latest materials to use in spraying to overcome insects and diseases. Because of the wet season, there was a severe infestation of scab and growers required all the assistance possible to produce a good quality crop. Twilight meetings of interest to local growers were held in various parts of the county. Information was sent out to local papers and through town libraries as well as over the radio to help all those interested in home gardens.

Three projects were emphasized to assist those interested in poultry—namely, Better Use of Ranges; Brooding and Rearing; Disease Control and Sanitation.

Of interest to dairymen, the Selective Breeding Association and the Herd Improvement Association were developed and expanded during the year.

Because of the many food shortages experienced during the year, homemakers were given assistance to help them in problems in feeding their families the right foods essential to health despite the shortages. Demonstrations and illustrated talks were given on: When Meat is Scarce; Sugar-Saving Desserts; Use of Available Foods; Oil-Sparing Salad Dressings. Homemakers were interested in clothing renovation and Short Cuts and Speed Tricks in clothing construction. Food preservation was the main project followed during the summer to assist homemakers in the best procedure to insure satisfaction in home canning and preparation of foods for freezing.

MILTON DUCLOS,
Town Director.

Report of the Board of Retirement

To the Members of the Maynard Contributory Retirement System:

The Maynard Board of Retirement submits herewith the annual report of the Retirement System.

Six new members have been added during the year 1946, and five members have terminated their services.

A statement has been sent to each member giving his or her credit to December 31, 1946.

Respectfully submitted,

HAROLD J. MORGAN, Chairman
 GEORGE H. GUTTERIDGE, Treasurer
 ALBERT E. LUCOT, Clerk
 Board of Retirement

Report of Finance Committee

January 19, 1947

Board of Selectmen,
Maynard, Mass.

Gentlemen:

The report of the Finance Committee for the year 1946 is herewith submitted.

Fourteen meetings were held during the year. A majority of these meetings were held prior to the annual appropriation meeting. At these meetings budgets were discussed and conferences held with various department heads. Other meetings were held during the year as needed.

The Finance Committee would recommend to heads of various departments the importance of presenting a budget to the Finance Committee that to the best of their knowledge is a fair one for the proper maintenance of their department during the year. This budget should then be strictly adhered to. It is very apparent that many departments make no serious attempt to follow their budgets as presented and consequently find themselves without funds as the end of a year approaches. The Finance Committee would again point out that the Finance Committee Reserve cannot be used to supplement budgets except for extraordinary or unforeseen expenditures. Departments should also maintain proper records so that they would know at all times whether or not they were staying within their budgets.

The matter of wages and working conditions for town employees is one that has called for a great deal of discussion in committee meetings. It is the feeling of the Finance Committee that a survey of the whole matter of working conditions and wages of all town employees should be made. A set of rules could then be drawn that would define all conditions of Town employment. This could serve as a guide for all Town departments. This would make for uniform practices in all Town departments rather than having, as is now the case, each department making its own rules. At the same time the consolidation of several departments or of combining several of the part-time positions could be considered.

The matter of public services is also one that should have the attention of the tax-payer. If the tax-payer expects all manner of services without any special contribution on his part he must expect a high tax rate. Better sidewalks, roads,

street lighting, schools, police and fire protection, recreational facilities and other benefits of a like nature, must be paid for, if not by the direct beneficiaries by the tax payers as a whole. In other words the tax rate is set by the people as a whole depending upon just what services they expect the Town to furnish.

At the annual appropriation meeting for 1946 the Finance Committee made the suggestion that the so-called Town Farm property be surveyed, retaining that portion now used by the Town, and the balance sold. This suggestion is now repeated. It was the feeling of the Finance Committee that inasmuch as the income from this property was so small that advantage should be taken of today's high sales prices and the property sold. This would reserve for the Town that portion that could be used to advantage, benefit the Town treasury and bring in tax revenue from the new owners.

Transfers from Finance Committee were as follows:

Fire Department	\$500.00
John A. Crowe Park	400.00
Police Department (Cruiser)	450.00
Assessors	150.00
Selectmen (Veterans Adjust.)	89.20
Police (Veterans Adjust.)	199.84
Highway (Veterans Adjust.)	82.56
Cemetery	200.00
Alumni Field	500.00

Town Accountant's Report

Maynard, Mass., January 11, 1947

To the Board of Selectmen:

Gentlemen:

Herewith is the Annual Report of the Town Accountant for the year ending December 31, 1946.

The Financial condition of the Town continues to improve as the following comparisons illustrate:

	December 31, 1945	December 31, 1946
Cash on Hand	\$176,066.35	\$195,332.59
Uncollected Taxes	15,807.28	14,257.94
Unexpended Appropriations turned back to Revenue and Surplus accounts at the end of the year	20,306.14	15,782.27
Excess and Deficiency Account—Excess over Uncollected Taxes	91,961.49	113,491.32

The net debt of the Town accounts to \$88,000.00, which is about 1.65% of the Town valuation.

The courtesy and co-operation received from the various town boards, officials and employees has been gratefully appreciated.

Respectfully submitted,

ALBERT E. LUCOT,
Town Accountant.

A FAITHFUL AND LOYAL WORKER

Report of the Maynard School Committee

To the Citizens of Maynard:

It is with the utmost pleasure that the School Committee submits its annual report on the operation of the schools in Maynard.

The schools are considered to be in excellent condition both from the standpoint of repair of the buildings and the teaching personnel.

Due to the increase in the birth rate within the past five years an increase in enrollment can be foreseen. As soon as this increase makes it necessary, the Committee plans to re-open the Wilson School.

We wish to express our sincere appreciation to the Maynard Lodge of Elks for the gift of an American Flag and pole at Alumni Field. This gift met a long felt need. It serves as an inspiration to everyone who attends the sporting events held at the Field. The Committee plans to grade the area near the pole this coming spring.

The Committee brings to the attention of the citizens of Maynard the lack of facilities for recreation for the teen age of the town.

We believe that the replacing of the stands at Alumni Field is a very important matter. Consideration of the safety of the people who patronize the football games necessitates extensive repairs on the present stands and even after the expenditure of a large sum of money, the stands would be inadequate in every way.

It has also been the desire of the Committee to give attention to the yard in the rear of the Coolidge School. Estimates for regrading and eliminating the banking have been obtained. Due to more pertinent budget items, the work of grading and reconditioning these grounds will have to be postponed. A post-war project in Maynard may be a solution to this problem. A fence installed on the Parker Street side of the yard would contribute to the safety of the children.

Your Committee has been confronted with the salary problem the same as every other committee in the country. The teaching personnel has been very reasonable in its demands and it has followed democratic procedures in its requests.

For some time past it has been felt that a new salary schedule should be drawn up. The vote of the citizens last March

that women teachers employed in the same grades and doing the same type of work with the same preparation and training as men teachers should be paid at the same rate as men teachers, was a determining factor in drawing up the schedule. It was necessary to adjust the rate of the women teachers in the High School thus increasing the cost of salaries a total of \$1350. This was beyond the control of the School Committee.

In June a schedule was presented to the personnel to become effective in March 1947, retroactive to January 1, 1947. At that time the schedule compared very well with those of other communities of the same ability to pay. Between June and December, there was a nation-wide upward trend of teachers' salaries.

In December of 1946 the personnel presented a petition for an increase of two hundred dollars on the schedule of June. The committee was of the opinion that there should be a planned schedule by which the salary rate of each teacher would be determined and for this reason it was felt that the maximum of the salaries as presented in June should be revised and that teachers should be placed on the schedule as follows: teachers without a degree, with twelve or more years experience, now receiving \$1890 (maximum) would receive \$2,000 with a \$2,300 maximum to be reached by inservice training. Men teachers with a Bachelor's Degree receiving \$2440 maximum would receive \$2,500. Because of vote mentioned previously, this rate would also apply to women teachers with like training and experience. Recognition was given to those teachers who have secured a Master's Degree. Their rate shall be \$2600 with a maximum of \$2800.

Although this schedule (which we assume will become effective after the annual town meeting retroactive to January 1st, 1947) is the result of two revisions since January 1946, it is still below that of neighboring towns and communities with the same ability to pay.

For a more detailed account of the salary schedule, the work of your schools and the plans for the future, we refer you to the report of the Superintendent of Schools. Her report has our approval.

The members of the School Committee desire to express their appreciation to the Superintendent and the entire personnel for their cooperation during the past year.

OLIVER WARILA, Chairman
J. FRANCIS CLEARY
PATRICK A. McGRATH

Report of the Superintendent of Schools

To the School Committee and Citizens of Maynard:

It is again my opportunity and pleasure to submit my annual report as superintendent of your schools for the year nineteen hundred forty-six.

The report is in the form of a summary of my own work and that of the entire personnel.

PERSONNEL

Since January 1946 there were eight changes in the personnel. Two teachers left Maynard to teach elsewhere at higher salaries. Miss Helen Resca was a military substitute for Mr. Lawrence Lerer who returned from military service.

Miss Ethel Butterworth retired at the close of the school year in June. Following is a copy of the Resolution inscribed on the records of the School Committee.

“WHEREAS Miss Ethel R. Butterworth, having retired from service in the Maynard School Department July 1, 1946, the Committee wishes to acknowledge and express its appreciation of seventeen years of faithful, loyal and efficient service in the schools of Maynard.”

Miss Helen Cafantaris and Miss Dorothy Winchenbaugh resigned to be married.

Mr. William Reynolds and Mr. Reginald Sawyer resigned, following their discharge from military service.

The following appointments were made for September:

Mrs. Alice Cullen	Grade One	Roosevelt School
Miss Alice Jezak	Grade One	Roosevelt School
Miss Patricia Higgins	Grade Six	Roosevelt School
Mrs. Mary Gearin (Sub.)	Grade One	Coolidge School
Miss Pauline Simpson	Grade Four	Coolidge School
Miss Ann Kenneally	Commercial	High School
Mr. Frediano Mattioli	Mathematics	High School
Mrs. Ruth Clair	History	High School
Mr. Richard Lawson	Director of Physical Education	

The teachers were selected with much thought as to their qualifications and preparation. The results indicate that they are excellent additions to our staff.

The following teachers have pursued an In Service Training Program since January 1946.

Teachers	Courses
Walter J. Gavin	Methods in Mathematics for Secondary Schools.
Dorothy Tierney	Shakespearian Plays. American History of the Colonization Period. Types of World Literature.
Ruth Clair	Teaching Social Studies.
Ann Kenneally	Educational Psychology — Learning Difficulties
Bernard T. White	Methods of Educational Research Organization and Administration of Secondary Schools. Secondary School Curricula; Status & Trends.
Germaine St. Hilaire	Seminar in Secondary Education. Principles of Secondary Education. Secondary School Curricula; Status & Trends.
Marion Terrasi	Improvement of Reading.
Patricia F. Higgins	Teaching Social Studies in Elem. School.
Katherine M. Kinsley	Teaching Social Studies in Elem. School. Primary Education.
Katherine Sheridan	Improvement of Reading.
Elizabeth T. Holton	Educational Measurement.

SALARIES

The publishing of this report affords an opportunity of explaining in detail the Salary Schedule the School Committee has presented to the teaching personnel.

Plan of Revision

In May of 1945 the School Committee instructed the Superintendent to obtain information on salary policies of other communities of the same population and valuation as Maynard.

A questionnaire was sent out and the replies tabulated. The tabulation showed that there was need for an adjustment of salaries in Maynard and that the existing practices were outmoded and unsound.

The salary schedule is extremely important because it concerns the largest expenditure of the School Department Budget. It is not a political move and it is not an arrangement to please teachers. It should be drafted in keeping with the principles of a sound philosophy of education. A schedule developed with these purposes in mind should promote contentment among teachers, professional improvement, improved morale, better classroom teaching and a stronger school system. A schedule should be clear, definite, suited to the needs of the community and its ability to pay. A liberal policy will build a powerful school system.

The Committee was well aware of the provisions of the law in regard to the power and duty of School Committees to determine salaries, but it desired to follow the so-called democratic procedure followed in many communities in a salary revision. The Committee invited the teachers to submit a salary schedule which they felt gave full recognition to the qualities of a good schedule. In December of 1945 the teachers organized in a representative group consisting of the President of the Maynard Teachers' Club (Master's Degree), Elementary Principals (no degree but with more than twenty years of experience), High School Principal (AB Degree), Secretary and Treasurer of the Teachers' Club (BS and AB Degree). The Superintendent met with the committee and explained the interests of the School Committee and offered for the reference of the committee, the salary data collected. Later the School Committee met with the teachers' committee and received its recommendations. The schedule submitted by the teachers' committee was the POSITIONAL TYPE SCHEDULE which Maynard has had by tradition for many years.

Under the POSITIONAL TYPE SCHEDULE, the same pay is not given for the same preparation. Salaries are determined by POSITION. Salaries are based on experience alone. Discrimination is made between the elementary and the secondary teacher. The School Committee felt that a POSITIONAL TYPE SCHEDULE would not improve pre-service or inservice training of the teachers of Maynard.

There has been agitation for paying teachers according to their efficiency in the class room. If this could be done accurately and fairly, it would be ideal. In practice however, it is so objective that the individual judgment of the administrator controls it. Merit rating breeds discontent and a feeling of insecurity by the teachers.

The School Committee felt that the PREPARATIONAL TYPE SCHEDULE was the type which could best serve the needs of the educational policies of Maynard. A PREPARA-

TIONAL SCHEDULE recognizes the professional status of all teachers and encourages them to improve through continued professional training. Degrees do not, of themselves, produce efficient teachers. There are persons without degrees who teach effectively, but any teacher who makes use of all that has been learned in recent years about children and learning, will undoubtedly be an improved instructor and his classroom work will be more valuable. It is agreed that preparation is as valid a criterion and as important a factor in judging a teacher's merit as noting the number of years in the classroom. Many teachers make no progress after their first year. Each following year is but a repetition of the first year.

The services rendered by a teacher in the elementary school are fully as important to the community as those given by the teacher of pupils in the secondary school. Each child, regardless of grade, attending a public school is entitled to the same educational opportunities. One pupil is as valuable to the community as another. Teachers in the elementary school should receive the same salary as secondary school instructors when the PREPARATION and EXPERIENCE is the same.

Since teaching at various levels is of equal value and higher qualifications produce better teaching, THE REQUIREMENTS AS WELL AS SALARIES FOR ELEMENTARY TEACHERS SHOULD EQUAL THOSE FOR HIGH SCHOOL INSTRUCTORS.

Evidence can be produced to show that in communities with the PREPARATIONAL TYPE SCHEDULE there is greater improvement professionally than in communities where salaries are classified according to POSITION.

With the foregoing factors in mind, the School Committee drew up a salary schedule and presented it to the personnel in June of 1946, with the following statement of purposes and special reservations.

Purposes of the Salary Revision

- I. The purposes and functions of a salary schedule should be as follows:
 - a. To build confidence and morale in the teaching staff.
 - b. To provide incentives for better educational training.
 - c. To enable the School Committee to have a systematic scale for compensating the employees of the School Department.
 - d. To hold competent teachers in Maynard.
 - e. To secure outstanding teachers for the Maynard School System.

SALARY SCHEDULE
SCHOOL DEPARTMENT
Maynard, Massachusetts

1946 (Revised)			
	Class I	Class II	Class III
	Three Year's Training or Twenty Years Experience	Bachelor's Degree	Master's Degree
Step 1	\$1500	\$1600	\$1700
Step 2	1600	1700	1800
Step 3	1700	1800	1900
Step 4	1800	1900	2000
Step 5	1900	2000	2100
Step 6	2000	2100	2200
Step 7	2100	2200	2300
Step 8	2200	2300	2400
Step 9	2300	2400	2500
Step 10		2500	2600
Step 11			2700
Step 12			2800

Reservations of the Salary Revision

I. In order to qualify for and advance from one step to another, a teacher must take at least thirty hours (3 credits) of professional study which has had the prior approval of the School Committee and Superintendent of Schools and submit written evidence of having passed the courses. (Thirty hours of professional study shall be understood to be class recitation hours at a college or university and passed by an examination. It shall not include correspondence work, courses audited, or private instruction.)

II. In order to hold a salary step, a teacher will be required to pass within a five year period at least thirty semester hours (3 credits) of professional study approved by the Superintendent. Teachers who have reached the minimum retirement age may be excused from the requirement upon their own request.

III. It is the plan of the School Committee that the Schedule shall be effective following the Annual Town Meeting of March 1947 (retroactive to January 1947). Teachers shall be placed on the schedule in accordance with data in Superintendent's Office on September 1, 1946. Teachers in the system shall be placed on the schedule at the point nearest their present salary.

IV. Additional duties and responsibilities beyond those required of a classroom teacher and in excess of the normal requirements for extra-curricular activities may be paid for by

a small additional amount. The requirement and payment shall be at the discretion of the School Committee.

V. Secretaries, School Physician, School Nurse, Custodians, Substitute Teachers, Supervisors and Superintendent of Schools are not on the Salary Schedule. Their salaries shall be determined by the School Committee.

VI. Salary adjustments for duties of Principalship shall be at the discretion of the School Committee.

INSTRUCTION

Educational practices are changing because of new scientific insights into the learning process. One of the earmarks of a good educational program is the provision for individual differences.

For the past two years a definite program in remedial reading in the first four grades has been carried on. The success of the program as far as the fourth grade means that its procedures should be carried on in the upper grades.

Many causes of failure in reading are listed but one of the primary causes is pushing the children into a maze of signs and symbols called "words" before they understand the meanings and purposes of reading. For this reason the teachers have carried on in grade one a very carefully planned program of reading readiness. Some parents may be disturbed by the fact that the child is not given a book as soon as he goes to school. That is not the procedure today. Children are prepared scientifically and systematically for their first book.

In the second, third and fourth grades children read at their ability level. Just because a child has been in the first grade one hundred sixty days is no valid reason for him being able to accomplish the work of the grade at the end of the school year. Many times individual children do not "find themselves" until they have been in school three or four months. Then the child is ready to read. It is understandable that he cannot cover the work of the grade in the remaining part of the year, but his progress is satisfactory after he becomes adjusted and he should not repeat the first grade.

The second grade teacher takes him in September where he left off in June. This plan has been continued through the fourth grade and is eliminating many potential reading failures in Maynard.

Each teacher comes to school in September with plans for doing her very best for the children in her room. She may, however, fail to accomplish her goal because she is not aware

in detail of the children's background. Early in the Fall a teachers' meeting was planned for the teachers of the elementary grades. Each teacher was given an opportunity to tell, in the presence of all, what she expected the pupil to be able to do in Arithmetic when he entered her room. Many misunderstandings were eliminated or clarified. Following the meeting of all the grades the individual grades were taken and a program of work was planned for the following two months. The same procedure will be followed for English and the Social Studies in the very near future.

The Arithmetic books in the intermediate grades will be replaced as soon as they are available.

The appointment of a substitute teacher in the Junior High School has made it possible to reduce the size of the classes and thus provide for individual instruction for the pupils.

The teaching of Elementary Science in the seventh grade has met a long felt need. The children are very much interested in being able to explain their environment.

This year saw Maynard included among those schools which have adopted Manuscript Writing in grade one. The change has been very satisfactory to the teachers. The program was worked out on a cooperative plan with the teachers and superintendent in monthly meetings. Educational research has proven that Manuscript Writing is distinctly superior to Cursive Writing in its effect upon reading. Beginners need to familiarize themselves with one alphabet instead of two when reading and writing are taught at the same time. Young children learn manuscript writing with greater ease and speed than they do other types of writing.

The rate at which Manuscript Writing has been adopted during recent years warrants the prediction that it will become universal within the next ten years for primary grades.

It will not be possible for Maynard to postpone after 1947, the planning for special classes for the retarded and physically handicapped children.

The annual census showed that we have in the schools thirteen physically handicapped children.

Contacts have already been made with the State Department to ask that Maynard be given the benefit of a Speech Clinic. The services of someone skilled in speech training to advise the classroom teachers is needed in Maynard.

Maynard is furnishing home instruction for one child. Towns are now required by law to provide home instruction for any child who, in the opinion of the State Department of Education is eligible for it from a medical as well as mental point of view.

In January 1946 a definite program was developed in the High School for ascertaining the scholastic achievements of the pupils through tests which parallel our own courses of study.

The motive of the plan was two-fold: (1) to give the pupils experience in taking tests of one hour or more in duration, (2) to make them aware of their own deficiencies before they applied at higher institutions.

The results justified the continuance of the program bi-monthly.

As everyone is well aware, the war limited the availability of equipment. During the past year we have been able to purchase four new typewriters and approximately \$300 worth of Science Laboratory Equipment.

In October the State Department of Education notified the Superintendent of the tentative plans for a re-classification of the High Schools of Massachusetts which will probably be effective in 1947.

Briefly stated and summarized the following factors will enter into the classification: the efficiency of instruction and general intellectual and moral tone of the school, lighting, heating and ventilating of classrooms, methods of cleaning, general appearance of the schoolrooms, halls, yards, care of books and supplies, condition of blackboards and equipment, education of teacher, daily schedule and length of school day.

With the continuance of the program of repairs and supervision of instruction of recent years, there is no reason why Maynard will not be a Class A High School.

The one problem which was not solved to my satisfaction was the problem of guidance for high school pupils. Guidance is a part of all education and an essential part. Education deals with the entire phase of human life and human development; from the standpoint of society, it is the organized effort to change and develop the individual so that he may conform to society, take his place in it and improve it; from the standpoint of the individual, it is his conscious effort to adjust himself to his physical and social environment and secure his own highest development. Guidance deals with choices, with adjustments and interpretations.

In the past two years, due to the limitation of personnel, we attempted to give guidance through the home room, but all the factors involved in Guidance cannot be handled by all teachers.

Upon the return of Mr. Albert Lerer from the Armed Forces, Mr. White was named Director of Guidance. Since this annual

report is the only median of reaching the home, I refer you to a detailed report of Mr. White's plan for Guidance in the High School.

The schools in Maynard are being conducted on a plane which is conducive to the good of the children as well as the taxpayers. It is true we may not seem to have many of the "extras" given children of other communities, but I am convinced we are offering the children a good foundation.

There has been a great deal said about what should be offered in a high school program of studies. There are certain studies and certain procedures carried on in larger schools which cannot be carried on in Maynard because of the size of the school and the number of teachers on the faculty. However, in order that I might be sure that we were offering a program of studies that would give the high school students a good background, I sent a copy of the Maynard High School Program of Studies to A. Russell Mack, Supervisor of Secondary Education, State Department of Education. I have on file a letter commending special parts of the program with the following concluding sentence: "My general impression is that the program of studies as worked out is a very superior one."

MUSIC AND ART

Music instruction is begun in grade one. At that level the work is entirely rote experience. After a year and a half of imitative musical activity, the child is given a music book. Singing from the book and musical activity is continued through the elementary grades.

Music appreciation is included in all classes from the first grade through the senior high school.

Baton Twirling and Drum Majorette Instruction has been offered to the girls in the upper grades. Miss Colburn has given one evening a week to the supervision of the girls at the classes.

Miss Colburn has made many attempts to organize a band and has received little or no cooperation. I have personally made inquiries in schools where there are large school bands. I found that the uniforms and instruments are purchased by popular subscription and the instruction paid for by money raised by taxation.

From time to time we have had instruments donated to the school. These we have kept in good condition and have loaned them to students only to have them returned after three or four lessons. After the boys get to high school, they aspire to be-

come football players and are no longer interested in playing in the band.

The children have the benefit of Art Instruction in all grades.

Modern themes and outside interests are brought in at each grade level.

Maynard High School Students have submitted posters in various public sponsored contests.

Maynard schools were chosen by the Massachusetts School of Art (State Department of Education) for the practice teaching of one of its students.

HEALTH

Maynard schools have been remarkably free from epidemics. This condition is no doubt due in part to the vigilance of the teachers and school nurse and the excellent cooperation of the school physician.

Since January 1946 every child in the school system has had a physical examination by Dr. Hooper. Every pupil in the elementary grades has had a dental examination by Dr. May. Two hundred eighty-five notices of defects were sent home. A very small percentage of these defects can be cared for at the dental clinic. It is advisable that children see their own dentist rather than await their turn at the Dental Clinic.

Every pupil has been given the Snellen Eye Test. Those children who showed defective eyesight on that test were given the Telebinocular Test of Visual Efficiency. The parents of these children were notified of the results. The parents of Maynard are remarkably cooperative in their efforts to correct defects in their children.

Glasses were purchased for two children from the Eye Glass Appropriation.

PHYSICAL EDUCATION

Since the success of any individual depends to a great extent on his health and Physical Education is a contributing factor to good health, the Physical Education Program of the Maynard School is being developed with that definite purpose in mind.

Grades two through eight are having a period of Physical Education once a week. The program below the seventh grade depends on the weather in the fall and spring, due to the fact that there is no gymnasium in any of the elementary buildings. It is regrettable that the large vacant area in the basements

of the elementary buildings cannot be used because of their construction.

Each boy in the High School has the opportunity of having the benefit of Physical Education for two periods a week. Before a boy participates in Physical Education or a sport, he is given a complete physical examination.

In order that all boys will have opportunity to participate in some sport, intra-mural teams are organized in the Junior and Senior High Schools.

It is the plan of the School Committee that the girls will have the benefit of an organized program for the school year of 1947-48.

All major sports have been conducted. The receipts from football were very good this year which accounts for the balance in the accounts of the A. A. As faculty manager of athletics, Mr. White has been responsible for supervision of all receipts and expenditures.

HOME AND SCHOOL

A very successful Pre-School Conference was held last spring. In addition to the usual registration routine, the parents were introduced to the first grade teachers and the children were entertained by the first grade classes. While the children had their party, the parents were the guests of the Principals and Superintendent at a tea.

Following the tea, the Parents received a booklet which had been prepared by the Superintendent explaining the policies of the School Department.

The preparation of such a program involves much planning and the appreciation of the program by the parents was very gratifying.

The sole purpose of this day is to benefit the child. It is regrettable that some parents are indifferent to school organization. No one loses out by the attitude of the parent that registration is not important, but the child. It is true that if the child is of age we do admit him in September, but if we are not ready for him due to over-crowded first grades, he loses the opportunity of a good adjustment the first month of his school career.

It is regrettable that in Maynard there is no median through which there is a close contact between school and home. The School and Home Day held once a year fulfilled its purpose in the elementary grades, but not in the high school.

It is desirable that more parents of the high school pupils give the teachers an opportunity to explain their problems and by so doing, reach a better understanding of the child.

The Hallowe'en Party sponsored by the superintendent assisted by the teachers was one way of showing our interest in the children outside of the school room. The cooperation received from the veterans organization and the business men showed me that parents and townspeople are interested in what is done for their children.

MAINTENANCE

Only to that degree to which a school building contributes to the Safety and Health of the children who are there for five hours a day, does it contribute to the education of the child. The appearance of school buildings and their furnishings have a decided effect on the attitude of the children. The buildings and furnishings are much less abused when they are clean. The goal of painting every classroom within four years has been reached. This has been made possible by budget planning in December.

The policy of oiling classroom floors has been discontinued. Floor scrubbing and polishing machines have been purchased. These aid the custodians in doing a more thorough job in cleaning the floors.

The inadequacy of the heating system at the High School has been remedied in part by the purchase of a new boiler.

Much attention has been given to the condition of the toilet rooms in the High School. Because of the sub-standard physical and material construction of the building, the cost of thorough renovation is prohibitive. However steps have been taken to improve the appearance of the walls in the girls' toilet room by covering them with tile, and painting the toilet compartments a light color. The unsuitableness of the finishes and obsolescence of the fixtures in the boys' toilet room is acknowledged. It is planned to improve this condition as soon as fixtures and materials are available.

The stair wells of the High School are badly in need of renovation. The original fabric covering of the walls is still on the walls and cannot be repaired or painted again.

The lighting fixtures in the High School are obsolete and inadequate. The budget is so planned that this situation can be remedied as soon as fixtures are available.

The flag poles on all the buildings have been replaced as a safety measure.

Continued critical situations in labor, production, cost and distribution of material makes it very difficult to do anything but essential maintenance and repair work. For this reason the only major repair work anticipated for 1947 is the installing of new stairs at the Roosevelt, Coolidge and Junior High Schools.

The major repair work of 1948 will be the painting of the outside of all the buildings.

RECREATION

Again the Selectmen felt that the School Department should supervise the recreation of children. This was done during the summer. I feel that this year's program benefited more children than those for former years. This may have been due to the fact that a definite schedule of baseball games was carried on for the boys who were not interested in other games or in arts and crafts.

The older girls had the benefit of instruction in field hockey and basketball after school hours.

The swimming lessons sponsored by the Red Cross were well attended and the value acknowledged by all, particularly the parents.

Although there was no money expended from the Recreation Appropriation for the instruction in ballroom dancing that was given the Junior High School pupils, I feel that there has never been any phase of recreation in the town in which there has been so much interest.

Although the children paid for their lessons, there were one hundred ten pupils who signed for them. I doubt very much if there are many towns in the state where the junior high school teachers give up one night a week to supervise a recreation period for their pupils.

It is hoped that instructors can be found for an evening program of basketball for girls and boys of junior high school level.

Playground equipment was purchased for the Roosevelt School Grounds. This playground equipment has been a source of great enjoyment to the children attending the Roosevelt School as well as the small children in the neighborhood. It is regrettable that the swings and the pull-a-way are broken by older boys who frequent the playground after dark. Reports have been made that the damage is not an accident, but deliberate vandalism.

ALUMNI FIELD

The improvements at Alumni Field must of necessity be gradual. Previous to 1946, the appropriation was for mainte-

nance of grounds alone. In 1946 the Field House was painted on the inside. Constant vigilance has been given to the playing field.

The cable erected on the edge of the playing field was an improvement over the rope used in the past to keep spectators from the field. In 1947 the Committee hopes to replace the snow fence used on the other side by cable.

During the school year requests were received from outside groups for permission to use the showers and other facilities at the Field House. The Committee voted to restrict the use of the Field House to the School Department due to past experiences with groups over which we have no supervision, also to the fact that the salary paid the present custodian did not warrant asking him to give the extra time which would be involved if the Field House was used by outside groups.

The use made of the tennis courts this past summer justifies resurfacing the courts before the 1947 playing season.

Maynard is not faced with a local building program which is furnishing many other school boards with endless opportunities to honor the memory of the brave men and women who served in the armed forces and lost their lives during World War II. Unfavorable reaction against mere monuments of bronze or granite or testimonial days and dinners is justified. The memory of the achievements of war should contribute to a better community life and to the permanency of the peace.

It is with these foregoing points in mind that the School Committee recommends that serious consideration be given to the erection of grandstands at Alumni Field as an appropriate memorial to those who offered their life that the future generations of Maynard might be able to participate in that freedom of living which was the purpose for which this country was founded.

CONCLUSION

I would appreciate having this report interpreted as an example of the support and cooperation of each member of the School Committee and the entire school personnel. I am sincerely grateful for this good will.

I would also like to express my appreciation to Mr. Raymond Sheridan who has been most cooperative in matters requiring outside assistance.

Respectfully submitted,

MARY A. DOYLE,
Superintendent of Schools

Report of the High School Principal

Miss Mary A. Doyle
Superintendent of Schools
Maynard, Massachusetts

Dear Miss Doyle:

Although my return from Army Service to Maynard High School has been recent, I am happy to submit this annual report. I shall depend mainly on personal observations, staff conferences, and information suggested to me by Mr. Bernard T. White, Acting Principal during my absence.

Rapid changes in our social and economic life involve the difficult factor of adjusting education to new conditions. Unless we provide a program sufficiently flexible to meet many of the new situations as they arise, our school would fail to a large extent in contributing its fullest measure of service to our boys and girls. Upon us rests the responsibility of facilitating the adjustment which they must make if they are to appreciate life to the fullest extent and at the same time render the greatest possible contribution to their own development and to the improvement of society.

The minimum program of every secondary school includes the educational preparation for the special needs of those who presumably will continue their education or will enter specific fields of occupation immediately after they leave high school. In addition to this, however, every avenue for the continuation of general education should be kept open for those who still are not prepared to express a special educational or occupational interest.

Maynard has recognized this additional need and in keeping with modern trends in secondary education has offered two new courses in mathematics for the school year 1946-1947. The first, entitled, Senior Mathematics, is a refresher course. It was designed primarily to meet the needs of those seniors who should have a thorough review of basic mathematics before leaving high school. This course includes a rapid review of basic arithmetic, some elementary algebra and geometry, and an introduction to trigonometry. The second course Review Mathematics, was designed to meet the needs of those seniors who intend to study mathematics at the college level. It includes a thorough review of algebra and geometry and advanced work in these fields.

The guidance program is now being expanded to aid pupils further in studying their interests and abilities, and in shaping

the development of these along purposeful lines. At present a survey is being conducted to measure the fundamental areas of scholastic and industrial interest of each boy and girl in the senior class. They are encouraged to think seriously of possible vocations in which they may be interested and assistance is given them in securing and evaluating information concerning these occupations.

In the process of guidance and education the Maynard Courses of Study have been revised to help our youths not only to earn a living but also to intelligently participate in the affairs of a democratic society. The accumulation of facts that are basically sound requires inferences, judgment, and thinking. What one person has believed, said, or done must be weighed against the opinions of others on the same subject. The more experience in the analytical and evaluative processes the better prepared a student will be to arrive at basically sound and defensible conclusions. The courses of study, teaching techniques and objectives of the classroom are all pointed to obtain this worthwhile result. The real value of this cannot be immediately measured but it will be noticeable to the benefit of all in the social and civic conduct of our students in the future.

The success of this program in a large measure is due to the interest and ability of our faculty. The Maynard teachers have always had a personal loyalty to the school and have been conscientious in the performance of their duty. Many have been with us a long time and have become fine teachers through professional growth and experience. I am looking forward with renewed interest to our work together and know that the reward of seeing another group of Maynard Seniors taking its place in Society will more than compensate for the efforts we have made in its behalf.

In conclusion, I wish to thank you and the faculty of Maynard High School for the helpful reception you have given me on my return. Your cooperation has greatly assisted me in reorienting myself to my duties.

Respectfully submitted,

ALBERT LERER,
Principal

January 8, 1947.

Report of Director of Guidance

January 13, 1947

Miss Mary A. Doyle
Superintendent of Schools
Maynard, Massachusetts

My Dear Miss Doyle:

Although I have been serving in the capacity of Director of Guidance for a period of only one month, during this time I have formulated plans to develop a program of individual guidance.

The Group Guidance program established some years ago has stressed the social and personal aspects of guidance. It is my aim to augment the established program by giving the pupils access to information about work opportunities and educational opportunities in fields for which they are fitted.

At present a survey is being conducted to measure the fundamental areas of scholastic and industrial interest of each boy and girl in the senior class. When this survey is completed, individual counseling will be conducted not only to assist each pupil in securing and evaluating specific information concerning the occupation of his interest, but also in assisting him in choosing a university, college, or other school of higher learning.

In expanding the guidance program the following services are being utilized:

1. An Occupational Information Service
 - a. Information is assembled from authoritative sources, analyzed, and presented in monthly publications and services which can be used by the counselor and the student with whom he works.
 - b. This service brings to school a total of over 250 pieces of current career material and guidance literature.
2. A Self-Inventory Service by which the student discovers his interest in the following nine general areas:
 - a. Mechanical
 - b. Computational
 - c. Scientific
 - d. Persuasive
 - e. Artistic
 - f. Literary
 - g. Musical

h. Social Service

i. Clerical

3. A Personal Data Collecting Service by which we get an overall picture of the student. (Cumulative records are now being studied for the purpose of adapting one as a professional tool to be used in counseling the individual student.)
4. Although Placement Service and Follow-up Service are both important phases of a guidance program, only a limited amount of work will be attempted in these areas at the present time.

As a well-rounded guidance program requires a certain amount of testing, the Group Diagnostic Educational Battery consisting of six tests to diagnose learning strengths and weaknesses of grades 8, 9 and 10 were administered to the students of these grades last spring. These tests, administered by the Boston University School and College Relations Co-operative Testing Services, will be of value in aiding both the counselor and student in planning a high school course of study in line with the ability and achievement of the latter.

In effort to help the students of Maynard High School discover the kind of work in which they would be the most interested, what it had to offer, and what kind of training was required in furthering this interest, a Career Day was held on April 11, 1946. Before plans for this Career Day were completed, a questionnaire was prepared and circulated among the students in an effort to determine their major fields of interest. As a result of this survey, we found that the students showed a desire for more detailed information about the following:

1. Nursing
2. Secretarial work
3. Business training
4. Beauty culture
5. Pharmacy
6. Commercial art
7. Mechanical arts
8. Teaching

Representatives from the following institutions, in addition to presenting a group picture of the courses offered by their respective schools, conducted a meeting, a part of which was devoted to a discussion period:

St. Elizabeth's Hospital Training School for Nurses
 Katherine Gibbs School
 Fisher Secretarial School
 Mansfield Academy of Beauty Culture.

Boston University
Bryant and Stratton School
The School of Practical Art
Wentworth Institute
Framingham State Teachers College

In my position as Director of Guidance I feel confident that I shall find the same spirit of cooperation among the personnel as I experienced during the period I served as Acting Principal of Maynard High School.

For the wholehearted co-operation and helpfulness which I received from you, Miss Doyle, and from the School Committee, while I was discharging my duties as Acting Principal, I offer you my sincere appreciation. With this assistance I feel that I was able to maintain the same high standards of education that exist in other communities of the Commonwealth.

Respectfully yours,

BERNARD T. WHITE,
Director of Guidance

Graduation Exercises

Sunday Afternoon, June Sixteenth
at 3 o'clock

PROGRAM

Processional—Pomp and Circumstances Orchestra	<i>Elgar</i>
Invocation—Reverend Gordon S. Price	
Salute to the Flag George Luker, President, Class of 1947
